

Centennial Jing-Zhang AI Belt - A3 Booklet

From Railway Heritage to an AI-Native Living Corridor - formal design package

Key metric	Value	Status
■■■■■■■ Site area	11.41 km²	provisional
■■■■ Green ratio	0.158	provisional
■■■■■■■ Public-space ratio	0.175	provisional
■■■■■■■ Building footprint	1680832 m²	design
■■■■■ Key areas	3	provisional
■■■■ FAR	unknown	confirm later

PROVISIONAL BOUNDARY: based on a provisional rough boundary, not an official redline; all areas, ratios and spatial conclusions must be recalculated when official geometry is released.

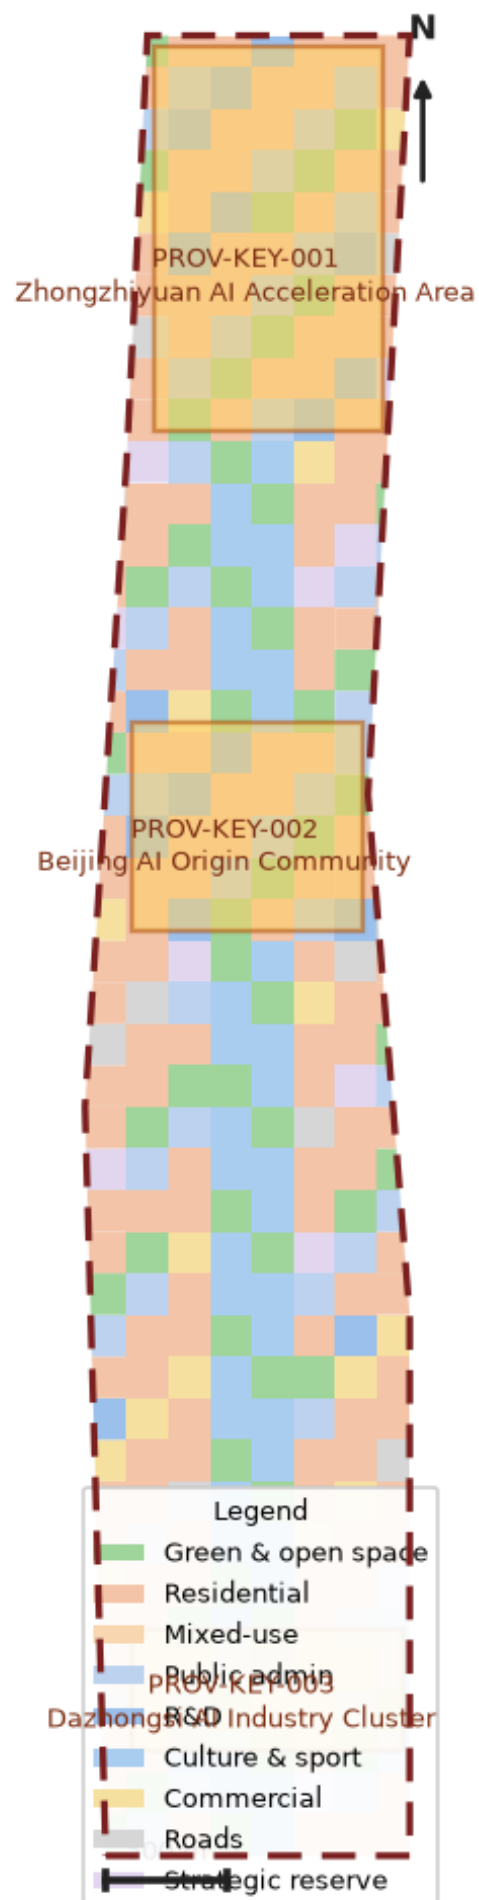

Site Overview

PROVISIONAL BOUNDARY - not an official redline; area/ratios recalculated when official geometry is supplied

Site overview: overall scope, three key areas and AI scene nodes

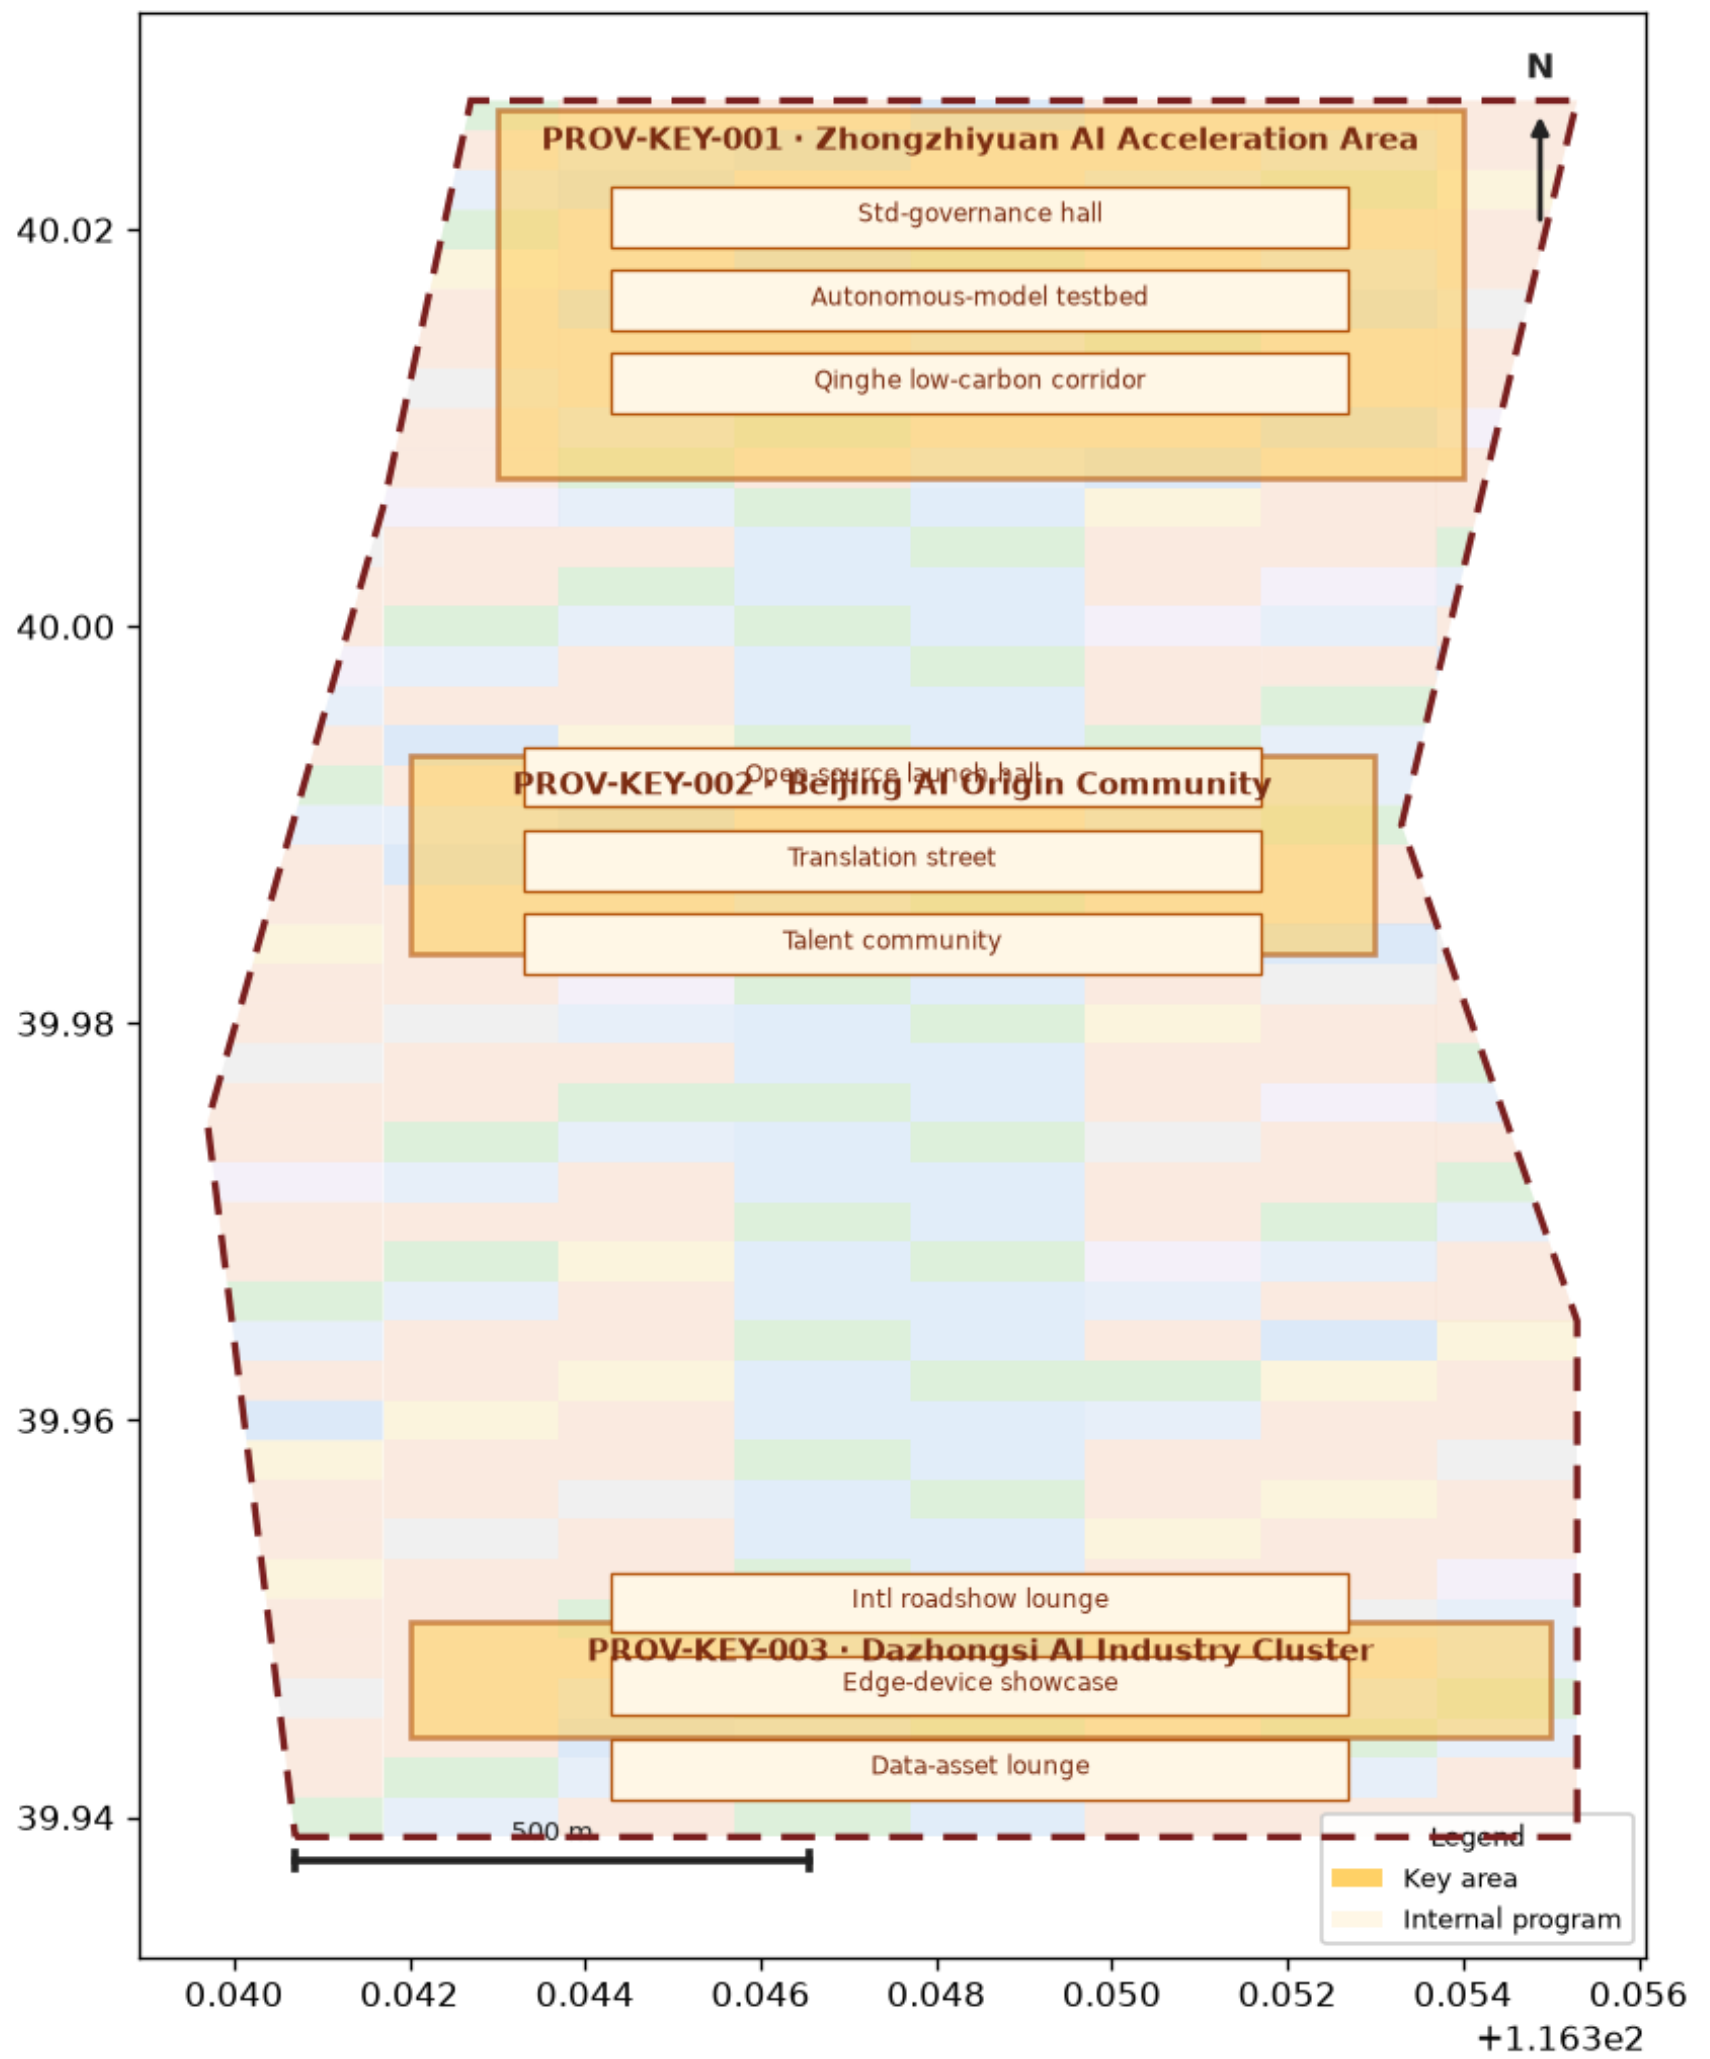

Land-Use Structure

PROVISIONAL BOUNDARY - not an official redline; area/ratios recalculated when official geometry is supplied

Land-use structure (provisional)

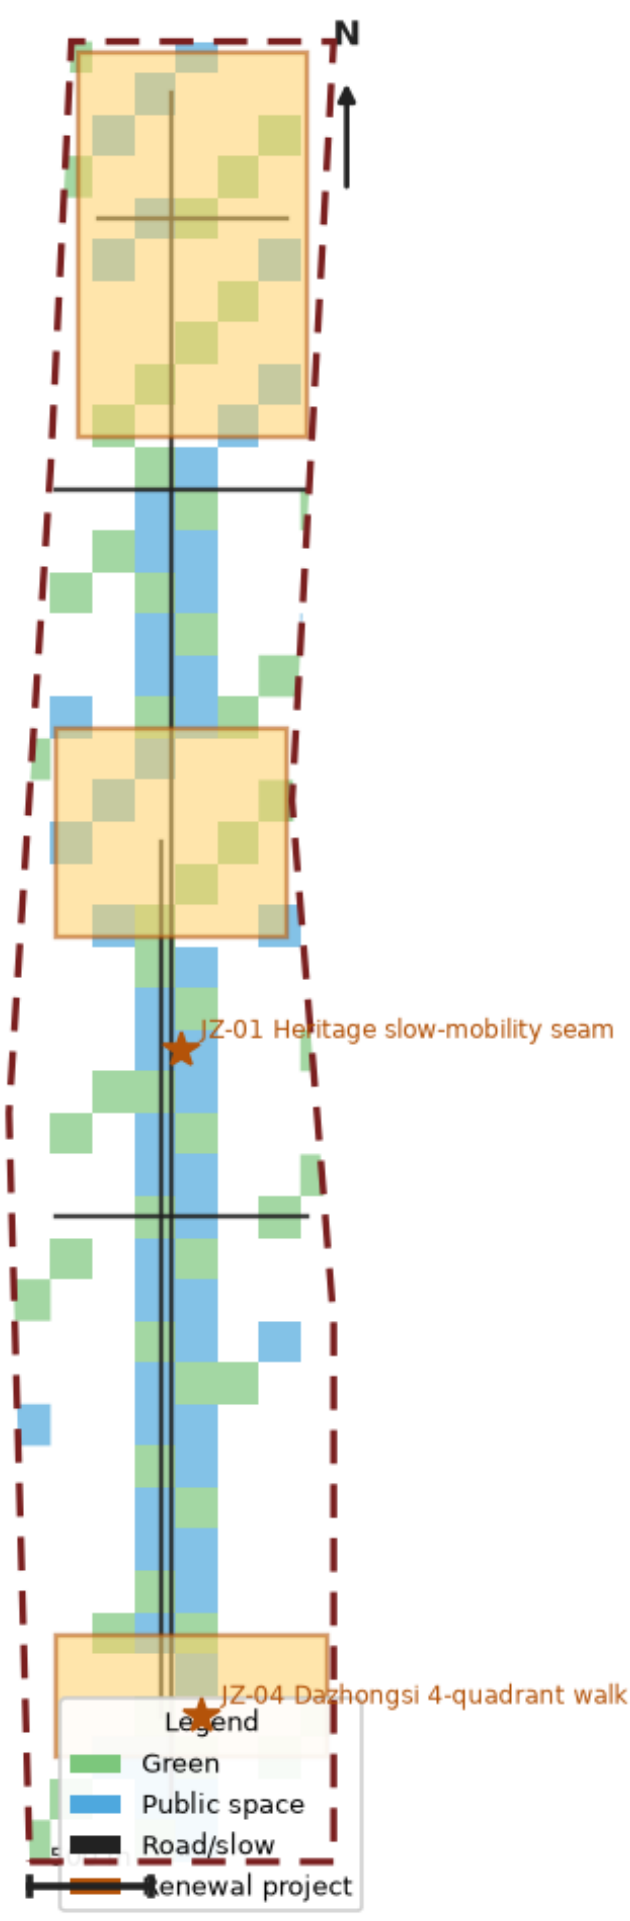

Three Key Areas - Detailed Design

PROVISIONAL BOUNDARY - not an official redline; area/ratios recalculated when official geometry is supplied

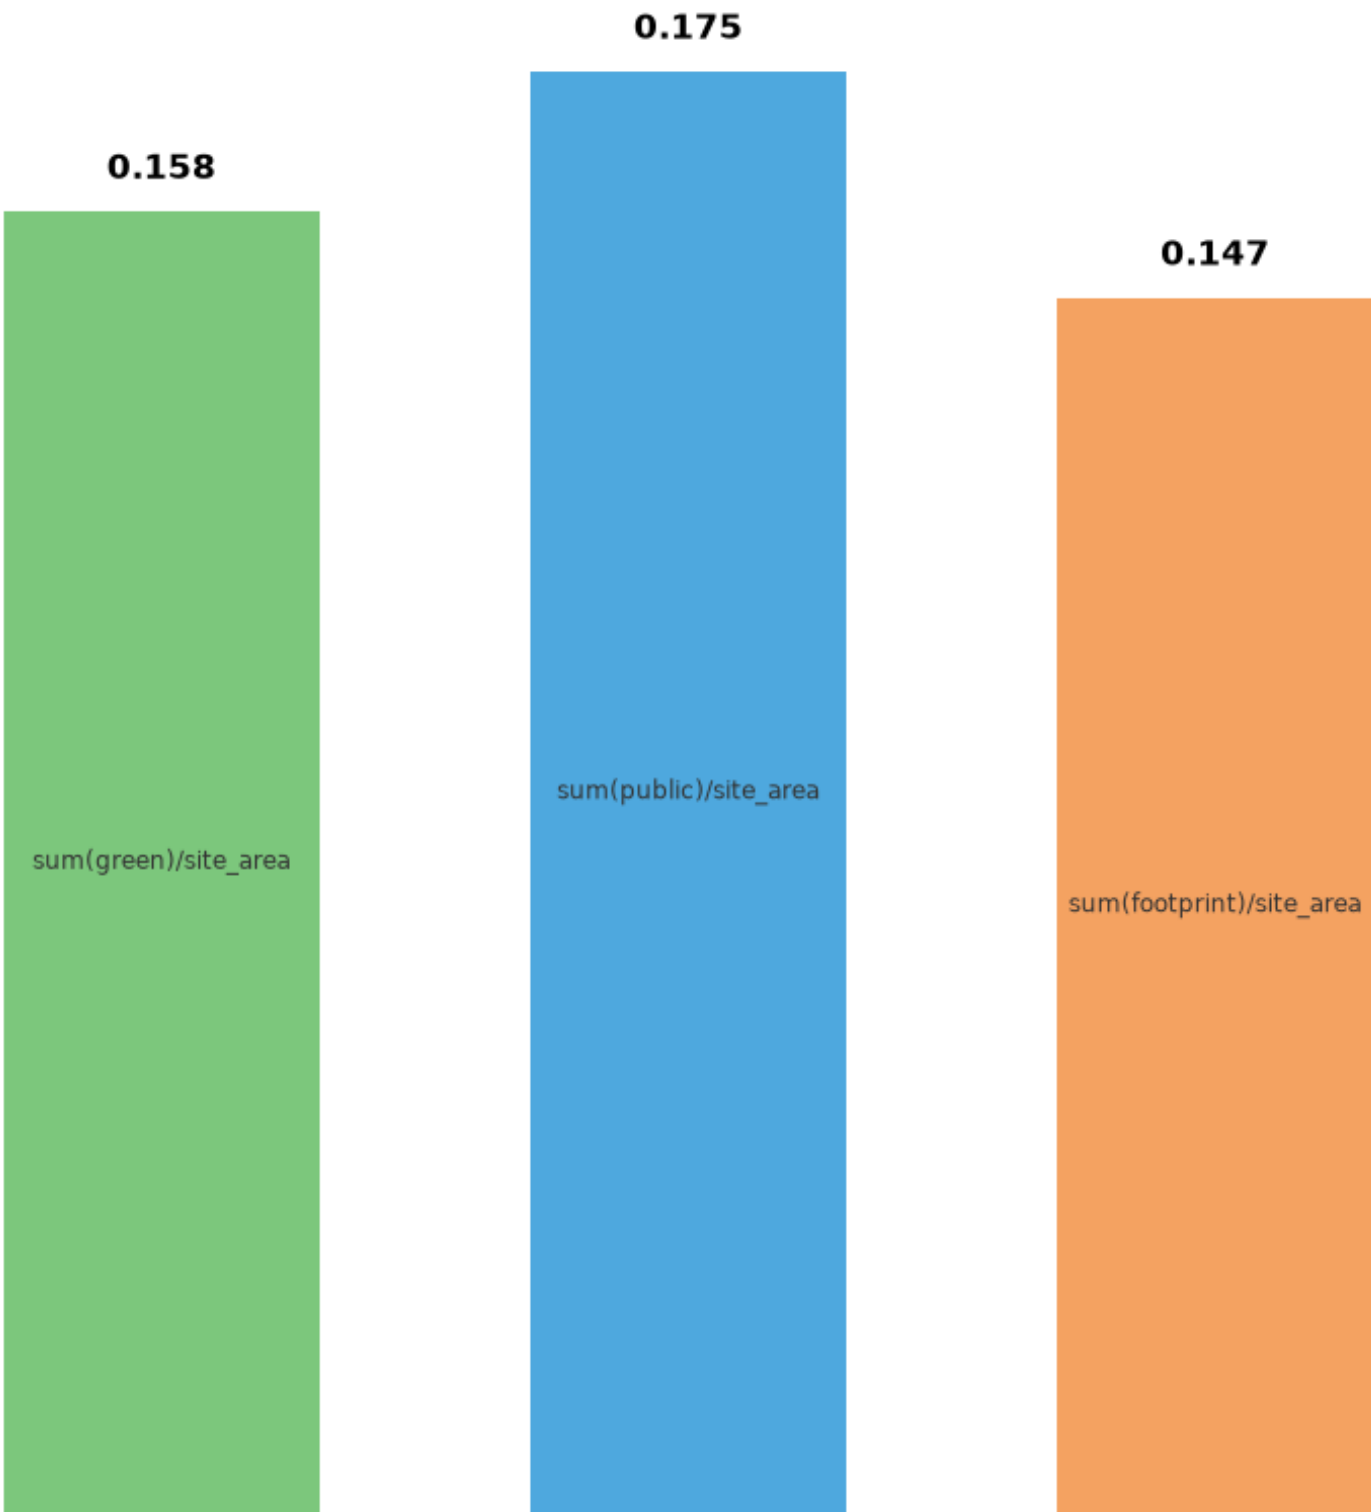

Three key areas: internal programs and scene carriers

Blue-Green Space & Mobility

PROVISIONAL BOUNDARY - not an official redline; area/ratios recalculated when official geometry is supplied

Key Metrics Evidence

Site area = 11.41 km2 (provisional)
Green=0.158 Public-space=0.175 Building footprint=0.147
Formula: ratio = sum(layer_area) / site_area (EPSG:4548)
Source: geometry/green_space.geojson, public_space.geojson, buildings.geojson, site_boundary.geojson#PROV-SITE-001

Key metrics evidence (provisional boundary)

Task coverage

#	Task	Deliverable
1.3-1.5	Official 3-level scope & tasks	compliance_matrix / \$scope
agent.1	Corridor concept · Logo/VI · 3-zone-2-wing	\$brand / FIG-02
agent.2	Full-stack AI ecosystem · global cases	\$global cases / FIG-01
agent.3	10 scenario cards · 3 test scenarios	\$cards / TABLE-SC
agent.4	Public space · landmarks · honor system	\$landmarks / FIG-03
agent.5	Cultural narrative · wayfinding	\$culture / FIG-03
agent.6	Annual events · long-term ops	\$ops / \$metrics
