

Jingzhang Neural Belt - Master Plan

Centennial Jing-Zhang AI Innovation Belt
Urban Design Proposal - English Edition

CONCEPT: Transforming the century-old Jingzhang Railway corridor into an urban neural network connecting three AI innovation cores across 12.12 square kilometers.

THREE KEY AREAS:

- 1. Zhongguancun AI Research Hub - 1.921 sq km
- 2. AI Origin Community - 1.043 sq km
- 3. Dazhongsi Industry Cluster - 0.72 sq km

NOTE: All boundaries are provisional, pending official redline.

Key Areas and AI Scenarios

12 AI Scenarios across 3 Innovation Cores

AI TRAFFIC AND WALKABILITY
Real-time pedestrian flow optimization and smart crossings

AI HEALTH SERVICE NAVIGATION
Community health triage with human oversight and privacy

ROBOT DELIVERY AND LOW-SPEED MOBILITY
Autonomous last-mile delivery in designated corridors

ENTERPRISE SERVICE AI COPILOT
Business intelligence and regulatory compliance tools

6 user personas | 3 test scenarios | 3 AI landmarks

Implementation and Metrics

Phased Strategy 2026-2035

PHASE 1: 2026-2028
Core infrastructure, pilot AI zones, community engagement

PHASE 2: 2028-2030
Full scenario deployment, expansion of innovation cores

PHASE 3: 2030-2035
Regional integration, cross-district collaboration

KEY METRICS (Provisional)
Site Area: 12,116,773 sqm
Green Ratio: 16.52% | Public Space Ratio: 11.85%
Building Footprint: 877,400 sqm

Accessibility: Compliant with Barrier-Free Environment Law
