

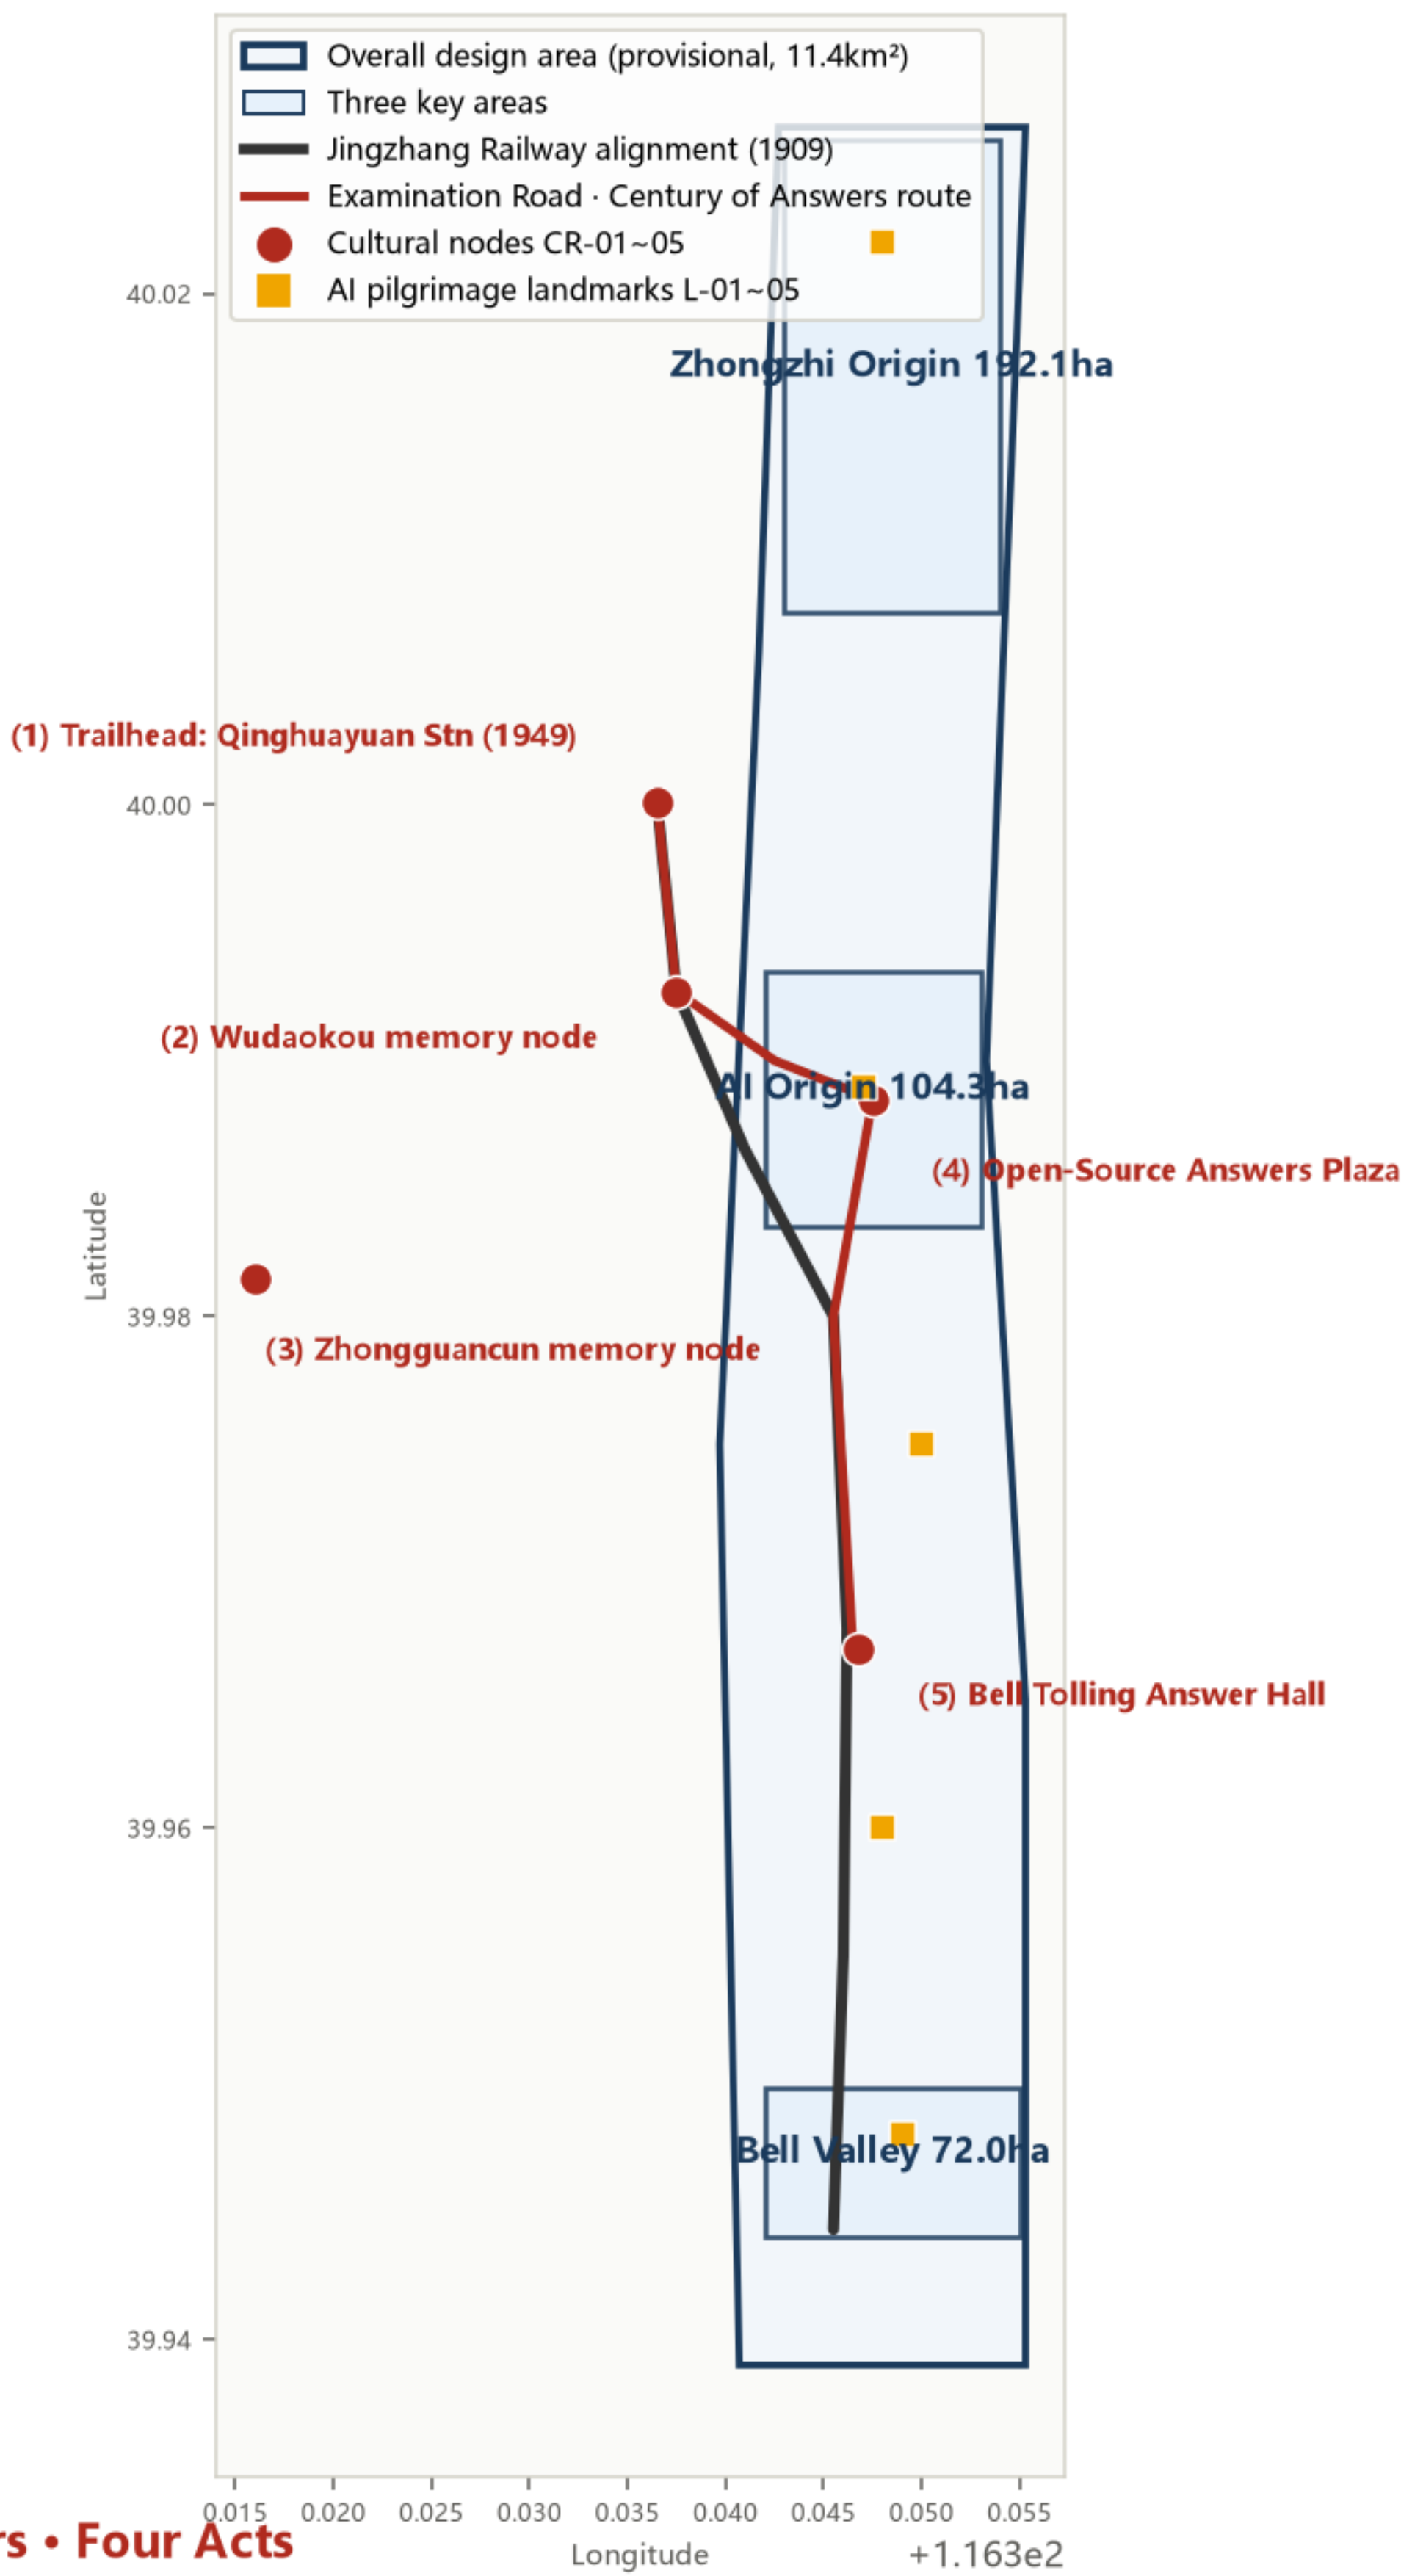

Fig.1 Overall Design Area · 'Century of Answers' Narrative Structure

Intelligent Renaissance Belt v1.1 | provisional boundary + concept geometry, EPSG:4326 display

Century of Answers · Four Acts

- **1909 Self-reliance**—Jingzhang Railway
- **1949 Examination**—Qinghuayuan Stn first stop
- **1980s Entrepreneurship**—Zhongguancun Electronics St.
- **2026 The Answer**—AI Innovation Belt

Boundary note: provisional boundary for AI generation/display only. Qinghuayuan Station is a real heritage anchor ~300m west of the provisional boundary (ASSUME-006).

Fig.3 Three Key Areas & Cultural Anchors — Detailed Design

Red nodes = 'Century of Answers' cultural anchors | areas are provisional announcement values

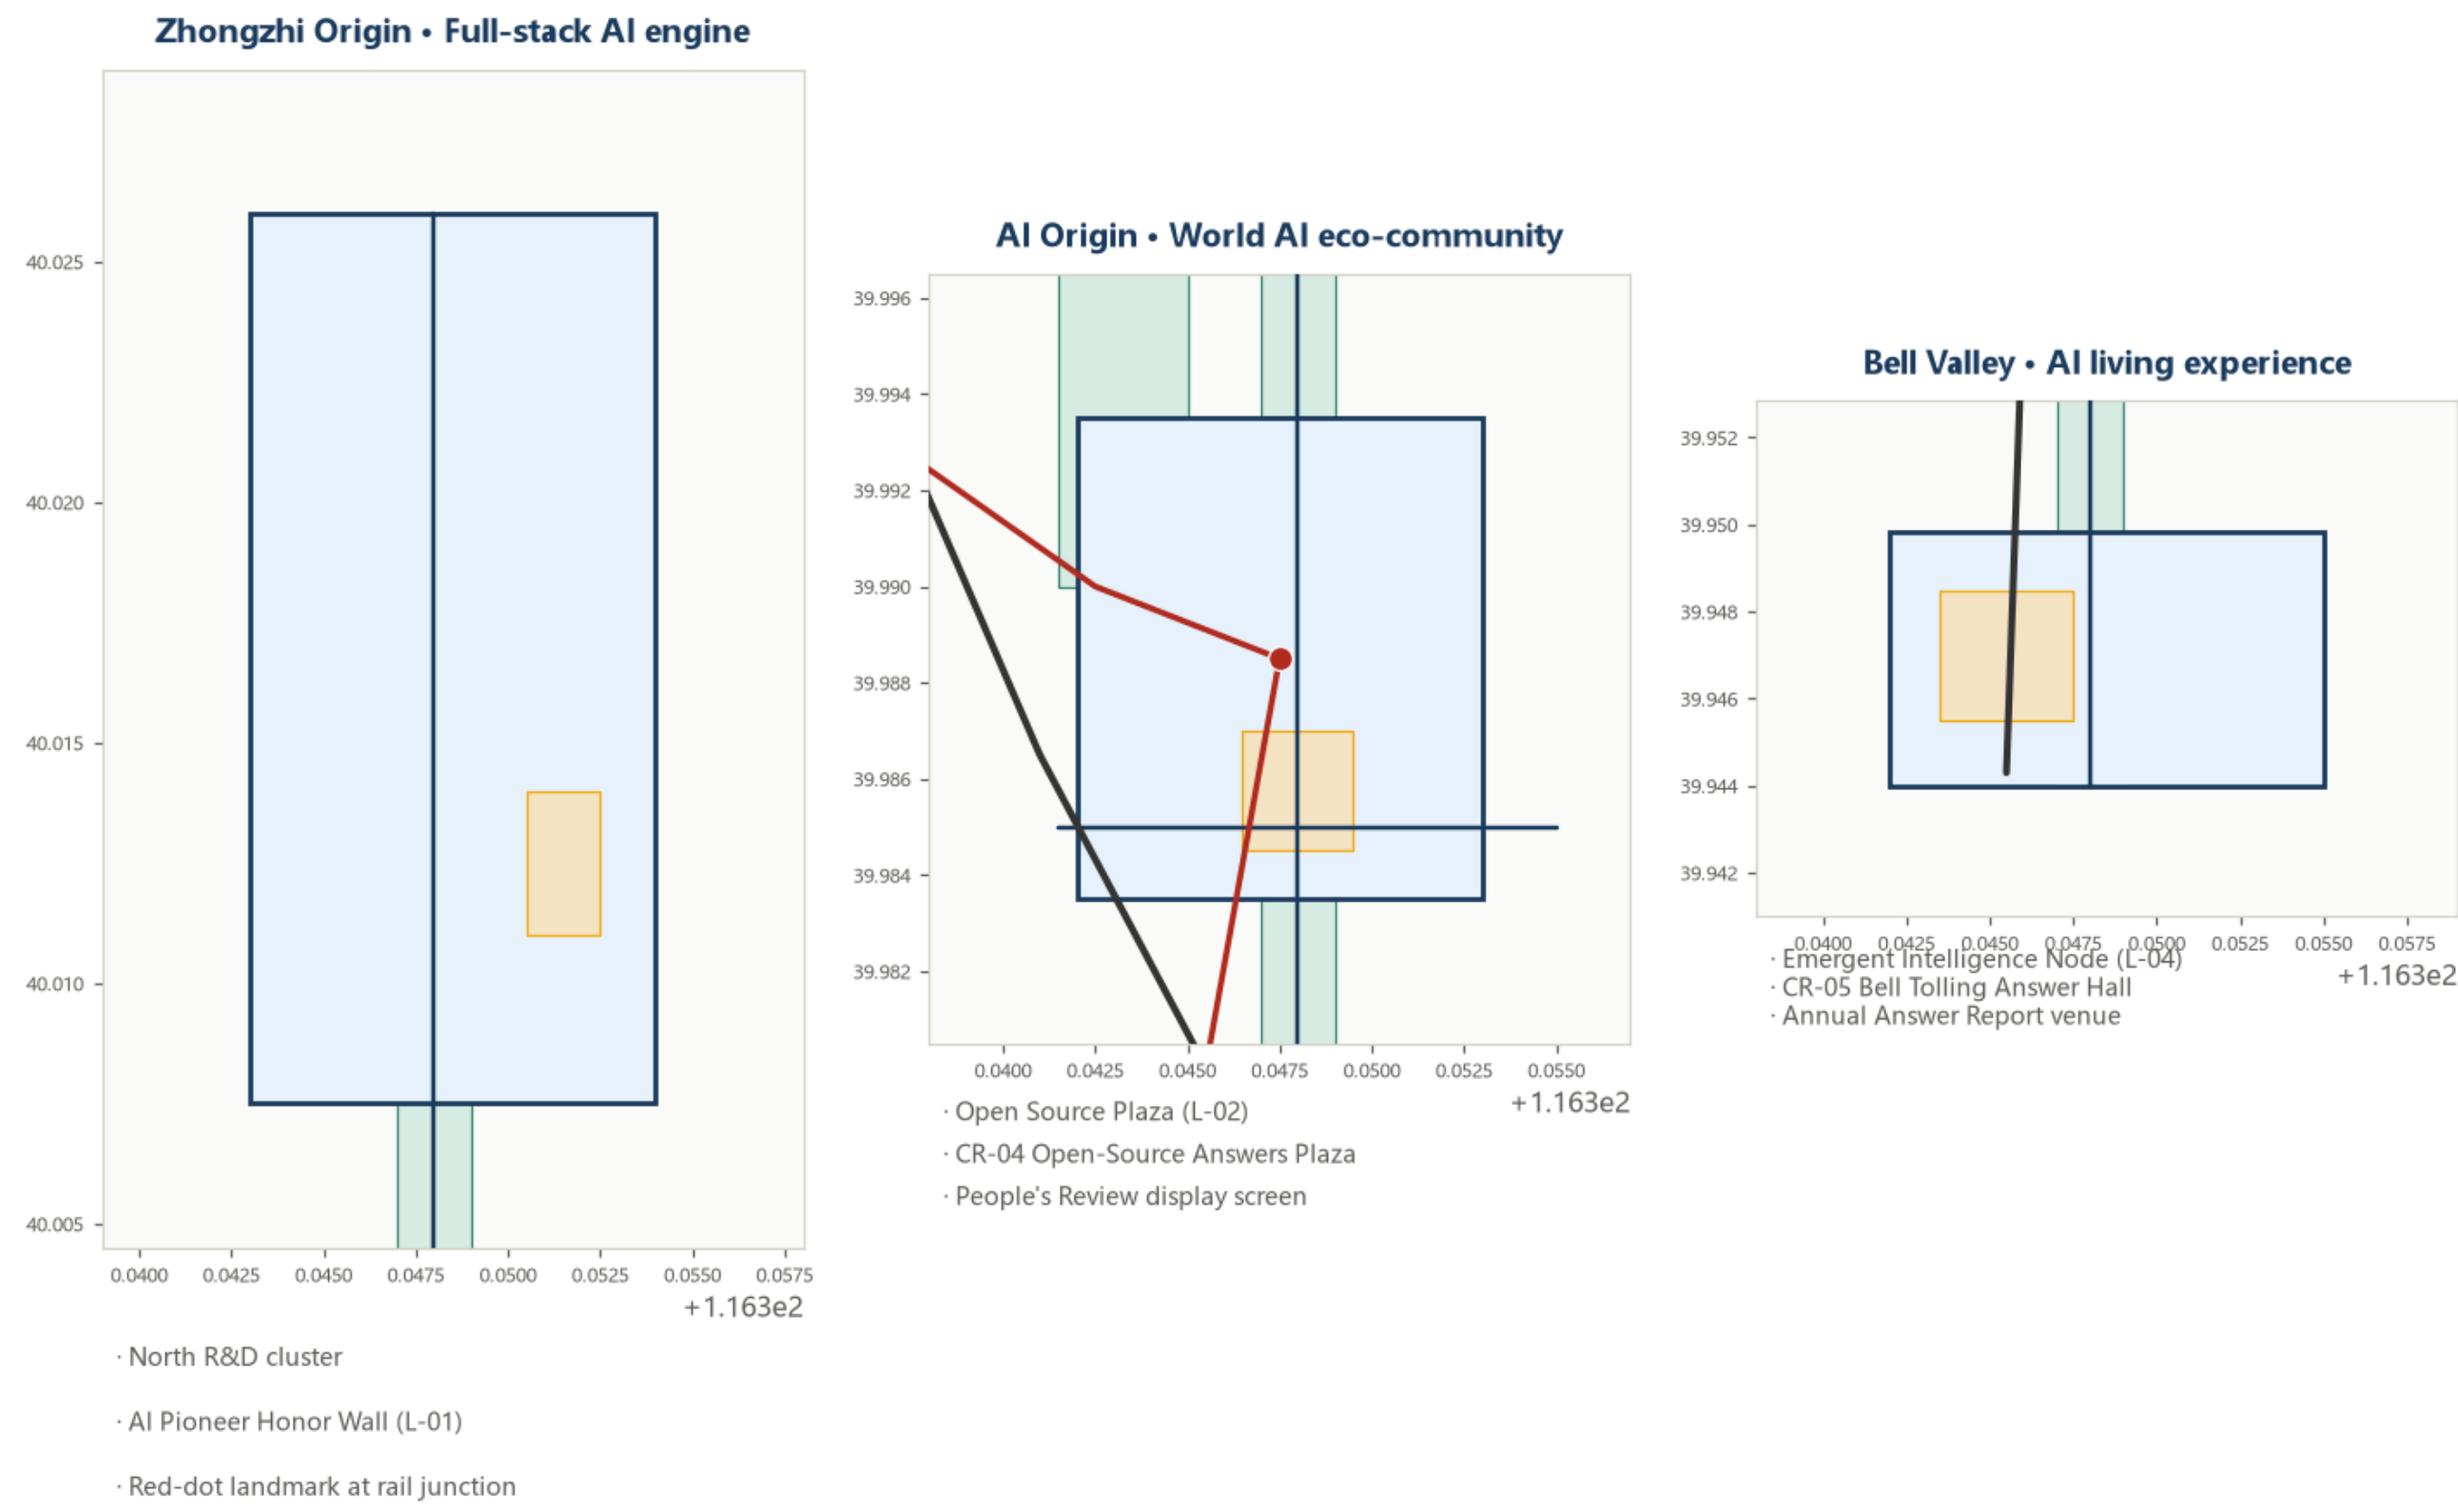

Fig.4 Mobility, Blue-Green Network & Cultural Route

Stitching the railway corridor | fully accessible walking route

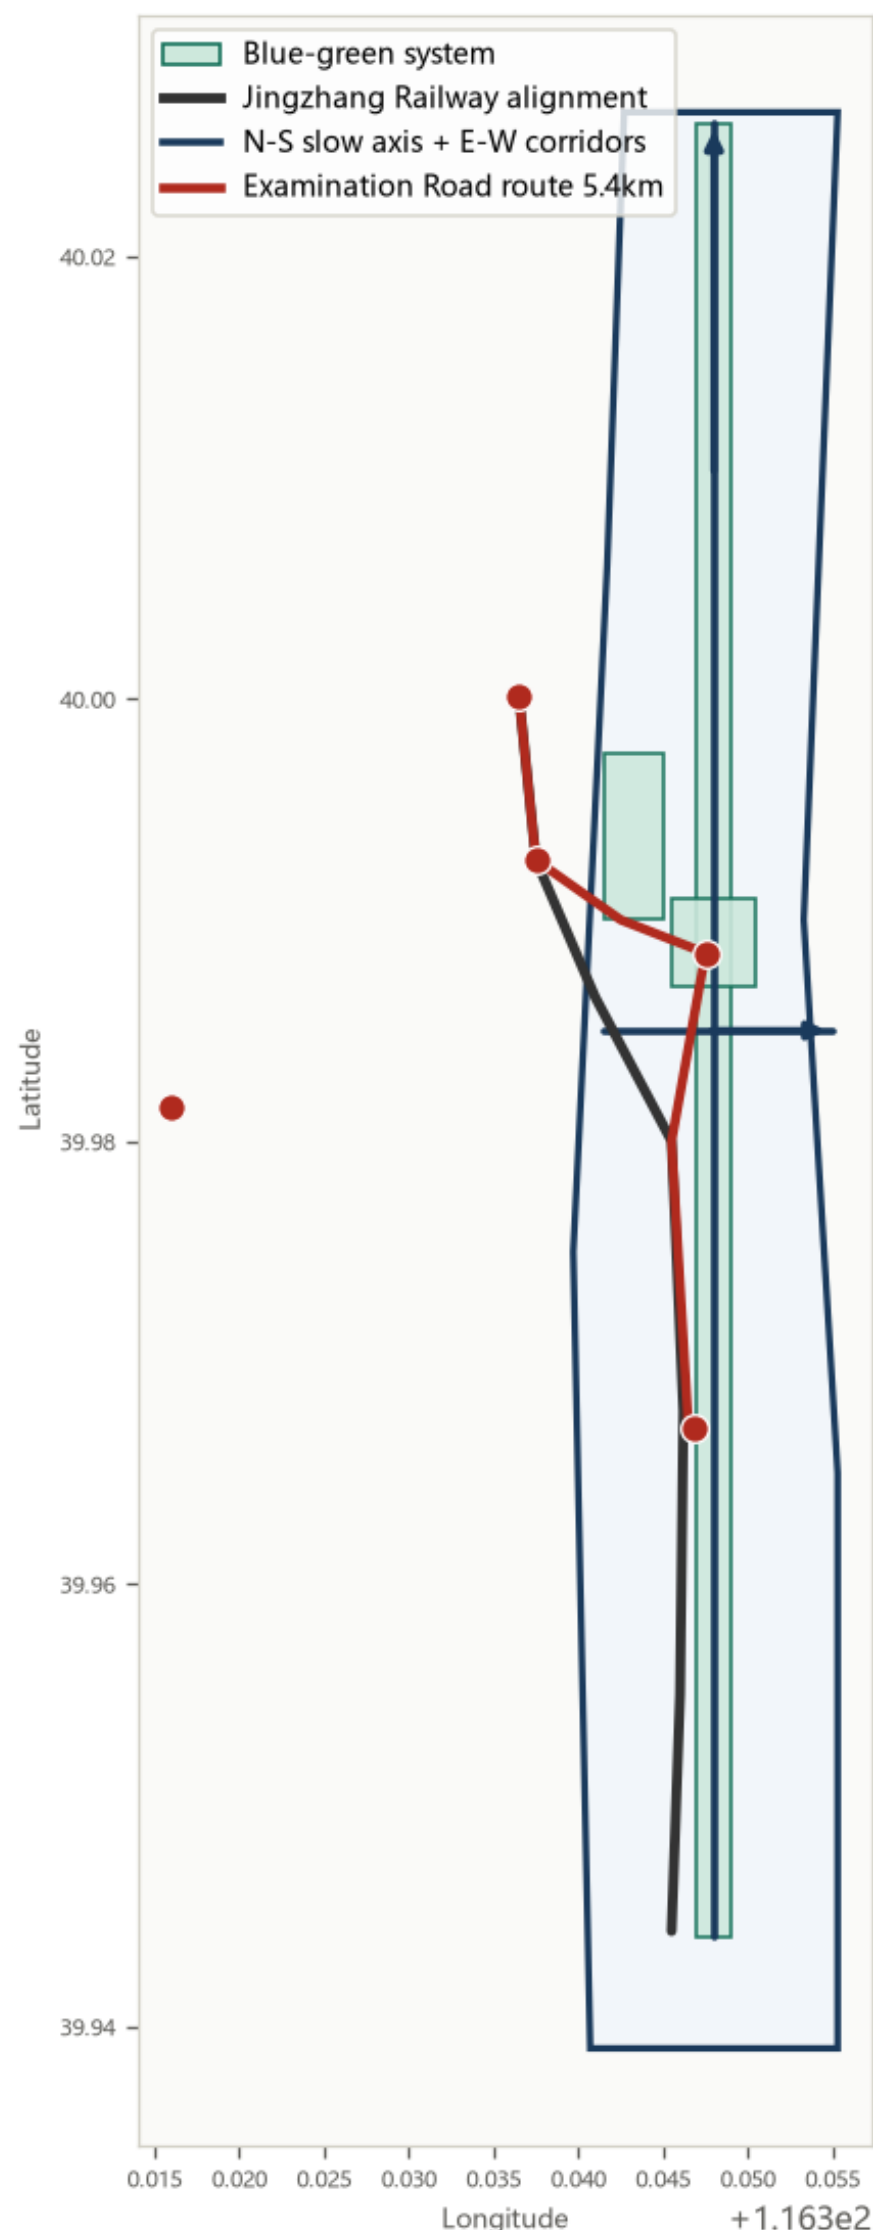

Fig.5 Metrics Recalculation & Evidence Chain

Reproducible metrics (recomputable from GeoJSON)

Measured site area (EPSG:4548)	11,412,825.386
[metric:site_area_sqm]	
Measured green ratio (geometry)	0.168073
[metric:green_ratio]	
Plaza footprint ratio	0.002027
[metric:public_space_ratio]	
Cultural route nodes	5
[metric:culture_route_nodes_count]	
People's Review cycles/yr	1
[metric:people_review_cycle_count]	

Content counts (all taskbook minimums met)

Scenario cards	12	Test scenarios	4
Personas	6	AI landmarks	5
Case studies	7	Annual events	8

Evidence chain

- 公告+任务书(formal)
- OSM/产业报告(background)
- 临时边界(provisional)
- 清华园车站史实 SRC-QHY-STATION-2023(background)
- EPSG:4548复算(metrics.json)

All metrics status=known & reproducible. The 35% green target is a concept goal; the measured 16.8% is geometry-derived — listed separately.
