

AFTER WORK, THE CITY KEEPS LEARNING

The Second Shift is not a 24/7 scheduling system.

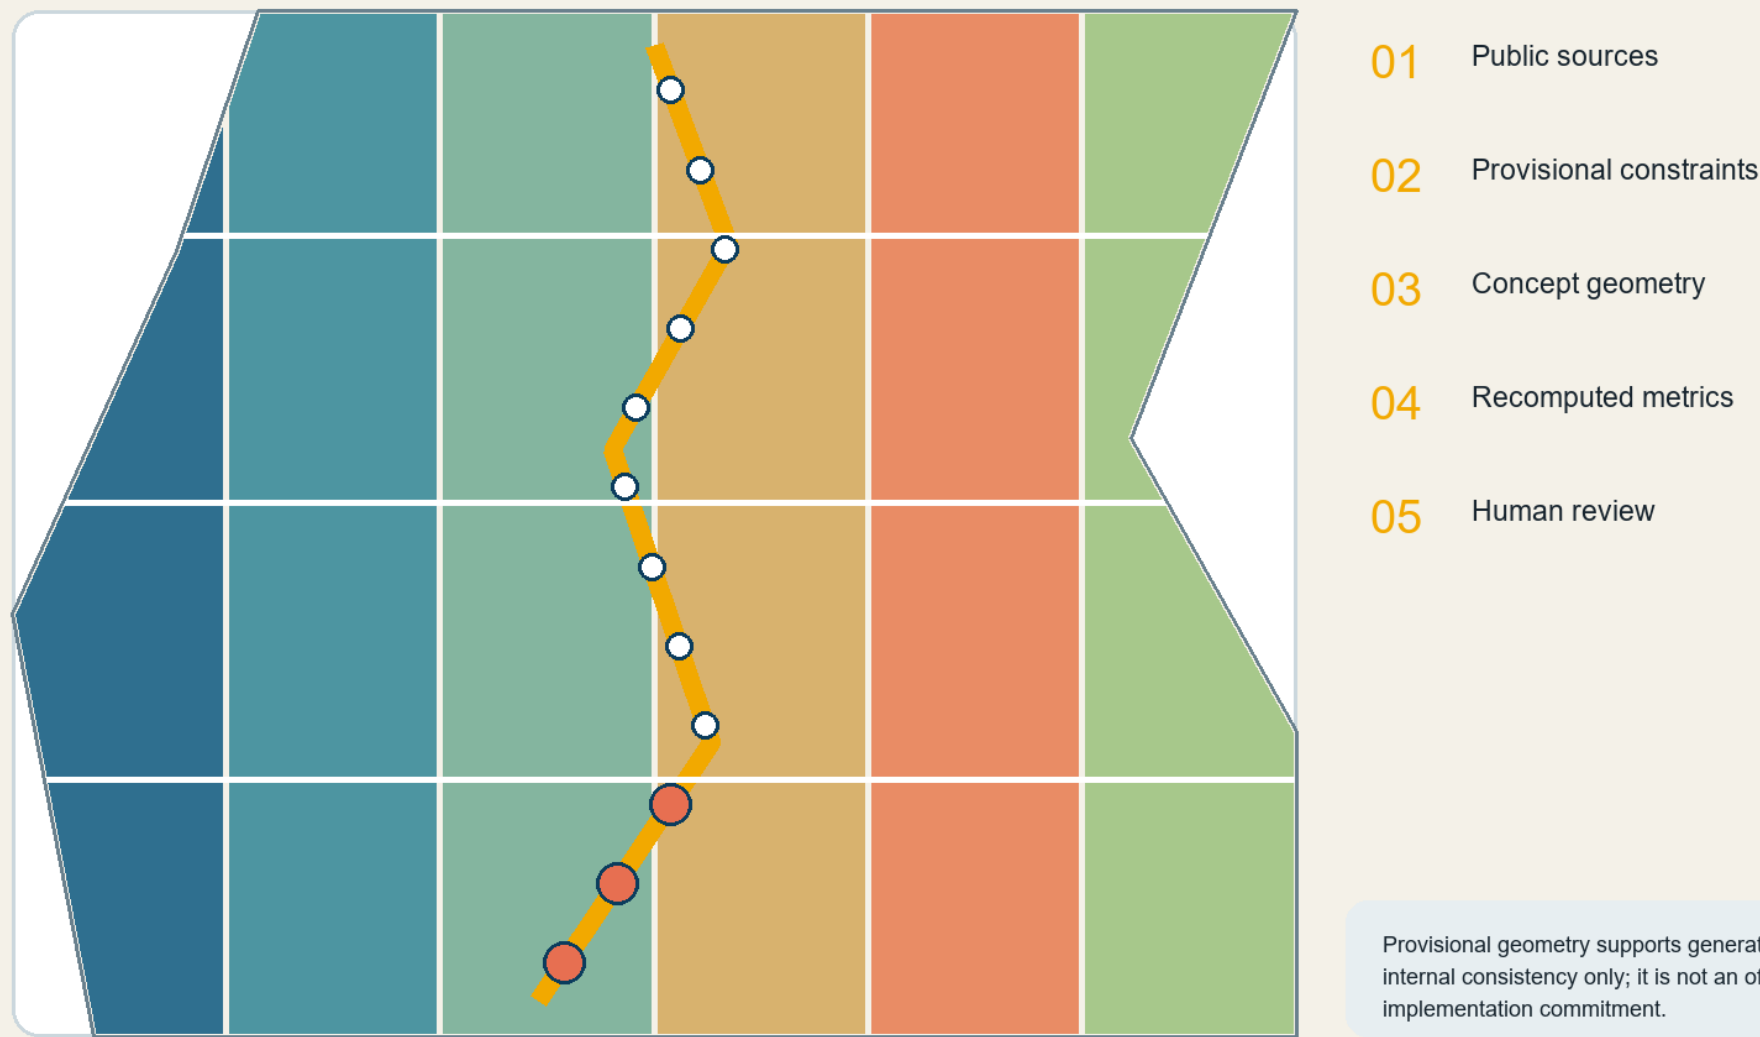

It focuses on after-hours conversion of campus, park, enterprise and community interfaces.

Testing scenarios require booking, isolation, logs and human review.

FAR, height, road redlines, ownership and engineering feasibility remain unknown.

SOURCE—SPACE—OPERATIONS EVIDENCE CHAIN

JING-ZHANG SECOND SHIFT · V1.2 · CONCEPTUAL / NON-STATUTORY

SIX CONVERSION CELLS + LEARNING SPINE

The Second Shift is not a 24/7 scheduling system.

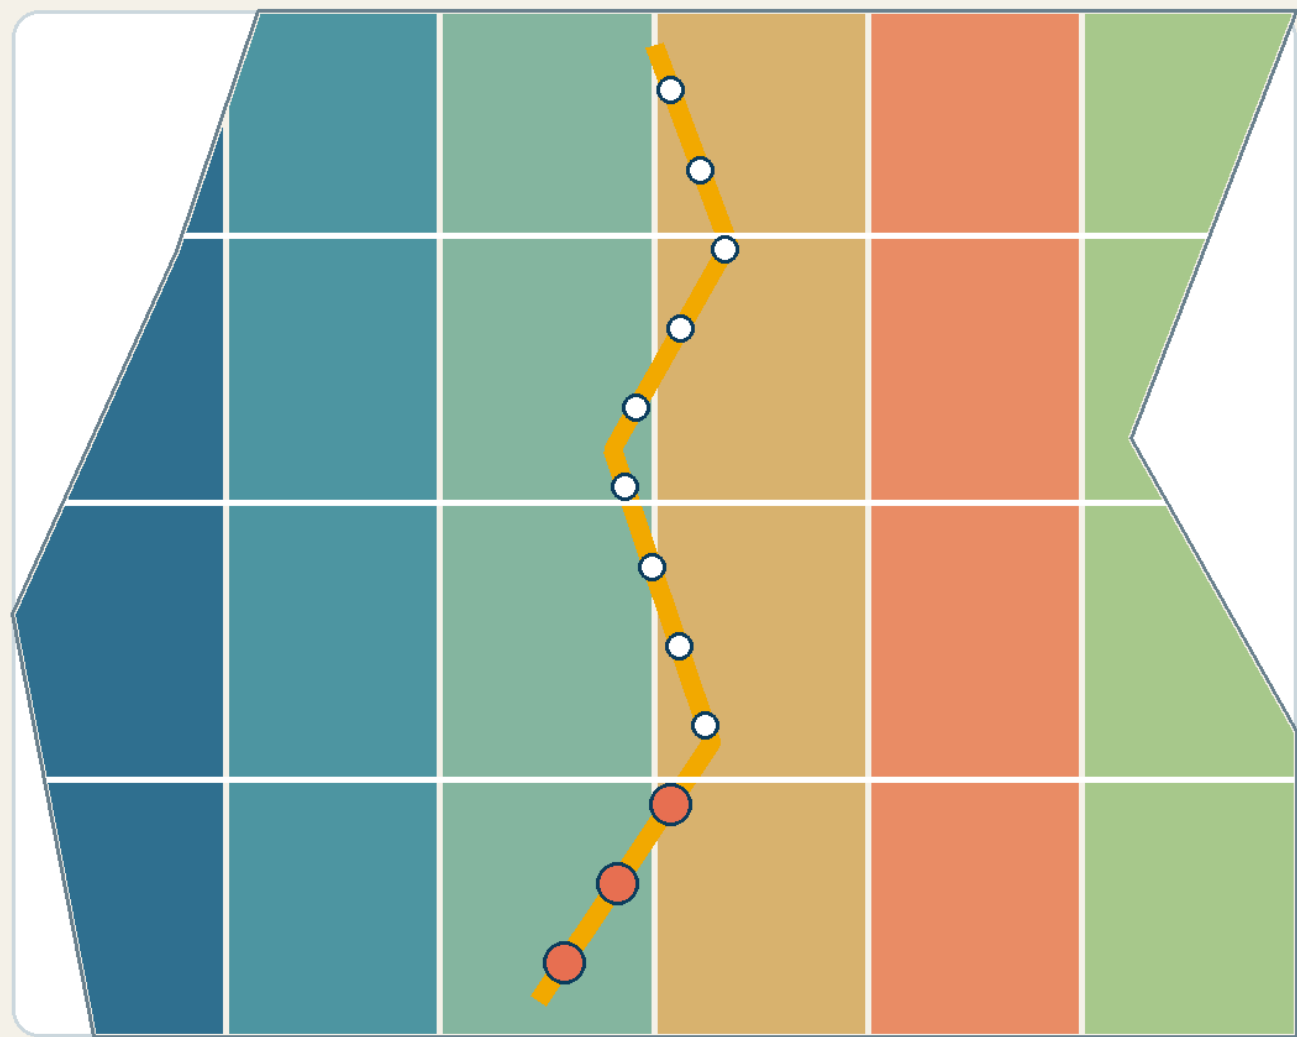

It focuses on after-hours conversion of campus, park, enterprise and community interfaces.

Testing scenarios require booking, isolation, logs and human review.

FAR, height, road redlines, ownership and engineering feasibility remain unknown.

SIX AFTER-HOURS CELLS + SECOND SHIFT SPINE

JING-ZHANG SECOND SHIFT · V1.2 · CONCEPTUAL / NON-STATUTORY

- 01 Safety validation and R&D
- 02 Open learning and education
- 03 Community and talent services
- 04 Rail culture and public knowledge
- 05 Industry and business services
- 06 Low-impact green open space

Provisional geometry supports generation, discussion and internal consistency only; it is not an official boundary or implementation commitment.

THREE KEY-AREA INTERFACES

The Second Shift is not a 24/7 scheduling system.

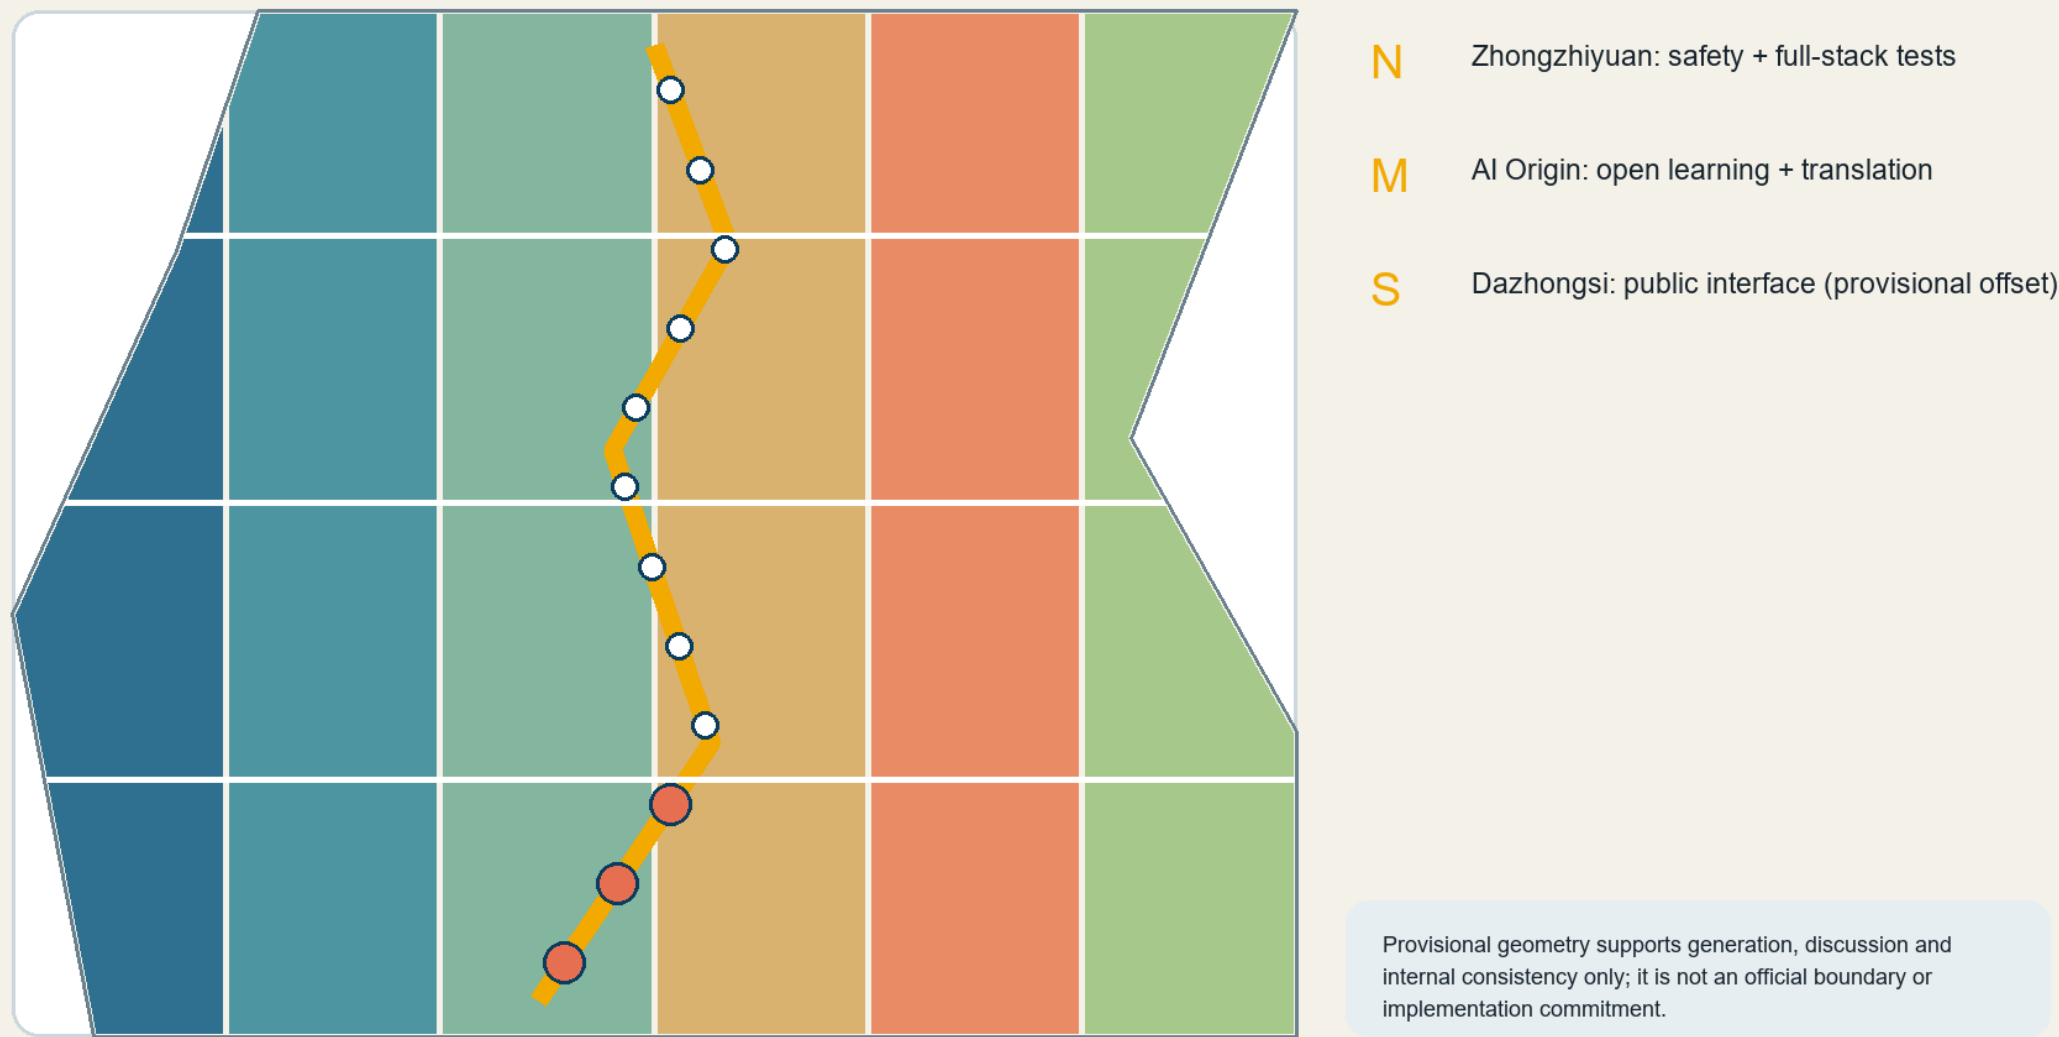

It focuses on after-hours conversion of campus, park, enterprise and community interfaces.

Testing scenarios require booking, isolation, logs and human review.

FAR, height, road redlines, ownership and engineering feasibility remain unknown.

THREE KEY AREAS, THREE INTERFACES

JING-ZHANG SECOND SHIFT · V1.2 · CONCEPTUAL / NON-STATUTORY

SCENARIOS, GOVERNANCE + OPERATIONS

The Second Shift is not a 24/7 scheduling system.

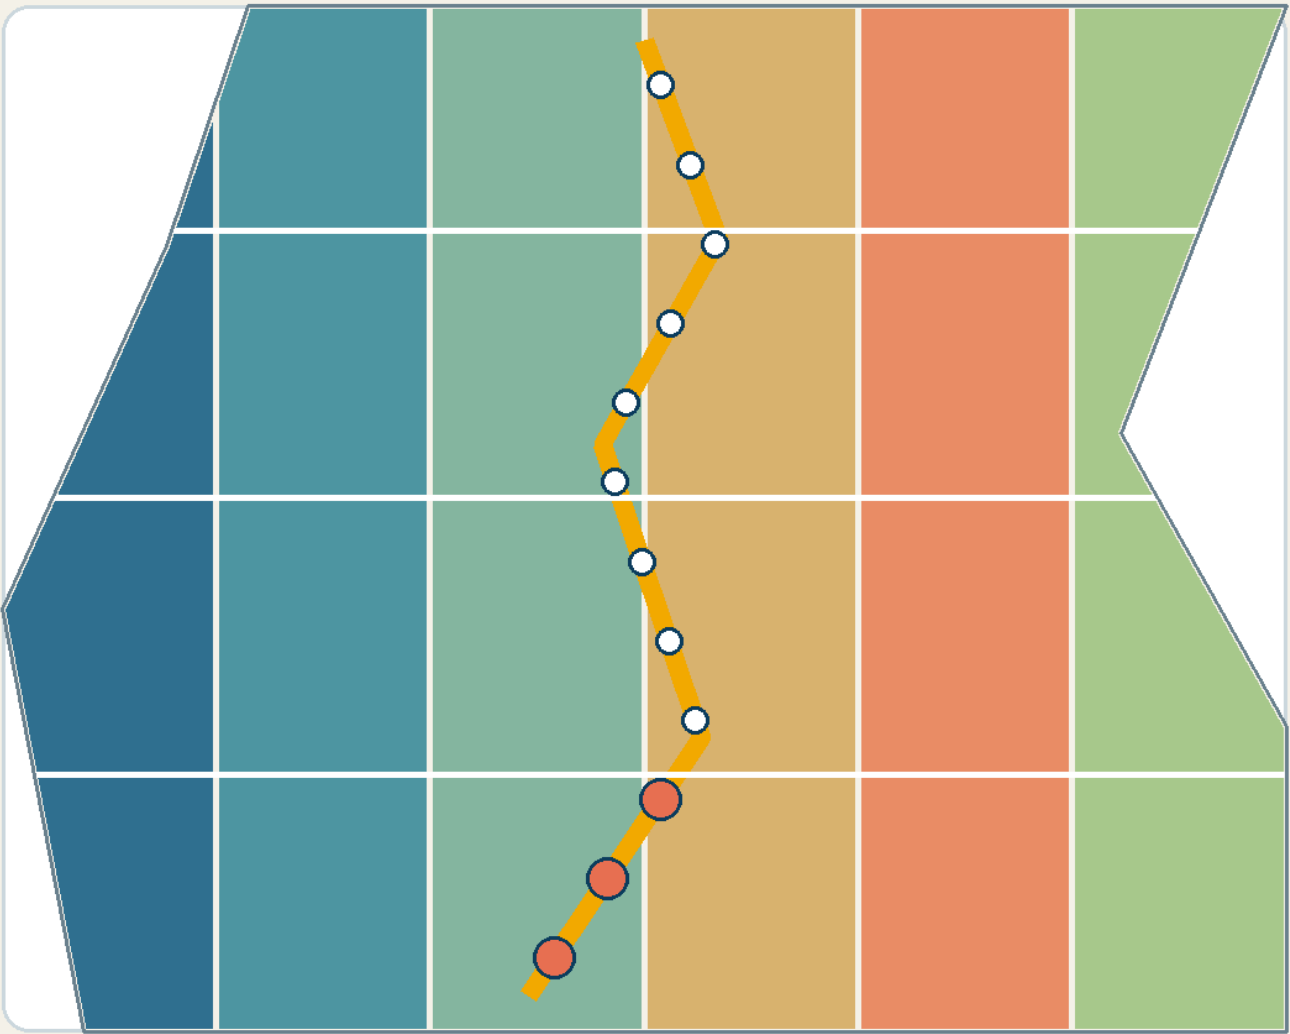

It focuses on after-hours conversion of campus, park, enterprise and community interfaces.

Testing scenarios require booking, isolation, logs and human review.

FAR, height, road redlines, ownership and engineering feasibility remain unknown.

LOW-GLARE MOBILITY, GREEN BUFFER, SHARED ROOMS

JING-ZHANG SECOND SHIFT · V1.2 · CONCEPTUAL / NON-STATUTORY

- 18 18:00 shared interfaces open
- 20 20:00 learning + tests
- 23 23:00 quiet close

Provisional geometry supports generation, discussion and internal consistency only; it is not an official boundary or implementation commitment.

PHASING, METRICS + DATA GAPS

The Second Shift is not a 24/7 scheduling system.

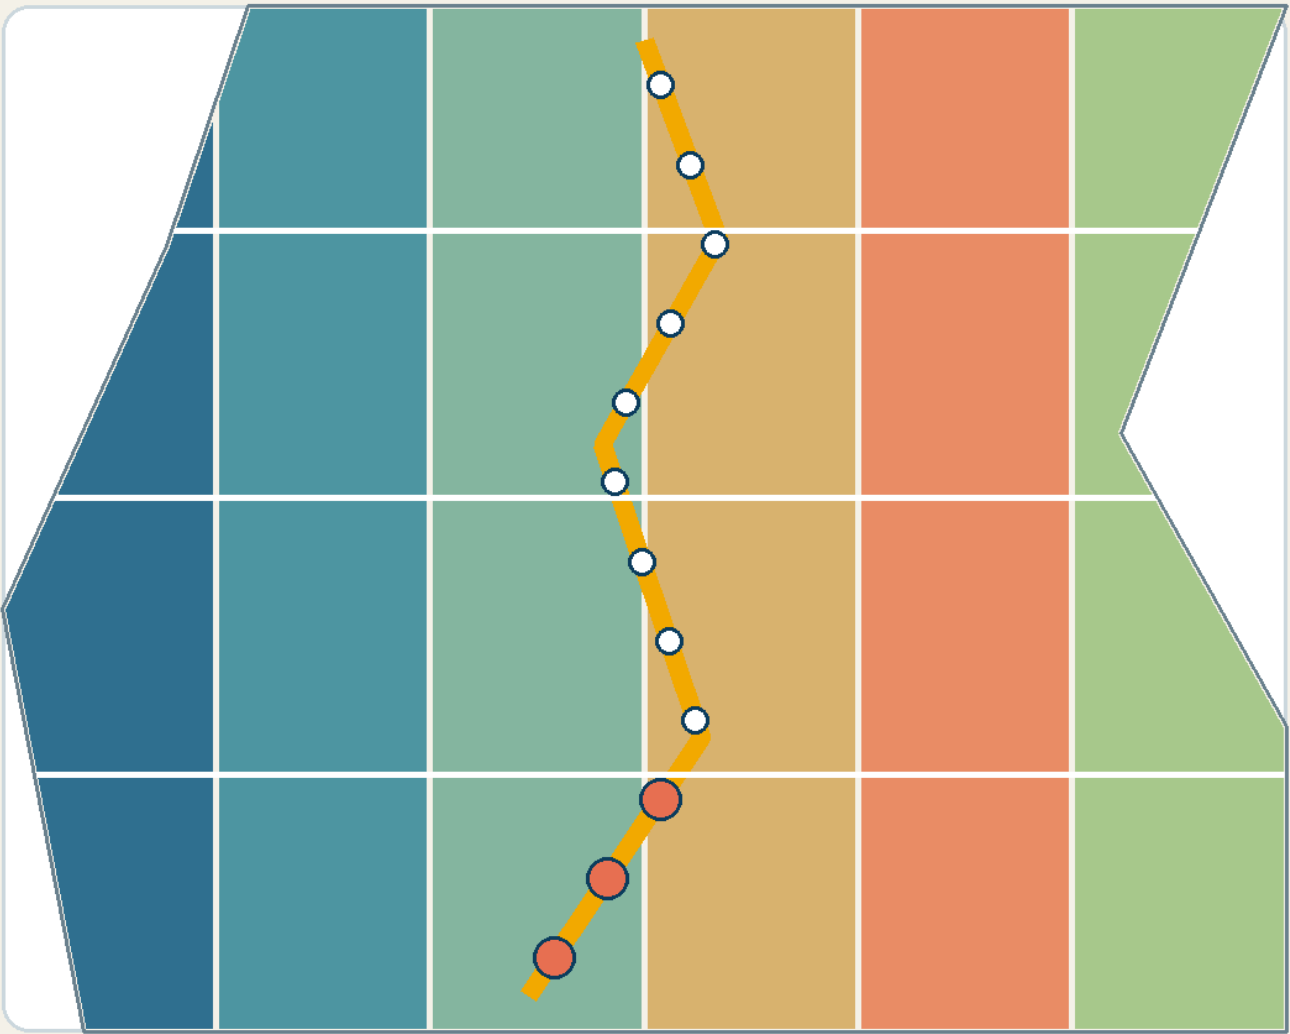

It focuses on after-hours conversion of campus, park, enterprise and community interfaces.

Testing scenarios require booking, isolation, logs and human review.

FAR, height, road redlines, ownership and engineering feasibility remain unknown.

RECOMPUTABLE CONCEPT METRICS + UNKNOWN CONTROLS

JING-ZHANG SECOND SHIFT · V1.2 · CONCEPTUAL / NON-STATUTORY

- 12 Scenario nodes
- 03 Testing scenarios
- 06 Shared rooms
- ? FAR, height and redlines await official data

Provisional geometry supports generation, discussion and internal consistency only; it is not an official boundary or implementation commitment.
