

Heritage spine • three cores • two wings • verifiable AI scenes

PROVISIONAL CONSTRAINT / 临时约束范围

Overall concept: Civic Test Loop

Provisional envelope is quiet; public network is loud; not an official redline

JZ / CTL

ONE BELT / THREE CORES

- Heritage civic spine
- + Test and governance
 - + Open contribution
 - + Urban exchange
 - + Technology wing
 - + Scenario wing

Four lines: heritage / service / blue-green / evidence

SITE AREA

11.41 km²

KEY AREAS

3

Main idea

Let AI pass through public space, human judgment and rollback before long-term renewal.

设计判断

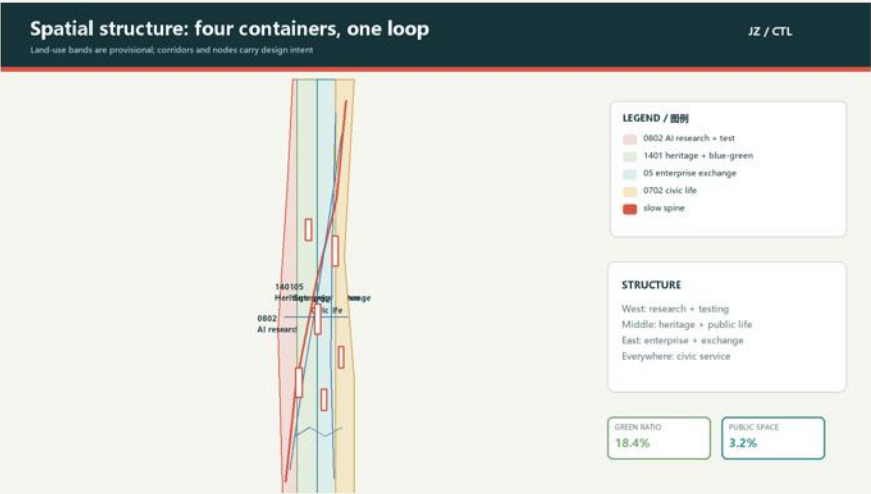

Place AI tests inside public space, human judgment and a rollback loop before fixing them as permanent infrastructure.

EVIDENCE STACK

GeoJSON → metrics → matrices → figures → HTML / PDF

The visual layer explains; structured files remain authoritative.

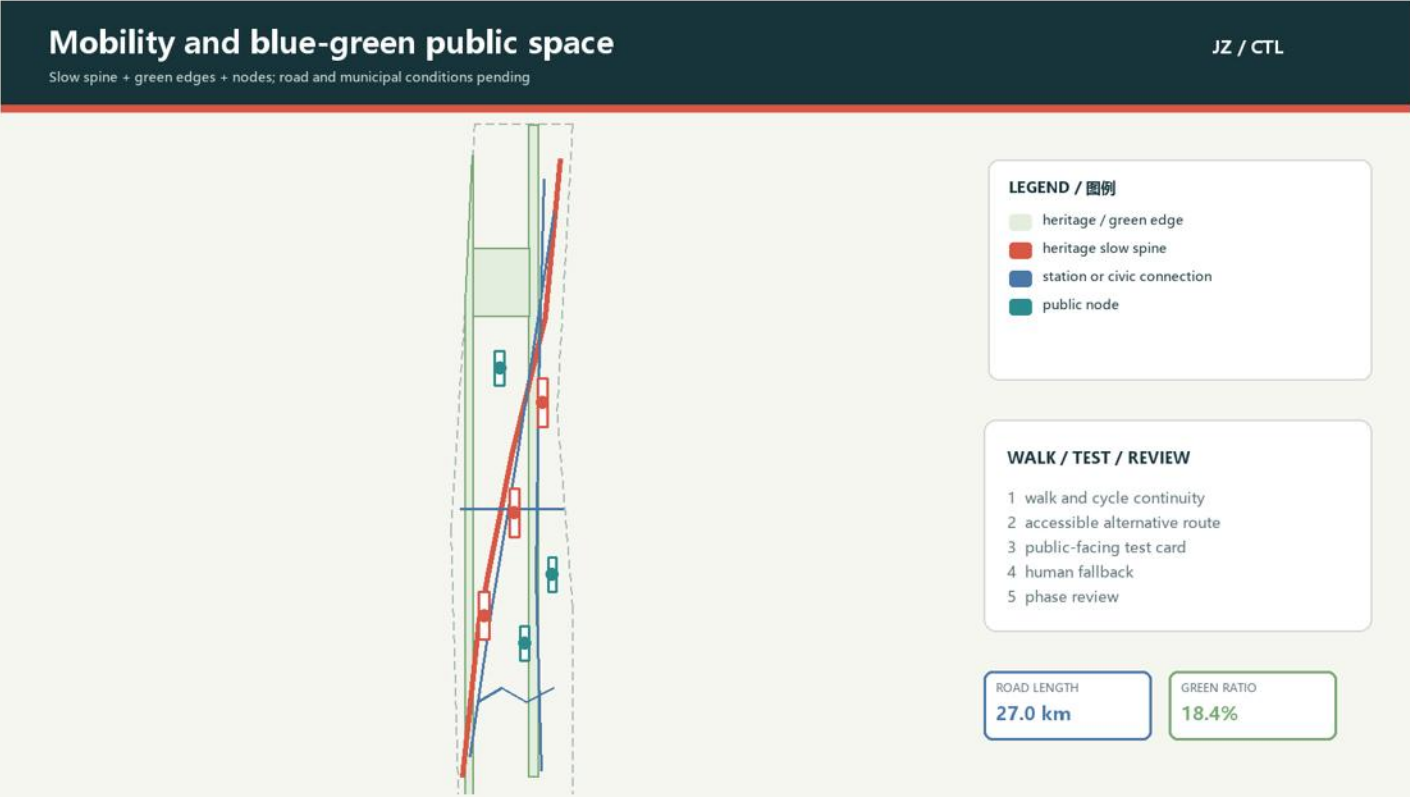

Land use, blue-green, mobility and three key areas

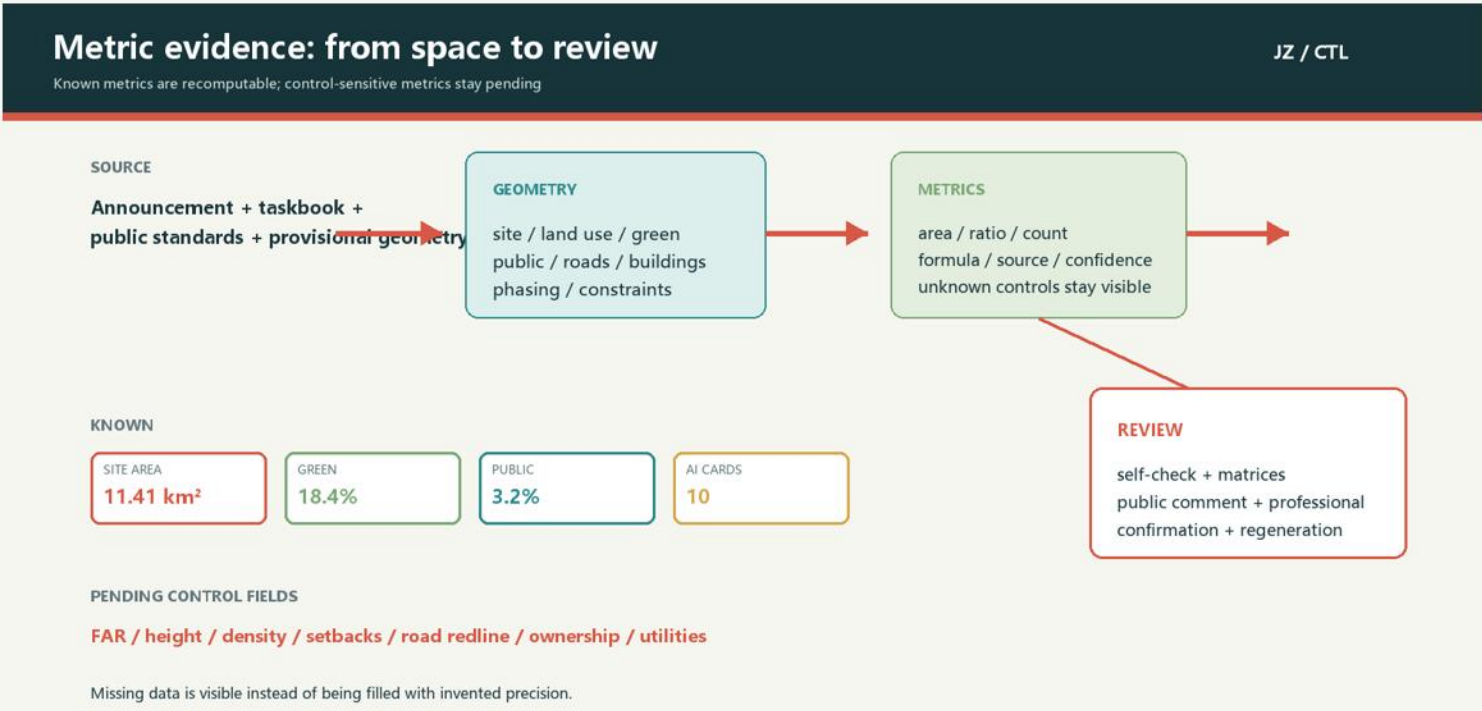

THREE ROLES

- Zhongzhiyuan: test and governance yard
- AI Origin: contribution and translation district
- Dazhongsi: urban exchange lobby

All area boxes remain provisional constraints.

AI scenarios, operations and auditable metrics

TEN CARDS / 10 张场景卡

T-01 model evaluation · T-02 low-carbon compute · T-03 accessible mobility
S-04 open release · S-05 translation street · S-06 roadshow lobby
S-07 civic service · S-08 maintenance · S-09 comfort watch · S-10 event route

Human review, privacy boundary, source and rollback are required for every card.

FAR / height / density / road redline: pending official data
