GREEN: substantive coverage · COPPER: method defined but depends on official boundary, survey, ownership, utilities, heritage, market or authorization

Concept proposal · provisional boundaries · subject to statutory planning, survey, ownership and engineering review

PEN & CODEX · 2026-08-09

01

THREE LINES · heritage / everyday / fusion innovation

02

FIVE FUNCTIONS · full stack / ecosystem / scenarios / vitality / governance

03

THREE ZONES · Zhongzhiyuan / AI Origin / Dazhongsi

04

TWO WINGS · Zhongguancun Services / Xiaoyue River Scenarios

CORRECT THE FACTS BEFORE DESIGN

Phase II is complete. The agenda shifts from building a park from scratch to post-occupancy review, residual gaps, mixed functions and long-term operation.

STATUS · CONCEPT · BASELINE / TARGET / VERIFICATION SEPARATED

01

A · official facts and public data

02

B · planning inference triangulated across sources

03

C · field survey, counts, interviews or specialist tests

04

District data never substitutes for site baselines

03 / EVIDENCE

THREE-SCALE EVIDENCE & SIX ISSUES

Separate Beijing policy, Haidian district data, built corridor status and field-verification gaps; never substitute district totals for site facts.

BEIJING · BUILT-STOCK GOVERNANCE

complete communities · urban renewal · resilient lifelines · commerce

HAIDIAN · INNOVATION TRANSFER

campus-city integration · transfer · affordable space · services

JING-ZHANG · POST-OCCUPANCY

park substantially complete; focus on residual gaps, mixed use and operations

ISS-01

RESIDUAL GAPS

ring roads · rail · waterways · gateways · last mile

A/B DESKTOP EVIDENCE + C FIELD CHECK

ISS-02

DAILY USABILITY

space exists but access, dwell time and services mismatch

A/B DESKTOP EVIDENCE + C FIELD CHECK

ISS-03

COMMUNITY SYSTEMS

utilities · fire · access · property operations fragmented

A/B DESKTOP EVIDENCE + C FIELD CHECK

ISS-04

RIGHT-OF-WAY CONFLICT

walking · cycling · parking · delivery · transfer overlap

A/B DESKTOP EVIDENCE + C FIELD CHECK

ISS-05

TRANSFER GAPS

early capital · pilot scale · low-cost space · first use missing

A/B DESKTOP EVIDENCE + C FIELD CHECK

ISS-06

FEEDBACK LOOP

internal efficiency detached from public explanation

A/B DESKTOP EVIDENCE + C FIELD CHECK

Concept proposal · provisional boundaries · subject to statutory planning, survey, ownership and engineering review

PEN & CODEX · 2026-08-09

TURN RESEARCH DENSITY INTO CALLABLE CAPABILITY

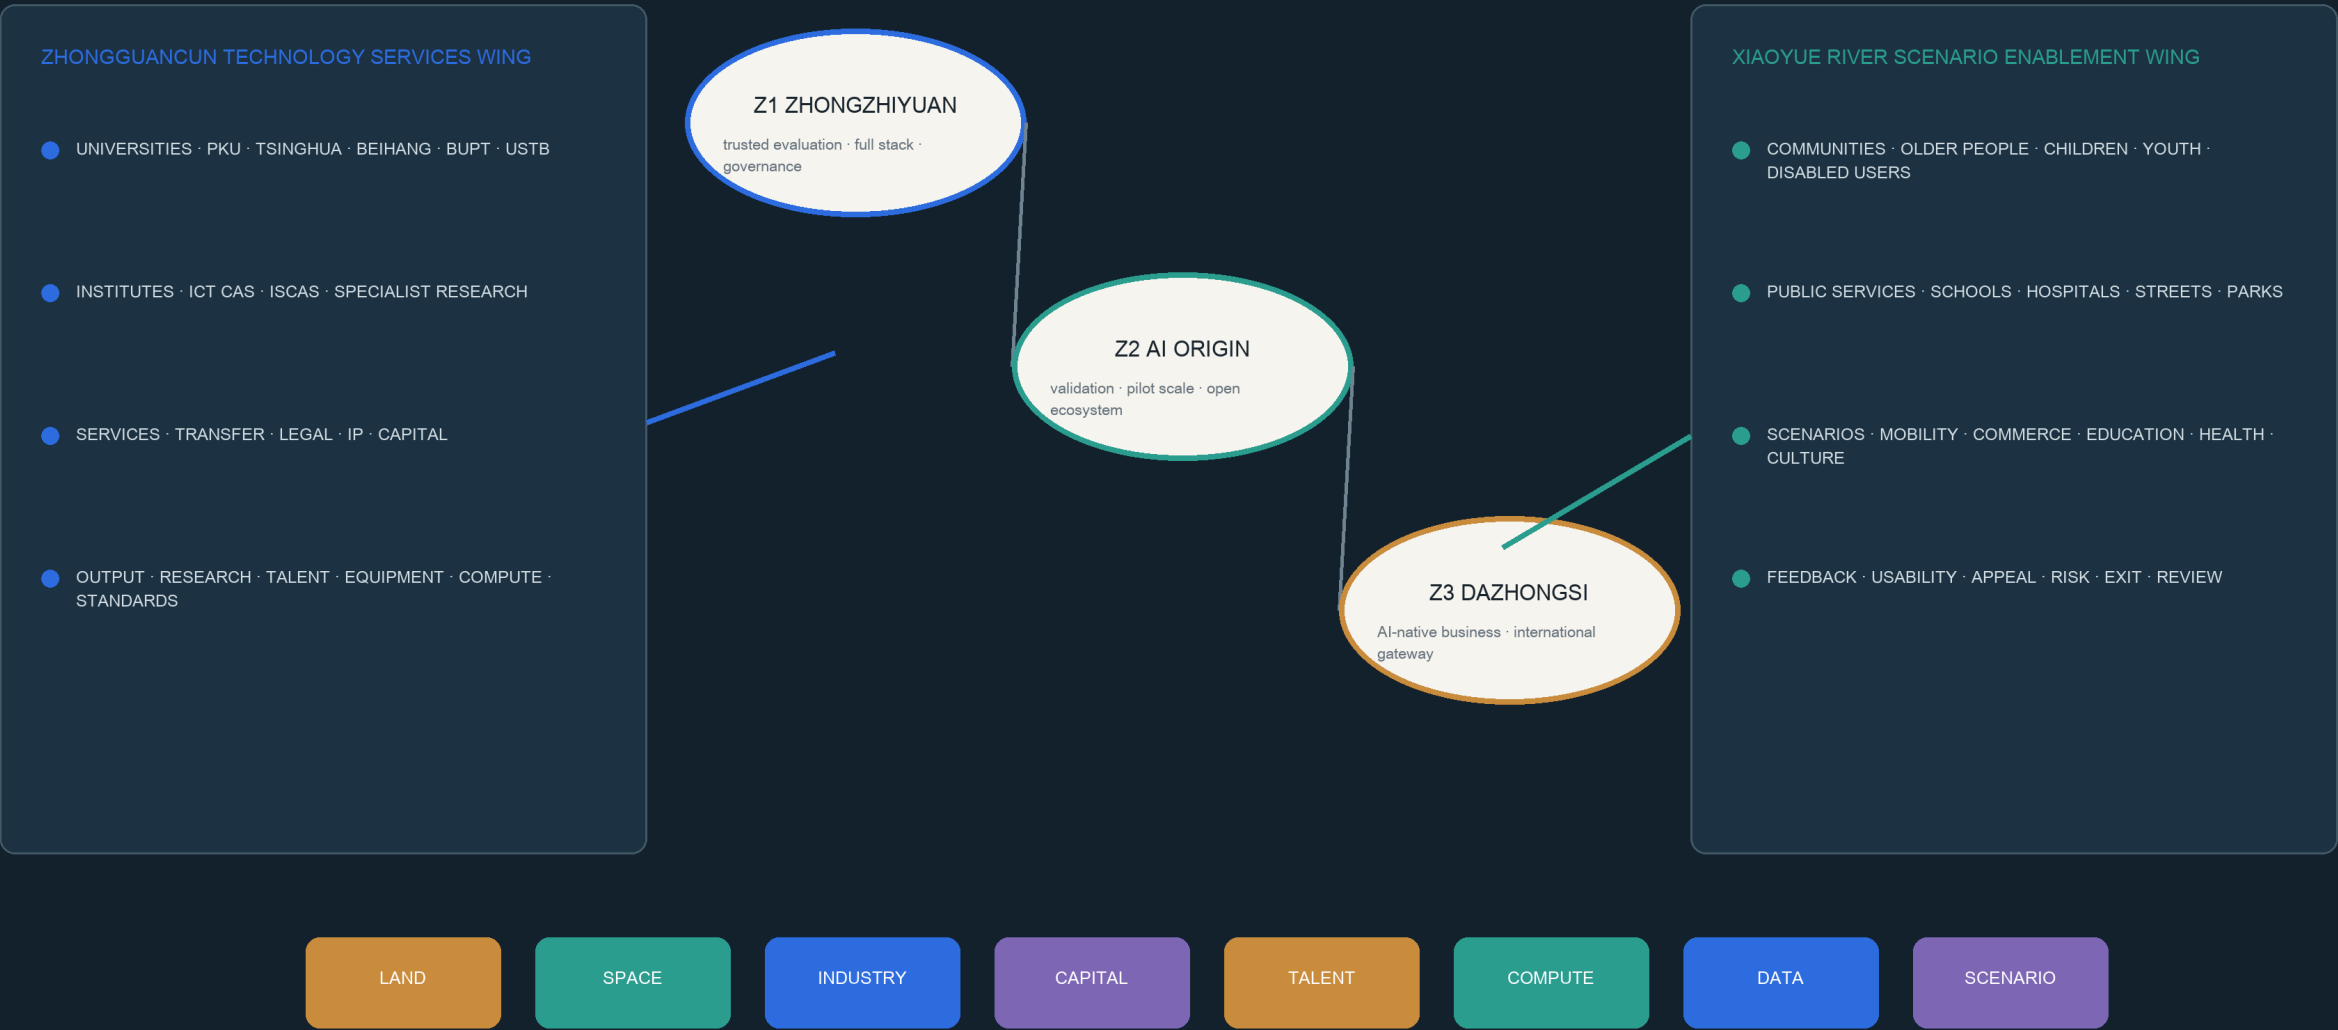

Universities, institutes, professional services, communities and real-world scenarios enter one transfer chain through the two wings.

STATUS · CONCEPT · BASELINE / TARGET / VERIFICATION SEPARATED

09 / INNOVATION ECOSYSTEM

THREE ZONES & TWO WINGS INNOVATION NETWORK

Move from an institution list to callable capabilities: research, space, capital, compute, data and real-world scenarios enter one transfer chain.

Concept proposal · provisional boundaries · subject to statutory planning, survey, ownership and engineering review

PEN & CODEX · 2026-08-09

01

Zhongguancun Wing · research / talent / capital / IP / services

02

Xiaoyue Wing · community / health / education / park / feedback

03

Regional links · Beiwei / science cities / E-Town / Jing-Jin-Ji

04

All partnerships are concepts pending consent and agreements

SIX ISSUES SET INVESTMENT PRIORITY

Spatial, community, mobility, industry and governance problems enter one systems-engineering framework.

STATUS · CONCEPT · BASELINE / TARGET / VERIFICATION SEPARATED

01
ISS-01 residual gaps

02
ISS-02 daily usability

03
ISS-03 community systems

04
ISS-04 right-of-way conflict

05
ISS-05 transfer-chain gaps

06
ISS-06 public feedback loop

03 / EVIDENCE

THREE-SCALE EVIDENCE & SIX ISSUES

Separate Beijing policy, Haidian district data, built corridor status and field-verification gaps; never substitute district totals for site facts.

BEIJING · BUILT-STOCK GOVERNANCE
complete communities · urban renewal · resilient lifelines · commerce

HAIDIAN · INNOVATION TRANSFER
campus-city integration · transfer · affordable space · services

JING-ZHANG · POST-OCCUPANCY
park substantially complete; focus on residual gaps, mixed use and operations

ISS-01
RESIDUAL GAPS
ring roads · rail · waterways · gateways · last mile

A/B DESKTOP EVIDENCE + C FIELD CHECK

ISS-02
DAILY USABILITY
space exists but access, dwell time and services mismatch

A/B DESKTOP EVIDENCE + C FIELD CHECK

ISS-03
COMMUNITY SYSTEMS
utilities · fire · access · property operations fragmented

A/B DESKTOP EVIDENCE + C FIELD CHECK

walking · cycling · parking · delivery · transfer overlap

A/B DESKTOP EVIDENCE + C FIELD CHECK

ISS-05
TRANSFER GAPS
early capital · pilot scale · low-cost space · first use missing

A/B DESKTOP EVIDENCE + C FIELD CHECK

ISS-06
FEEDBACK LOOP
internal efficiency detached from public explanation

A/B DESKTOP EVIDENCE + C FIELD CHECK

Concept proposal · provisional boundaries · subject to statutory planning, survey, ownership and engineering review

PEN & CODEX · 2026-08-09

OPEN JING-ZHANG / A3 BOOKLET

05 / 16

ONE SPINE · THREE LINES · OPEN COEXISTENCE

Brand, naming, mapping and spatial structure share one grammar; official taskbook names remain primary.

STATUS · CONCEPT · BASELINE / TARGET / VERIFICATION SEPARATED

07 / BRAND SYSTEM

BRAND & VISUAL IDENTITY

A scalable civic identity derived from rail lines, three program lines and an open interface.

OPEN JING-ZHANG
OPEN JING-ZHANG

ONE SPINE · THREE LINES · OPEN COEXISTENCE

Two J/Z rail strokes form an open loop; copper, teal and blue nodes encode heritage, everyday life and innovation.

CORE PALETTE

RAIL CARBON
#13212C

CENTENNIAL COPPER
#C98B3C

EVERYDAY TEAL

05 PROGRAM · OPEN RAIL WEEK

CLEAR SPACE

1/4 mark height

MINIMUM

12 mm print / 32 px screen

TYPE

Noto Sans / redistributable

DO NOT

stretch, rotate, outline or recolor

01

Master · Centennial Jing-Zhang Open Intelligence Commons

02

Public short name · OPEN JING-ZHANG

03

Kit · open rail / station / interface / truth beacon / contribution mile

04

Fixed colors · heritage copper / everyday teal / innovation blue

THREE LINES AND 3Z2W IN REAL CONTEXT

OSM provides roads, rail, water and resource context only. Provisional boundaries remain dashed and never imitate statutory lines.

STATUS · CONCEPT · BASELINE / TARGET / VERIFICATION SEPARATED

01

One spine · Jing-Zhang green-cultural spine

02

Three lines · protection / life / transfer overlap

03

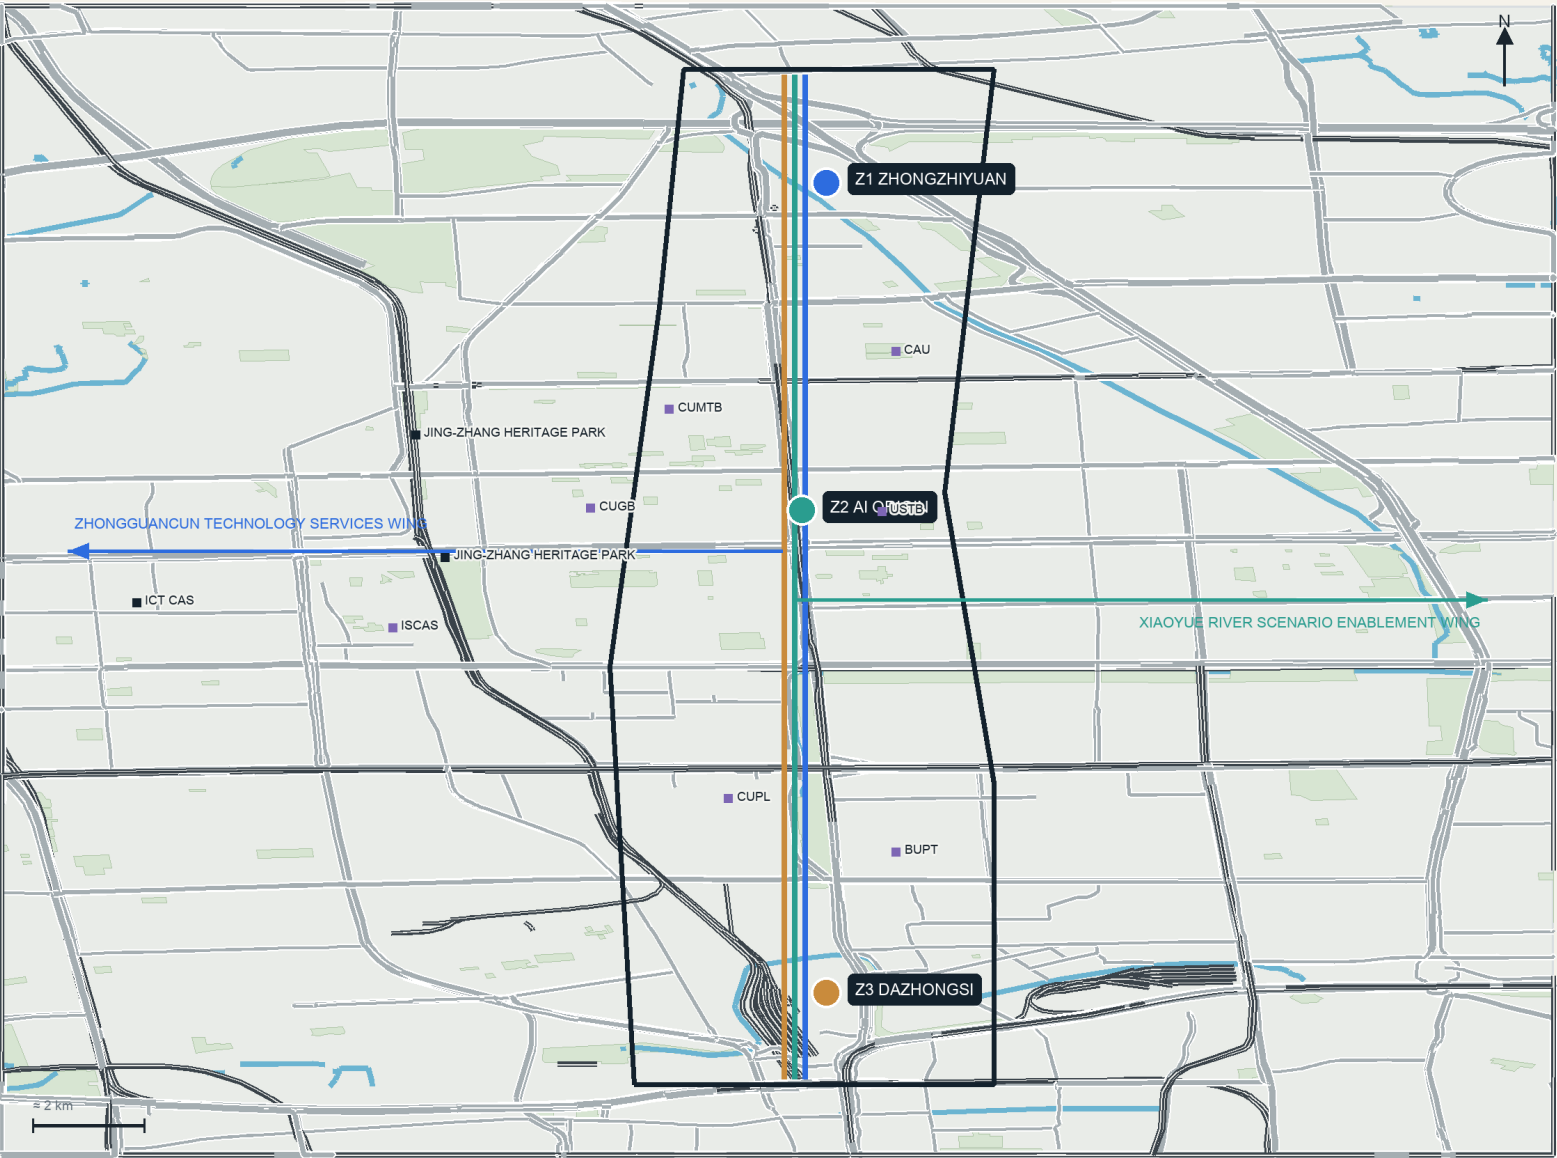

Three zones · implementation prototypes for three problems

04

Two wings · inputs → city trials → public review → standards

OVERALL CONCEPT MASTER PLAN

Real roads, rail, water and resources provide context only; provisional boundaries, three lines, three zones, two wings and projects are conceptual.

ONE SPINE · THREE LINES

- B-CULT HERITAGE LINE

protect · adapt · operate
- B-LIFE EVERYDAY AI LINE

complete community · mobility · commerce
- B-INNO FUSION INNOVATION LINE

transfer · test · deploy

PROJECT LOGIC

- 1 PRJ-01 Breakpoint 100 & continuous spine
- 2 PRJ-02 Three community-campus-park links
- 3 PRJ-06 Utility-access-property package
- 4 PRJ-07 Zhongzhiyuan trust ring
- 5 PRJ-08 AI Origin transfer stack
- 6 PRJ-09 Dazhongsi centennial mile

Provisional overall design area ≈ 11.4 km²

Concept proposal · provisional boundaries · subject to statutory planning, survey, ownership and engineering review

PEN & CODEX · 2026-08-09

ORIGINAL HERITAGE LEADS; DIGITAL INTERPRETATION SUPPORTS

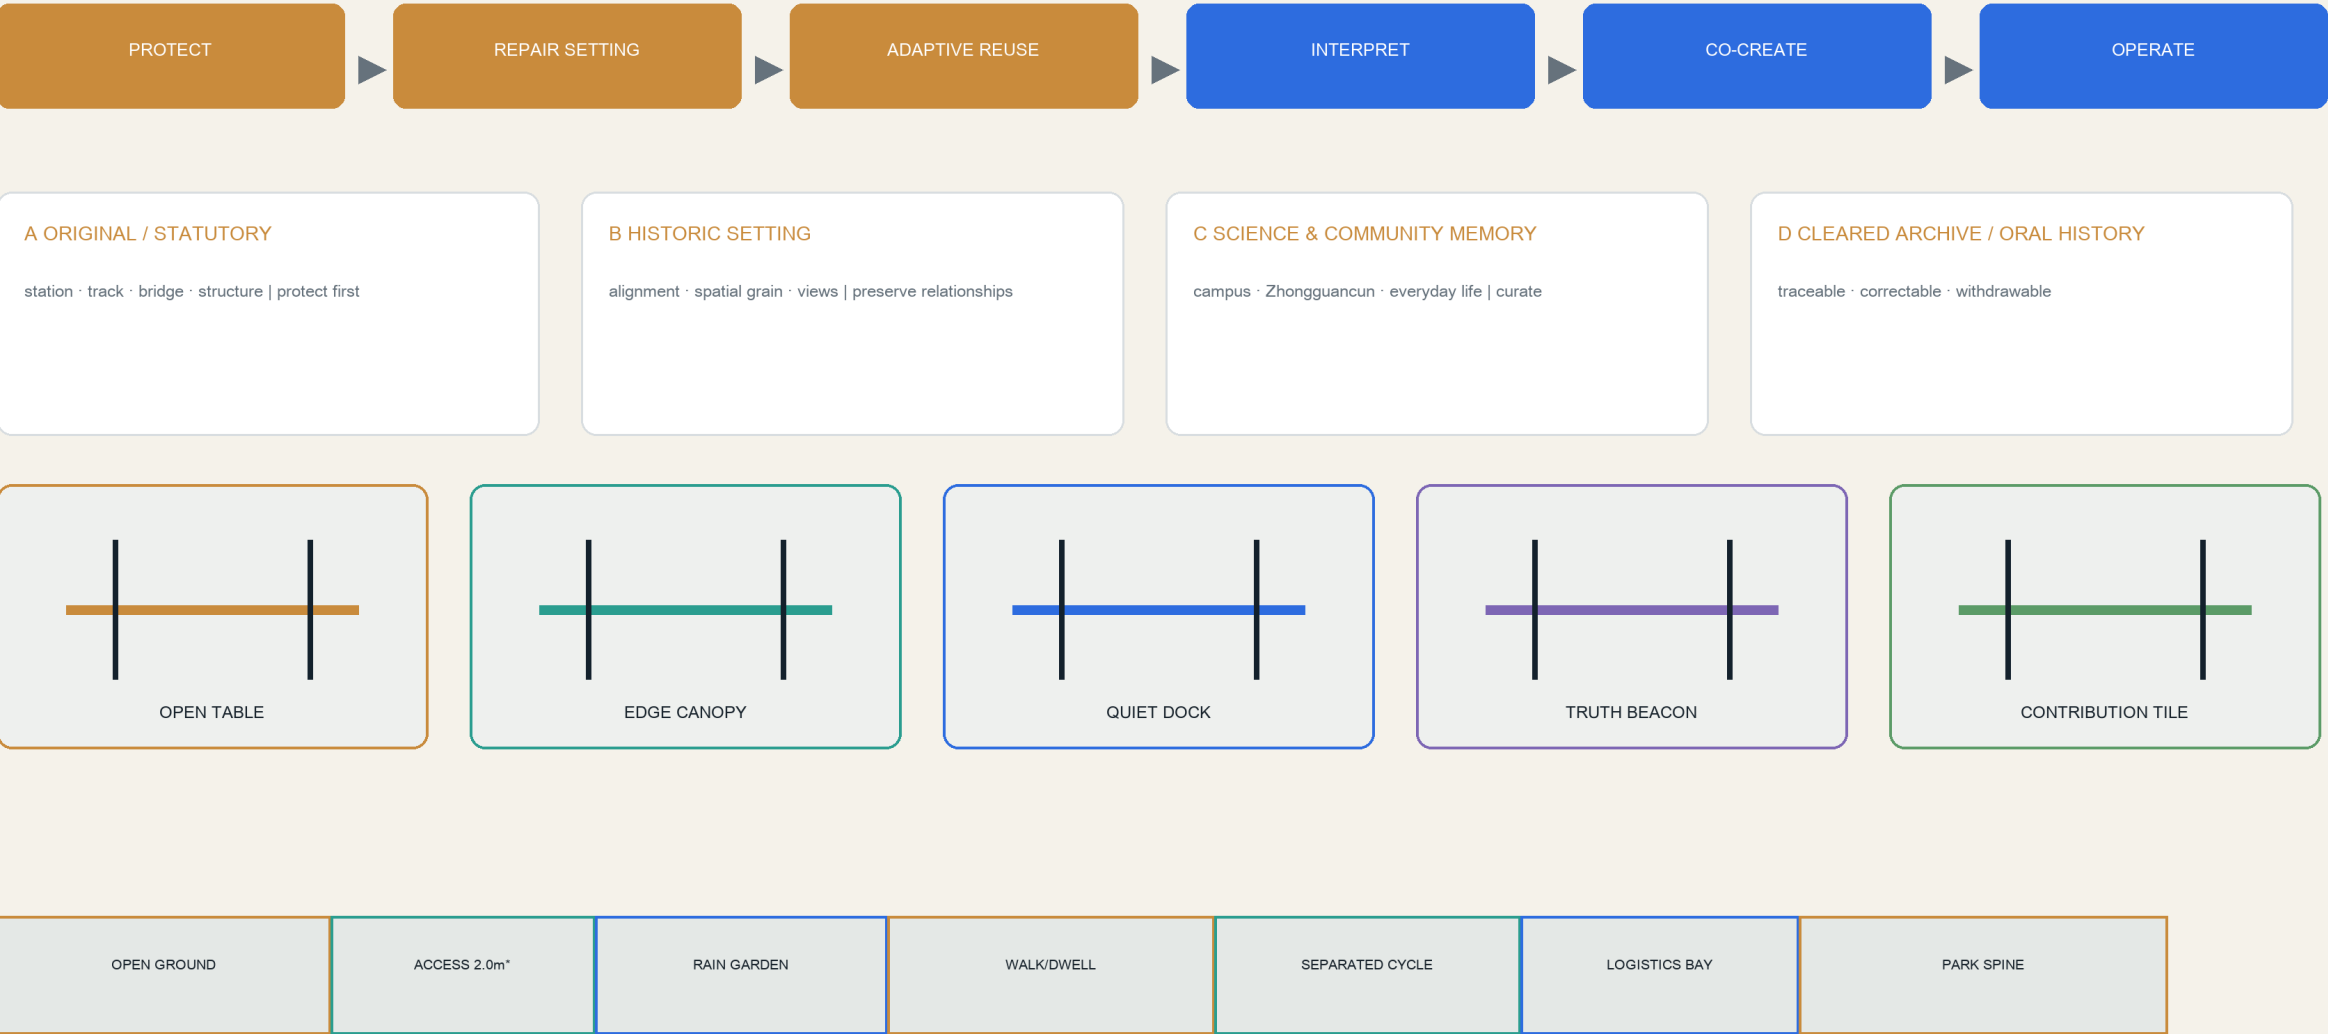

Four resource registers, the Centennial Mile, evidence-aware wayfinding and annual operations create a living heritage system.

STATUS · CONCEPT · BASELINE / TARGET / VERIFICATION SEPARATED

15 / CULTURE & PUBLIC REALM

LIVING HERITAGE · PUBLIC-SPACE KIT · TYPICAL INTERFACE

Original heritage leads; digital interpretation supports. Every component includes offline mode, accessible alternatives, maintenance and accountability.

* Concept clear-width starting point; verify against ROW, trees, fire access and observed flows.

01

protect first / minimum intervention / use supports conservation

02

no fixed massing near Tsinghuayuan Station before official control lines

03

culture commerce must protect and reinvest

04

international story · independent railway engineering → open urban intelligence

MAKE IT WORK FOR RESIDENTS, VISITORS AND WORKERS

15-minute services, continuous mobility, open ground floors, all-age amenities, commerce and night safety define experience.

CONCEPT IMAGE · NOT A SITE PHOTO

01

toilets / water / shade / seating / family / access are infrastructure

02

separate walking / cycling / delivery / parking by place and time

03

AI appears when needed; convenience never justifies continuous surveillance

10 / THREE POSITIONINGS

THREE OVERLAPPING LINES: HERITAGE · EVERYDAY LIFE · INNOVATION

The three lines are not separate land-use strips; they are protection, service and transfer systems on one urban section. Priority projects serve at least two.

B-CULT HERITAGE LINE

protect originals → repair setting → adaptive reuse → digital interpretation → co-creation → annual operation

PERFORMANCE · protection · open archive · participation

B-LIFE EVERYDAY AI LINE

complete community → continuous mobility → open ground floor → all-age service → commerce → night safety

PERFORMANCE · access · dwell · equity · vitality

B-INNO FUSION INNOVATION LINE

source projects → validate → pilot scale → first use → commercialize → scale/exit

PERFORMANCE · cycle time · shared use · scenario performance · standards

Concept proposal · provisional boundaries · subject to statutory planning, survey, ownership and engineering review

PEN & CODEX · 2026-08-09

HARDWARE · SOFTWARE · OPERATIONS LOOP

- HARDWARE · shade / seating / toilets / access / continuous mobility
- SOFTWARE · on-demand guidance / service booking / no-surveillance default
- OPERATIONS · staffed fallback / appeal / stop conditions / night safety

BUILD TRANSFER INTO URBAN INFRASTRUCTURE

Eight factors and a six-step chain connect research, testing, community trials, procurement and scale/exit.

01

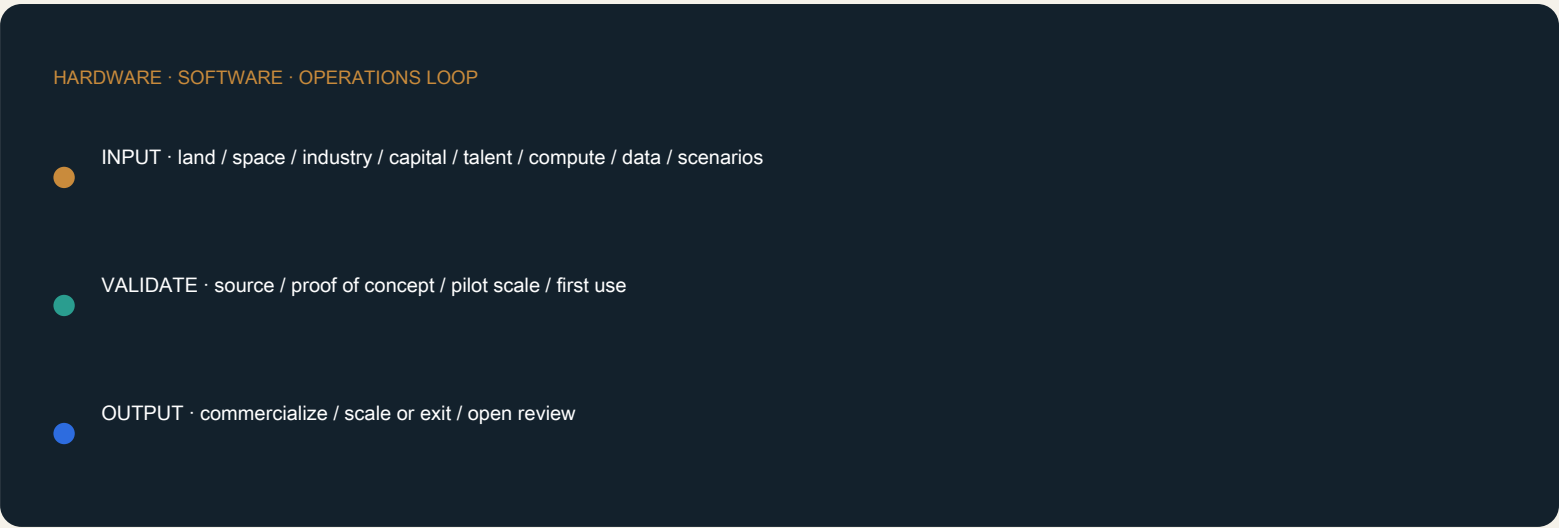

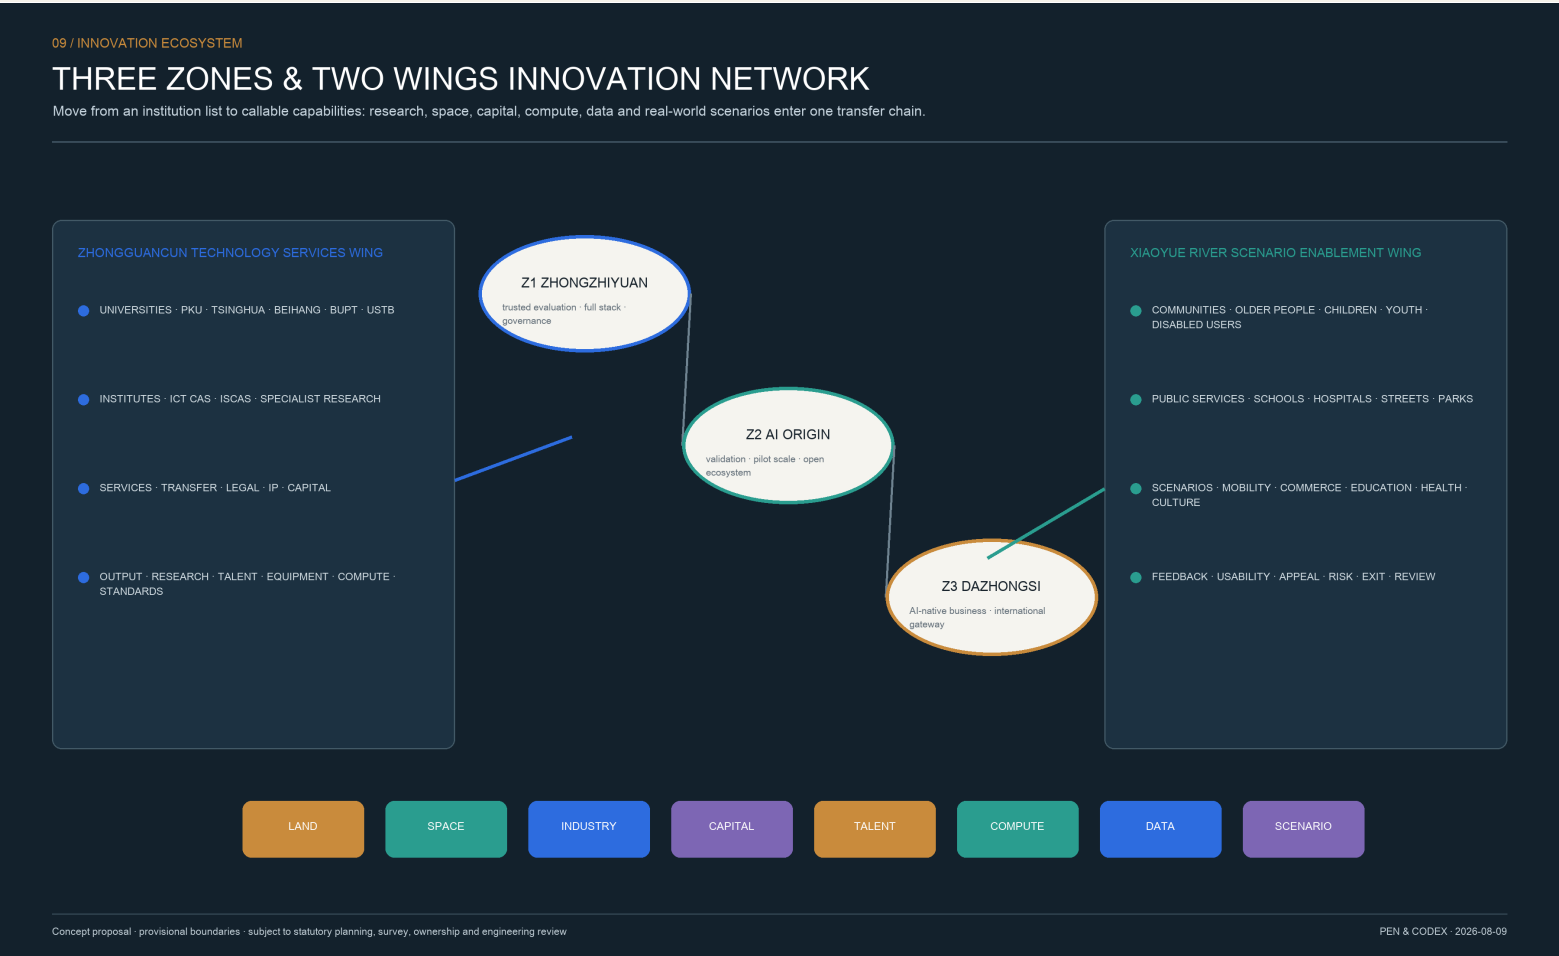

land / space / industry / capital

02

talent / compute / data / scenarios

03

source → validate → pilot scale → first use → commercialize → scale/exit

MAP · BUILD · OPERATE ABOVE AND BELOW GROUND

Eleven infrastructure systems follow asset register, risk diagnosis, coordinated renewal and operations platform. No pseudo-alignments without capacity records.

STATUS · CONCEPT · BASELINE / TARGET / VERIFICATION SEPARATED

01

water / stormwater / sewer / reclaimed water

02

power / gas / heat / energy

03

fiber / 5G / IoT / edge compute

04

waste / fire / emergency / utility coordination

12 / INFRASTRUCTURE

INTEGRATED INFRASTRUCTURE: MAP · BUILD · OPERATE TOGETHER

Pipe sizes, capacity and ownership records are unavailable; show systems, risks, interfaces and sequence only. Exact alignments require surveys and engineering.

SYSTEM	BASELINE/RISK	CONCEPT ACTION	OPERATING KPI
WATER	leakage · pressure · quality	district metering · emergency supply	loss · switch time
STORMWATER	flooding · catchment · overflow	sponge retention · overflow paths	depth · recovery
SEWER	misconnection · surcharge	separation · node sensing	overflow · closure
RECLAIMED	coverage · quality · load	graded irrigation/cleaning use	substitution · fallback
POWER	capacity · peak · redundancy	upgrade · microgrid · storage	backup · island mode
GAS	age · material · encroachment	renew risk sections · sectional valves	alarm · isolation
HEAT/ENERGY	source · balance · demand	efficiency · balancing · heat recovery	energy · recovery
CONNECTIVITY	fiber · 5G · blind spots	diverse routes · IoT · resilient comms	availability · failover
WASTE	routes · bins · commercial load	sealed collection · timed loading	overflow · complaints
FIRE/EMERGENCY	water · access · refuge	hydrants · clear routes · backup power	response · access
COORDINATION	owners · levels · excavation	co-build · one underground map	re-digging · handover

01 ASSET REGISTER

02 RISK DIAGNOSIS

03 COORDINATED RENEWAL

04 OPERATIONS PLATFORM

Concept proposal · provisional boundaries · subject to statutory planning, survey, ownership and engineering review

PEN & CODEX · 2026-08-09

ONE CHECKLIST · THREE PROBLEM PROTOTYPES

Each zone covers positioning, space, buildings, mobility, public realm, scenarios, commerce, prerequisites and verification.

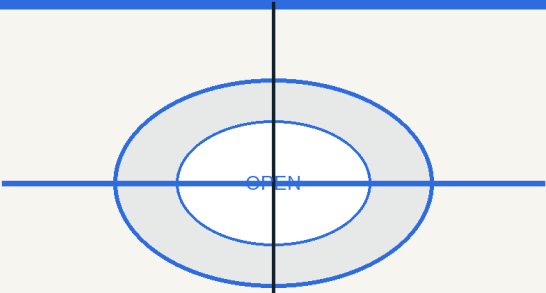

STATUS · CONCEPT · BASELINE / TARGET / VERIFICATION SEPARATED

14 / THREE KEY AREAS

THREE KEY AREAS: THREE PROBLEMS · THREE SPATIAL PROTOTYPES

Each zone answers positioning, structure, building renewal, mobility, public realm, AI scenarios, commerce, prerequisites and risk.

Z1 ZHONGZHIYUAN
TRUST & STANDARDS STATION

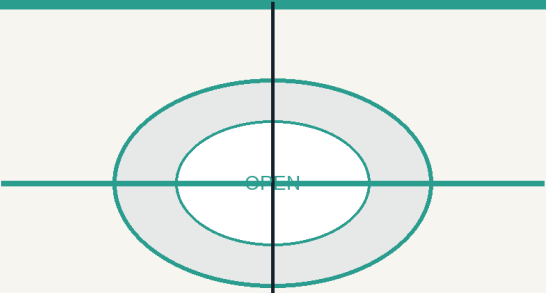

trust ring + test hall + community gallery

- full-stack autonomy & governance
- shared equipment · red team · model cards
- scenarios SC-01—03
- needs ownership · buildings · river ecology
- verify reproducibility · e-stop · shared hours

PROVISIONAL BOUNDARY / CONCEPT DETAIL

Z2 AI ORIGIN
COLLABORATION & TRANSFER STATION

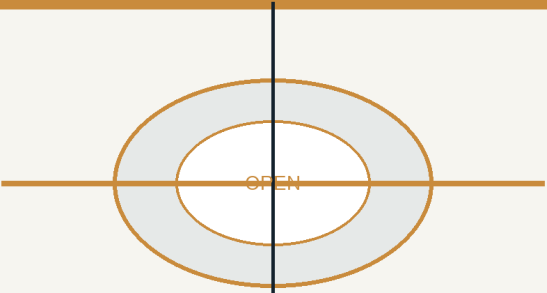

open table + transfer stack + affordable studios

- world-class innovation ecosystem
- research → pilot scale → first use
- scenarios SC-04—06
- needs fire · lease · campus-city agreements
- verify matches · cycle time · open hours

PROVISIONAL BOUNDARY / CONCEPT DETAIL

Z3 DAZHONGSI
EXPERIENCE & INTERNATIONAL STATION

centennial mile + adaptable ground floor + night path

- AI-native business & heritage gateway
- district · community · tech · night commerce
- scenarios SC-09—12
- needs footfall · heritage · traffic · acoustics
- verify dwell · return · public reinvestment

PROVISIONAL BOUNDARY / CONCEPT DETAIL

Concept proposal · provisional boundaries · subject to statutory planning, survey, ownership and engineering review

PEN & CODEX · 2026-08-09

01

Z1 Zhongzhiyuan · trusted testing and governance standards

02

Z2 AI Origin · near-campus transfer and open ecosystem

03

Z3 Dazhongsi · AI-native business and heritage gateway

04

recompute after official boundaries, ownership and surveys arrive

TWELVE SCENARIOS · HUMAN OVERRIDE · EXIT

The first three are industry test beds; the rest cover public service, education, health, mobility, accessibility, commerce, heritage and events.

STATUS · CONCEPT · BASELINE / TARGET / VERIFICATION SEPARATED

01

no default facial tracking or discriminatory pricing

02

health navigation does not diagnose; legal explanation is not legal advice

03

retain staffed and offline public-service routes

04

publish data, model, owner, logs, appeal and stop conditions

TWELVE SCENARIOS: SPACE · USER · DATA · OPERATIONS · EXIT

The first three are industry test/validation scenarios. Every scenario retains human final authority, appeal, emergency stop or fallback.

CODE	SCENARIO	SPACE	DATA	HUMAN OWNER	VERIFY / EXIT
SC-01*	TRUSTED EVALUATION	Z1 test hall	synthetic/de-identified	independent evaluator	defects/stop
SC-02*	ROBOT OPEN STREET	Z1 timed segment	edge deletion	safety officer	conflict/e-stop
SC-03*	AGENT INTEGRATION SANDBOX	Z1 integration lab	simulation/authorized	responsible agency	overreach/seal
SC-04	MULTIMODAL PUBLIC SERVICE	Z2 service desk	minimum fields	staff member	handoff/offline
SC-05	AI LEARNING COMMONS	Z2 shared classroom	user controlled	mentor	completion/stop
SC-06	HEALTH SERVICE NAVIGATION	community node	no diagnosis	clinician/social worker	referral/exit
SC-07	AI ACTIVE-MOBILITY GUIDE	Everyday Line	on-device location	mobility operator	errors/fallback
SC-08	ACCESS CO-AUDIT	public realm	facility points	disabled co-auditors	closure/withdraw
SC-09	AI-NATIVE COMMERCE	Z3 adaptable ground floor	no profiling/pricing	merchant+observer	complaints/remove
SC-10	JING-ZHANG MEMORY AGENT	heritage route	cleared sources	historian+community	correct/offline
SC-11	OPEN RAIL WEEK	three zones	project authorization	developer community	legacy/no renewal
SC-12	CONTRIBUTION MILE	beacons	opt-in public	community board	withdraw/hide

* Three industry test/validation scenarios: bounded place and time, staffed, with emergency stop.

Concept proposal · provisional boundaries · subject to statutory planning, survey, ownership and engineering review

PEN & CODEX · 2026-08-09

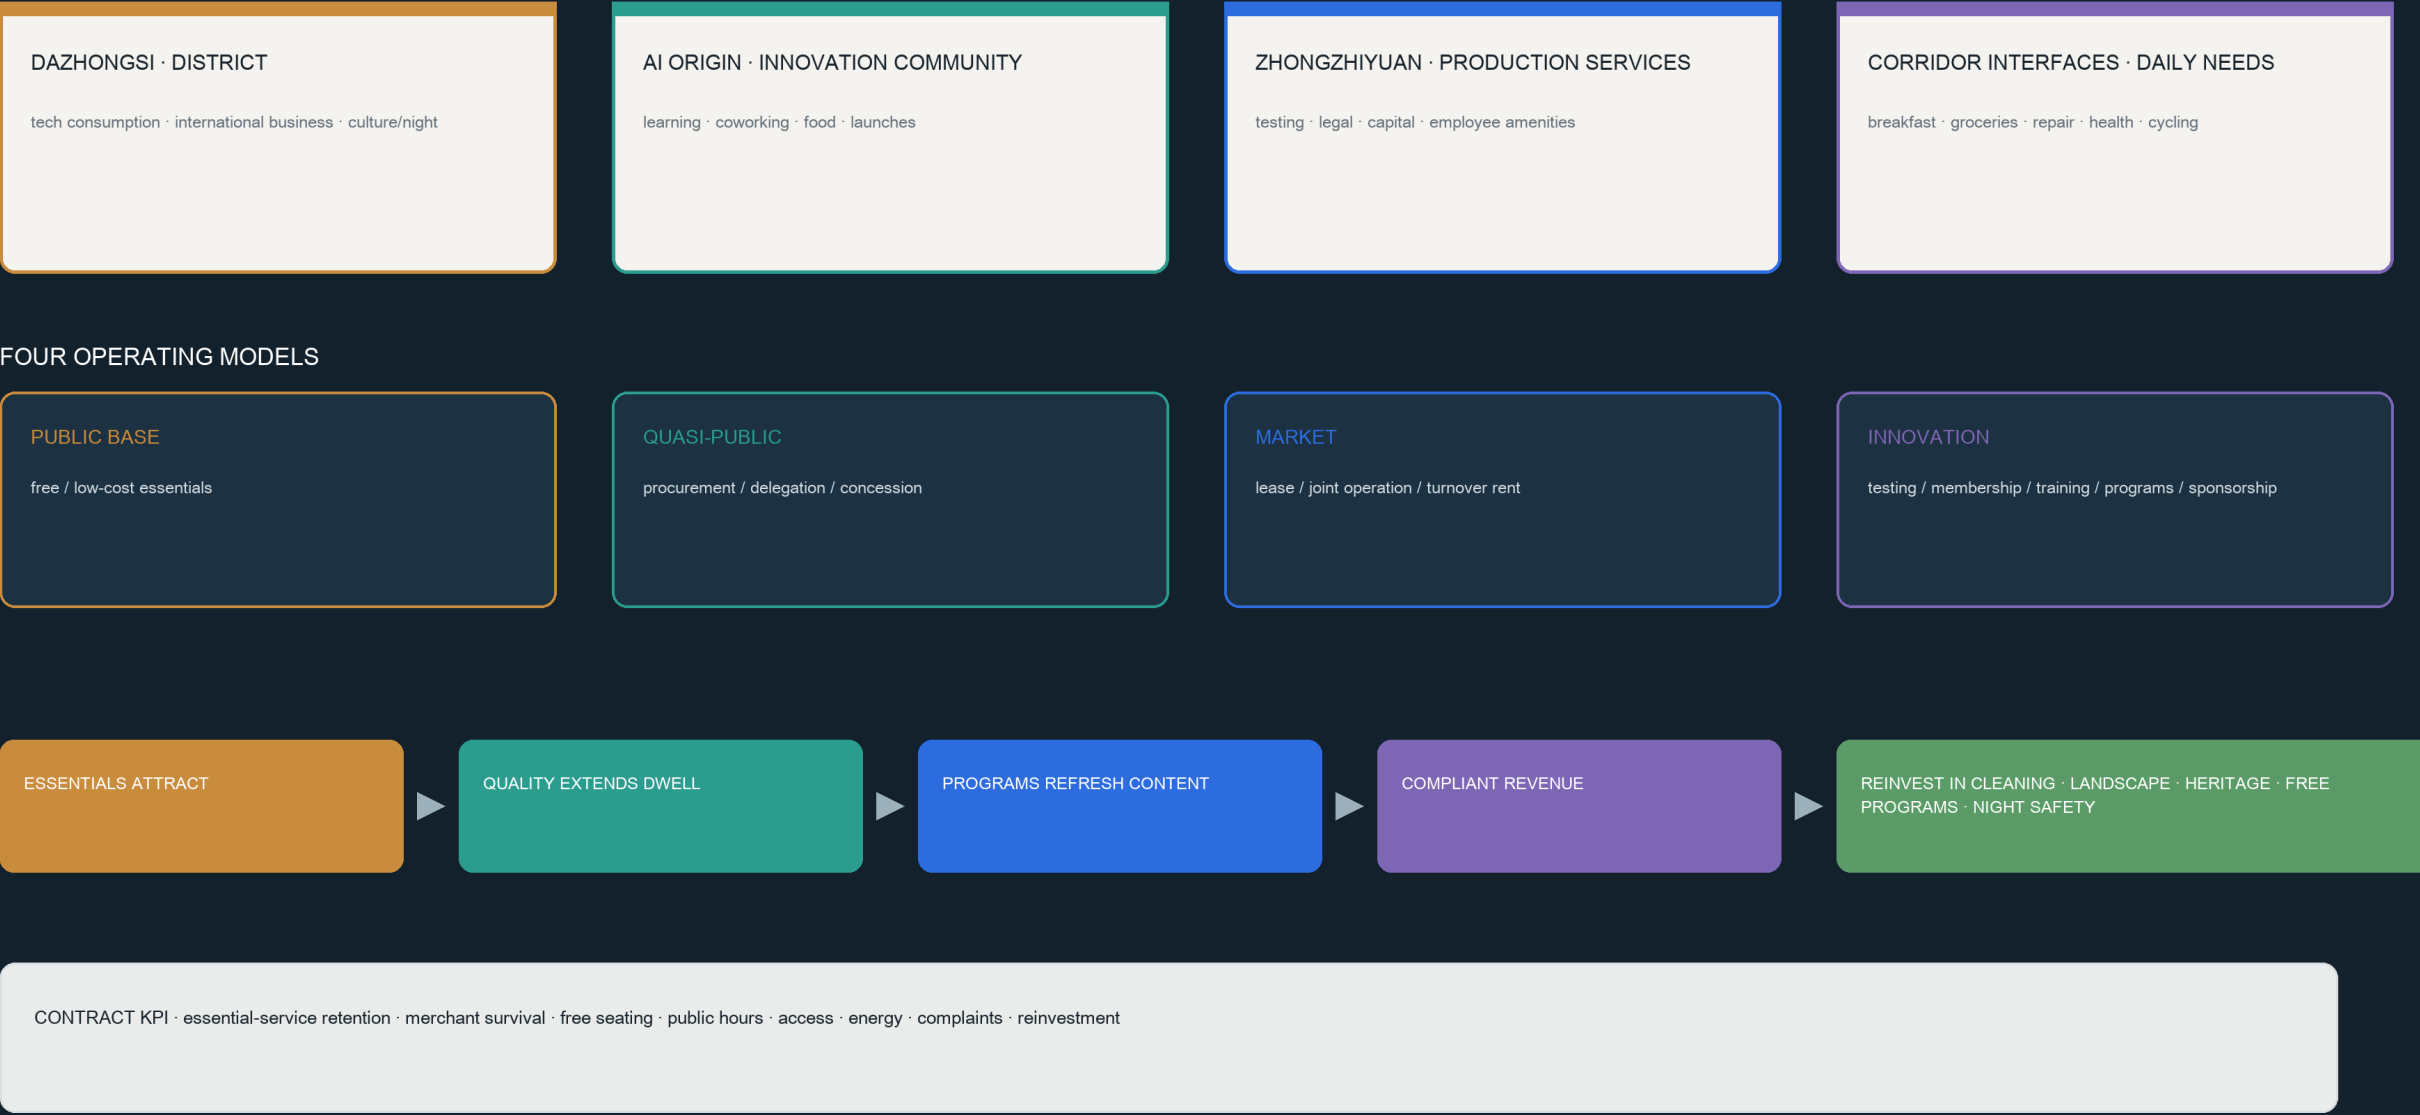

REVENUE SUPPORTS LONG-TERM PUBLIC VALUE

A four-level network, five user groups, four operating models and reinvestment logic support sustainability without fabricated financials.

STATUS · CONCEPT · BASELINE / TARGET / VERIFICATION SEPARATED

COMMERCIAL PLAN: FROM FOOTFALL TO PUBLIC-VALUE REINVESTMENT

Do not invent rents, revenue or payback. Measure 7×24 footfall, mix, vacancy, costs and demand; then locate uses through three-scenario testing.

Concept proposal · provisional boundaries · subject to statutory planning, survey, ownership and engineering review

PEN & CODEX · 2026-08-09

01

Dazhongsi · district tech consumption and international business

02

AI Origin · youth community and innovation services

03

Zhongzhiyuan · productive services and employee amenities

04

corridor interfaces · affordable daily needs and light park services

EIGHT PACKAGES · SIX GATES · FOUR-SEASON OPERATION

Baseline, feasibility, joint review, handover and operating review progressively reduce uncertainty.

STATUS · CONCEPT · BASELINE / TARGET / VERIFICATION SEPARATED

01

near term · establish baseline / close gaps / build trust

02

mid term · connect networks / add services / accelerate transfer

03

long term · evaluate / exit / replicate openly

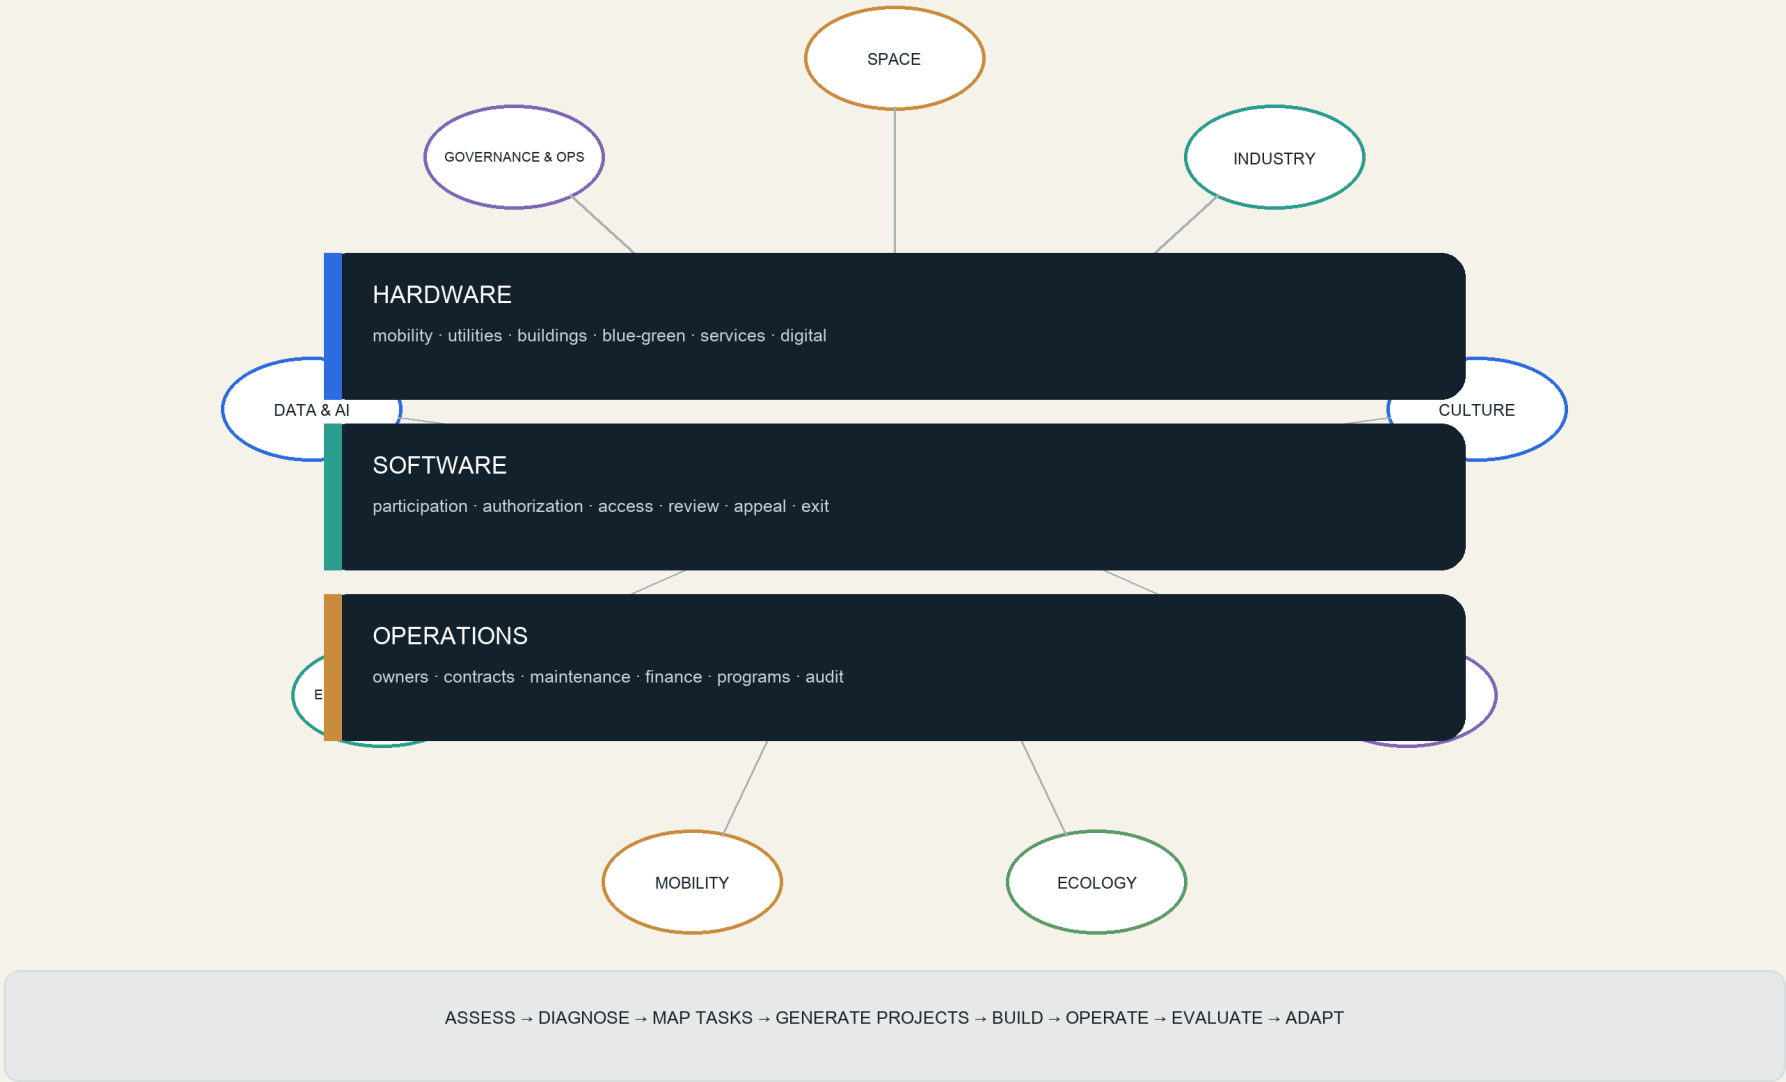

04

every program leaves a closed problem, tool, course, standard, facility or partnership

04 / SYSTEM ENGINEERING

OPEN COMPLEX SYSTEM: HARDWARE · SOFTWARE · OPERATIONS

Nine urban subsystems share one life-cycle loop. Handover is not the end: operating evidence redirects the next investment cycle.

Concept proposal · provisional boundaries · subject to statutory planning, survey, ownership and engineering review

PEN & CODEX · 2026-08-09

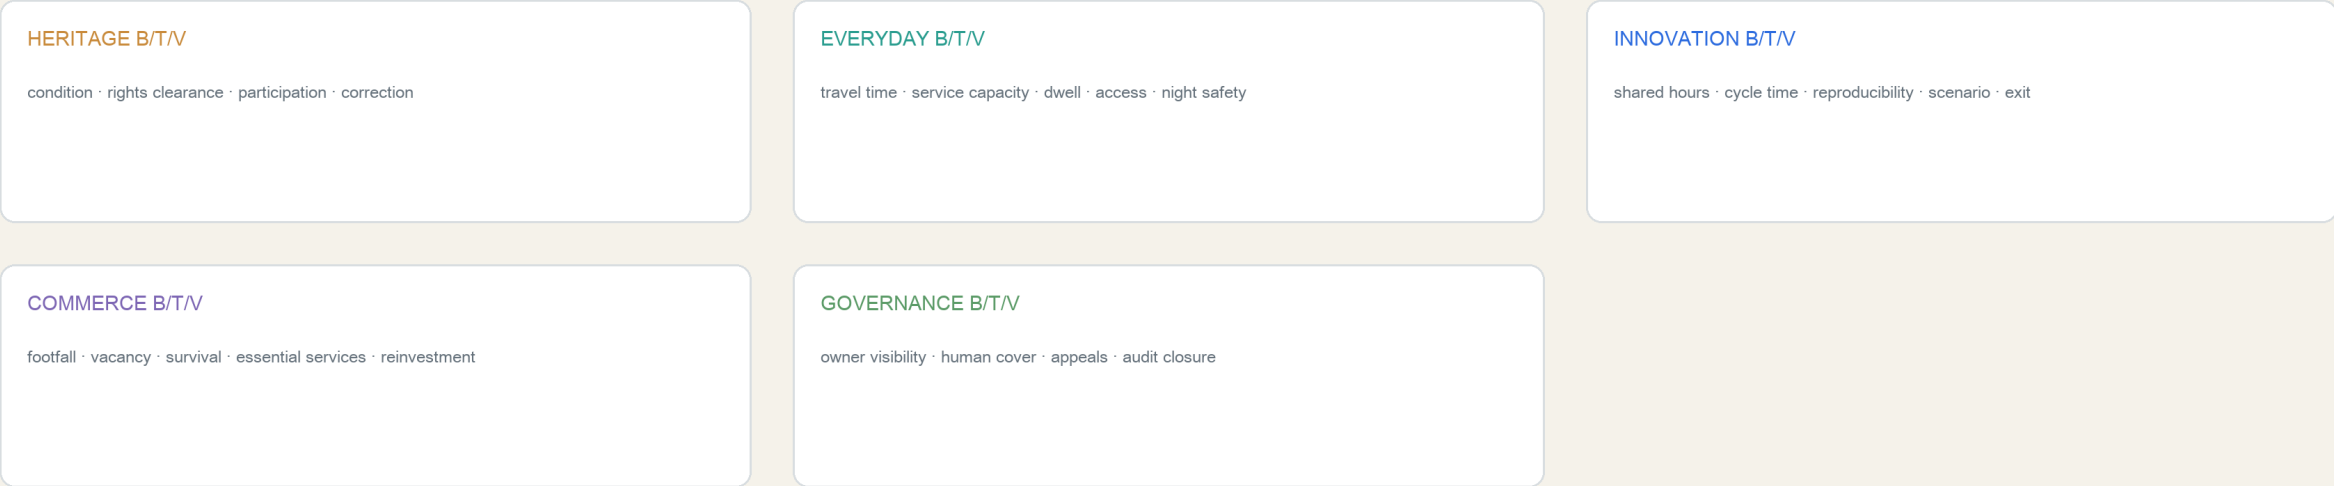

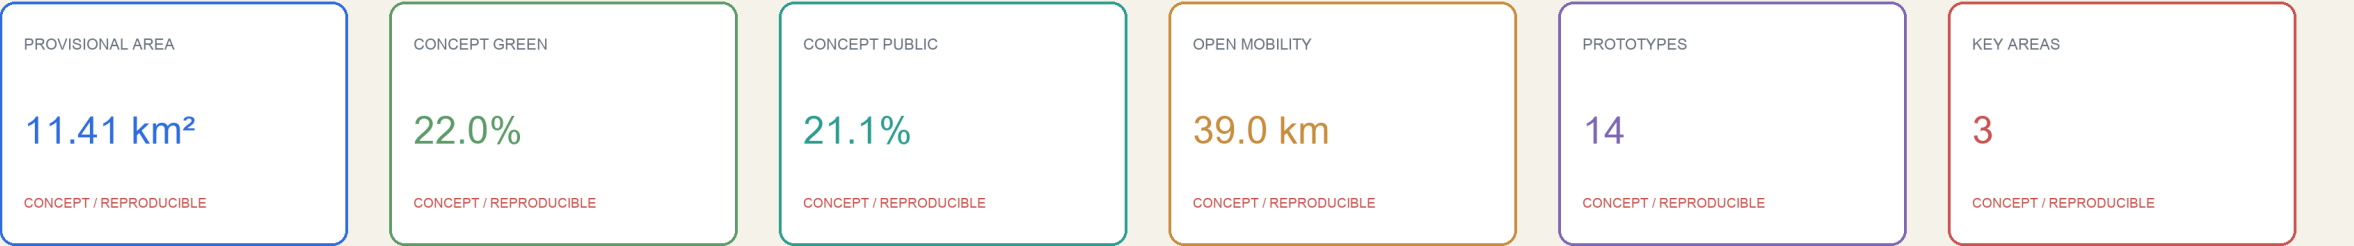

BASELINE B · TARGET T · VERIFICATION V

Dedicated evidence covers the taskbook. Official boundary, survey, utilities, heritage, market and authorization gaps remain explicit.

STATUS · CONCEPT · BASELINE / TARGET / VERIFICATION SEPARATED

METRICS: BASELINE B · TARGET T · VERIFICATION V

Geometry metrics are reproducible but not existing-condition statistics. Service, mobility, commerce and governance require measured baselines before targets.

01

geometry metrics are reproducible, not existing-condition statistics

02

measure site baselines before service targets

03

matrices locate evidence requirement by requirement

04

open co-creation; no claim of government approval or implementation
