

Jingzhang AI Vein

AI Native Urban Regeneration of the
Jingzhang Railway Heritage Corridor

Project: Haidian Open City AI Challenge
Site: Jingzhang Railway Heritage Park, Haidian, Beijing
Area: 11.41 km² (3 key areas, 368.4 ha)
Team: xielinde234
Stage: Conceptual Master Plan
Date: 2026

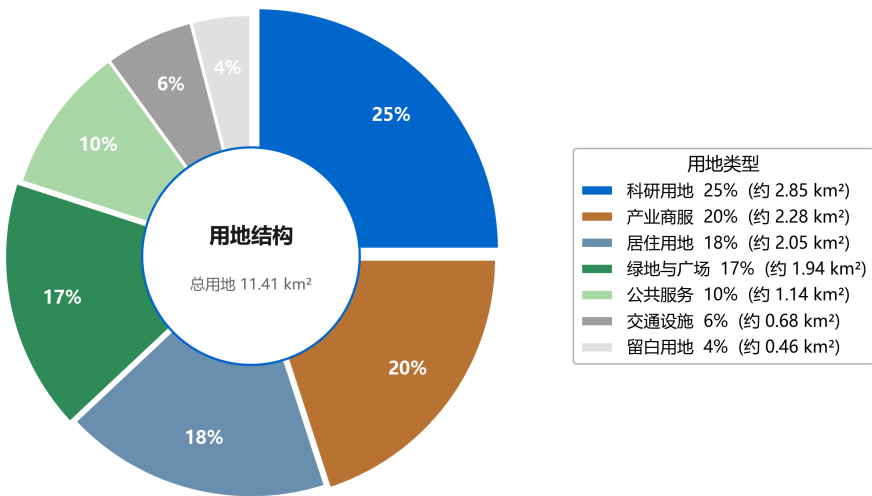

Layout: 3 Stations (Source / Core / Market) along the north-south heritage park axis, flanked by 2 wings (IP Wing & Scenario Wing).

- Source Station - ■■■■ - AI innovation origin (192.1 ha)
- Core Station - AI ■■■■■ - interaction hub (104.3 ha)
- Market Station - ■■■■ - industry portal (72.0 ha)

6 east-west slow-mobility bridges stitch the two wings together.

02 Land Use Structure

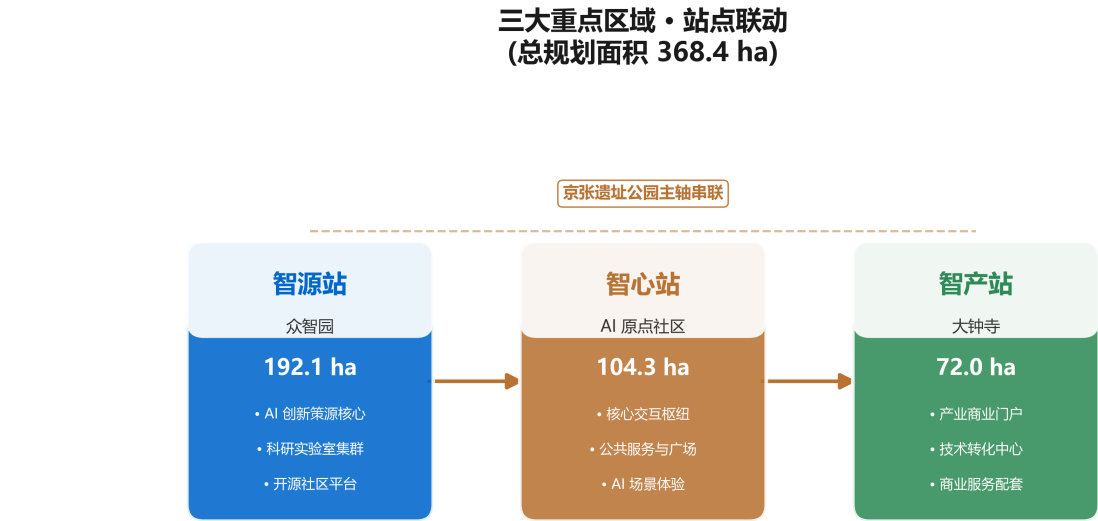

用地结构比例 — 京张智脉片区

Land Use Breakdown

Research / ■■	25%	2.85 km2
Industry & Commerce / ■■■■	20%	2.28 km2
Residential / ■■	18%	2.05 km2
Green & Plaza / ■■■■	17%	1.94 km2
Public Service / ■■■■	10%	1.14 km2
Transport / ■■■■	6%	0.68 km2
Reserve / ■■	4%	0.46 km2
Total: 11.41 km2 (100%)		

03 Key Areas

	Source Station - 智源站 (众智园) AI innovation origin; research labs, open-source community, pilot testing.	192.1 ha
	Core Station - 智心站 (AI 原点社区) Central interaction hub; public plaza, AI scenario experience, civic services.	104.3 ha
	Market Station - 智产站 (大钟寺) Industry & commerce portal; tech transfer center, commercial services.	72.0 ha

Total planned key-area land: 368.4 ha

Linked by the Jingzhang heritage park slow-mobility axis.

Spatial AI Scenarios (6)

- PS-001 Smart Plaza Interaction
- PS-002 Autonomous Shuttle Corridor
- PS-003 Robot Delivery Node
- PS-004 Data Visualization Pavillion
- PS-005 VR Heritage Experience
- PS-006 Smart Construction Lab

Programmatic AI Test Scenarios (6)

- TS-001 Autonomous Driving Test
- TS-002 Smart Interaction Test
- TS-003 Robot Delivery Test
- TS-004 Data Security Validation
- TS-005 Multi-agent Coordination
- TS-006 AI Scenario Marathon

Metrics Summary

AI Scenarios: 12 (6 spatial + 6 programmatic)

Landmarks: 3 station nodes

Annual Events: 4 (Forum, DevCon, Heritage Week, Marathon)

Test Scenarios: 4 validated scenarios

User Personas: 6 (researcher, founder, engineer, resident, visitor, student)

Building Footprint: 36,328 m2 (18 conceptual buildings)

Green Ratio: 18.6% Public Space Ratio: 4.2%
