

Jing-Zhang Switchyard THE SWITCHYARD — A City-AI Interchange on a Century-Old Railway

One spine three plazas five wings · Memory/Living/Innovation tracks · three zones two wings loop · three pilgrimage landmarks · 12 AI scenario nodes

Submission boundary 11.4 km² (provisional) · key areas 368.4 ha · green ratio 35.3% · public space 7.6% · concept FAR 0.72 · phases near/mid/far

Jing-Zhang Switchyard THE SWITCHYARD • Master Concept & Spatial Structure

One spine · three plazas · five wings · Memory / Living / Innovation tracks · provisional boundary (dashed)

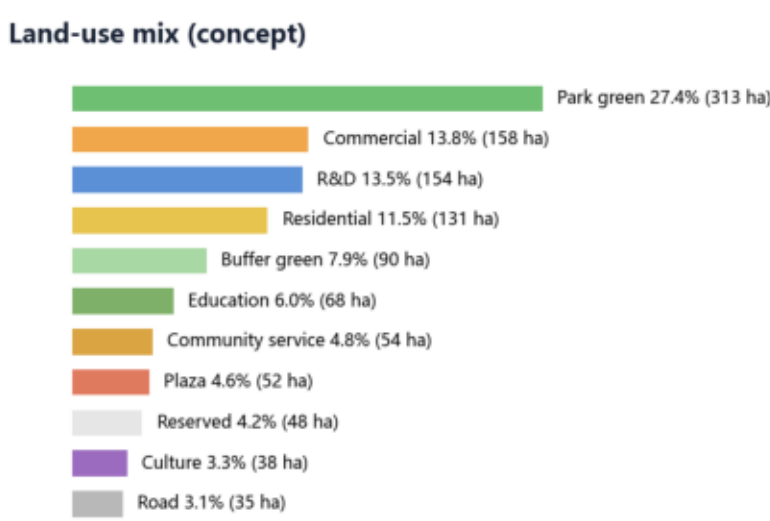

Legend

- Submission boundary (provisional)
- Green & open space
- Public space / plaza
- Key area boundary
- Jing-Zhang Railway heritage line (concept)
- Park greenway
- AI scenario node

Master Concept

Land Use

Key Area Detailed Design Index

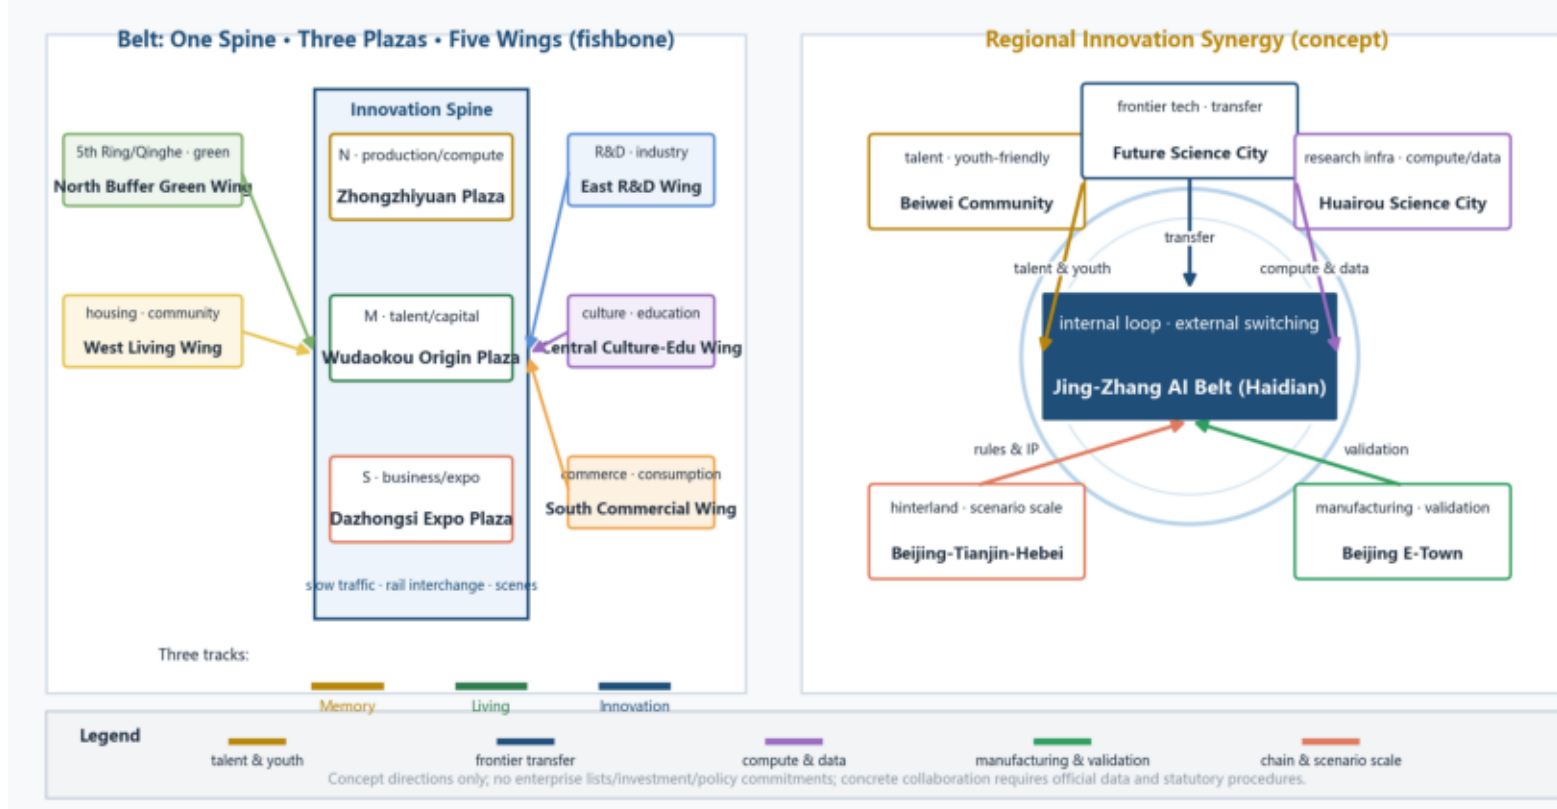

Provisional boundary · design discussion only · per area positioning · spatial structure · building reserved · mobility · public space · AI scenario · implementation risks

All key areas use provisional boundaries for directional design only. Implementation risks (AI Origin Community, Beijing AI Origin Community, Dazhong AI Industry Cluster) are highlighted in red. Key area boundary (provisional) is highlighted in blue. Key area boundary (provisional) is highlighted in blue.

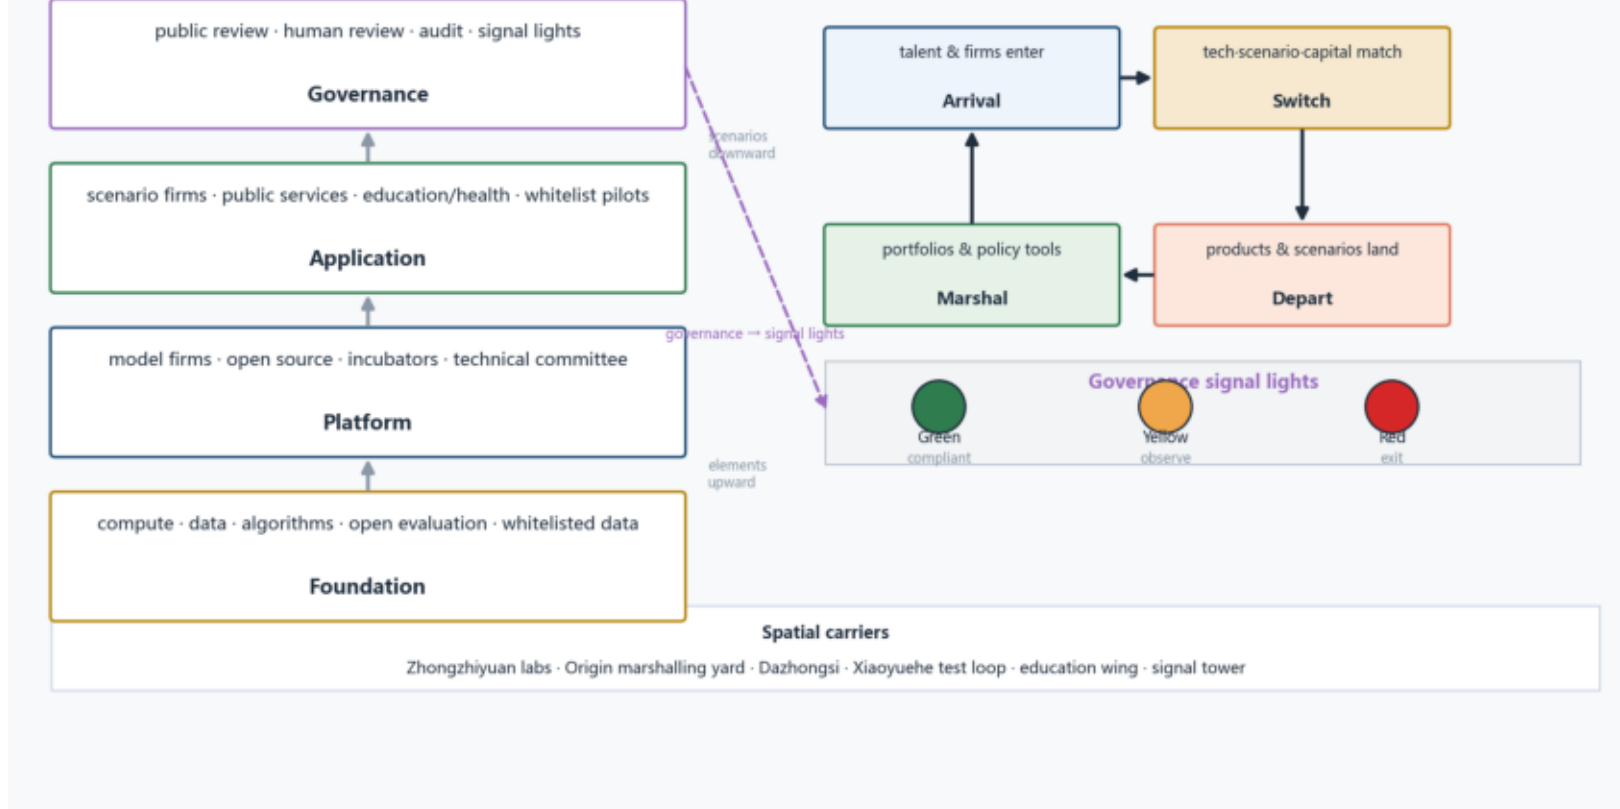

Key Areas

Overall Spatial Structure + Regional Innovation Synergy

Regional Synergy

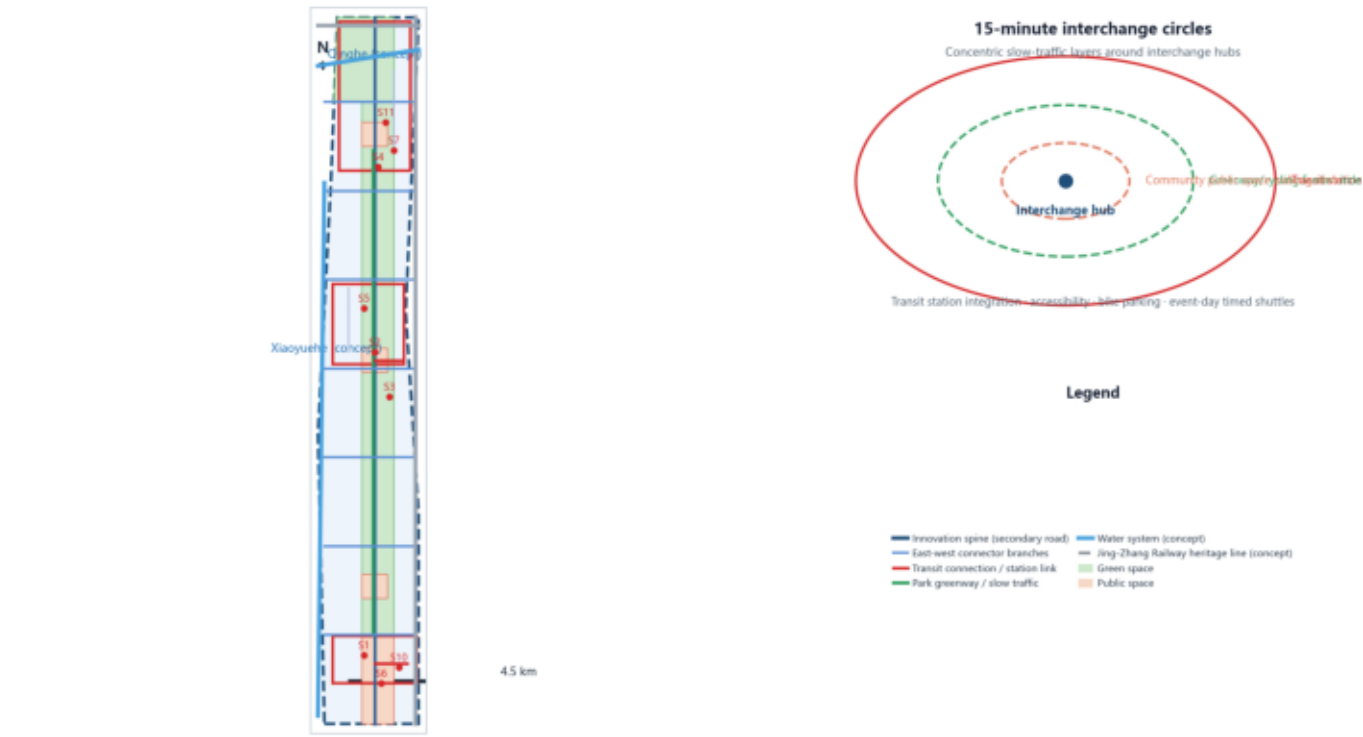

AI Innovation Ecosystem Map (concept)

Ecosystem Map

Mobility & Blue-Green Public Space System

Interchange first · one spine three wings blue-green network · concept road corridor (not redline) · transit links & low-speed paths

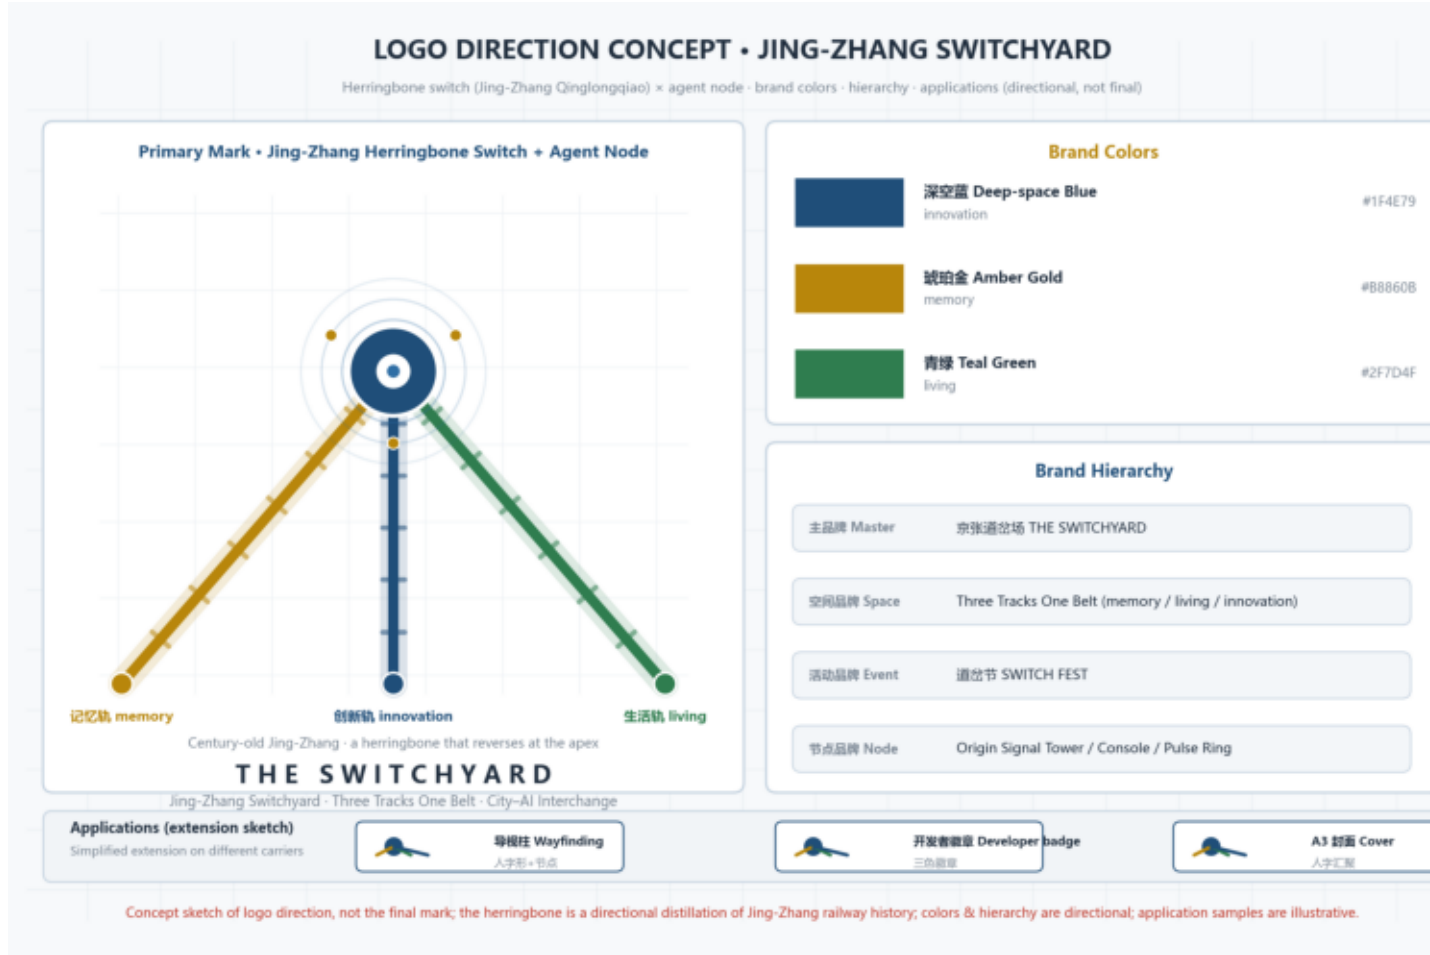

Mobility & Blue-Green

Core Metrics Recalculation & Evidence Chain

All spatial metrics recalculated from geometry in EPSG:4548 · concept values to be checked against regulatory controls

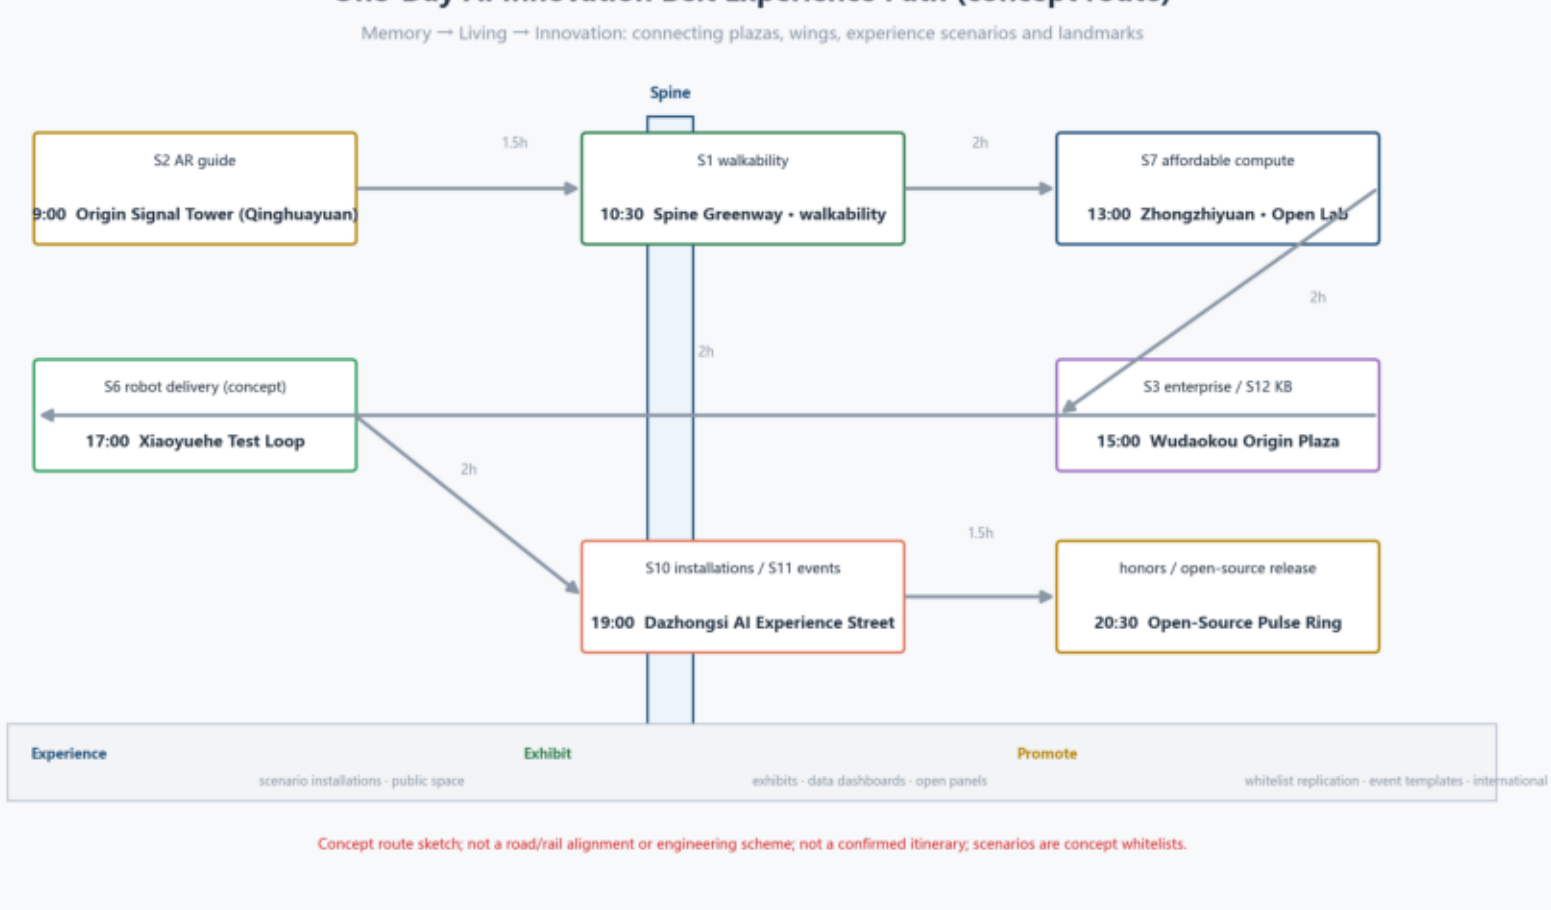

Core Metrics

Logo Direction

One-Day AI Innovation Belt Experience Path (concept route)

Experience Path

Concept: turning the herringbone switch of the Jing-Zhang Railway into a public interchange device between city and AI; three positions map to three tracks, five functions to marshalling-yard roles, and three zones two wings form a production-convergence-transformation-rule-test loop.

Renewal strategy: retain parks and heritage, retrofit inefficient buildings, build new key nodes; reserved land as flexible reserve for the AI era.

This board: master concept / land use / key areas / regional synergy / ecosystem map / mobility-blue-green / core metrics / logo direction / one-day experience path; long-term operation details in A3 booklet (SWITCH FEST, quarterly Switch Days, developer community, scenario whitelists, three pilgrimage landmarks).
