

京张青年脉动带——总体空间结构总图

Jing-Zhang Youth Pulse Belt · Overall Spatial Structure · EPSG:4548 · 1:15000 示意

数据来源: geometry/* geojson (京张青年脉动带 · MomentOfUs youth-commons)

Fig.1 Site Overview & Submission Package

Three-in-One Core Idea

Third Space System

Density of cafes, plazas, trails and green space matters as much as industry density; low-threshold encounters for transit innovators and settling innovators

AI Invisible Infrastructure

AI is not a showcase device but invisible infrastructure that lowers participation barriers, raises spatial adaptability, and amplifies youth co-creation — every scenario explainable, reviewable, human-overridable

Community Co-creation Mechanism

Youth curator system + proposal feedback loop + public-space booking platform, turning youth from users into producers of spatial content

Three Positionings

Five Function Loop

Naming System

Belt name	Jing-Zhang Youth Pulse Belt	■■■■■■■■
Spatial spine	Youth Pulse Track	■■ ■■ ■■
Three cores	Lab Commons / Origin Co-Lab /	■■■■■■ / ■■■■■■ / ■■■■■■ ■■■■■■
Loop	Youth Blue-Green Loop	■■■■■■■■
Xiaoyue River wing	Youth Waterfront	■■■■■■
Community nodes	Youth Hub	■■■■■■

Fig.2 Three Scopes & Spatial Working Framework

慢行系统与蓝绿网络图
Slow Mobility & Blue-Green Network

Fig.4 Transf. Slow Mobility & Blue-Green Public Space System

Four Segments of the Blue-Green Youth Loop

Park Segment	Daily trails + night vit
Waterfront Segment	Social & youth market ve
Qinghe Interface	Industry showcase + low-
Campus Green Belt	Learning & slow-mobility
Three-Tier Night Lighting	
Base lig	Covers all slow-mobility p
Active I	Mid-park & youth waterfron
Event li	Three cores & event venues

Zhongzhi Lab Commons

Zhongzhi Park AI Innovation Accelerator · Garden-style full-stack

- Open-source co-creation dome (code contribution wall + honors)
- Open-air pitch plaza (pitches / dev conference / hackathon)
- Safety governance sandbox (audit & red-team tests, visitable)
- Qinghe waterfront interface, low-carbon innovation exchange, external transit

Origin Co-Lab

Beijing AI Origin Community · Campus-adjacent outcome-

- Campus co-creation street (stitching campus/park/block)
- 24h co-creation study (booking-based, anonymous)
- Outcome release hall (universities & open-source community)
- Transit integration & campus-park slow mobility

Digital Bell Plaza

Dazhongsi AI Industry Cluster · Urban smart-economy & in

- Digital Bell Plaza (smart terminals + content consumption + festivals)
- Four-quadrant pedestrian connectivity (Dazhongsi Station)
- International pitch living room (showcase / talk / press)
- Station integration & static traffic

12 AI scenario cards × 6 youth personas: from concept to discussable, reviewable, implementable scenarios

Boundary Statement (must read)

All geometry in these drawings is based on a provisional boundary — NOT an official redline, approval basis, or precise area basis. When official boundaries, key-area polygons and regulatory conditions are released, land use, buildings, roads, green space, public space, phasing and metrics must be fully
