

A city does not chase model versions; it releases its own civic versions

One public spine · three release stations · six-stage contract · every version can be repaired or retired

A PUBLIC SPINE THAT STAYS OPEN

Provisional geometry · relational, not statutory

Walking · staffed service · no-app route remain available

SIX OBJECTS FOR ONE CIVIC VERSION

01 ISSUE

whose problem · where · who responds

02 FORK

boundary · window · ordinary alternative

03 TEST

baseline · event · stop and recovery

04 REVIEW

professional duty + affected public

05 RELEASE

state · limits · appeal · version ID

06 RETIRE

work order · budget · restore · archive

CURRENT S-02 VERSION STATE

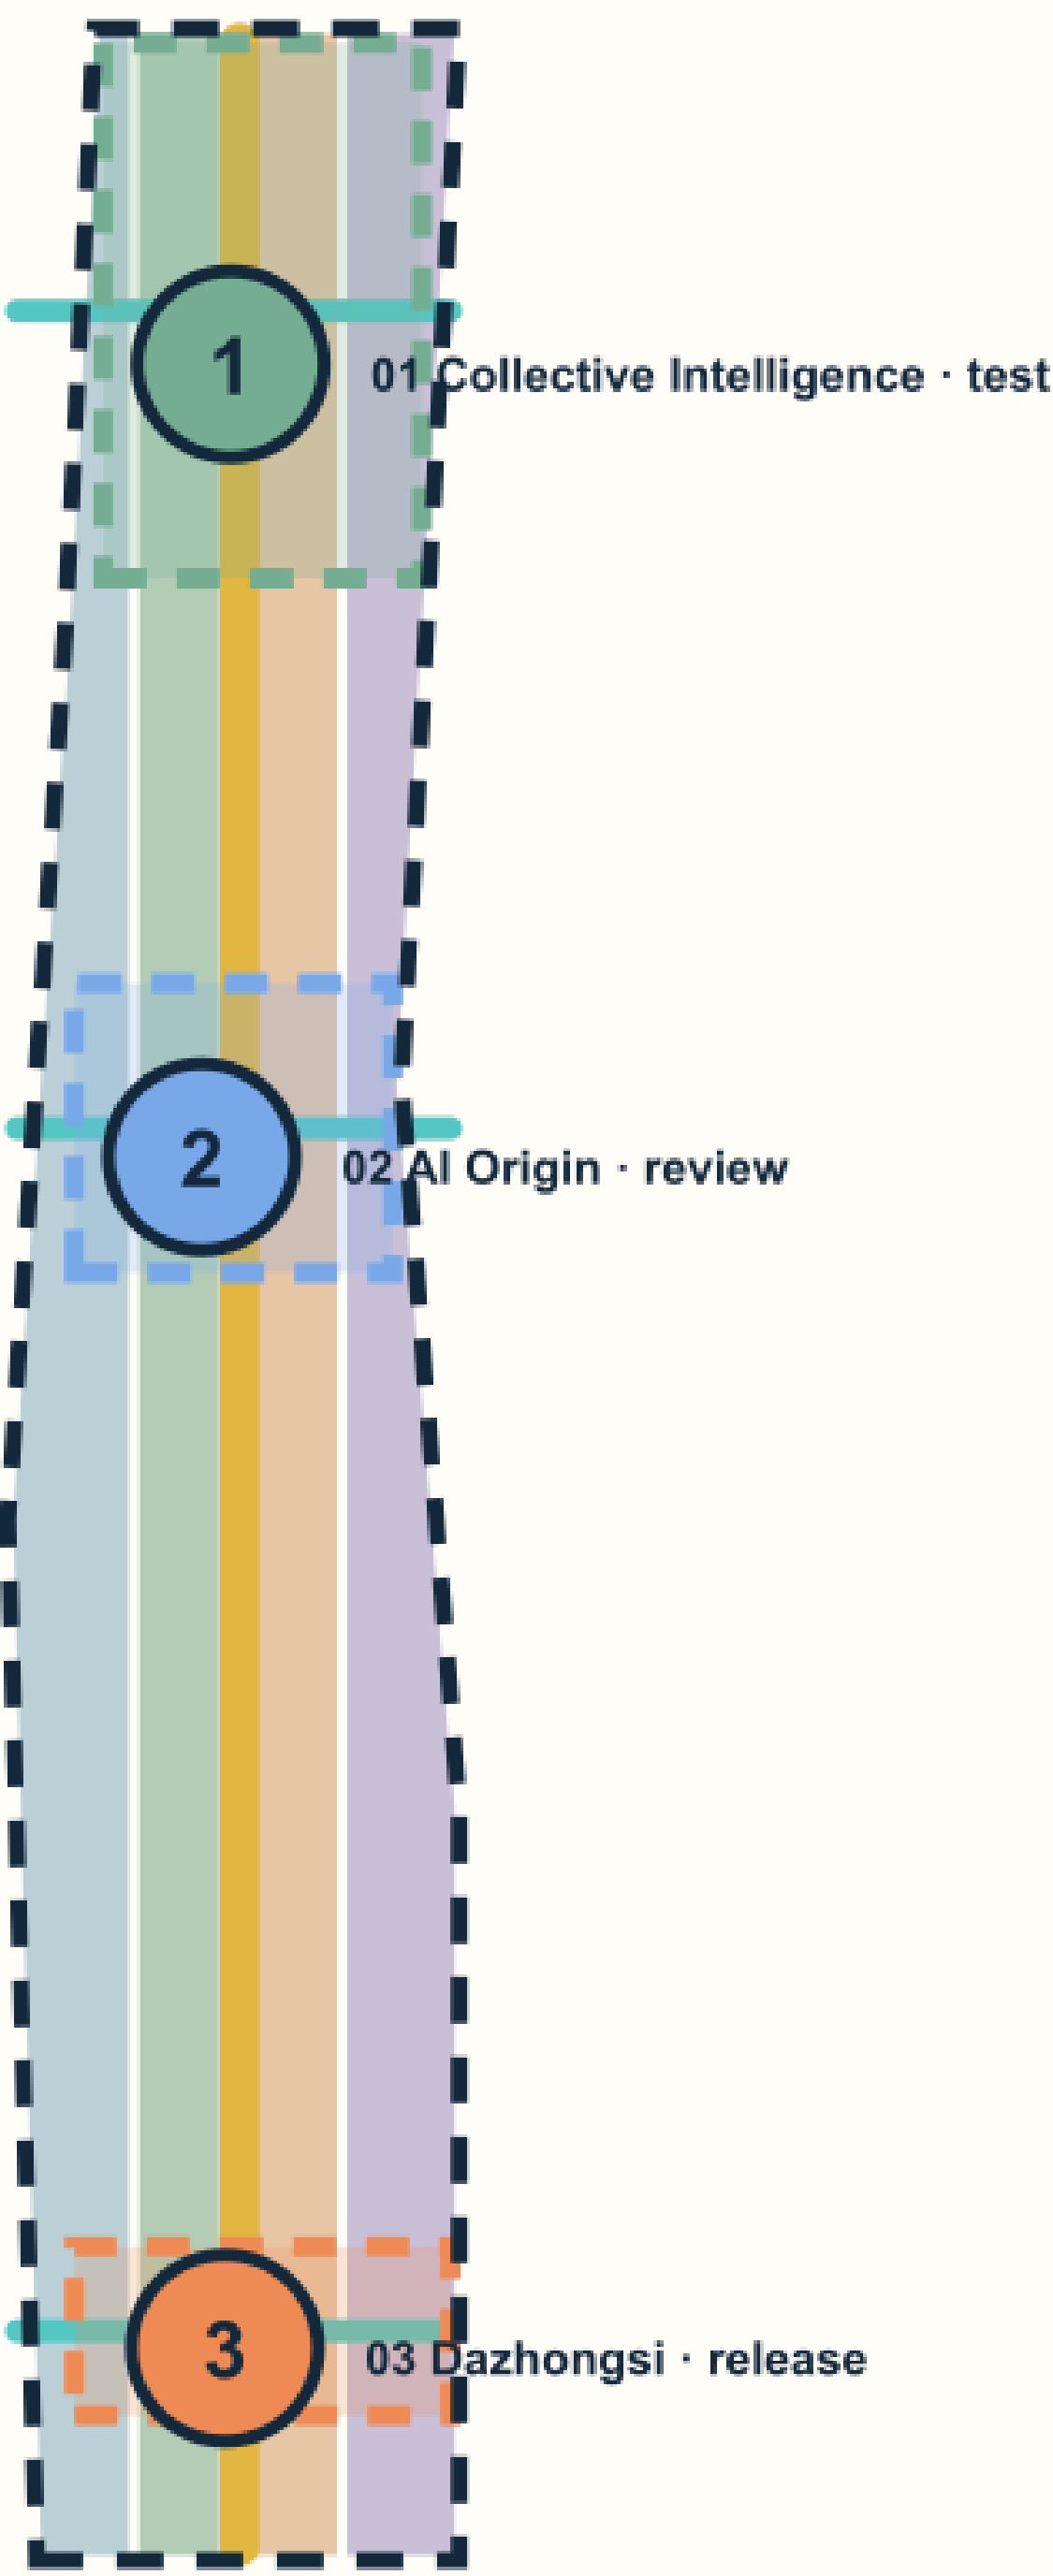

Tabletop PASS 4/4 + 6/6 + 5/5

Field window HOLD · RELEASE not issued

One public spine, three civic release stations

Concept land use, mobility and key areas share one provisional GeoJSON source and recompute together

11.41 km² PROVISIONAL OVERALL DESIGN AREA

FOUR CONCEPT LAND-USE CLASSES

AI R&D	2.67 km²
Park and open space	2.59 km²
Enterprise and commerce	3.37 km²
Community support	2.78 km²

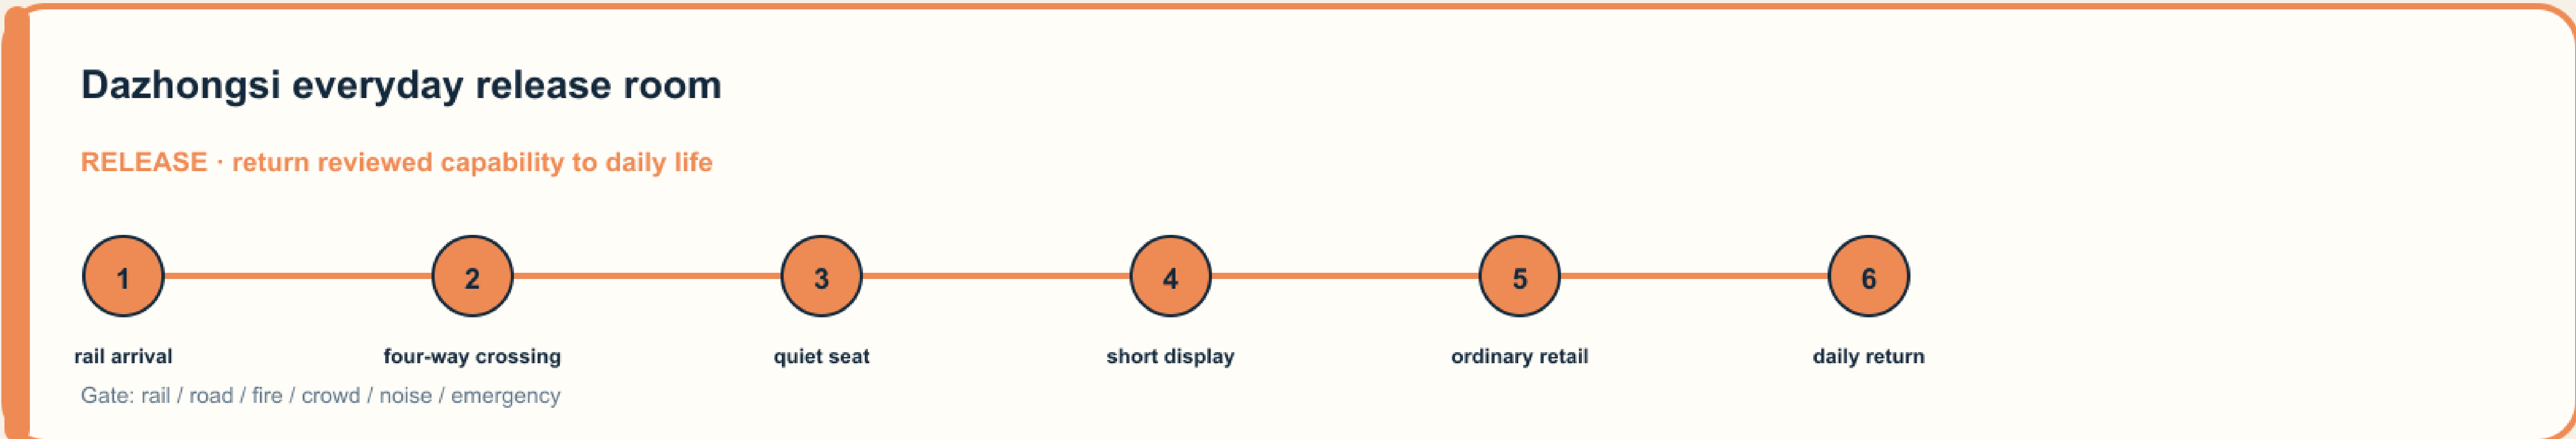

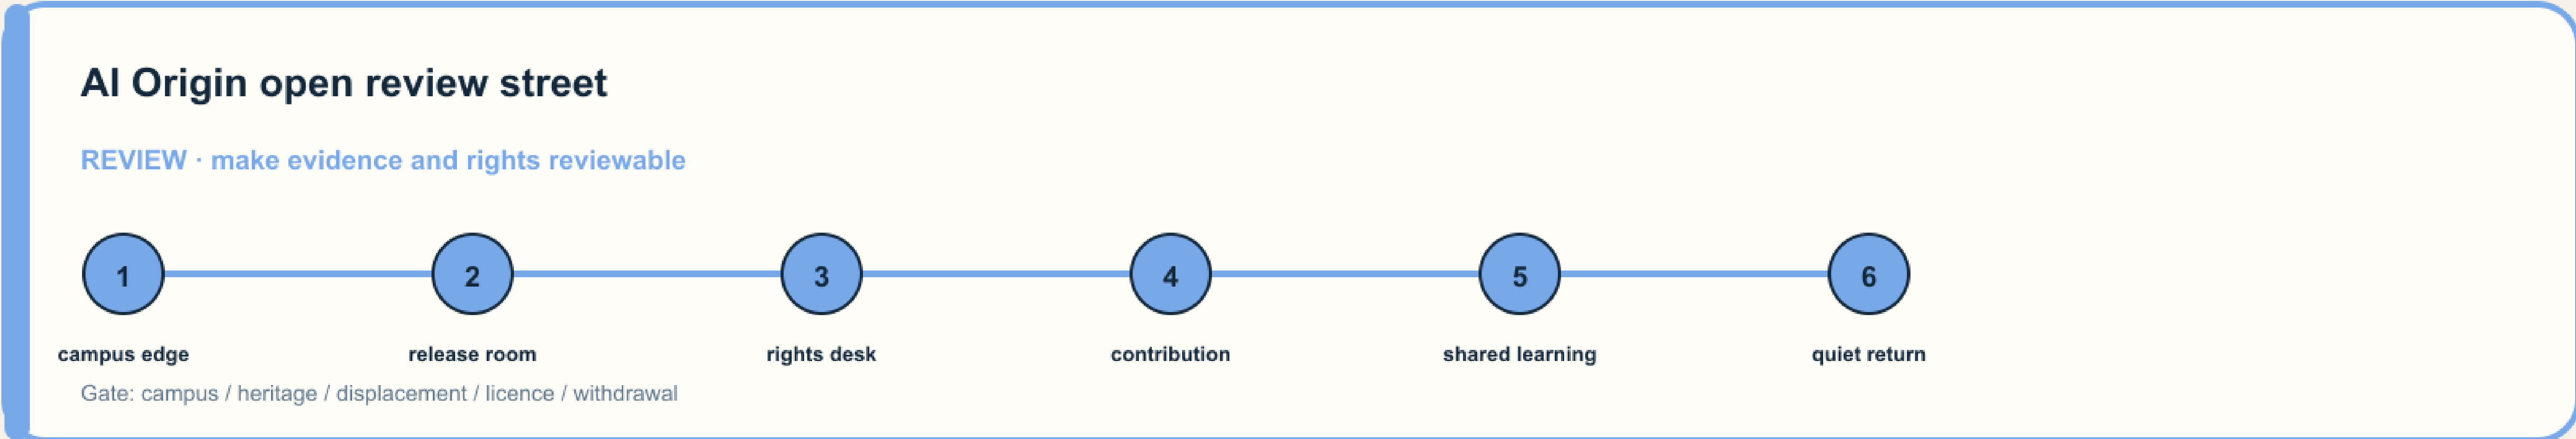

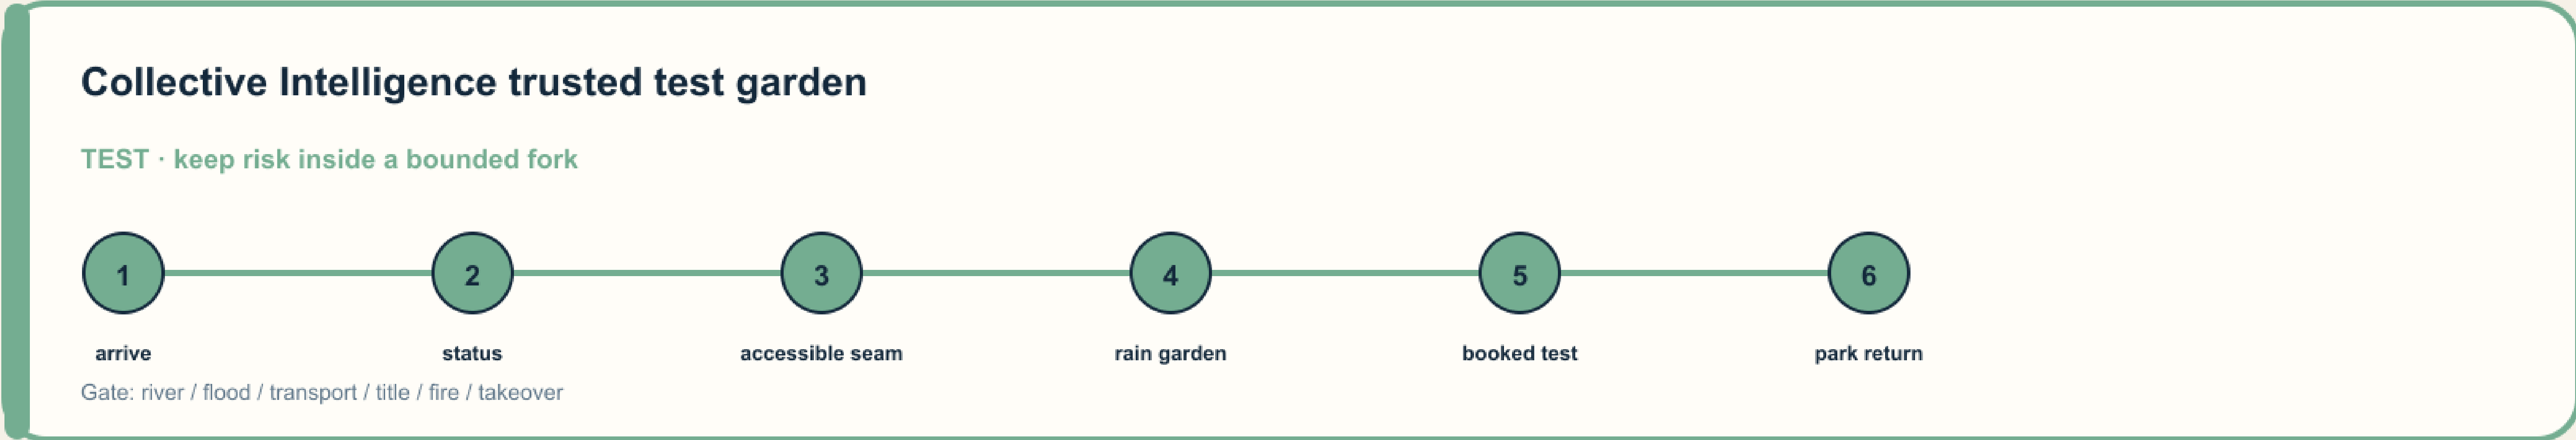

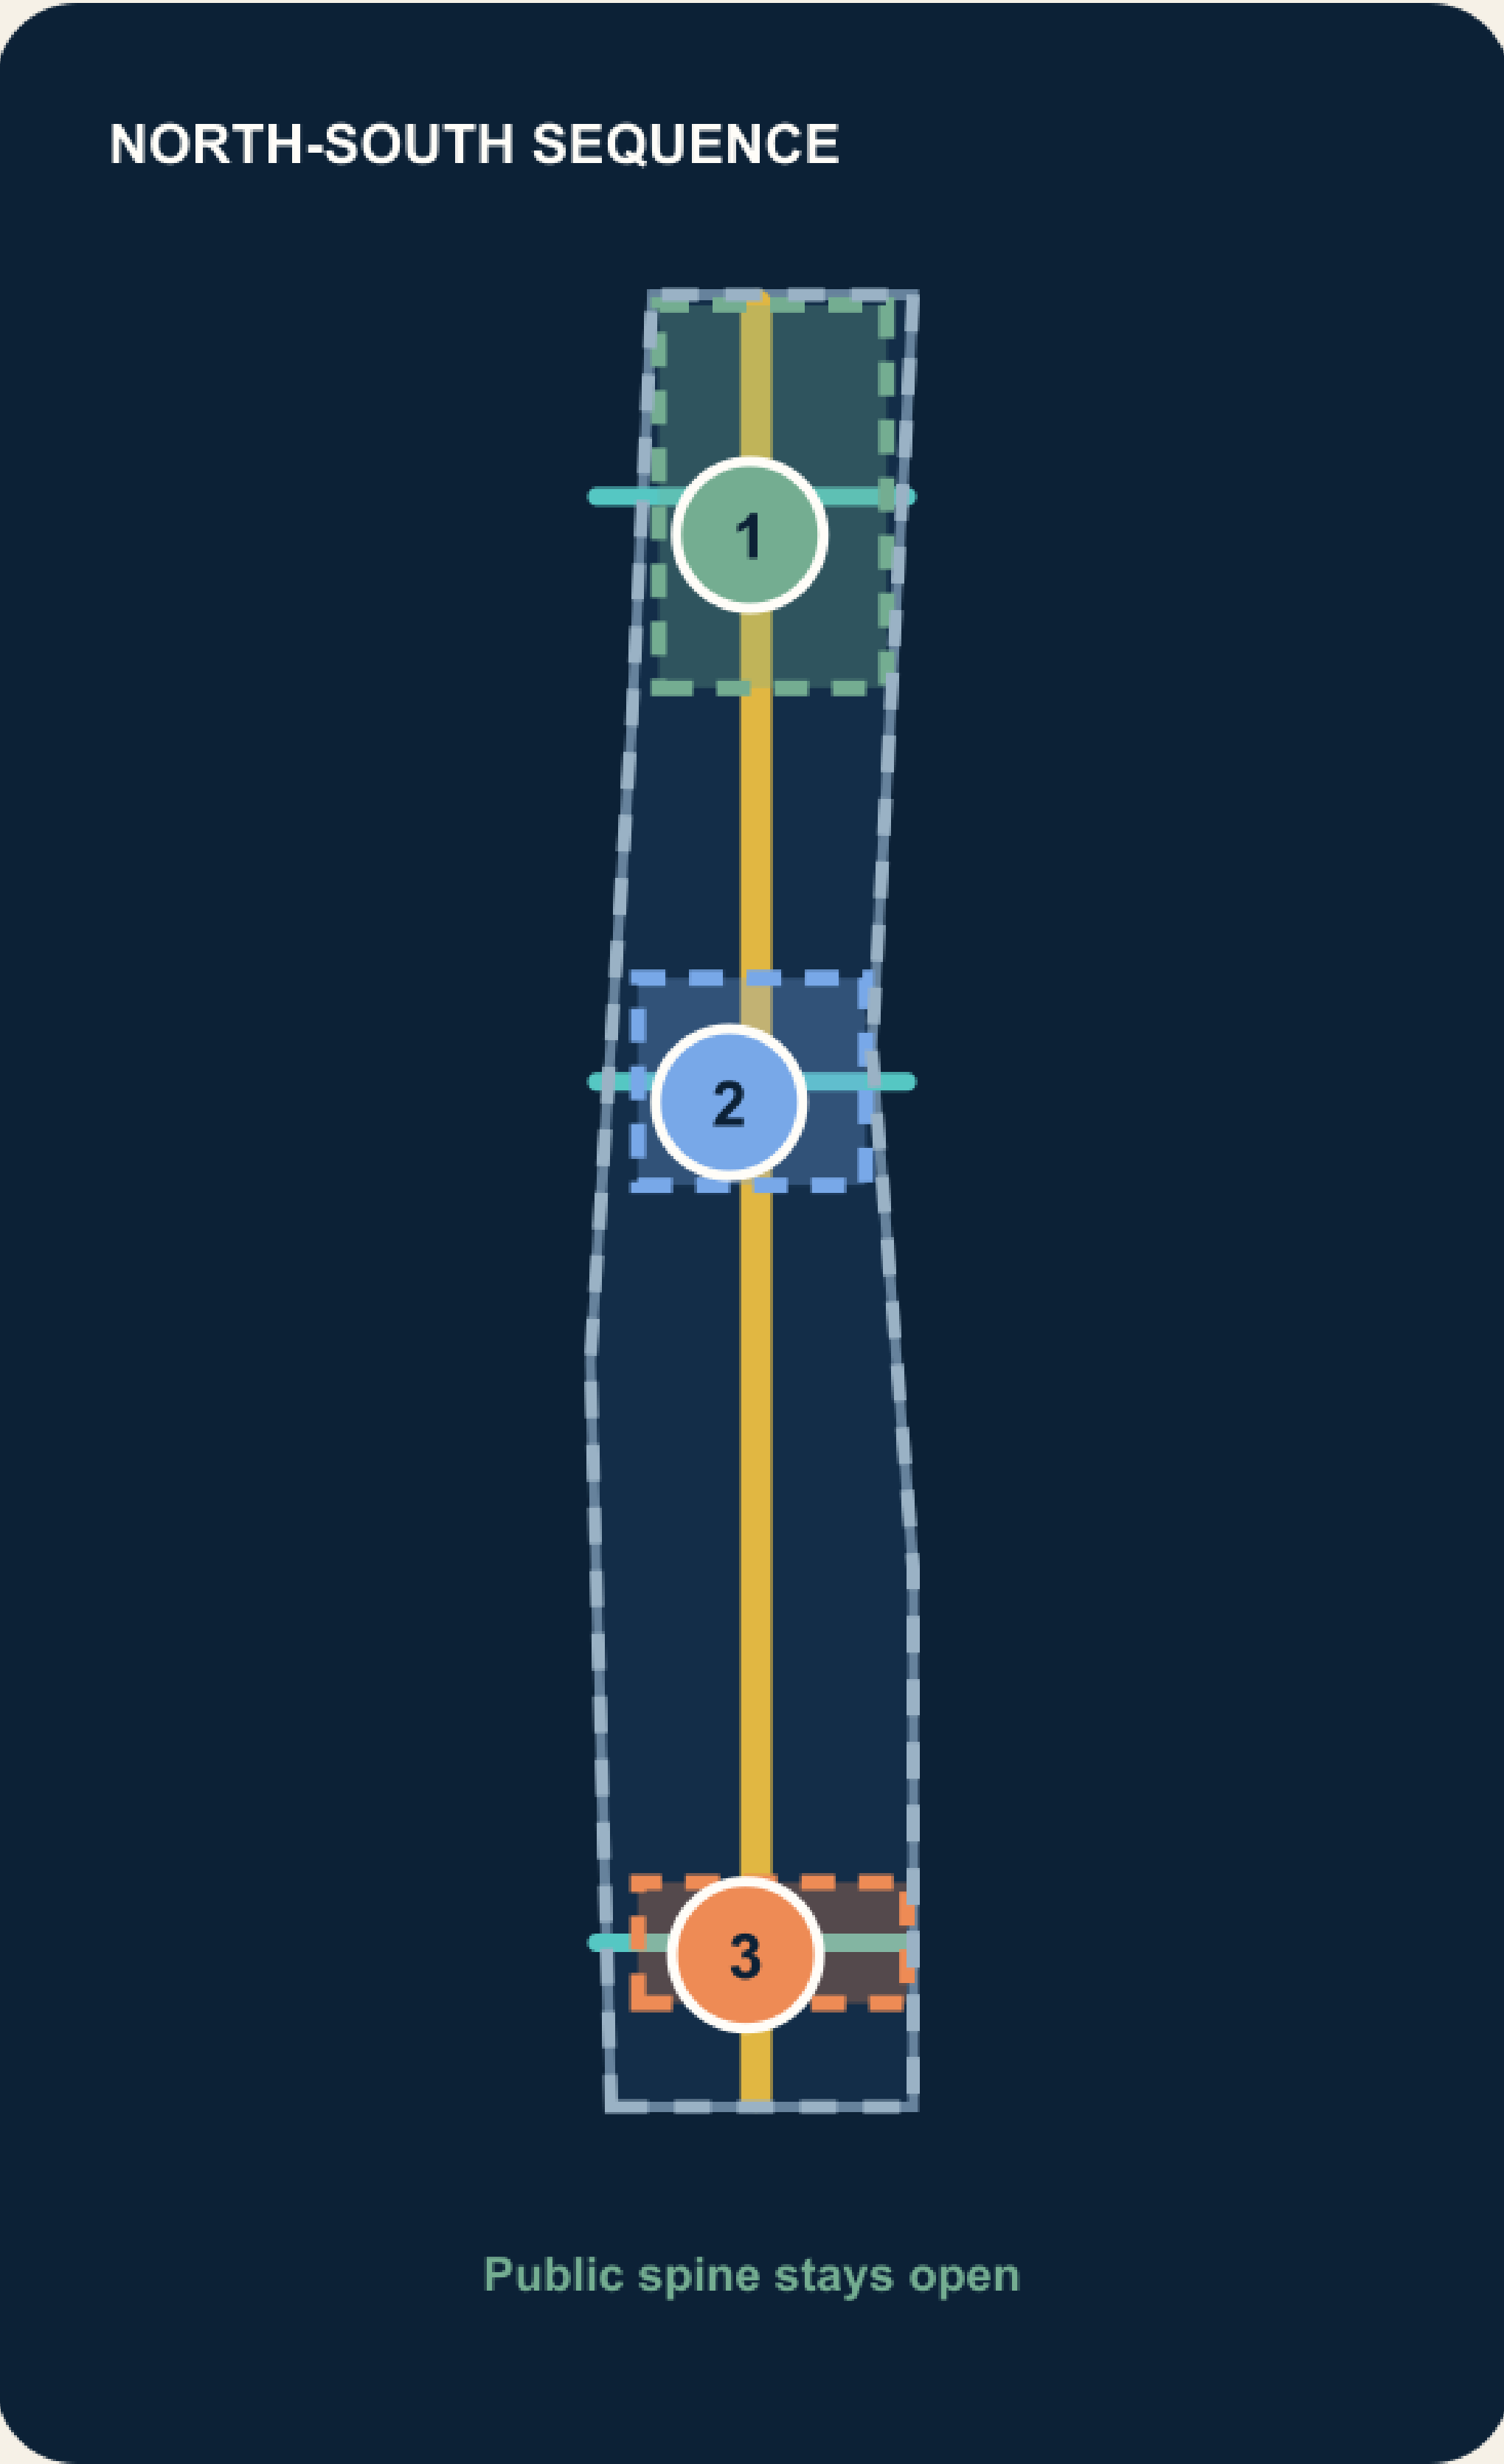

SPATIAL RULES

- 01 The public spine never closes for a test
- 02 Tests stay in bypassable pockets
- 03 Permanent works await official controls
- 04 Every station has staff and a retirement path

Provisional concept geometry only; not an official boundary, title, control or engineering alignment.

Three civic release stations: test, review, release

Every station starts from an ordinary route, passes six actions and returns to ordinary city life

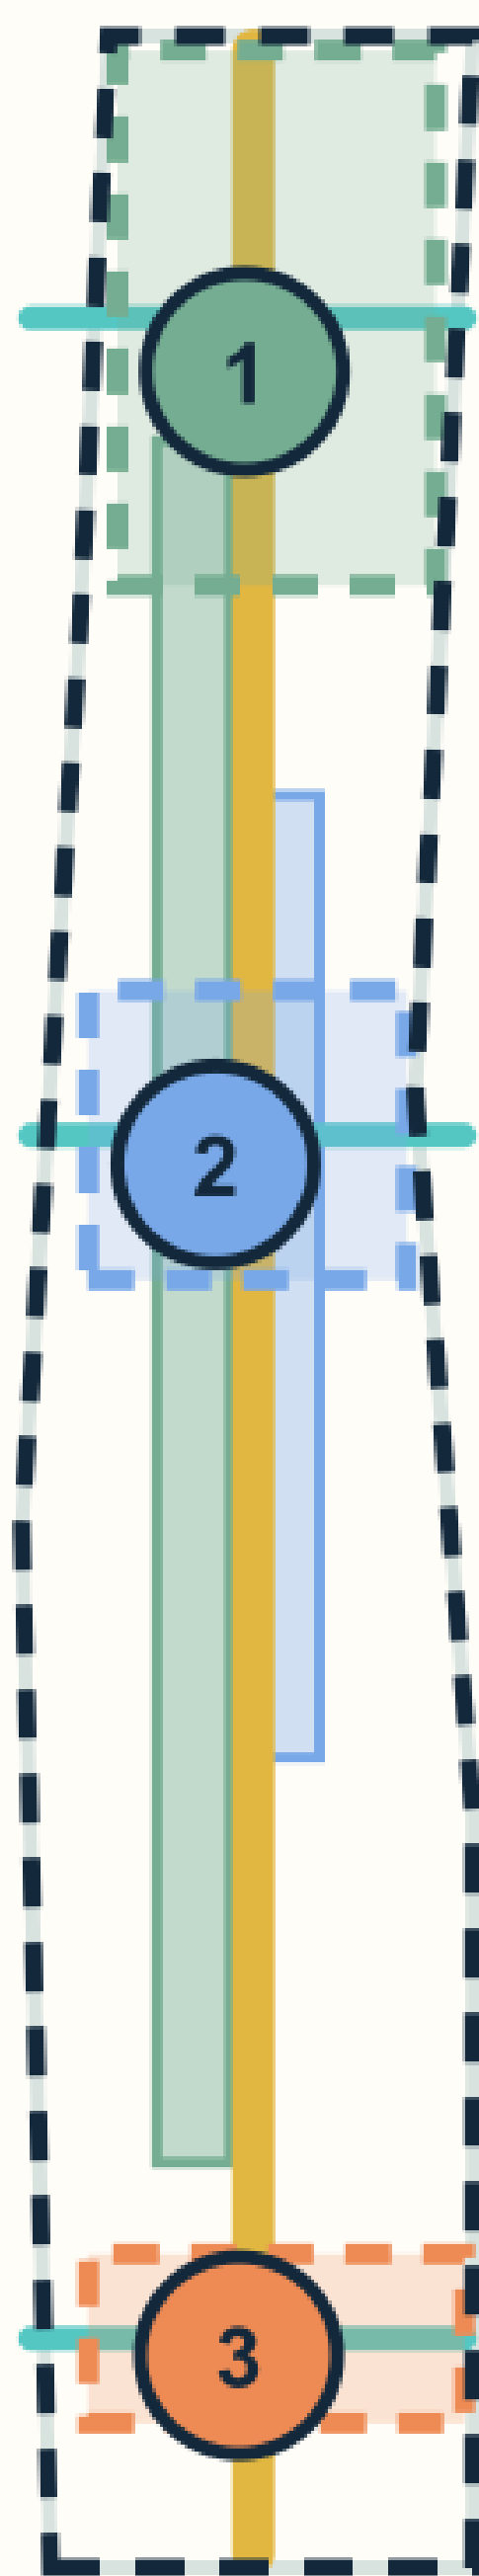

Failed gate: do not test, do not merge, or reduce activity to zero.

Keep the ordinary route open before embodied AI

A 9.60 km public spine, three east-west seams and four field-release gates

ORDINARY MOBILITY + BLUE-GREEN + PUBLIC SPACE

G0 walking, staffed service and hand-cart delivery remain available

S-02 ROUTE RELEASE LADDER

STOP TRIGGERS

pedestrian conflict · reduced clear width · failed stop
lost human sight · flood or fire concern

Three accounts decide whether a civic version can be released

Spatial account recomputes · service account remains unmeasured · version account requires all six

03 VERSION ACCOUNT / 6 OF 6 REQUIRED

01 public issue

02 named owner

03 ordinary alternative

04 evidence pack

05 public decision

06 repair or retire

ONE MISSING: NO RELEASE

Recomputable spatial numbers do not establish a field service; every version publishes state, limits and exit.

Three release stations: from concept links to plans, sections and capacity gates

Every dimension is a replaceable design-target range and must be recalculated after official geometry, survey, title and professional review

Collective Intelligence trusted test garden

bypassable test pocket

1:500 PARAMETRIC PLAN / FOUR MODULES

continuous ordinary and accessible route

2.4–3.6 m

offline status and staffed help point

2–3 m × 2–3 m

retractable test pocket

8–12 m × 6–10 m

shaded rest and park-return band

3–5 m

1:50 INTERFACE SECTION / NOT CONSTRUCTION DIMENSIONS

ordinary route

2.4–3.6 m

safety buffer

0.8–1.5 m

test branch

2–3.5 m

restore edge

0.8–1.5 m

BASE OPEN

TEST WINDOW

BLACKOUT

CLOSEOUT

BASE: arrive, status, rest, return

MAINTAIN: service, isolate, reinstate

EMERGENCY: close test, keep route

CAPACITY GATE: MINIMUM OF REVIEWED INPUTS

area / egress / staffed control / access and quiet thresholds

CURRENT: all inputs null → HOLD

AI Origin open review street

rights, service and quiet return

1:500 PARAMETRIC PLAN / FOUR MODULES

continuous ordinary and quiet-return route

2.4–4 m

staffed service and rights desk

3–4 m × 3–5 m

closeable open-publishing room

8–12 m × 6–10 m

residential quiet edge and non-commercial stay

4–6 m

1:50 INTERFACE SECTION / NOT CONSTRUCTION DIMENSIONS

ordinary route

2.4–4 m

staffed service

release front

3–5 m

quiet buffer

2–4 m

BASE OPEN

TEST WINDOW

BLACKOUT

CLOSEOUT

BASE: campus edge, staff, quiet return

MAINTAIN: inspect, correct, receipt

EMERGENCY: close room, keep egress

CAPACITY GATE: MINIMUM OF REVIEWED INPUTS

area / egress / staffed control / access and quiet thresholds

CURRENT: all inputs null → HOLD

Dazhongsi everyday release room

resident route first; event can fall to zero

1:500 PARAMETRIC PLAN / FOUR MODULES

continuous rail-to-retail resident route

3–5 m

quiet waiting and care bay

4–6 m × 4–8 m

clearable short-release frontage

8–16 m × 6–10 m

service, removal and reinstatement edge

3–5 m

1:50 INTERFACE SECTION / NOT CONSTRUCTION DIMENSIONS

resident route

3–5 m

quiet care

2–4 m

event front

3–6 m

restore edge

2–4 m

BASE OPEN

TEST WINDOW

BLACKOUT

CLOSEOUT

BASE: rail, cross, quiet seat, return

MAINTAIN: clear, inspect, release

EMERGENCY: zero event, keep route

CAPACITY GATE: MINIMUM OF REVIEWED INPUTS

area / egress / staffed control / access and quiet thresholds

CURRENT: all inputs null → HOLD

Parameters support option review and handoff; they do not replace survey, title, capacity, fire, utilities, access or construction review.

V3.2 6/7

Three-station delivery receipt: responsibility, procurement, staffing, cost method and exit together

Defines accountable archetypes and acceptance paths only; organizations, prices, permits and observed SLA remain unconfirmed

Collective Intelligence trusted test garden

SIX RESPONSIBILITY ROLES / ALL UNCONFIRMED

- planning + landscape design
- time-bounded test operator
- park asset maintenance
- rights and data steward
- independent access/fire review

PROCUREMENT + COST BOUNDARY

survey → reversible mock-up → independent acceptance

time-bounded service → retain / redesign / retire

Price: unknown; QS by component, staff, upkeep and reinstatement

SERVICE TARGETS / NOT FIELD OBSERVED

- stop on obstruction; isolate within 15 min
- update status board within 15 min
- signed route/surface check before reopening

UNCLEAR DUTY, CAPACITY OR RESTORE GATE: HOLD

AI Origin open review street

SIX RESPONSIBILITY ROLES / ALL UNCONFIRMED

- urban + service design
- staffed release-room operator
- building/public-edge maintenance
- rights and archive steward
- independent heritage/resident review

PROCUREMENT + COST BOUNDARY

survey → reversible mock-up → independent acceptance

time-bounded service → retain / redesign / retire

Price: unknown; QS by component, staff, upkeep and reinstatement

SERVICE TARGETS / NOT FIELD OBSERVED

- hide disputed content immediately
- acknowledge in 1 day; status in 5 days
- remove/replace within 48 h after confirmation

UNCLEAR DUTY, CAPACITY OR RESTORE GATE: HOLD

Dazhongsi everyday release room

SIX RESPONSIBILITY ROLES / ALL UNCONFIRMED

- station + event design
- event control room
- public/retail/cleaning maintenance
- content and data steward
- independent rail/traffic/fire review

PROCUREMENT + COST BOUNDARY

survey → reversible mock-up → independent acceptance

time-bounded service → retain / redesign / retire

Price: unknown; QS by component, staff, upkeep and reinstatement

SERVICE TARGETS / NOT FIELD OBSERVED

- zero capacity on fire/crowd/water/noise breach
- signed recovery check within 30 min
- public defect/complaint review within 14 days

UNCLEAR DUTY, CAPACITY OR RESTORE GATE: HOLD

SIX SHARED DELIVERY GATES

1. replaceable dimensions

2. independent ordinary route

3. no capacity release without inputs

4. no invented owner or price

5. test includes blackout + closeout

6. retention enters statutory process

This is a delivery question set, not a budget, procurement document, organizational commitment, permit or achieved service level.

V3.2 7/7
