

Jing-Zhang AI Spine

Rejuvenation Future Habitat Belt

Centennial Jing-Zhang AI Innovation Belt Urban Design
43.6 km² | Four Dimensions | 10 AI Scenarios | 3 Landmarks

Conceptual proposal generated with AI assistance | v2.1 | 2026-08-27

Master Plan: Three Scopes & Spatial Structure

Research 43.6 km² | Design 11.4 km² | Key Areas 368.4 ha. Jing-Zhang Railway Heritage Park as cultural spine. Three key areas: Zhongzhiyuan (192.1ha), Origin Community (104.3ha), Dazhongsi (72.0ha). Provisional boundaries from repository.

Key Node Renderings (1/2)

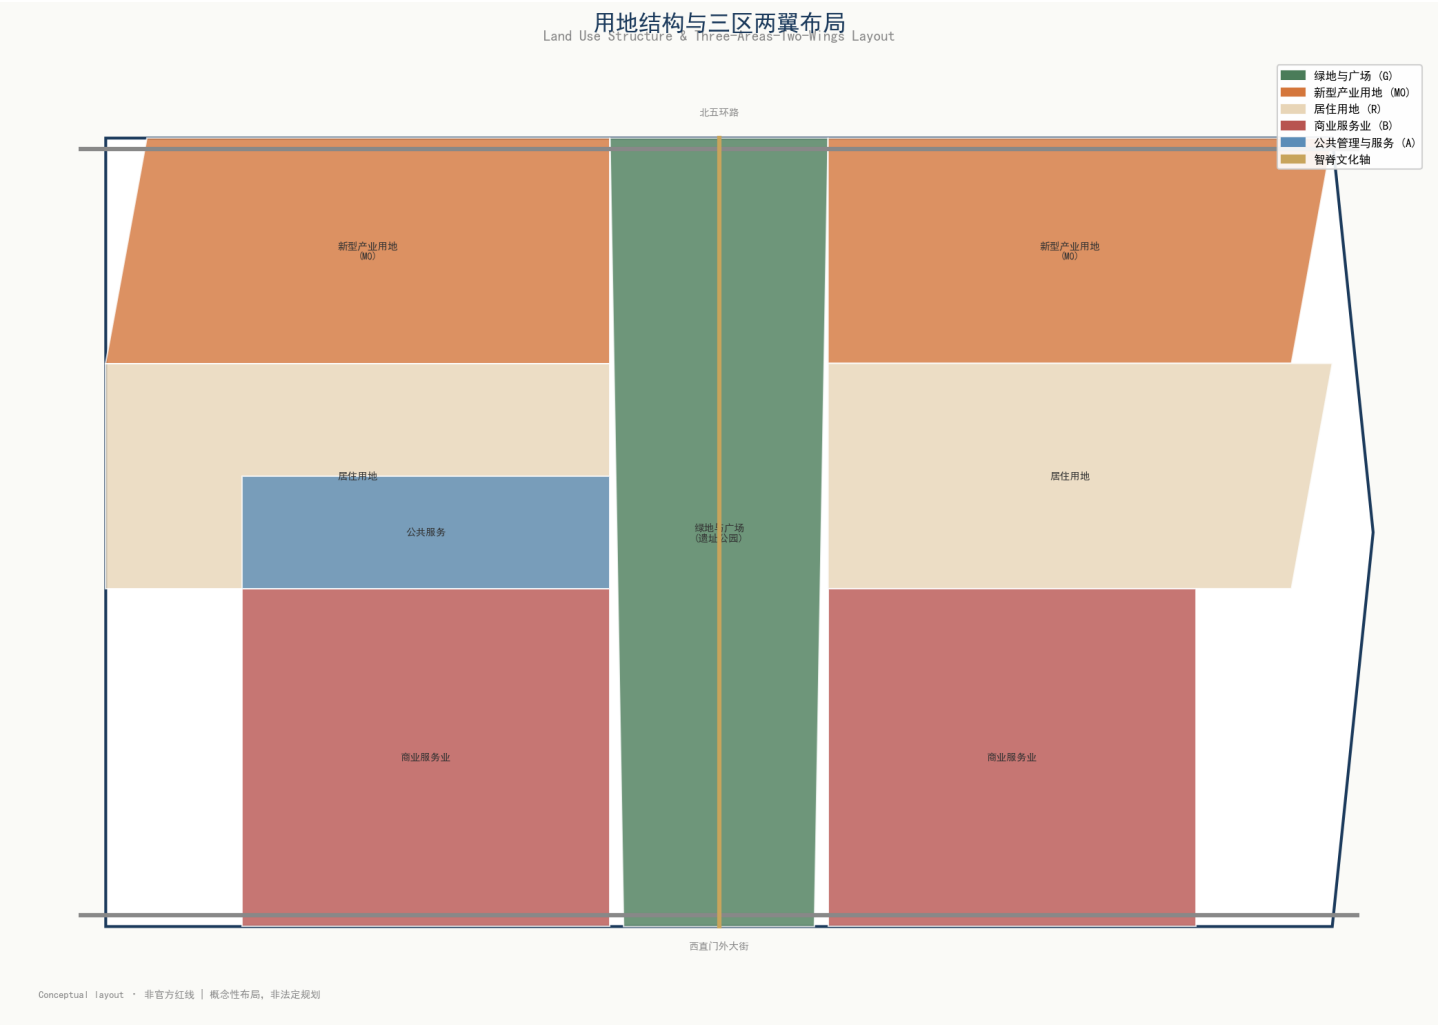

Key Node Renderings (2/2)

National Rejuvenation & Overall Aerial

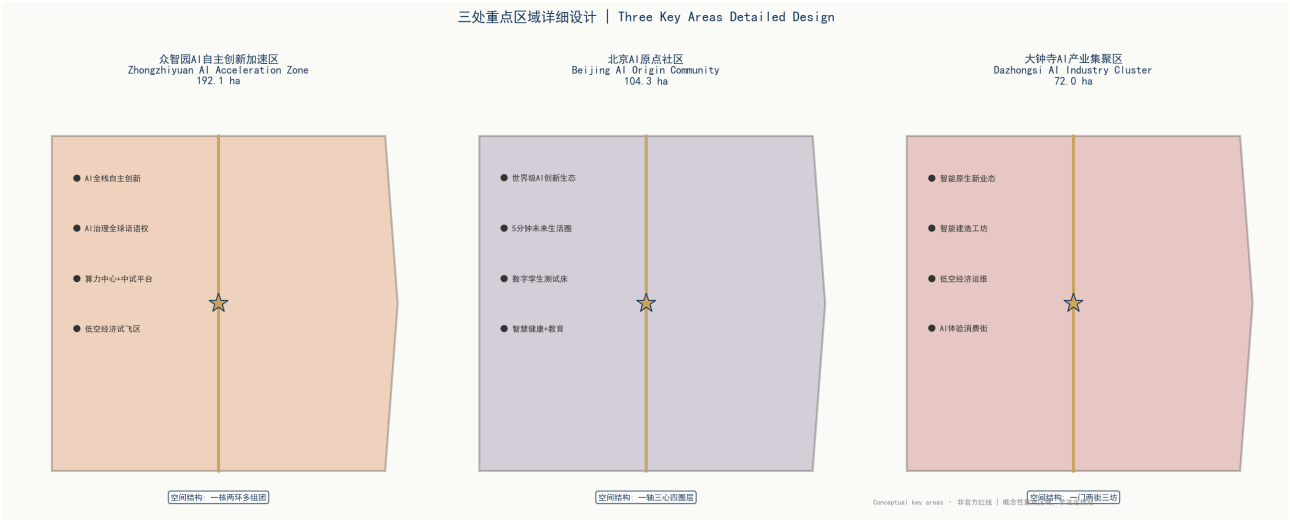

Land Use Structure

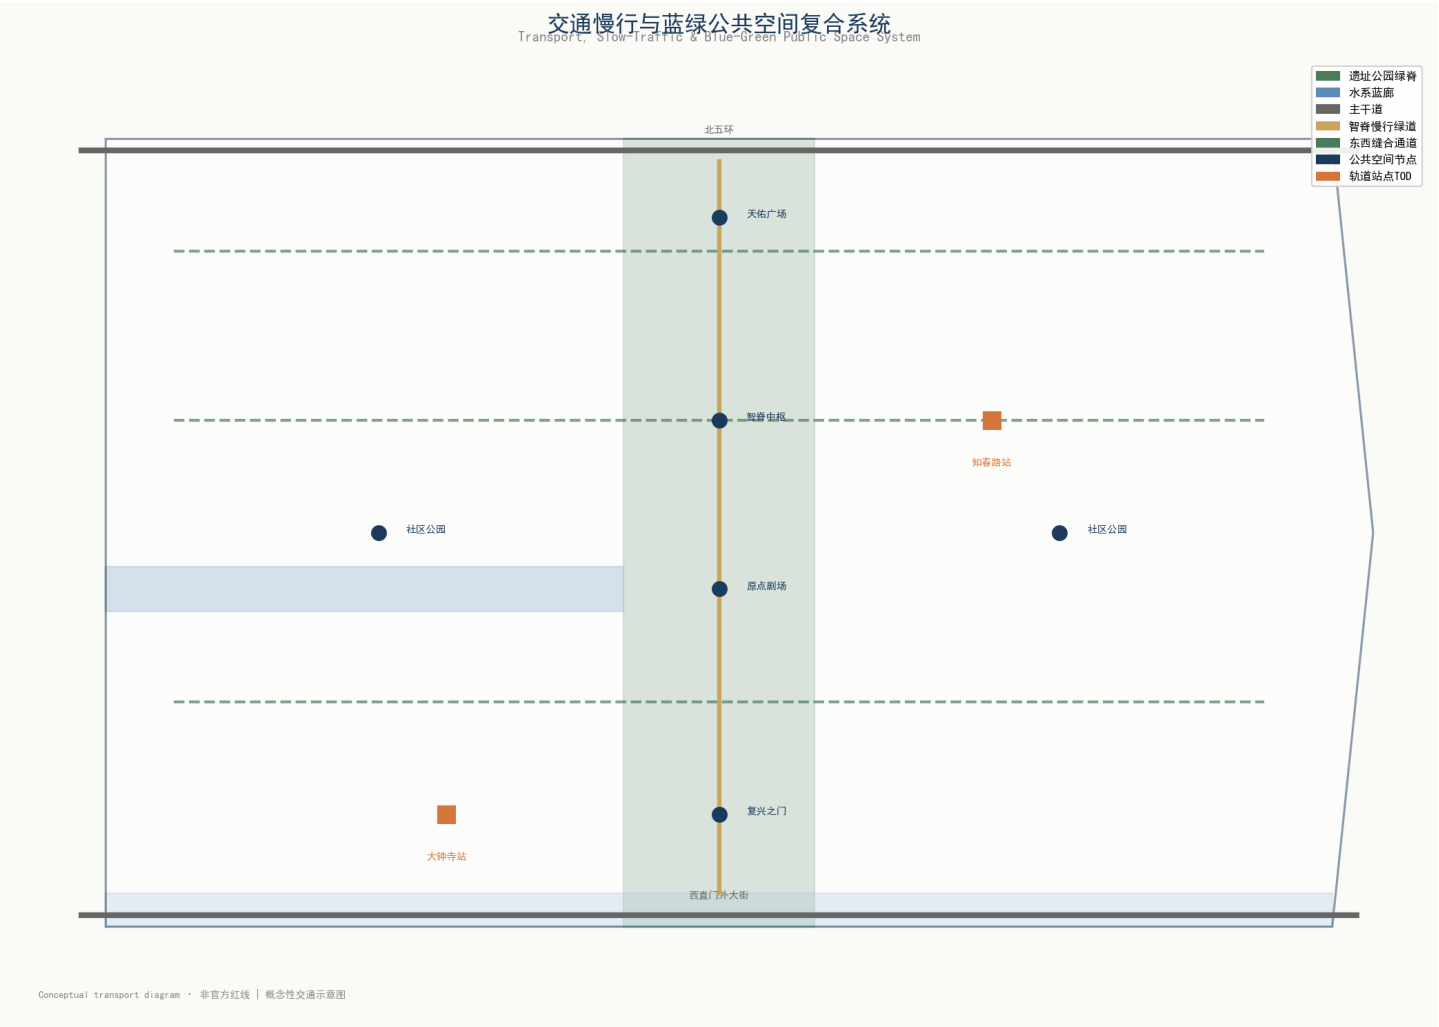

Heritage park green spine (G) | New-type industrial (M0) | Residential (R) | Commercial (B) | Public service (A). Conceptual layout, not statutory. FAR and height pending official control planning.

Three Key Areas Detailed Design

Mobility & Blue-Green Network

9 km Spine Greenway | Smart traffic demo road | V2X infrastructure | Ventilation corridors (fengshui) | Xiaoyuehe blue-green corridor | Robot service hubs.

Four Design Dimensions

1. Future Habitat Smart City

Digital twin community, smart mobility, smart energy, AI health, urban robots, resilient emergency. Elastic functions adapting to future uses.

2. Centennial Jing-Zhang Culture

1909 Zhan Tianyou railway, 35km/h to 350km/h. Three memorial nodes, timeline 1909-2026, Tianyou Spirit of independent innovation.

3. Fengshui & Chinese Lineage

Wind-gathering qi-accumulating, backing mountain facing water, heaven-human unity. AI landscape analysis, ten subsystems dynamic balance.

4. National Rejuvenation

From follower to leader. Standing Up / Getting Rich / Becoming Strong theme spaces. Chinese wisdom, solutions, strength to the world.

Centennial Timeline & AI Scenarios

Timeline: 1909-2026

1905	Construction begins
1909	Opening - 35km/h Pride Road
1949	New China - Standing Up
1978	Reform - Getting Rich
2008	High-speed rail era
2019	Smart HSR - 350km/h
2026	AI Innovation Belt launches

10 AI Scenarios

Digital Twin Community | Smart Mobility | Smart Energy | AI Health | Urban Robots | Resilient Emergency | Cultural Heritage | AI Education | Environment & Carbon | Smart Construction

Dynamic Flythrough Video

Jing-Zhang AI Spine - Cinematic Aerial Flythrough

Duration: 30 seconds | Aspect Ratio: 21:9 (1470x630) | Model: Seedance 2.5 | Format: MP4

File: assets/media/jingzhang-ai-spine-flythrough.mp4

Description: Cinematic aerial drone flight along the historic railway heritage park transformed into a futuristic AI innovation belt. Camera glides northward over the green spine, passing the observation tower, autonomous shuttles, robotic service units, and cultural memorial plazas. Golden hour lighting, smooth camera movement, photorealistic architectural visualization.
