

THE APPRENTICE CITY

OPEN BOOK · RAIL · SIX GATES · RETURN

One family for the master mark, spatial signs and evidence labels—never interchangeable.

THREE POSITIONS

Centennial Jing-Zhang Cultural Belt / Metropolitan AI Life Experience Belt / AI Integrated Innovation Belt

FIVE FUNCTIONS

Full-Stack Independent AI Innovation System · World-Class AI Innovation Ecosystem · New AI+ Scenario Empowerment Paradigm · Intelligent AI-Vibrant City · Global AI Governance Voice

SIX GATES TO GRADUATION

1 NEED

Co-define the need, baseline and no-AI route
Need / baseline / no-AI route

2 BUILD

Declare model, data, resources, rights and limits
Model / data / rights / resources

3 PRACTISE

Simulate, contain, then practise in a limited field
Simulation → contained → limited field

4 HANDOVER

Name human roles, rehearse takeover, appeal and recovery
Takeover / incident drill / appeal

5 TEACH-BACK

Enable a non-origin team to explain, maintain and retire it
Public lesson / two non-origin maintainers

6 GRADUATE

A human jury decides scale, revision or retirement
Five-seat human jury: scale / revise / retire

THREE URBAN SCHOOLS

BUILD ZHONGZHIYUAN

Controlled practice for models, compute, data, robotics and safety engineering

SC-01—04

LEARN AI ORIGIN

Translate research into public lessons people can understand, question, learn and refuse

SC-05—08 / 10

USE DAZHONGSI

SME adoption, operational takeover, maintenance practice, international exchange and exit

SC-09 / 13 / 15 / 16

16/16
NO-AI EQUIVALENTS · TARGET

2+
NON-ORIGIN MAINTAINERS

100
FALSIFIABLE SEMESTER / DAYS

5
HUMAN JURY SEATS

ONE SYLLABUS · THREE SCHOOLS · TWO WINGS · SEVEN CROSSINGS

Space is a syllabus; every field practice carries a stop rule.

9
TOPOLOGY-SAFE ZONES

36
REVERSIBLE SPATIAL
PROTOTYPES

7
CROSS-CLASSROOMS

16
FIELD CLASSROOMS

THE URBAN CURRICULUM EQUATION

THE FIRST 100 DAYS / CAPABILITY, NOT CALENDAR, ADVANCES

D0—20
NEED / BASELINE

D21—45
SYNTHETIC / SIMULATE

D46—70
CONTAINED PRACTICE

D71—90
TAKEOVER /
TEACH-BACK

D91—100
HUMAN JURY

LAND USE EXPRESSES RELATIONSHIPS, NOT STATUTORY CONTROL

PUBLIC FRONT
purpose / limits / staffed route visible

CONTROLLED BACK
testing / logistics / risk contained

REVERSIBLE GROUND
ordinary use returns after AI exits

VISIBLE UNKNOWNNS
no invented FAR / height / budget

BASIC SERVICE
static / staffed / phone / paper

EXISTING BASE FIRST
retain built park / reversible learning overlay only

04 / PUBLIC BASE LAYER

THE AI LAYER MAY GO OFFLINE; BASIC SERVICE MAY NOT

Retain the built park and fishbone walking/cycling base; add only verified crossings, staffed service and removable AI.

04

A COMMON SECTION FOR SEVEN CROSS-CLASSROOMS

THREE OPERATING LAYERS / DEGRADE WITHOUT DENYING SERVICE

FOUR FACILITIES THE AI LAYER CANNOT REPLACE

RETAIN THE BASE · Phase-two support is complete; verify seven conceptual crossings; all 16 scenarios keep no-AI routes.

JING-ZHANG APPRENTICE CITY · PROVISIONAL CONCEPT / NOT AN OFFICIAL REDLINE

cc-c122 · v1.0

THE PUBLIC BASE LAYER PRECEDES AI ENHANCEMENT

CONTINUOUS ACCESS

field walk, tactile/audio, gradients and breaks to verify

BLUE-GREEN RESILIENCE

Qinghe/Xiaoyue River interfaces, shade and stormwater need specialist study

NO-AI EQUIVALENCE

desk, phone, paper, static signs and human patrol remain

FIVE PROFESSIONAL GATES

M1 ROAD / RAIL REDLINES

statutory lines, station interfaces, sight distance, continuous access

STOP / DOWNGRADE: unknown: concept alignment only; no engineering claim

M2 POWER / COMPUTE COOLING

load curve, substation, cooling, heat rejection and equipment safety

STOP / DOWNGRADE: unknown capacity: metered bench, simulation or contained test only

M3 WATER / DRAINAGE / STORM

water capacity, flood level, outfall and sponge-asset maintenance

STOP / DOWNGRADE: missing evidence: no detention or flood-performance claim

M4 FIRE / NOISE / VIBRATION

fire access, separation, evacuation, equipment and rail noise/vibration

STOP / DOWNGRADE: failed specialist review: close, reduce or relocate the scenario

M5 MUNICIPAL INTERFACE / OPERATIONS

telecom, sanitation, charging, maintainers, incident command and shutdown

STOP / DOWNGRADE: no named operator or sustained resource: no field opening

EXISTING BASE: phase-two support is complete and opening is background only; retain the built park. Crossings, scenarios and components still need field, rights, heritage, operator and approval checks; unknown capacity keeps work simulated, contained or human-operated.

TRANSFERABLE · CONTESTABLE · ADOPTABLE—OR RETIRED

Each key area joins spatial form, field practice, operations and exit.

BUILD ZHONGZHIYUAN · FULL-STACK PRACTICE YARD

SPATIAL MOVE

Shared prototype sheds, red-team rooms, resource benches, public windows and a Qinghe climate classroom

FIELD CLASSROOMS

- SC-01 Full-stack model benchmark workshop
- SC-02 Embodied-robot shift safety yard
- SC-03 Model energy and water budget class
- SC-04 Privacy-preserving data steward lab

HARD STOP

Spillover from sensitive tests, enclosure, or treating a test pass as regulatory approval

LEARN AI ORIGIN · PUBLIC TRANSLATION SCHOOL

SPATIAL MOVE

Open seminar rooms, model translation clinics, accessibility walks, youth cars and staffed service desks

FIELD CLASSROOMS

- SC-05 AI accessibility red-team walk
- SC-06 Plain-language model translation clinic
- SC-07 Youth AI maker carriage
- SC-08 Career-shift civic project semester
- SC-10 Staffed AI public-service practice desk

HARD STOP

Default experimentation on residents, unpaid extraction, or digital substitution for basic service

USE DAZHONGSI · CITY ADOPTION STUDIO

SPATIAL MOVE

Adoption clinics, incident simulators, maintenance bays, graduation jury and station-facing services

FIELD CLASSROOMS

- SC-09 International founder city orientation
- SC-13 SME AI adoption clinic
- SC-15 City operator incident simulator
- SC-16 Adoption, maintenance and retirement jury

HARD STOP

Launch theatre, vendor lock-in, or orphaned maintenance and exit liabilities

05

AI ECOSYSTEM: FIVE-NODE LOOP x EIGHT ENABLER GATES

Every enabler needs evidence and a stop condition; missing capacity reduces the pilot rather than enlarging the promise.

THREE-SCHOOL LEARNING LOOP

Graduated lessons return to city NEED. Wings exchange lesson fields, coaches, version differences and negative results - never personal data, coordinates or approvals.

EIGHT ENABLERS = EIGHT REVIEWABLE ENTRY GATES

SIX-GATE GRADUATION CONTRACT

1909-2026-2126 · THREE LESSONS

FOUR CIVIC LANDMARKS / NOT MONUMENTAL OBJECTS

THREE EVIDENCE-BASED HONOUR TRACKS

FOUR SEASONS · PUBLISH CONTINUE, REVISE AND STOP EVERY YEAR

FIVE-LEVEL CONVERSION IS NOT A TRAFFIC FUNNEL · EVERY STEP MAY REFUSE, EXIT OR REVALIDATE

05 / DELIVERY & ACCOUNTABILITY

THE PILOT IS NOT THE PRODUCT; CIVIC CAPABILITY IS

Twelve actions register RACI, resources, acceptance, payment gates, degraded modes and exit.
