

Jingzhang AI Pulse

Urban Design for the Qianjiang AI Innovation Corridor

Overview

Three Key Areas

- KA1: Zhongzhiyuan**
Garden-type full-stack autonomous innovation district. Focus: national AI platform, full-stack innovation, standard-setting, safety governance, industry showcase, Qinghe culture interface, low-carbon green innovation, green space AI scenarios.
- KA2: AI Origin Community**
Near-campus achievement translation and talent community. Focus: near-campus innovation, achievement incubation, talent special zone, open-source systems, brand activities, building retain-renovate-demolish, achievement display, campus-park slow mobility, transit integration.
- KA3: Dazhongsi Cluster**
Urban-type smart economy and international exchange district. Focus: leading enterprises, AI agents, smart terminals, content consumption, data elements, digital assets, commercial services, Dazhongsi station integration, four-quadrant pedestrian connectivity.

Core Metrics

site_area_sqm: 11,412,825 (high confidence)	green_ratio: 12.34% (medium confidence)	public_space_ratio: 7.33% (medium confidence)
building_footprint_area_sqm: 310,807 (medium confidence)	key_area_count: 3 (high confidence)	floor_area_ratio: unknown (pending official controls)
