

Jingzhang AI Pulse

Urban Design for the Centennial Railway Corridor

A3 Booklet - Formal Submission

1. Design Basis

Primary authority: Qualification Pre-Review Announcement, Haidian Branch, Beijing Municipal Commission of Planning and Natural Resources.

Machine-readable inputs: brief/site-package/ including design_brief.json, allowed_design_space.json, sources.json, enums/, ranges/, schemas/.

Three-level scope: Coordination Research (43.6 sqkm), Overall Design (11.4 sqkm), Key Areas (368.4 ha, 3 areas).

Provisional boundary used; precision caveats retained.
Official boundary replacement requires full recalculation.

2. Three Key Areas

KA1: Zhongzhiyuan

Garden-type full-stack autonomous innovation district

KA2: AI Origin Community

Near-campus achievement translation and talent community

KA3: Dazhongsi Cluster

Urban-type smart economy and international exchange district

3. Metrics Summary

site_area_sqm	11,412,825 sqm	HIGH
green_ratio	12.34%	MEDIUM
public_space_ratio	7.33%	MEDIUM
building_footprint_area_sqm	310,807 sqm	MEDIUM
key_area_count	3	HIGH
floor_area_ratio	unknown (pending official controls)	UNKNOWN
