EAST-WEST-HONG KONG TRANSFER

Transfer mechanisms, not forms

- Chinese courtyard: community and encounter
- Western quad: open learning and interdisciplinarity
- Hong Kong vertical city: transit, mix and weather protection
- Repair sealed podiums, over-density, gates and digital exclusion

COMPLETE PARTITION, GRADUATED MIX

CONCEPTUAL FUNCTION MODEL; REDRAW WITH OFFICIAL PARCELS AND CONTROLS

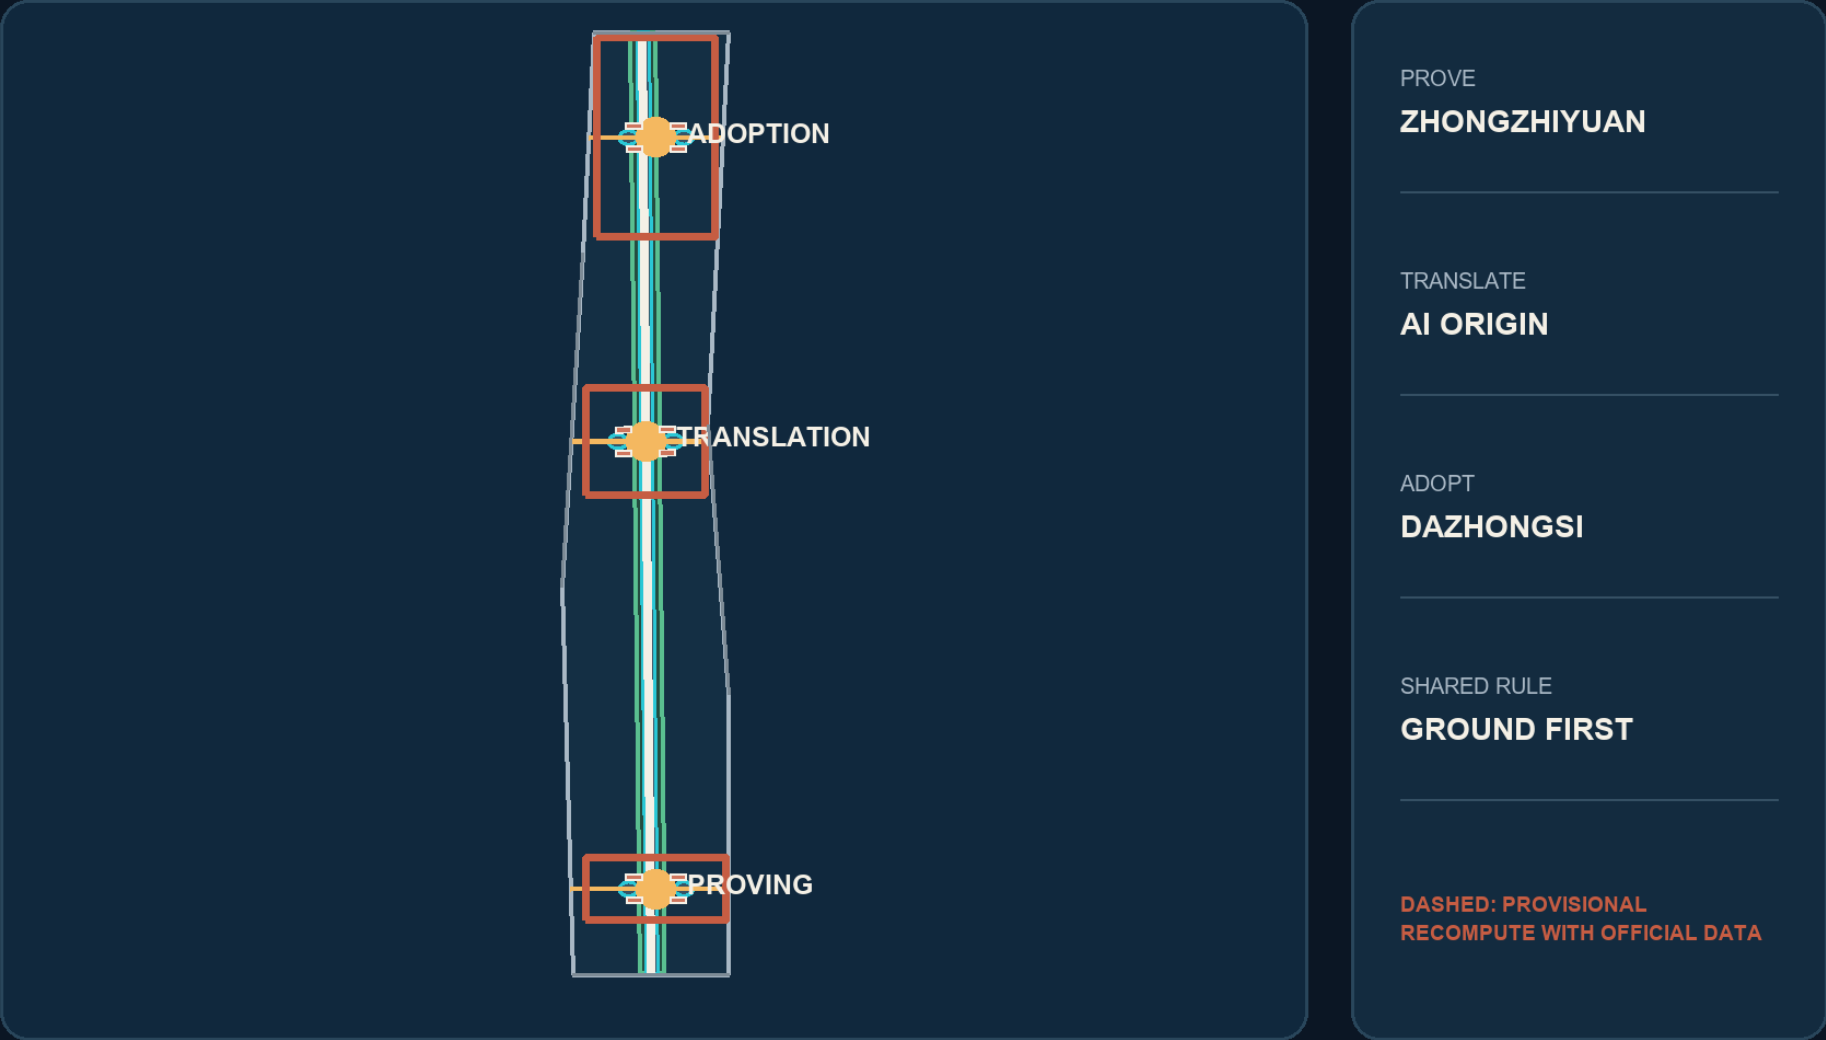

THREE COURTYARDS, NINE TERRACES

Prove—Translate—Adopt

- Zhongzhiyuan: Compute, Standards, Safety
- AI Origin: Open Source, Co-learning, Daily Life
- Dazhongsi: Pitch, Market, International

THREE COURTYARDS: PROVE—TRANSLATE—ADOPT

PROVISIONAL KEY AREAS GUIDE DESIGN ONLY; THEY ARE NOT REDLINES

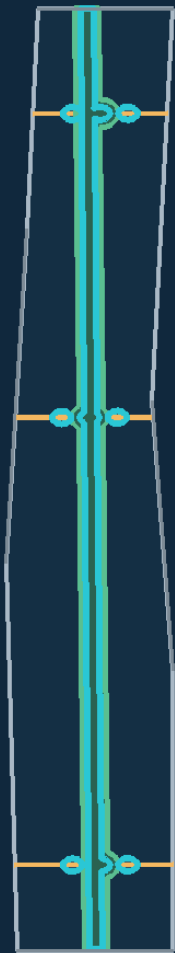

PUBLIC GROUND RIGHT

Ground first; vertical links are conditional

- Continuous, free, visible and step-free
- Usable during AI outage or lift failure
- Summer shade, winter sun, wind protection, snow clearance

GROUND BEFORE VERTICAL; PEOPLE BEFORE TECH

EVERY VERTICAL ROUTE RETAINS A FREE, STEP-FREE, VISIBLE GROUND EQUIVALENT

Technology must pass vulnerable-user and failure-state tests

- Three industry tests: red team, compute, robotics
- Every scenario has an owner, human fallback, stop and restoration
- No approval, diagnosis, educational grading or resident profiling

IMPLEMENTATION, METRICS AND RISKS

Light pilots—courtyard renewal—long-term vertical mix

- Core metrics recomputed from GeoJSON in EPSG:4548
- FAR, height, ownership, utilities and building actions remain pending
- Conceptual advice, not approval or implementation commitment
