

THREE CONNECTIONS TO THE WORLD

The autonomous railway of 1909, 64K internet link of 1994 and AI innovation district of 2026 become an enterable, verifiable and stoppable civic interface.

jz://64k

THREE CONNECTIONS, ONE WORLD INTERFACE

Autonomous railway 1909 × 64K internet 1994 × AI district 2026

PROVISIONAL GEOMETRY · CONCEPTUAL DESIGN · EPSG:4548 RECALCULATION

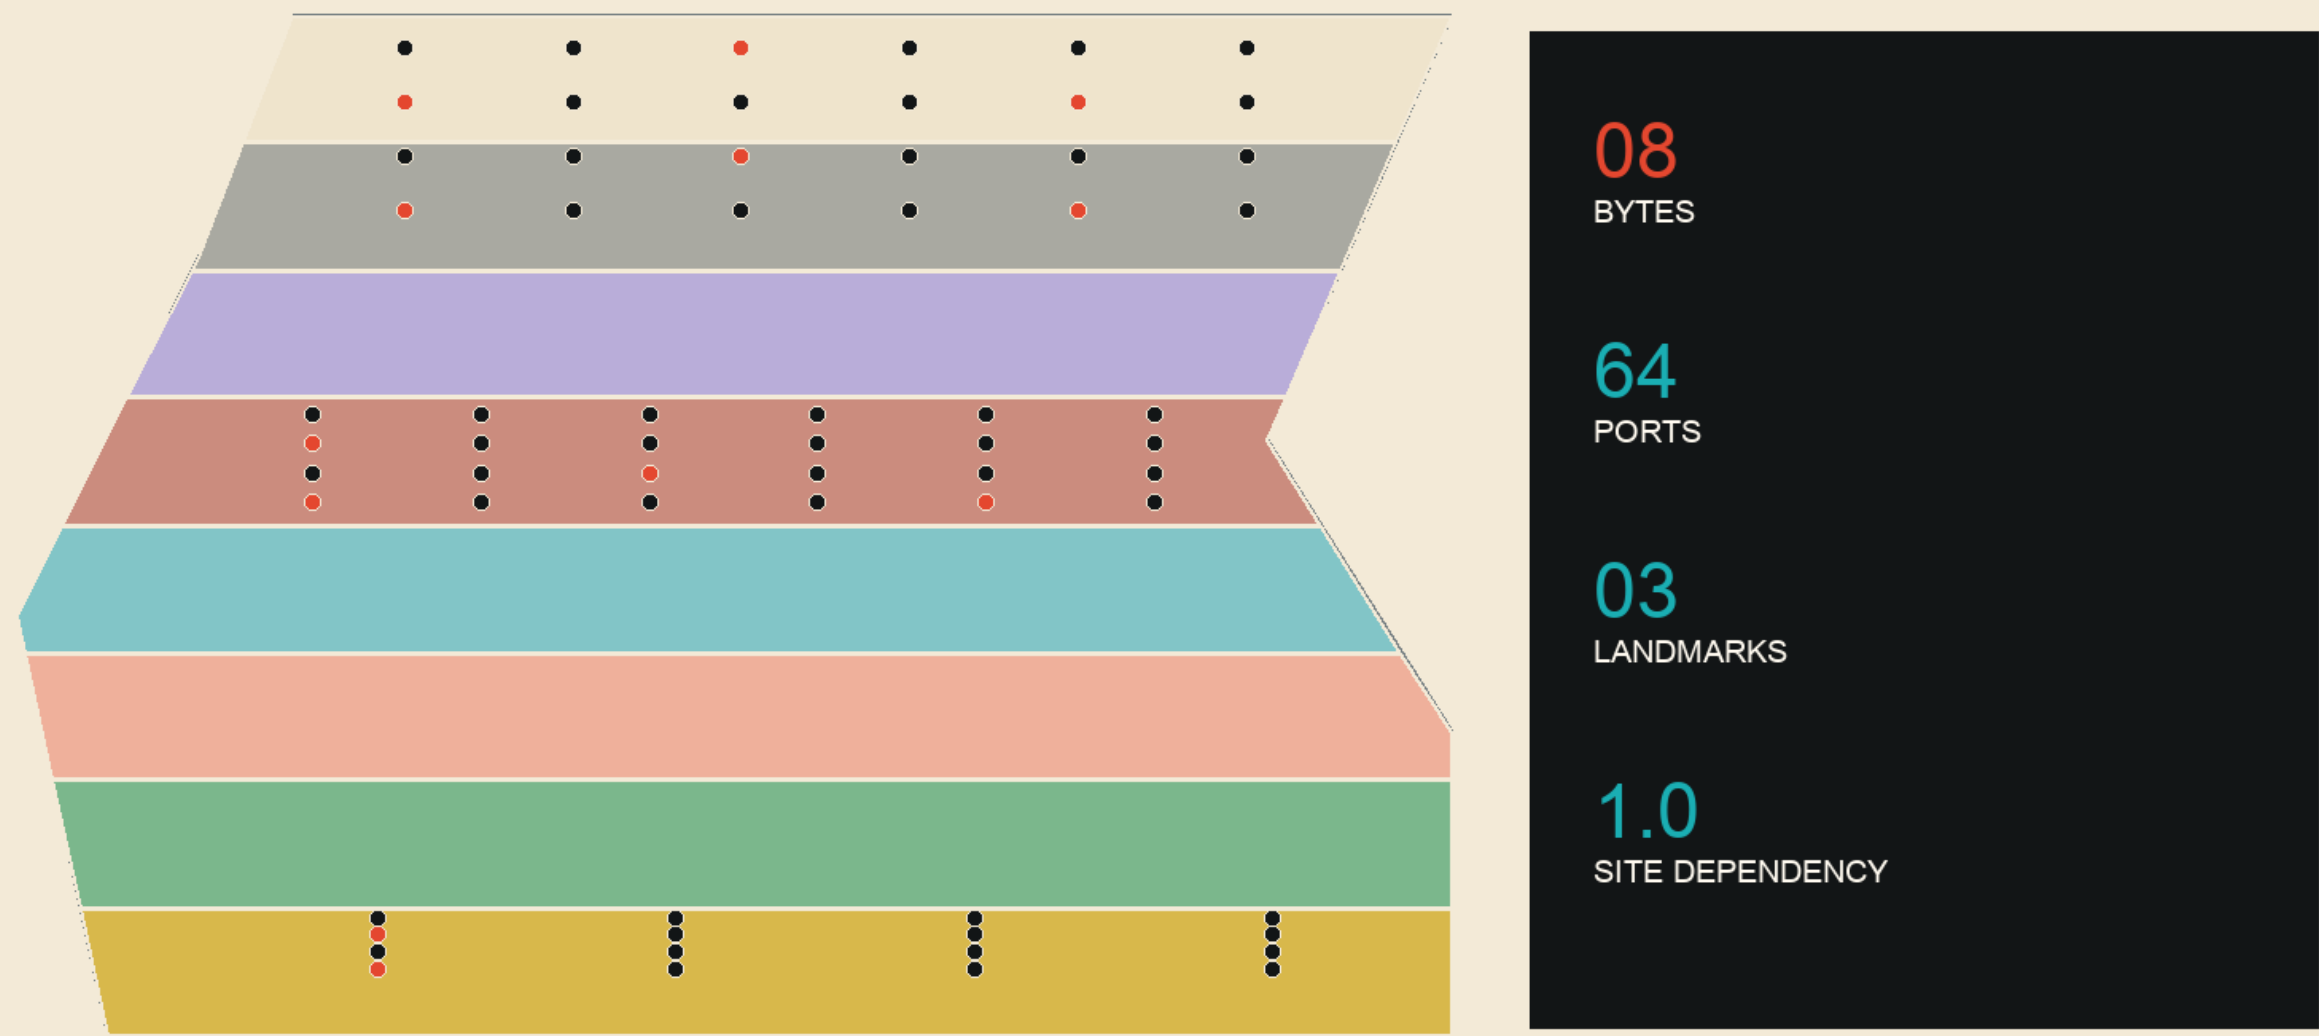

THREE SCOPE LEVELS, EIGHT BYTES

Coordinated research, overall design and key areas are joined by one operating registry; 64 ports form eight thematic bytes.

jz://64k

EIGHT BYTES, ONE CIVIC PROTOCOL

A complete partition supports 64 reversible public ports

PROVISIONAL GEOMETRY · CONCEPTUAL DESIGN · EPSG:4548 RECALCULATION

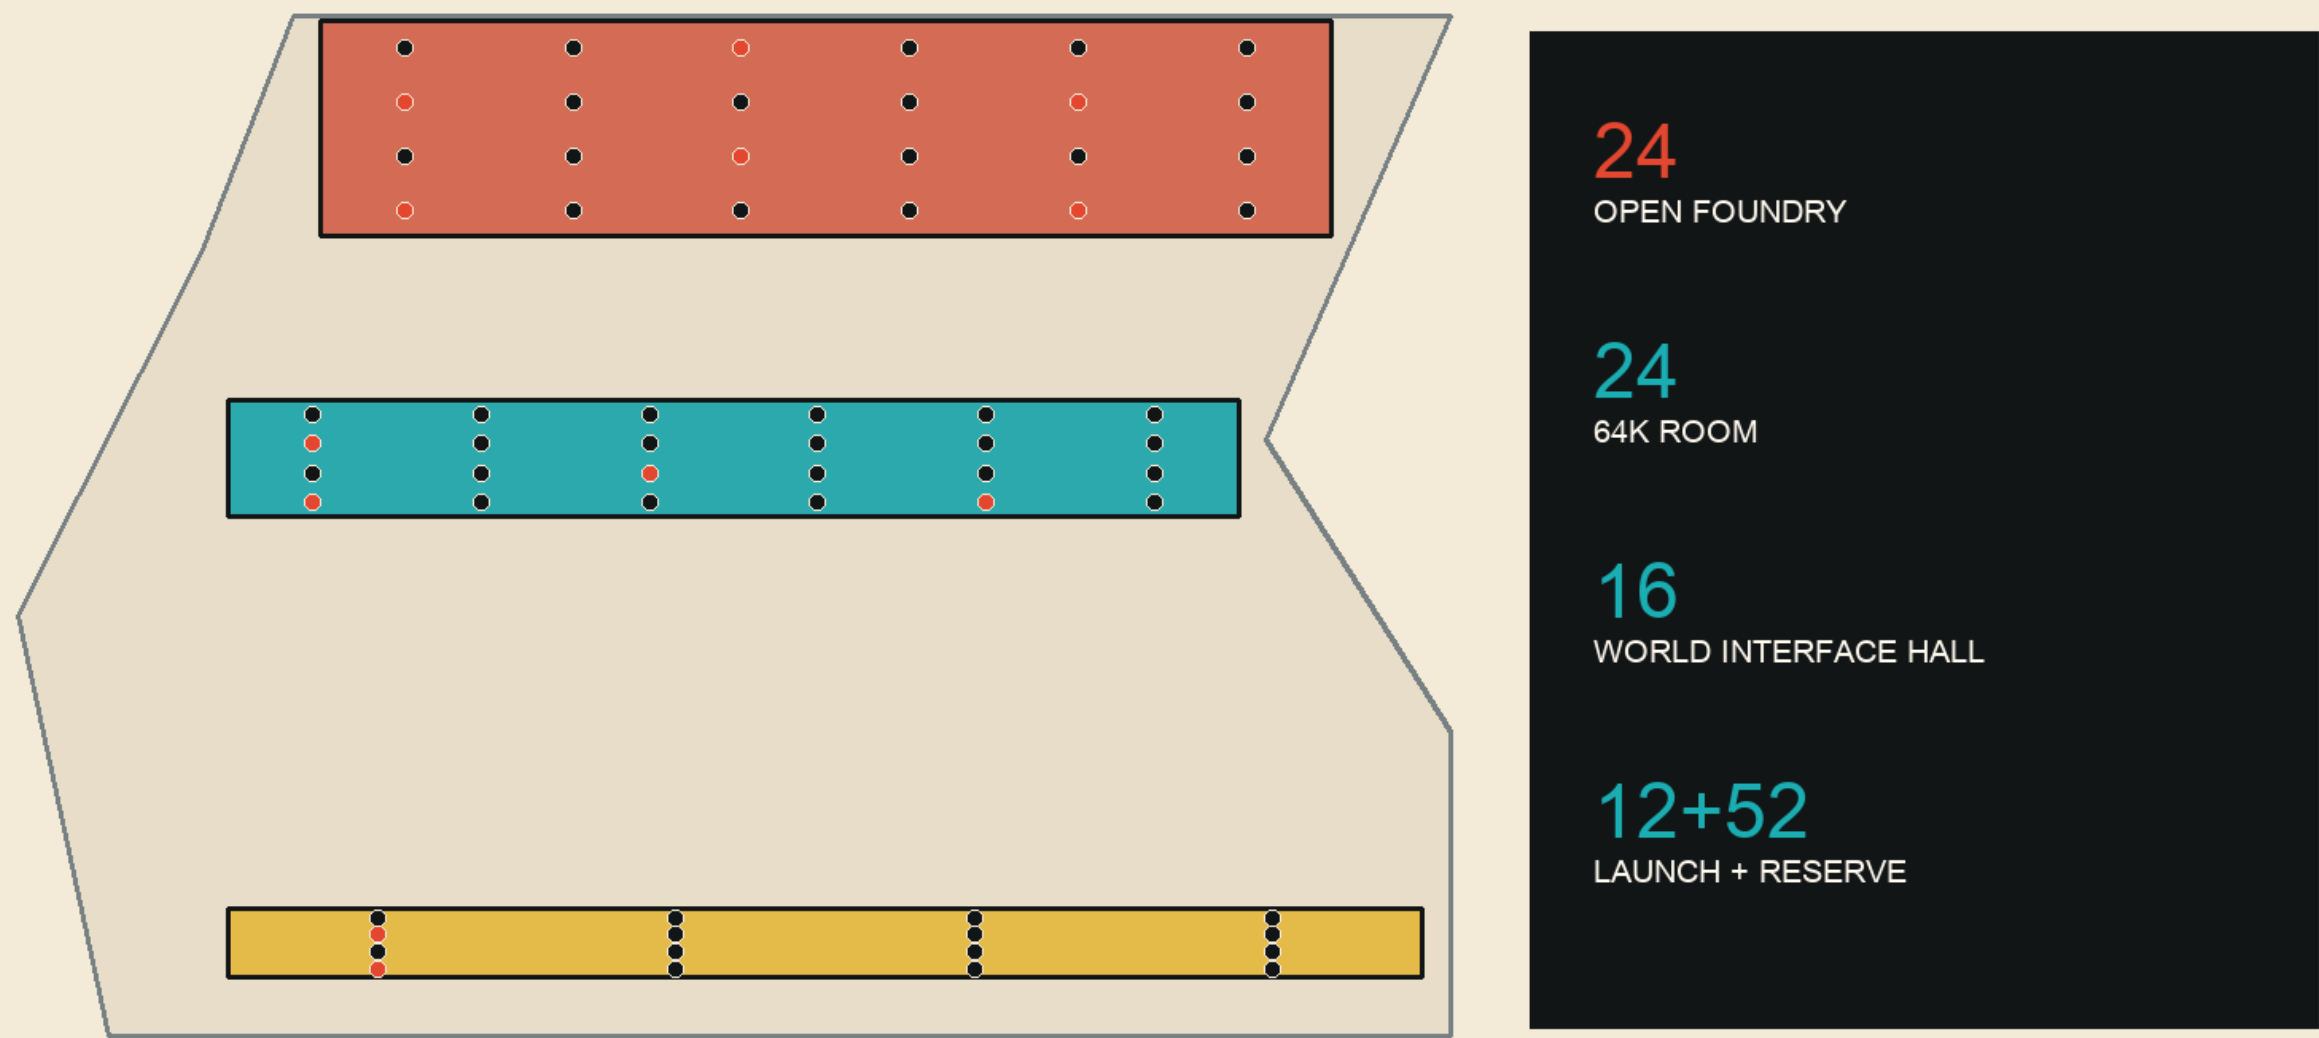

THREE LANDMARKS, THREE JOBS

Open Foundry makes and validates; 64K Room opens and reviews; World Interface Hall first-uses and releases.

jz://64k

THREE AREAS, THREE JOBS

Make/validate · open/review · first-use/release

PROVISIONAL GEOMETRY · CONCEPTUAL DESIGN · EPSG:4548 RECALCULATION

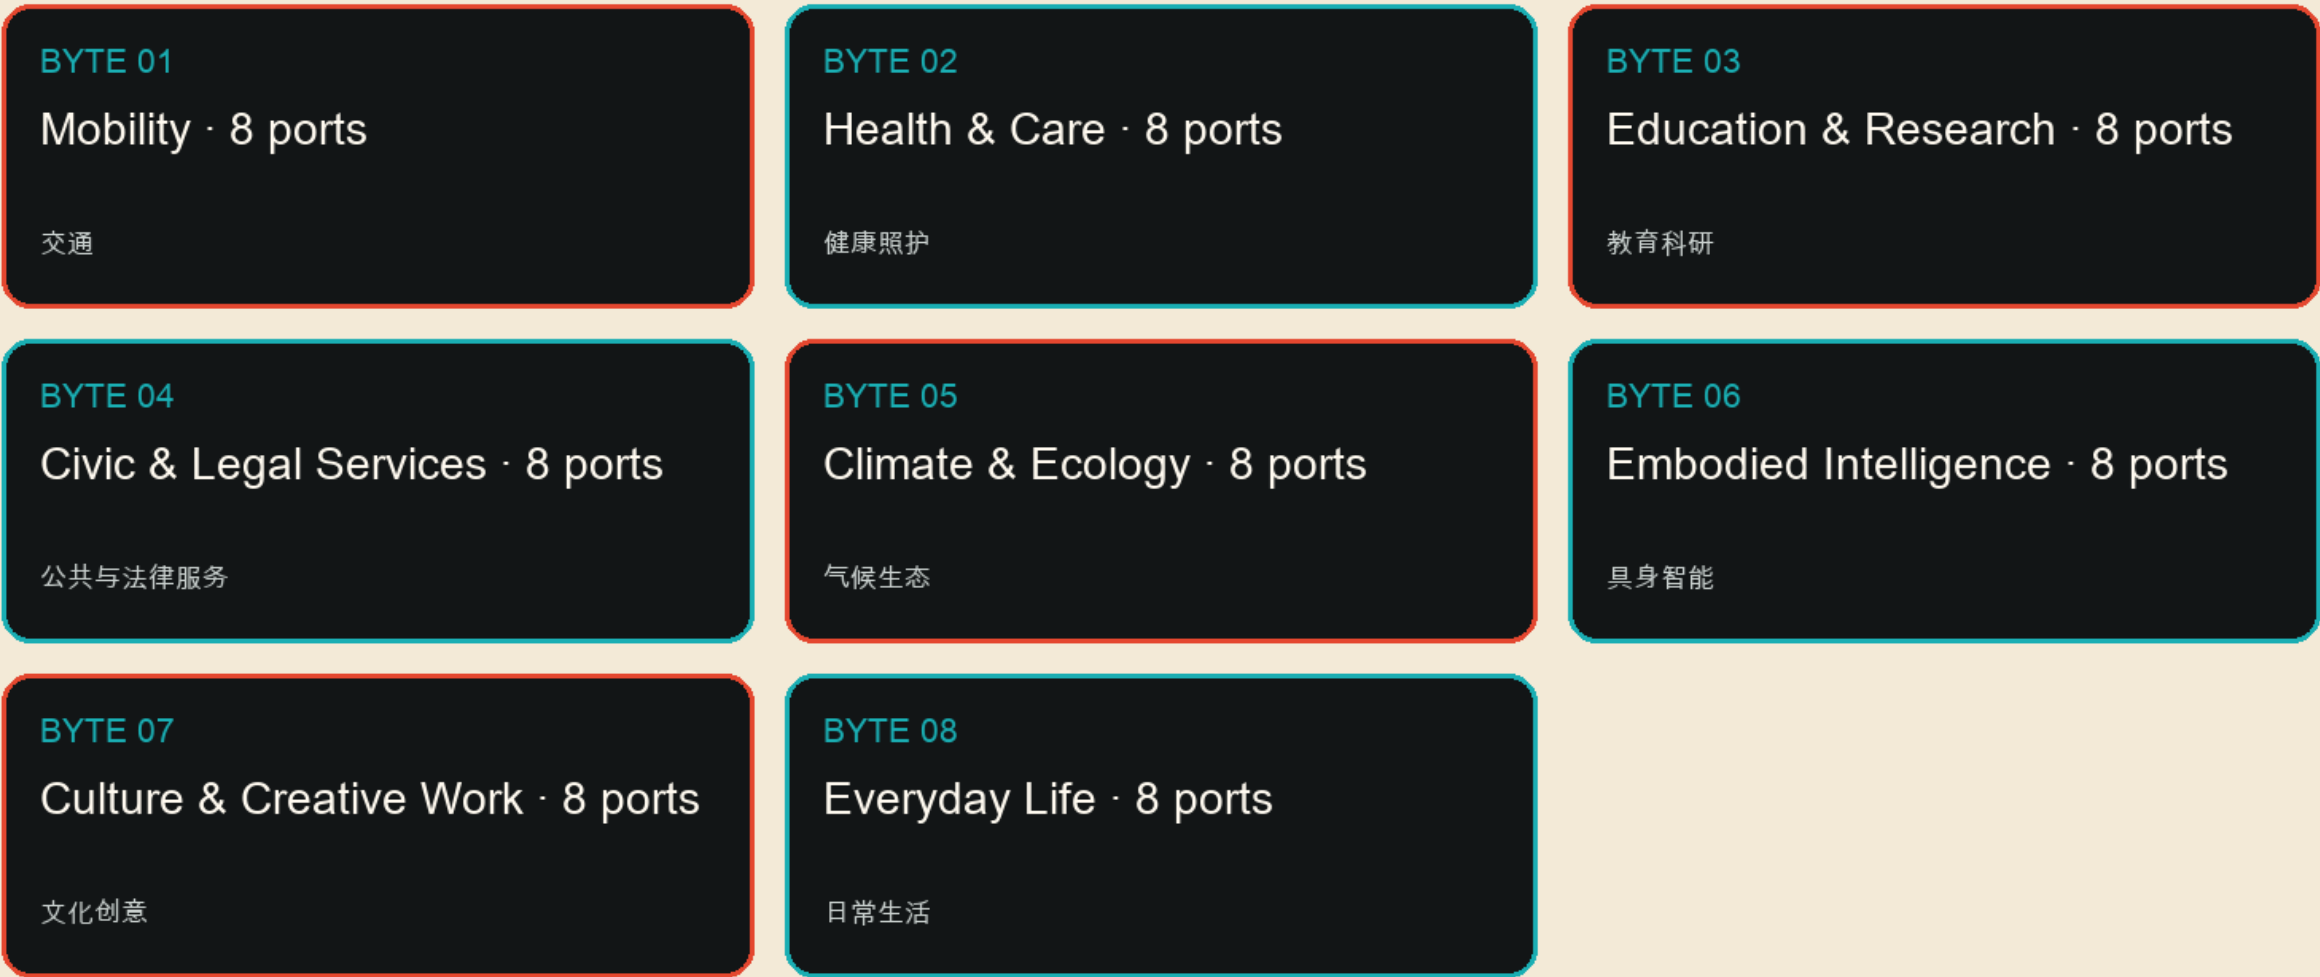

64 WORLD INTERFACES

Unique IDs K01–K64; 24 at Zhongzhiyuan, 24 in the AI Origin Community and 16 at Dazhongsi.

jz://64k

64 WORLD INTERFACES

8 bytes × 8 ports; three-area split 24/24/16

jz://64k · concept proposal

12 LAUNCH SCENARIOS

Three explicit validation scenes, 52 reversible rotation slots, and an ordinary human baseline before AI enters.

jz://64k

12 LAUNCH PORTS

Three validation scenes; every port runs a human baseline first

K01 Accessible human-machine TEST / VALIDATION	K05 Night walkability risk review Mobility	K09 Care navigation with human fallback Health & Care	K13 Privacy-preserving health Q&A Health & Care
K17 Open-model public evaluation TEST / VALIDATION	K21 Research reproducibility clinic Education & Research	K25 Explainable public-service agent Civic & Legal Services	K29 Legal-information referral desk Civic & Legal Services
K33 Xiaoyuehe climate digital twin Climate & Ecology	K37 Community heat co-sensing Climate & Ecology	K49 Embodied-intelligence safety field TEST / VALIDATION	K57 First public use of Jing-Zhang cultural Everyday Life

jz://64k · concept proposal

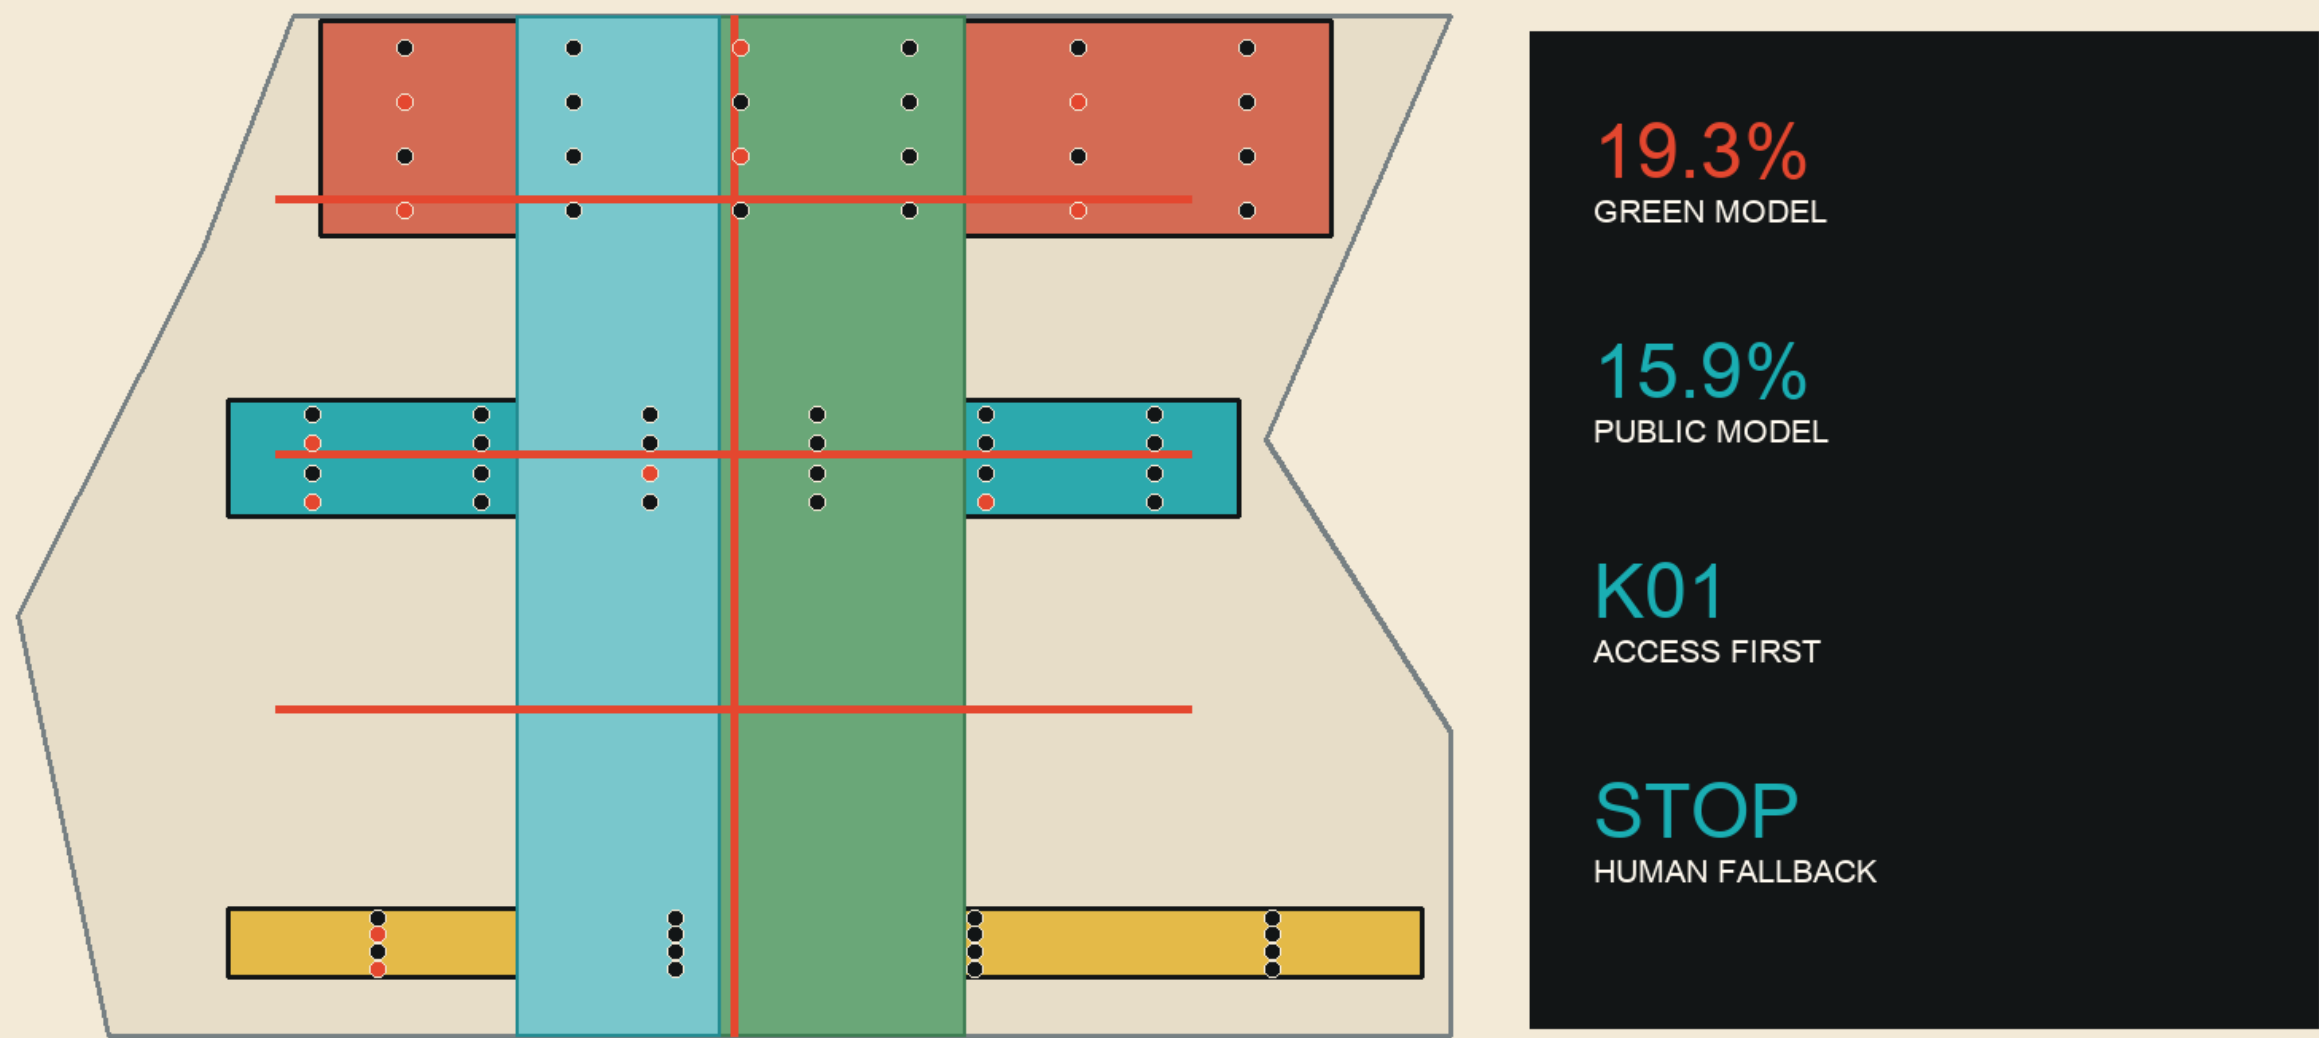

MOBILITY, BLUE-GREEN AND PUBLIC SURFACE

An accessible slow-mobility spine joins three areas; public and green space holds testing, observation, appeal and exit.

jz://64k

THE PUBLIC SURFACE IS THE OS

Accessible spine, blue-green interface and real scenario ports

PROVISIONAL GEOMETRY · CONCEPTUAL DESIGN · EPSG:4548 RECALCULATION

TRANSFER MECHANISMS ONLY

Open science, recurring civic encounters, staged residency, cross-institution governance, community incubation, staged support and public prototyping.

jz://64k

TRANSFER MECHANISMS ONLY

No innovation-district form is copied

jz://64k · concept proposal

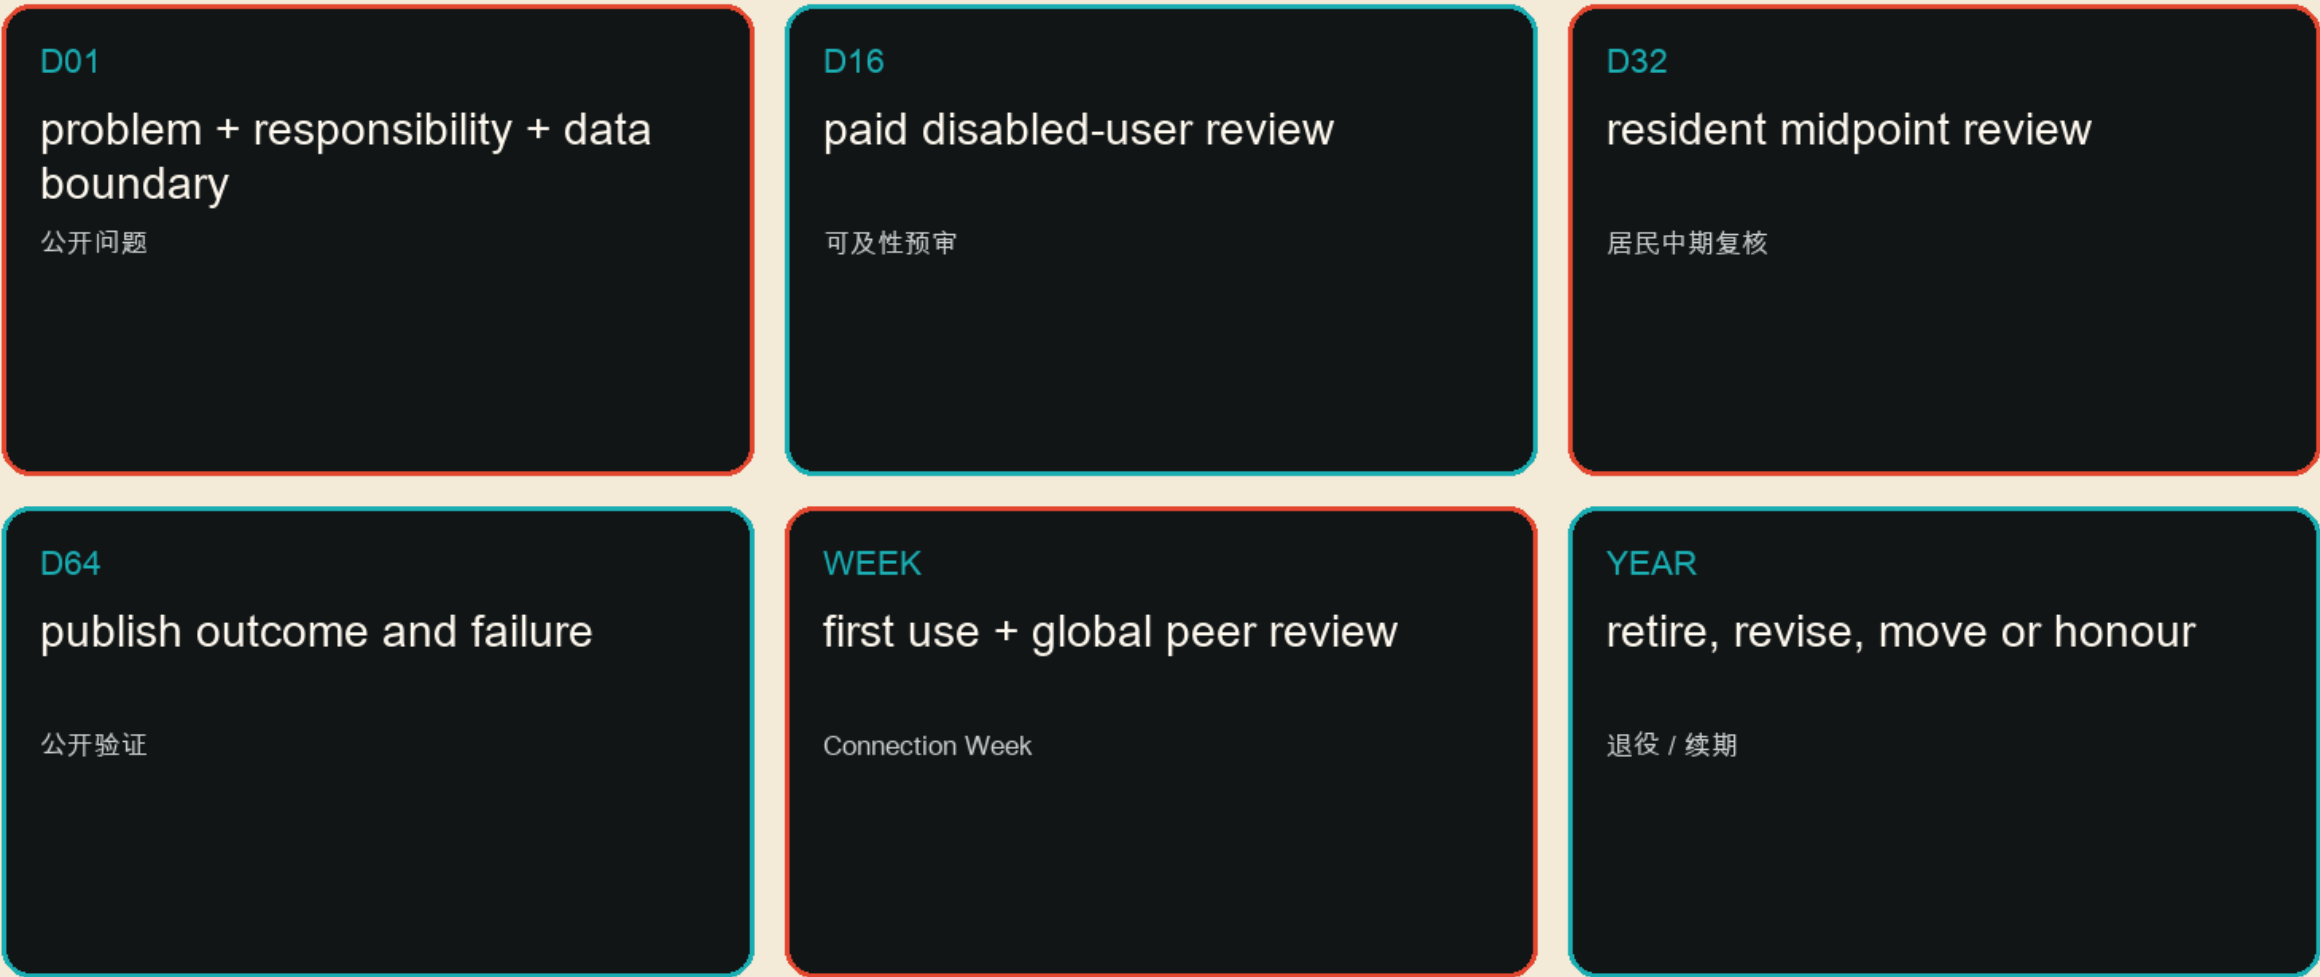

A 64-DAY PUBLIC COMMITMENT

Residence—public validation—Connection Week—annual retirement or renewal; permanent honour follows verified public value only.

jz://64k

64 DAYS IS A PUBLIC COMMITMENT

Permanent honour follows verified public value only

jz://64k · concept proposal

METRICS AND MACHINE EVIDENCE

GeoJSON → EPSG:4548 → metrics → visual. Provisional geometry is conspicuous; statutory controls stay unknown.

jz://64k

METRICS ARE AN EVIDENCE CHAIN

GeoJSON → EPSG:4548 → metrics → visual

WORLD INTERFACE HALL: A CIVIC DESTINATION

Sixty-four pearl-white interface ribs span preserved rail and water, joining railway heritage, public first use and global release in a site-dependent gateway. Concept image—not an approved scheme.

OPEN FOUNDRY: EIGHT-BYTE MAKING INTERFACE

Eight light roof bays place open-model, embodied-intelligence and accessibility validation in transparent workshops that citizens can see, enter, contest and stop. Concept image.

64K ROOM: HISTORY AS A PUBLIC INTERFACE

A transparent archive, pale-timber collaboration tables and an oval railway view turn the 1994 64K connection into an open review room for today. Concept image.

THE EVERYDAY PUBLIC INTERFACE

Residents, elders, children, disabled users, researchers and a service robot share the rail-side public surface; the landmark serves ordinary days. Concept image.
