

Jing-Zhang City Model Commons

From Centennial Railway to an Open Spatial Intelligence Benchmark Belt

Three positionings

Centennial cultural belt · urban AI life-experience belt · AI-integrated innovation belt.

Five functions

Full-stack innovation · world-class ecosystem · AI-enabled scenarios · active city · governance voice.

Three Zones and Two Wings

Zhongzhiyuan, Origin Community, Dazhongsi + Zhongguancun Technology Services Wing + Xiaoyue River Scenario Enablement Wing.

Ecosystem and public-space system

Four landmarks, six components, and three wayfinding levels make governance a usable public interface.

Spatial floor

Physical wayfinding, human help, accessibility, and exit paths remain available. Z1 Version Line carries movement and source markers; Z2 Landmark carries explanation and honor; Z3 Service carries help, handover, observation, and exit.

From scenario cards to long-term operations

Fourteen scenarios, seven personas, and four industry validation scenarios share one responsibility chain.

14 / 4 / 7

scenarios / validation / personas

22.5%

conceptual green share, not statutory

Developer community

Open workshop -> mentor/reviewer -> contribution record -> public benchmark. Every scenario carries a model card and a stop plan.

International translation

Bilingual case -> public method -> partner trial -> portable standard. No recruitment, investment, fiscal, or government commitment is implied.

Unknown controls

FAR, height, parking, transit, municipal, ownership, heritage, and formal redline await authoritative evidence.
