

JingZhang AI Loop — A3 Booklet

Urban design concept package — English display version

Concept suggestion · rwdenj9-blip · 2026-08-27

Site overview

JingZhang AI Loop - Overall Concept (One Axis, Three Cores, Two Wings)

PROVISIONAL boundary (temporary) - not an official redline; recalculate on official geometry

Concept suggestion · 2026-08-27 · rwdenj9 blip

Land use and spatial structure

Land Use & Spatial Structure (concept): public/scenario along axis, mixed-use cores

- Research land

Commercial services
- Park green

Community services

PROVISIONAL boundary (temporary) - not an official redline; recalculate on official geometry

Concept; use categories indicative, final per official control plan

PROVISIONAL boundary (temporary) — not an official redline; recalculate when official geometry is supplied

Three key areas

Three Key Areas (concept)

AI Origin Community

Role: AI birthplace, open source
Now: 439 firms, 7k+ daily, covers about 3 km²
Levers: Origin Plaza, dev labs, memory corridor

Zhongzhiyuan

Role: AI accelerator, test & validation
Now: north end, Dongsheng core carrier
Levers: sandbox, review center, delivery corridor

Dazhongsi

Role: AI agglomeration, expo & exchange
Now: Bluejinglijia->International Center (~4.88B reported)
Levers: expo, talent station, heritage link

PROVISIONAL boundary (temporary) - not an official redline; recalculate on official geometry

Concept; area positioning from public reporting, for professional deepening

PROVISIONAL boundary (temporary) — not an official redline; recalculate when official geometry is supplied

Mobility and blue-green public space

Slow walk, blue-green system, rail nodes (concept)

Nodes: Xizhimen Beijing North · Line13 (Zhichunlu/Wudaokou) · N3rd/N4th crossings

PROVISIONAL boundary (temporary) - not an official redline; recalculate on official geometry

Concept; spine ~9km heritage green corridor; rail nodes public info

Metrics and evidence

Core metrics (recomputed from submitted geometry)

Note: values to be recalculated once official redline & controls published

Scenario, landmark and event nodes
