

COMMAND RECONCILIATION

A3 BOOKLET 01 / CORE PROPOSITION

COMMAND RECONCILIATION | PUBLISHER PAYS THE CONFLICT COST

PROBLEM · RIGHT · SPACE · EXIT

PROVISIONAL ROUGH EXTENT · NOT AN OFFICIAL REDLINE · FULL RECOMPUTATION REQUIRED

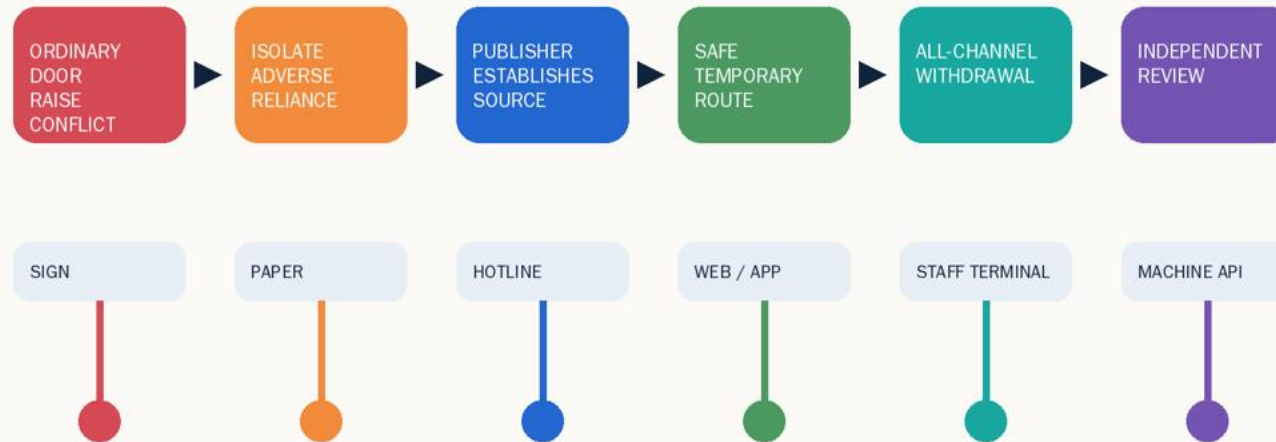

- Publishers absorb the source-checking and withdrawal cost of institutional contradiction.
- A no-fault access point never replaces a lawful subject-matter decision.

ONE BELT · THREE BENCHES · SIX ROUTES

A3 BOOKLET 02 / SPATIAL SYSTEM

ONE BELT · THREE BENCHES · SIX ROUTES

Publishing accountability from ordinary access to downstream closure

FAILURE GATE: missing owner, unresolved provenance, unacknowledged downstream copy, emergency obstruction, higher proof burden, or personal data entering training → HOLD / SHRINK / EXIT

PROVISIONAL ROUGH EXTENT · NOT AN OFFICIAL REDLINE · FULL RECOMPUTATION REQUIRED

- Ordinary access, accountable back office, and downstream closure form one lifecycle.
- No-phone, accessible, low-tech, and AI-off routes coexist.

THREE KEY AREAS

A3 BOOKLET 03 / DIFFERENT TASKS

THREE KEY AREAS | ONE RIGHT, DIFFERENT TESTS

Every extent remains a provisional index

01 ZHONGZHIYUAN

SYNTHETIC CONFLICT BENCH

6 fictional rules
3 industry tests
physical AI-off

PROVISIONAL WORK INDEX

02 AI ORIGIN

ORDINARY SERVICE BENCH

no-phone / language
accessibility / deadline
protection receipt

PROVISIONAL WORK INDEX

03 DAZHONGSI

ARRIVAL RECONCILIATION

sign / hotline
commerce / robot
safe alternative

PROVISIONAL WORK INDEX

FOUR HUMAN ROLES: continuity lead | publishing owner | subject-matter officer |
independent appeal reviewer

PROVISIONAL ROUGH EXTENT · NOT AN OFFICIAL REDLINE · FULL RECOMPUTATION REQUIRED

- Zhongzhiyuan tests; AI Origin co-designs; Dazhongsi reconciles arrival.
- Every rectangle is a provisional work index.

TEN SCENARIOS · FIVE PERSONAS

A3 BOOKLET 04 / PUBLIC INTEREST

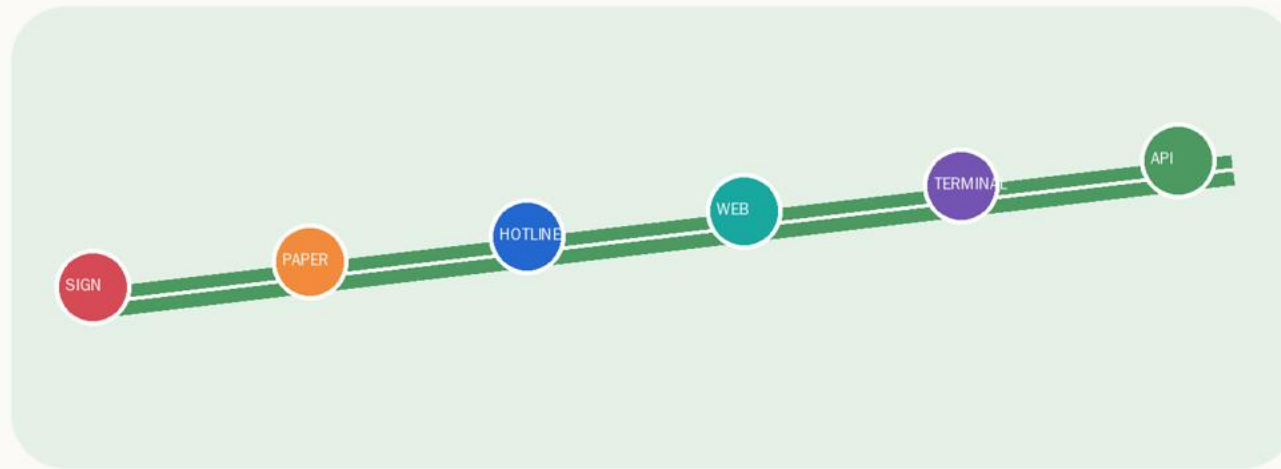

- The first three validations use entirely synthetic rules.
- Raising a conflict cannot create a trustworthiness, ability, or risk profile.

THREE ACCOUNTABILITY LANDMARKS

A3 BOOKLET 05 / CULTURE AND PUBLIC REALM

LOW-TECH PUBLIC BASE + SIX ACCOUNTABLE CHANNEL NODES

Public passage, quiet use, and accessibility come first

ORIGINAL INSTRUCTION RACK

NO-FAULT RECEIPT COLUMN

ALL-CHANNEL CLOSURE RING

PROVISIONAL ROUGH EXTENT · NOT AN OFFICIAL REDLINE · FULL RECOMPUTATION REQUIRED

- Original Instruction Rack, No-Fault Receipt Column, All-Channel Closure Ring.
- Landmarks make responsibility visible; they are not entertainment devices.

COUNTS ARE NOT IMPACT | THEY DEFINE AUDITABLE SCOPE

Spatial recomputation · governance protocol · failure gates

6

SYNTHETIC CONFLICTS

6

CHANNEL TYPES

4

HUMAN ROLES

10

SCENARIO CARDS

5

AFFECTED PERSONAS

3

ACCOUNTABILITY
LANDMARKS

HOLD: provenance unresolved

SHRINK: safety or proof-burden
risk

EXIT: personal data or
downstream non-closure

PROVISIONAL ROUGH EXTENT · NOT AN OFFICIAL REDLINE · FULL RECOMPUTATION REQUIRED

- Six conflicts, six channels, and four roles define protocol scope, not impact.
- HOLD / SHRINK / EXIT; recompute everything after official data arrives.
