### GEOMETRY

7 GeoJSON layers · display transform

### METRICS

11.41 km<sup>2</sup> provisional input · EPSG:4548

### HUMAN PATH

paper / phone / staffed appeal retained

### G0 FIRST PROOF

HC-T01 / SC-A03 · 4/4 positive · 8/8 negative rejected · 4/4 bilingual · G1 HOLD

### Reading rule

Read every row through one review contract: arrive → human explanation → bounded interface → screen-free pause → staffed exit / replay. HC-T01 proves only that synthetic package fields replay offline; official geometry, rights, safety, energy and field baselines remain pending.

official\_boundary=false · geometry\_role=provisional\_constraint · conceptual suggestions for professional teams to deepen

# Six spatial units | land-use choices that remain reversible

One shared GeoJSON partition · exact area readback · no statutory zoning, FAR, height, demolition, or approval claim

PACKAGE v2.8  
CONCEPT / PROVISIONAL

## 01 / shared-edge partition and six explicit roles

**LU-H01**  
Resident retention and community services  
**2.09 km<sup>2</sup> · 18.28%**  
retention support / service repair  
design proposal · concept only

**LU-D01**  
International services and small-team ecosystem  
**2.02 km<sup>2</sup> · 17.68%**  
international service / small-team commons  
design proposal · concept only

**LU-C01**  
Reskilling and public-data learning  
**1.95 km<sup>2</sup> · 17.06%**  
reskilling / public-data learning  
design proposal · concept only

**LU-B01**  
Reversible white-space and meanwhile use  
**1.72 km<sup>2</sup> · 15.09%**  
meanwhile use / no permanent lock-in  
design proposal · concept only

**LU-B02**  
City API and embodied-AI research  
**1.77 km<sup>2</sup> · 15.48%**  
city API / embodied-AI research  
design proposal · concept only

**LU-C02**  
Screen-free green and climate resilience  
**1.87 km<sup>2</sup> · 16.40%**  
screen-free green / climate resilience  
design proposal · concept only

**COVERAGE**  
100.00% shared-edge partition

**RETENTION SUPPORT**  
18.28%

**REVERSIBLE SPACE**  
15.09%

**UNKNOWN**  
statutory use · FAR · height · rights

Decision rule: preserve ordinary life and reversible capacity before locking in machine-oriented programs. Official geometry and statutory controls trigger a complete recomputation.

official\_boundary=false · geometry\_role=design\_proposal · areas and shares come from bundled GeoJSON; pixels are not metric evidence

# Three focus areas | validate one ordinary-person path first

Provisional geometry + priority user + five-step path + synthetic contract replay + field hold

PACKAGE v2.8  
CONCEPT / PROVISIONAL

## 01 / people complete the path before machines enter

DISPLAY TRANSFORM · EPSG:4548 metrics, not pixels

Zhongzhiyuan AI Autonomous Innovation Accelerator

PROV-KEY-001 · official\_boundary=false

PRIORITY USERS

pedestrians, test observers, and onsite service staff

How are machine tests bounded, taken over, and exited in public space?

FIRST PATH

01

ordinary walk

02

staffed consent

03

bounded test

04

sponge retreat

05

incident replay

CONCEPT GATES

G0

package replay reviewable

G1

staffed walk-through not run

G2

bounded pilot not authorized

MINIMUM EVIDENCE BEFORE ADVANCE

road and accessibility walk-through; safety, insurance, accountability; staffed takeover and incident replay

STOP / RETURN

If accountability, takeover, or replay is missing, remain on paper and offline; do not open the test.

DISPLAY TRANSFORM · EPSG:4548 metrics, not pixels

Beijing AI Origin Community

PROV-KEY-002 · official\_boundary=false

PRIORITY USERS

existing residents, older people, low-digital users, and workers in transition

How can ordinary people act, learn, and exit without using AI?

FIRST PATH

01

ordinary arrival

02

staff/phone/paper

03

learning/job path

04

screen-free pause

05

appeal/exit

CONCEPT GATES

G0

package replay reviewable

G1

staffed walk-through not run

G2

bounded pilot not authorized

MINIMUM EVIDENCE BEFORE ADVANCE

continuous access and accessibility; staffed service catalogue; resident and job baselines with informed consent

STOP / RETURN

Without equivalent staffed service or a credible baseline, retain ordinary service and publish no retention or employment result.

DISPLAY TRANSFORM · EPSG:4548 metrics, not pixels

Dazhongsi AI Industry Cluster

PROV-KEY-003 · official\_boundary=false

PRIORITY USERS

small teams, first-time and international visitors, and public-service staff

How does innovation become legible, contestable, reusable public service?

FIRST PATH

01

problem intake

02

fair application

03

version replay

04

multilingual staff

05

exit/withdraw

CONCEPT GATES

G0

package replay reviewable

G1

staffed walk-through not run

G2

bounded pilot not authorized

MINIMUM EVIDENCE BEFORE ADVANCE

rights, intellectual property, and least privilege; multilingual accuracy; complaints, withdrawal, and independent review

STOP / RETURN

If authorization, language, or case boundaries are unclear, close the display and retain ordinary movement and staffed service.

## 02 / separate package replay from field readiness

G0 CONTRACT PASS

4/4 positive · 8/8 negatives rejected · 4/4 bilingual

G1 FIELD HOLD

0 real users · unrun · unauthorized

G2 BOUNDED PILOT HOLD

rights · safety · insurance · staffed takeover

G3 INDEPENDENT REVIEW

field outcomes · appeal · rollback before scale

G0 PASS proves contract fields, spatial references, human handoff, appeal, and bilingual boundaries replay offline. performance\_results=null; G1 to G3 remain unrun, unauthorized, or not reached.

official\_boundary=false · geometry\_role=provisional\_constraint · each zoom uses the submitted outline; no engineering section, capacity, or implementation claim

# Human-machine mobility + blue-green resilience | four bounded corridors

Every corridor shows its measurable geometry, human priority, machine limit, and stop/return rule

PACKAGE v2.8  
CONCEPT / PROVISIONAL

## 01 / corridor map and four operating boundaries

### ROAD-A-SKILL Skills Transition Corridor

5.919 km

**HUMAN PRIORITY**  
continuous walk + staffed career advice  
**MACHINE LIMIT**  
training attendance is not an employment result  
**STOP / RETURN**  
no paid job pathway → return

### ROAD-B-SILICON Silicon Right-of-Way Test Corridor

4.586 km

**HUMAN PRIORITY**  
pedestrian priority + staffed takeover  
**MACHINE LIMIT**  
declare time, scope, and exit first  
**STOP / RETURN**  
no safety section or takeover → hold

### ROAD-B-LOWAIR Concept Low-Altitude Logistics Layer

2.015 km

**HUMAN PRIORITY**  
ordinary ground route remains available  
**MACHINE LIMIT**  
airspace, noise, privacy, and fire review pending  
**STOP / RETURN**  
no permit or insurance → no pilot

### ROAD-C-SPONGE Sponge Resilience Inspection Route

8.366 km

**HUMAN PRIORITY**  
static evacuation cues + manual inspection  
**MACHINE LIMIT**  
simulation is not hydrology review  
**STOP / RETURN**  
no blue-line or calibration → no expansion

#### COMMON CROSSING

visible state · low-speed stop · staffed takeover · replay

#### NIGHT-SAFE SPINE

7.983 km · ordinary transit fallback

#### BOUNDARY

concept corridors · not approved alignments

Release gate: no corridor advances from concept to pilot without rights, accessibility, safety, insurance, staffed takeover, and an independently replayable incident record.

official\_boundary=false · lengths are low-confidence design-geometry readbacks; no field performance, permit, or safety result

PACKAGE v2.8

CONCEPT / PROVISIONAL

01 / geometry  $\rightarrow$  metric  $\rightarrow$  missing evidence  $\rightarrow$  release decision

REVERSIBLE SPACE

**15.09%**

land\_use LU-B01 · not approved zoning

PUBLIC SPACE  
**1.06%**  
121,447 m<sup>2</sup> · design layer

RETENTION SUPPORT

**18.28%**

land\_use LU-H01 · not resident retention

GREEN SPACE

**11.12%**

1,269,257 m<sup>2</sup> · design layer

SCENARIO NODES

16

constraints.geojson · content count

FAR / HEIGHT · UNKNOWN

official boundary + statutory controls

missing evidence blocks the claim

RESIDENT RETENTION · UNKNOWN

consented household baseline + longitudinal record

missing evidence blocks the claim

SUSTAINED EMPLOYMENT · UNKNOWN

paid job pathway + follow-up

missing evidence blocks the claim

MANUAL EQUIVALENCE · UNKNOWN

service catalogue + staffed walkthrough + logs

missing evidence blocks the claim

PUE / GREEN POWER · UNKNOWN

facility metering + certificates

missing evidence blocks the claim

RECOVERED HEAT · UNKNOWN

load, network, seasonal demand + metering

missing evidence blocks the claim

official\_boundary=false · known means reproducible from bundled design geometry, not official or observed; unknown values remain null

# Brief → spatial response: one-page alignment atlas

3 positions · 5 functions · 3 areas + 2 wings · 4 differentiated value chains

PACKAGE v1.9

CONCEPT / PROVISIONAL

## POSITIONING

P1

Jing-Zhang Centennial Heritage Belt

百年京张文化带

P2

Urban AI Everyday-Life Belt

都市 AI 生活体验带

P3

AI Integration and Innovation Belt

AI 融合创新带

## FUNCTIONS

F1

Full-stack AI self-innovation system

research → prototype → review

F2

World-class AI innovation ecosystem

cases, talent, capital, compute, data

F3

AI+ scenario enablement paradigm

scenarios with human fallback

F4

Intelligent, vibrant AI city

public space, culture, mobility

F5

Global voice in AI governance

rights, standards, versioned learning

## SPATIAL DELIVERY

A1

Zhongzhiyuan AI Self-innovation Accelerator

controlled tests · compute-energy audit · incident replay  
PROV-KEY-001  
· provisional constraint

A2

Beijing AI Origin Community

community retention · human channel · skill transition  
· screen-free recovery  
PROV-KEY-002  
· provisional constraint

A3

Dazhongsi AI Industry Cluster

city API · OPC · public data  
· international services  
PROV-KEY-003  
· provisional constraint

W1

Zhongguancun Technology-Service Wing

standards / data / compute interfaces; conceptual only  
SC-D04 → conceptual interface

W2

Xiaoyuehe Scenario-Enablement Wing

human-machine sharing / sponge resilience / flood simulation; conceptual only  
SC-C03  
· conceptual interface

## DIFFERENTIATION → EVIDENCE

A · Human dignity

People-first: AI Origin Community + ROAD-A-SKILL | Scenarios: SC-A01 / SC-A03 / SC-A05 | Metric: community\_retention\_support\_area\_ratio | gap: resident / shop / employment baselines missing

B · Machine usability

Machine-ready: Zhongzhiyuan + ROAD-B-SILICON | Scenarios: SC-B01 / SC-B02 / SC-B04 | Metric: silicon\_right\_of\_way\_length\_m | gap: road / airspace / responsibility sections missing

C · Hard constraints

Guardrails: Xiaoyuehe wing + SC-C01—SC-C05 | Scenarios: energy, flood, sandbox, data authorization | Metric: operational\_pue (unknown) | gap: energy / hydrology / insurance / authorization inputs missing

D · Spillovers

Spillovers: Dazhongsi + W1/W2 interfaces | Scenarios: SC-D01—SC-D04 | Metric: version\_release\_count | gap: actors / IP / cross-region cooperation unverified

All spatial moves are conceptual suggestions / reference schemes for professional teams. official\_boundary=false; geometry\_role=provisional\_constraint. Evidence paths are package-local, not an official score, field result, or implementation approval.

# Three key areas: actions before slogans

Put action, handoff and stop conditions into provisional spatial evidence; no official redlines.

v0.2 · concept

## 01 Zhongzhiyuan AI Acceleration

Machine entry begins with a stop right

- 1 Human-first edge  
Pedestrians, access and human help enter first
- 2 Controlled test  
Low speed, time-boxed, reversible
- 3 Incident replay  
Positive and negative results stay visible
- 4 Sponge buffer  
Simulation and inspection only

Spatial refs: PROV-KEY-001 · SC-B02 · SC-C03  
ROAD-B-SILICON · GREEN-C-SPONGE

Role classes: transport / energy / hydrology / safety / public observation

## 02 Beijing AI Origin Community

Keep transition and service in daily life

- 1 Human entrance  
Counter, phone and paper stay available
- 2 Skills transition  
Ability, paid training, trial role, new role
- 3 Resident retention  
Spatial support is not a retention result
- 4 Version release  
Questions, pauses and missing data are public

Spatial refs: PROV-KEY-002 · SC-A02 · SC-A03  
ROAD-A-SKILL · PUBLIC-A-INCLUSION

Role classes: community / employment / accessibility / data responsibility

## 03 Dazhongsi AI Industry Cluster

Make data, energy and service legible

- 1 Data authorization  
Catalogue, permission, log and exit
- 2 Compute-energy audit  
PUE, green power and heat demand first
- 3 Small-team service  
Shared lab, legal help and fair access
- 4 International commons  
Multilingual help and human explanation

Spatial refs: PROV-KEY-003 · SC-C01 · SC-C04 · SC-D03  
BLDG-C-01 · BLDG-D-01/02

Role classes: data / energy / OPC / multilingual service

The same five-stage spatial sequence, with a different human question at each provisional anchor

CONCEPT / PROVISIONAL

provisional anchor / first question

Arrival / staffed edge

Public explanation / choice

Bounded machine interface

Blue-green pause / recovery

Exit / appeal / replay

## Common spatial rule

Human-readable arrival → public explanation → bounded interface → screen-free pause → staffed exit and replay. Every move remains conceptual until official geometry, rights, safety, accessibility, energy, climate, and public baselines are supplied.

FIG. 08

# HUMAN-MACHINE INTERFACES: STOP ACTIONS

Non-scaled concepts: human priority and review precede testing. Not an engineering section or permit.

Derived from geometry/\*.geojson and structured evidence; the ordinary-person journey, spatial interfaces, acceptance atlas, and reviewer navigation perform only offline reference or path checks and expected-FAIL negative tests; missing evidence remains unknown or conceptual.

FIG. 09

v0.7 · REVIEW MAP × HUMAN ACCEPTANCE  
PROVISIONAL · CONCEPT · NOT OFFICIAL

# HUMAN CITY ACCEPTANCE ATLAS: WHO ENTERS, WHO STOPS

Six users, 16 scenario cards, provisional spatial anchors, and three release gates resolve on one page; not an operating dashboard or delivery commitment.

16

七维评审证据地图

Reviewer order: question → evidence → boundary → next verification

7 dimensions · registered workflow questions

|                                                    |              |                                                                                                                                                                                       |
|----------------------------------------------------|--------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 01 Brief alignment                                 | 20% template | Provisional boundaries, design partitions, and conceptual deliverables are not official redlines, statutory controls, or an implementation scheme.                                    |
| evidence: proposal.md                              |              |                                                                                                                                                                                       |
| 02 Originality                                     | 10% template | Contract-level replay proves reviewable structure, not real service performance, public acceptance, or deployed capability.                                                           |
| evidence: proposal.md                              |              |                                                                                                                                                                                       |
| 03 AI + planning innovation                        | 15% template | Local scripts cover offline structure and negative tests only; they do not call external systems or replace professional models, permits, or field tests.                             |
| evidence: assets/run-human-city-ordinary-journey.⋯ |              |                                                                                                                                                                                       |
| 04 Implementation feasibility                      | 20% template | Suggested roles are not confirmed operators; missing data, insurance, approvals, budget, real OD, and field baselines remain for authorized parties to establish.                     |
| evidence: assets/implementation-operation-matrix.⋯ |              |                                                                                                                                                                                       |
| 05 Public interest + inclusion                     | 10% template | The package provides design requirements and an offline contract; real coverage, group experience, consent, and outcomes require walk-throughs, sampling, and independent evaluation. |
| evidence: assets/personas-and-fairness.json        |              |                                                                                                                                                                                       |
| 06 Risk + compliance                               | 10% template | Source registration and usage boundaries are not permits, rights clearance, data authorization, or safety review.                                                                     |
| evidence: assumptions.json                         |              |                                                                                                                                                                                       |
| 07 Expression completeness                         | 15% template | Navigation completeness does not raise evidence level; HTML, drawings, and ledgers cannot replace formal data or field validation.                                                    |
| evidence: proposal.md                              |              |                                                                                                                                                                                       |

PACKAGE v1.8

EVIDENCE / NO SCORE

read this map

## 1 · Start

Open the proposal section named by the dimension.

## 2 · Trace

Follow the shortest path to geometry, metrics, ledgers, or drawings.

## 3 · Bound

Do not turn a conceptual suggestion or unknown into a result.

## 4 · Verify next

Use the missing-input gate before any professional deepening.

No score is generated by this figure.

FIG. 10

# REVIEW EVIDENCE MAP: 13 TASKBOOK + 7 WORKFLOW QUESTIONS

The two question sets retain separate sources and boundaries; this page shows offline reading paths only, not a score, official finding, or delivery commitment.

13/13 TASKBOOK DIMENSIONS

7/7 REPOSITORY WORKFLOW QUESTIONS

42/42 PACKAGE-LOCAL PATHS RESOLVE

NOT A SCORE  
NO ORGANIZER WEIGHT OR RESULT INFERRED

Read the 13 taskbook questions and their evidence entries first; then use the 7-question repository formal-scorecard workflow. Its percentages are recorded only in JSON as a repository template source, never as organizer scoring.

FIVE EVIDENCE SPINES: PATHS RESOLVE; THEY DO NOT PROVE OUTCOMES

1 THREE-SCOPE NARRATIVE  
BILINGUAL PROPOSAL + TASK COVERAGE  
MISSING FORMAL INPUT: CONCEPT / UNKNOWN

2 SPACE + METRICS  
GEOJSON + EPSG:4548 RECALCULATION  
MISSING FORMAL INPUT: CONCEPT / UNKNOWN

3 PEOPLE + SCENARIOS  
6 PERSONAS / 16 SCENARIOS / HUMAN STOP  
MISSING FORMAL INPUT: CONCEPT / UNKNOWN

4 DATA + RELEASE GATES  
UNKNOWN, FALLBACKS, RECOMPUTATION  
MISSING FORMAL INPUT: CONCEPT / UNKNOWN

5 REVIEW + BOUNDARIES  
REFERENCE AUDIT + 13/13 PATH MAP  
MISSING FORMAL INPUT: CONCEPT / UNKNOWN

Derived from geometry/\*.geojson and structured evidence; the ordinary-person journey, spatial interfaces, acceptance atlas, and reviewer navigation perform only offline reference or path checks and expected-FAIL negative tests; missing evidence remains unknown or conceptual.

# CITY RELEASE GATES: EVERY EXPANSION CAN BE VETOED

All 16 scenarios progress from observation through bounded pilots to expansion only with data boundaries, human fallback, review evidence, and exit conditions.

16

scenario cards

6

test/validation scenarios

3

release gates

0

authorized implementation commitments

Every gate is a conceptual review interface, not a permit, engineering feasibility finding, investment commitment, or settled policy.

Derived from geometry/\*.geojson and structured evidence; the ordinary-person journey, spatial interfaces, acceptance atlas, and reviewer navigation perform only offline reference or path checks and expected-FAIL negative tests; missing evidence remains unknown or conceptual.

FIG. 07

v0.7 · REVIEW MAP × HUMAN ACCEPTANCE  
PROVISIONAL · CONCEPT · NOT OFFICIAL

# DATA READINESS: TURNING GAPS INTO CLOSABLE RELEASE GATES

Seven evidence paths connect assumptions, scenarios, metrics, and fallbacks; missing data remains unknown or conceptual.

Derived from geometry/\*.geojson and structured evidence; the ordinary-person journey, spatial interfaces, acceptance atlas, and reviewer navigation perform only offline reference or path checks and expected-FAIL negative tests; missing evidence remains unknown or conceptual.

PARAMETRIC SPATIAL TRADE-OFFS | BASELINE, PEOPLE-FIRST, MACHINE-READY

v0.8

ONE PROVISIONAL BOUNDARY · SIX CONCEPTUAL BANDS · REPLAYABLE AREA FORMULA

CONCEPT ONLY

Six-band area parameters

share × provisional site\_area\_sqm

Review readout

Current baseline

Three candidates

- People-first: more community, learning, and reversible space
- Balanced: a middle comparison set for professional calibration
- Machine-ready: more API discussion while retaining human and resilience floors

Conceptual suggestions only; no FAR, building-height, engineering, investment, or policy conclusion.  
formula: area = share × provisional site area

# Identity system: make the human decision visible

Original concept mark, colors, applications and evidence fields; not an organizer or government mark

v0.2 · concept

## CONCEPT MARK

## JINGZHANG HUMAN CITY OS

From an AI showcase to a city for people

- Open bracket: callable interface
- Rail line: century continuity
- Human dot: final decision remains human
- Red: stop/appeal; blue: constrained machine; green: hard limits; orange: spillover

## COLOR AND APPLICATION RULES

-  Human dignity / stop
-  Machine / interface
-  Energy + climate / limits
-  Spillover
-  Version record

Every spatial card shows:

- |                |                                    |
|----------------|------------------------------------|
| Spatial action | Affected people                    |
| Human fallback | Entry evidence                     |
| Stop condition | Version / role class / update time |
