

01 Brand and Identity

- Brand board, palette, signage kit and three civic AI landmarks added.
- Evidence: assets/figures/brand-system.png and .en.png

No remote imagery, no third-party logos, no official redline claim. Display-only conceptual design package.

02 Scenario Cards

- Ten scenario cards are shown as reviewable design objects with data, review, KPI and stop conditions.
- Evidence: assets/figures/scenario-cards.png and .en.png

No remote imagery, no third-party logos, no official redline claim. Display-only conceptual design package.

03 Key-Area Detail

- Three key areas now have plan/section logic, program mix, implementation gates and public-interest KPIs.
- Evidence: assets/figures/key-area-detail.png and GeoJSON properties

No remote imagery, no third-party logos, no official redline claim. Display-only conceptual design package.

04 Professional Evidence

- Seven-dimension evidence ledger, bilingual display assets and richer machine-readable GeoJSON properties support professional review.

No remote imagery, no third-party logos, no official redline claim. Display-only conceptual design package.
