

AFTER GO-LIVE

English display counterpart · content aligned with proposal.en.md

ONE SPINE · THREE YARDS · TWO WINGS

Deterministically generated from submitted GeoJSON, metrics and scenario matrix

Zhongzhiyuan: Prove & Package

AI Origin: Translate & Train

Dazhongsi: Adopt & Operate

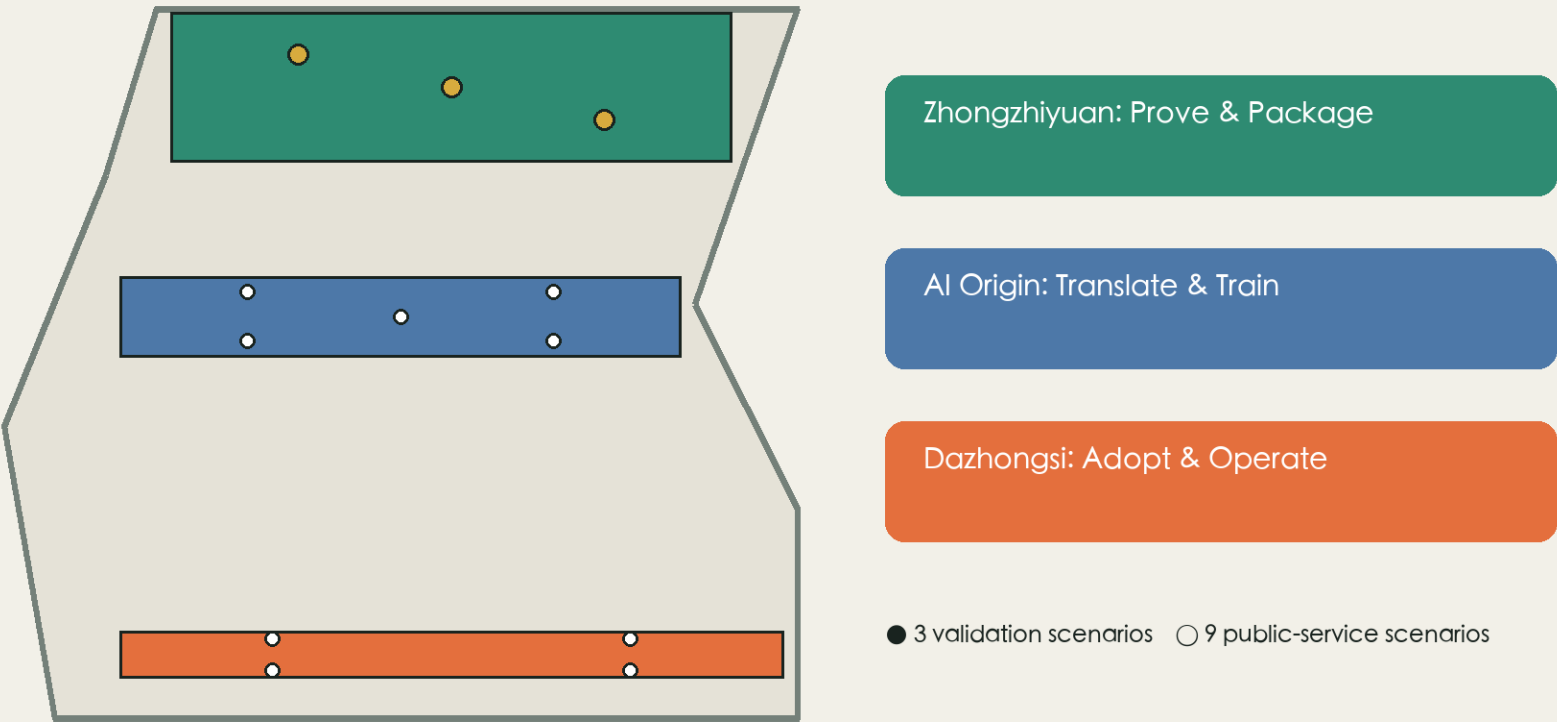

● 3 validation scenarios ○ 9 public-service scenarios

Acceptance, staffing, fallback, recovery and exit

No claimed approval, operator, budget or official redline

THREE RELAY YARDS: DISTINCT ROLES, CONTINUOUS RESP

Deterministically generated from submitted GeoJSON, metrics and scenario matrix

Acceptance, staffing, fallback, recovery and exit

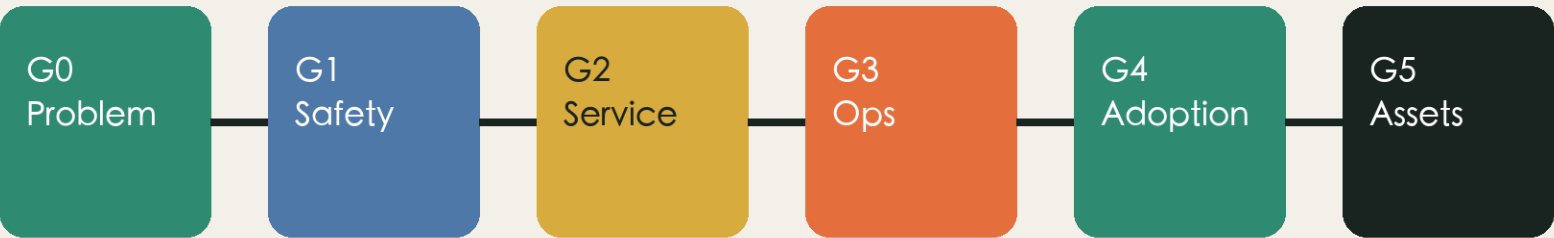

No claimed approval, operator, budget or official redline

GO-LIVE HANDOVER

English display counterpart · content aligned with proposal.en.md

GO-LIVE HANDOVER: FROM PROOF TO ADOPTION

Deterministically generated from submitted GeoJSON, metrics and scenario matrix

Acceptance, staffing, fallback, recovery and exit

No claimed approval, operator, budget or official redline

A missing field blocks adoption: owner / operator / resource / acceptance / takeover / fallback / maintenance / recovery / exit / assets
