

OPENLINE 100 — Concept Board

A Century of Jing-Zhang. The Next Century of Public Intelligence Is Co-Created Here.

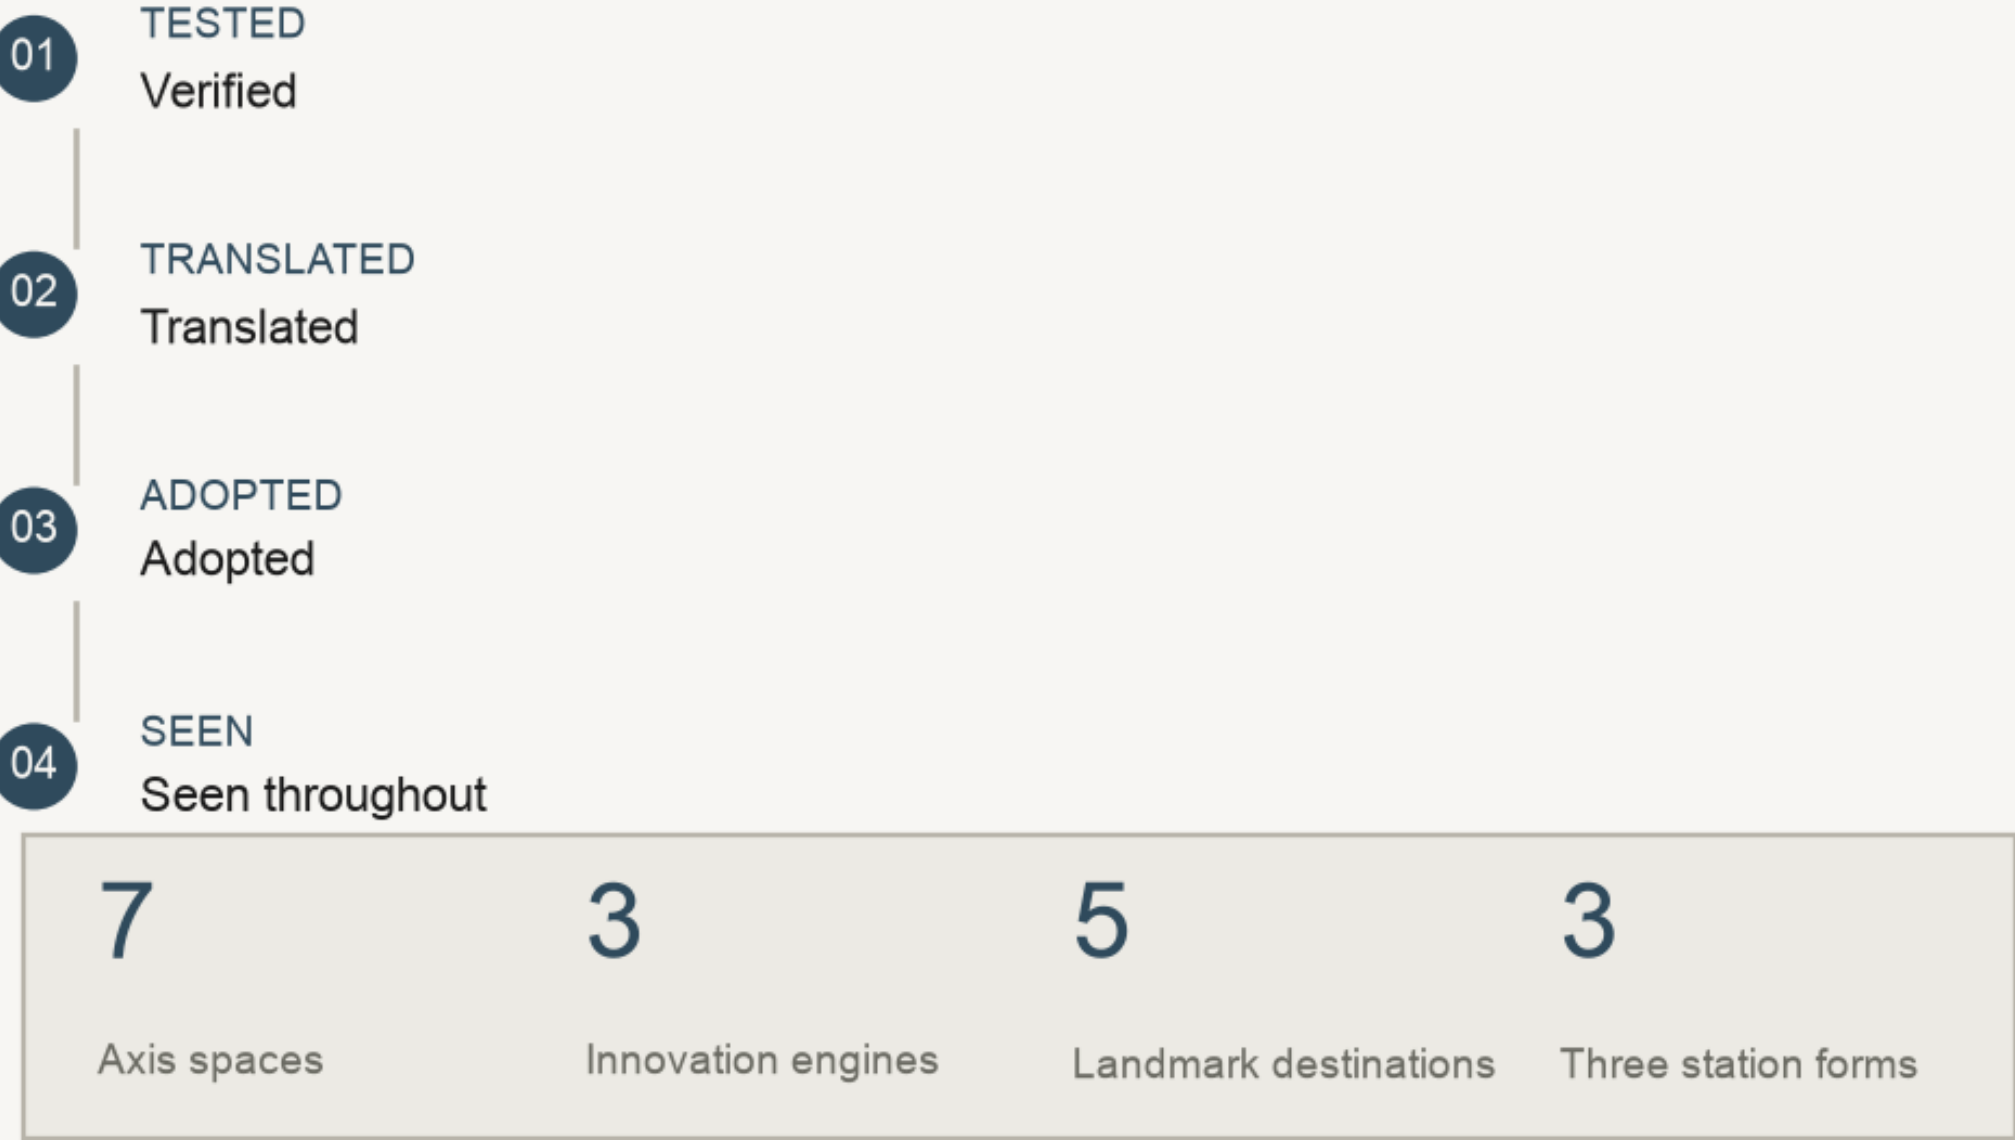

Conceptual alignment & provisional boundary / NOT A STATUTORY PLAN

A Century of Jing-Zhang · AI Axis

OPENLINE 100

A Century of Jing-Zhang.
The Next Century of Public Intelligence
Is Co-Created Here.
Heritage park as the public display layer of the innovation chain:
Seven axis spaces expand and contract; research enters everyday city life.

Seven spaces / three engines

Zhongzhiyuan verifies
Origin translates
Dazhongsi adopts
West wing = services & capital after the test gate
East wing = demand intake

Seven gates / one passport

Research → PuCIP → Open source → Validation
→ Incubation → Patient capital → City adoption
One project passport across the chain

Global translation, not architectural copy

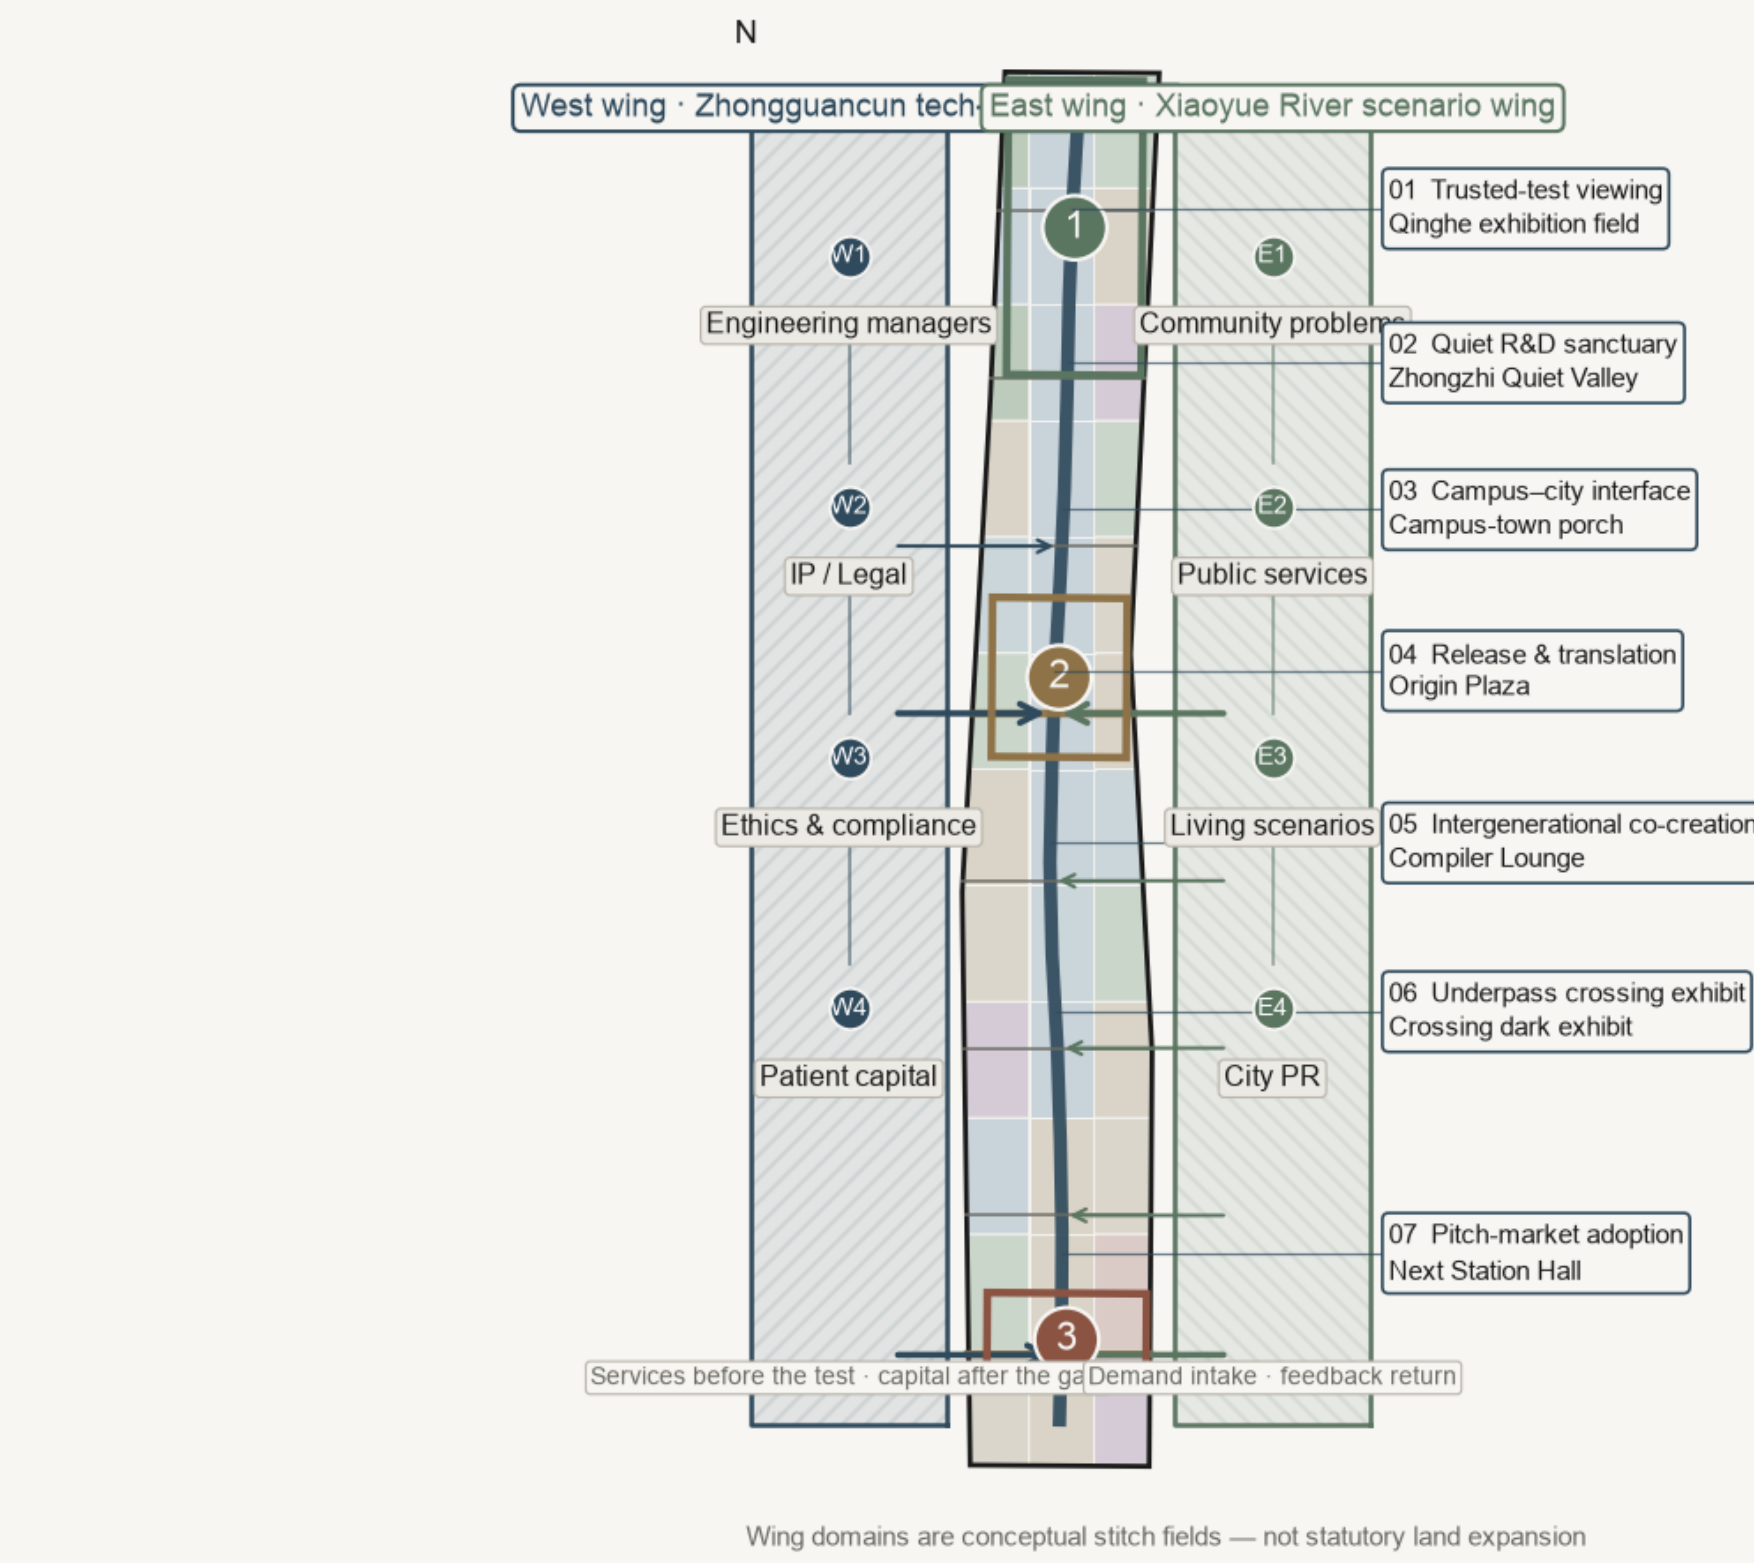

Boston / Toronto / Paris-Saclay / Singapore / Helsinki / Seoul / Tsukuba
Extract neutral translation layers, real first users, layered capital and trusted rules.

Stations · Forms · Kit

One form per station. OPENKIT keeps landmarks maintainable and removable.

One axis · two wings · three engines · seven spaces

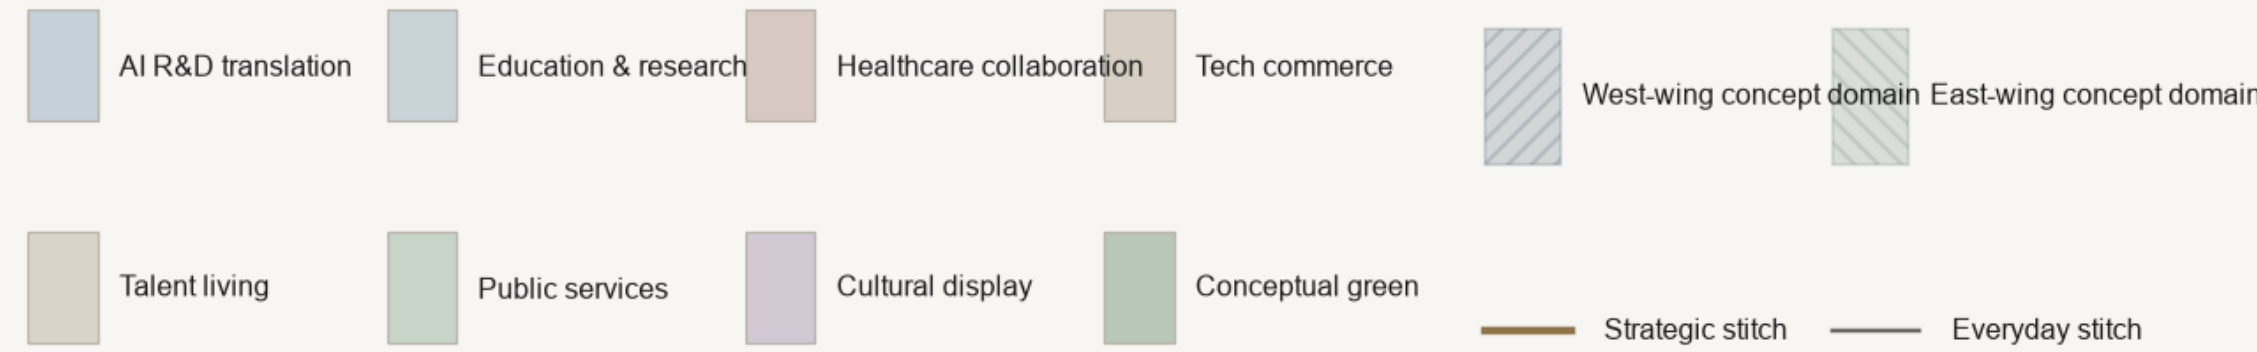

AXIS × WINGS × ENGINES × SPACES

Three engines / THREE ENGINES

Legend / LEGEND

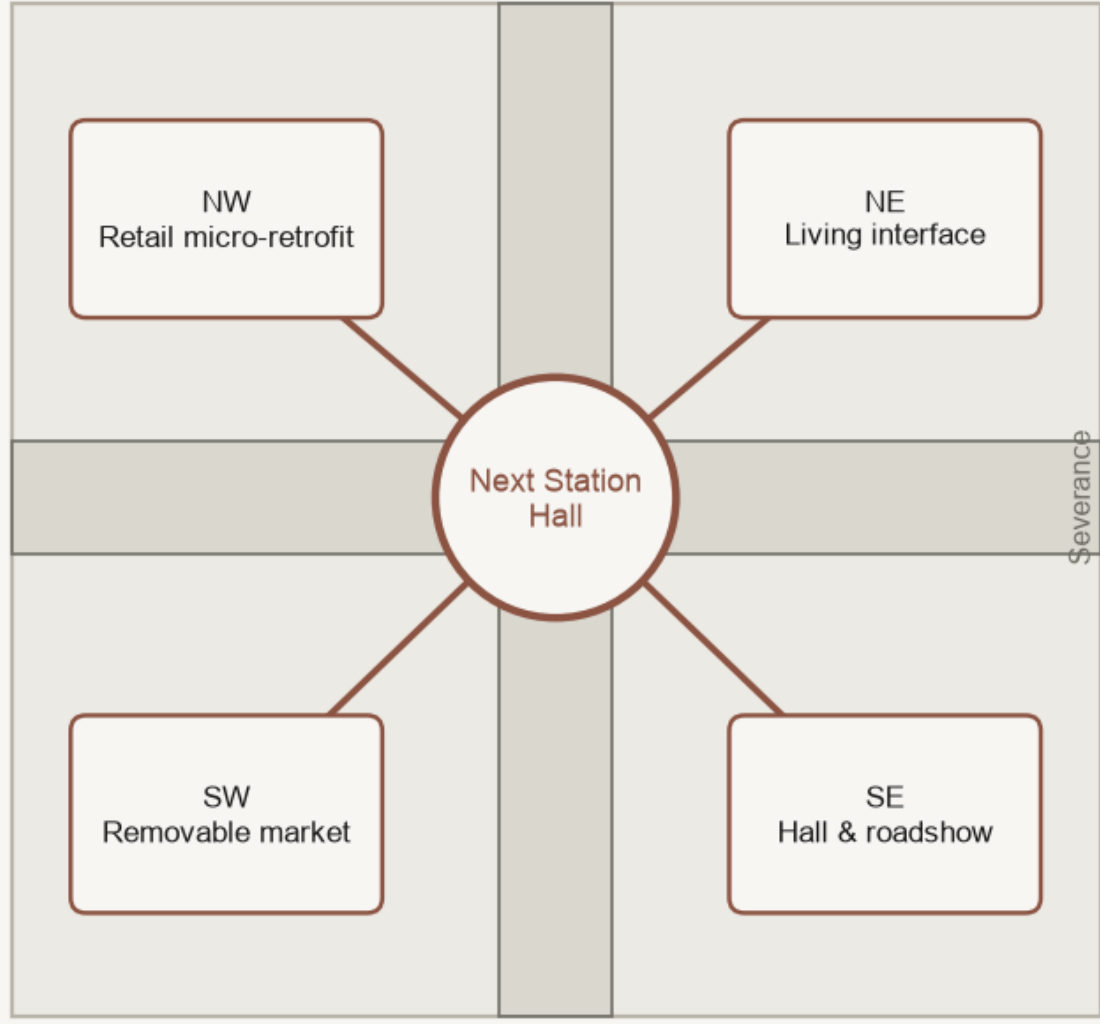

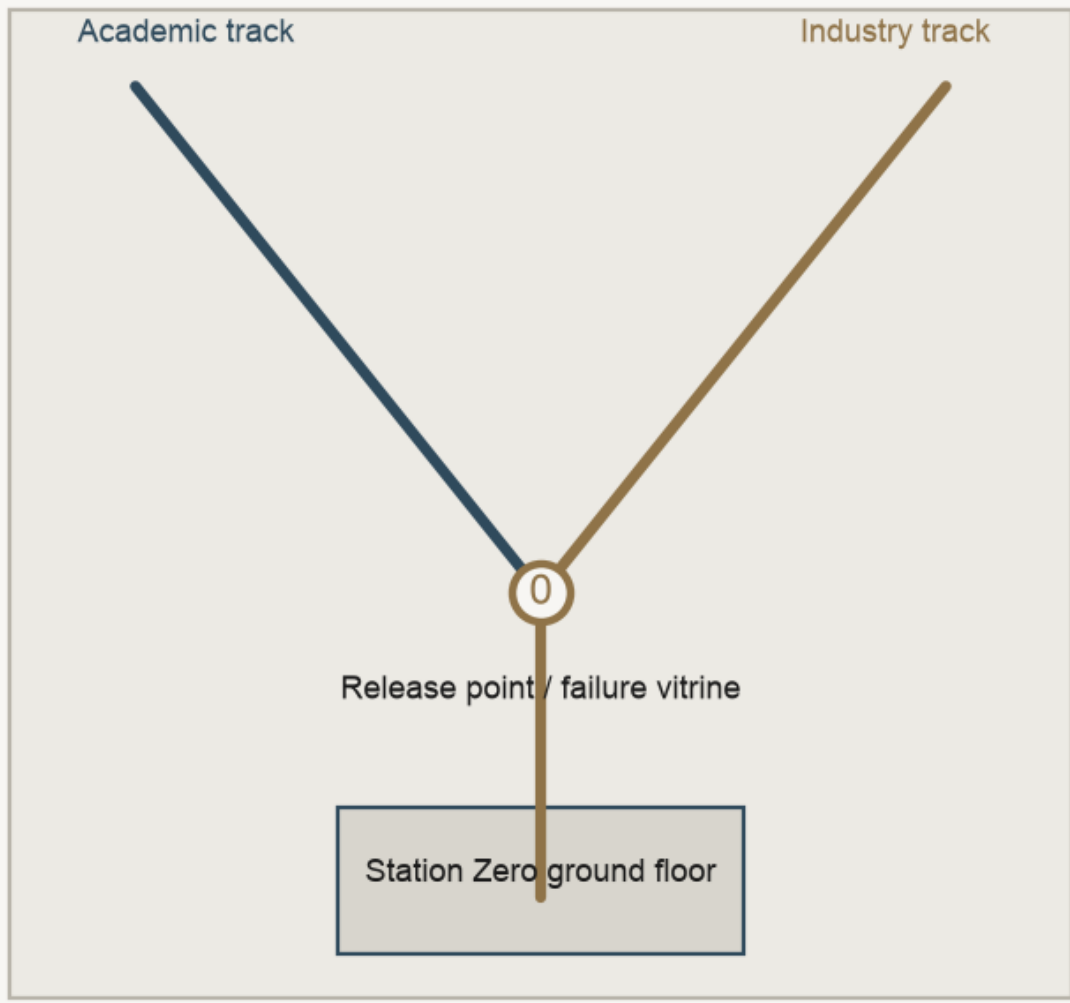

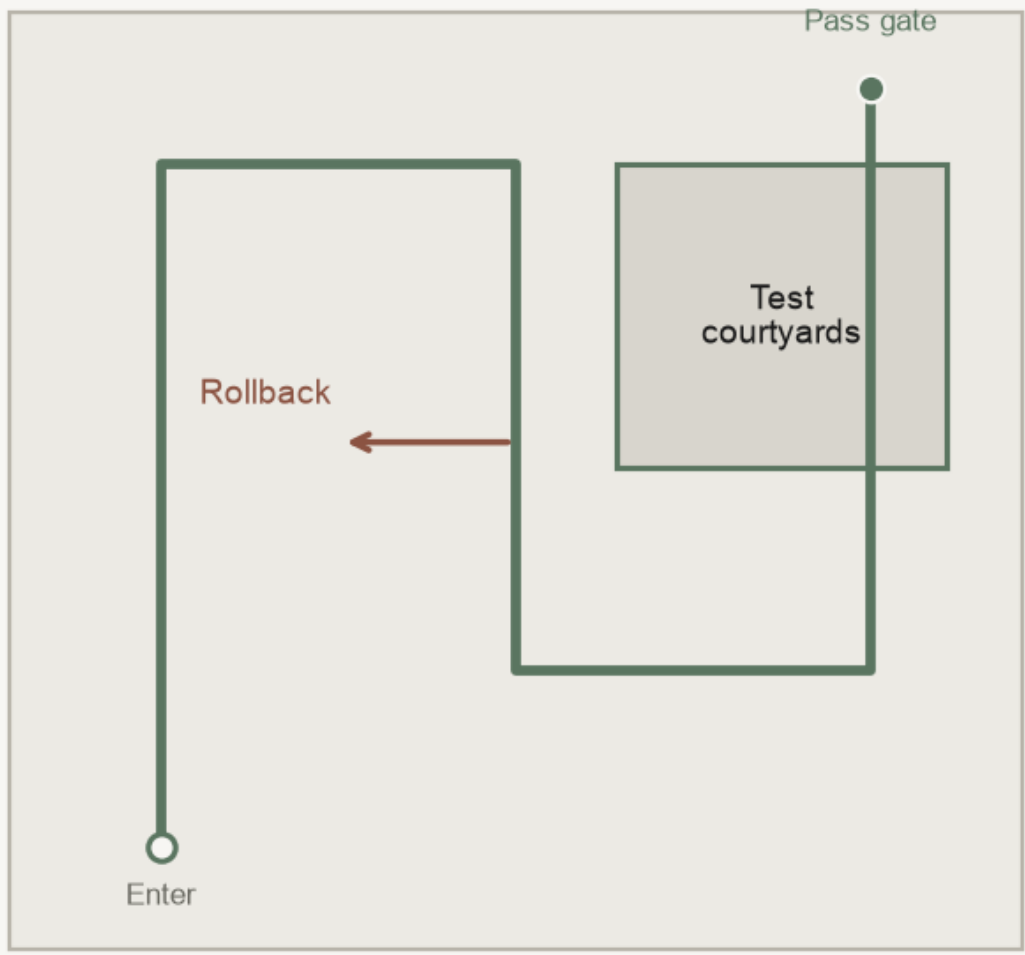

Collaboration chain / ONE PROJECT PASSPORT

Three station forms: one form per station — not all Renzi

THREE STATION FORMS / CONCEPT MOTIFS, NOT ENGINEERED PLANS

01 / NORTH · SWITCHBACK LOOP

Zhongzhiyuan · Switchback Loop

Trusted validation × acceptance demand

Translating Qinglongqiao: switchbacks overcome grade → rollback overcomes failed gates

Enter → public test → fail gate → switchback → pass gate → release

Conceptual motif diagram: one form per station — spatial logic and public behavior; not a survey reconstruction, road red line, or engineering plan. Rebuild geometry when official data arrives.

02 / CENTRAL · RENZI PLAZA

AI Origin · Renzi Plaza

Outcome translation × problem translation

Academic and industry tracks merge, the merge point is the release point and failure vitrine

Campus ramp || city ramp → merge release → PoC exits

03 / SOUTH · FOUR-WAY STITCH

Dazhongs · four-way walk stitch

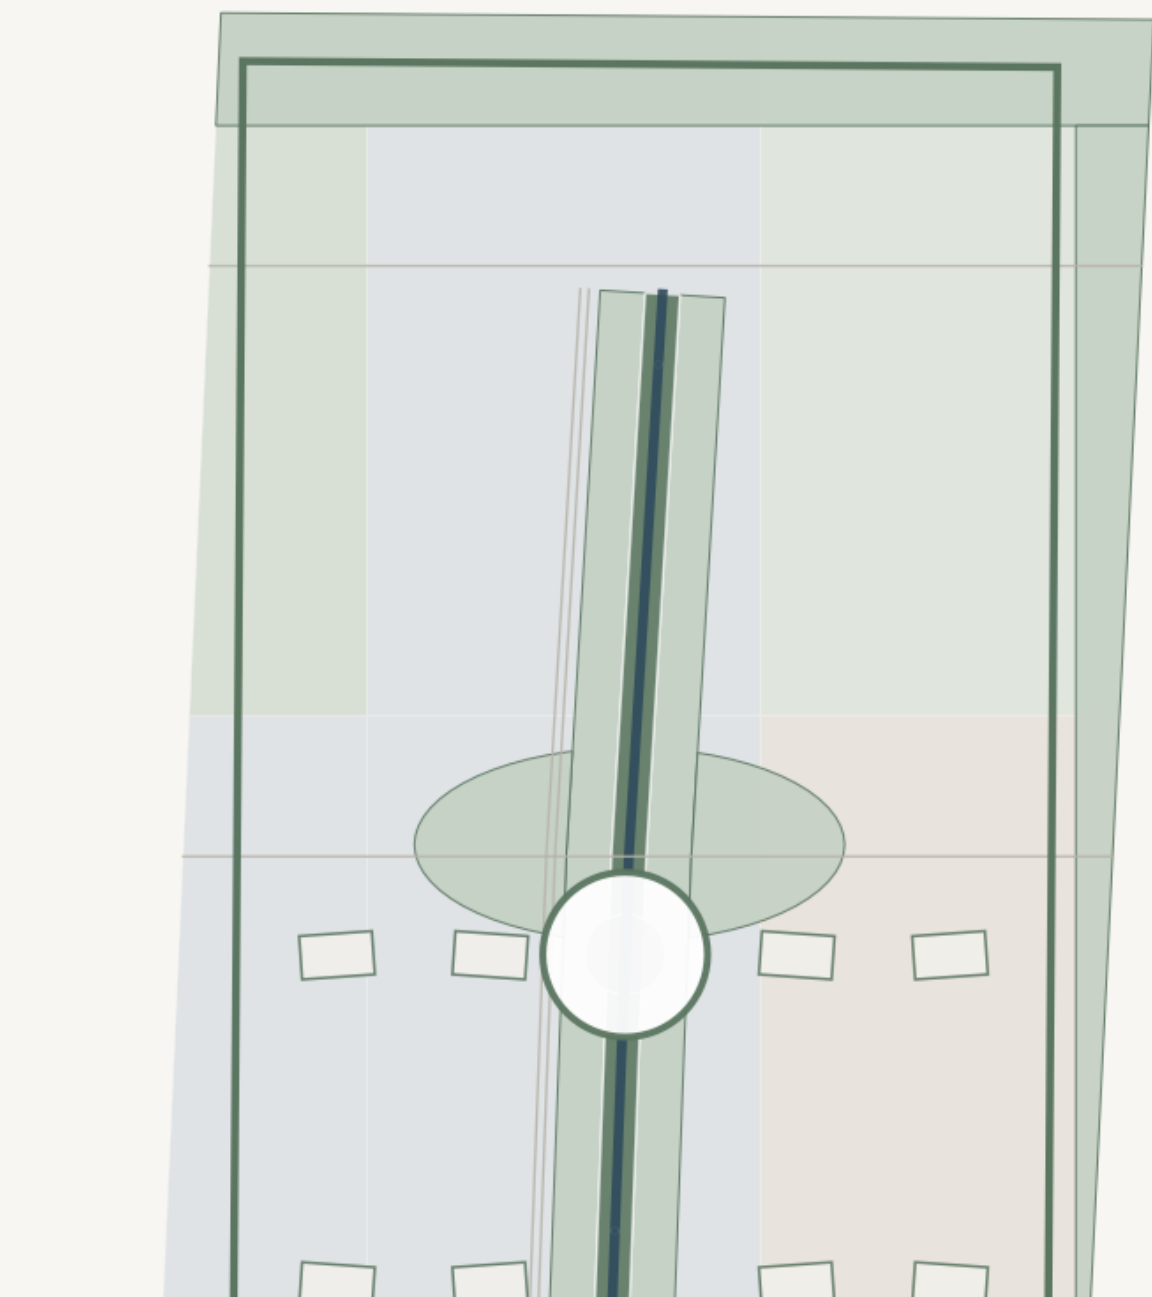

City adoption × order feedback

Station-city surgery under interchange cuts: walk through first, micro-retrofit next, new build last

NW commerce · NE living · SW removable market · SE hall

Three stations · three gates: supply + demand

SUPPLY GATE × DEMAND GATE / ONE FORM EACH STATION

01 / NORTH

Zhongzhiyuan

Trusted validation × acceptance demand

- Supply: Switchback Loop · Agent Garden · red team
- Demand seats: industry / regulators / safety demand evidence
- Qinghe low-carbon interface
- KPI: Pass rate / evidence checklist complete

02 / CENTRAL

AI Origin

Outcome translation × problem translation

- Supply: Renzi Plaza · Station Zero · IP clinic
- Demand seats: universities / hospitals / schools / communities set problems
- Near-campus translation street
- KPI: PoC into validation / problem-close rate

03 / SOUTH

Dazhongs

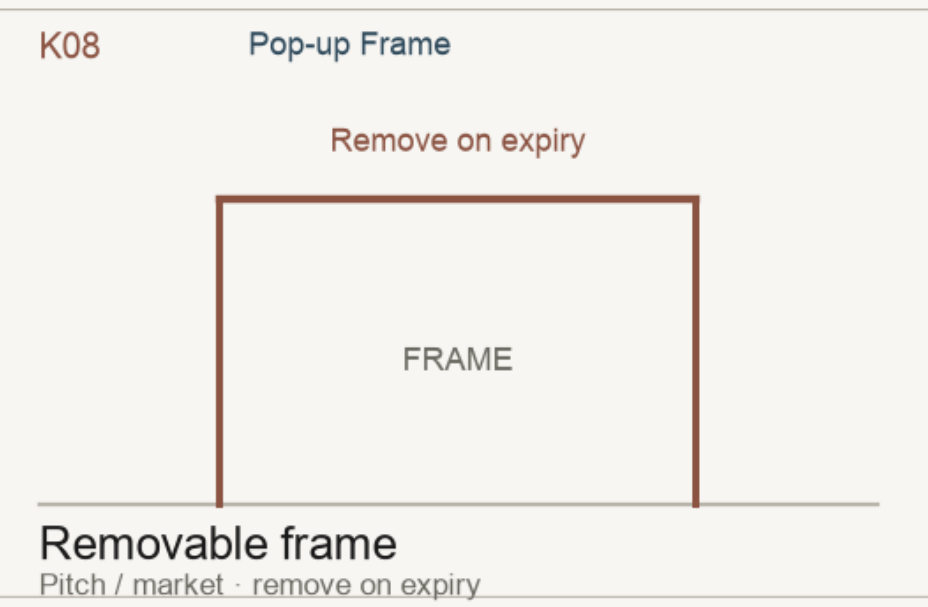

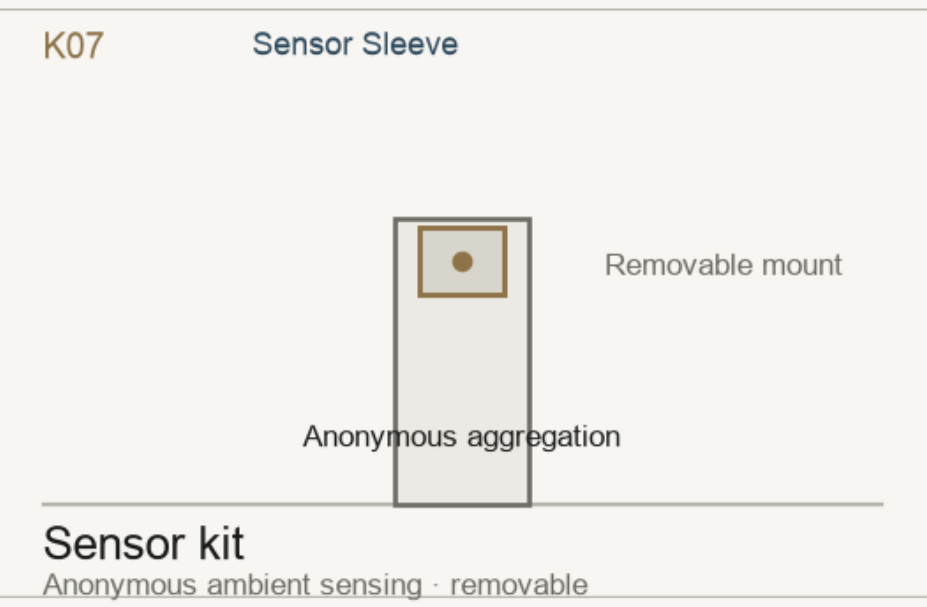

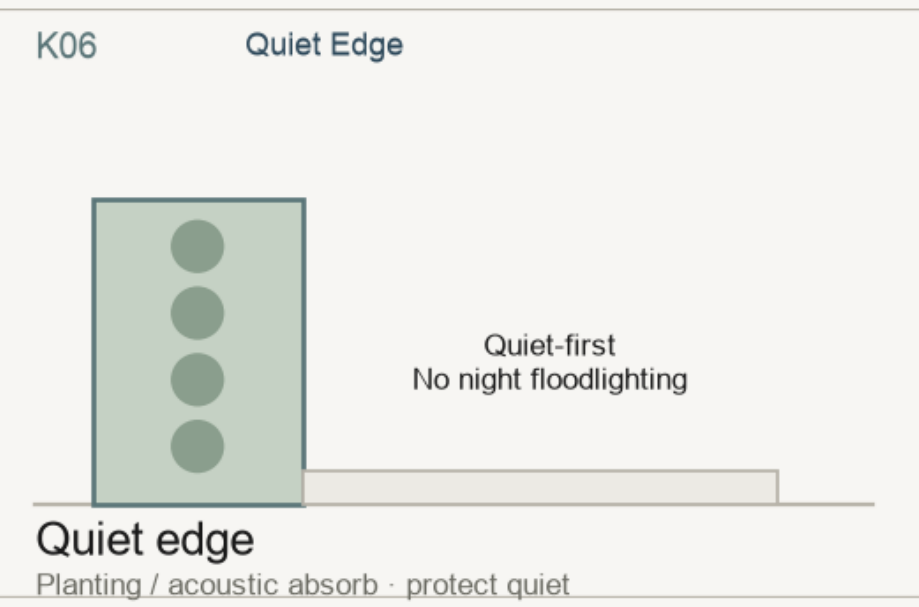

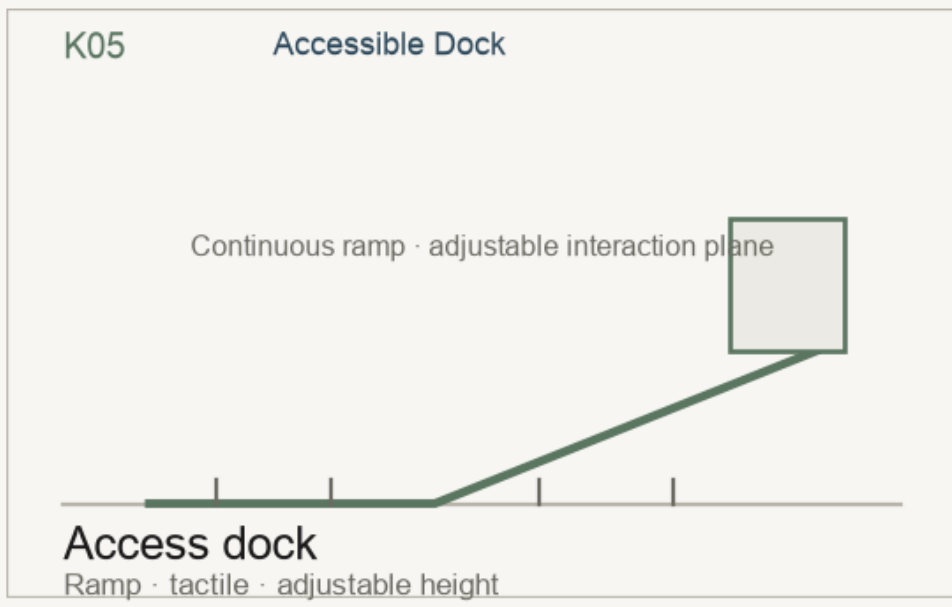

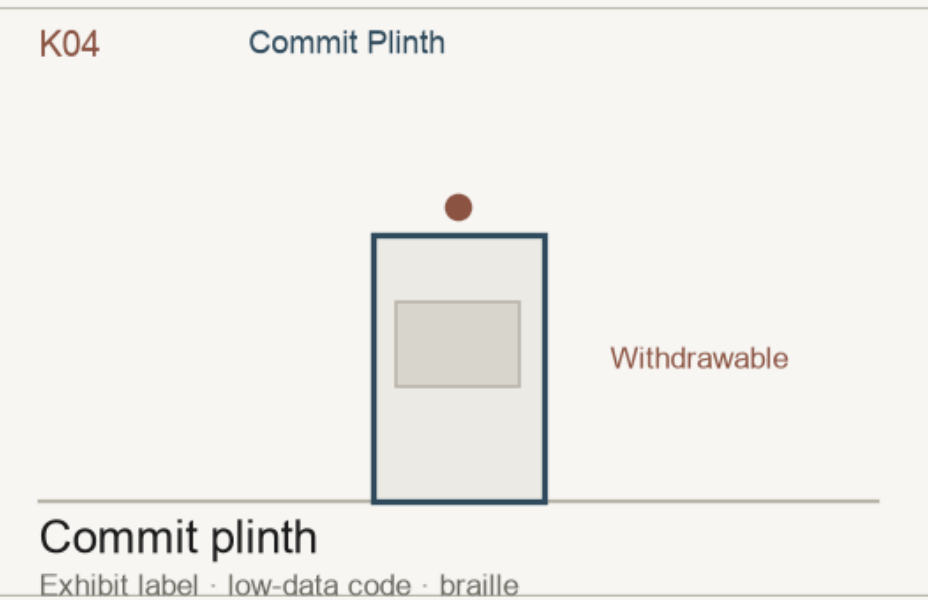

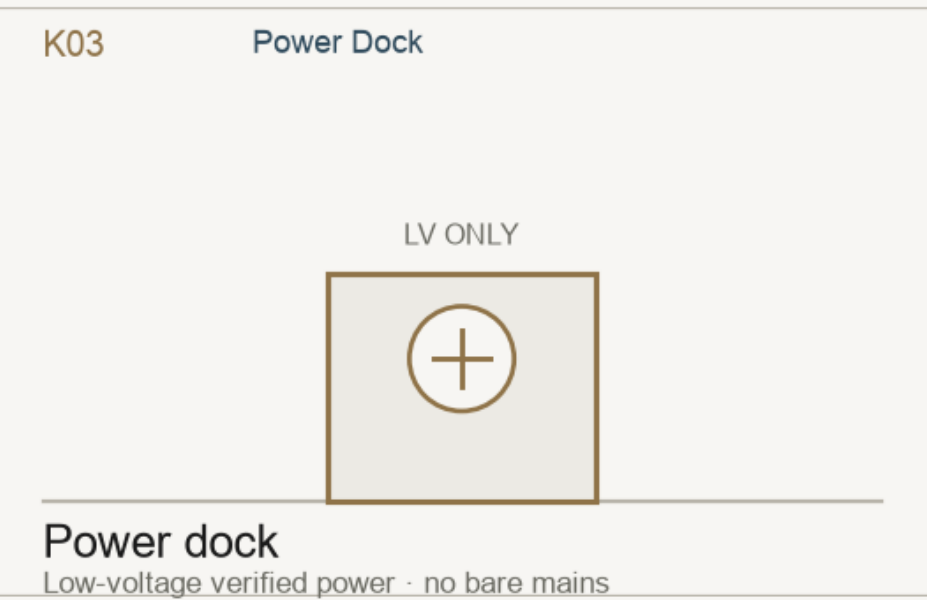

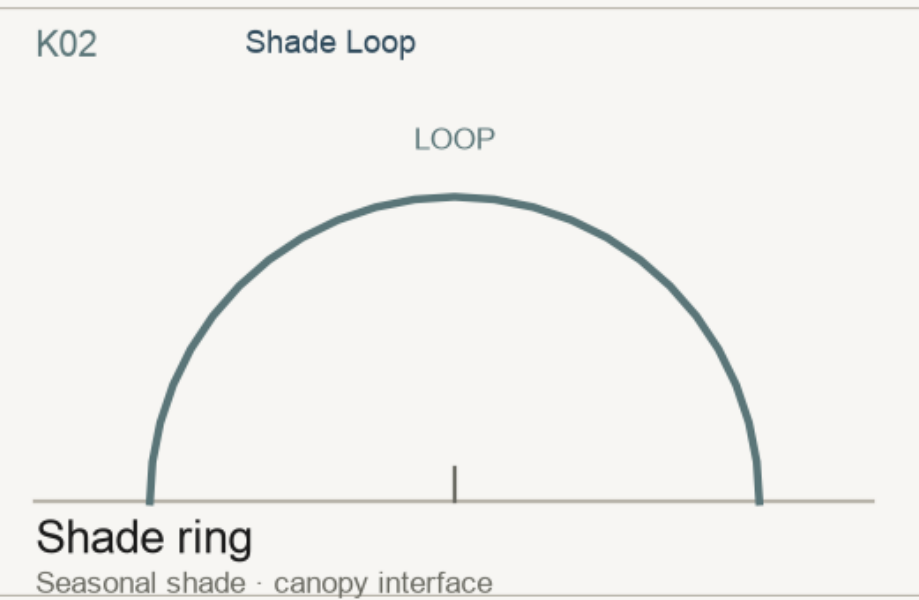

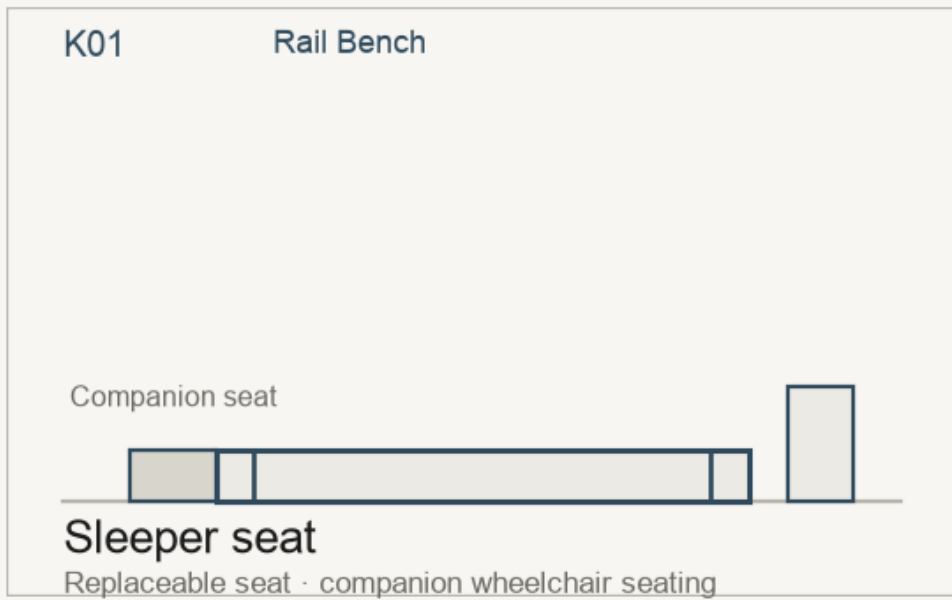

City adoption × order feedback

- Supply: four-way walk stitch · Next Station Hall
- Demand seats: merchants / residents / visitors place orders
- Living-street trial · removable market
- KPI: Ongoing partnership / feedback written back to passport

Prototype envelope verifies spatial relations only; re-detail after official boundary, buildings, tenure, zoning, heritage, and traffic conditions arrive.

OPENKIT: maintainable public components — not one-off set dressing

KIT OF PARTS / MODULAR · REPLACEABLE · REVERSIBLE

Shared module

Parts replaceable, materials carry a passport

Accountability readable

Owner · inspection · open hours

Removal trigger

No maintenance / fail approval → remove

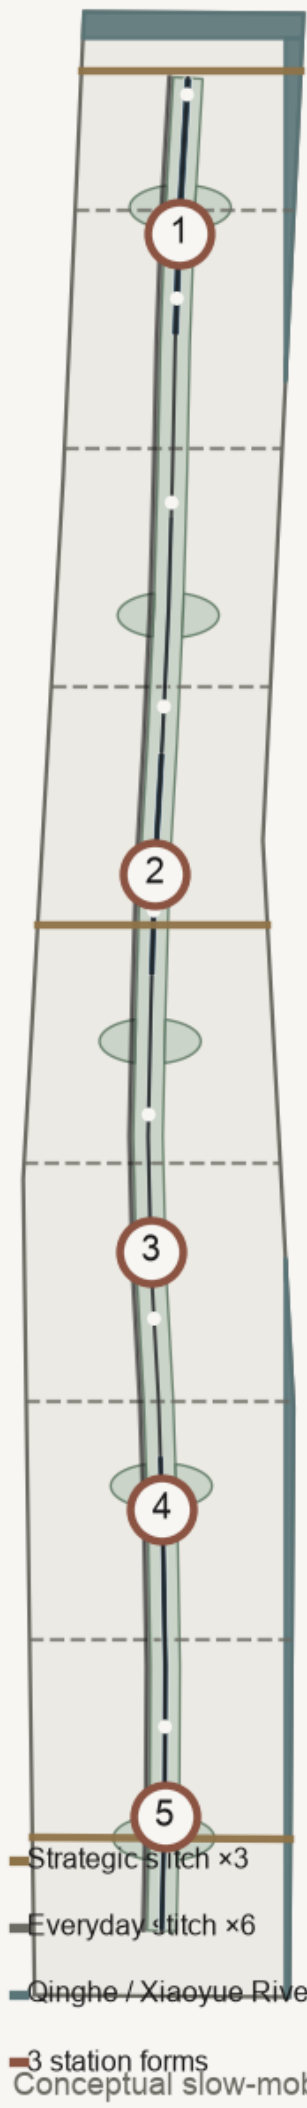

Offline alternatives

Braille · paper · human assistance

Concept kit: no fixed install without heritage, fire, or accessibility clearance; not a product catalog or purchase commitment.

Seven axis spaces: expand and contract; axis and river interweave

SEVEN SPACES, NOT A CORRIDOR / RAIL → CODE → COMMONS

Seven-space rhythm / SECTION RHYTHM

01 Trusted-test viewing Qinghe test field	A Field · 40m
02 Quiet R&D sanctuary Zhongzhi Quiet Valley	B Canyon · 12m
03 Campus-city interface Campus-town porch	C Porch · 24m
04 Release & translation Origin Rensu Plaza	D Plaza · 36m
05 intergenerational co-creation Complier community lounge	E Lounge · 20m
06 Underpass crossing exhibit Crossing dark exhibit	F Dark exhibit · 10m
07 Pitch-market adoption Dazhongxi Next Station	G Hall · 32m

Field open · canyon narrow · porch roofed · plaza anchored · lounge seated · dark exhibit at crossing · hall opens to night

Five landmarks = five public behaviors

01 Agent Garden	Trusted testing the public can understand
02 Station Zero	From autonomous railway to open-source origin
03 City Commit Wall	Contributions visible — and withdrawable / correctable
04 Commons Compiler	Resident problems and developer responses at one table
05 Next Station Hall	City adoption and order feedback return

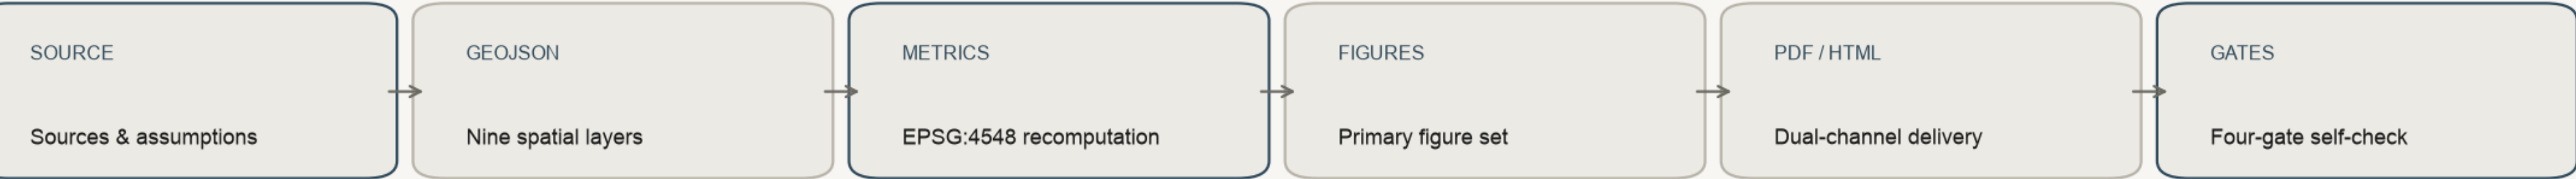

≈ 90 MIN COMMIT WALK · Suzhou numeral mileage language (123...)
Verify → Translate → Adopt | seen throughout (Commit Walk)
Bilingual · tactile · captions · paper alternatives | actual duration & mileage historiography pending verification

A blueprint that can be recalculated, stopped, and continued

METRICS × EVIDENCE × DELIVERY

01 11.41 km² provisional-boundary recomputation Not an official red line	02 16.6% Conceptual green share Not a statutory green ratio	03 7 · 3 · 9 Axis spaces / three station forms / stitch interfaces Three strategic + six everyday grades	04 12 / 4 / 3 Scenarios / controlled validation / intensity cases Each item has an exit mechanism
---	--	---	--

One evidence chain / ONE SOURCE OF TRUTH

Three-phase roadmap / START LIGHT, LEARN IN PUBLIC

PHASE 1 2026–2027 concept window Operate first Brand · Pull Request · audit · removable events	PHASE 2 2028–2030 concept window Three stations form a loop Public space · professional pilots · first-order mechanism	PHASE 3 Post-2030 concept window Global nodes Evaluate expansion · deepen engineering · long-term governance
---	---	---

Success criteria	Not how many screens were built — whether research can be verified, public problems closed, and failure honestly recorded. Full recomputation after official boundaries and professional conditions arrive; high-risk decisions stay with accountable humans.
------------------	--

Annual loop

JAN call → MAR residencies → APR Commit Walk
JUN trust test → SEP OPENLINE Week → OCT forum
Monthly failure review · year-round PRs + microgrants

Exit rules

No maintainer for two cycles → leave the pool
Safety threshold missed → stop the pilot
Public space capture → cut event slots and remove
