

Jingzhang AI Pulse Belt

智脉创新带 · Concept Proposal

A Jingzhang AI Pulse symbiosis belt — using the Jingzhang Railway Heritage Park as the historic and public-space spine, and the Zhongzhiyuan / Beijing AI Origin Community / Dazhongsi areas as innovation anchors, forming a spatial structure of 'one belt, three cores, many scenario nodes, and a blue-green slow-mobility composite loop.'

All spatial proposals are conceptual suggestions, reference schemes, or material for professional teams to deepen. They do not replace statutory planning and do not constitute government-approved conclusions. Generated from provisional boundaries; must be recomputed once the official boundary is published.

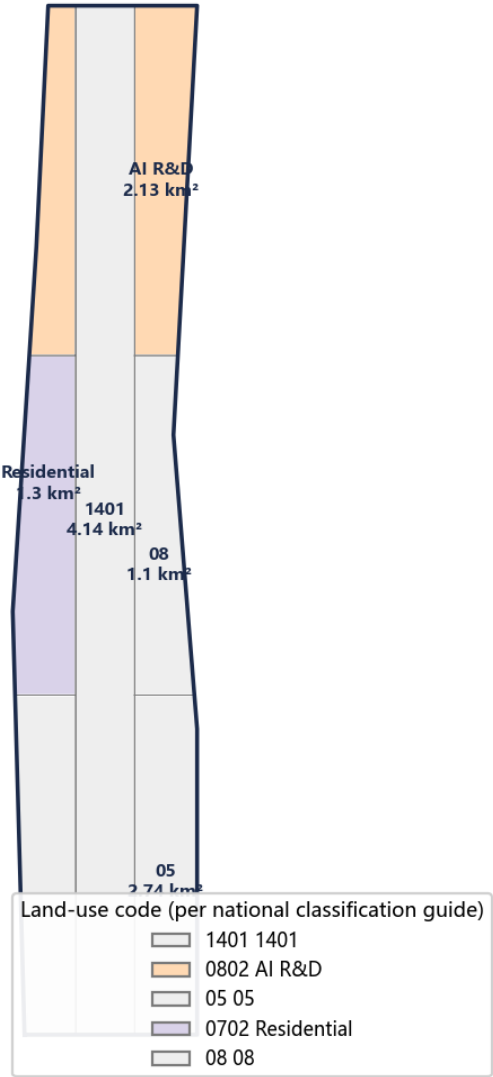

Fig.01 · Site Overview & Three-Level Scope

01 · Overall Concept & Naming System

Primary name 'Jingzhang AI Pulse Belt': 'Pulse' carries the self-reliant innovation spirit of the Jingzhang Railway and doubles as the AI intelligence pulse. Three cores — Zhiyuan (Zhongzhiyuan), Zhixin (AI Origin), Zhihui (Dazhongsi); two wings — Zhongguancun tech-service wing, Xiaoyuehe scenario wing. Visual identity suggests 'rail cross-section + pulse waveform'; palette Jingzhang red #C8102E + pulse indigo #1B2A4A + innovation gold #E8A33D.

Jingzhang AI Pulse Belt · provisional boundary, not a statutory redline; recompute after official data is released · Codes per Territorial Spatial Use Classification Guide; area recomputed in EPSG:4548

02 · Three Key Areas

Zhongzhiyuan (Zhiyuan, 192.1ha): full-stack AI self-innovation sourcing — incubator + pilot lab + open-source workshop. AI Origin Community (Zhixin, 104.3ha): world-class ecosystem + developer community, 24h vitality. Dazhongsi (Zhihui, 72.0ha): smart-native new business + industry-service living room, station-city integration.

03 · Mobility, Blue-Green Network & AI Landmarks

Blue-green network takes the Jingzhang heritage-park Pulse Corridor as the north-south spine, linking the Xiaoyuehe green finger. Mobility skeleton: Pulse Corridor + east-west connectors + slow-mobility loop. AI pilgrimage landmarks: Jingzhang 1909 Pulse Portal, Zhiyuan Plaza, Wuhuan Zhiwu North Station.

04 · AI Scenario Cards (12)

#	Scenario	Anchor	Privacy/Review
S1	AI adaptive traffic control	Pulse Corridor	local data, human override
S2	Enterprise-service AI copilot	Zhongguancun wing	human review
S3	Public-safety AI ops	three cores	assist only
S4	AI open-street lab	Xiaoyuehe	de-identified, consent
S5	Developer living room	AI Origin	open, clear IP
S6	Accessibility & age-friendly nav.	belt-wide	age-first, opt-out
S7	Heritage-park AI art	Pulse Corridor	expert review
S8	Smart-native retail	Dazhongsi	consumer privacy
S9	AI energy & carbon	new infra	data compliance
S10	Community co-governance	AI Origin	participatory
S11	Compute scheduling sandbox	Zhongzhiyuan	classification
S12	Multilingual communication	belt-wide	accuracy, de-bias

05 · Key Metrics & Recomputation

Metrics are recomputed from GeoJSON under EPSG:4548. FAR / height / density are marked unknown due to organizer data gaps, not blocking content scoring.

Metric	Value	Unit	Status
Overall area	11.41 km ²	sqm	known
Key areas	3	count	known
Land-use zones	5	count	known
Green ratio	0.3707	ratio	known
Public-space ratio	0.0061	ratio	known
FAR	—	ratio	unknown
