

Centennial Jingzhang AI Symbiosis Belt

Rail heritage · AI foundation · inclusive future city

v1.6 English Display Counterpart

Centennial Jingzhang AI Symbiosis Belt · Site Overview

v1.6 English Display Counterpart
Haidian · 1–2 km around Jing-Zhang Heritage Park · Overall design ≈ 11.41 km² (provisional boundary)

Reviewable Layers

Provisional boundary / 3 key areas / submitted roads
Green space / public space / recomputed metrics
Survey-based buildings or terrain are not displayed.

Required Inputs (deepening only)

Official polygons / cadastral & building survey
Road / rail interfaces / heritage & municipal controls

- Provisional site boundary
- K1 Zhongzhiyuan
- K2 AI Origin Community
- K3 Dazhongsi
- Green / Park
- Public space
- Submitted road layer
- Boundary precision warning

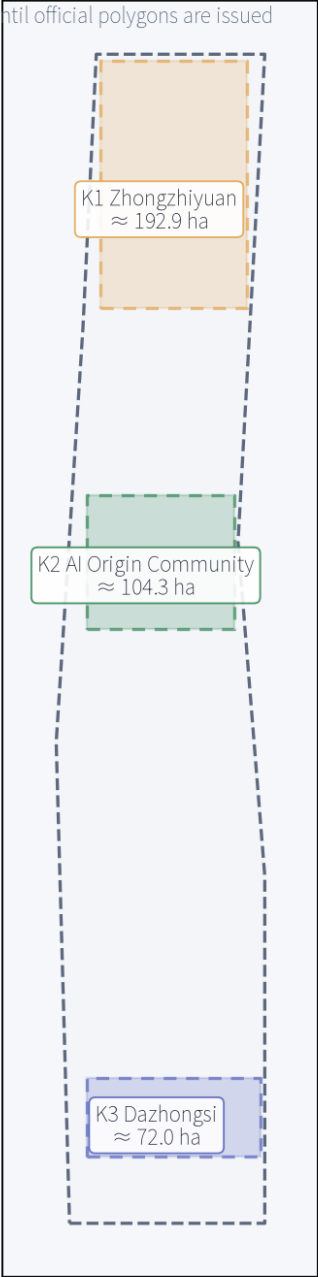

Data & Boundary Status

Site area (overall)	11.41 km ²
3 Key areas (computed)	369.3 ha
Green ratio (computed)	31.0%
Public space ratio	4.2%
Building footprint	≈ 100.8 ha
Boundary status	provisional
Terrain / buildings	not shown: survey missing
Metric CRS	EPSG:4548
Self-check status	PASS / ready_for_review

Three Key Areas · Spatial Specificity

9 concept blocks (3 blocks per key area)
Provisional boundary · concept blocks · reused until official polygons are issued

3 Key Areas × 3 Concept Blocks

K1 Zhongzhiyuan

- K1-A Qinghe waterfront belt
- K1-B Self-model testing park
- K1-C International exchange salon

K2 AI Origin Community

- K2-A Tsinghua-garden origin
- K2-B Near-campus translation street
- K2-C AI Origin Plaza

K3 Dazhongsi

- K3-A Dazhongsi station core
- K3-B Data-factor reception hall
- K3-C Smart-terminal block
