

CIVIC-SCIENCE MASTER PLAN

JING-ZHANG INTELLIGENCE VEIN

TRANSLATED SPATIAL READING
CIVIC-SCIENCE MASTER PLAN

1 Heritage remains the temporal anchor

2 Six public-life garden prototypes

3 Innovation is distributed

4 Public access shapes built form

LEGEND

- Heritage / civic spine

Active-travel loop

Blue-green interface

Public node / review gate

Decision labels, spatial components and governance cues are translated in full.

ENGLISH READING KEY

- Heritage remains the temporal anchor
- Six public-life garden prototypes
- Innovation is distributed
- Public access shapes built form

STATUS

Conceptual recommendation using provisional rough geometry.
Not an official planning boundary, statutory control, approval, or engineering alignment.

EVIDENCE PRINCIPLE

The translated figure preserves the same design evidence.
GeoJSON and metrics remain authoritative; this diagram is the human-readable interpretation layer.

THE COMMONS LINE / COMPLETE ENGLISH COMPANION

English substantive equivalent · source layers remain authoritative

ONE SPINE / TWO CHAINS / THREE CORES / SIX GARDENS

JING-ZHANG INTELLIGENCE VEIN

TRANSLATED SPATIAL READING
ONE SPINE / TWO CHAINS / THREE CORES / SIX GARDENS

1 Railway heritage as civic spine

2 Open-knowledge and all-age chains

3 Validation, translation, application

4 Everyday life is the success metric

LEGEND

- Heritage / civic spine

Active-travel loop

Blue-green interface

Public node / review gate

Decision labels, spatial components and governance cues are translated in full.

THE COMMONS LINE / COMPLETE ENGLISH COMPANION

English substantive equivalent · source layers remain authoritative

OVERALL SPATIAL STRUCTURE

JING-ZHANG INTELLIGENCE VEIN

TRANSLATED SPATIAL READING
OVERALL SPATIAL STRUCTURE

1 Continuous public-innovation spine

2 Two active-travel loops

3 Five east-west interfaces

4 Provisional geometry, not an official boundary

LEGEND

- Heritage / civic spine

Active-travel loop

Blue-green interface

Public node / review gate

Decision labels, spatial components and governance cues are translated in full.

THE COMMONS LINE / COMPLETE ENGLISH COMPANION

English substantive equivalent · source layers remain authoritative

CIVIC SPINE

Railway memory, active travel, ecology, and public learning form one continuous piece of civic infrastructure.

THREE CORES

Validation at Zhongzhiyuan, translation at AI Origin, and public application at Dazhongsi.

PUBLIC VALUE

Success is measured by daily access, care, scrutiny, and ecological health rather than landmark count.

CONCEPTUAL MASTER PLAN

JING-ZHANG INTELLIGENCE VEIN

TRANSLATED SPATIAL READING
CONCEPTUAL MASTER PLAN

1 Eighteen coordinated spatial projects

2 Shared evidence across layers

3 Open ground floors and small blocks

4 Formal controls remain unknown

LEGEND

- Heritage / civic spine
- Active-travel loop
- Blue-green interface
- Public node / review gate

Decision labels, spatial components and governance cues are translated in full.

ENGLISH READING KEY

- Eighteen coordinated spatial projects
- Shared evidence across layers
- Open ground floors and small blocks
- Formal controls remain unknown

STATUS

Conceptual recommendation using provisional rough geometry. Not an official planning boundary, statutory control, approval, or engineering alignment.

EVIDENCE PRINCIPLE

The translated figure preserves the same design evidence. GeoJSON and metrics remain authoritative; this diagram is the human-readable interpretation layer.

THE COMMONS LINE / COMPLETE ENGLISH COMPANION

English substantive equivalent · source layers remain authoritative

FIVE LAYERS / EIGHT PROGRAM SEGMENTS

JING-ZHANG INTELLIGENCE VEIN

1 Ecology and heritage base

2 Public-space armature

3 Mobility stitching

4 Innovation programs / governance

- LEGEND
- Heritage / civic spine
 - Active-travel loop
 - Blue-green interface
 - Public node / review gate

THE COMMONS LINE / COMPLETE ENGLISH COMPANION

ENGLISH READING KEY

- Ecology and heritage base
- Public-space armature
- Mobility stitching
- Innovation programs / governance

STATUS

Conceptual recommendation using provisional rough geometry. Not an official planning boundary, statutory control, approval, or engineering alignment.

EVIDENCE PRINCIPLE

The translated figure preserves the same design evidence. GeoJSON and metrics remain authoritative; this diagram is the human-readable interpretation layer.

English substantive equivalent · source layers remain authoritative

DEVELOPMENT AND FORM CONTROLS

JING-ZHANG INTELLIGENCE VEIN

1 Frontage / ground floor / scale

2 Connectivity before icons

3 Open and accessible interfaces

4 FAR, height and BCR remain unknown

- LEGEND
- Heritage / civic spine
 - Active-travel loop
 - Blue-green interface
 - Public node / review gate

THE COMMONS LINE / COMPLETE ENGLISH COMPANION

ENGLISH READING KEY

- Frontage / ground floor / scale
- Connectivity before icons
- Open and accessible interfaces
- FAR, height and BCR remain unknown

STATUS

Conceptual recommendation using provisional rough geometry. Not an official planning boundary, statutory control, approval, or engineering alignment.

EVIDENCE PRINCIPLE

The translated figure preserves the same design evidence. GeoJSON and metrics remain authoritative; this diagram is the human-readable interpretation layer.

English substantive equivalent · source layers remain authoritative

LAND USE

01

A complete topology-safe partition tests the spatial program without claiming statutory zoning.

FORM CONTROL

02

Frontage, ground floor, scale, connectivity, and openness organize the district.

DRR

03

Retain and adapt before rebuilding; parcel decisions await surveys, ownership, and approval.

THREE COMPLEMENTARY URBAN TYPES

JING-ZHANG INTELLIGENCE VEIN

TRANSLATED SPATIAL READING

THREE COMPLEMENTARY URBAN TYPES

1 Zhongzhiyuan: validation campus

2 AI Origin: knowledge district

3 Dazhongs: application district

4 One shared public-value baseline

LEGEND

- Heritage / civic spine
- Active-travel loop
- Blue-green interface
- Public node / review gate

Decision labels, spatial components and governance cues are translated in full.

ENGLISH READING KEY

- Zhongzhiyuan: validation campus
- AI Origin: knowledge district
- Dazhongs: application district
- One shared public-value baseline

STATUS

Conceptual recommendation using provisional rough geometry. Not an official planning boundary, statutory control, approval, or engineering alignment.

EVIDENCE PRINCIPLE

The translated figure preserves the same design evidence. GeoJSON and metrics remain authoritative; this diagram is the human-readable interpretation layer.

THE COMMONS LINE / COMPLETE ENGLISH COMPANION

English substantive equivalent · source layers remain authoritative

DIFFERENCE

Each key area has a distinct role, block type, public-space system, and delivery gate.

01

COMMON BASELINE

Staffed service, continuous accessibility, non-AI equivalents, and public retrospectives.

02

STATUS

All three polygons remain provisional rough and cannot determine parcels or development capacities.

03

MOBILITY / BLUE-GREEN / PUBLIC SPACE

JING-ZHANG INTELLIGENCE VEIN

TRANSLATED SPATIAL READING

MOBILITY / BLUE-GREEN / PUBLIC SPACE

1 Rail first and active travel as a network

2 Two loops and five interfaces

3 Qinghe edge and railway green spine

4 Conceptual relations, not engineering lines

LEGEND

Heritage / civic spine Active-travel loop Blue-green interface Public node / review gate

Decision labels, spatial components and governance cues are translated in full.

ENGLISH READING KEY

- Rail first and active travel as a network
- Two loops and five interfaces
- Qinghe edge and railway green spine
- Conceptual relations, not engineering lines

STATUS

Conceptual recommendation using provisional rough geometry. Not an official planning boundary, statutory control, approval, or engineering alignment.

EVIDENCE PRINCIPLE

The translated figure preserves the same design evidence. GeoJSON and metrics remain authoritative; this diagram is the human-readable interpretation layer.

THE COMMONS LINE / COMPLETE ENGLISH COMPANION

English substantive equivalent · source layers remain authoritative

THREE PUBLIC-SPACE SECTIONS

JING-ZHANG INTELLIGENCE VEIN

TRANSLATED SPATIAL READING
THREE PUBLIC-SPACE SECTIONS

1 Heritage promenade

2 Open-source neighborhood street

3 Station-city civic interface

4 Universal access in every type

LEGEND
Heritage / civic spine Active-travel loop Blue-green interface Public node / review gate

Decision labels, spatial components and governance cues are translated in full.

ENGLISH READING KEY

- Heritage promenade
- Open-source neighborhood street
- Station-city civic interface
- Universal access in every type

STATUS

Conceptual recommendation using provisional rough geometry. Not an official planning boundary, statutory control, approval, or engineering alignment.

EVIDENCE PRINCIPLE

The translated figure preserves the same design evidence. GeoJSON and metrics remain authoritative; this diagram is the human-readable interpretation layer.

THE COMMONS LINE / COMPLETE ENGLISH COMPANION

English substantive equivalent · source layers remain authoritative

BETTER LIVING / 15-MINUTE SERVICES

JING-ZHANG INTELLIGENCE VEIN

TRANSLATED SPATIAL READING
BETTER LIVING / 15-MINUTE SERVICES

1 5-minute daily support

2 10-minute care network

3 15-minute cultural access

4 Talent attraction begins with dignified life

LEGEND
Heritage / civic spine Active-travel loop Blue-green interface Public node / review gate

Decision labels, spatial components and governance cues are translated in full.

ENGLISH READING KEY

- 5-minute daily support
- 10-minute care network
- 15-minute cultural access
- Talent attraction begins with dignified life

STATUS

Conceptual recommendation using provisional rough geometry. Not an official planning boundary, statutory control, approval, or engineering alignment.

EVIDENCE PRINCIPLE

The translated figure preserves the same design evidence. GeoJSON and metrics remain authoritative; this diagram is the human-readable interpretation layer.

THE COMMONS LINE / COMPLETE ENGLISH COMPANION

English substantive equivalent · source layers remain authoritative

STITCH

Two loops and five interfaces reconnect both sides of the heritage corridor.

01

ECOLOGY

Qinghe edge, railway green spine, and community gardens perform habitat, stormwater, and shade.

02

LIVING

Five, ten, and fifteen-minute services support researchers, residents, carers, and visitors.

03

FOUR PIECES OF DESIGN EVIDENCE

JING-ZHANG INTELLIGENCE VEIN

TRANSLATED SPATIAL READING

FOUR PIECES OF DESIGN EVIDENCE

1 Trustworthy validation

2 Station-city stitching

3 Global civic science

4 Climate-resilient living

LEGEND

- Heritage / civic spine
- Active-travel loop
- Blue-green interface
- Public node / review gate

Decision labels, spatial components and governance cues are translated in full.

ENGLISH READING KEY

- Trustworthy validation
- Station-city stitching
- Global civic science
- Climate-resilient living

STATUS

Conceptual recommendation using provisional rough geometry. Not an official planning boundary, statutory control, approval, or engineering alignment.

EVIDENCE PRINCIPLE

The translated figure preserves the same design evidence. GeoJSON and metrics remain authoritative; this diagram is the human-readable interpretation layer.

THE COMMONS LINE / COMPLETE ENGLISH COMPANION

English substantive equivalent · source layers remain authoritative

SCENARIO ACCESS

01

Each scenario declares minimum data, Human Review, accessibility, non-AI substitute, and exit.

PHASING

02

Reversible pilots pass official-data, specialist, operator, and public-review gates before expansion.

RECALCULATION

03

GeoJSON and metrics remain authoritative; official polygons trigger coordinated recalculation.
