

Jing-Zhang Track Circuit

JZ-TC

From Rail Current to Urban Intelligence

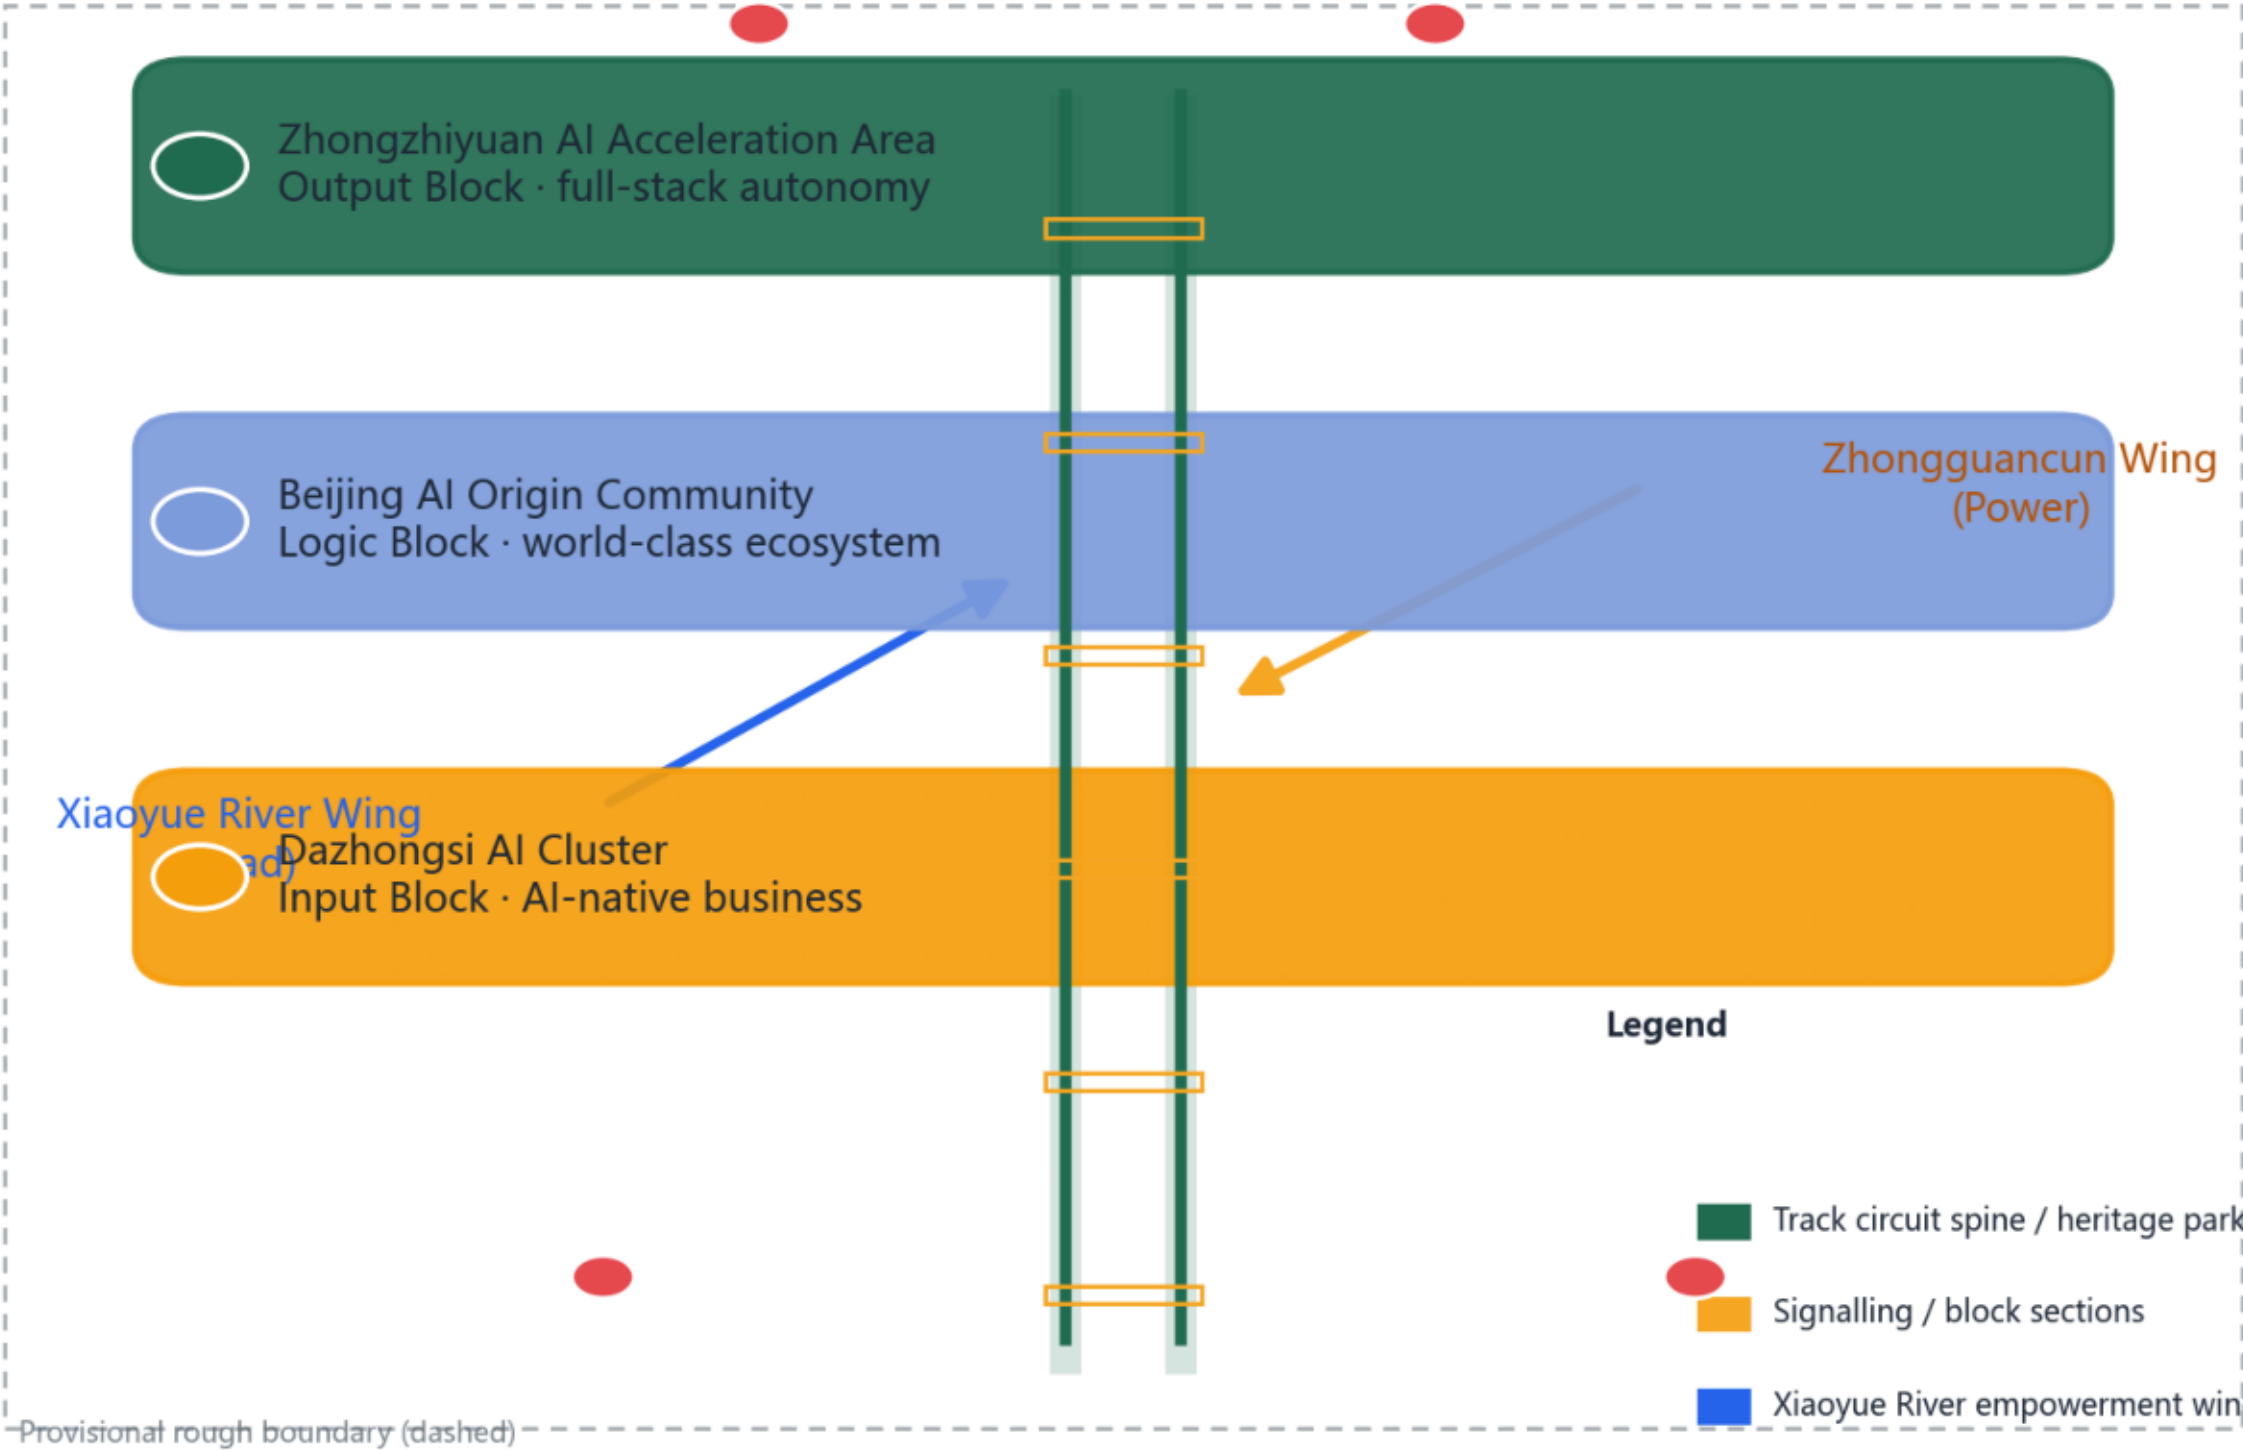

Centennial Jing-Zhang AI Innovation Belt Open Call · Concept

Overall design 11.41 km² · Green ratio 38.7% · Public space 31.5%

Boundary: provisional rough · recalculated after official polygons

JZ Track Circuit • Overall Concept

From rail current to urban intelligence: one spine, three blocks, two wings

Boundary: provisional rough polygons · recalculate after official polygons · diagram is explanatory; authoritative data is GeoJSON/JSON

AI scenario nodes & landmarks

Three-Level Scope and Land-Use Structure

Research (43.6km²) → Overall design (11.4km²) → Key areas (368.4ha)

Land-use structure (concept)

- Commercial

Residential

Community
- Research

Culture

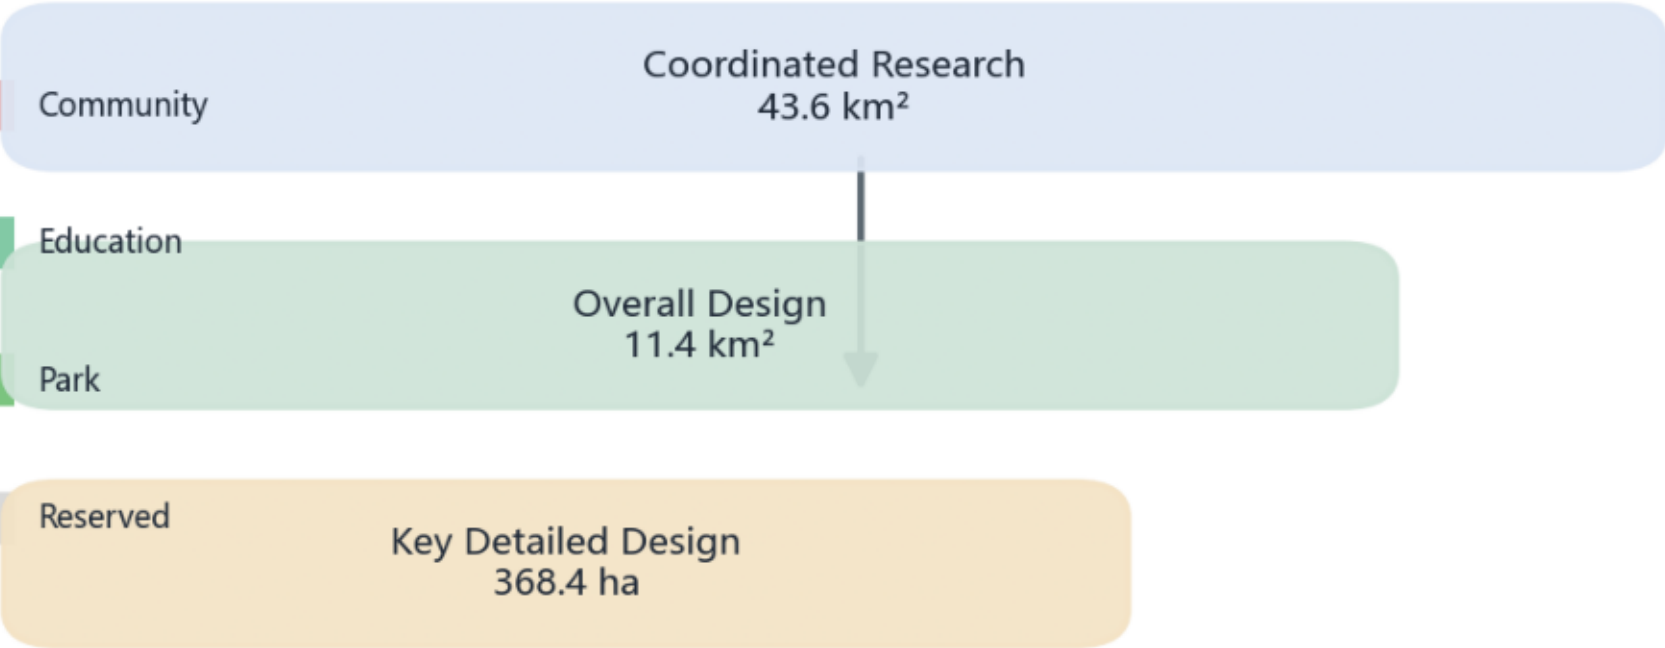

Education
- Sports

Medical

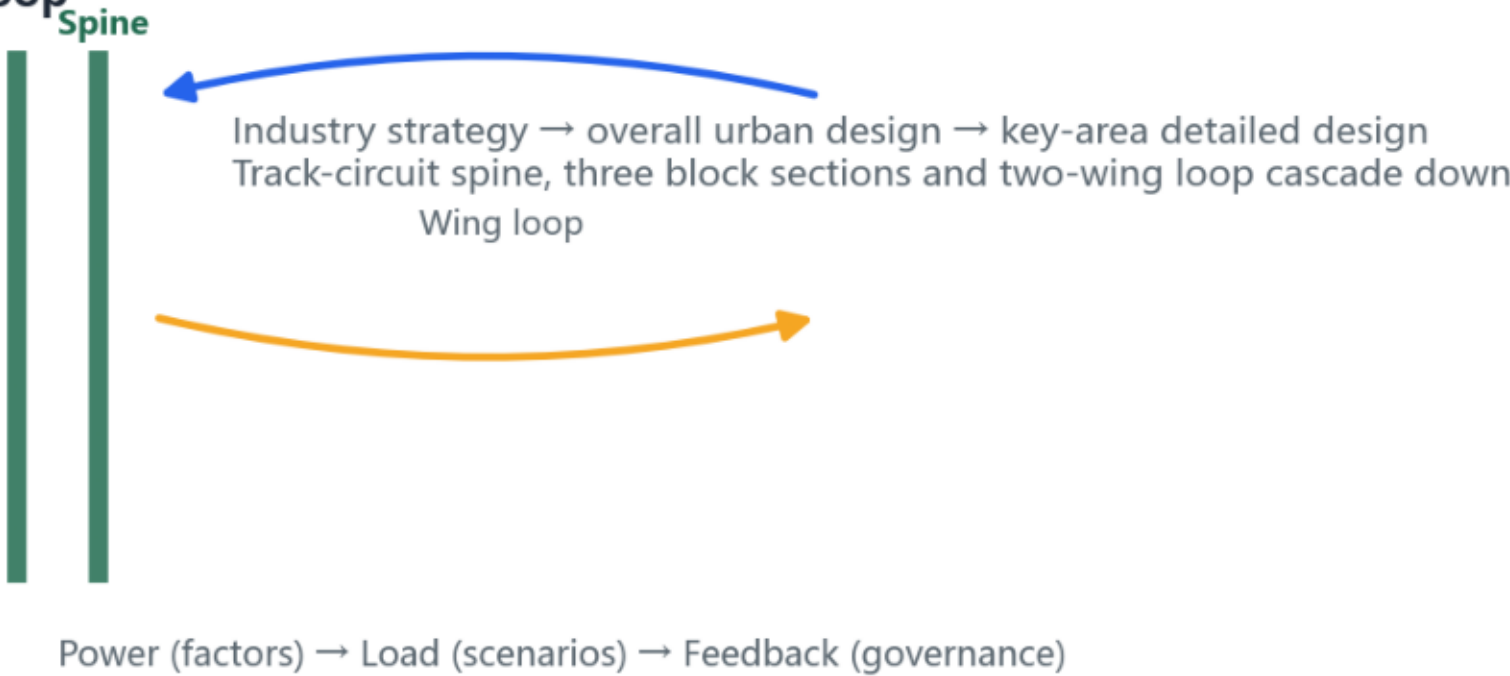

Park
- Buffer green

Plaza

Reserved

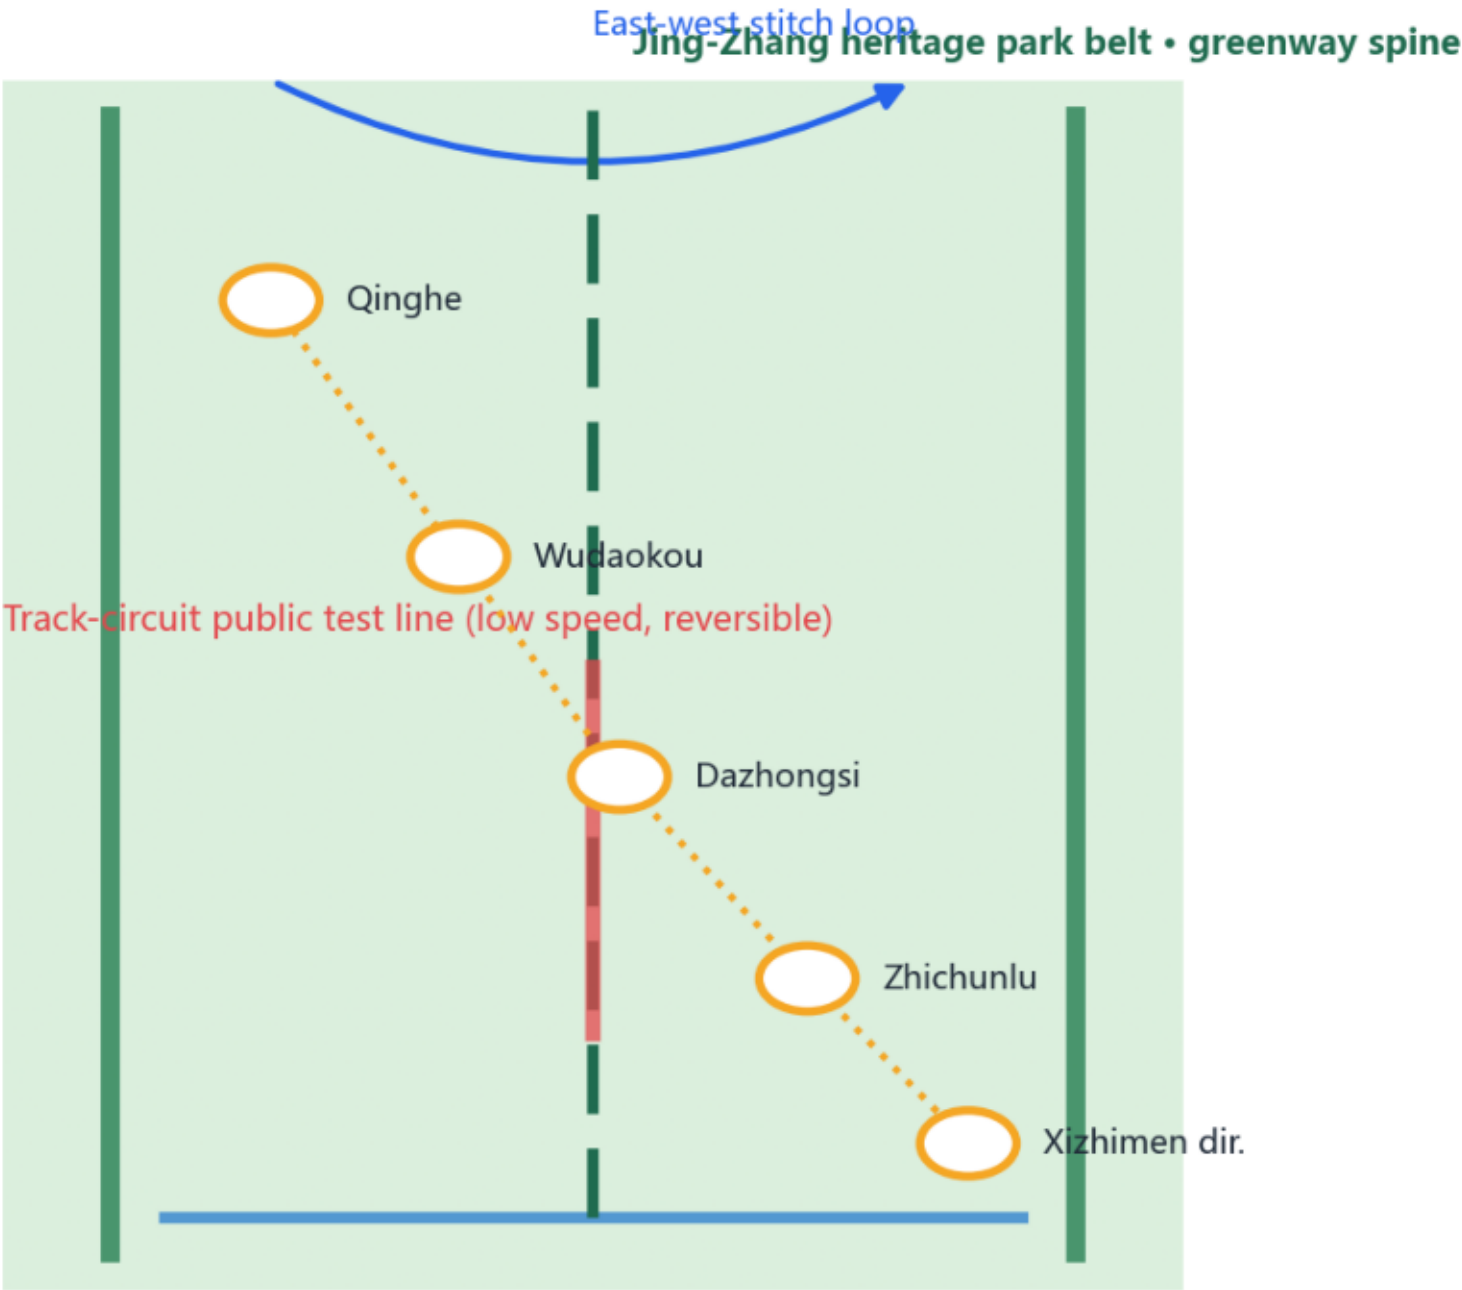

Track-circuit spatial loop

Boundary: provisional rough polygons · recalculate after official polygons · diagram is explanatory; authoritative data is GeoJSON/JSON

Mobility, Slow Traffic and Blue-Green Network

Station integration · slow traffic stitching · continuous blue-green

Xiaoyue River · Qinghe blue-green corridor (concept)

Boundary: provisional rough polygons · recalculate after official polygons · diagram is explanatory; authoritative data is GeoJSON/JSON

Detailed Design of Three Key Areas: Three Block Sections, Three Urban Functions

Dazhongsi AI Industry Cluster

Input block • AI-native business

Role: AI-native consumption & business lab
Space: station-city hub + AI-native block
Renewal: retain/renovate + infill labs
Scenarios: drone delivery, AR guide, digital human
Risk: heritage/blue-line & transit data pending

Beijing AI Origin Community

Logic block • world-class ecosystem

Role: open-source co-creation & talent community
Space: Qinghuayuan heritage node + maker blocks
Renewal: mixed renewal, community infill
Scenarios: co-creation workshops, AI memory node
Risk: official heritage scope & multi-ownership pending

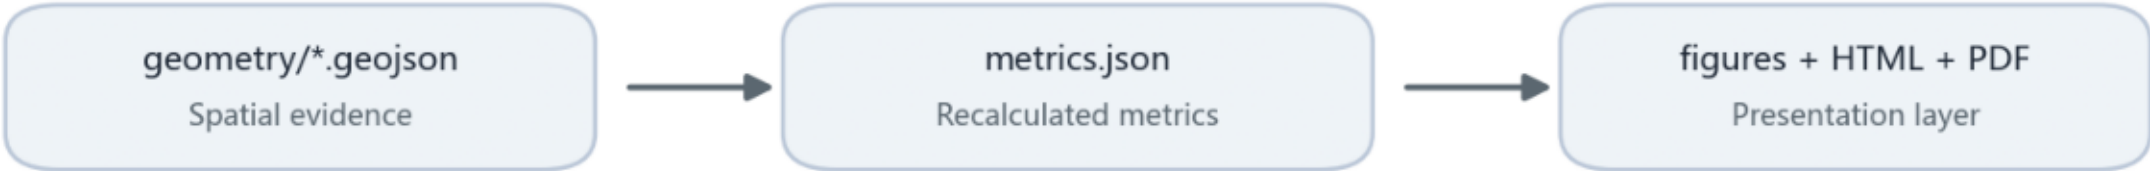

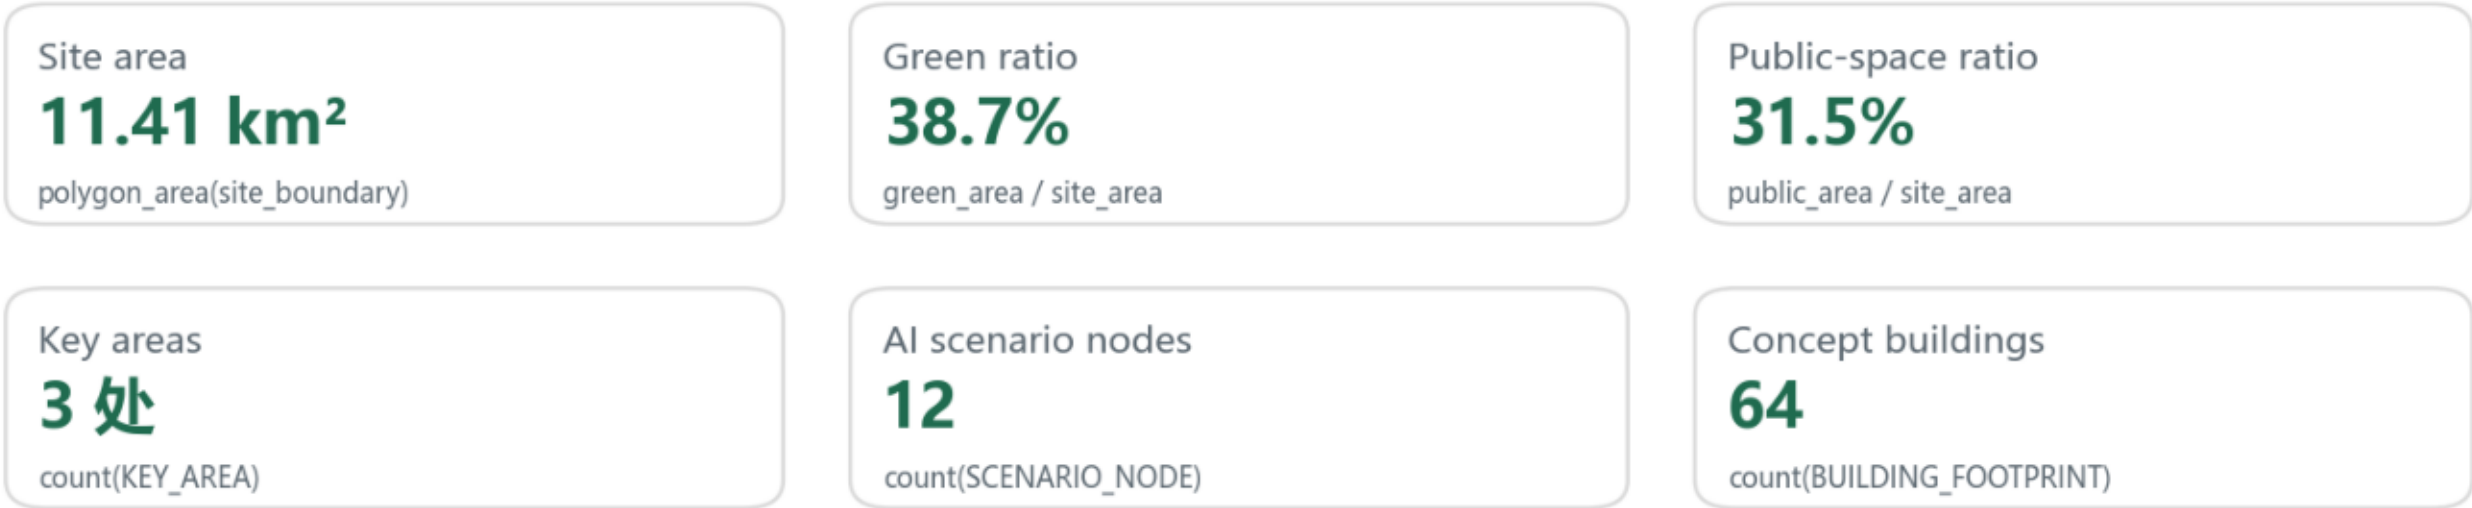

Zhongzhiyuan AI Acceleration Area

Output block • full-stack autonomy

Role: full-stack testing & governance voice
Space: R&D campus + track-circuit test line
Renewal: new build + research renewal
Scenarios: model evals, compute commons, governance hall
Risk: controls pending, 5th-ring crossing needs study

Core Metrics, Recalculation and Evidence Chain

All values recomputable from geometry/*.geojson in EPSG:4548

Recalculate when official data arrives: exact polygons, FAR, height, density, green ratio, setback, road redlines, heritage scope

Boundary: provisional rough polygons · recalculate after official polygons · diagram is explanatory; authoritative data is GeoJSON/JSON

AI Scenarios & Operation Board

一轴三段两翼十二节点；12场景卡；4测试验证场景；6画像；4地标
分期：近期（大钟寺+主轴南段）→ 中期（原点社区）→ 远期（众智园）
待补：官方 polygon、控规条件、道路红线、权属、市政与文保资料
