

# JingZhang Open Dual-Rail Belt

Heritage Rail × Digital Rail

With the century-old Jing-Zhang railway as the Heritage Rail and data and compute as the Digital Rail

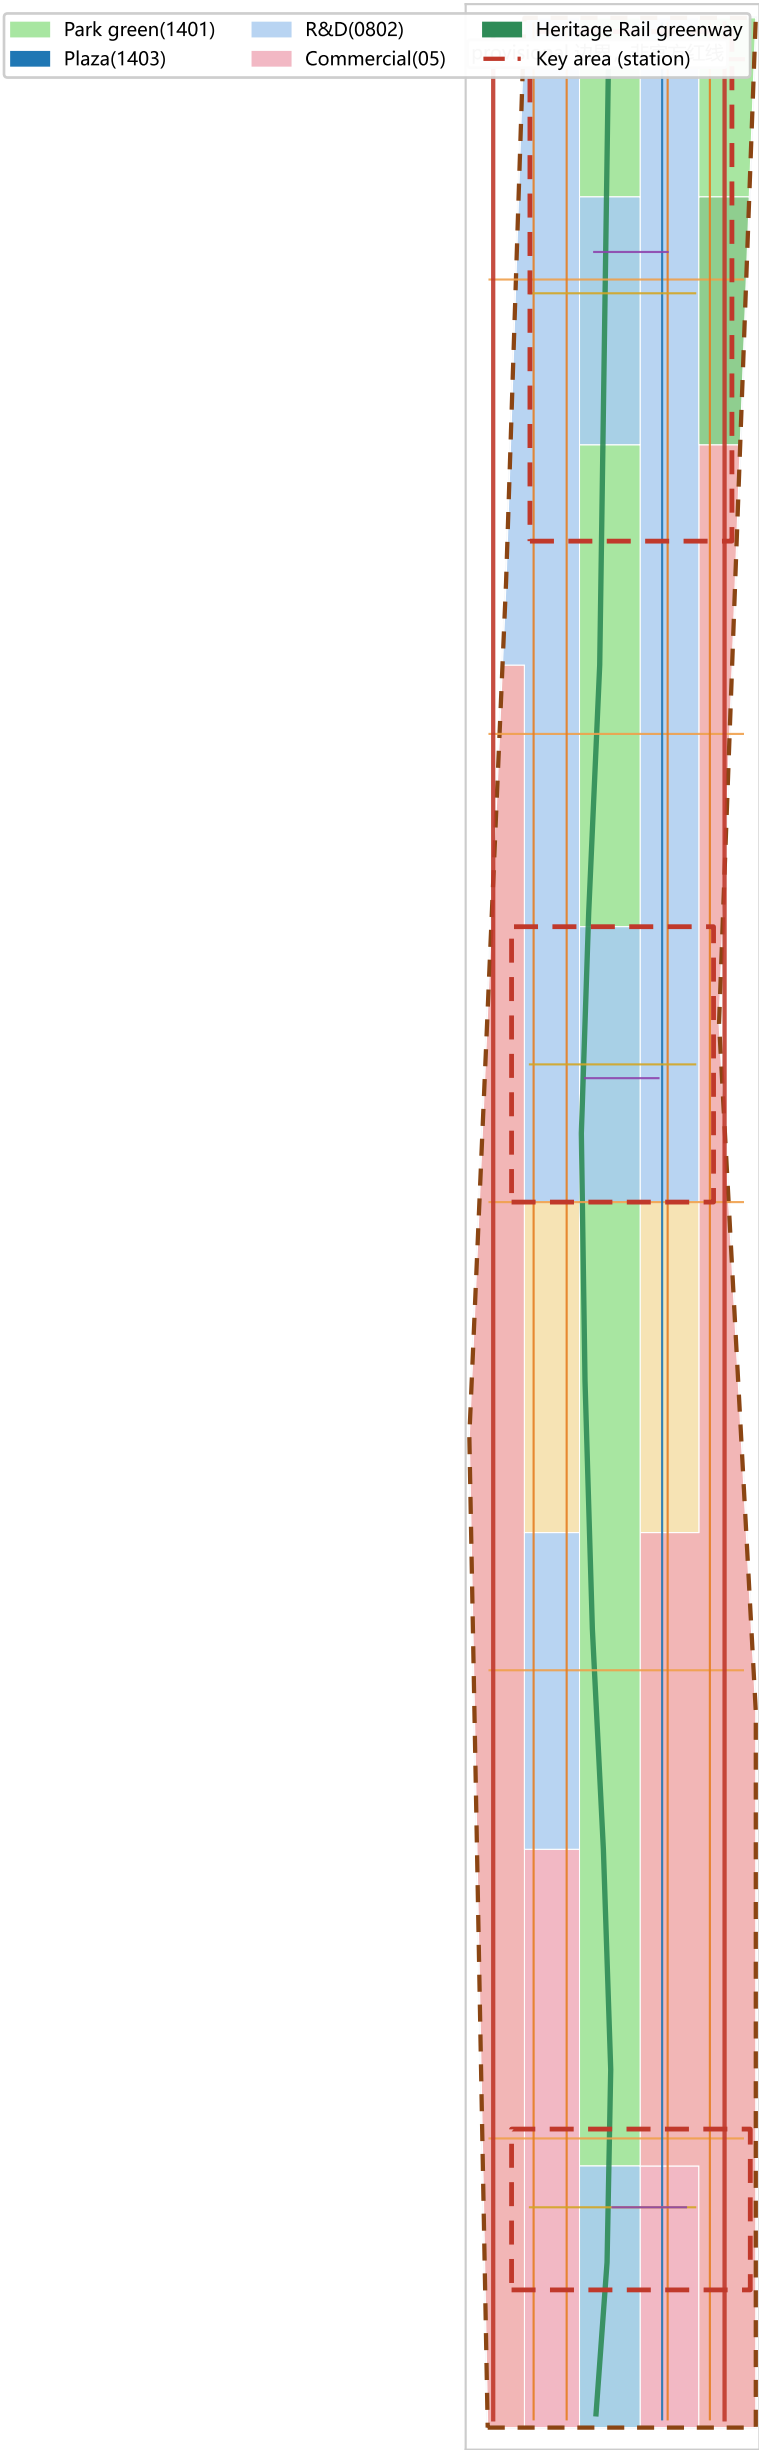

Centennial Jing-Zhang AI Innovation Belt Urban Design Open Call · Formal Package

Generated by AI agent · Contributor GitHub: jiChen528

Boundary is provisional\_constraint, display only, not official redline

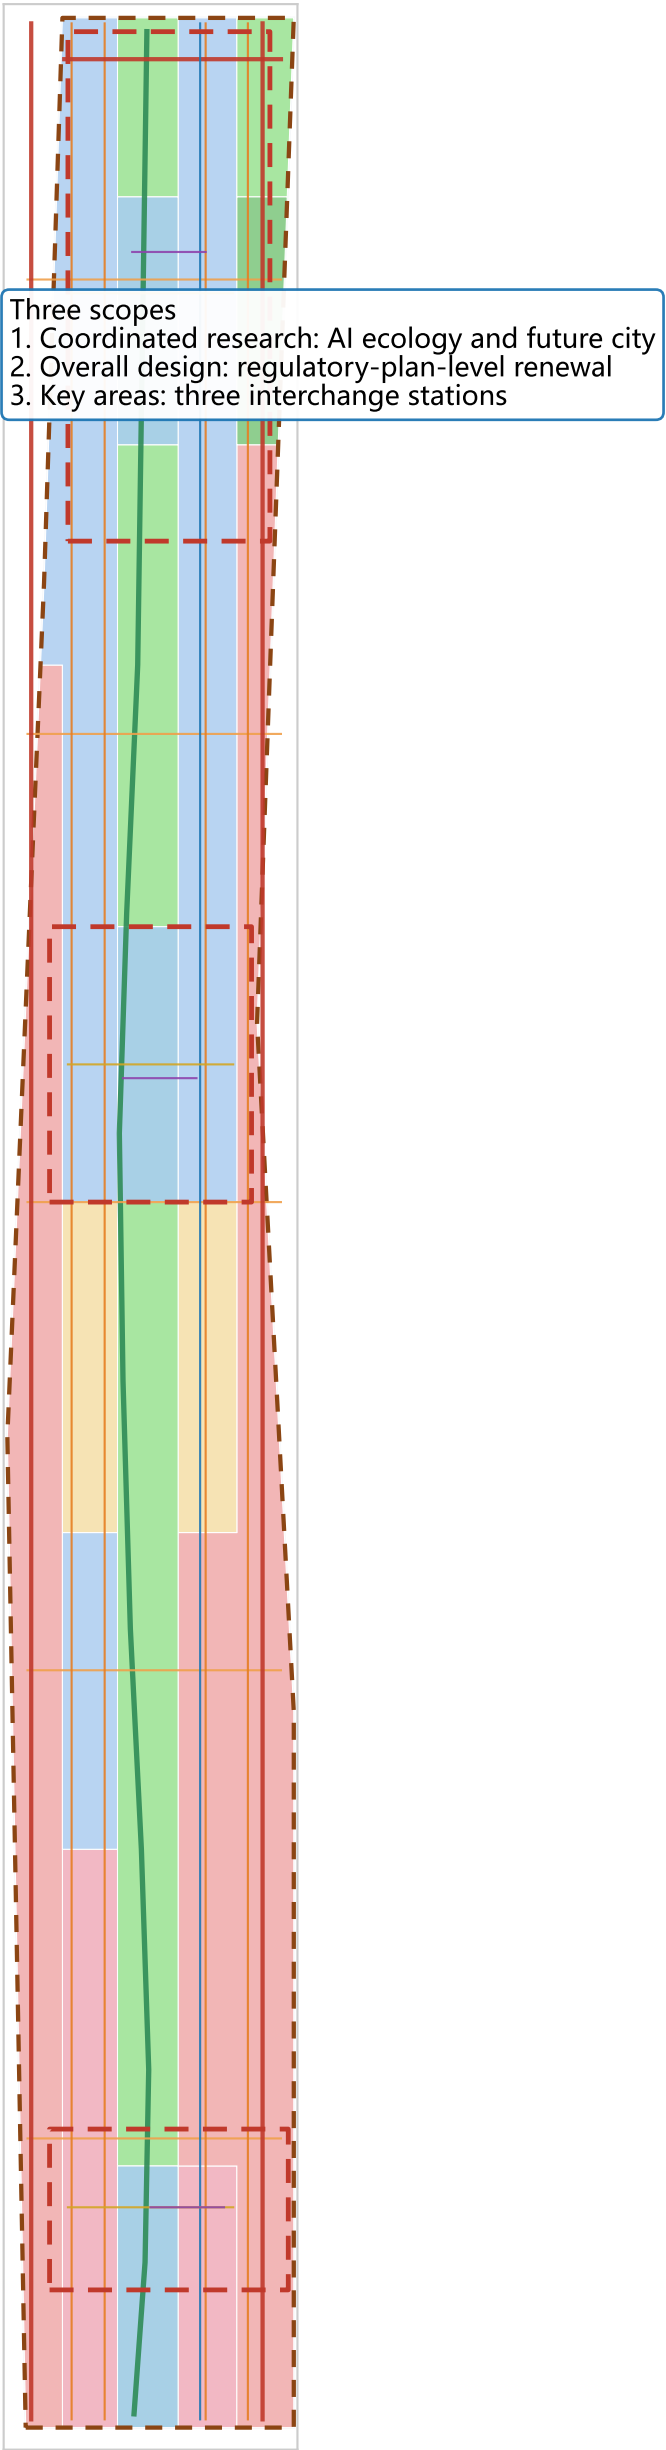

# Overall Concept and Spatial Structure

One belt · dual rails · three cores · two wings · multi nodes

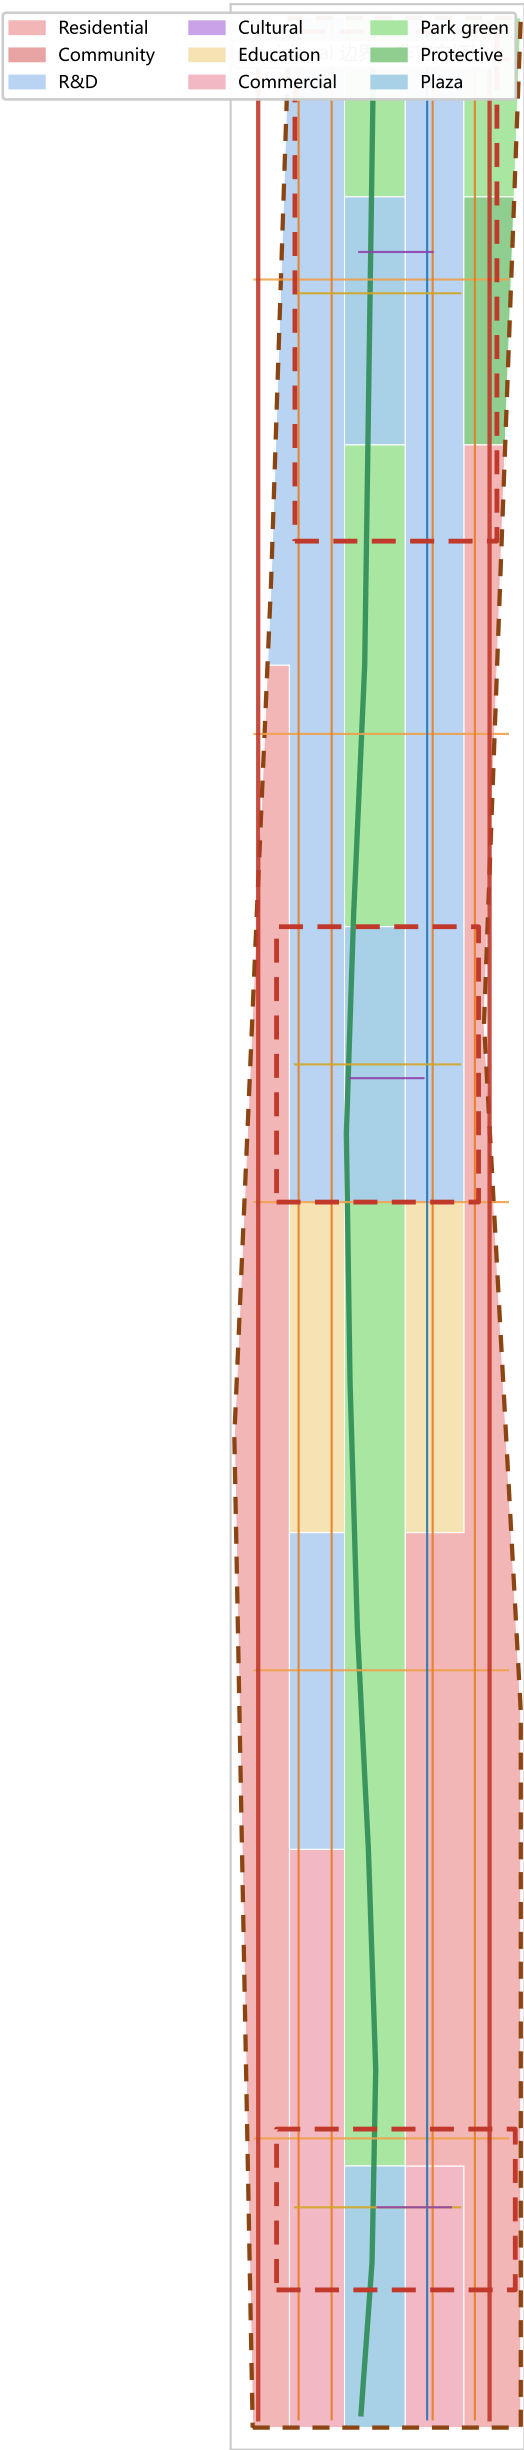

# Three-Level Scope Framework

Coordinated(43.6km2) → Overall(11.4km2) → Key areas(368.4ha)

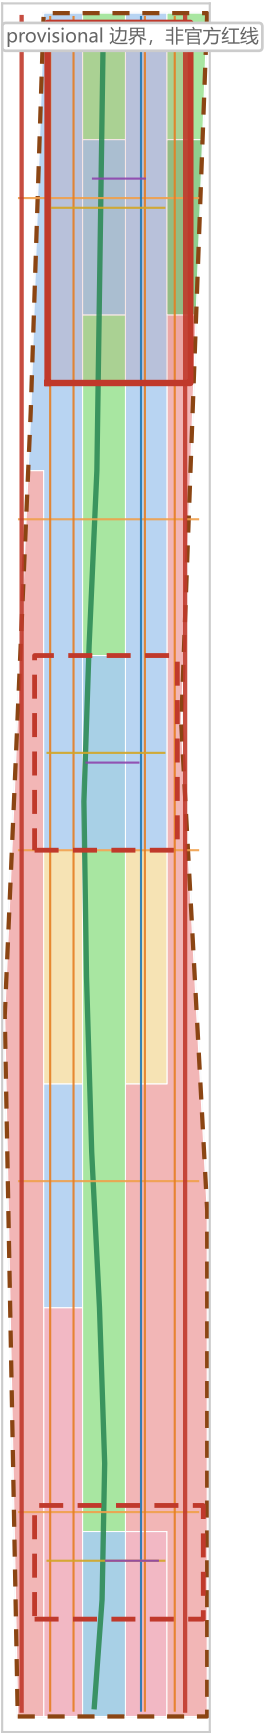

# Land Use and Building Scale

Seamless coverage; retention/renovation/new distinguished

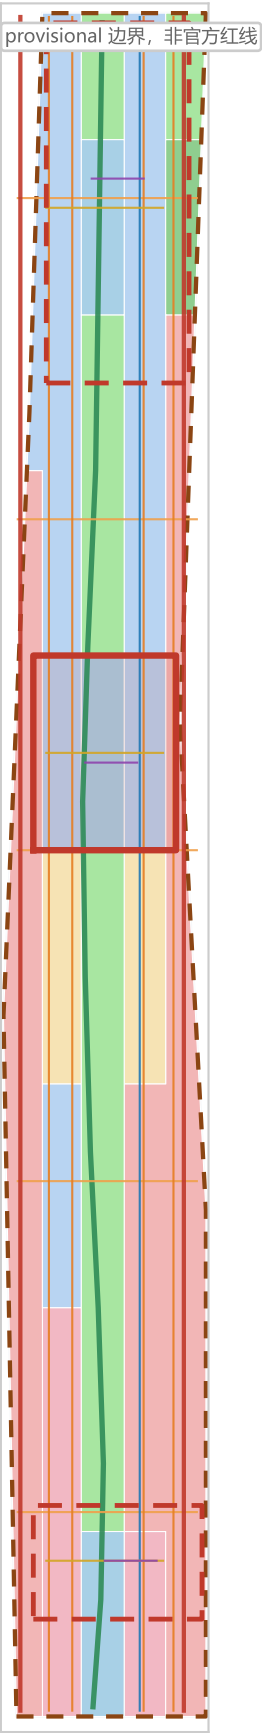

Detailed Design of Three Key Areas (Implementation-Plan Depth)

Zhongzhiyuan • Acceleration

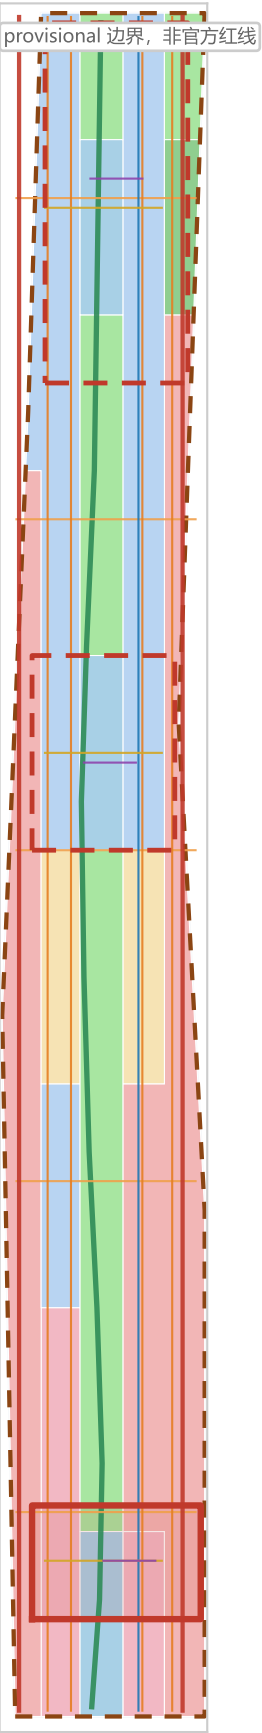

Full-stack self-reliance · standards · Qinghe corridor

Origin Community • Hub

Open-source ecology · conversion · talent · culture

Dazhongsi • Gateway

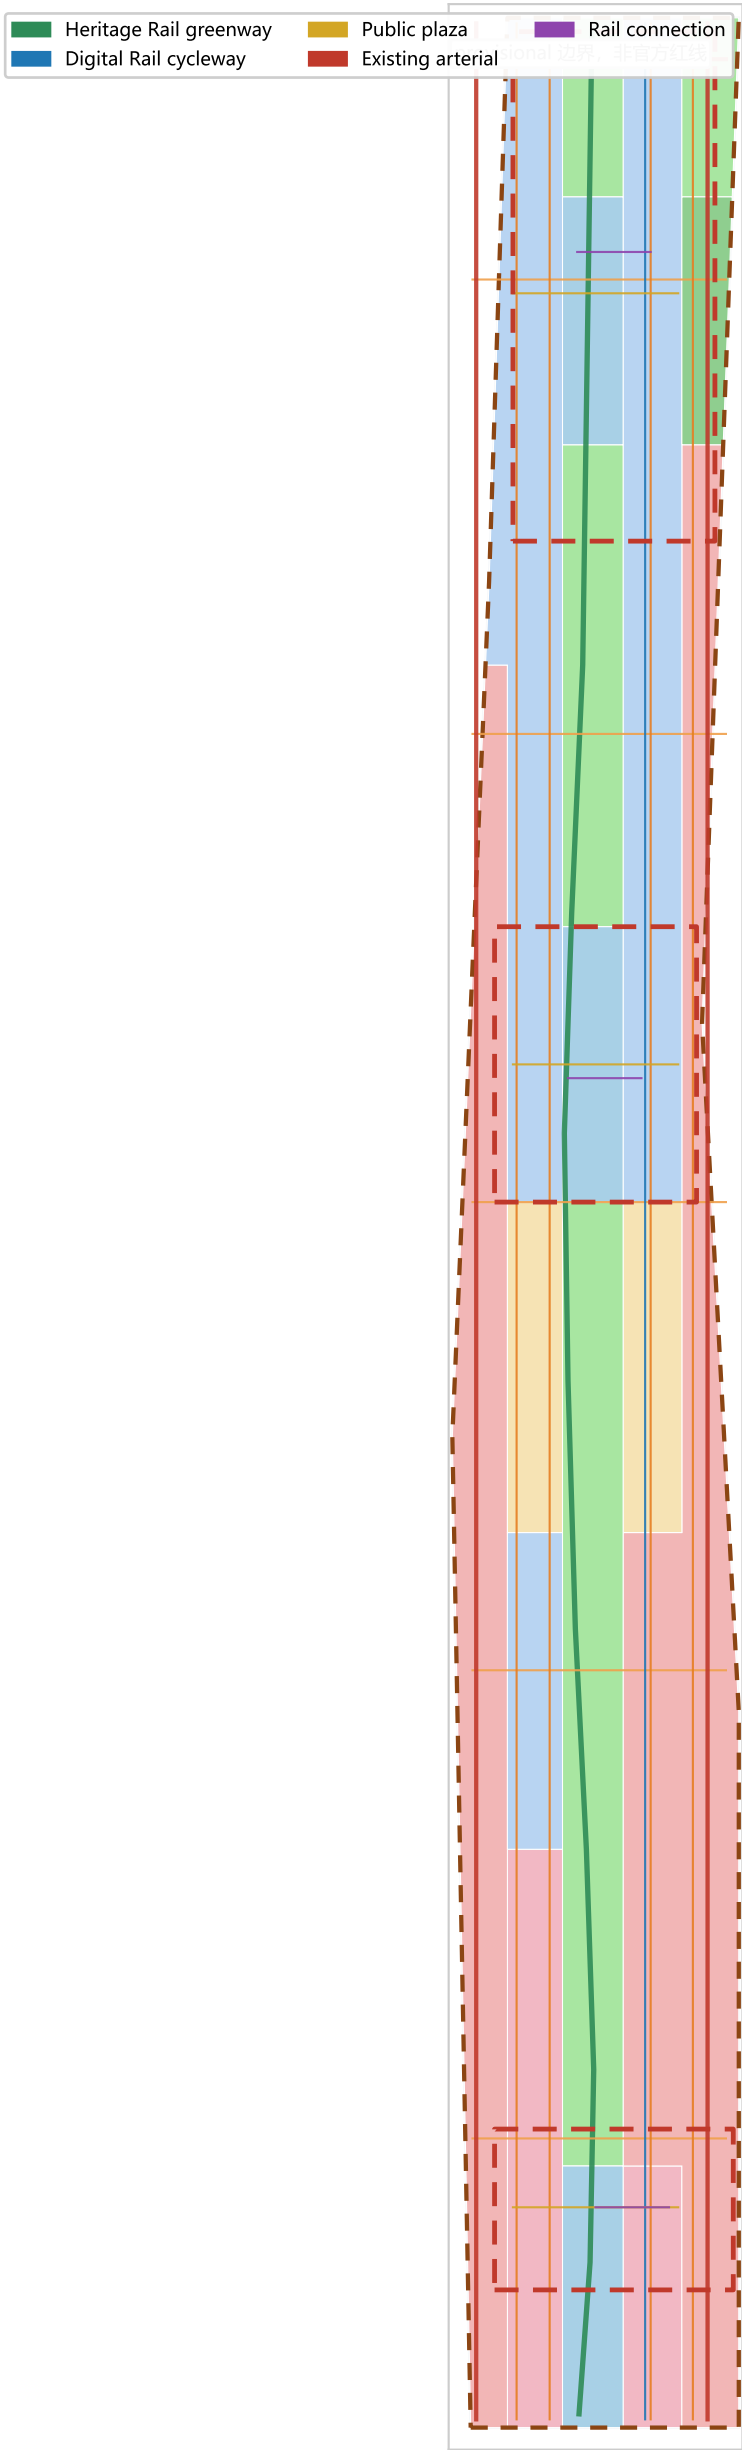

AI-native business · data factors · international exchange

Key areas are provisional polygons; recalculate when official redline is supplied

# Transport, Rail and Blue-Green Composite System

Slow traffic first · rail connection · green priority

# Renewal Projects, Implementation Policy and Phasing

Near/medium/long term; axis first, wings later, low-disruption

| No.   | Project                      | Type                  | Phase  | Dependencies                       |
|-------|------------------------------|-----------------------|--------|------------------------------------|
| JZ-01 | Heritage park slow-traffic g | Public/transport      | Near   | Redline, underpass review          |
| JZ-02 | Qinghe low-carbon innovat    | Blue-green            | Near   | River blue line, ecology           |
| JZ-03 | Near-campus conversion st    | Renewal               | Near   | Campus boundary, ownership         |
| JZ-04 | Dazhongsi four-quadrant c    | Station/slow traffic  | Near   | Station, utilities                 |
| JZ-05 | AI services and edge-comp    | New infrastructure    | Near   | Energy, compute, safety            |
| JZ-06 | Global AI event-week route   | Operation/branding    | Near   | Permits, event safety              |
| JZ-07 | West Zhongguancun wing       | Renewal               | Medium | Ownership, regulatory, municipal   |
| JZ-08 | East Xiaoyuehe wing comp     | Scenarios/residential | Long   | Regulatory, residential, ownership |

Operation: DualRail Festival, developer community, safety sandbox, edge-compute stations, open scenarios and conversion pathways. All arrangements are conceptual suggestions.

# Metrics, Area Recalculation and Compliance

Known metrics recalculated from GeoJSON in EPSG:4548

| Indicator              | Recalculated value | Formula/source                              |
|------------------------|--------------------|---------------------------------------------|
| Overall design area    | 11,412,825 m²      | polygon_area(site_boundary) in EPSG:4548    |
| Green ratio            | 19.6%              | green_space_area_sqm / site_area_sqm        |
| Public space ratio     | 7.8%               | public_space_area_sqm / site_area_sqm       |
| Building density       | 12.8%              | building_footprint_area_sqm / site_area_sqm |
| Road centerline length | 87,467 m           | sum(line_length(roads)) in EPSG:4548        |
| Key area count         | 3                  | count(key_detailed_design_areas)            |

FAR and building height are unknown (pending official regulatory conditions).

# Risk, Copyright and Compliance

AI agent responsible for facts, sources, copyright, spatial data, indicators and expression

1. Boundary: site and key areas are provisional; recalculate when official redline is supplied.

2. Regulatory gaps: FAR, building height, road redline pending official conditions.

3. Ownership and municipal: conditions pending; conclusions downgraded to to-be-confirmed.

4. Privacy and ethics: data minimization, public sources, explainability, human review.

5. Copyright: all images, fonts, portraits and enterprise identities require clearance; HTML loads no remote resources.

6. Boundary clause: all spatial suggestions are conceptual suggestions or reference schemes for professional deepening.
