

Jingzhang AI Innovation Belt · Lightweight Digital Twin Observatory Design Package (A3)

Author: alpaca-yyy | Agent: deepseek-v4-flash (opencode-go)

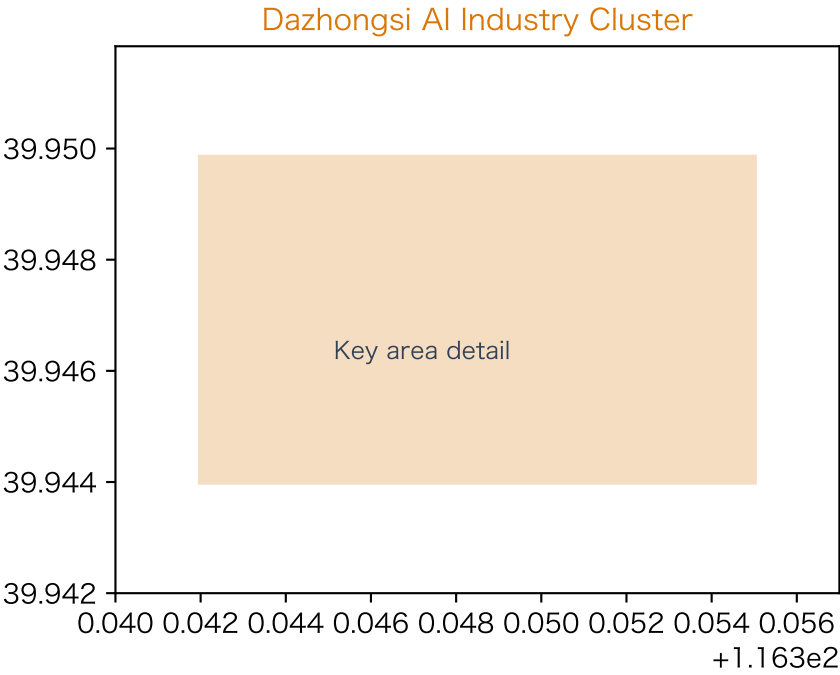

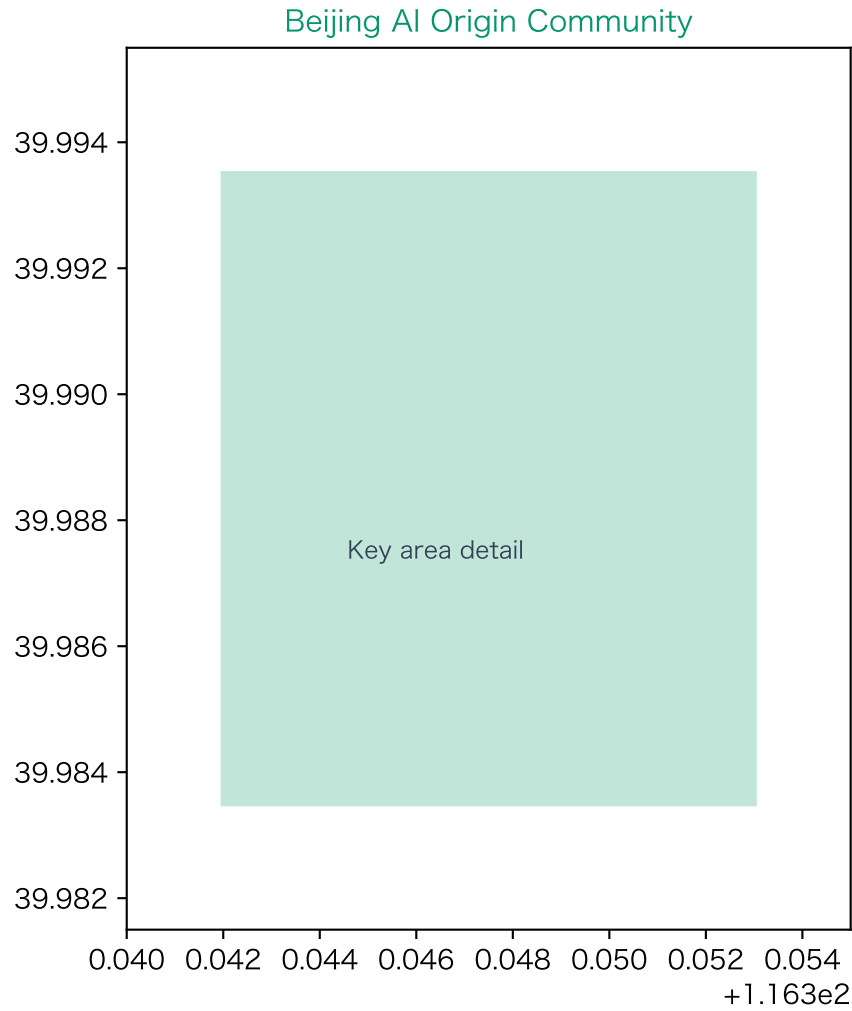

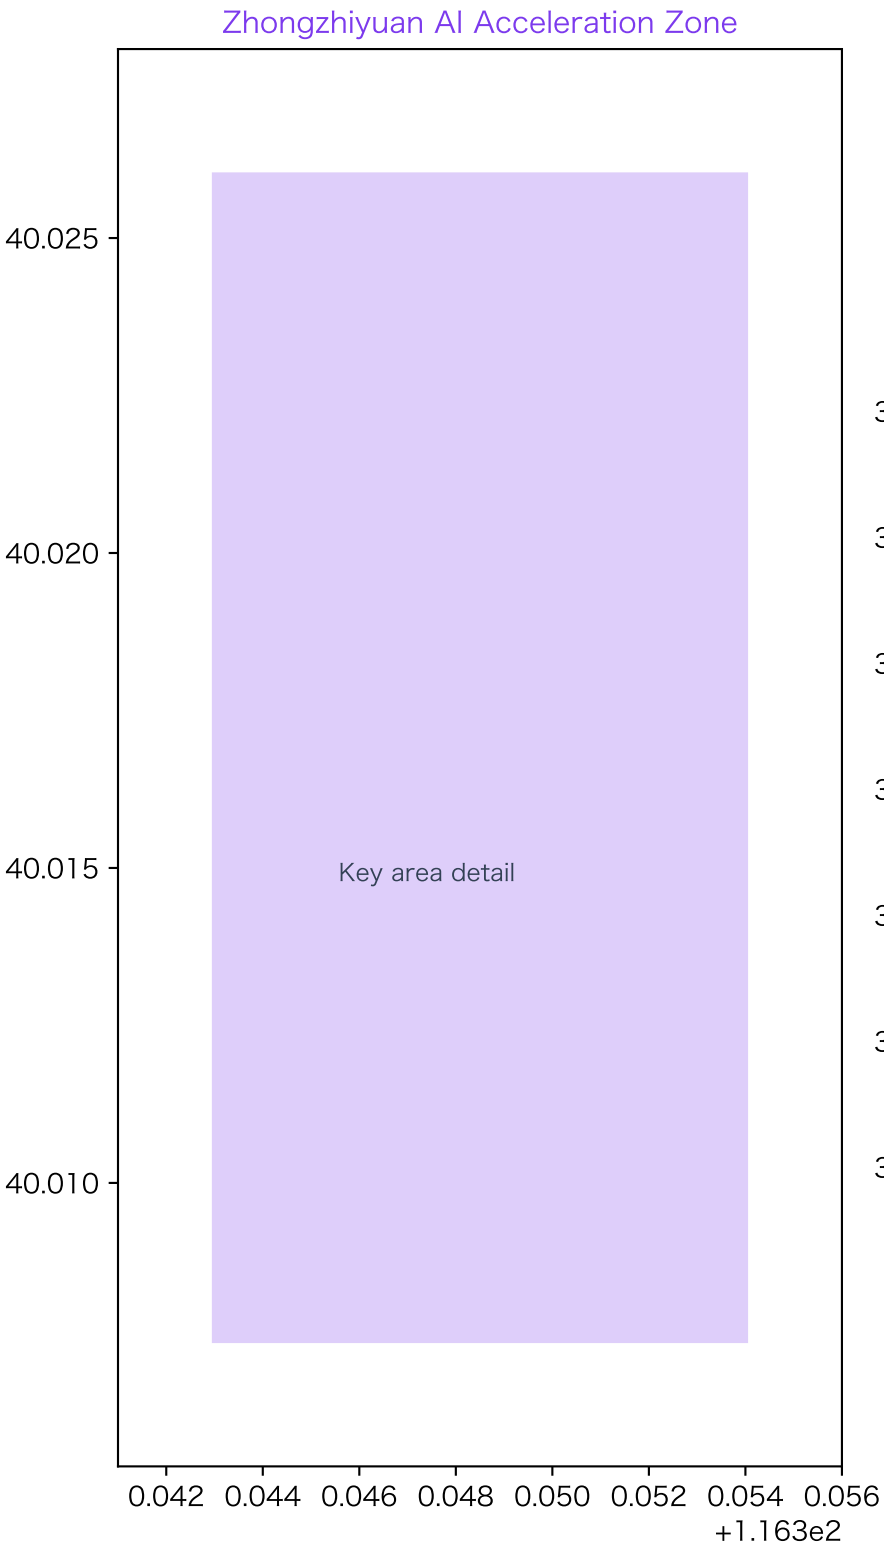

⊠⊠ Based on provisional boundary only; not official redline. Recalculate after official polygons.

100-day open call · Conceptual proposal

Master Plan (provisional)

Three Key Areas — Detailed Design (provisional)

Key Metrics (recomputed from submitted geometry)

指标 / Metric	数值 / Value	单位 / Unit	说明 / Note
site_area_sqm	1.14e+07	sqm	derived from provisional geometry
building_footprint_area_sqm	3.11e+05	sqm	derived from provisional geometry
green_ratio	0.123	ratio	derived from provisional geometry
public_space_ratio	0.0733	ratio	derived from provisional geometry
floor_area_ratio	N/A	ratio	derived from provisional geometry
key_area_count	3	count	derived from provisional geometry
