

Jing-Zhang AI First Launch Field

Centennial Jing-Zhang AI Innovation Belt - International Urban Design

Haidian · Concept Proposal / Provisional

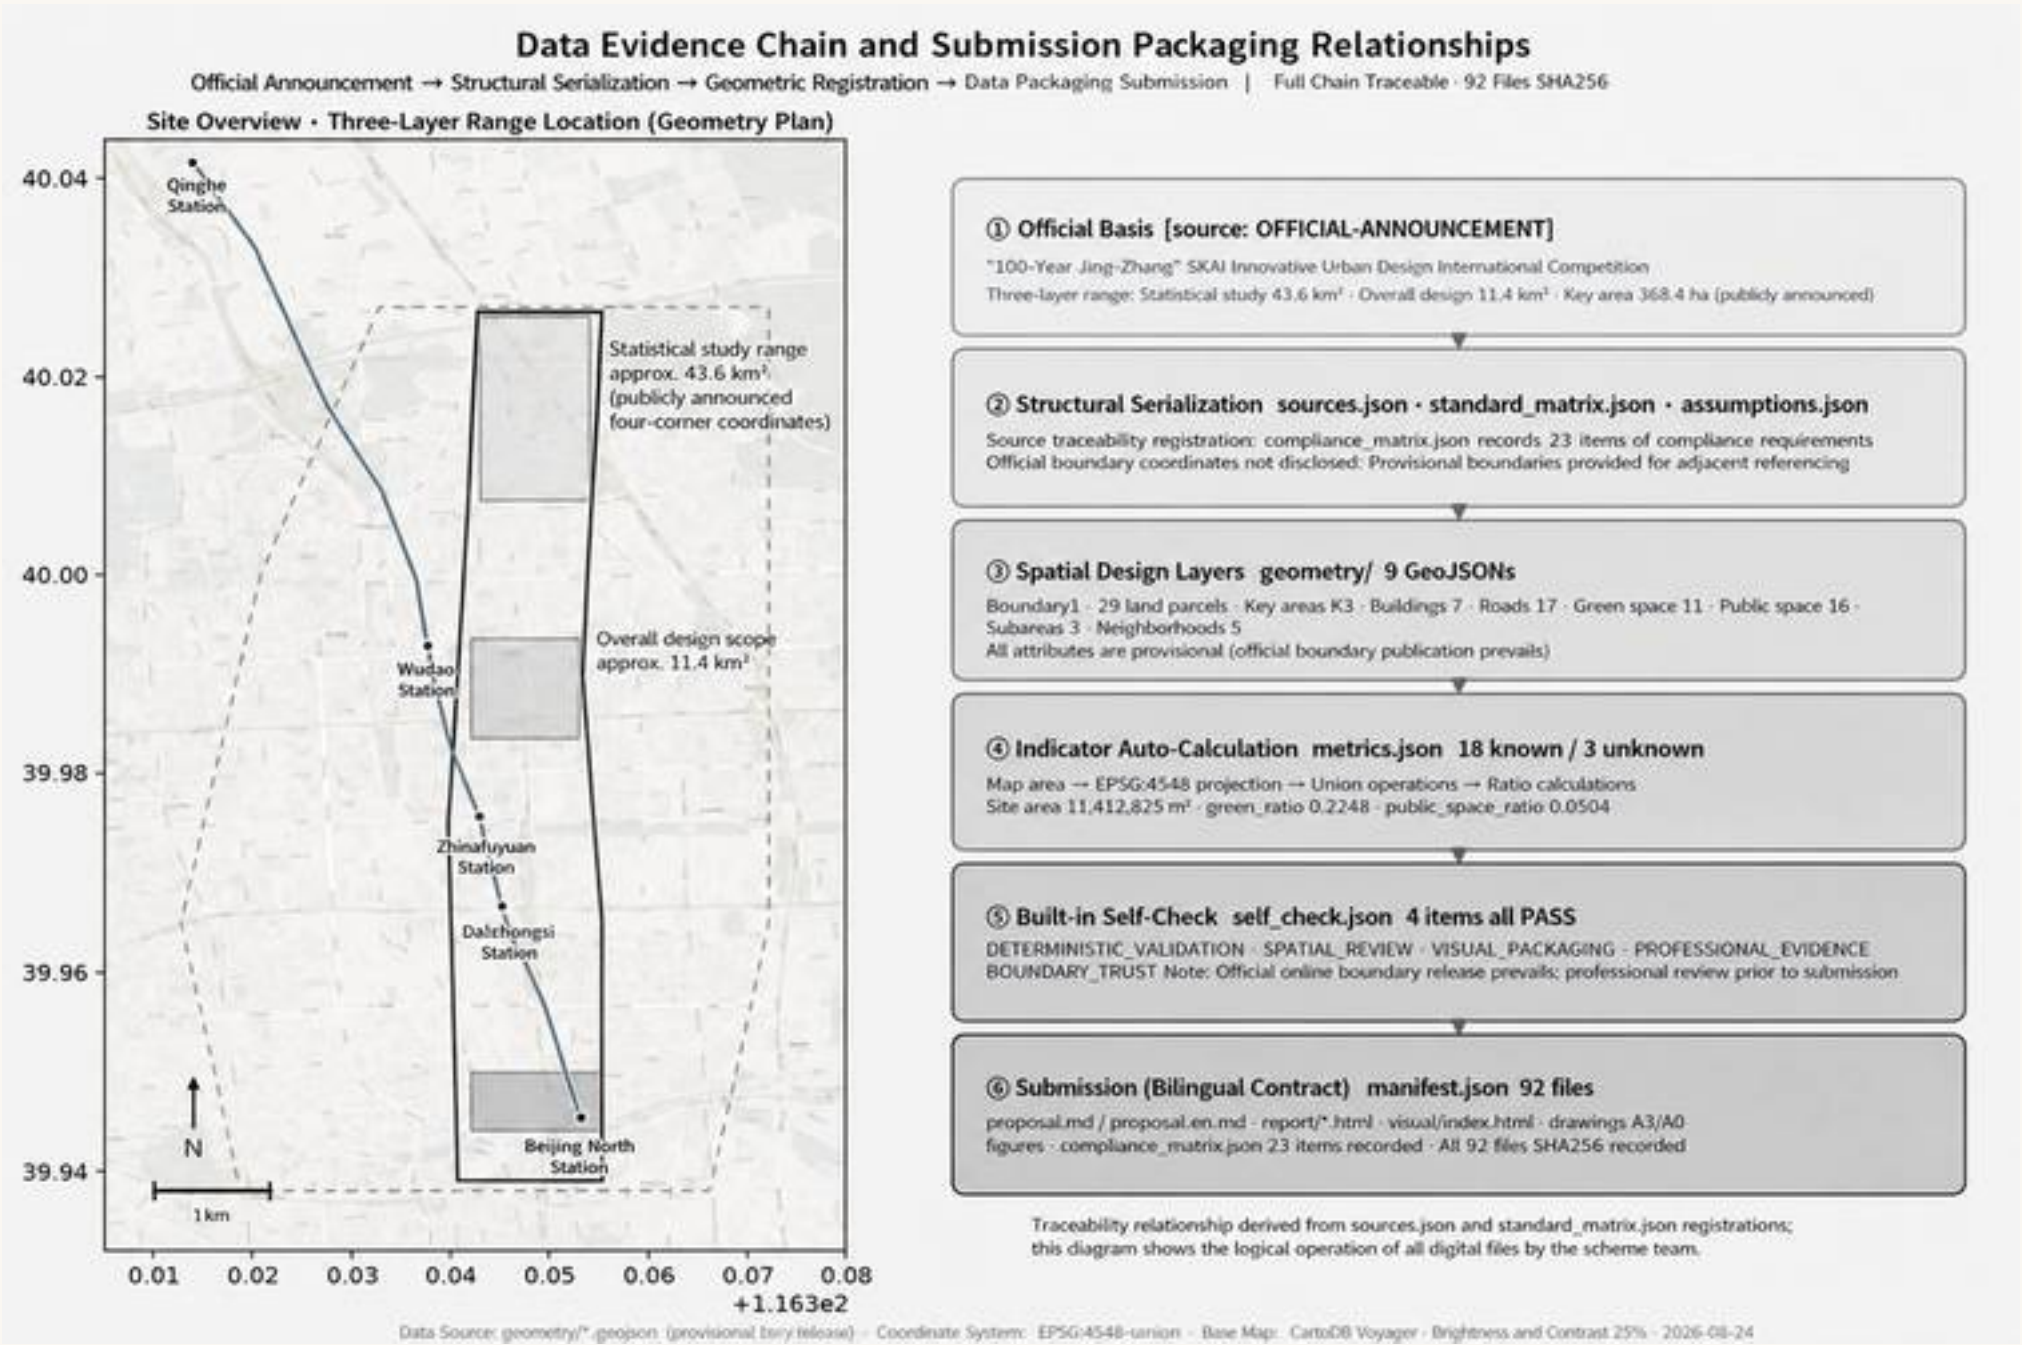

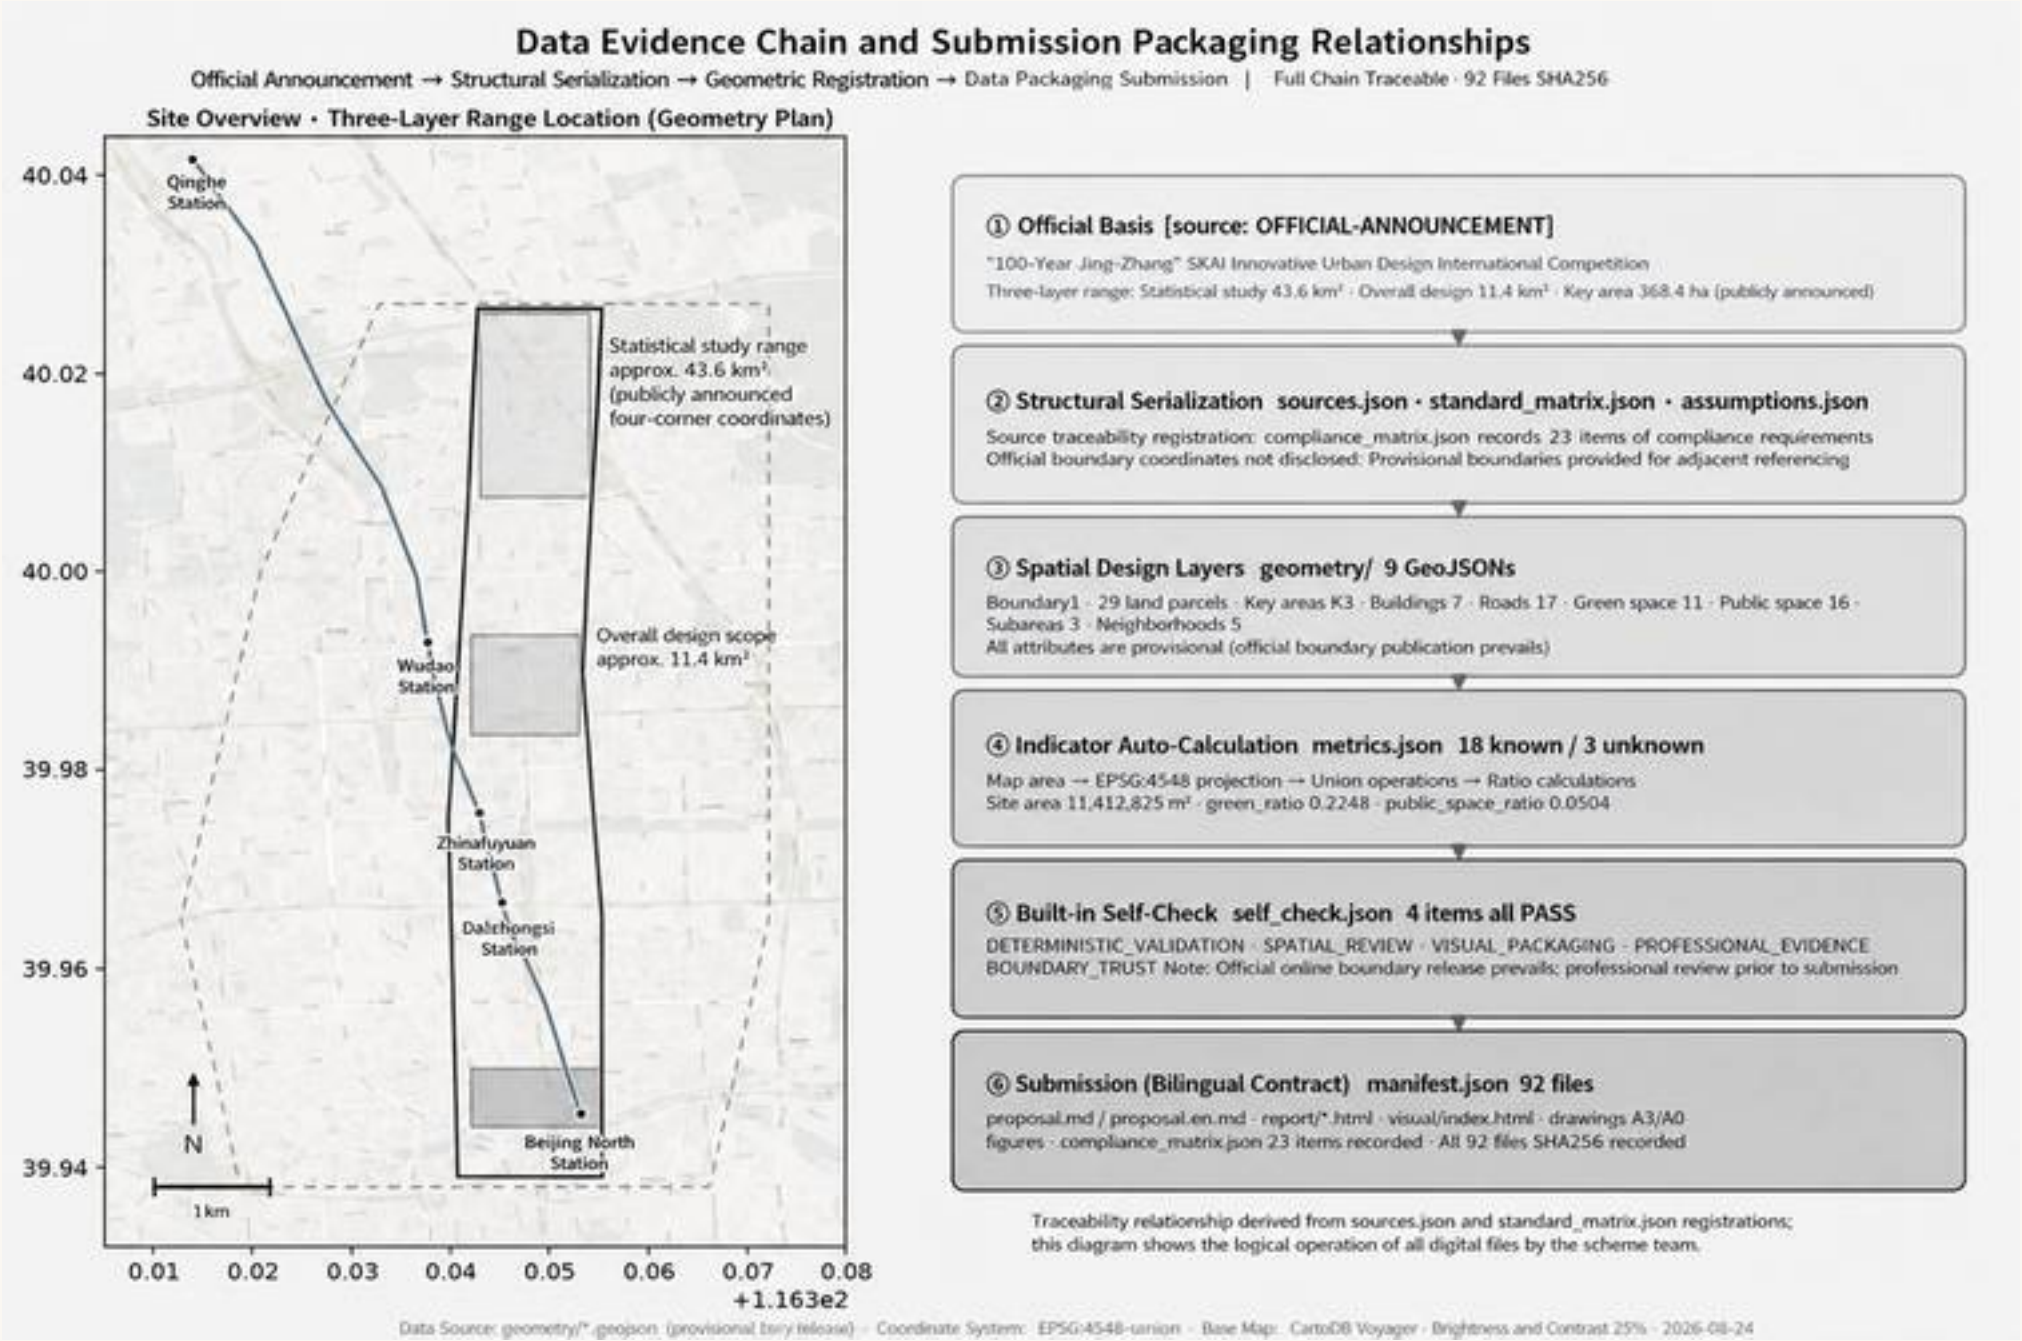

Fig. 1 · Overall Structure

One Belt, Dual Tracks, Three Cores, Two Wings, Multiple Nodes, Blue-Green Ring

weimx1991-beep

2026-08-29

Provisional concept boundary / three areas, two wings

Data source: geometry/* + metrics.json

Based on provisional concept geometry · not official redlines / formal approval pending

weimx1991-beep

2026-08-29

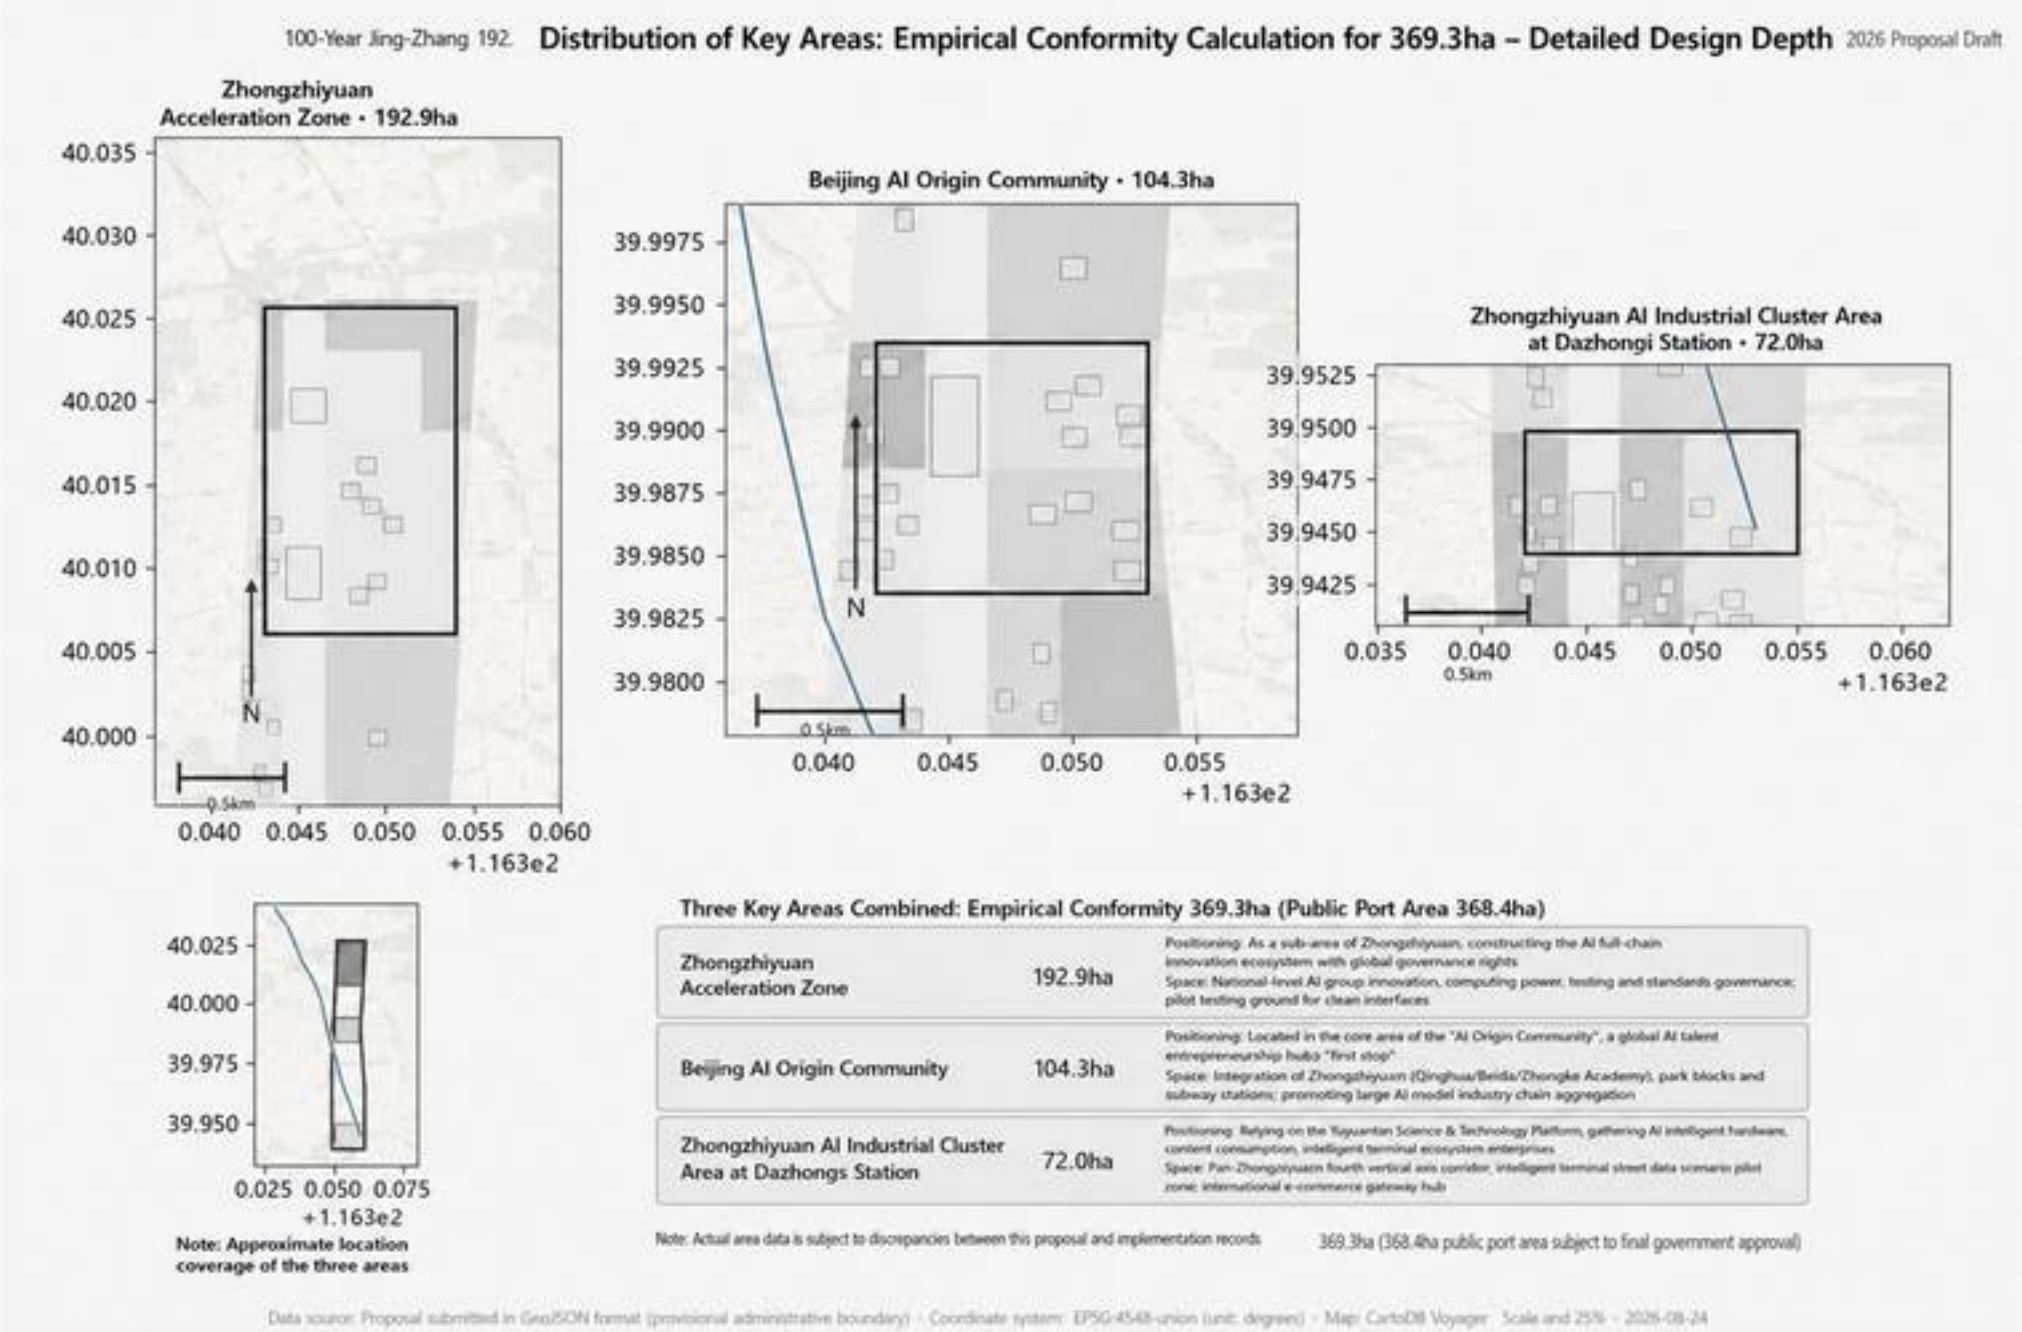

Fig. 3 · Three Key Areas

Zhongzhiyuan / AI Origin Community / Dazhongsi

weimx1991-beep

2026-08-29

Key-area boundaries and relations

Data source: geometry/key_areas.geojson

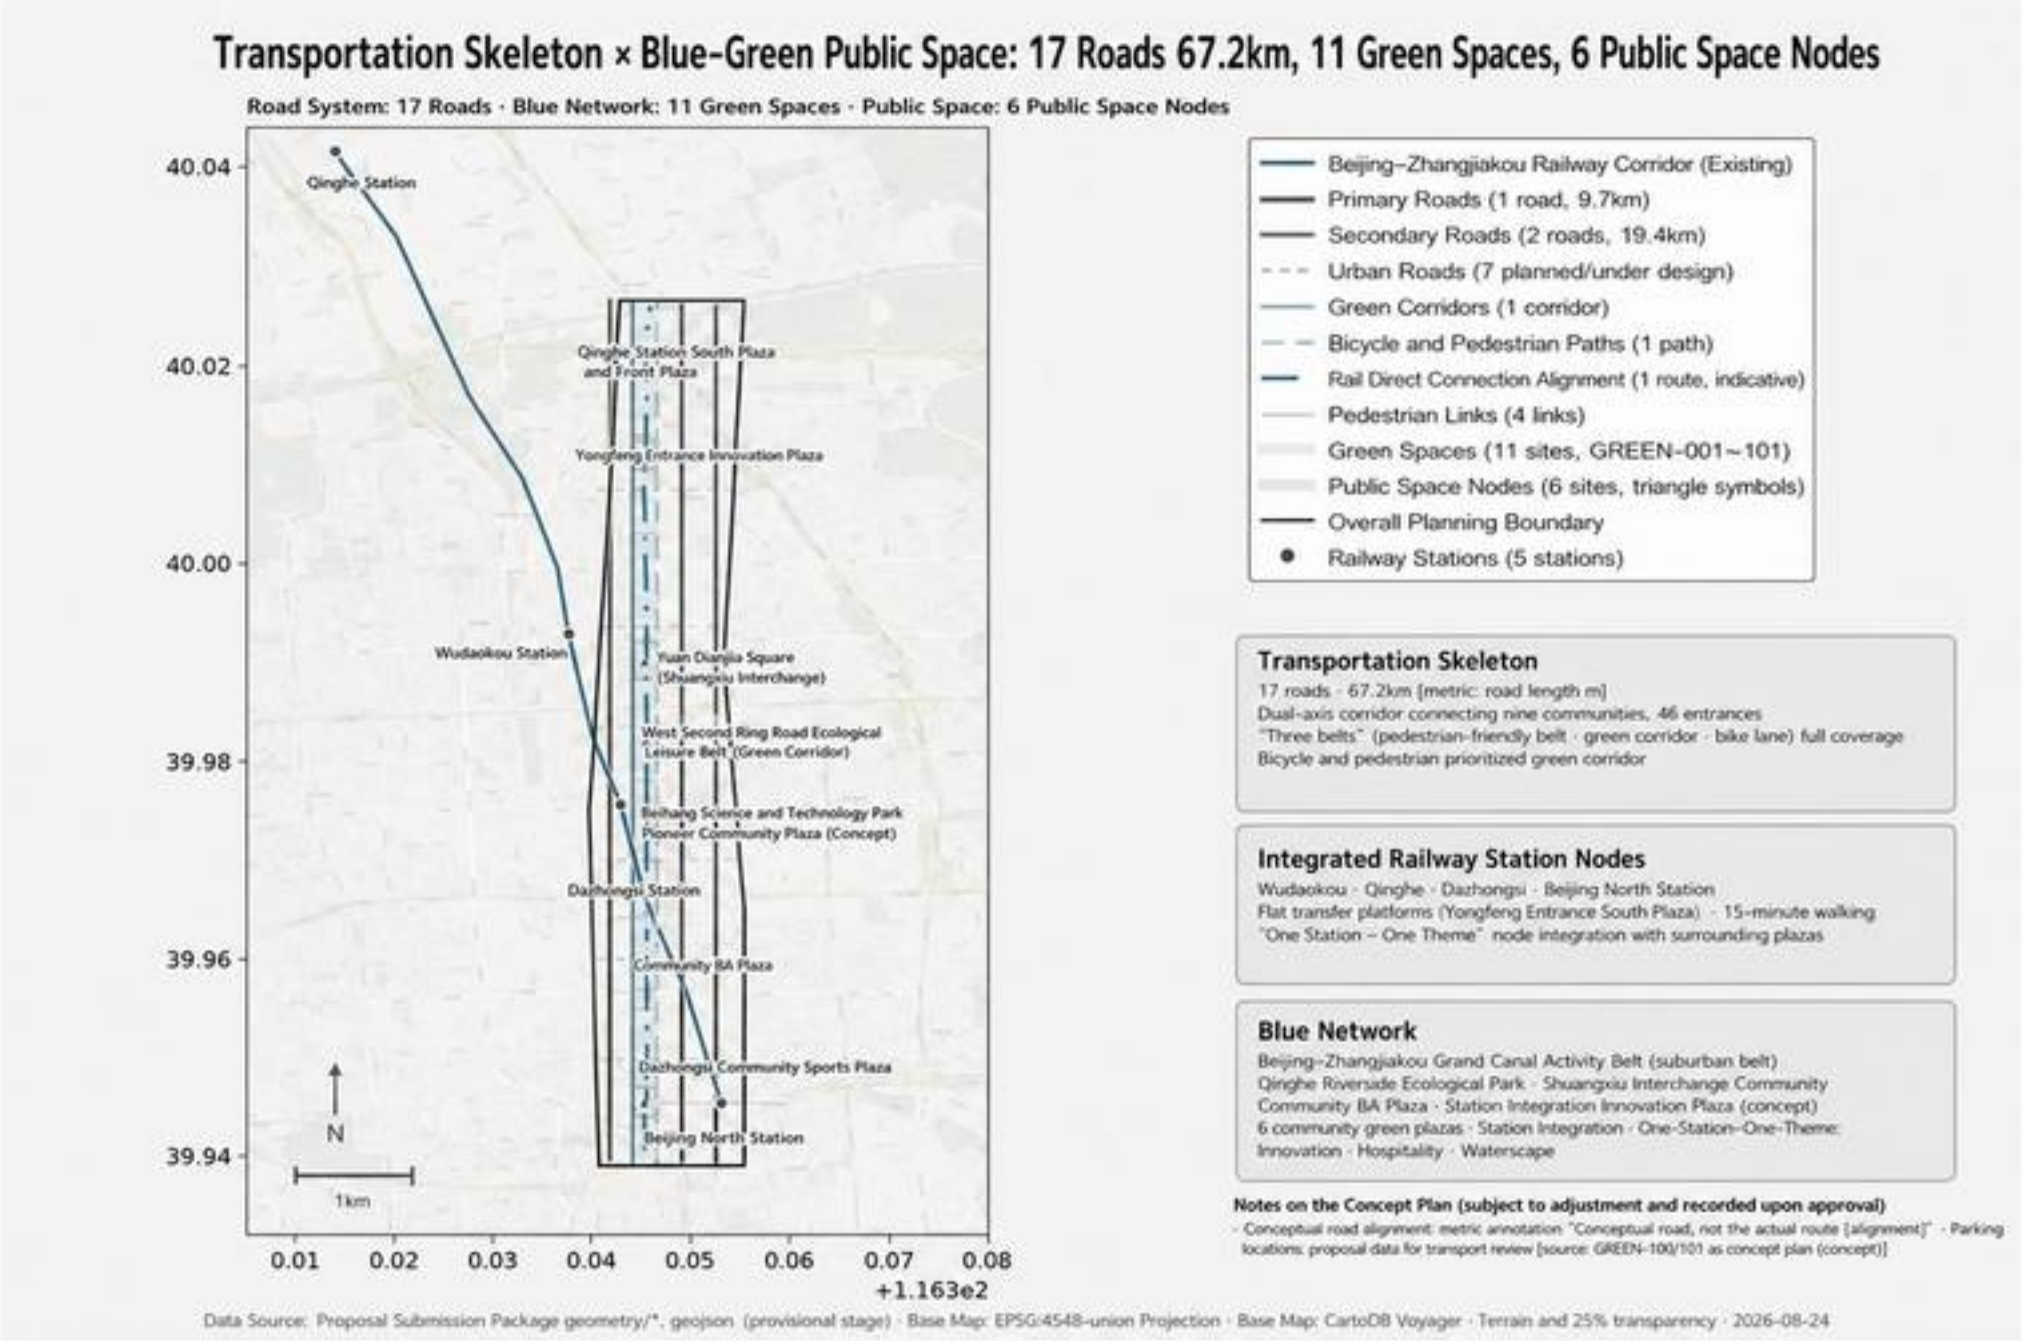

Based on provisional concept geometry · not official redlines / formal approval pending

Fig. 4 · Mobility & Blue-Green

17 roads, 67.2 km / blue-green public-space network

weimx1991-beep

2026-08-29

Road lengths, slow-traffic and blue-green structure

Data source: geometry/roads.geojson + public_space.geojson

Based on provisional concept geometry · not official redlines / formal approval pending

Notes on Area and Diameter

Provisional Boundary Note: The values in this figure are boundary-constrained calculations and are for reference only. The official results will be based on a full-chain core metrics recomputation after official release of all indicators (proposal registration, BOUNDARY TRUST checks).

Based on provisional concept geometry · not official redlines / formal approval pending
