

AI MAIN STREET

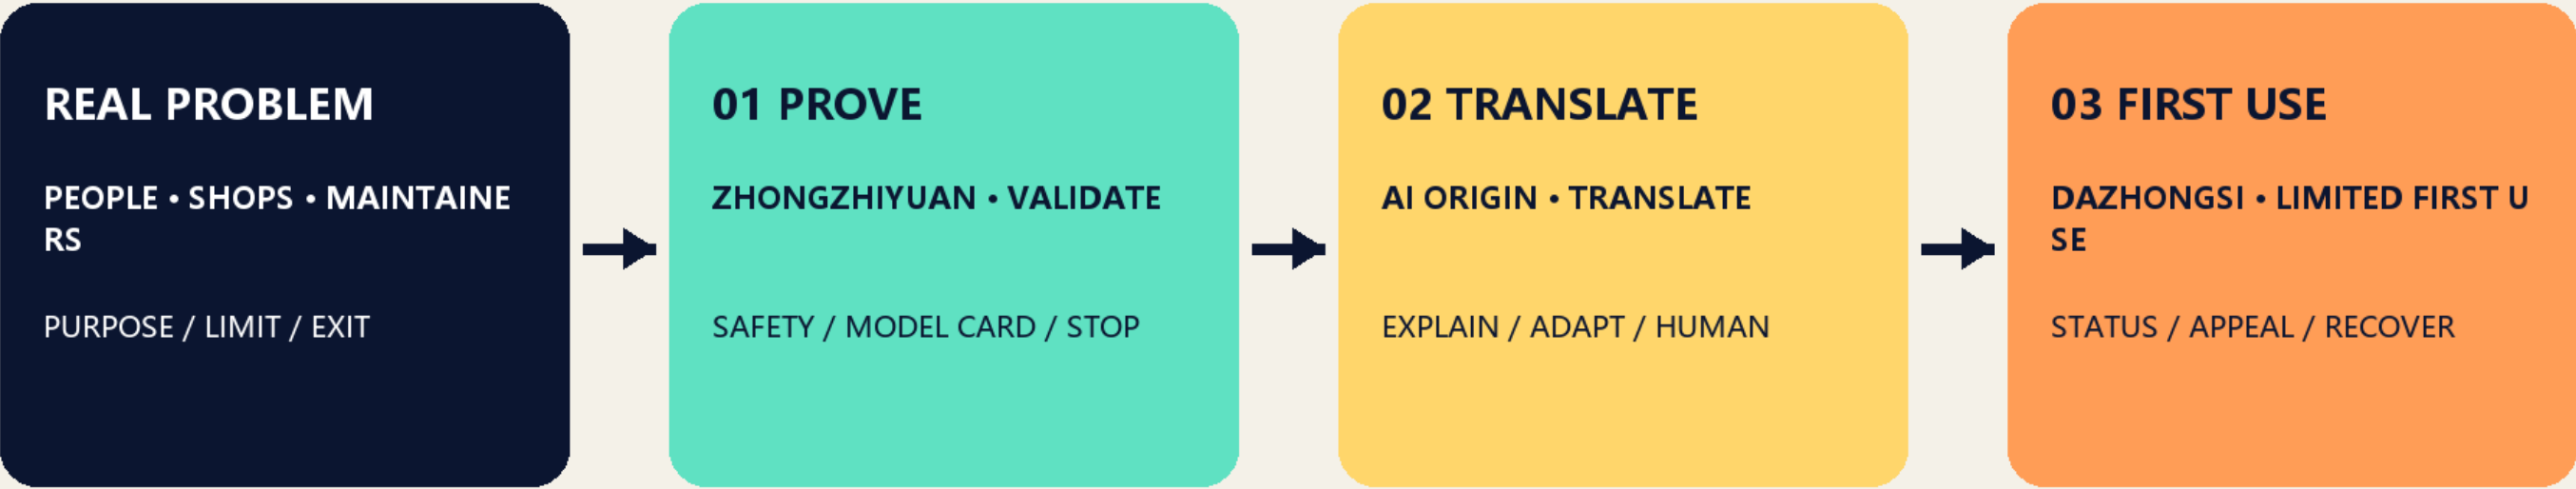

PROVE • TRANSLATE • FIRST USE

One Street Pass closes the last 500 metres from AI lab to street corner.

PROVISIONAL CONCEPT • NOT AN OFFICIAL PLAN

ONE STREET PASS • THREE STAMPS • SEVEN RIGHTS

PROVE • TRANSLATE • FIRST USE

CONCEPT PROTOCOL: ANY REAL PILOT REQUIRES AUTHORISATION, PROFESSIONAL REVIEW AND AFFECTED-USER PARTICIPATION.

The Street Pass combines three spatial gates, seven rights, human ownership, data limits and exit records.

01 / OVERALL CONCEPT

THE LAST 500 METRES FROM LAB TO STREET

AI MAIN STREET / v2.0

AI MAIN STREET
FROM LAB TO STREET CORNER

ONE STREET PASS • THREE STAMPS • SEVEN RIGHTS

01 PROVE

ZHONGZHIYUAN / VALIDATE

02 TRANSLATE

AI ORIGIN / TRANSLATE

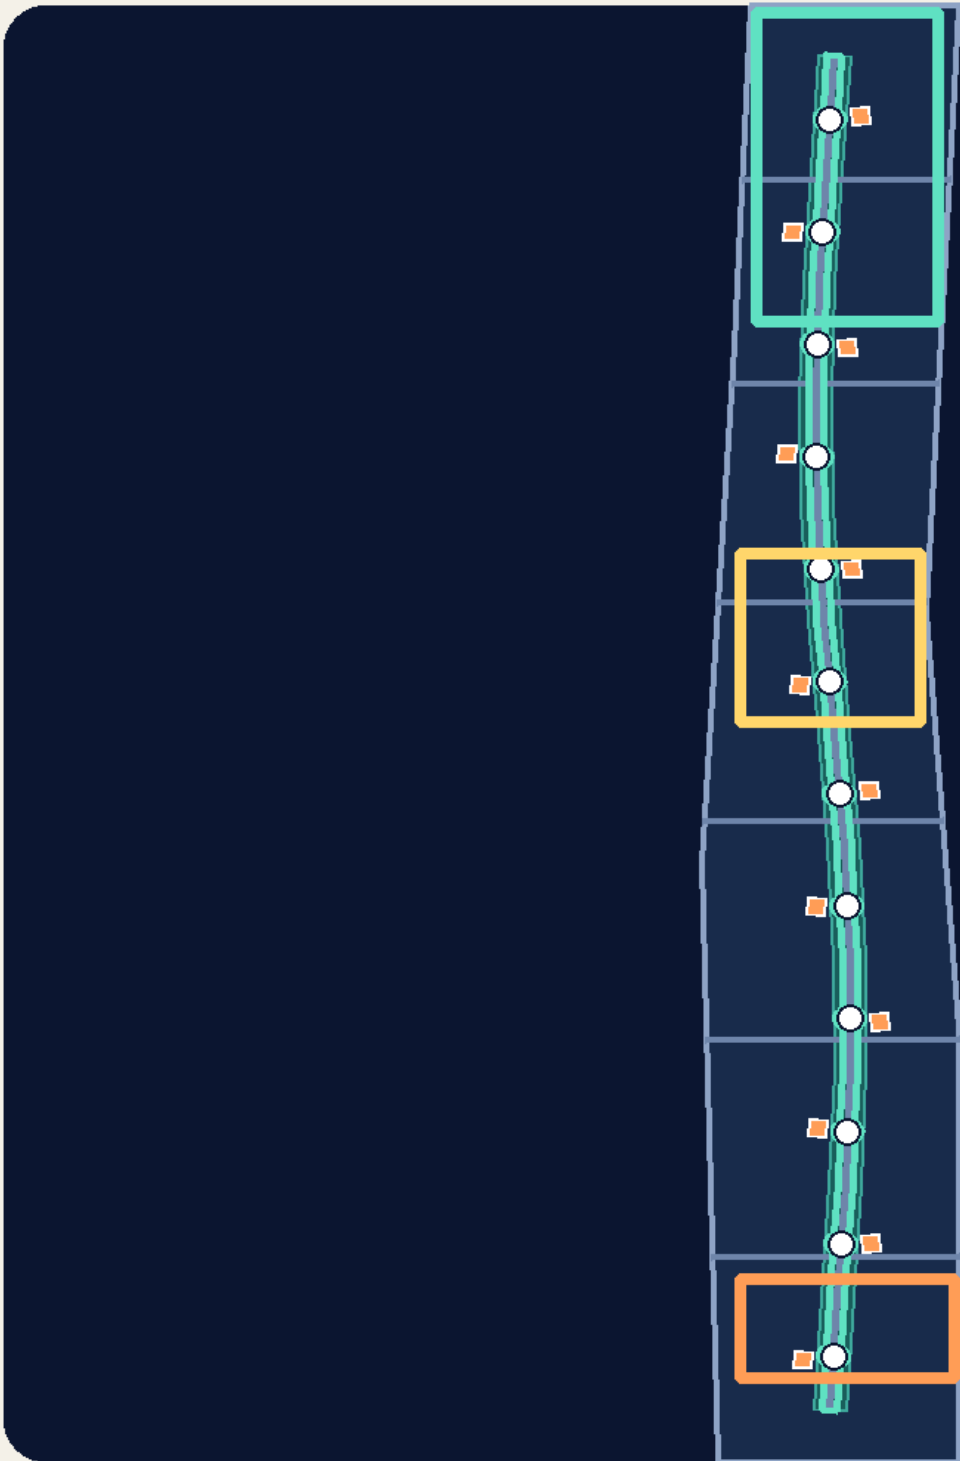

03 FIRST USE

DAZHONGSI / FIRST USE

PUBLIC BOTTOM LINE

HUMAN REVIEW • NON-AI PARITY • APPEAL • EXIT

One main line, three first-use yards, two service wings and twelve street nodes.

PROVISIONAL BOUNDARY • CONCEPT ONLY • RECOMPUTE WITH OFFICIAL DATA

02 / SPATIAL STRUCTURE

FIVE PROGRAM BANDS SUPPORT THREE GATES

AI MAIN STREET / v2.0

0802 OPEN R&D + VALIDATION

CONCEPT PROGRAM / NOT STATUTORY

0804 LEARNING + TRANSLATION

CONCEPT PROGRAM / NOT STATUTORY

0702 COMMUNITY SERVICE

CONCEPT PROGRAM / NOT STATUTORY

05 FIRST-USE MARKET

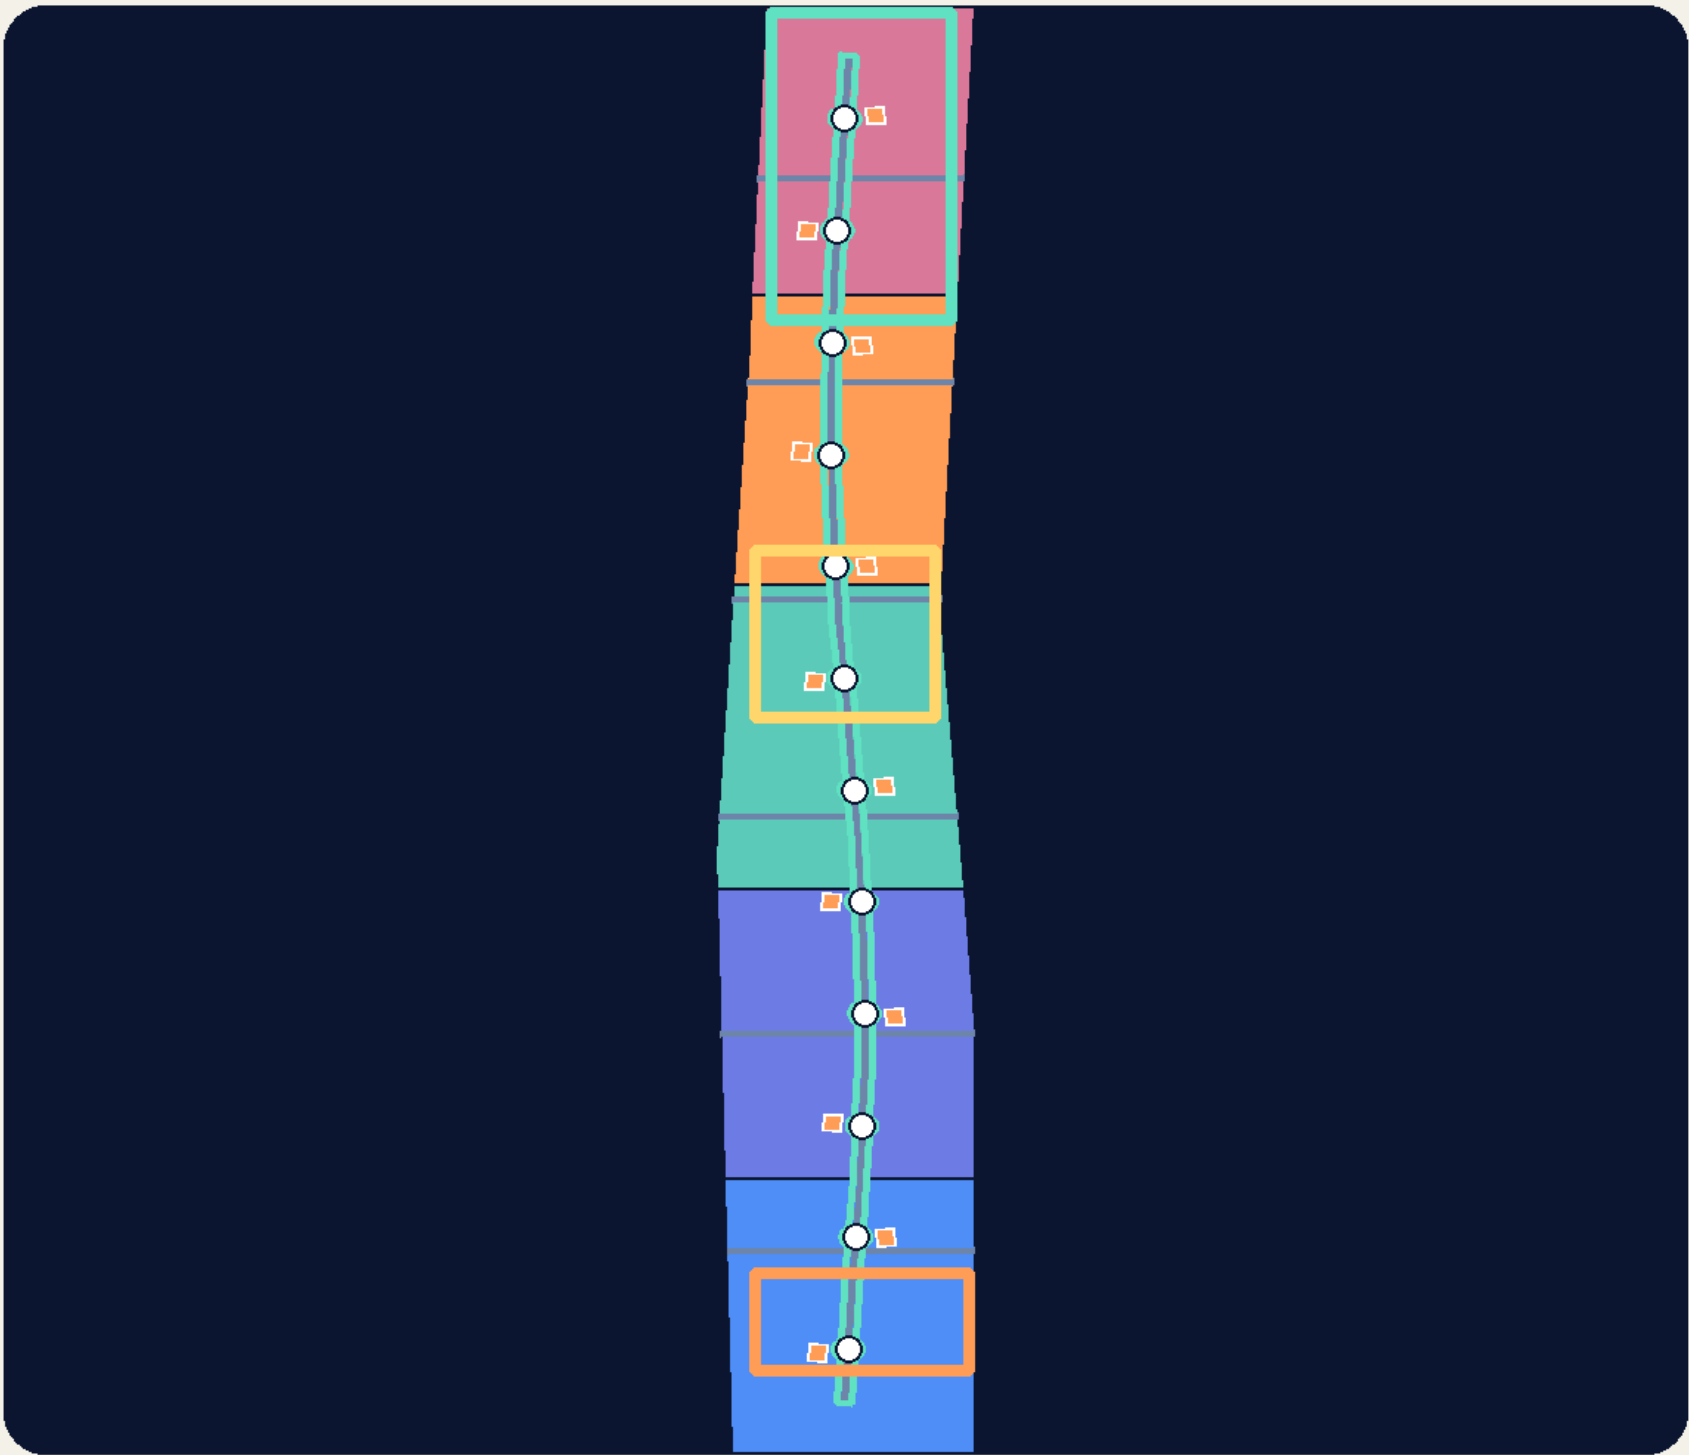

CONCEPT PROGRAM / NOT STATUTORY

0701 LIFE + TALENT SUPPORT

CONCEPT PROGRAM / NOT STATUTORY

SHARED EDGES COVER THE PROVISIONAL SITE; RECOMPUTABLE WITH OFFICIAL DATA.

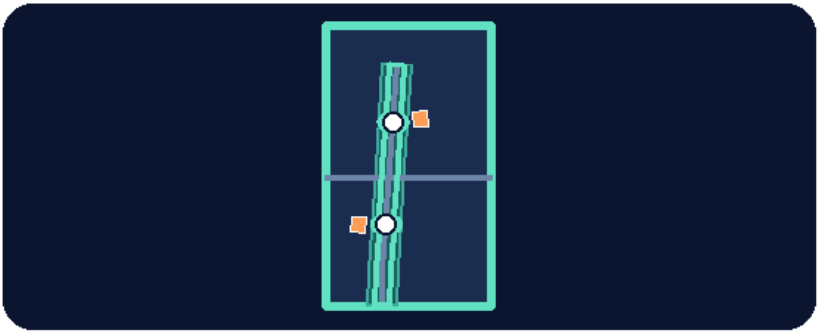

Five conceptual program bands use shared edges and remain recomputable.

Validate at Zhongzhiyuan, translate at AI Origin, first-use at Dazhongsi.

04 / WALKING + BLUE-GREEN

A PUBLIC LINE THAT WORKS WITH OR WITHOUT AI

AI MAIN STREET / v2.0

FIVE-LAYER STREET NODE

- 01 WALK + ACCESSIBILITY
- 02 SHADE + SEATING + SIGNS
- 03 HUMAN + NON-AI SERVICE
- 04 OPTIONAL AI + STATUS
- 05 APPEAL + STOP + RECOVER

7 FIRST-USE RIGHTS

KNOW • CHOOSE • EQUIVALENT SERVICE
HUMAN REVIEW • CORRECT/DELETE • APPEAL • EXIT

AI IS OPTIONAL. PUBLIC USE, ACCESSIBILITY AND HUMAN SERVICE MUST CONTINUE.

PROVISIONAL BOUNDARY - CONCEPT ONLY - RECOMPUTE WITH OFFICIAL DATA

Walking, shade, human service and non-AI parity are the baseline; AI is optional.

Twelve scenarios cover translation, small business, accessibility, heat, repair, appeal and culture.

INDUSTRY TESTS - S02 research first-use, S03 small-business desk, S04 low-speed delivery, S05 accessible journey.

PUBLIC SERVICE - S06 referral, S07 night assistance, S08 heat comfort, S09 multilingual welcome, S10 repair.

GOVERNANCE + CULTURE - S01 model translation, S11 consent and appeal, S12 Jing-Zhang story.

Every card declares minimum data, human review, non-AI parity and stop rules.

Start with two minimum chains: Accessible Journey and Small-business First-use.

PUBLIC / ACCESSIBLE JOURNEY: AI Origin human window - heritage park line - Dazhongsi service desk.

Validate physical maps, shade, rest, human help and no-app access before optional AI advice.

INDUSTRY / SMALL BUSINESS: Zhongzhiyuan validation - AI Origin translation - Dazhongsi limited trial.

No customer identity; the merchant decides. Stop if withdrawal, explanation or baseline service fails.

05 / METRICS + EVIDENCE

METRICS PLUS A HANDOVER-READY RESPONSIBILITY CHAIN

PROVISIONAL BOUNDARY - CONCEPT ONLY - RECOMPUTE WITH OFFICIAL DATA

Spatial metrics are recomputable; statutory metrics remain unknown; handover evidence is the real gate.

Near term: protocol and two pilots. Mid term: street nodes. Long term: an open problem and maintenance cycle.

NEAR TERM: publish the Street Pass, install public status boards, establish baselines and rehearse stopping for two pilots.

MID TERM: expand twelve nodes and two wings only after the seven rights and service recovery work.

LONG TERM: Real Problem Week - Street Co-test Season - Open-source First-use Week - Maintainers Assembly.

Five roles: task setter, authorised operator, professional reviewer, on-site maintainer and affected-user representative.
