

JINGZHANG COMMON TABLE

FROM SHARED PRODUCTION TO SOIL RETURN
An auditable food operating loop
Shawn Shi / shawnshi · AI-assisted original submission

SEVEN GATES REQUIRE HUMAN SIGN-OFF · RETURN TO SOURCE ONLY AFTER PROFESSIONAL APPROVAL

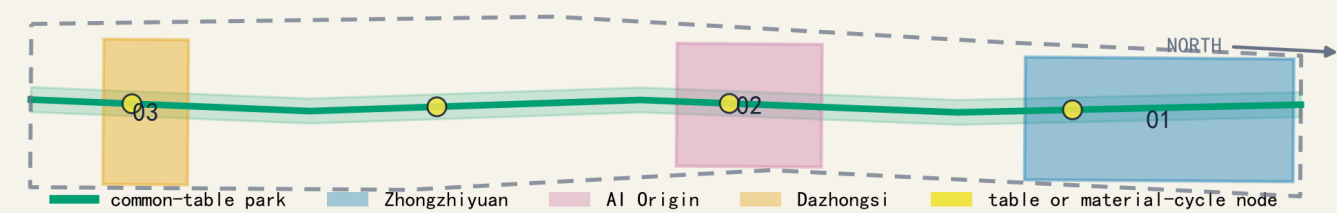

FIVE STAGES FROM PRODUCTION TO SOIL

Source → Plan → Cook → Exchange → Cycle.

G1–G7 is the canonical chain; the five stages are material shorthand. Only tested return material approved by landscape, environmental, and operating leads may re-enter sourcing; otherwise its ledger closes through compliant handling. AI proposes candidates; qualified people decide food, materials, and public release.

JINGZHANG COMMON TABLE | SHARED KITCHEN TO SOIL RETURN

G1–G7 is the canonical chain; five stages are material shorthand • return to source requires professional approval • north points right

FIVE-STAGE MATERIAL SHORTHAND

SOURCE → PLAN → COOK → EXCHANGE → CYCLE

AI proposes; people decide safety, permission, and use.

CANONICAL SEVEN HANDOFF GATES

QUESTION → RECEIPT → KITCHEN → MARKET →
SURPLUS → MATERIAL → SOIL RETURN;
CONDITIONAL RETURN: SOURCE/TRIALS ←
PROFESSIONAL APPROVAL ← SOIL RETURN

AI proposes; people decide safety, permission, and use.

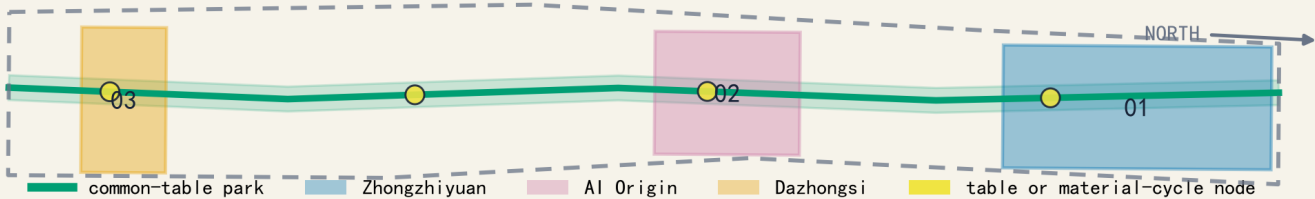

PROVISIONAL ROUGH BOUNDARY • NON-STATUTORY • NOT FOR APPROVAL OR ENGINEERING LOCATION

THREE SCALES AND PROVISIONAL GEOMETRY

The announcement provides textual scopes and approximate areas only. Submitted polygons are provisional rough constraints, not statutory redlines, parcels, rights, approval, or engineering bases.

PROVISIONAL ROUGH BOUNDARY • NON-STATUTORY • NOT FOR APPROVAL OR ENGINEERING LOCATION

ONE SPINE · THREE TABLES · TWO CHAINS

Zhongzhiyuan Food Systems Lab, AI Origin Commons Kitchen, and Dazhongsi World Market connect through a technology-to-enterprise chain and a food-to-material chain.

LAND-USE STRUCTURE

Continuous park as public armature · authored design allocation, not statutory land use · north points right

THREE TABLES AND NINE BUILDING CARRIERS

Zhongzhiyuan: food systems, kitchen robotics, cold-chain simulation. AI Origin: shared kitchen, vendor incubation, open recipe/code. Dazhongsi: world market, common table, small-enterprise service. Height, quantum, and retain/renew/remove status are unknown.

THREE TABLES: LAB · COMMONS KITCHEN · WORLD MARKET

THREE KEY AREAS

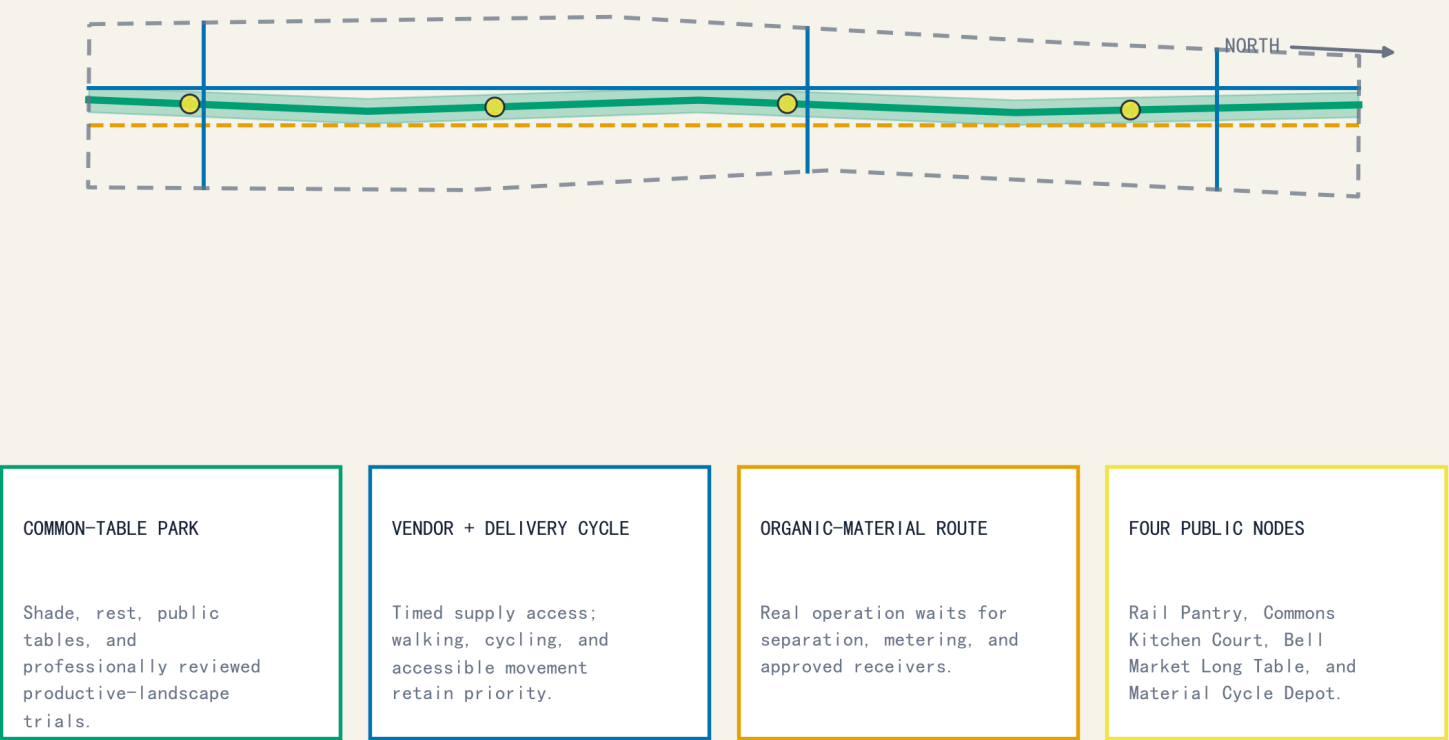

PROVISIONAL ROUGH BOUNDARY · NON-STATUTORY · NOT FOR APPROVAL OR ENGINEERING LOCATION

WALKING PRIORITY AND MATERIAL SEPARATION

Ordinary walking, accessible movement, and emergency use take priority. Supply and low-speed delivery use time windows; organic-material routes are separated from food supply, public dining, and children’ s activity.

SUPPLY MOBILITY × PRODUCTIVE LANDSCAPE × MATERIAL CYCLE

Ordinary movement has priority over delivery and collection • overview rotated 90° • north points right

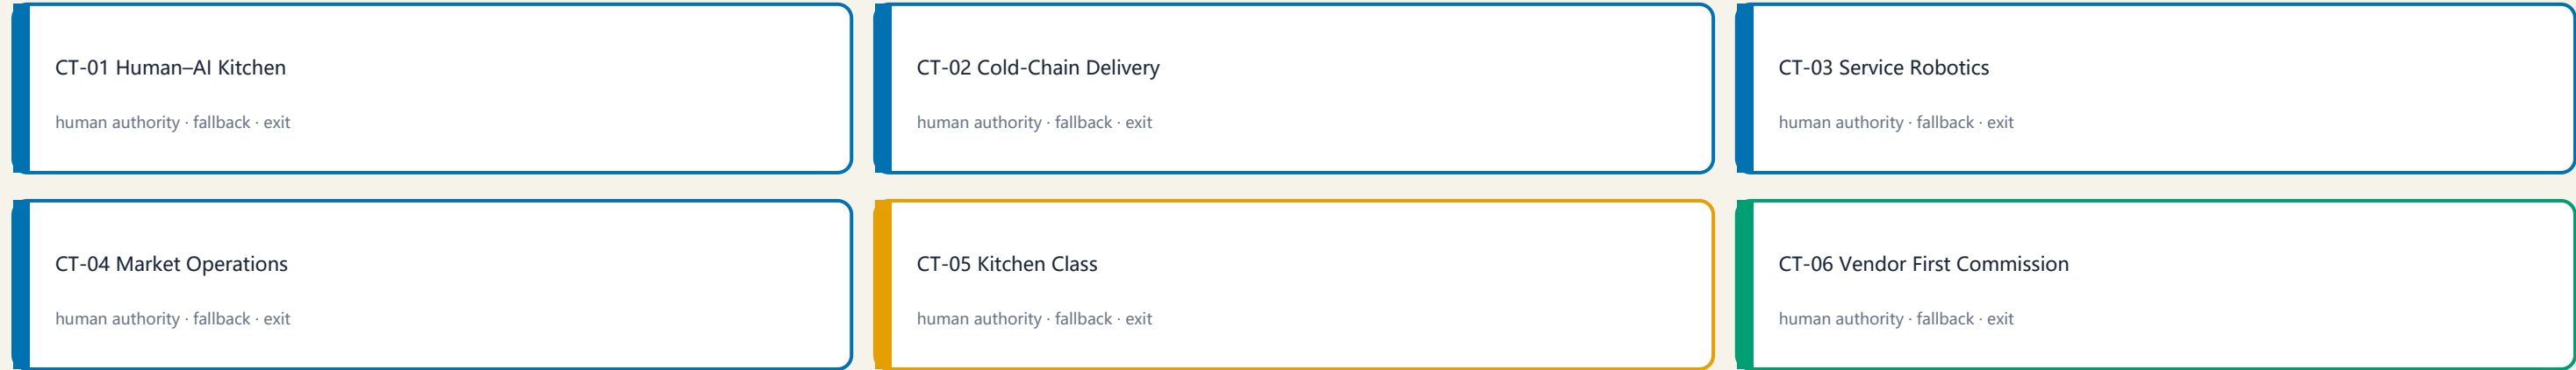

PROVISIONAL ROUGH BOUNDARY • NON-STATUTORY • NOT FOR APPROVAL OR ENGINEERING LOCATION

TWELVE SCENARIOS | 01–06

CT-01 Human–AI Kitchen; CT-02 Cold-Chain & Delivery; CT-03 Food-Service Robotics; CT-04 Market Operations; CT-05 Commons Kitchen Class; CT-06 Local Vendor First Commission.

The first four are controlled studios. Every scenario needs accountable humans, fallback service, and exit records.

TWELVE SCENARIOS | 07–12

CT-07 Centennial Table Stories; CT-08 Multilingual Market Guide; CT-09 Screen-Free Common Table; CT-10 Reusable Serviceware Pool; CT-11 Kitchen By-product Exchange; CT-12 Bell-Rail World Market Premiere.

Seven personas test every scenario; no personal dietary profiles.

PRECEDENTS · PHASING · METRICS

Six primary precedents support narrow mechanism transformations only; brands, partners, and outcomes do not transfer.

Submitted site 11.41 km²; concept green ratio 16.2%; concept public-space ratio 0.57%. Statutory intensity and real operating performance are unknown.

METRICS · SOURCES · URBAN METABOLISM

TWO URBAN CHAINS

FOOD + ENTERPRISE

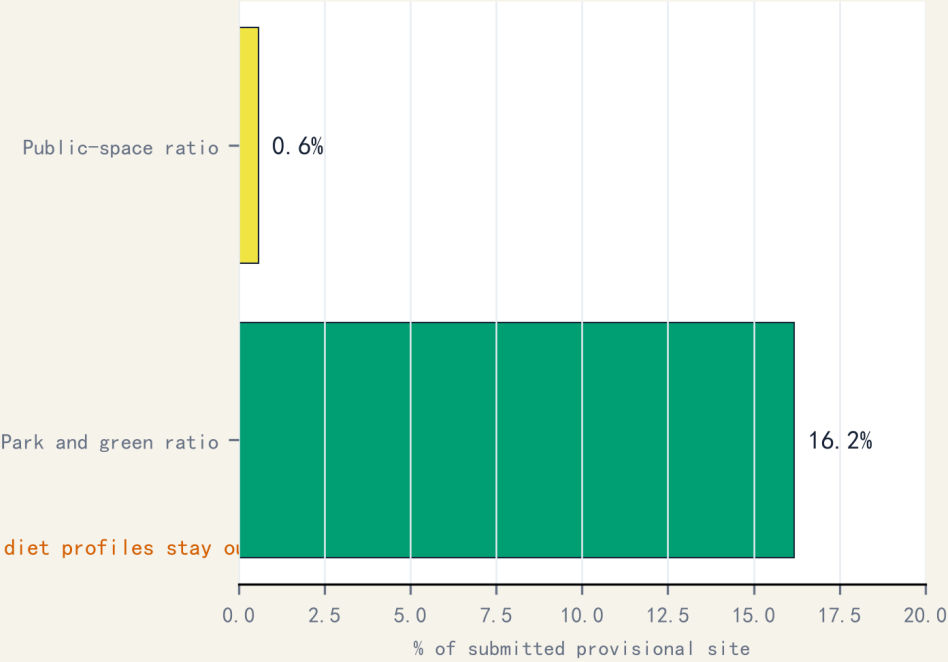

- source → plan
- cook → exchange
- small enterprise → open interface

SPACE + MATERIAL

- public table → shared kitchen
- timed delivery → separate + meter
- approved receiver → soil or material return

Machines do not decide food safety; personal diet profiles stay on

GEOMETRY-DERIVED METRICS

PROVISIONAL ROUGH BOUNDARY · NON-STATUTORY · NOT FOR APPROVAL OR ENGINEERING LOCATION

GAPS · RIGHTS · PROFESSIONAL HANDOFF

Unknown: official geometry, rights, surveyed buildings, road redlines, heritage, utilities, fire, contamination, soil, operators, and permits.

No third-party image, logo, or plan is embedded. Authoritative data require full-layer replacement, recomputation, redrawing, regeneration, and renewed review. Submission does not mean selection, approval, contract, or construction.

EVIDENCE GAPS

official geometry, rights, roads, utilities, fire, environment, and permits pending

ORIGINAL + ATTRIBUTED

no third-party image, logo, plan, or person; factual paraphrases attributed

PROFESSIONAL HANDOFF

replace layers → recompute → redraw → regenerate → human review
