

Centennial Jing-Zhang: AI in the Everyday Life of the Heritage Park

Concept Design Booklet / Provisional-Boundary Working Draft

The proposal treats the Jing-Zhang heritage park as a public-experience spine linking the Beijing AI Origin Community, Zhongzhiyuan AI Acceleration Area, and Dazhongsi AI Industry Cluster. Its priority is not more devices, but walkability, rest, accessibility, cultural interpretation, and open feedback.

Important: the site and key-area geometries shown are repository-provided provisional constraints for conceptual discussion, display, and self-check only. They are not official boundaries, approval evidence, or engineering drawings.

Overall Strategy

The proposal treats the Jing-Zhang heritage park as a public-experience spine linking the Beijing AI Origin Community, Zhongzhiyuan AI Acceleration Area, and Dazhongsi AI Industry Cluster. Its priority is not more devices, but walkability, rest, accessibility, cultural interpretation, and open feedback.

Three Innovation Anchors

The AI Origin Community supports translation and talent life; Zhongzhiyuan supports open testing and governance display; Dazhongsi supports industry exchange and urban experience.

Walking, Blue-Green, and Public Service

Shade, pocket plazas, accessible rest points, station connections, and low-glare digital wayfinding form a public-space network usable every day.

先连续步行，再讨论智能服务

公共空间网络把步行、骑行、站点接驳、树荫、雨水花园和低亮度导视组合为一条体验线。

概念建议 | 临时边界待正式资料发布后复算 | 结构化数据为权威依据

Everyday Life in the Heritage Park

Conceptual proposal: cultural guidance, rest, and accessible travel.

Accessible Guidance Node

Conceptual proposal: staff help, tactile paving, and non-phone alternatives.

AI Origin Open-Source Arcade

Conceptual proposal: open sharing and exchange at the street edge.

Zhongzhiyuan Governance Garden

Conceptual proposal: public review and human oversight.

Dazhongsi International Pitch Lounge

Conceptual proposal: industry exchange in a public street interface.

Nighttime Public Activity

Conceptual proposal: a low-light, walkable public discussion.
