

One person, one issue, three yards

READ FIRST

3 stations 7 steps PASS / RETURN / RETIRE

A public test line that turns an ordinary night-route problem into a recorded, reversible action.

1. Overall Concept • One Switch, Three Yards, Two Sidings

Jing-Zhang greenway spine runs north–south: Switch Heart + Departure Yard (Origin Community) + Acceleration Track (Zhongzhiyuan) + Marshalling Yard (Dazhongsi) + Service Siding + Scenario Siding; four pilgrimage landmarks: Switch Monument, Kilometer Zero, Digital Clock Tower, Signal Tower.

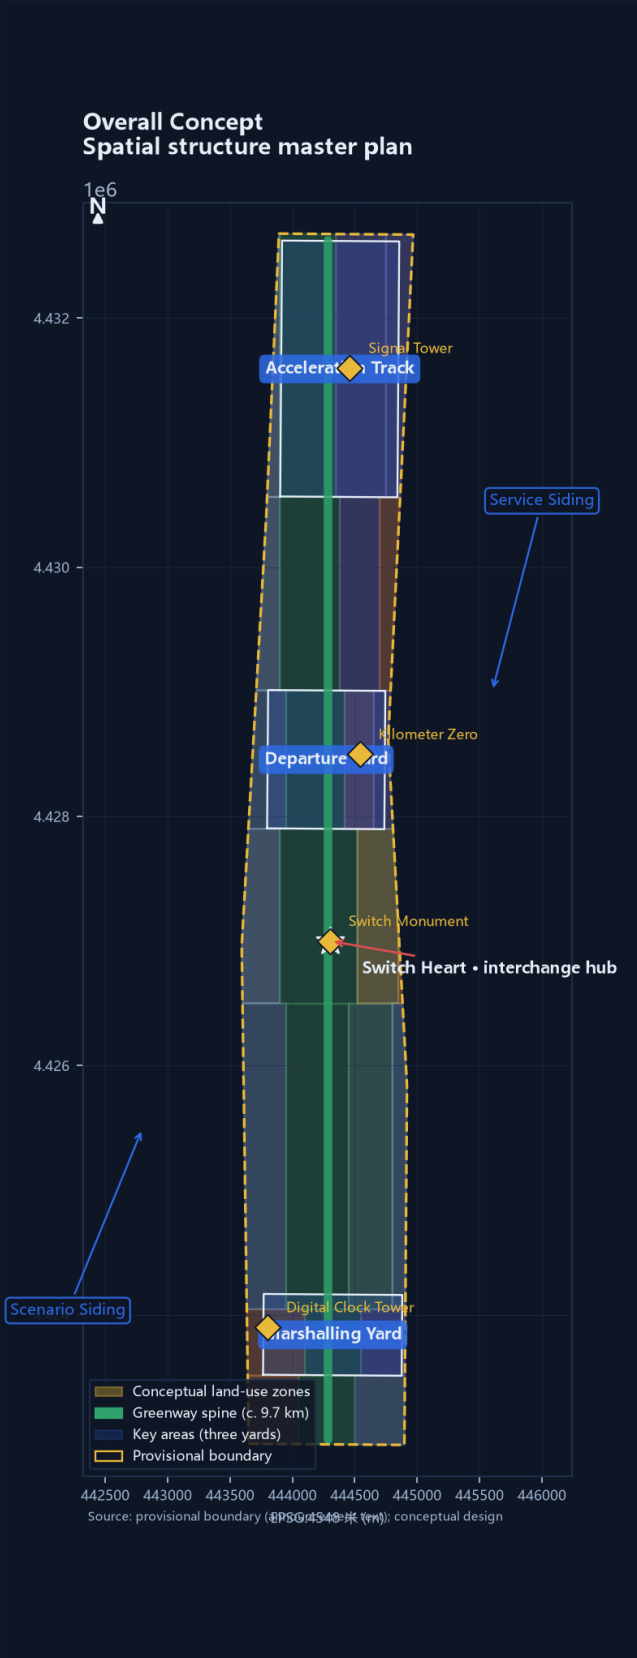

Figure 2: deterministic package evidence layer; conceptual expression only.

2. Land Use • 26 Conceptual Units

Greenway axis with two wings; research land in the two yards, commercial services at the Marshalling Yard and east of the Switch Heart; parkland forms the north–south greenway; gap-free and overlap-free.

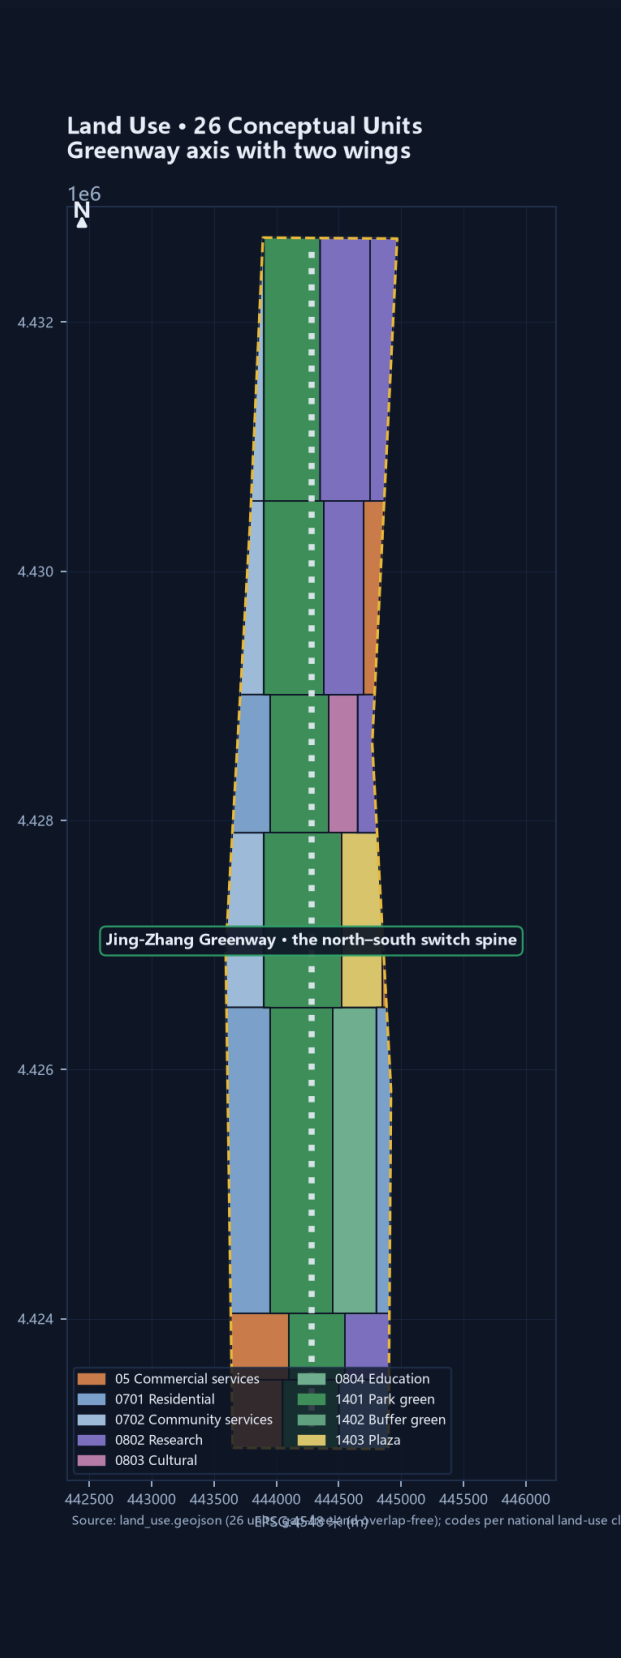

Figure 3: deterministic package evidence layer; conceptual expression only.

3. Detailed Design of the Three Key Areas

Acceleration Track: Signal Plaza + full-stack gradient; Departure Yard: Kilometer Zero + open-source incubation; Marshalling Yard: Digital Clock Tower + data sandbox + native-AI experience.

Key Areas — Detailed Design Index Departure Yard • Acceleration Track • Marshalling Yard

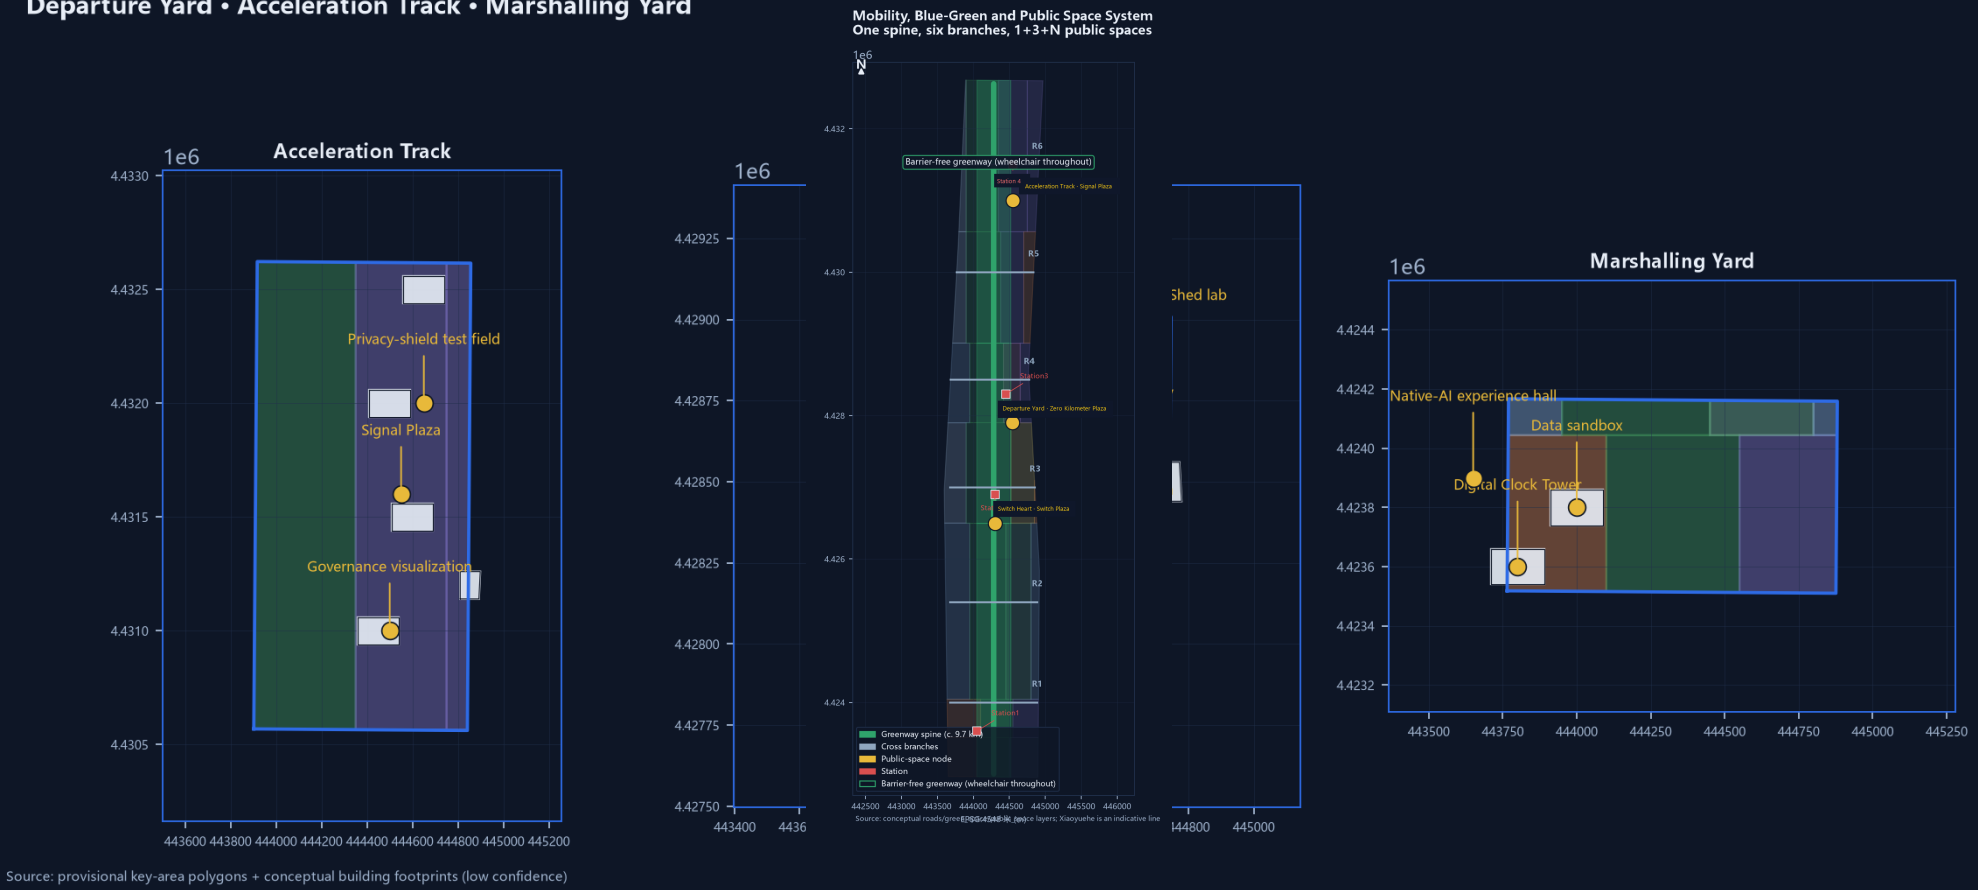

Figure 4: deterministic package evidence layer; conceptual expression only.

4. Mobility, Blue-Green and Public Space

One spine (c. 9.7 km greenway), six branches, 1+3+N public spaces; barrier-free throughout; edge compute and municipal integration.

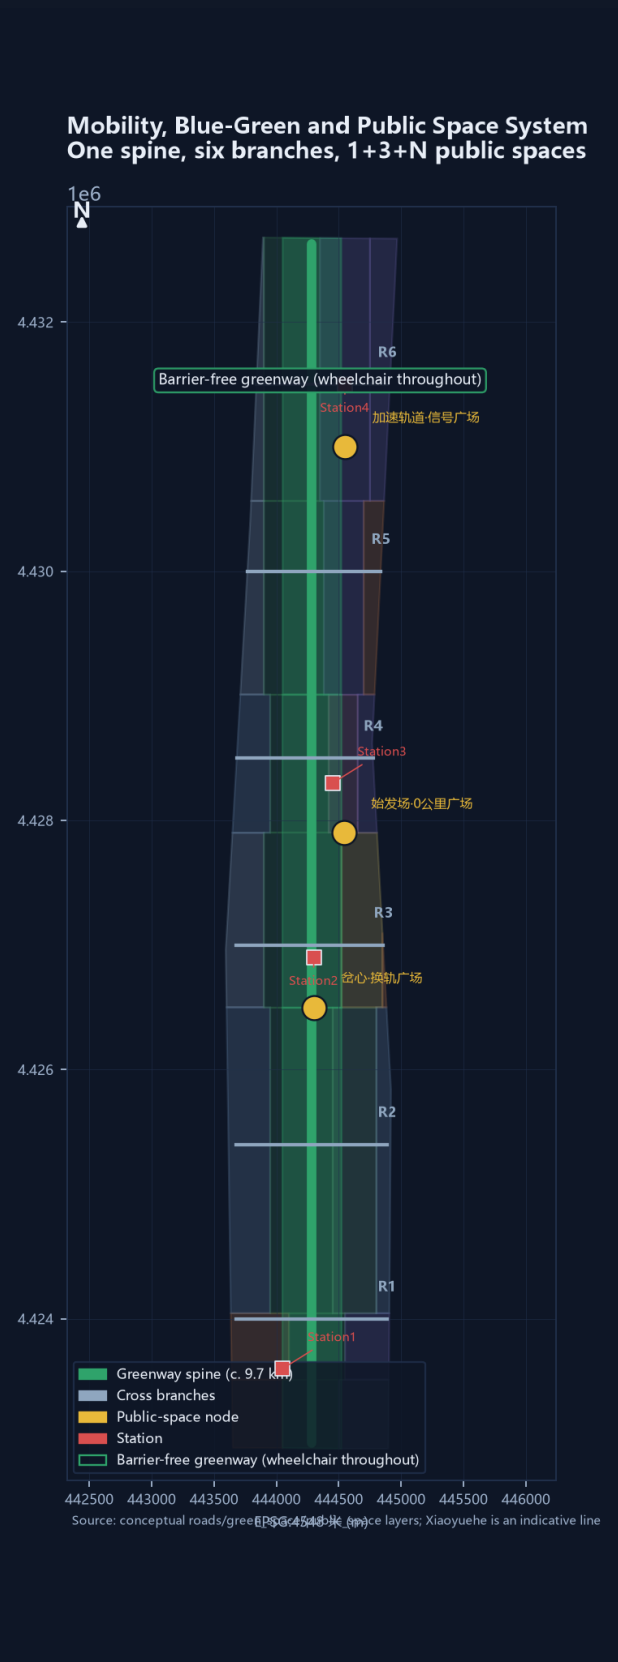

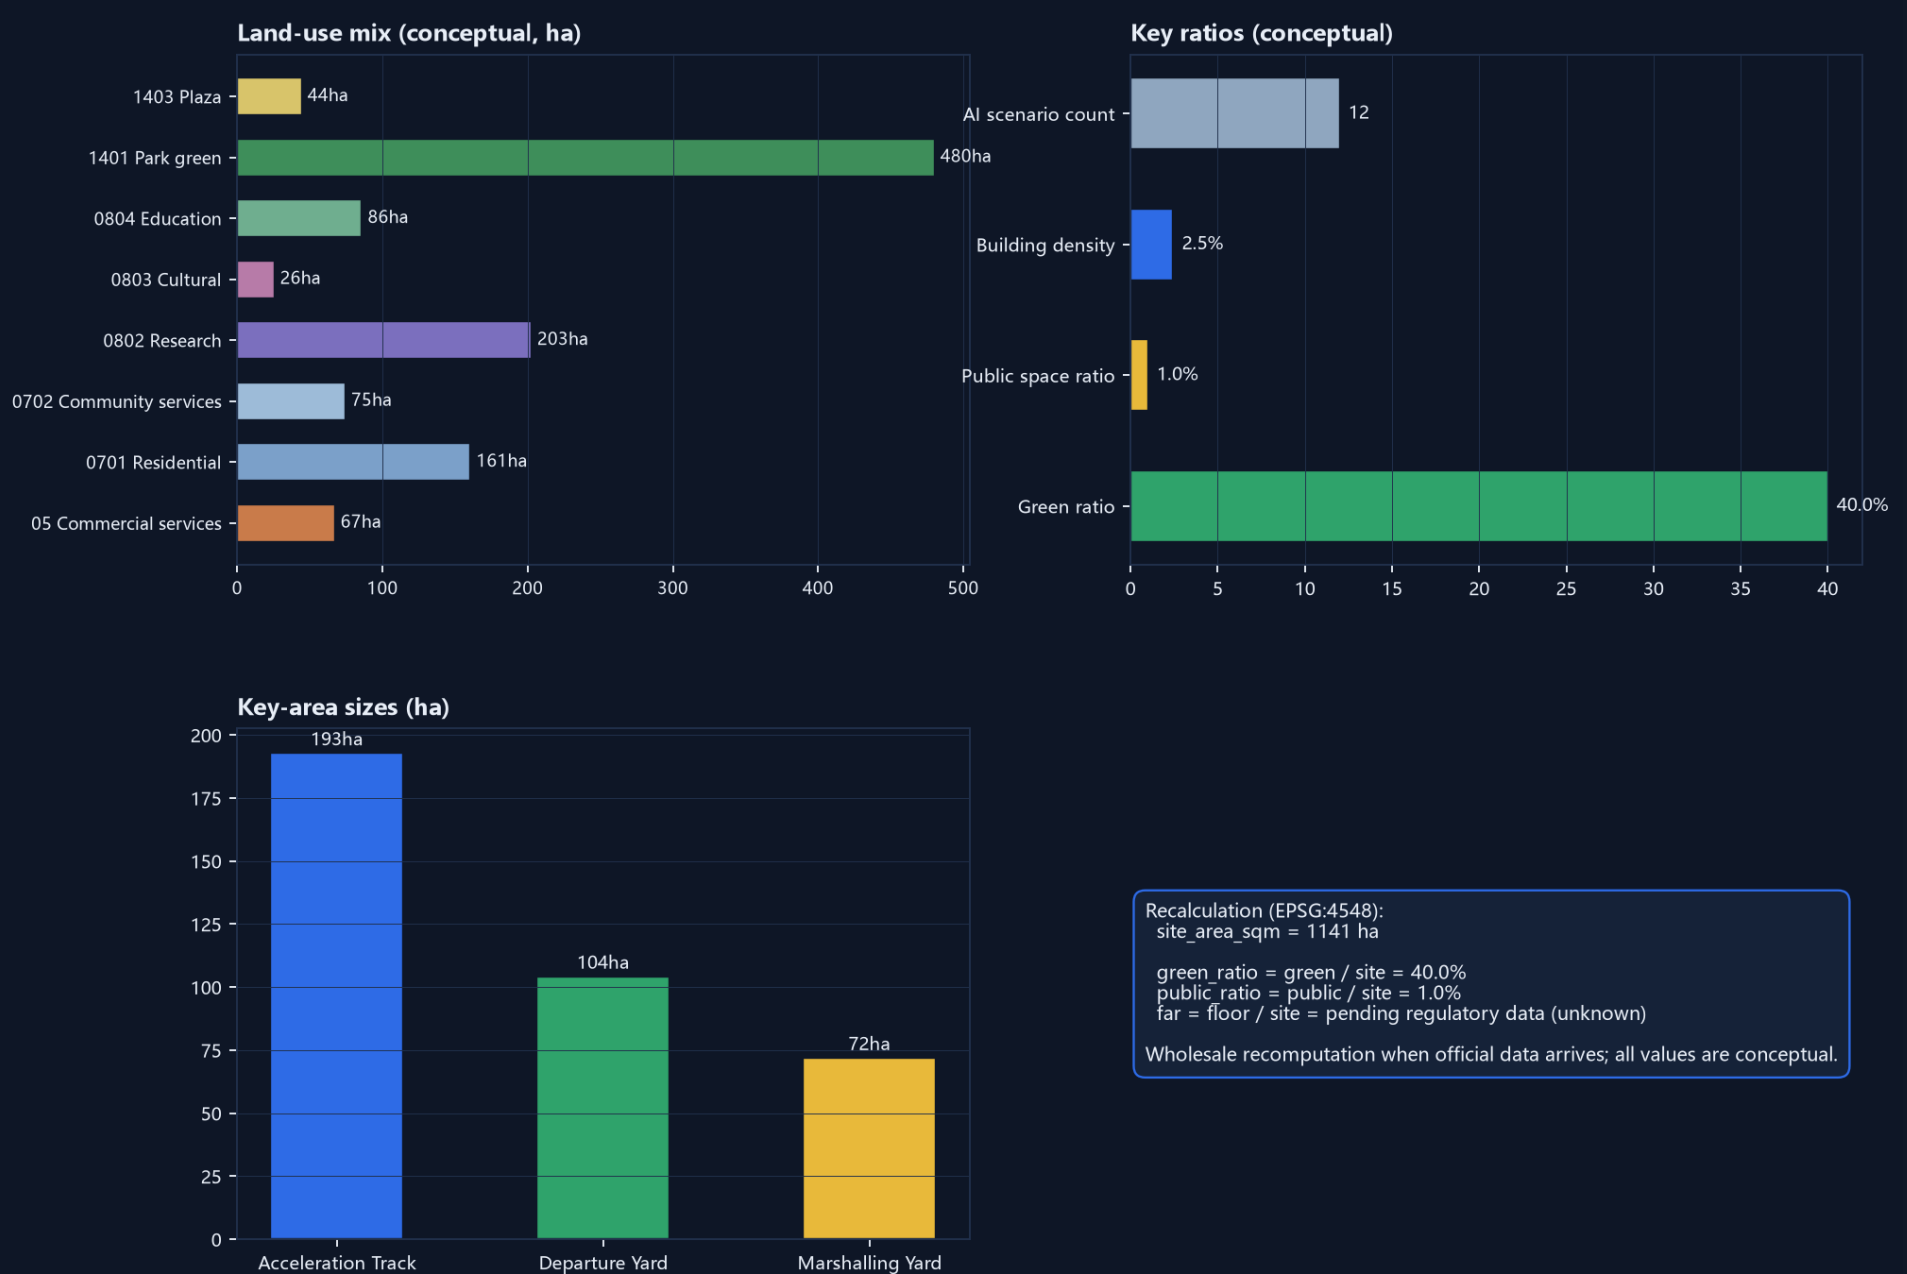

Figure 5: deterministic package evidence layer; conceptual expression only.

5. Core Metrics and Evidence Chain

Core Metrics and Evidence Chain

Deterministic pipeline • EPSG:4548 recalculation

Source: metrics.json deterministically recomputed from package geometry in EPSG:4548

Appendix synchronized with proposal, metrics, matrices, visual page, and boards.

L1–L5 · FIVE LANDMARKS

L1	Qinghuayuan Station Remnant	AI Origin side	A station remnant and Zhan Tianyou inscription: how speed once bowed to slope
L2	Zero Baseline Marker	North end of Zhongzhiyuan	Measurement methods, failure records, and current unknowns
L3	Objection Platform	AI Origin	Minority views, revisions, and unresolved questions
L4	Dazhongsi Ten-Year Ledger Wall	Dazhongsi	Retained, changed, and retired projects together
L5	Release-Gate Signal Group	Four gates on the spine	Why a project may accelerate and when it must stop

P01–P18 · EIGHTEEN CONCEPTUAL RENEWAL PROJECTS

P01	Switch Heart Plaza and Central Park	Baseline
P02	Marshalling Yard Forecourt and Intelligent-Native Experience Venue Retrofit	Baseline
P03	Departure Yard Zero-Kilometer Plaza and Open-Source Incubator Retrofit	Origin
P04	Acceleration Track Signal Plaza and Governance Lab	Industry
P05	Southern Greenway Active Segment	Interfaces
P06	Northern Greenway Ecological Segment	Baseline
P07	Origin Talent Housing	Origin
P08	Dazhongsi Business-Service Complex Retrofit	Fulfillment
P09	Locomotive Shed Education Lab	Origin

P10	Developer Recognition Wall	Culture
P11	Historical Siding AR Guide	Culture
P12	Station Access and Slow-Mobility Breakpoint Repair	Interfaces
P13	Switch Heart Visitor Service Centre	Fulfillment
P14	Greenway Accessibility and Slow-Mobility Breakpoint Repair	Interfaces
P15	Developer Digital Passport	Industry
P16	SWITCH CON Annual Forum Venue	Fulfillment
P17	Historical Siding Interpretation and Wayfinding	Culture
P18	Pilgrimage Route Lighting and Wayfinding	Culture
