1988

Zhongguancun Innovation Spirit

2026

Human-AI Co-living Future

CORE PHILOSOPHY

Human-AI Co-living

- 

Rejecting "AI as Spectacle"
Digital life is not an object to be viewed, but a presence that walks with you in the park.
- 

Innovation District Within a Park
43.8% green ratio. R&D and commerce embedded in park framework. Green first, city second.
- 

Open Source as Public Good
Public infrastructure transactions open to public, but after community review.
- 

The Rails Remember Everything
AI remembers children's laughter, adults' identity, a sentence someone left.

SPATIAL STRUCTURE

One Spine, Three Cores, Two Wings

- 

Zhongzhi Park
10.2 km²
Full-stack self-evolving AI
Large research · AI · Open · government sandbox
- 

AI Origin Community
0.5 km²
World AI ecosystem community · co-evolving life
Three co-evolving, symbiotic nodes
[AI Symbiosis Garden Zone](#)
- 

Dazhongshi
1.2 km²
Intelligent digital format construction
AI Long Shouwen · green launch
- 

East · Zhongguancun Tech Service Wing
Tech transfer · AI · AI finance · legal
- 

West · Xueyue Scenario Empowerment Wing
AI education · healthcare · governance · new business

Innovation Annual Ring Path

Innovation Annual Ring

01

"Every step, treading upon time."

Laid along the old railway bed, the surface embeds sensing and light matrices. Century-old Jing-Zhang history, Zhongguancun innovation events, and visitor public memories are engraved layer by layer as annual ring patterns—never deleted, continuously accumulating.

Recent release | Time markers: 1909 · 1949 · 1978 · 1999 · 2008 · →

Open-Source Bench

Open-Source Bench

02

"Public infrastructure, created by all."

Open-source interactive carriers, citizens develop custom effects through open APIs, leaving emotions and stories via touch and voice. All submissions go live after community review confirms safety and no privacy infringement.

Real estate · wood · Tech modules embedded | Interactive light at night

AI Symbiosis Garden

AI Symbiosis Garden

03

"No fixed script. Every moment is one of a kind."

Core intensive node. Physical planes and digital life interweave and coexist; digital life evolves dynamically with pedestrian flow, seasons, and weather; plant growth in turn influences digital behavior. No fixed script, unpredictable.

Growth: pedestrian · tree · ambient sound | No large screens | Evolving trees · native wildflowers

AI SCENARIOS

15 AI+ Scenarios

Open-Source Bench Public Creation

IMPLEMENTATION

Nine Years, Three Phases

- 

Spine North Launch · 2026-2028
Phase 01
Zhongzhi Park opens · Northern control park · Spine Gate · Annual Ring Path plan · Inaugurate 30 AI Co-living
- 

Origin Takes Shape · 2029-2031
Phase 02
AI Origin Community completed · Open-Source Bench live · Symbiosis Garden opens · Three core autonomous driving connected
- 

Full Spine Intelligence · 2032-2035
Phase 03
Outfitting completed · 12.7 km fully connected · Two-wing ecosystem mature · Global AI brand established
