

01 / PLACE-BASED DIAGNOSIS

LISTEN TO THE REAL JING-ZHANG

Begin with public local evidence: an existing railway-sound installation, a Line 13 access barrier, existing AI facilities and the Qinghe/Xiaoyue waterfront.

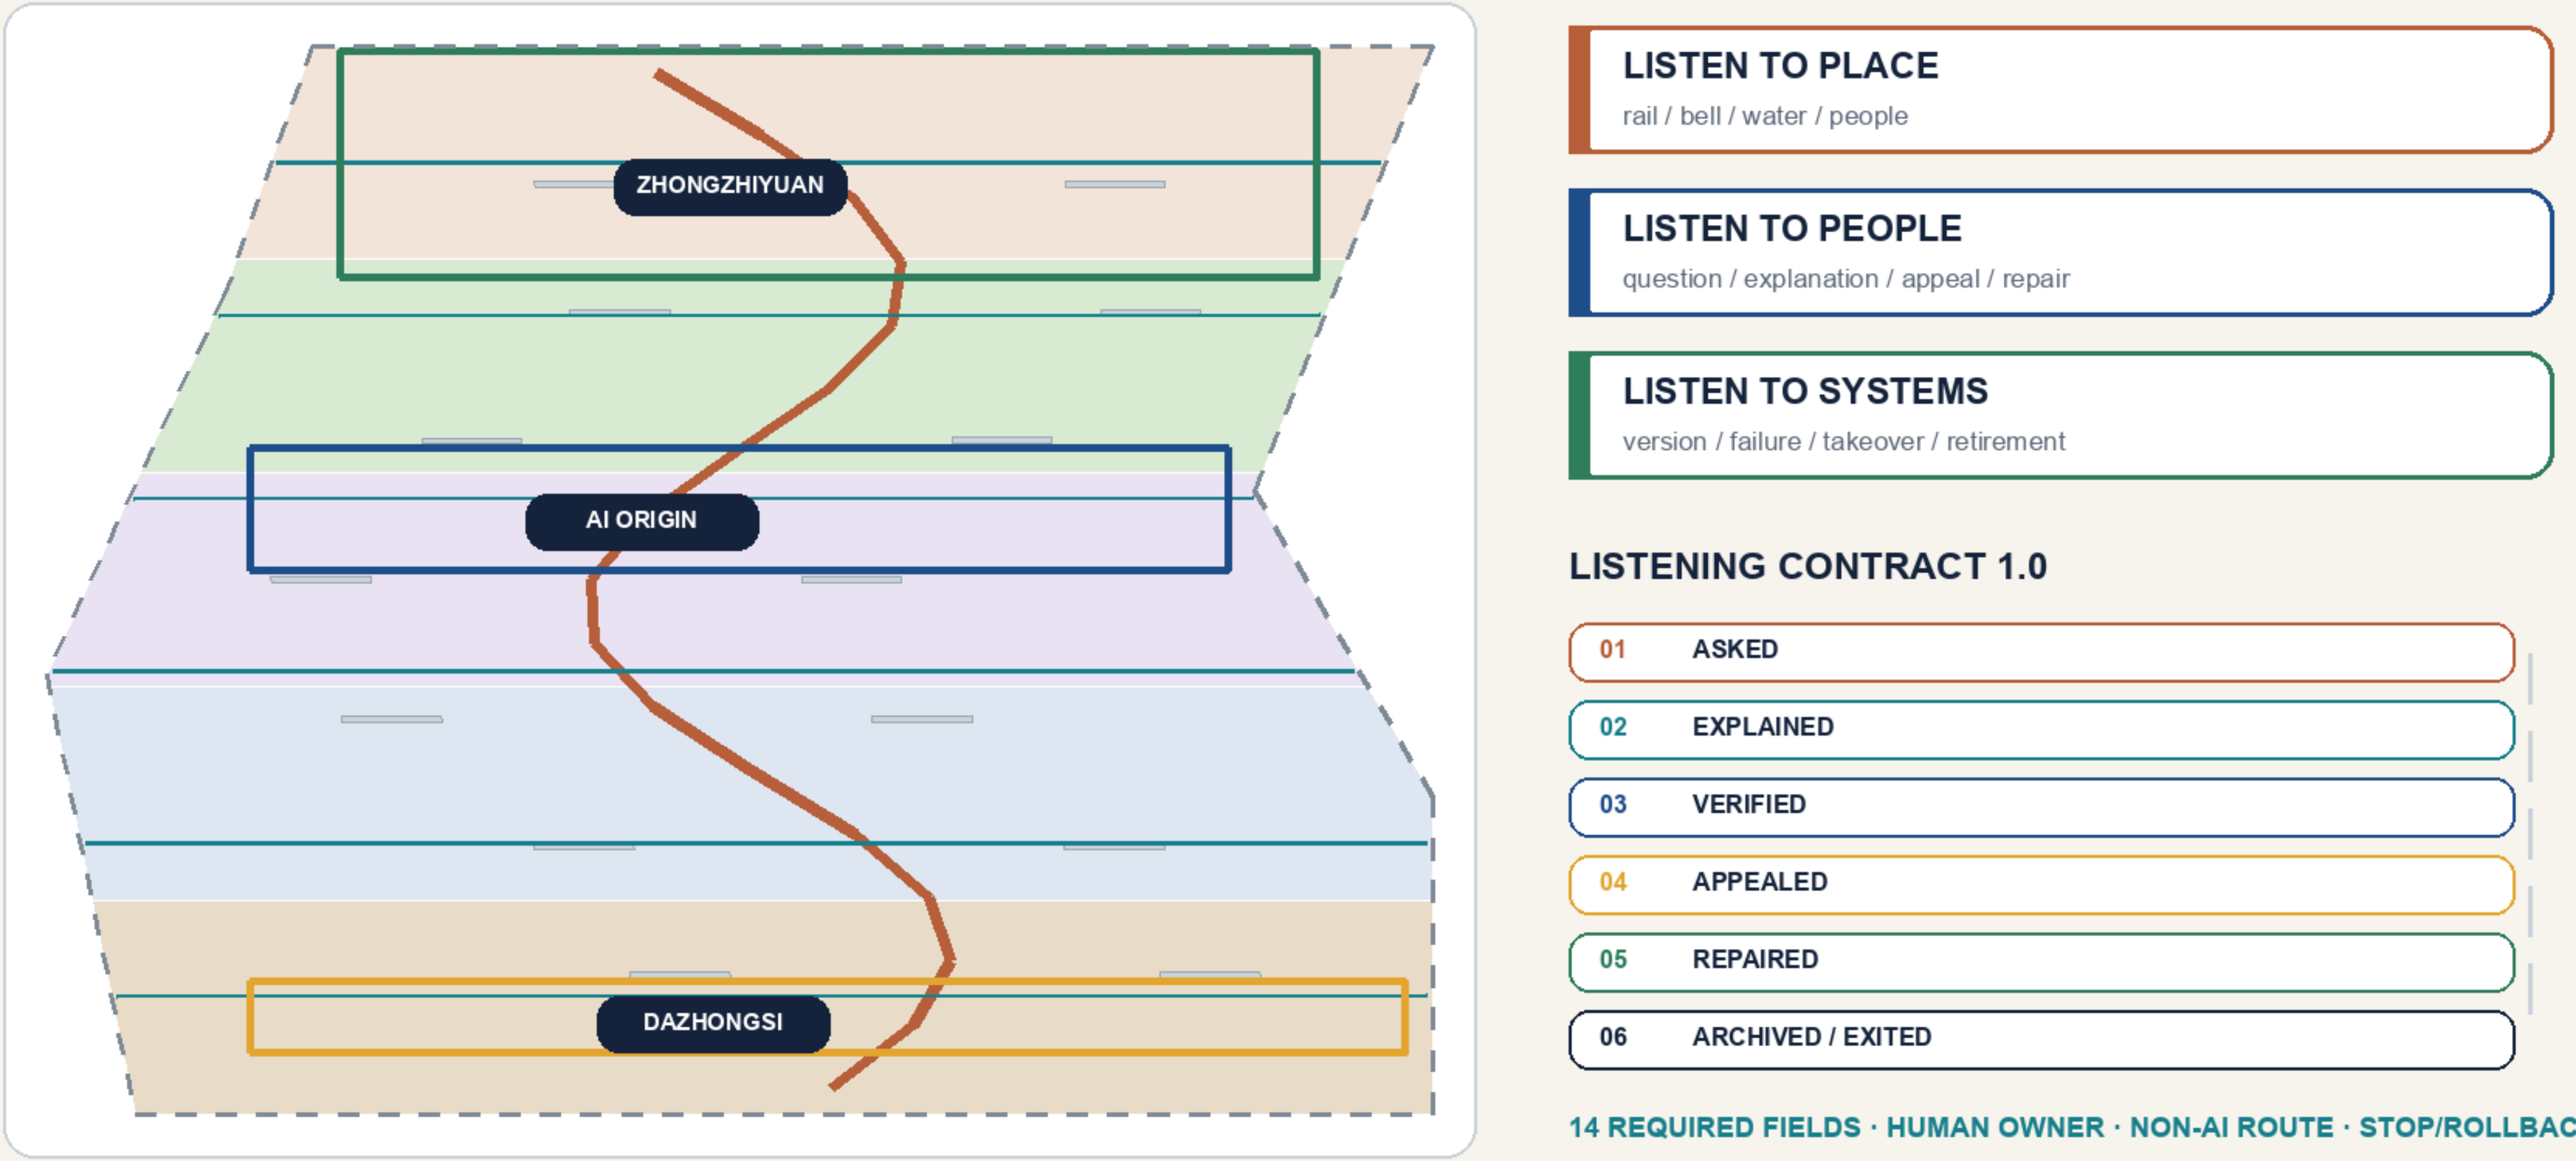

v1.1.1 RELEASE · DATA BOUNDARY: provisional geometry for concept review and package recalculation only; not an official boundary, engineering design or approval basis.

02 / SPATIAL + GOVERNANCE PROTOCOL

ONE LINE, THREE TRACKS, SIX STATES

The spatial structure and machine-readable Listening Contract 1.0 share one state language.

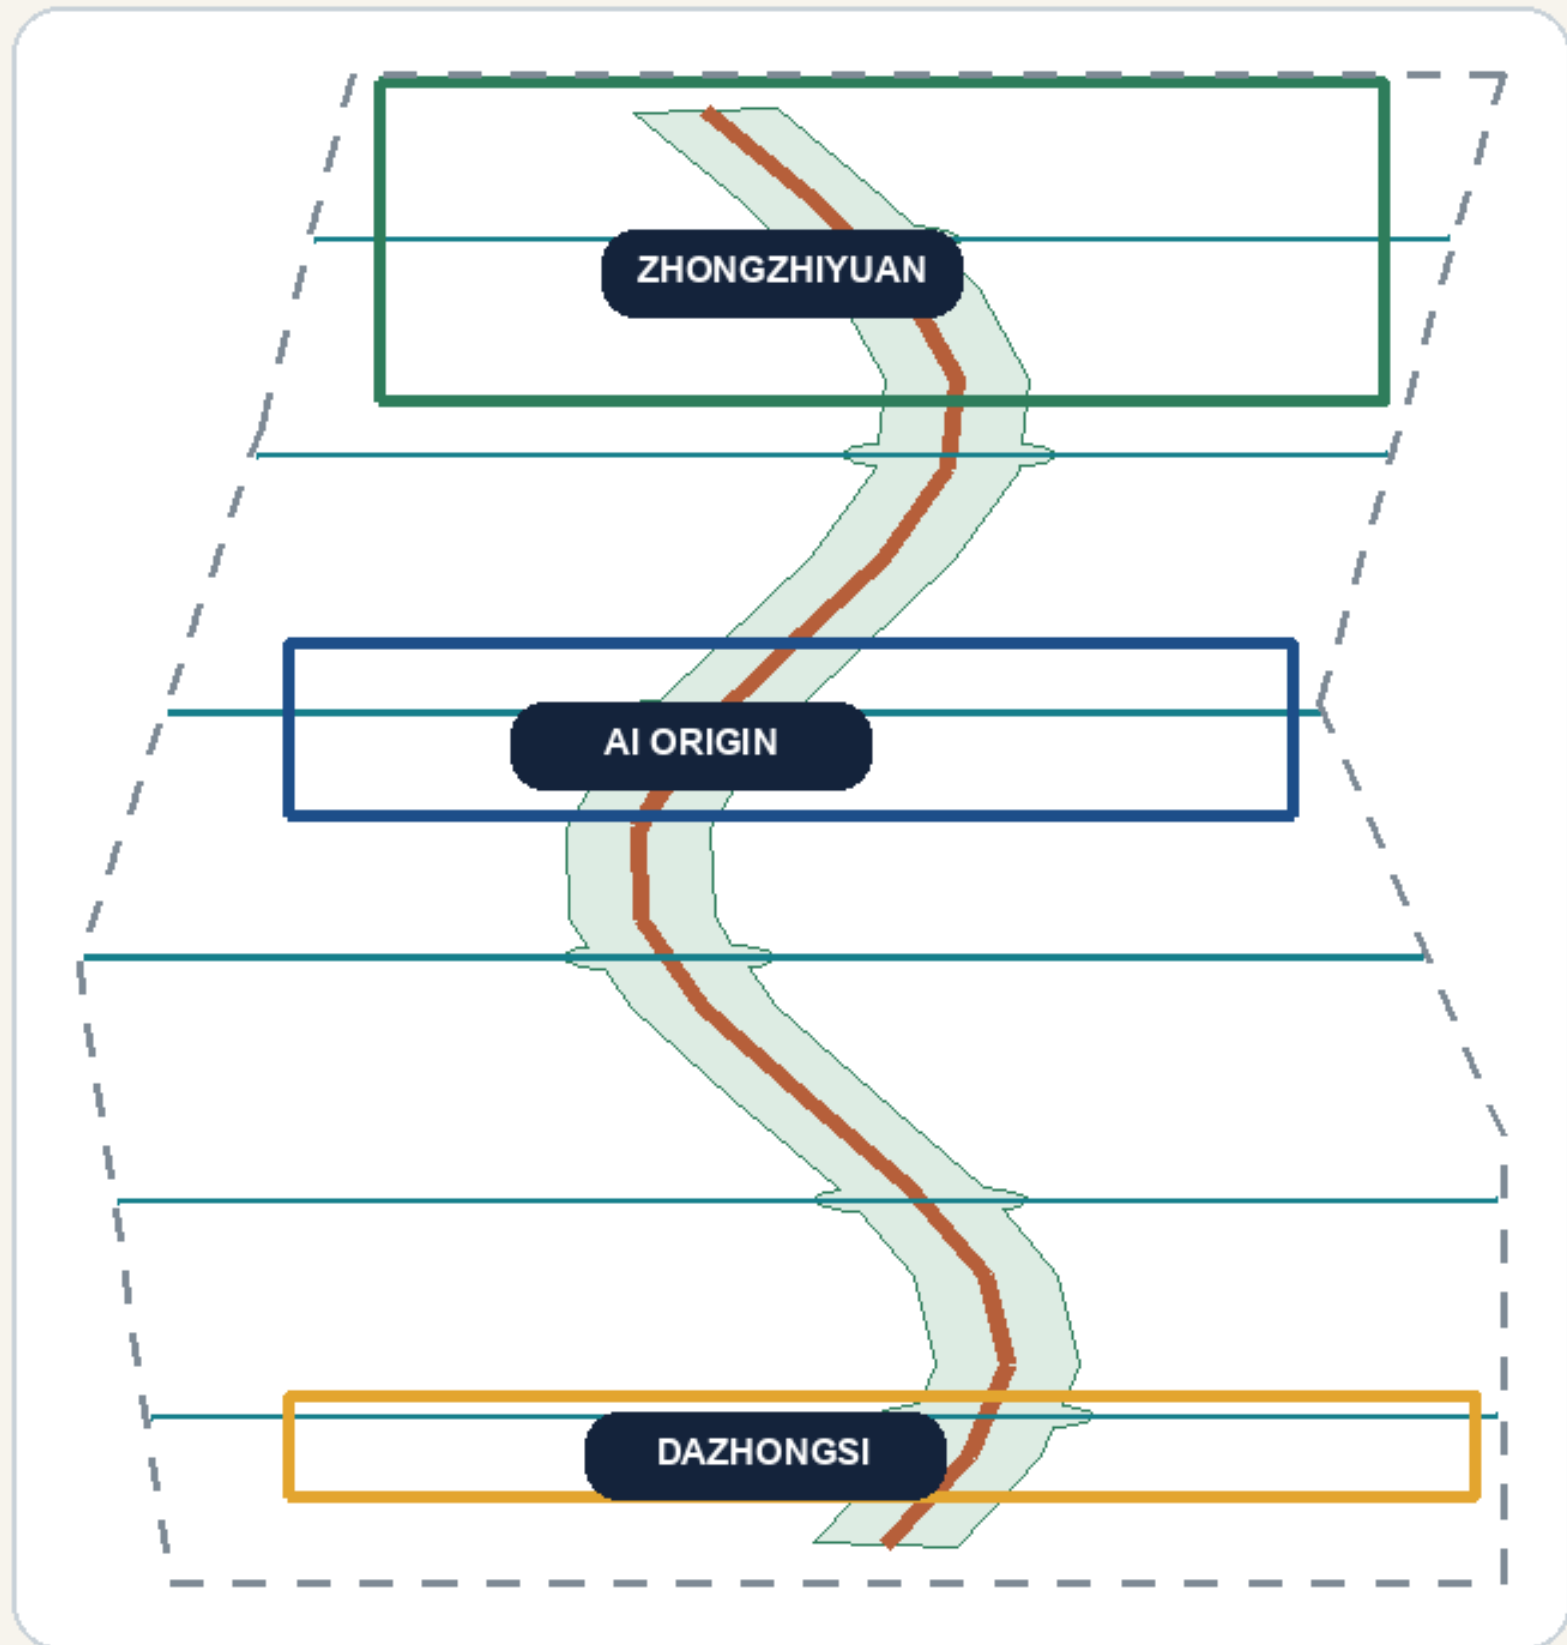

v1.1.1 RELEASE · DATA BOUNDARY: provisional geometry for concept review and package recalculation only; not an official boundary, engineering design or approval basis.

03 / KEY AREAS + FIELD PILOTS

THREE ROOMS, NOT THREE ISLANDS

Each key area listens to a different subject—system failure, different people, or local culture—while sharing adopt-or-exit gates.

ZHONGZHIYUAN / VERIFY

contract desk · low-speed yard · public observation · human stop · failure archive

SYSTEM FAILURE

AI ORIGIN / TRANSLATE

outcome explanation · review table · problem clinic · developer room · multiple entry modes

DIFFERENT PEOPLE

DAZHONGSI / RESPOND

four-quadrant walking · staffed service · bell culture · low-disturbance night edge

MOVEMENT + CULTURE

FIVE CONCEPTUAL SECTIONS

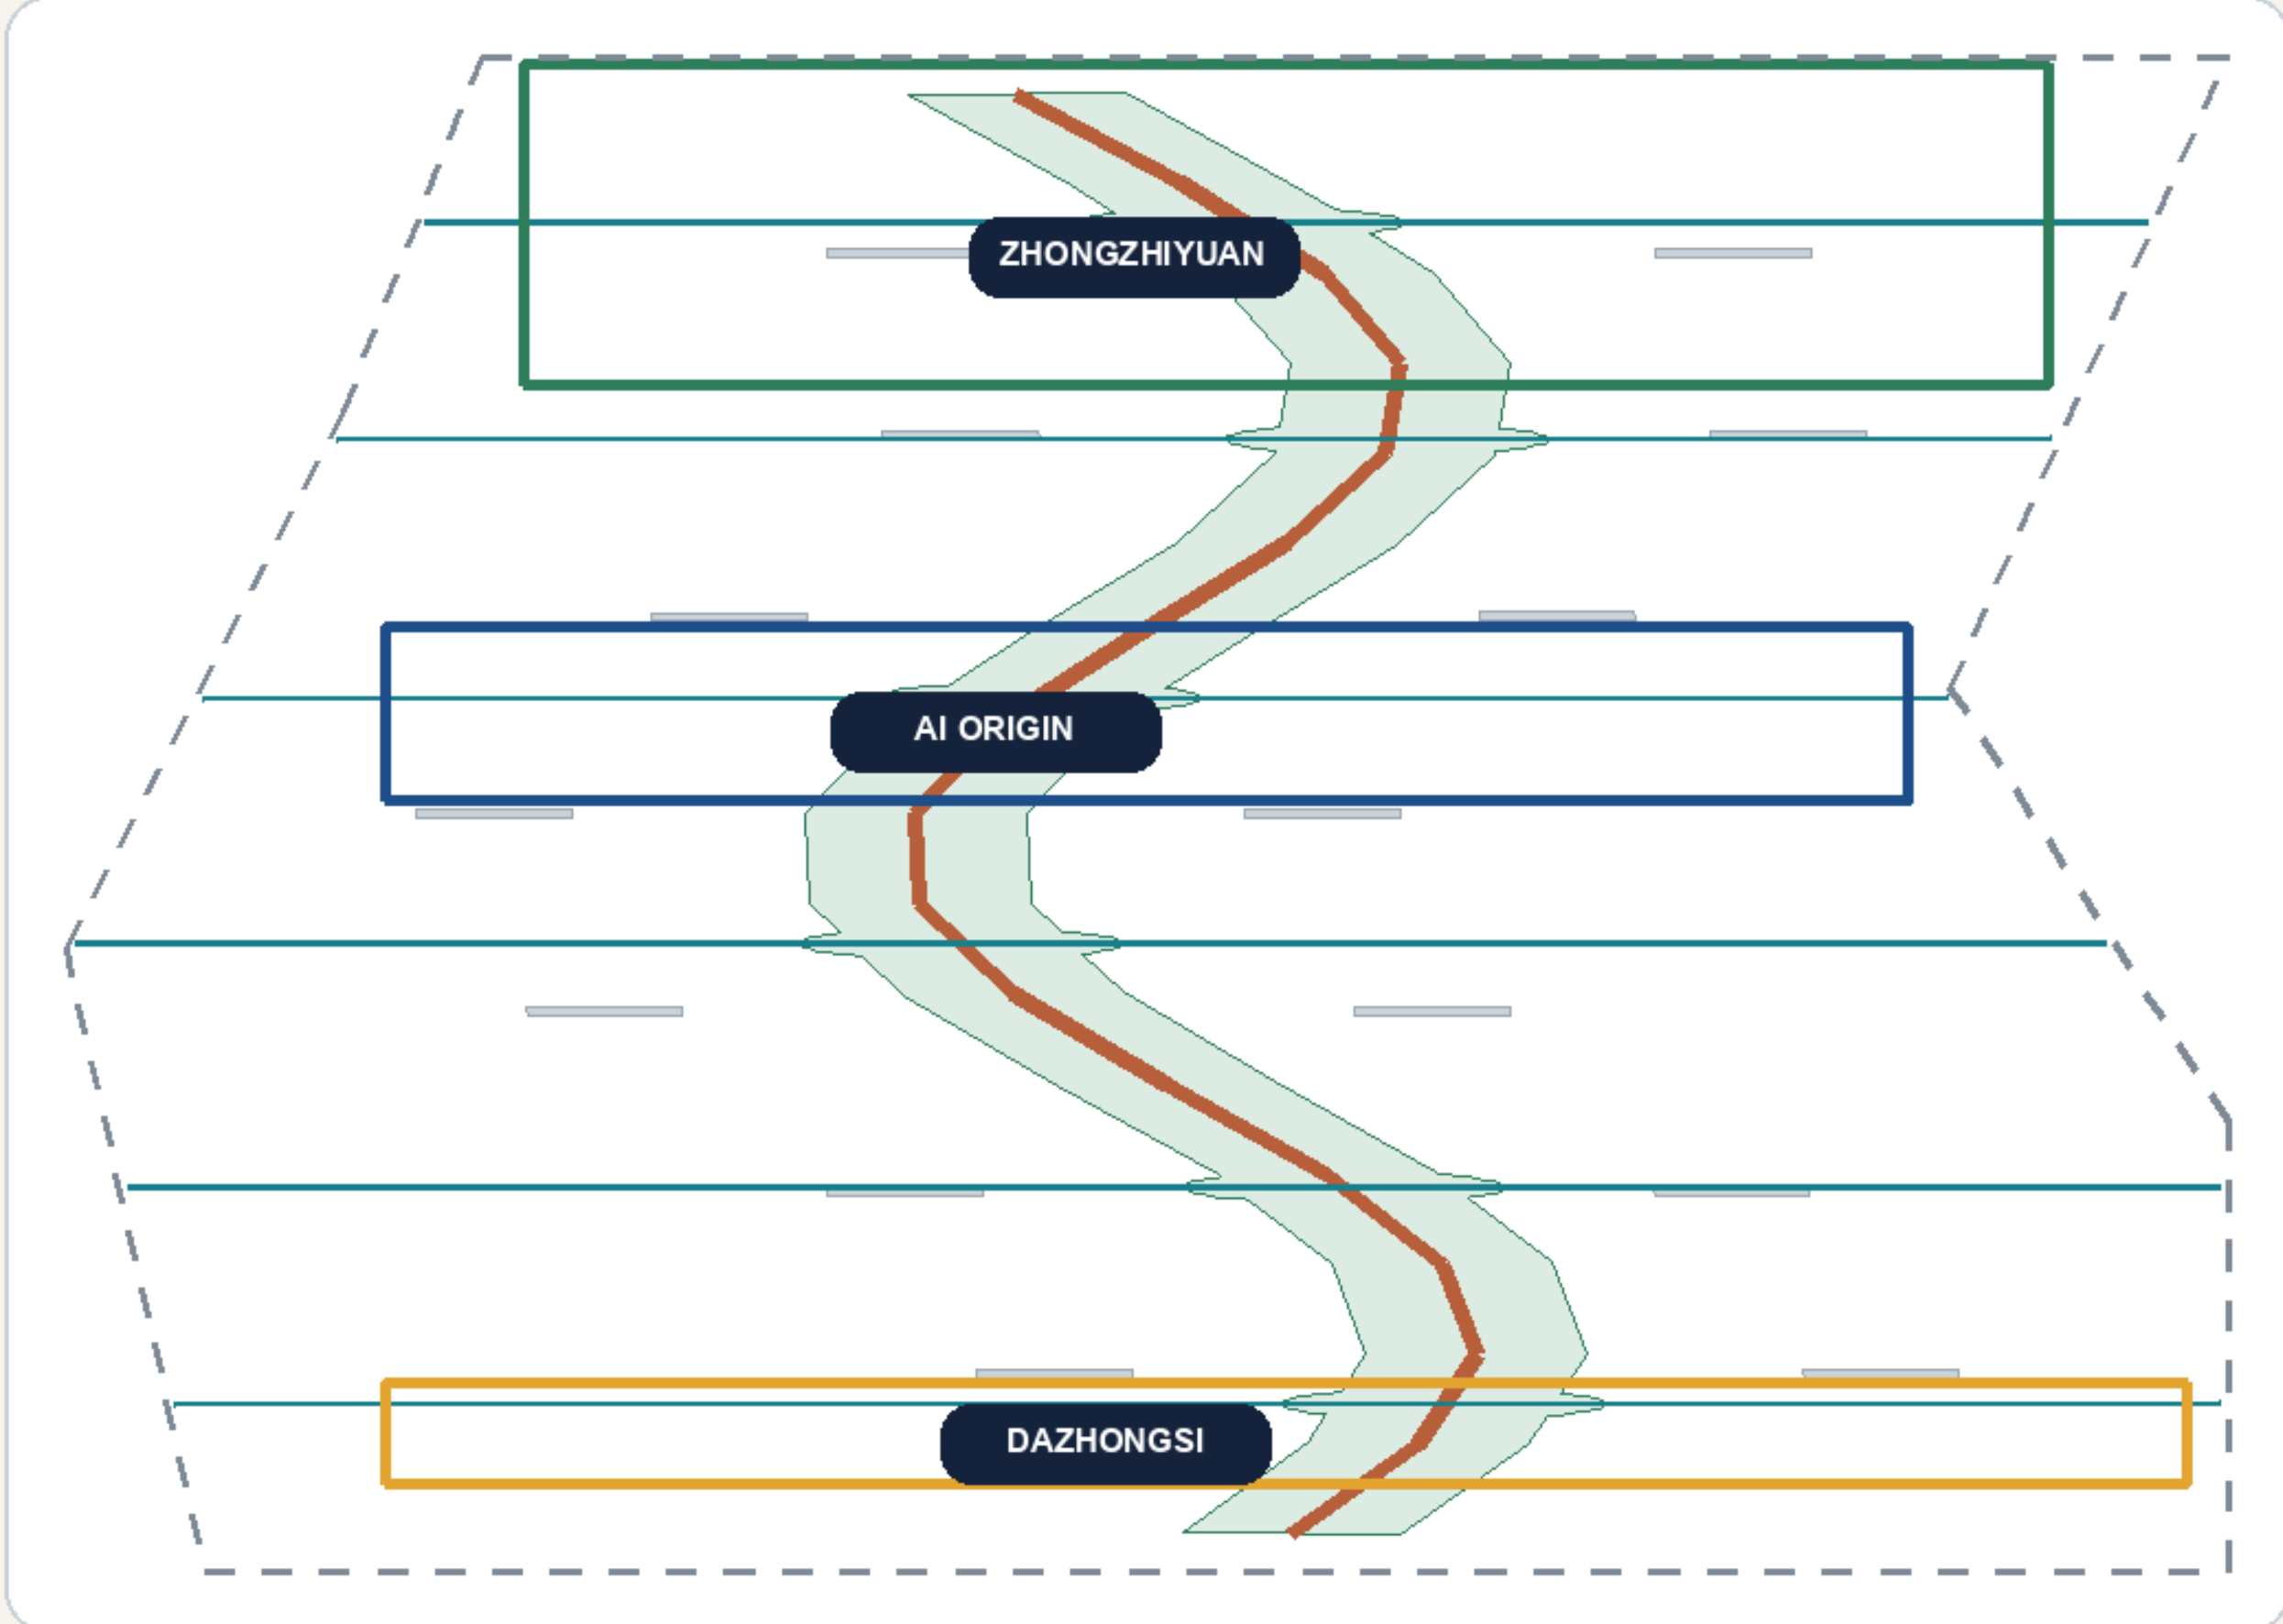

- Qinghuayuan: heritage—quiet—interpret
- AI Origin: campus—street—park
- Line 13: barrier—audit—entrance
- Waterfront: ecology—path—maintenance
- Dazhongs: quadrants—bell—metro

04 / WALKING + BLUE-GREEN + MAINTENANCE

PEOPLE HAVE DEFAULT RIGHT OF WAY

Walking, soundscape, waterfront and asset responsibility become one public-service network.

FOUR LOCAL VOICES

05 / EVIDENCE + DECISION GATES

FEWER CLAIMS, UNBROKEN EVIDENCE

Public source → geometry/metric → Listening Contract → field pilot → adopt, revise or exit.
