

01

THE HANDOVER LINE: Visible Accountability for Urban AI

One line · Three stations · Two wings · Twelve handover points

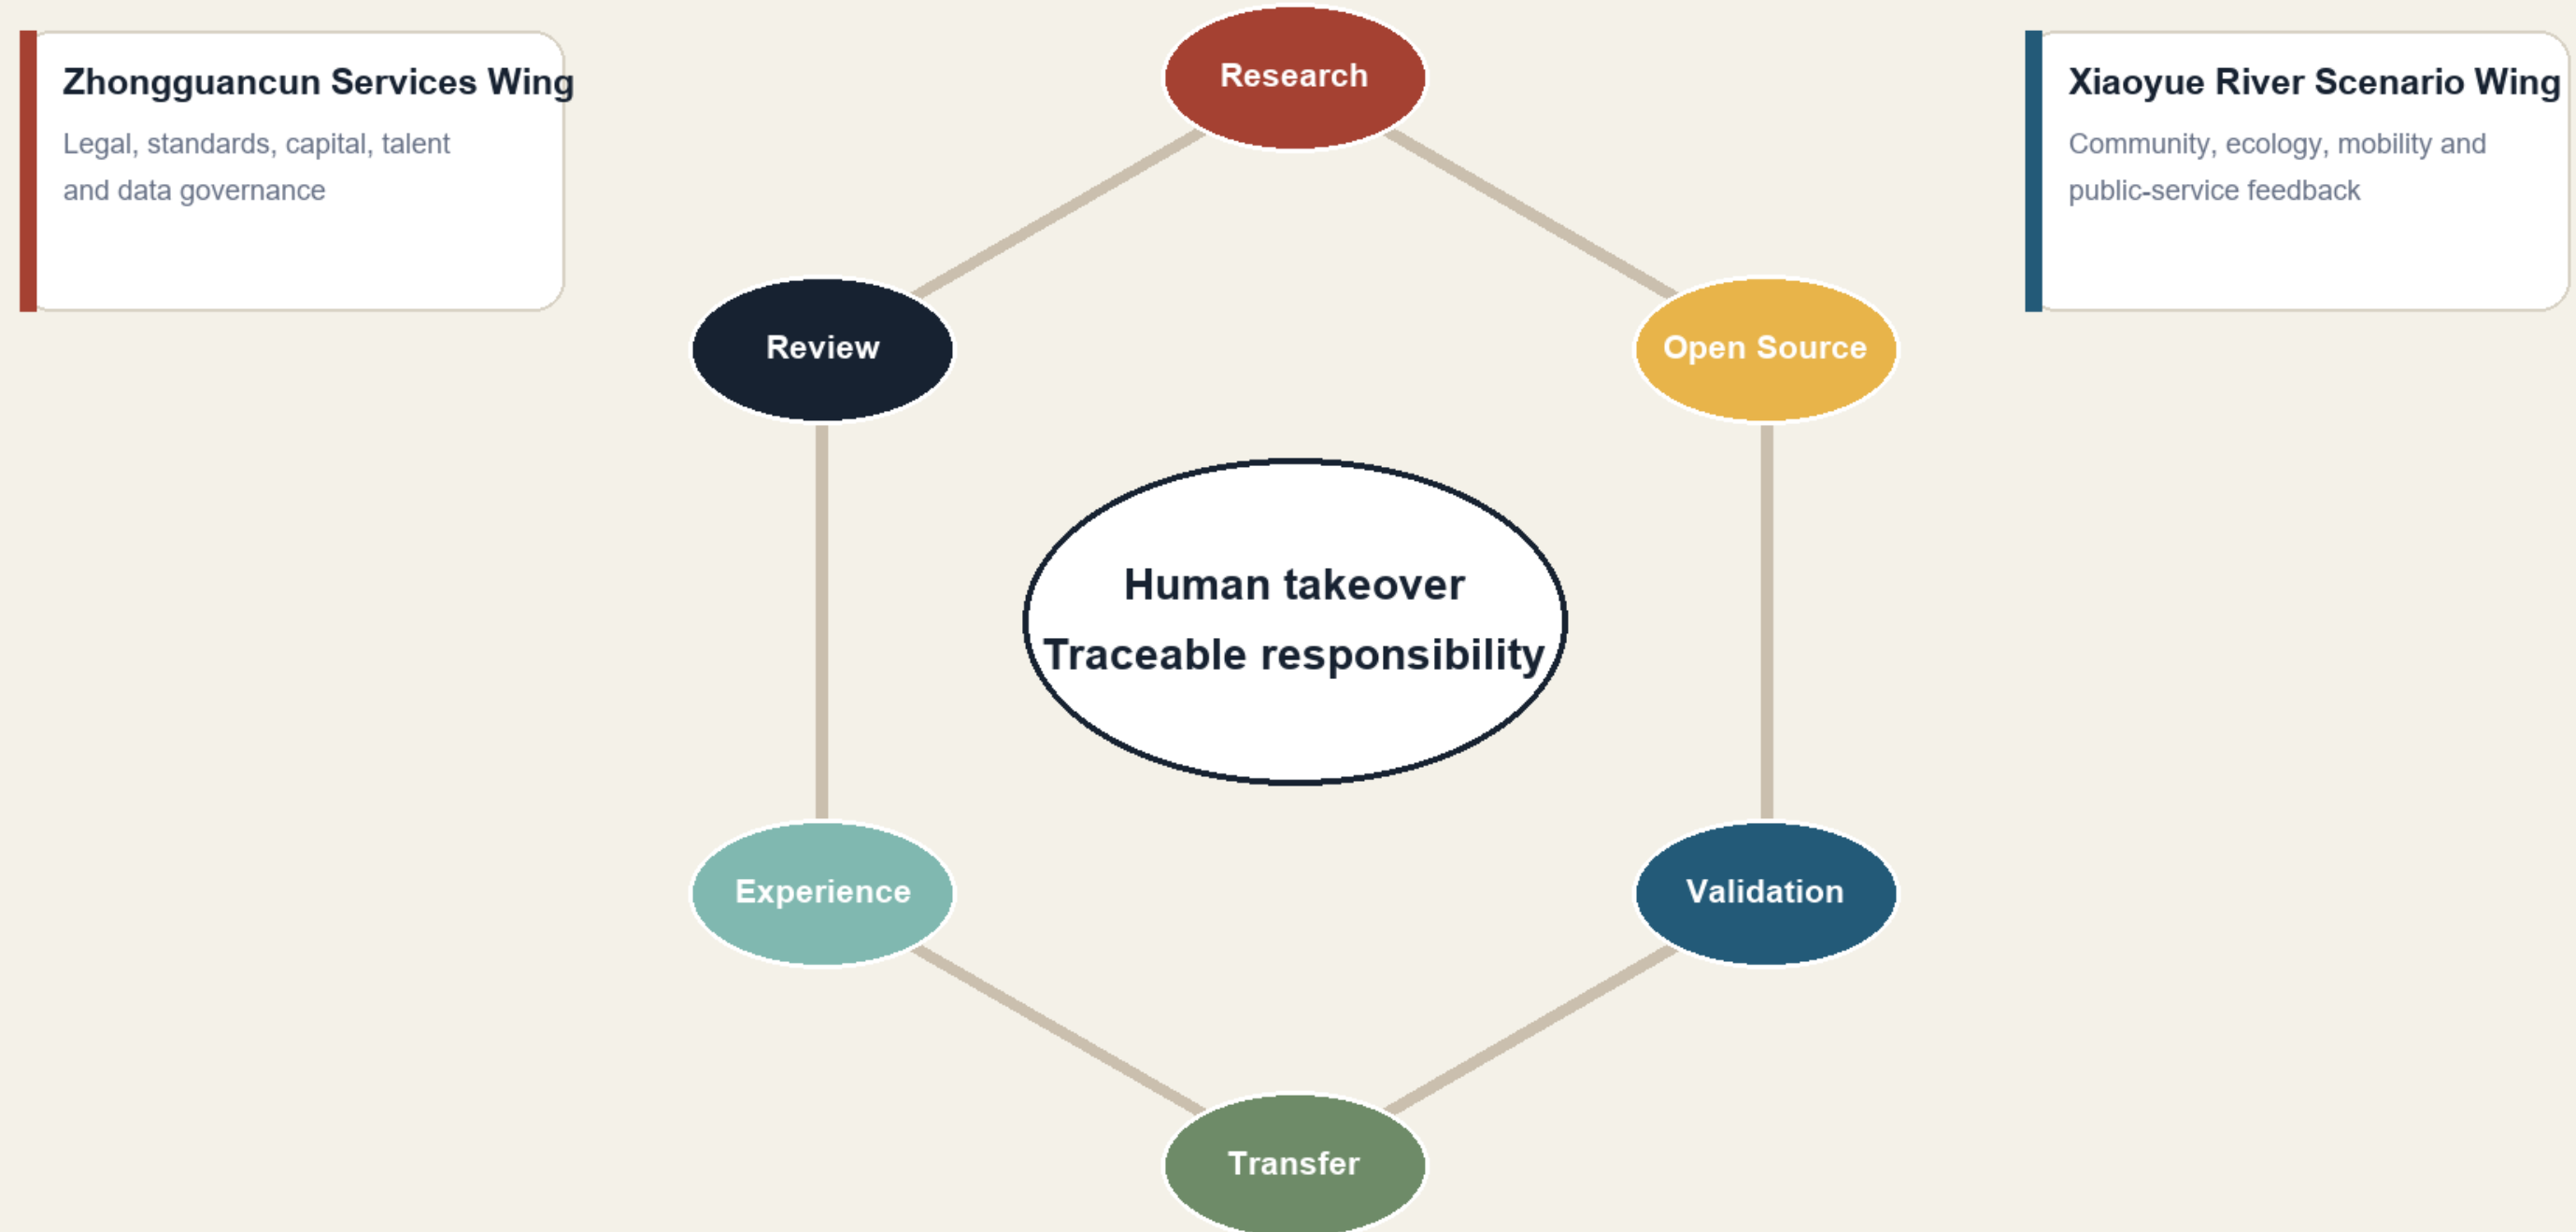

Provisional boundary for conceptual design and recalculation only; not an official planning boundary.

02

The Handover Loop Across Three Zones and Two Wings

Research → Open Source → Validation → Transfer → Experience → Review

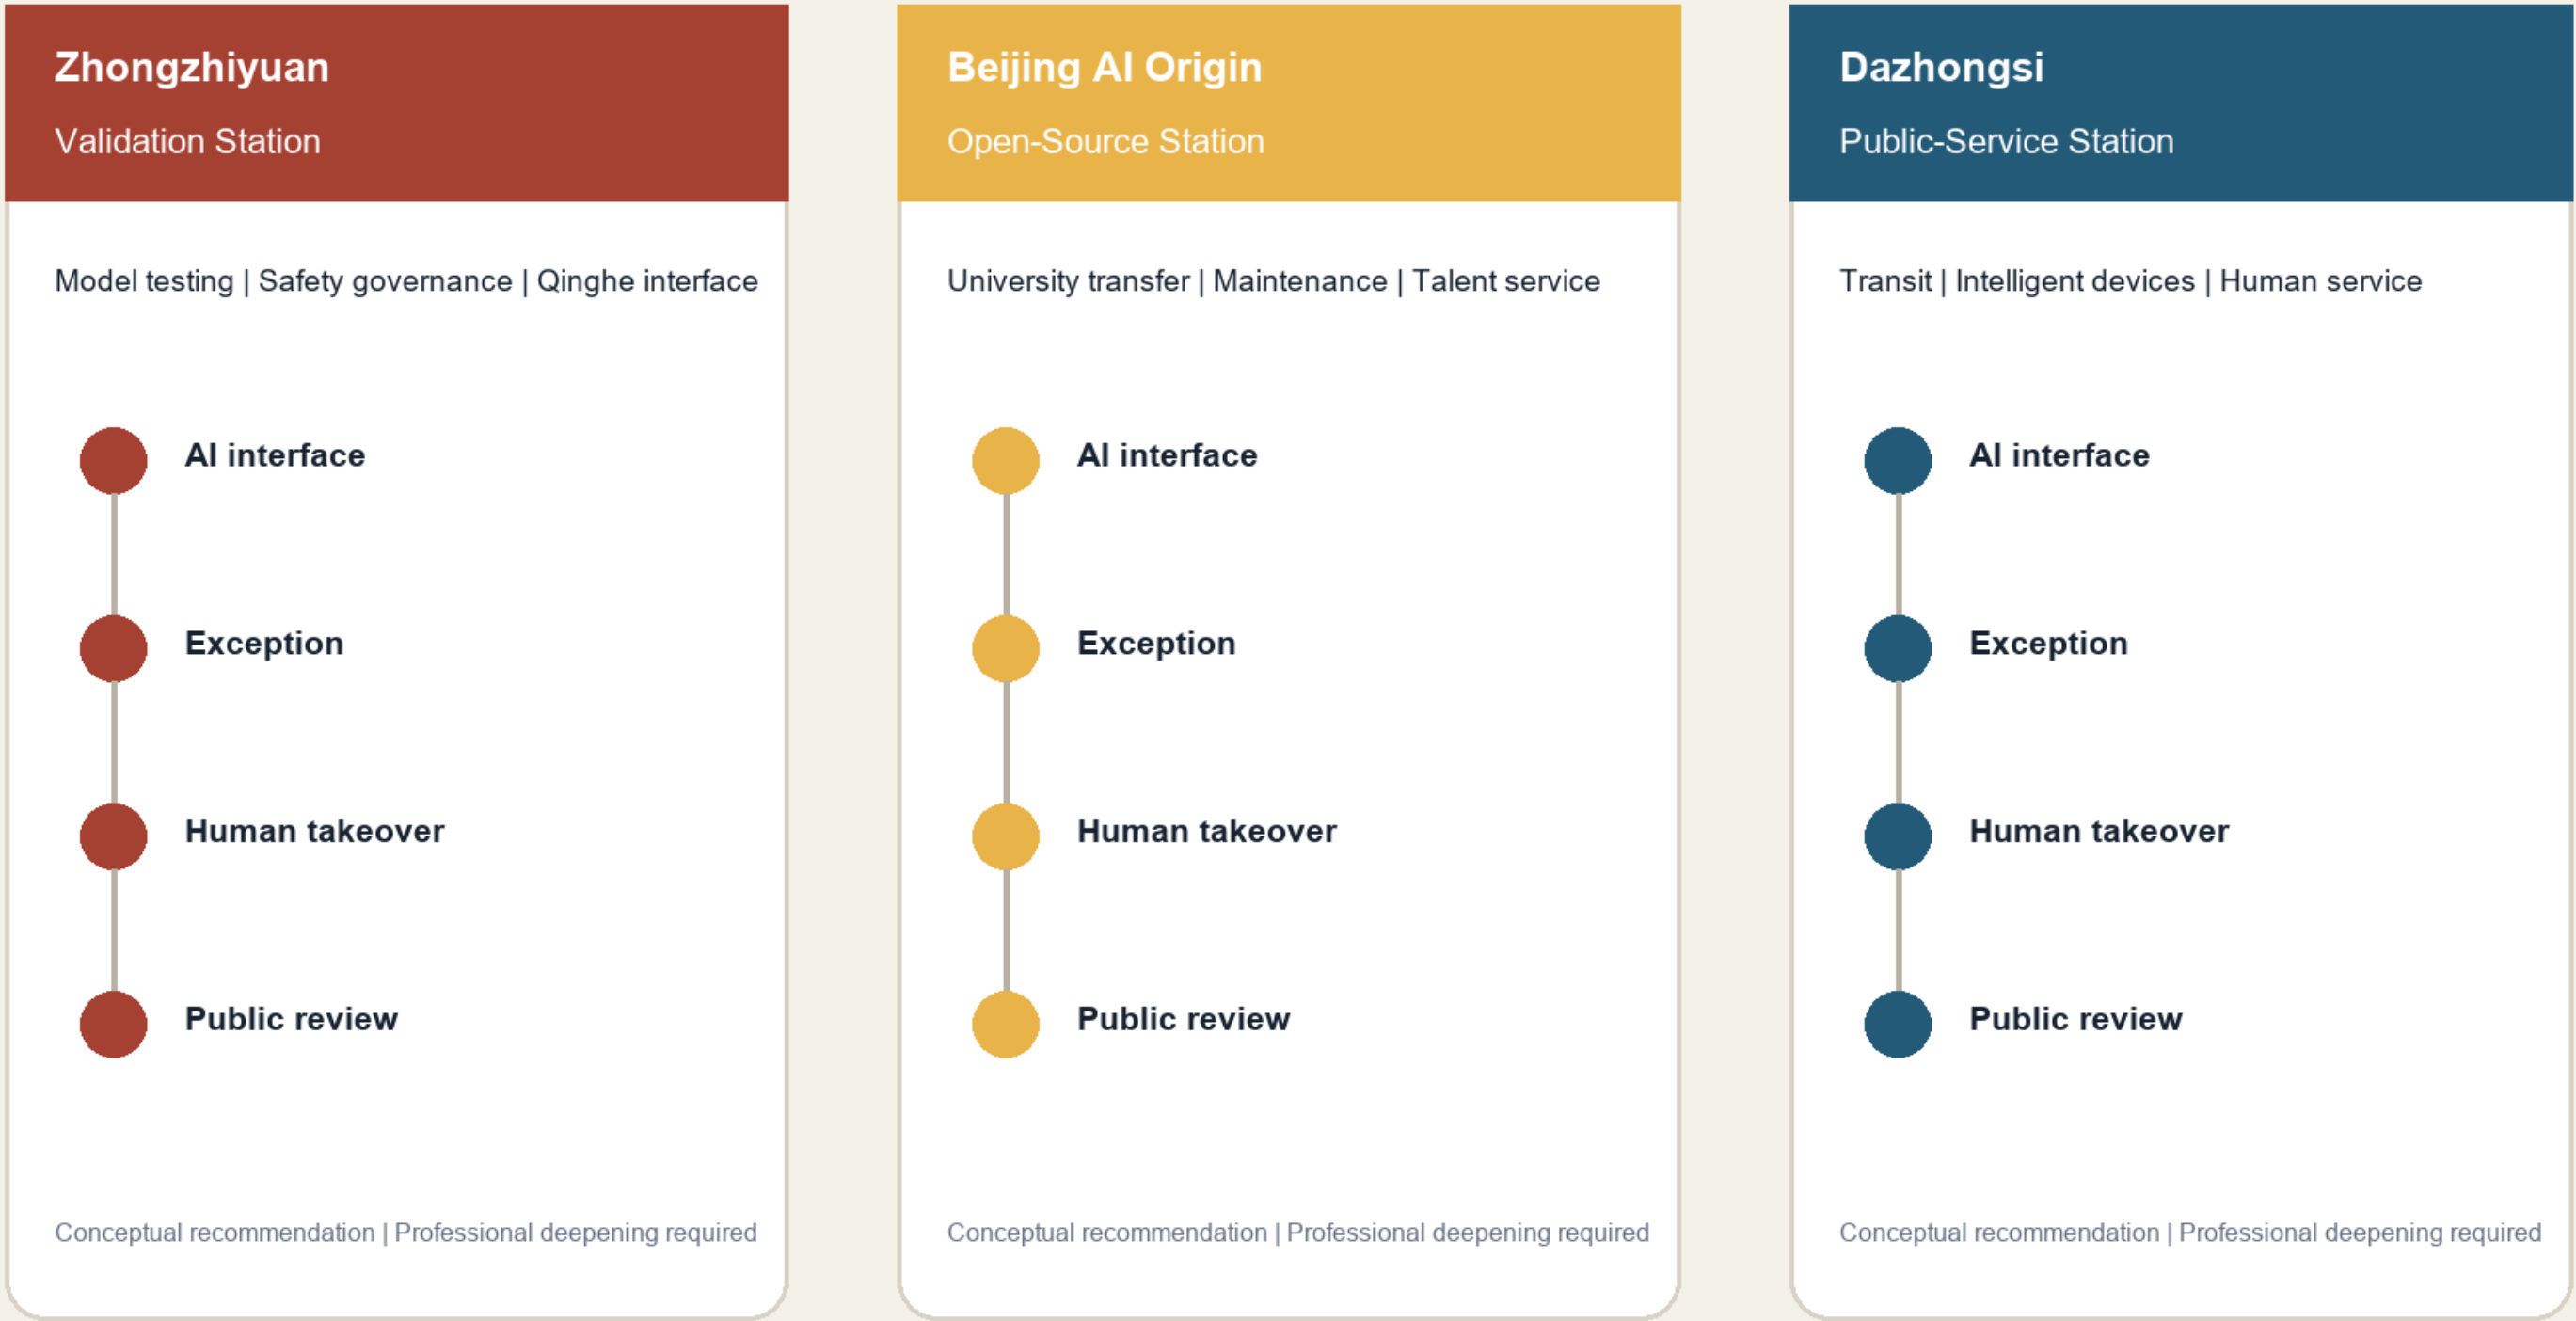

Provisional boundary for conceptual design and recalculation only; not an official planning boundary.

03

Three Handover Stations, Three Accountability Interfaces

Validation · Open Source · Public Service

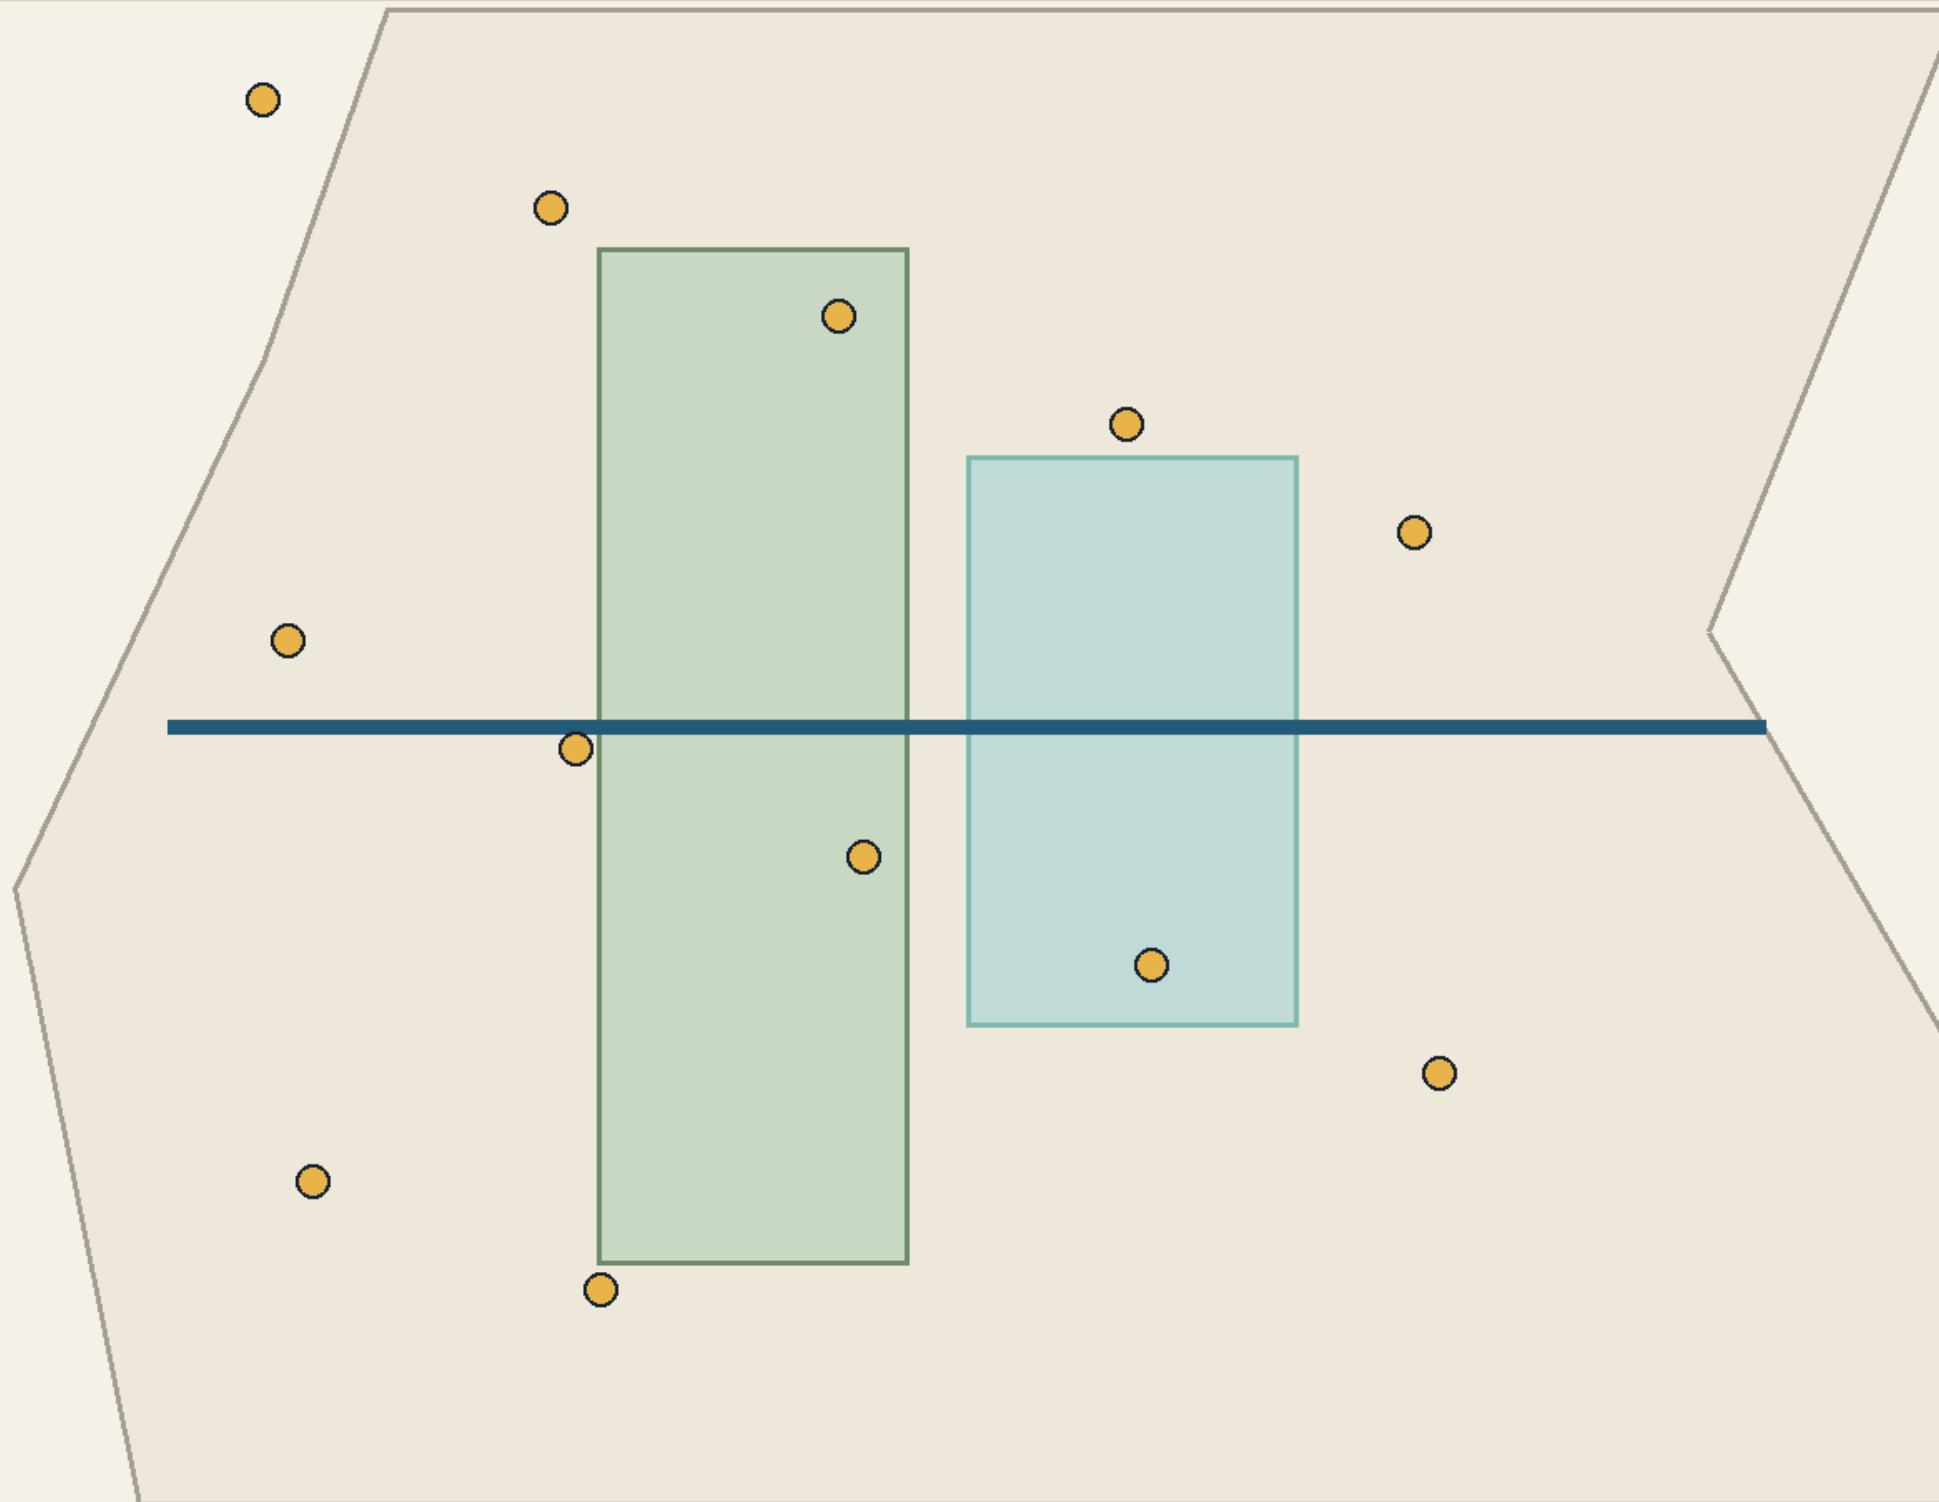

Provisional boundary for conceptual design and recalculation only; not an official planning boundary.

04

One Network for Mobility, Blue-Green Space and Human Takeover

Spatial continuity and service continuity are designed together

Mobility break

Show barrier, accessible
alternative and responsible unit

Blue-green node

Ecology and flood-risk questions
escalate to professionals

Handover point

Non-digital wayfinding, human
call, pause and opt-out

Engineering boundary

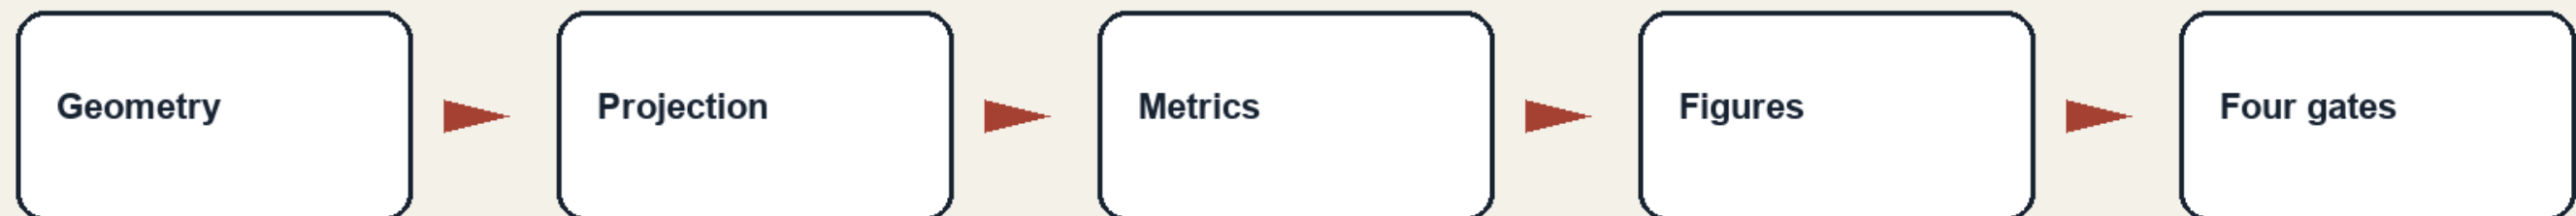

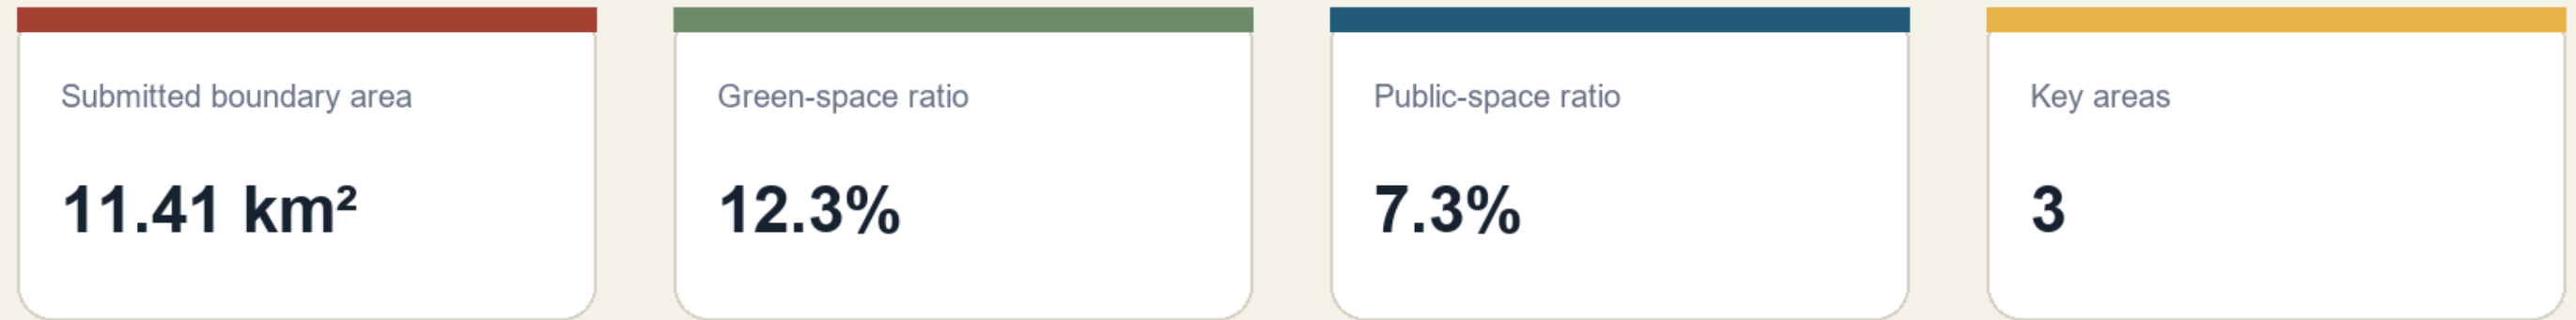

Road boundaries, structures and
utilities await official files

Provisional boundary for conceptual design and recalculation only; not an official planning boundary.

05

Metrics Are Recomputable Evidence, Not Commitments

GeoJSON → EPSG:4548 → metrics.json → figures and self-check

Pending official information

FAR, building height, road boundaries, building decisions, ownership, utility capacity and engineering feasibility remain
