Regulatory district 1668.2 ha (9 blocks); park axis 9 km (Xizhimen-N.5th Ring); two hubs (Dazhongsi, Wudaokou / Beijing AI Origin); three key areas; W wing Zhongguancun service, E wing Xiao-yue-he scene.

Regulatory total 1668.2 ha (9 blocks, background ref, source pending registry review); park 70 ha (total)/53 ha (phase2); design scope follows announced 11.4 km² (provisional geometry 12.0 km²). Structure: one belt (9km green), one axis (Zhongguancun Ave), two hubs, multiple nodes.

Metro Line 13 (elevated, parallel to park); 3-trail+green (walk/jog/cycle continuous); links Huilongguan bike expressway; 9 branch roads opened; Qinghe waterfront + DongSheng woodland (north 30.01 ha). Geometry indicative/provisional.

Fig.5 Core Metrics & Evidence Chain

Fig.5 Core Metrics & Evidence Chain

Metric	Value	Source
Overall design scope (official)	11.4 km2 (announcement text)	Qualification Pre-Announcement 2026-05-09
Key areas total	368.4 ha (Zhongzhiyuan 192.1 + Origin 104.3 + Dazhongsi 72.0)	same
Green / public-space ratio	19.875% / 5.0% (provisional recomputation)	metrics.json (geometry)
Park axis / park area	9 km; 53 ha (phase2) / 70 ha (total)	Haidian Gov 2026-08-06
Regulatory land (background ref)	1668.2 ha, 9 blocks (pending registry review; NOT design scope)	MUNR approval 2026-08-11
Communities / residents; univ.	70 / 450k; 10+ / 40+	same
Jingzhang AI Belt	43.6 km2 (2nd-5th Ring)	Haidian Comm.

Caliber disambiguation

(1) 11.4 km2 = announced overall design scope (official text); (2) 12.0 km2 = provisional geometric recomputation (recalc on official redline);
(3) 16.68 km2 = regulatory-plan extent (background ref, pending registry review, NOT the design scope); early coarse estimates (18.1%/23.9% green, 4.3% public) are superseded - this table is canonical.
