

百年京张AI创新带城市设计方案

1. Design Basis

2. Three-Level Scope

3. Key Areas

4. AI Ecosystem

5. Scenarios

6. Land Use

7. Transport

8. Blue-Green

9. Implementation

10. Metrics

11. Risk

12. References

Official announcement, agent taskbook,
provisional boundaries, source registry

Three-Level Scope

三层范围工作框架

Coordinated Research: 43.6 km2

Overall Design: 11.4 km2

Key Areas: 368.4 ha

1. Zhongzhiyuan AI Acceleration (192.1 ha)

2. Beijing AI Origin Community (104.3 ha)

3. Dazhongsi AI Cluster (72.0 ha)

5-8 global cases, 10+ scenario cards,
5+ personas, 3+ test scenarios

Land use topology, building footprints,
retain-renovate-demolish strategy

Road network, rail integration,
municipal and new infrastructure

Jingzhang park vitality belt,
green-blue network, public space system

6 renewal projects, 3 phases,
operation and governance

site_area_sqm, green_ratio,
public_space_ratio, compliance matrix

Provisional boundary disclaimer,
missing data, compliance boundary
