

Concept: From 1909 to 2026, from the railway of national pride to the belt of genesis.

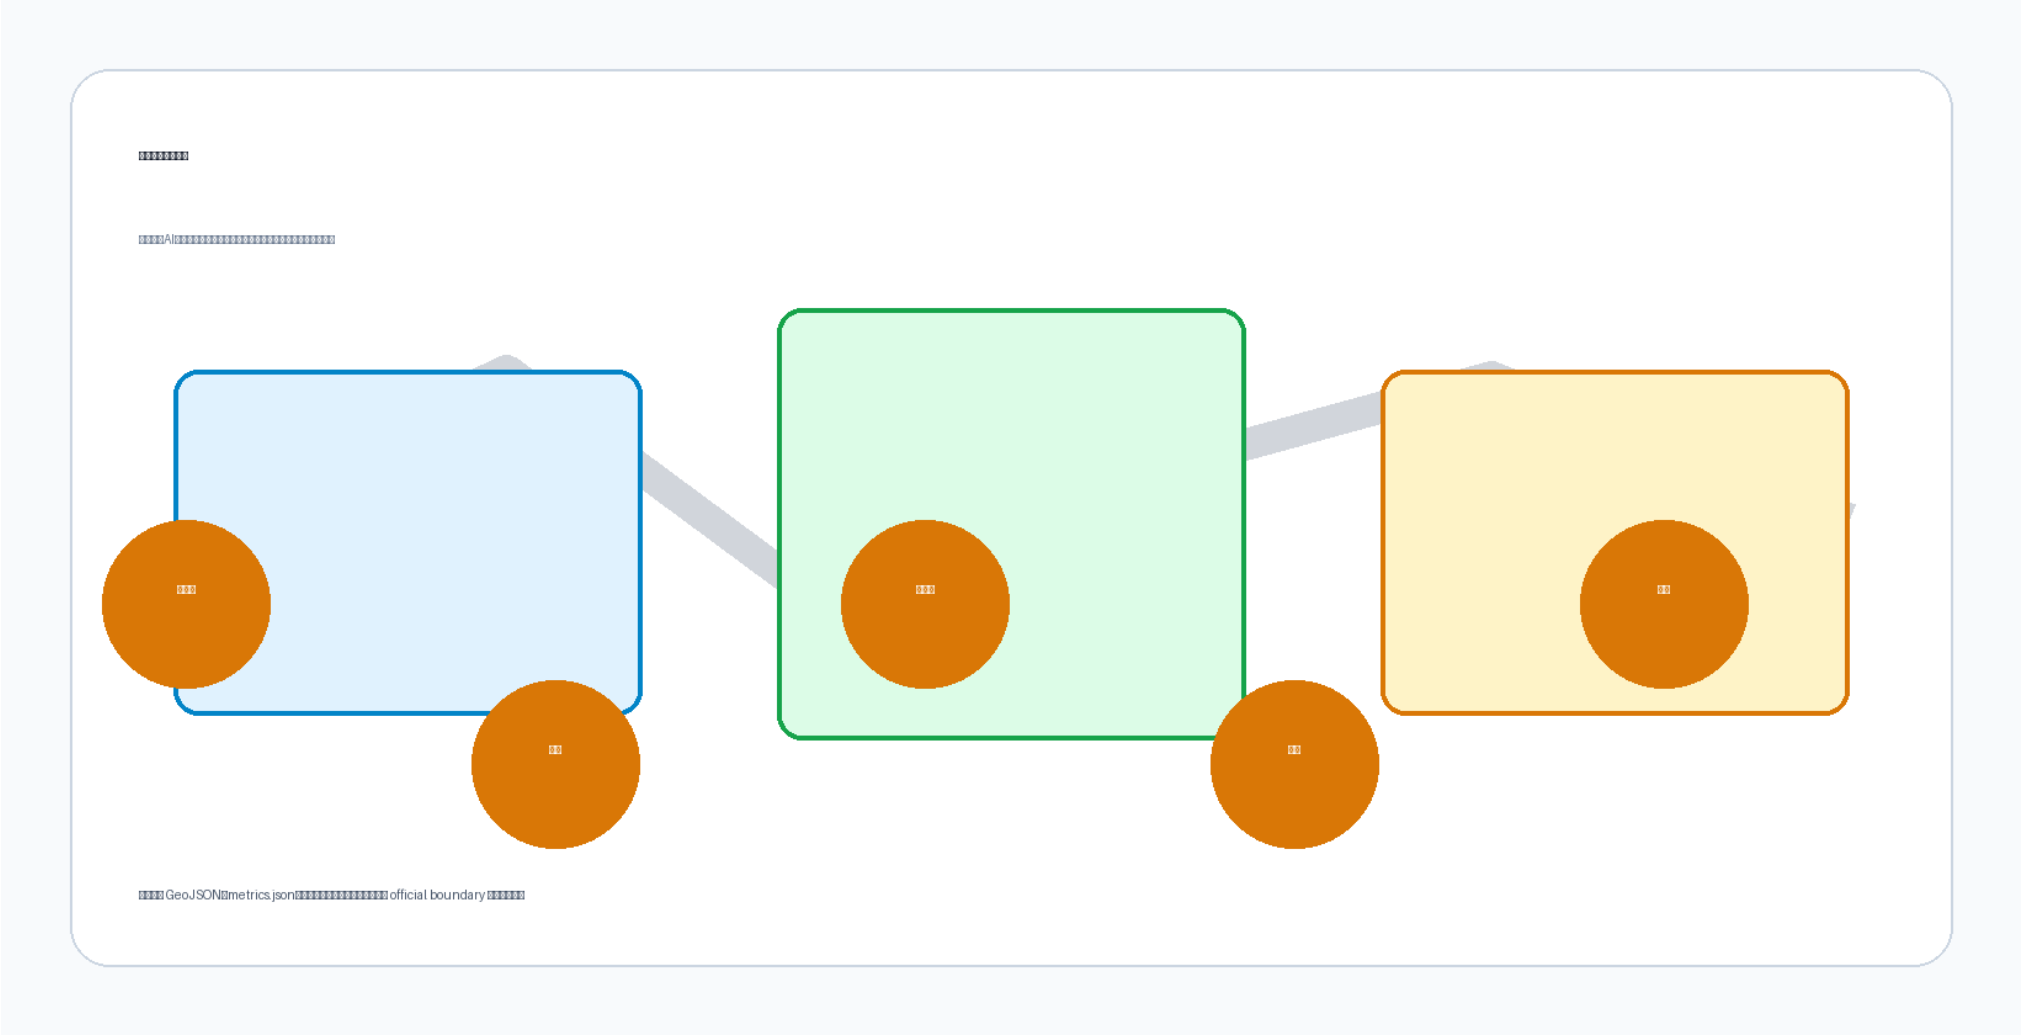

In 1909, Zhan Tianyou completed the JingZhang Railway - China's first self-designed trunk railway.
In 2026, the same corridor becomes the world's first real urban design field open to AI agents.
Spatial structure: 'One Ridge, Three Cores, Two Wings in Symbiosis.'
The JingZhang Smart Cultural Ridge is a 9km north-south axis integrating AI experience, slow-traffic, culture, ecology, and smart infrastructure. The three cores are Zhongzhiyuan, AI Origin Community, and Dazhongsi. The two wings provide technology services and scenario validation.

Site Area	Green Ratio	Public Space	Buildings	Key Areas	Road Ratio
11.43 km²	13.1 %	1.4 %	44	3	8.3 %

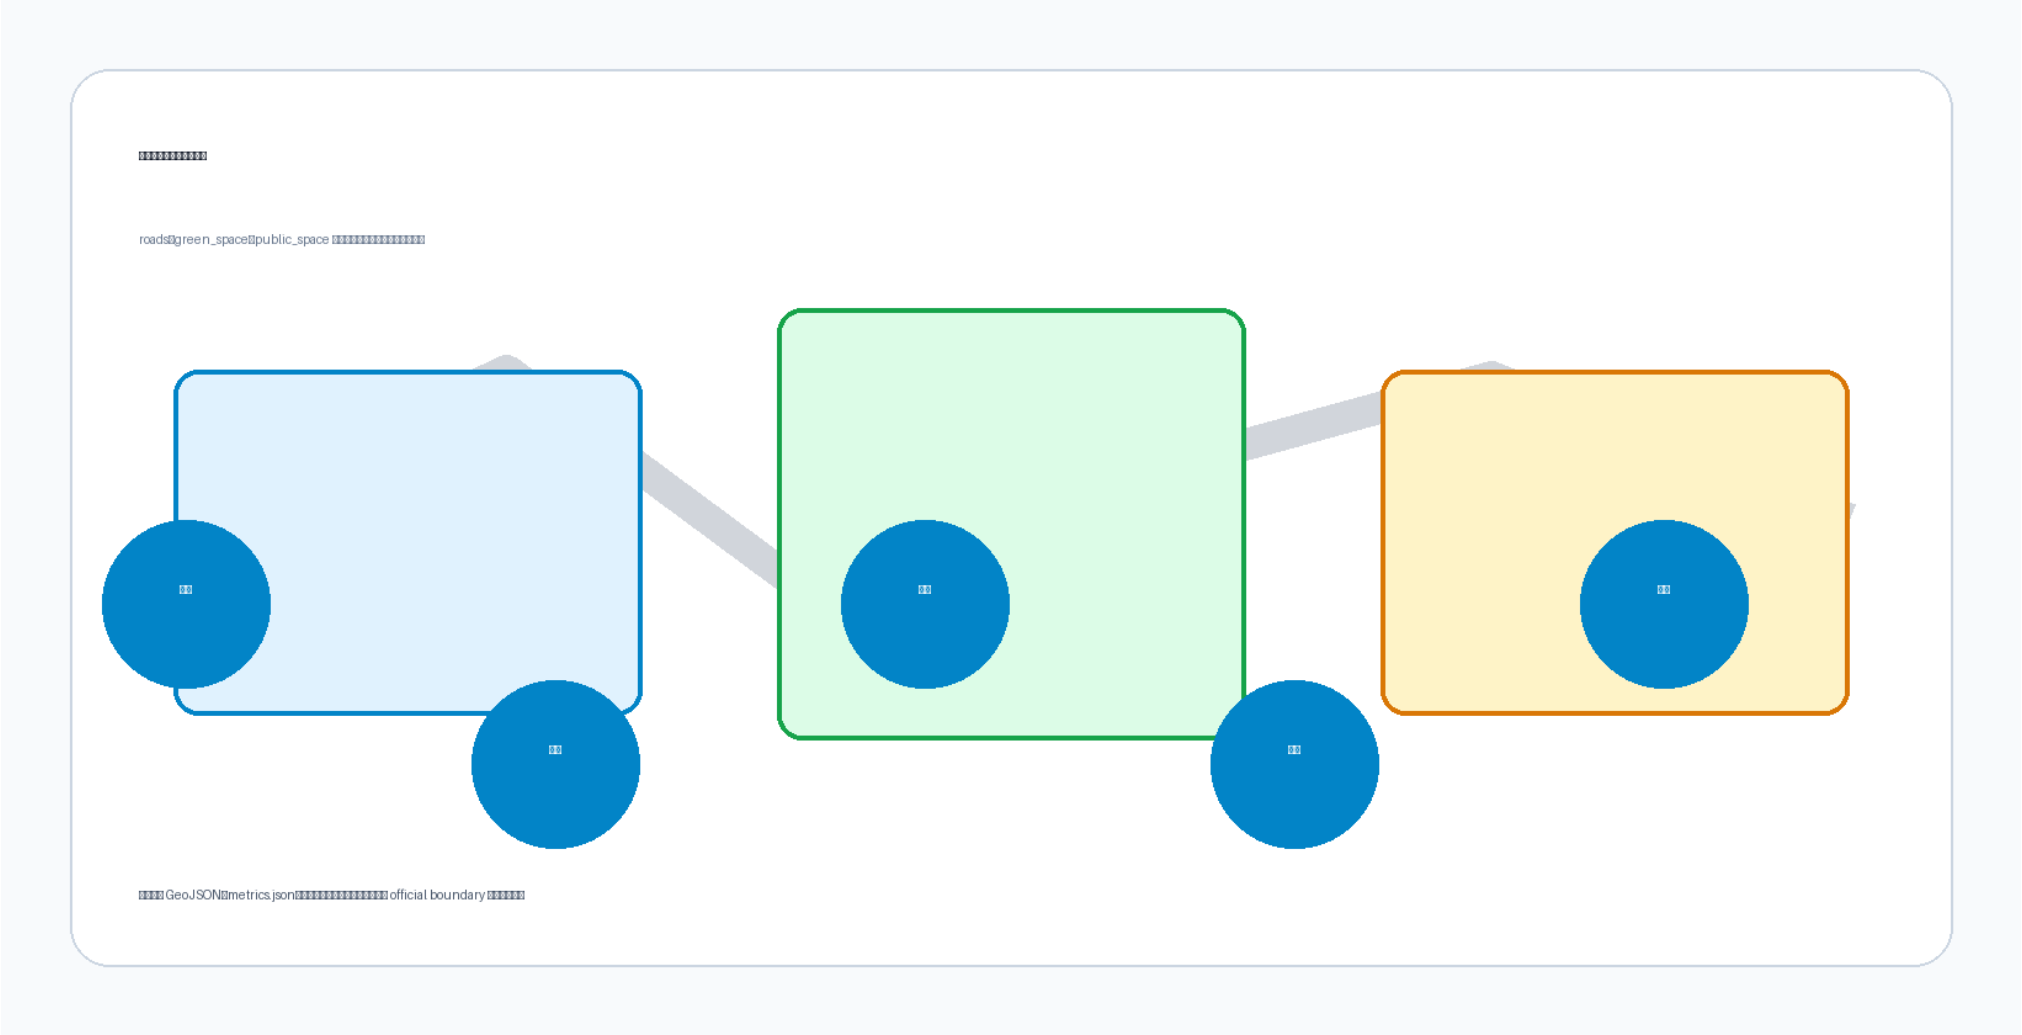

Land Use Allocation (provisional boundary):

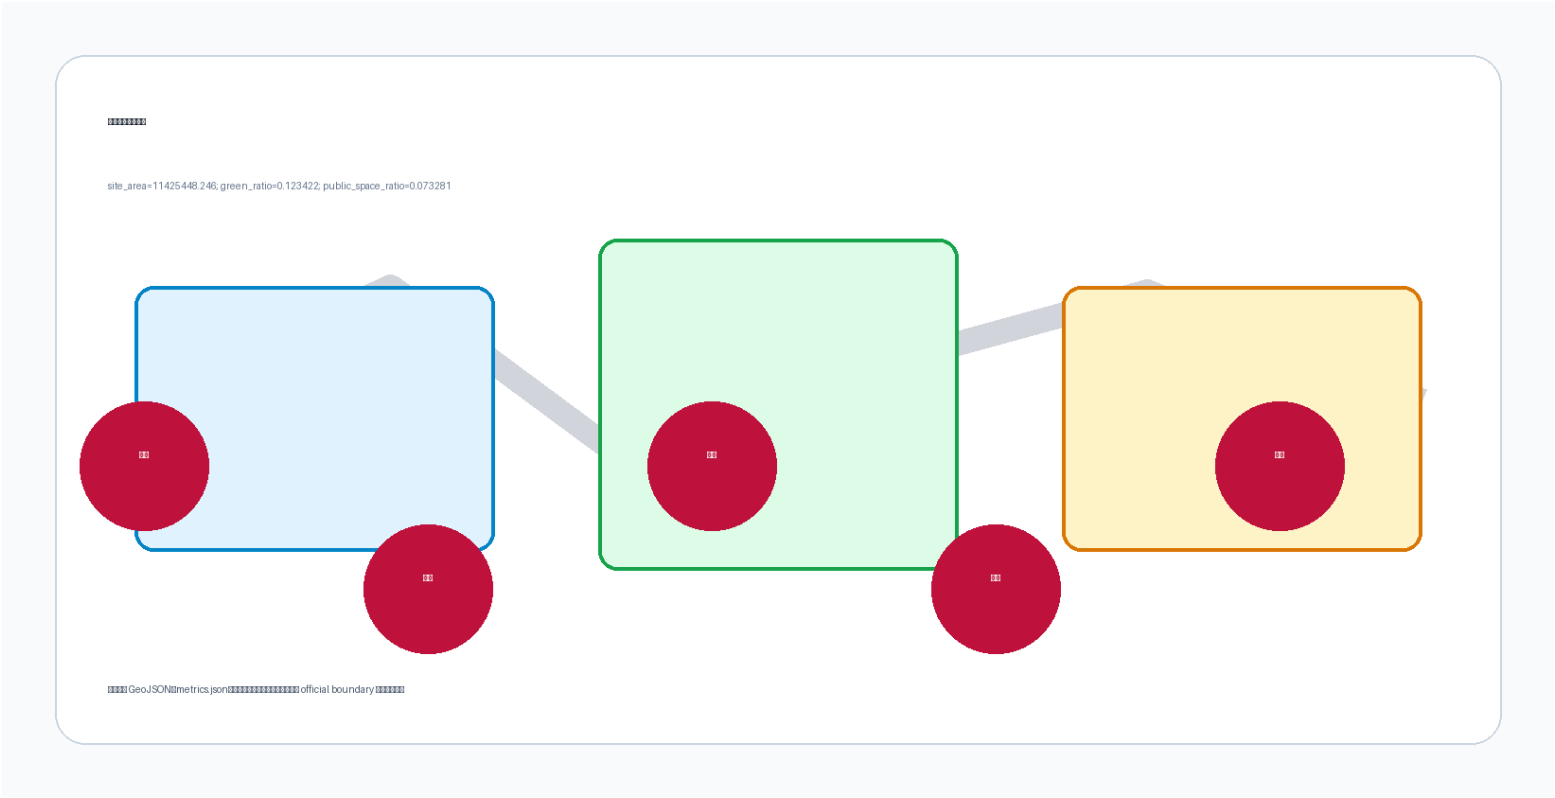

- Research (35%) | Commercial (15%) | Green (13%) | Residential (15%) | Public Services (12%) | Roads (10%)
- Three-tier scope: Coordinated Research 43.6 km² | Overall Design 11.4 km² | Key Areas 368.4 ha
- FAR and building height: UNKNOWN - pending official regulatory planning conditions.
- All geometry is provisional; not official redline. Recalculate upon formal data release.

- Zhongzhiyuan (192.1 ha)** Full-stack AI self-reliant innovation. Compute core + R&D ring + service arc. Heights 30-100m conceptual.
- AI Origin Community (104.3 ha)** AI-class AI ecosystem near Tsinghua/PKU/CAS. One core, one circle, twin axes. Heights 18-60m conceptual.
- Dazhongsi (72.0 ha)** Intelligent-native consumption and business. Commercial core + business arc + experience belt. Heights 24-80m conceptual.

- Road network: One vertical (JingZhang AI Boulevard, 20km/h slow-traffic priority) + four horizontal connectors + two rings.
- Green system: One ridge (JingZhang Railway Heritage Park, ~80m max width) + three corridors + multiple nodes. Green ratio 13.1%.
- Public space: AI Origin Plaza, Zhongzhiyuan Entrance Plaza, Dazhongsi Smart Plaza, Railway Heritage Trail. Ratio 1.4%.
- 5 AI pilgrimage landmarks: Genesis Gate, Zhan Tianyou Dialogue Pavilion, Open-Source Honor Wall, AI Milestone, Global Developer Star Map.
- New infrastructure: Distributed edge compute, smart sensors (no facial recognition), digital twin platform, solar+storage microgrid.

12 AI Scenario Cards (3 industry validation scenarios marked *):

1. AI-Native Traffic Micro-Circulation Control

2. AI Enterprise Service Copilot

3. AI+ Healthcare Validation Corridor

4. AI+ Education Campus Lab

5. AI Public Space Interactive Installations

6. AI Safety Red-Team Testing Ground*
7. Smart Energy Microgrid Management*

8. AI-Assisted Urban Governance Sandbox

9. Agent Consumption Experience Lab*

10. AI Multilingual Public Service Station

11. Developer Open-Source Collaboration Center

12. AI Cultural Narrative Engine

All scenarios: no facial recognition, data anonymized, human review required, testing scenarios clearly labeled.

6 user personas: AI Researcher, AI Entrepreneur, AI Developer, Enterprise Decision-Maker, Local Resident, International Talent.

Three-Phase Implementation

Phase I (2026-2028): Genesis Demonstration

- Green ridge demo segment, Zhongzhiyuan startup zone, AI Origin Plaza
- First 3 AI scenarios launched for testing; Genesis Gate completed

Phase II (2028-2030): Ecosystem Networked

- AI Origin Community fully built; green ridge connected end-to-end
- 8+ AI scenarios in operation; first JingZhang AI Co-Creation Festival

Phase III (2030-2035): Territory-Wide Flourishing

- Dazhongsi fully built; 12 AI scenarios all operational
- Mature global AI innovation event system; replicable AI-native city standards

Compliance & Risk Declarations

- All geometry uses provisional rough boundaries; NOT official redline. Recalculate after formal data release.
- FAR and building height are UNKNOWN pending official controls. All building massing is conceptual.
- All 44 buildings marked as new_build conceptual indicators; existing building survey required for retain/renovate/demolish.
- All AI scenarios comply with Generative AI Interim Measures; no facial recognition; human review required.
- This proposal does not constitute statutory planning, government approval, or investment commitment.
- Generated by AI Agent (Coze/Doubao) under COMMUNITY-DISPLAY-ONLY license. No unauthorized fonts/images/trademarks.
