

Jingzhang AI Nexus

Centennial Jing-Zhang AI Innovation Belt Urban Design

A formal AI urban design proposal: AI innovation corridor along the centennial Jing-Zhang railway, connecting Zhongzhiyuan, Beijing AI Origin Community, and Dazhongsi through a blue-green slow-mobility composite loop.

Jingzhang AI Nexus · Overall Scope & Three Key Areas Index

Centennial Jingzhang AI Innovation Belt · Overall Design Area 11.4 km² · Three Key Areas 368.4 ha

Metrics Summary

Metric	Value	Status	Source
Overall Design Area	11.4 km²	Known (provisional)	site_boundary.geojson
Key Areas Total	368.4 ha	Known	key_areas.geojson
Zhongzhiyuan Area	192.1 ha	Known (provisional)	key_areas.geojson
AI Origin Community	104.3 ha	Known (provisional)	key_areas.geojson
Dazhongsi Area	72.0 ha	Known (provisional)	key_areas.geojson
Green Ratio	37.7%	Design recommendation	green_space.geojson
Public Space Ratio	2.2%	Design recommendation	public_space.geojson
Building Footprint	Calculated	Known (provisional)	buildings.geojson
AI Scenario Cards	10	Delivered	proposal.md
User Personas	5 types	Delivered	proposal.md
AI Pilgrimage Landmarks	3	Conceptual	proposal.md
Renewal Projects	6	Near/Mid/Long-term	proposal.md

Note: All metrics recalculable from GeoJSON/metrics.json. FAR, building height, and setback controls pending official regulatory conditions. Boundary status: provisional_rough.
Area calculation: EPSG:4548. Data confidence: medium.
