

BUILD A CIVIC-ADOPTION LAYER ON THE APPROVED SPATIAL STRUCTURE

9 km Jing-Zhang green belt + one belt/one axis/two centres/multiple nodes + stoppable operating overlay

PUBLIC CONTEXT × DESIGN OV

1668.2 ha
published block-plan area

9 km
Jing-Zhang green belt

1 + 1 + 2
belt / axis / centres

6
fishbone direction interfaces

OPERATING OVERLAY

GO NO-GO
Approved context is not a permit, build or field operation for this proposal.

EXISTING PUBLISHED APPROVED CONTEXT DESIGN PROPOSAL UNKNOWN

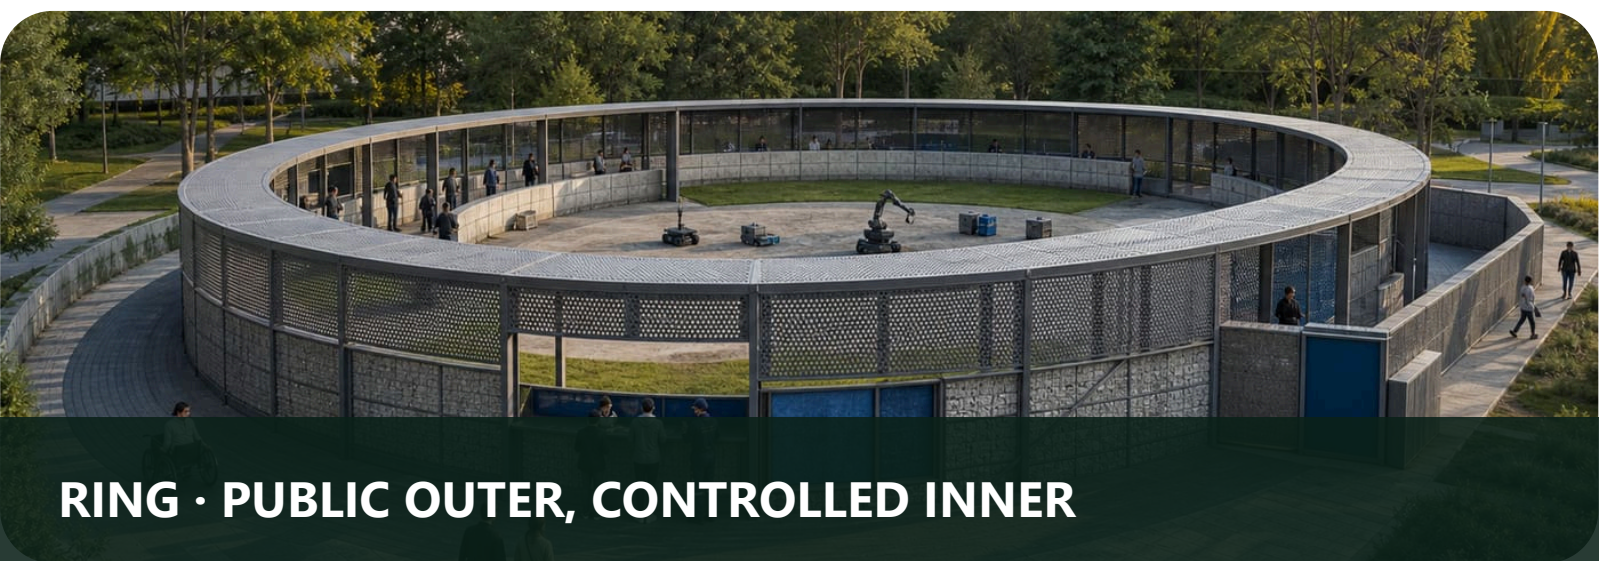

Sources: Beijing government portal 2026-08-12; Beijing Forestry and Parks Bureau 2026-07-14. OSM is directional context only.

THREE LANDMARKS IN PUBLIC LIFE • EXPERIENCE, PLAN, SECTION + SERVICE EDGE TOGETHER

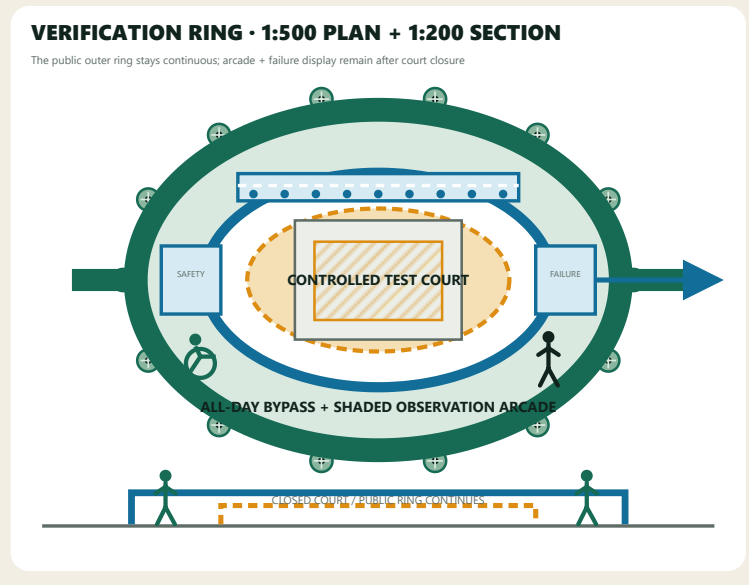

Experience views convey perception only; vectors govern route, scale, state and exit

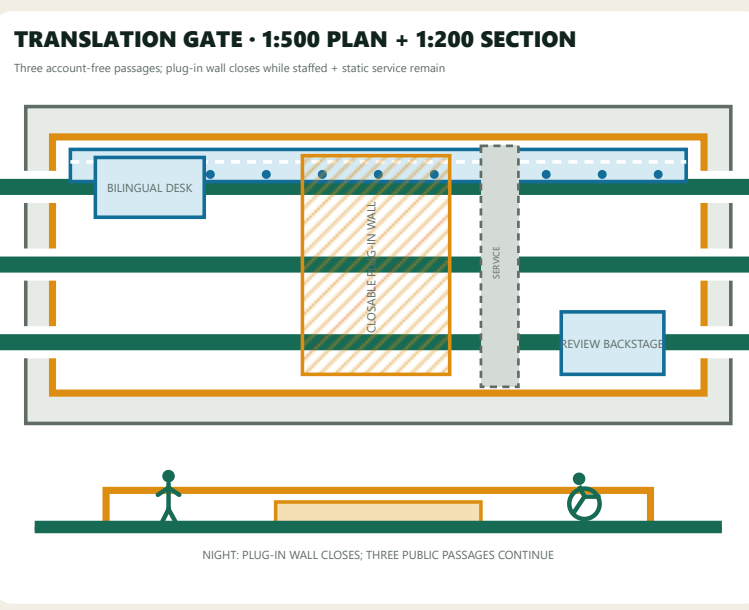

DAZHONGSI RECEIPT PORCH • REVERSIBLE LAYER BETWEEN PARK, RAIL INTERFACE + RENEWAL FRONTAGE
CONCEPT-GENERATED / NOT FIELD EVIDENCE

RING • PUBLIC OUTER, CONTROLLED INNER

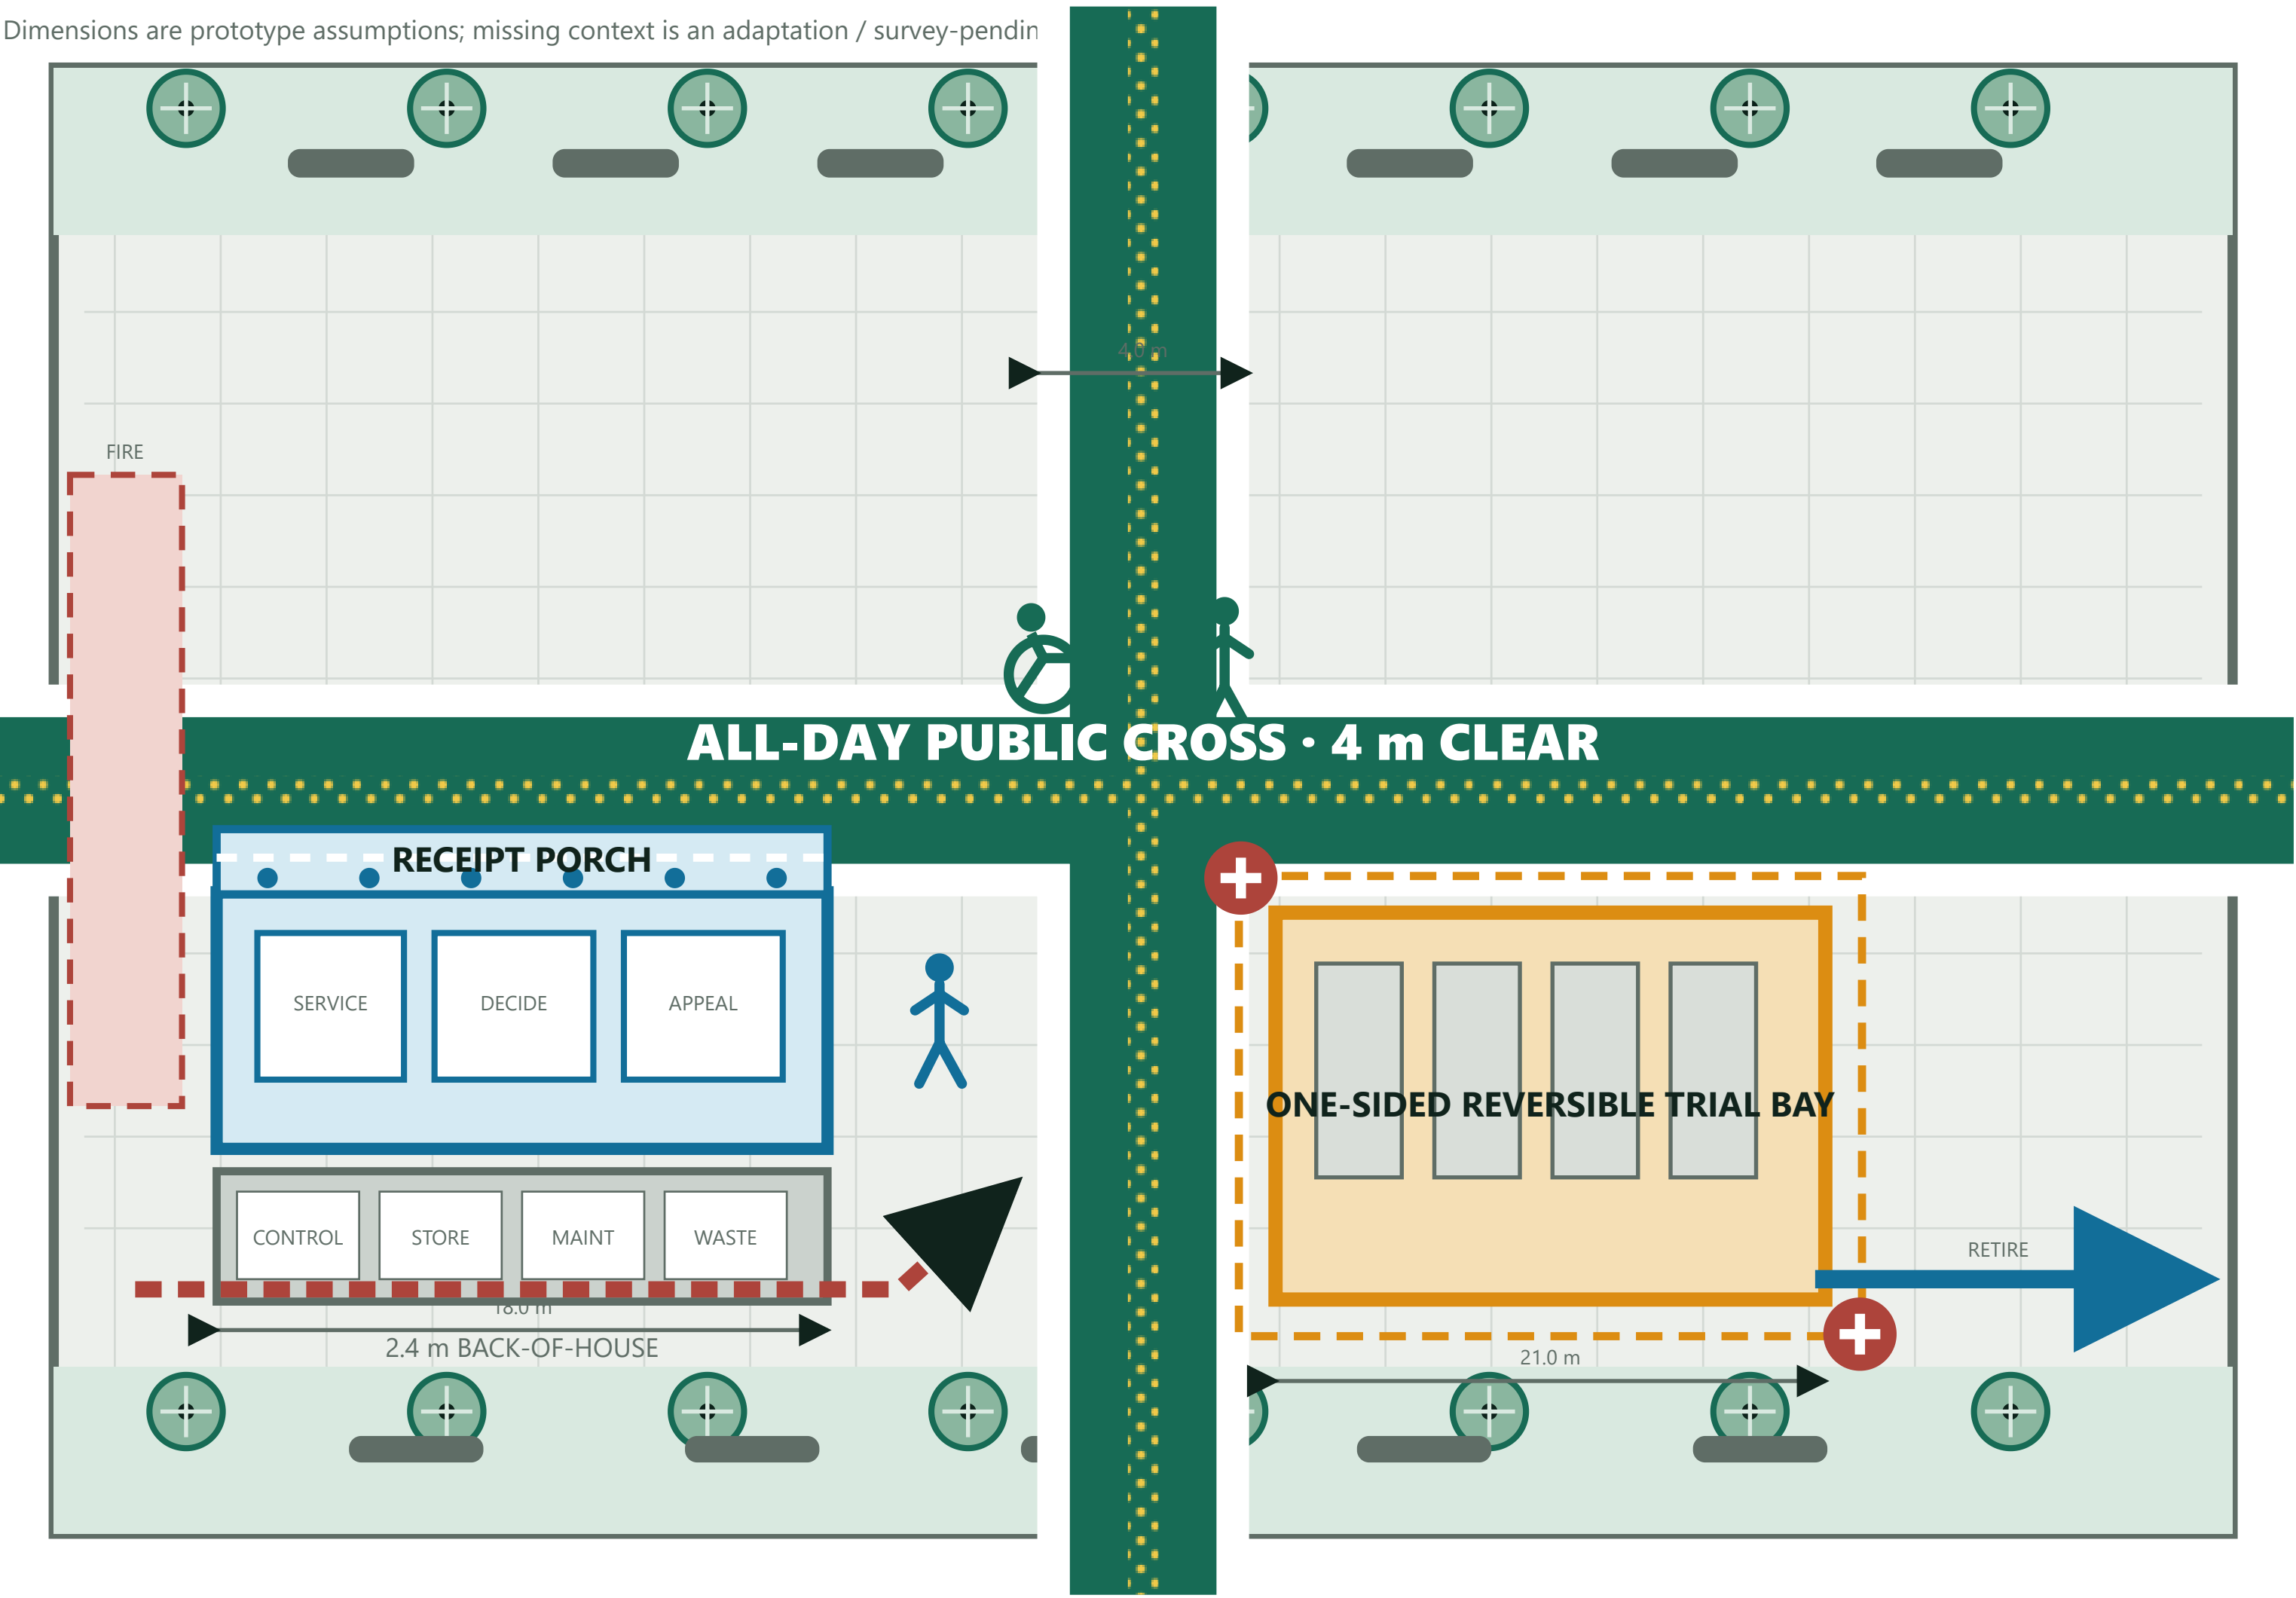

GATE • THREE PASSAGES, PLUG-INS CLOSABLE

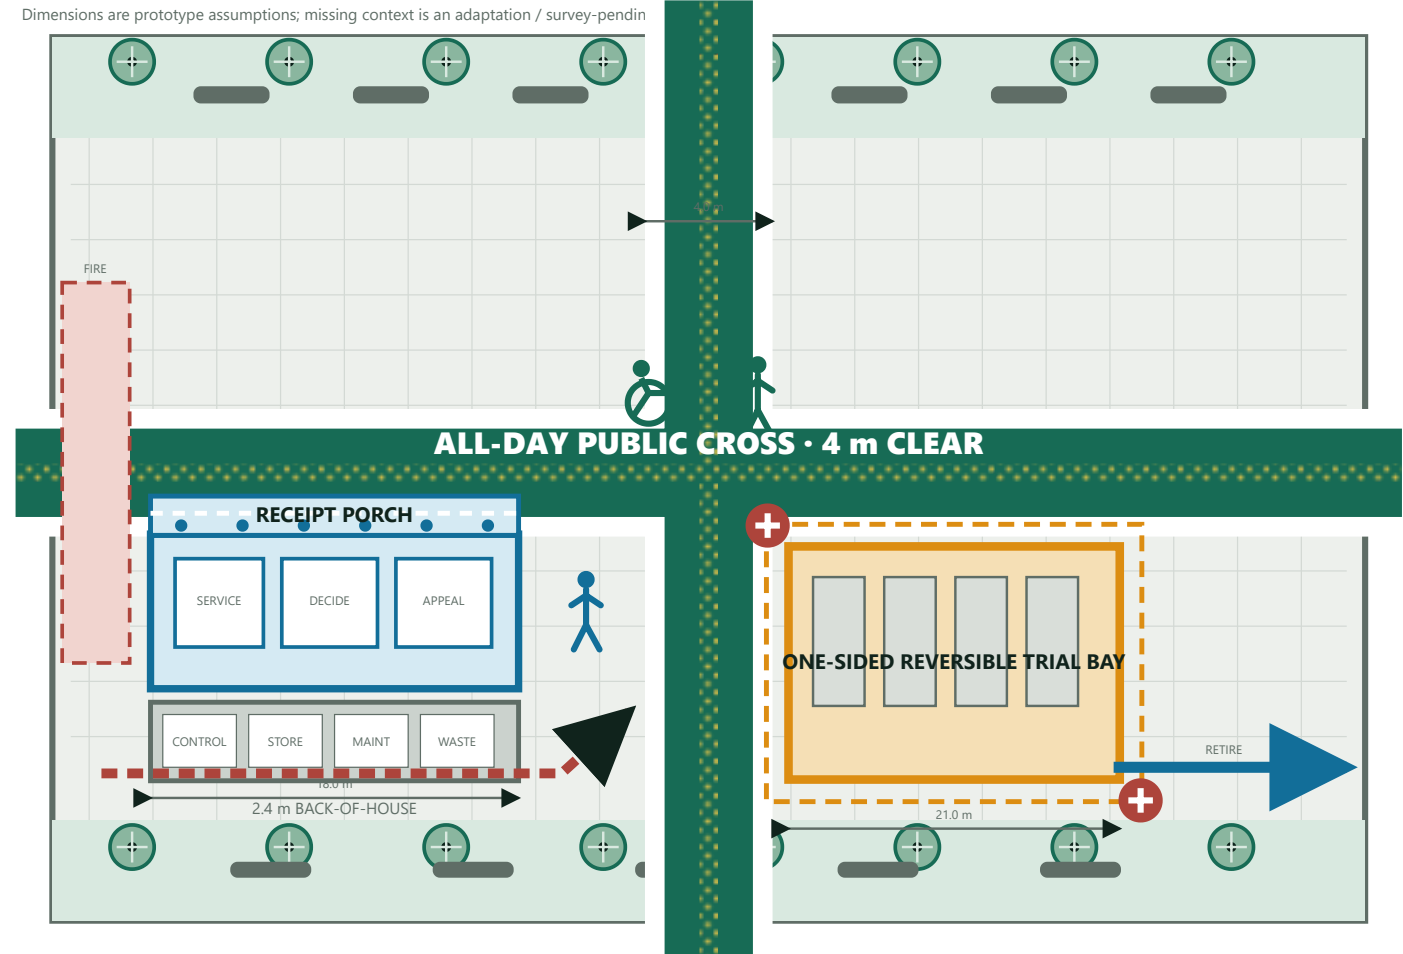

DAZHONGSI BUILDABLE CIVIC CROSS • 1:500 ARCHITECTURE + GROUND PLAN

Dimensions are prototype assumptions; missing context is an adaptation / survey-pending

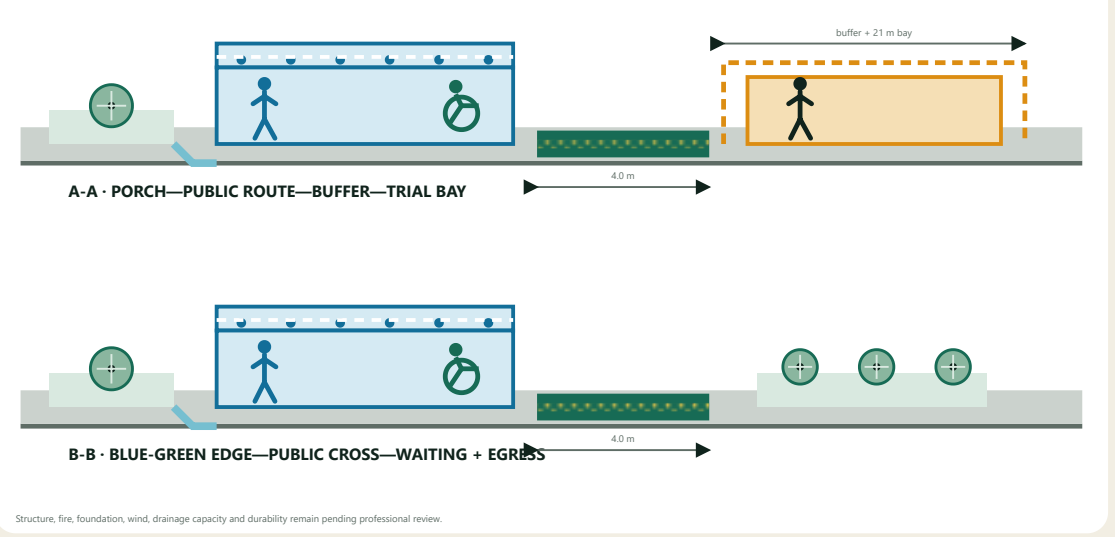

DAZHONGSI BUILDABLE CIVIC CROSS • 1:500 ARCHITECTURE + GROUND PLAN

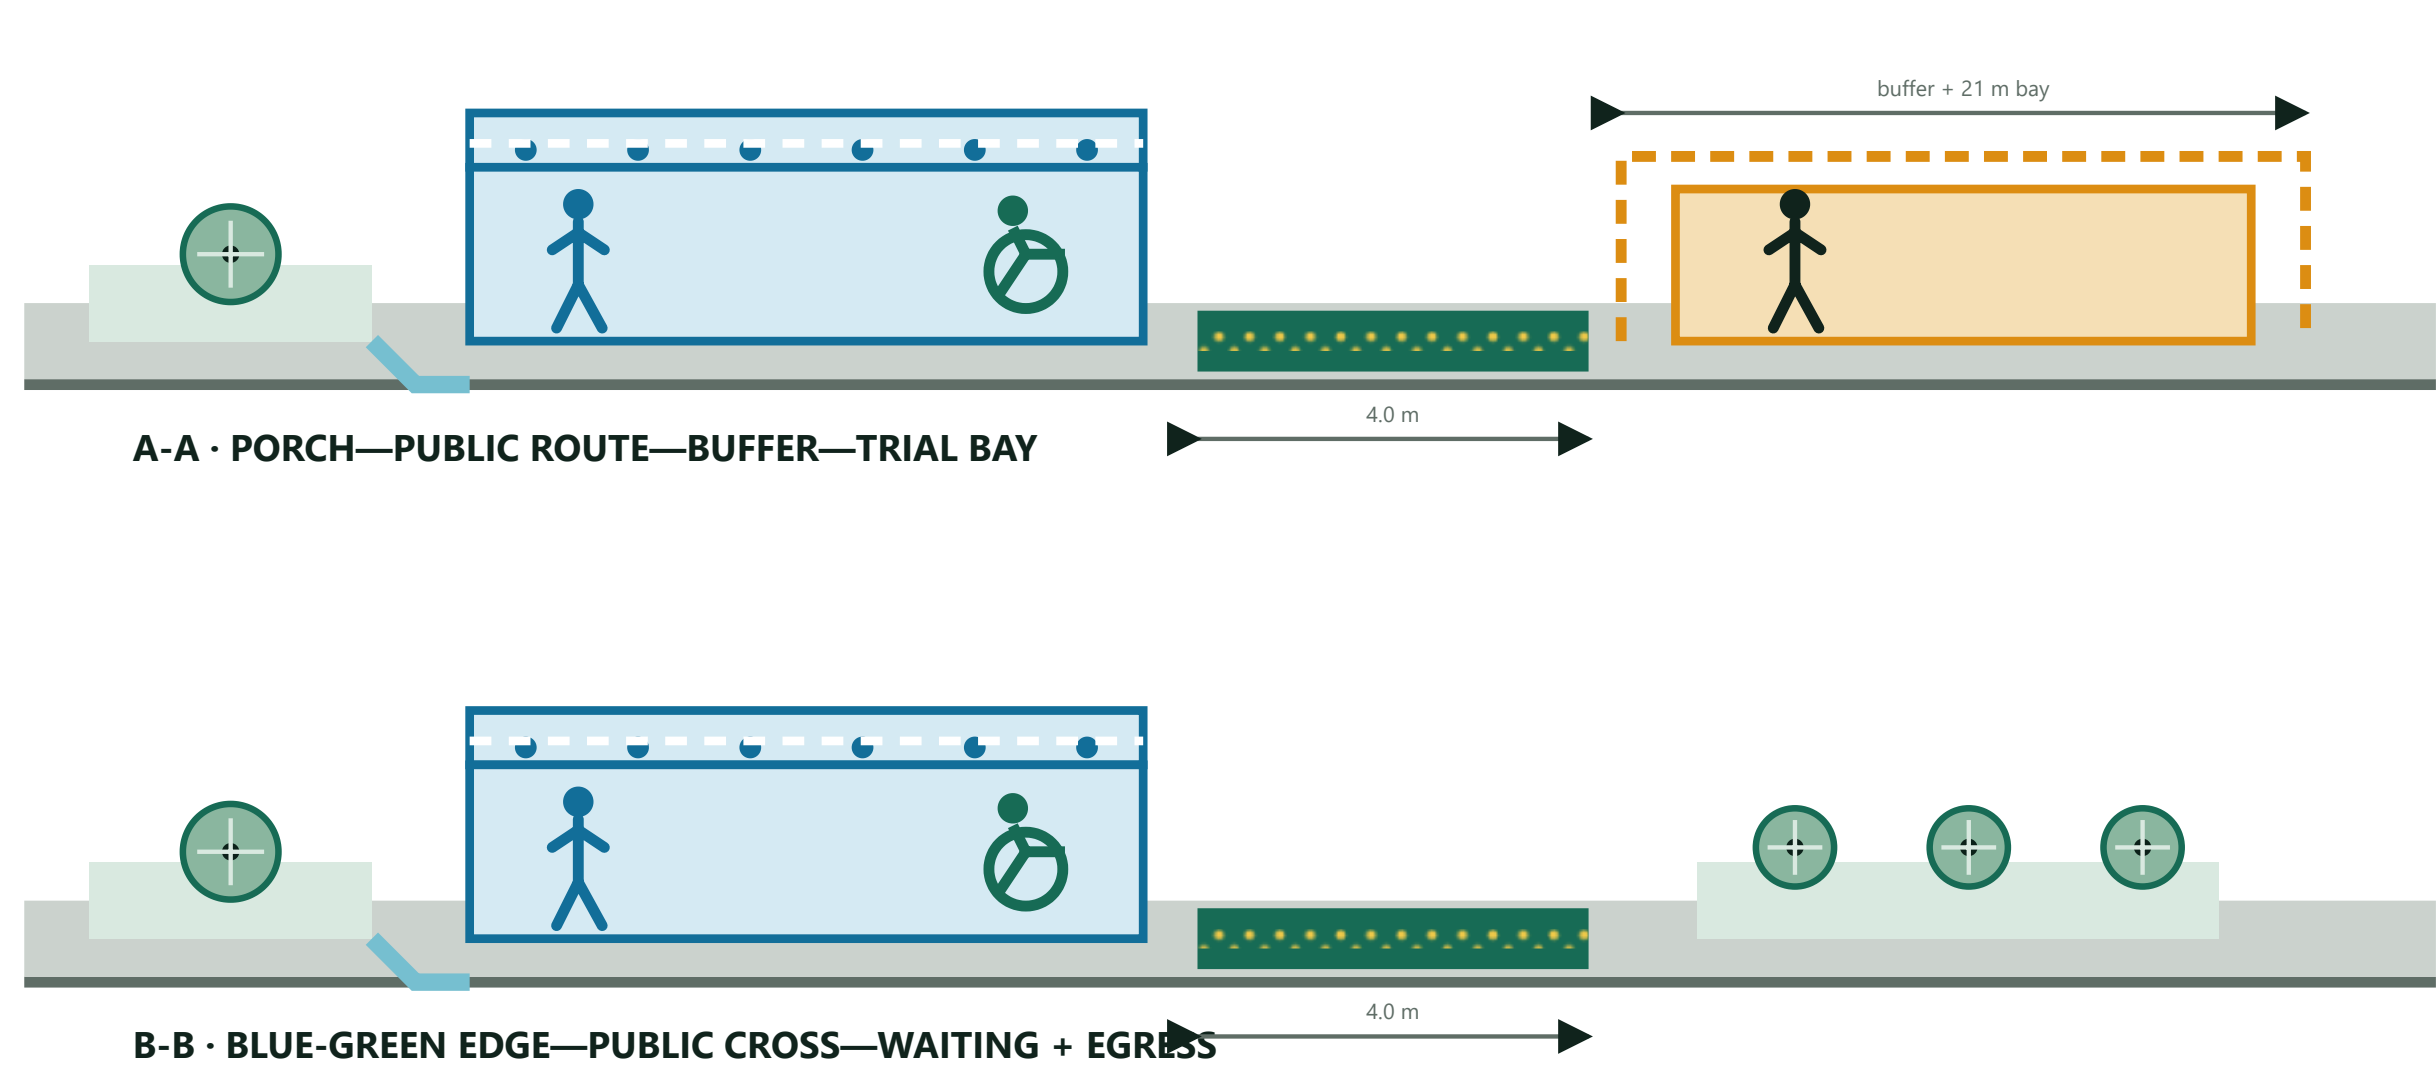

Dimensions are prototype assumptions; missing context is an adaptation / survey-pending

TWO 1:200 SECTIONS • PUBLIC BASELINE + PLUG-IN HAVE A LEGIBLE PHYSICAL EDGE

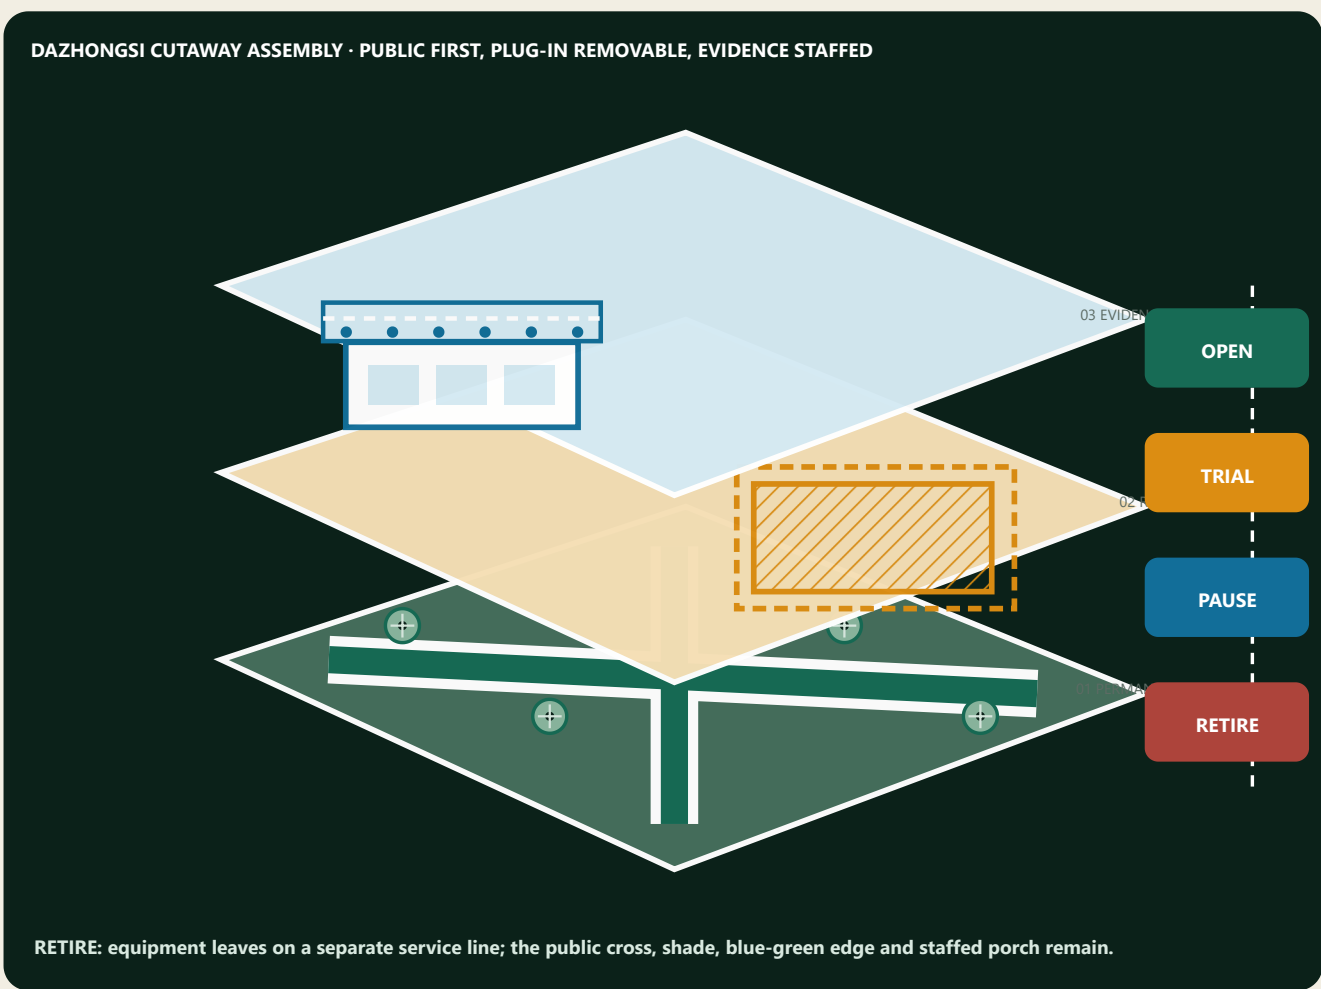

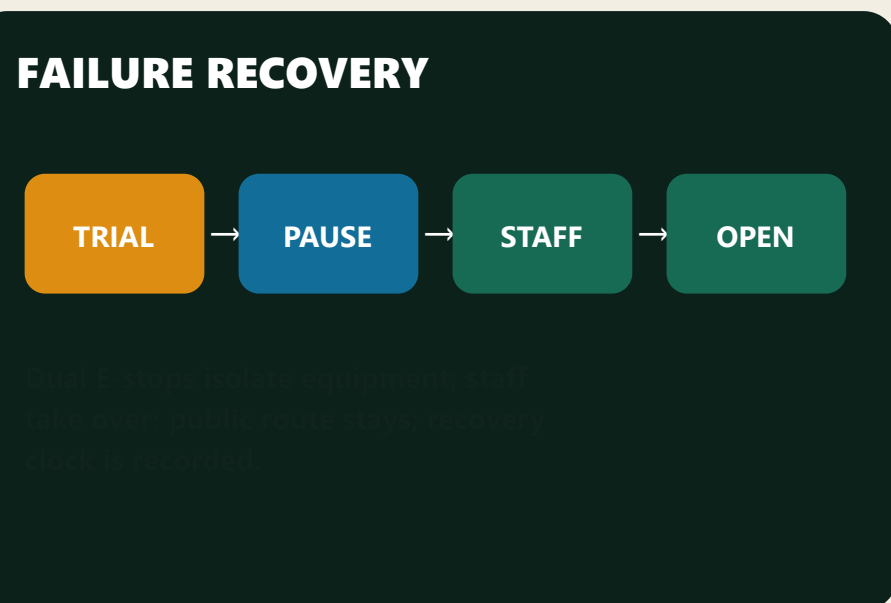

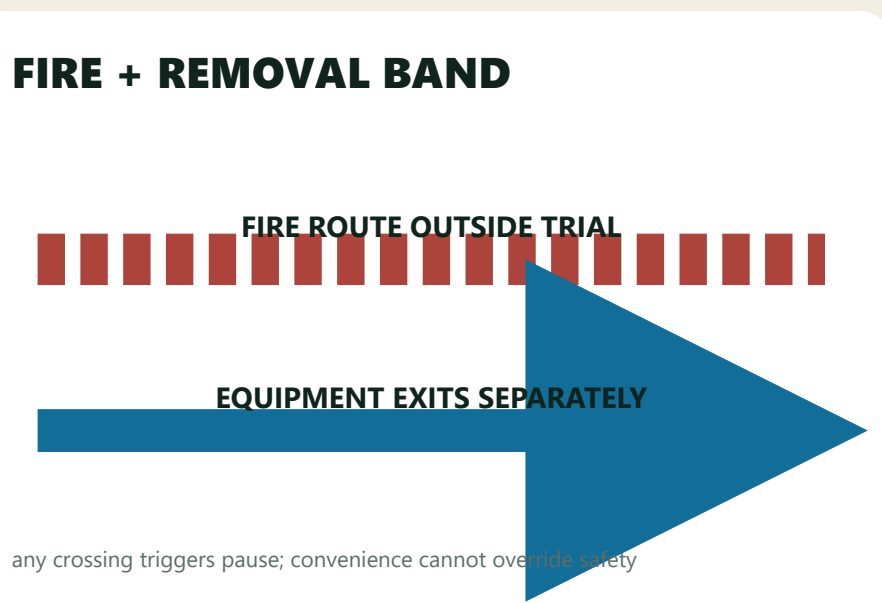

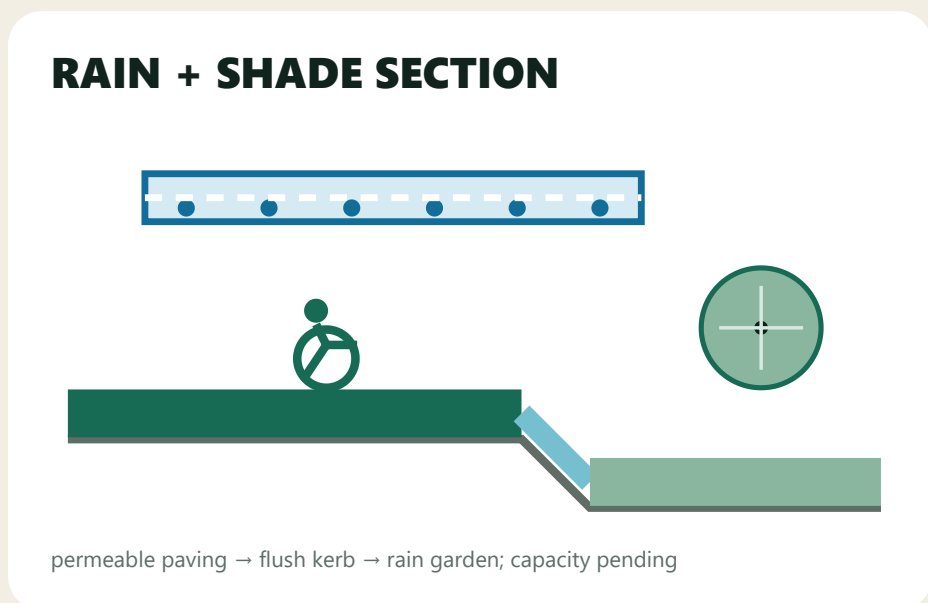

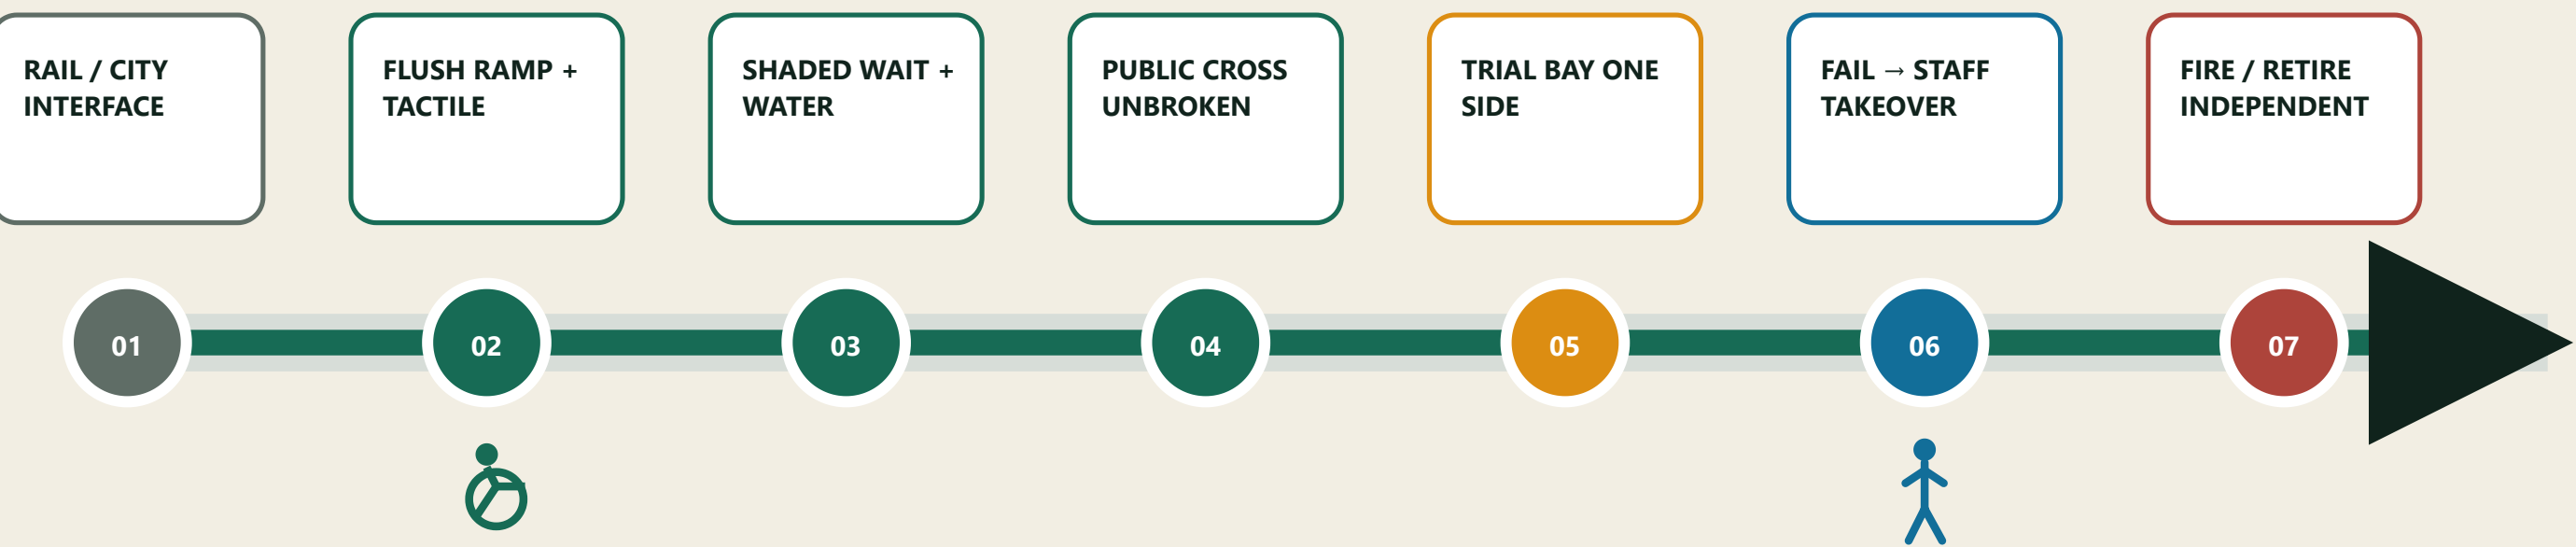

TWO 1:200 SECTIONS • PUBLIC BASELINE + PLUG-IN HAVE A LEGIBLE PHYSICAL EDGE

Structure, fire, foundation, wind, drainage capacity and durability remain pending professional review.

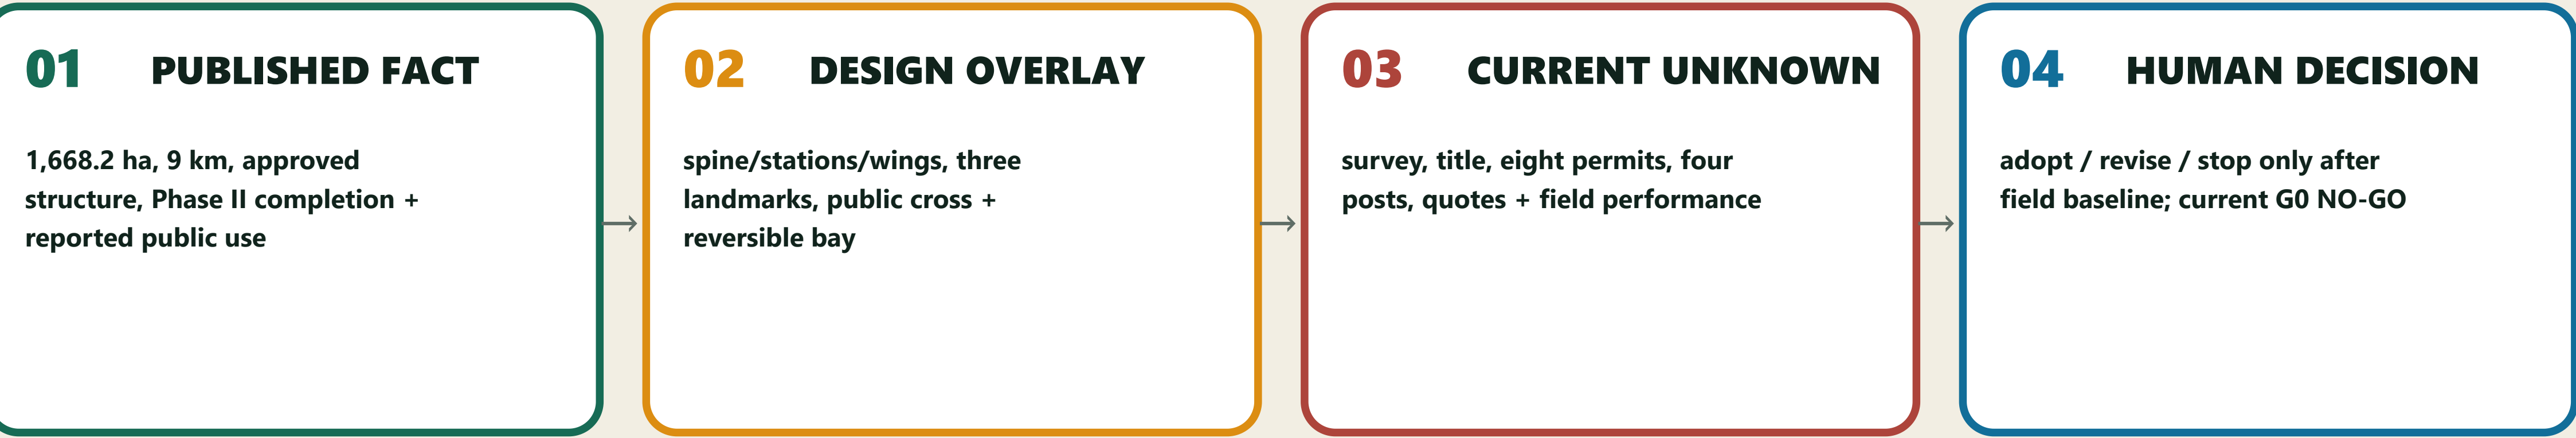

CONTINUOUS USER JOURNEY • ACCESS, CLIMATE, FIRE + FAILURE RECOVERY FORM ONE LINE

Closing a trial never moves the public route; ordinary service survives weather and night

EVIDENCE CHAIN · PUBLISHED FACT, DESIGN ASSUMPTION, FIELD UNKNOWN + ADOPTION NEVER MIX

Spatial decision is one design-selection node; permit, maintenance and exit govern field entry

G0 FIELD ADMISSION · ALL CURRENTLY OPEN

0 / 8PERMITS

0 / 4INDEPENDENT POSTS

0 / 7BASELINE DAY

0FIELD RESULTS

VERDICT · APPROVED PLAN ≠ THIS TRIAL MAY OPEN

ORDINARY OPEN DAY · PUBLIC SERVICE FIRST, DEVELOPER ENTRY SECOND

SPRING AUDIT / SUMMER REPRODUCTION / AUTUMN RECEIPTS / WINTER EXIT REVIEW

FIVE REGIONAL EXCHANGE CONTRACTS · INPUT, PLACE, OUTPUT, DUTY + FAILURE EXIT

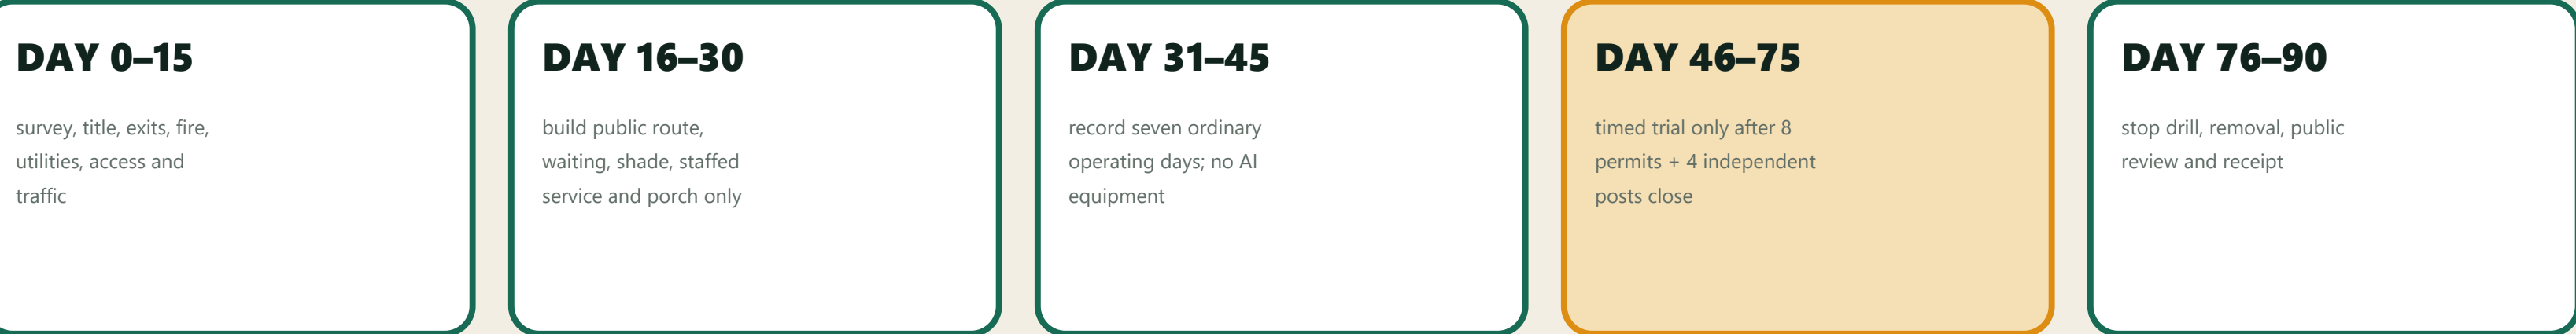

All institutions are proposed roles; no partnership or resource commitment

ALT-A reject, ALT-B revise and ALT-C advance are design selection only; field civic-adoption result remains empty.

G0 NO-GO · 90 DAYS ARE FIVE ENTRY CONDITIONS, NOT A PROMISE

Any failure in ordinary service, permits, posts, baseline or removal drill blocks AI trial

EIGHT PERMITS · ALL CURRENTLY PENDING

SITESiteWritten site-use and asset-owner consent

TITLETITLEOwnership, boundary and existing-condition survey

FIREFIREFire access, egress apron and temporary-structure review

ACCESSACCESSAudit of accessible routes, ramps, tactile guidance and staffed service

POWERPOWERTemporary power, protection and isolation responsibility

NETNETIsolated network, data minimisation and log-retention rule

TRAFFICTRAFFICConventional-interchange priority, operating window and traffic approval

EQUIPEQUIPEquipment safety, insurance, emergency stop and supplier removal duty

FOUR POSTS REQUIRE INDEPENDENT COVERAGE

01VENUE LEADPENDING

02BASELINE SERVICEPENDING

03SAFETY LEADPENDING

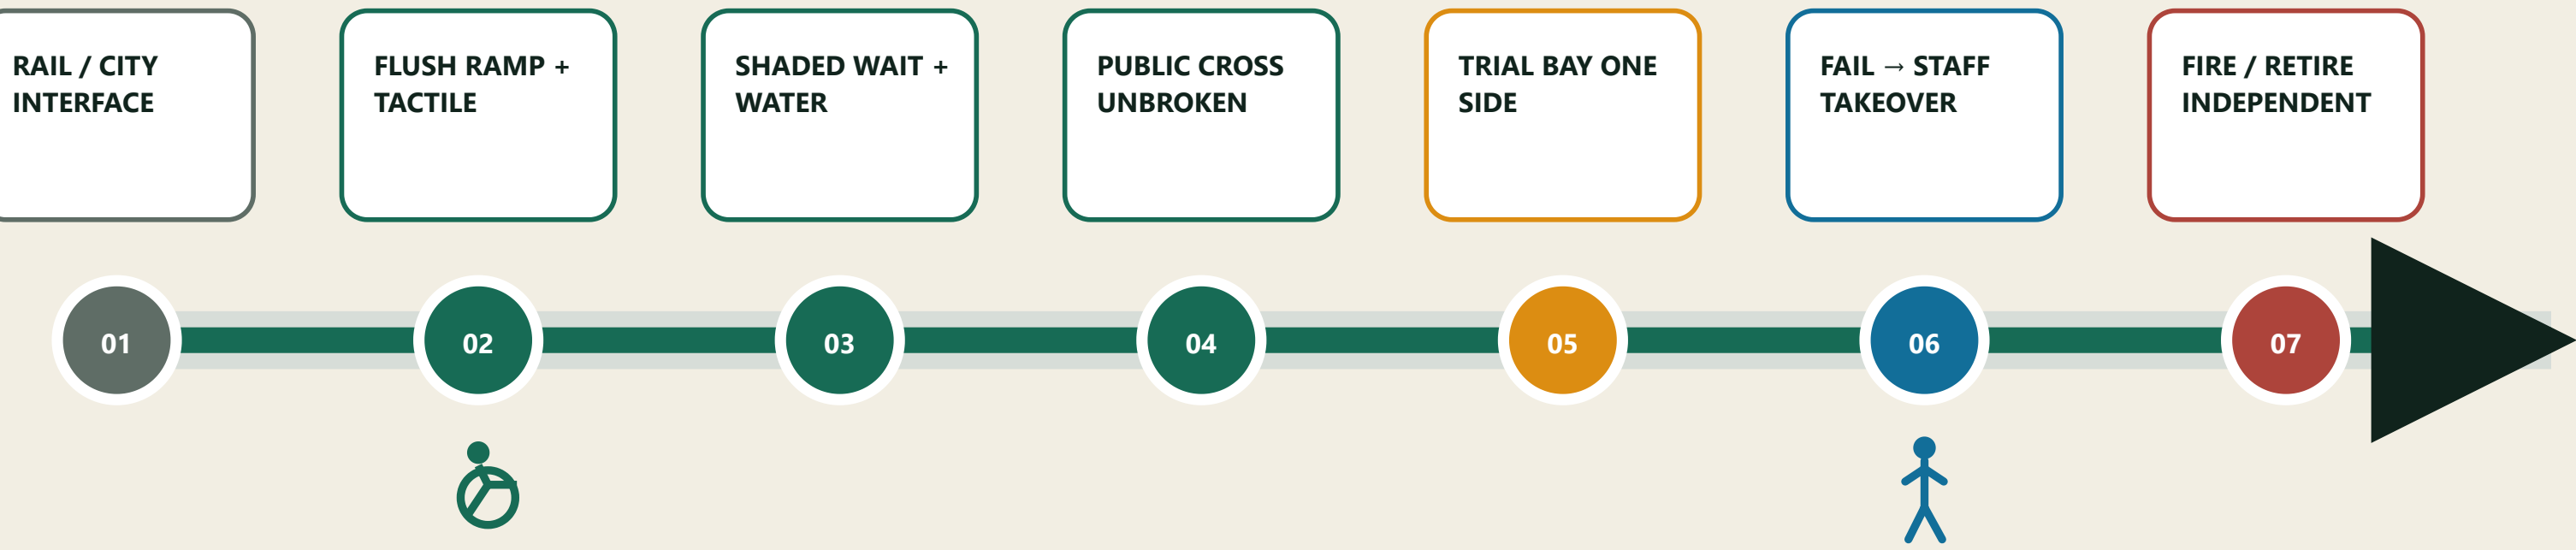

04DATA RECORDERPENDING

Safety-critical and baseline-service posts cannot be combined.

No price, total cost, partnership or permit is committed.

CONTINUOUS USER JOURNEY · ACCESS, CLIMATE, FIRE + FAILURE RECOVERY FORM ONE LINE

Closing a trial never moves the public route; ordinary service survives weather and night

RAIN + SHADE SECTION

permeable paving → flush kerb → rain garden; capacity pending

FIRE + REMOVAL BAND

FIRE ROUTE OUTSIDE TRIAL

EQUIPMENT EXITS SEPARATELY

any crossing triggers pause; convenience cannot override safety

FAILURE RECOVERY

TRIAL → PAUSE → STAFF → OPEN

16 components, 4 procurement packages and 5 blank forms are documented; all prices are pending_market_quote and do not constitute procurement or construction readiness.
