Centennial Jing-Zhang AI Innovation Belt — Concept Plan

Centennial Jing-Zhang AI Innovation Belt Concept Plan (English edition)

Open-source submission package · professional_design_package · formal stage

Drawings are based on provisional rough boundaries for open-call review only; the whole set must be updated once the official redline is released. Authoritative data live in GeoJSON, metrics.json, matrices and self-check results.

01 Design concept & overall structure

The Jing-Zhang railway heritage green spine works as the north-south AI axis, chaining three themed districts: AI Creation (Zhongzhiyuan), AI Axis (AI Origin Community), AI Life (Dazhongsì), with two wings linking campus innovation and legacy retail upgrades.

1403 Plaza	34 ha
0804 Education	25 ha
16 White land	17 ha
0901 Commercial	16 ha

02 Land-use structure & balance

The concept partition covers the site seamlessly; areas are computed in EPSG:4548. R&D, green space and roads form the skeleton; housing and commerce spread along the wings.

04 Mobility & blue-green network

The green spine runs north-south, slow-mobility loops stitch the three districts, transit feeds bind stations to blocks, and arterial/collector grids carry vehicles.

05 Metric evidence & phasing

The three core metrics are recomputable from submitted geometry. Delivery runs in three phases: near-term AI Origin Community, mid-term Zhongzhiyuan, long-term Dazhongsi.

Phasing

	近期：AI原点社区先行区	376 ha
	中期：众智园加速区	212 ha
	远期：大钟寺与两翼深化	526 ha
