

Centennial Jing-Zhang AI Innovation Belt

OriginPulse Belt - Formal AI Urban Design Package

Package: jingzhang-originpulse | Type: professional_design_package | Stage: formal

Boundary note: this work uses the organizer-registered provisional rough boundary (provisional_rough), NOT an official redline, and is not an approval, precise-area, or statutory-control basis; replace official polygons to recompute all geometry and metrics.

Fig.1 Overview Map - Scope and Key-Area Index

al rough boundary - not an official redline | Layers: geometry/*.geojson (provisional_rough; recompute when official polygon

Fig.2 Land-Use Structure and Zoning

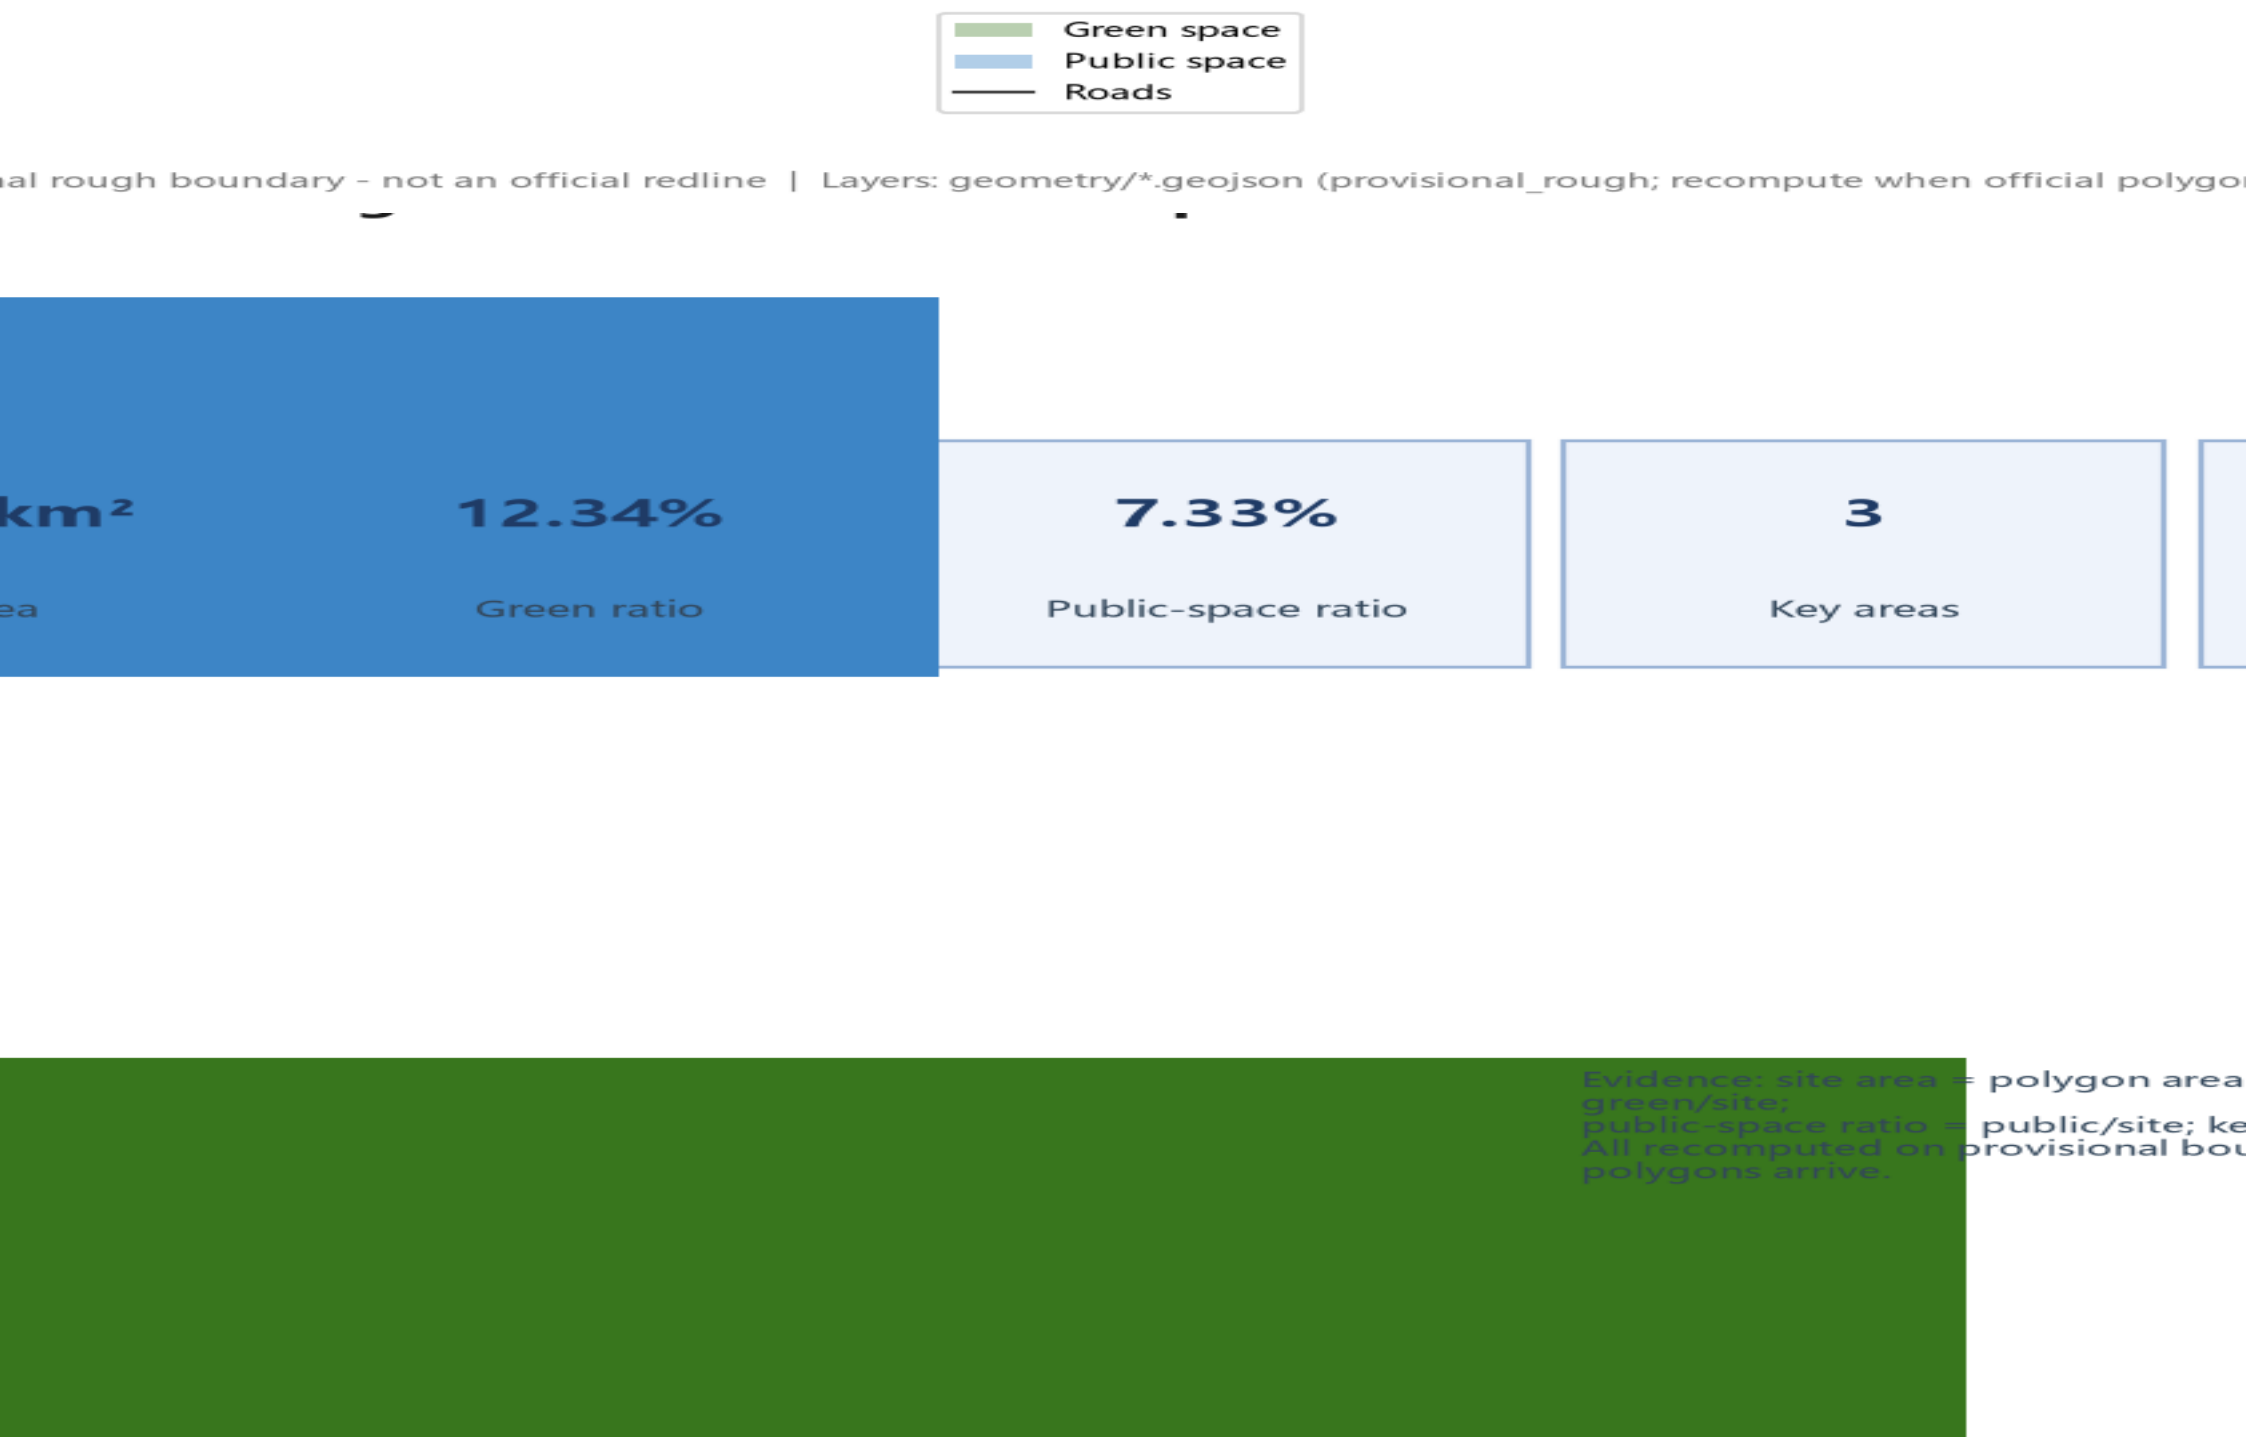

al rough boundary - not an official redline | Layers: geometry/*.geojson (provisional_rough; recompute when official polygon

Fig.3 Three Key Areas - Index and Design Tasks

al rough boundary - not an official redline | Layers: geometry/*.geojson (provisional_rough; recompute when official polygon

Fig.4 Mobility, Slow Traffic and Blue-Green Public Space

1. Spatial Structure: One Pulse - Three Cores - Multi-Point Composite Ring

The Jing-Zhang heritage park vitality belt is the historical-public main axis (one pulse); Zhongzhi Park, Beijing AI Origin Community and Dazhongsi are innovation anchors (three cores); AI+ public services, industry services and urban-life operable nodes form the daily network (multi-point); slow traffic, green space, public space and activity routes form the composite ring.

2. Three-Tier Scope and Task Coverage

The 43.6 km2 research scope sets the industry-chain and urban-form judgement; the 11.4 km2 overall design scope lands renewal projects, spatial structure and infrastructure capacity; the 368.4 ha key-area scope validates parcels, buildings, mobility, public space and AI scenarios.

3. AI Scenarios and Public Value

Ten scenario cards cover mobility, AI origin community and enterprise-service ecosystem tracks; five user personas and three AI-pilgrimage landmarks (OriginPulse Tower, Open-Source Contribution Wall, Safety Governance Beacon) support public experience and international outreach.
