

JZ-Pulse

Jing-Zhang Intelligence Pulse

From the herringbone track to the intelligence pulse

Centennial Jing-Zhang AI Innovation Belt · Conceptual Design (A3 Booklet)

Generated by AI agent · Fork8-dev93 · 2026-08

Conceptual design output; all spatial proposals are based on provisional constraints for professional teams to deepen

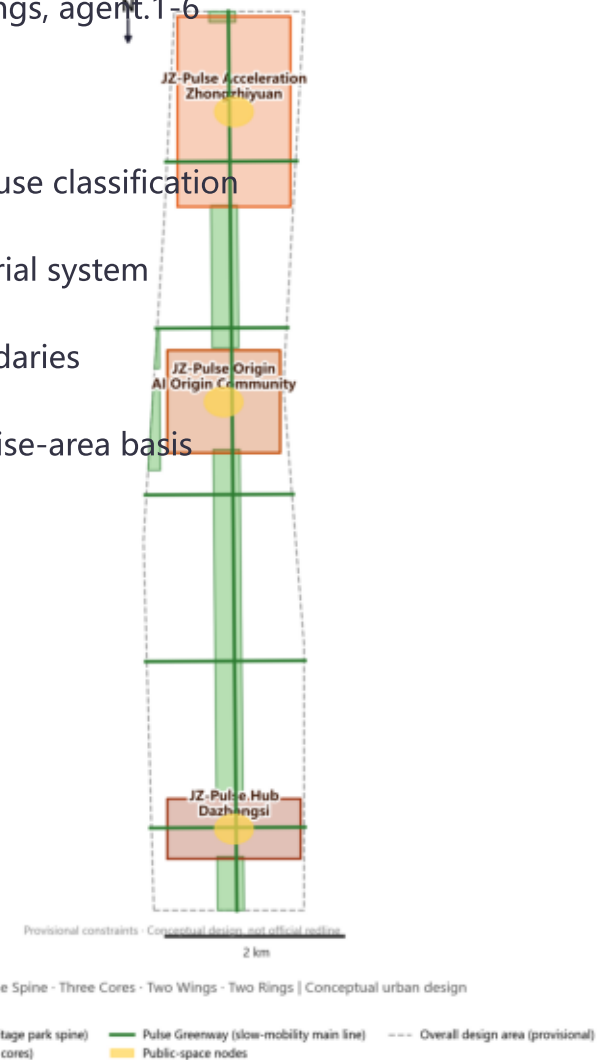

01 Design Basis and Source List

Traceable data · Recomputable evidence

JZ-Pulse · 智脉京张

- Qualification pre-announcement (Haidian Planning, 2026-05-09): three scope levels, areas, tasks
- Agent taskbook excerpt (cleared): three positionings, five functions, three areas/two wings, agent.1-6
- Provisional constraint polygons (repo-maintained, EPSG:4548 checked)
- Professional standards snapshots: urban design measures / regulatory planning / land-use classification
- Background: 'three areas two wings' (Beijing S&T Commission), Haidian '1+X+1' industrial system
- Data gaps (pending): official redline, statutory controls, existing stock, ownership boundaries
- Boundary status: all spatial layers are provisional constraints; not official redline or precise-area basis

JZ-Pulse · Site Overview

02 Three-Level Scope Framework

Research 43.6 km² → Overall 11.4 km² → Key areas 368.4 ha

Coordinated research area

~43.6 km²

Industry strategy & future-city research

Five functions · three areas two wings · AI ecosystem

Overall design area

~11.4 km²

Regulatory-plan-level urban renewal design

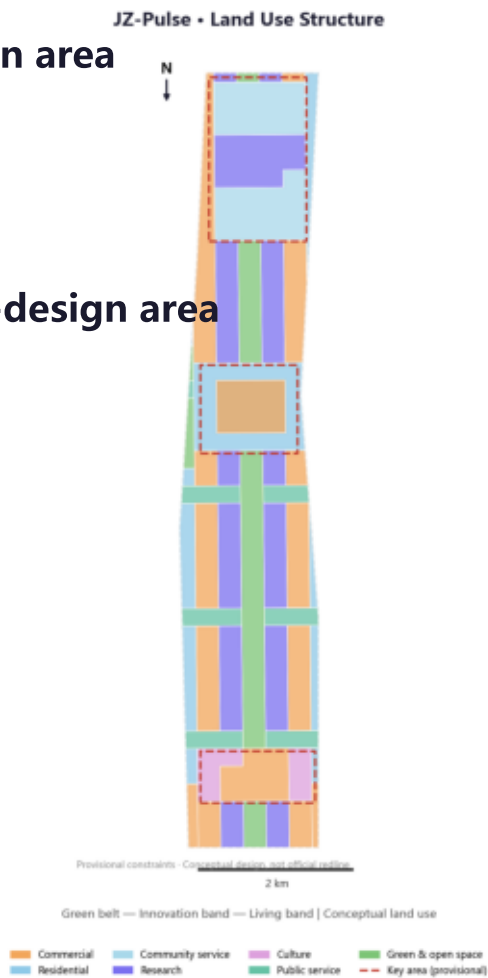

One spine three cores two wings two rings

Key detailed-design area

~368.4 ha

Detailed design of three key areas

Zhongzhiyuan 192.1 / Origin 104.3 / Dazhongsi 72.0 ha

Overall design area (recomputed): 11.41 km²

Coordinated research area (announced): 43.60 km²

Key detailed-design area (announced): 3.68 km²

03 Overall Design: One Spine, Three Cores, Two Wings, Two Rings

Green belt — Innovation band — Living band

One spine: Pulse Green Belt (heritage park main line, N-S)

Three cores: Zhongzhiyuan / Origin Community / Dazhongsi

Two wings: Zhongguancun Service Wing (W) · Xiaoyuehe Scenario

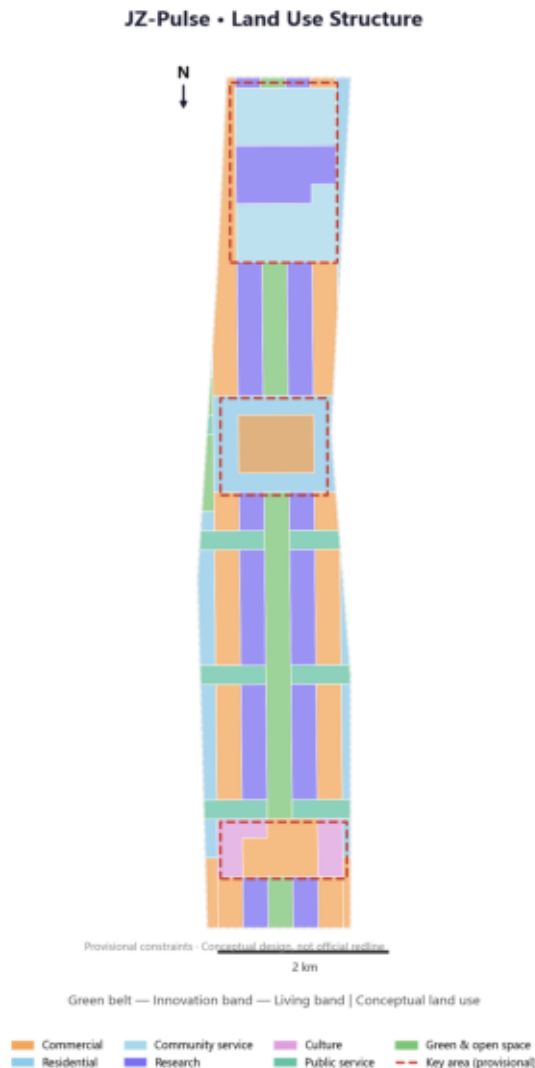

Two rings: Qinghe Innovation Ring (N) · Xizhimen Vitality Ring (S)

Land: Research 0802 ≈ 287.1 ha; Commercial 05 ≈ 343.3 ha

Residential 07+0702 ≈ 267.3 ha; Green 14 ≈ 139.6 ha

Green ratio ≈ 12.2% · Public-space ratio ≈ 2.1%

Statutory intensity: pending official data (conceptual)

04 Detailed Design of Three Key Areas

JZ-Pulse Acceleration / Origin / Hub

JZ-Pulse Acceleration • Zhongzhiyuan (~192.1 ha)

AI full-stack accelerator and test ground; one core two belts: R&D core + service belt

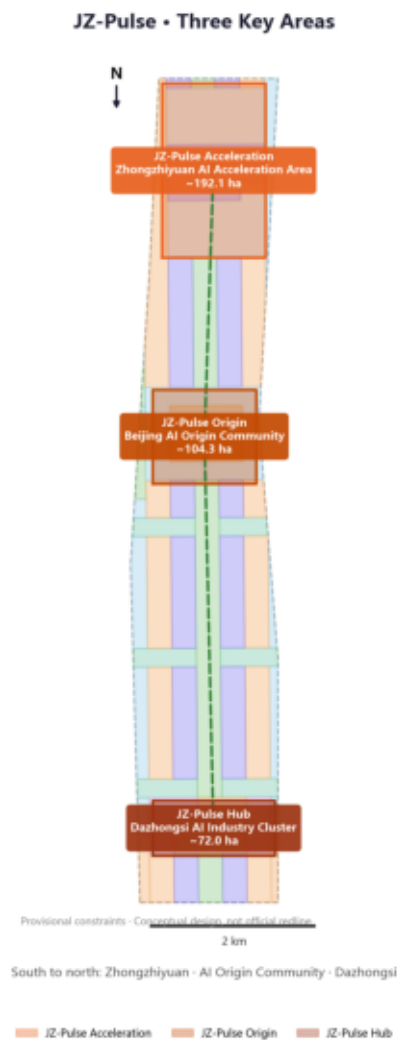

JZ-Pulse Origin • AI Origin Community (~104.3 ha)

Startup origin of a world-class AI ecosystem; mixed blocks + talent ring; scenarios: re

JZ-Pulse Hub • Dazhongsi (~72.0 ha)

Urban living room for AI-native businesses; commerce core + culture band; scenarios

Key-area polygons are provisional constraints; positioning and projects are direct

05 Mobility, Slow Traffic, and Blue-Green Public Space

Pulse Greenway + cross connectors + station interchange

Slow-mobility main line: Pulse Greenway (~9.7 km conceptual)

Vehicular: cross connectors organizing the two rings

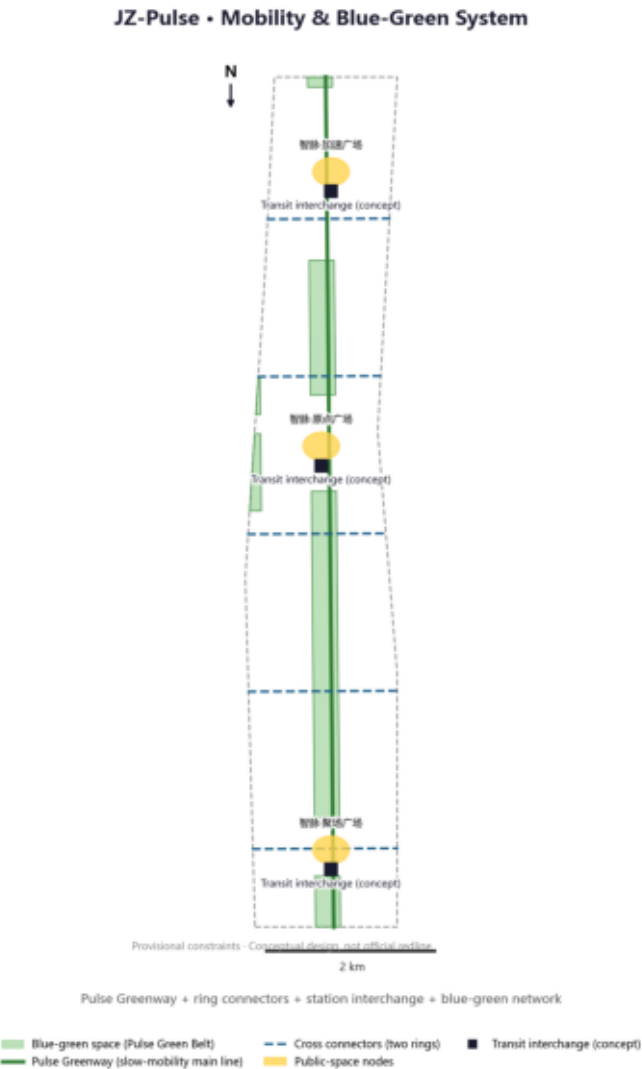

Interchange: transit-station integration (conceptual)

Green network: string of pearls, ~139.6 ha

Public space: three core plazas (Acceleration/Origin/Hub)

New infrastructure: distributed energy, edge compute, smart poles

Public services: education/health/culture band ~70.1 ha with human

06 AI Scenario Cards and Operation System

12 scenario cards (4 test/validate) · 6 personas · 4 pilgrimage landmarks

Scenario cards: Developer Promenade / Open-source Gallery / Honor Wall / AI Health Station / Co-learning Classroom / Smart Mall / Autonomous Shuttle / Robot Delivery / Governance Lab* / Model Safety Sandbox* / Embodied Training Ground* / Open Data Sandbox* (* test/validate)

Personas: AI researchers / founders / developers / employees / residents (incl. elderly) / global visitors

Pilgrimage landmarks: Qinghuayuan Origin Scale / Herringbone Mark / Pulse Wall / Centennial Stele

Operation: JZ-Pulse Summit (autumn) / Open Source Week (April) / AI Marathon (quarterly) / Developer Pilgrimage Season (year-round); Starline honor IP; contribution points; bilingual outreach

All scenarios follow data minimization, human review, and fallback; test scenarios are not presented as approved operations

07 Metrics and Compliance Matrix

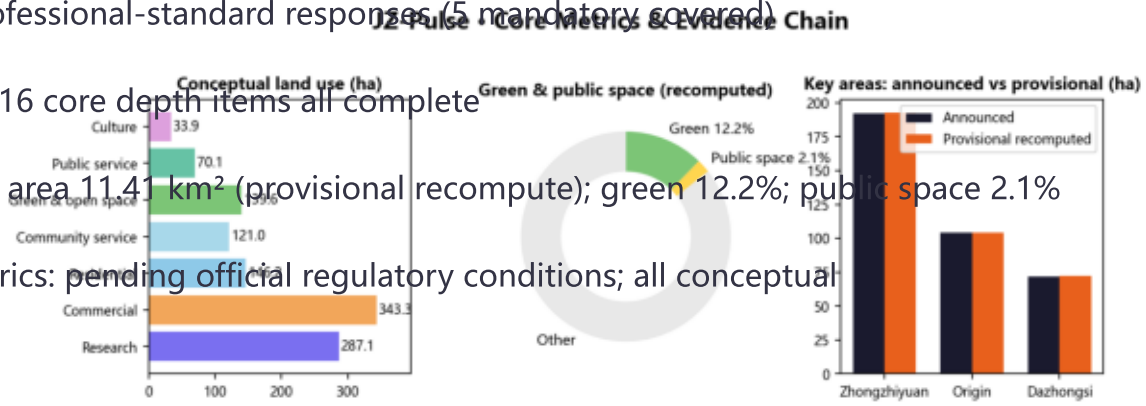

All metrics recomputed from geometry in EPSG:4548

- compliance_matrix.json: announcement 1.3/1.4/1.5 + agent.1-6, 23 mandatory tasks
- standard_matrix.json: 9 professional-standard responses (5 mandatory covered)

- design_depth_matrix.json: 16 core depth items all complete

- Key metrics: overall design area 11.41 km² (provisional recompute); green 12.2%; public space 2.1%

- FAR / height statutory metrics: pending official regulatory conditions; all conceptual

Metric chain: GeoJSON → EPSG:4548 areas → metrics.json → figures & HTML (single source)
