

Make Ten Small Things Reliable First

One spine, three stations, two wings, twelve points. AI is not the entrance; human access, non-AI equivalence, visible failure, and open exit form the baseline.

JINGZHANG BASICS

01—05

Make Ten Small Things Reliable First

AI is not the gate to public service. A low-tech baseline remains available, people remain accountable, and smart layers can be audited, replaced, or stopped.

Urban technology may fail. Public service must remain.

ONE SPINE

Continuous service + walking

THREE STATIONS

Arrival / Co-service / Reliability

TWO WINGS

Community / Industry

TWELVE POINTS

Service, culture, tests, review

LOW-TECH FIRST · HUMAN EQUIVALENT · VISIBLE FAILURE · OPEN EXIT

TEN CIVIC BASICS

01 Walk through

02 Sit down

03 Find shade

04 Drink water

05 Find a toilet

06 Ask directions

07 Charge & connect

08 Repair receipt

09 Night-time help

10 No account needed

JINGZHANG BASICS

01—05

One Continuous Line, Twelve Maintainable Points

Walking, shade, rest, directions, help, and repair reporting form one civic baseline; the AI layer never controls basic access.

12 SCENARIO CARDS

01 Arrival and wayfinding

07 Facility repair

02 Toilets and drinking water

08 Multilingual human bridge

03 Shade and rest

09 Low-speed supply test

04 Night-time help

10 Urban systems check

05 Accessibility co-audit

11 Traceable heritage guide

06 No-account services

12 Annual basics review

EVERY CARD: HUMAN REVIEW + NON-AI EQUIVALENT + STOP RULE

JINGZHANG BASICS

01—05

Three Key Areas, Three Responsibilities

Dazhongsì owns arrival, AI Origin Community owns co-service, and Zhongzhiyuan owns reliability testing; provisional geometry carries roles and interfaces only.

01

DAZHONGSI · ARRIVAL

Static map, continuous crossing, staffed directions, seats, water, toilet information, and night help.

No QR-only entrance

Human multilingual bridge

Rail and walking before display

PROVISIONAL KEY-AREA BOUNDARY

02

AI ORIGIN · CO-SERVICE

Connect universities, residents, developers, and firms through open problems, prototypes, and service guidance.

Equivalent no-account access

Resident and student co-audit

Human eligibility decisions

PROVISIONAL KEY-AREA BOUNDARY

03

ZHONGZHIYUAN · RELIABILITY

Enclosed trials, facility sensing, predictive maintenance, and a public reliability gallery.

Visible officer and e-stop

Scale only after passing

Retire failures openly

PROVISIONAL KEY-AREA BOUNDARY

JINGZHANG BASICS · FontBai / OpenAI Codex · CC BY 4.0

From Civic Baseline to Reliability Testbed

Announcement facts, recalculable design values, and unknown statutory controls remain separate. Verify first, pilot small, scale what passes, retire failures openly.

JINGZHANG BASICS

Civic Baseline Spine and Two Wings

01—05

A conceptual functional partition covering the provisional site; it expresses relationships, not statutory land use, ownership, or controls.

FUNCTION LEGEND

- Civic baseline green spine
- Industry services and civic adoption
- Public learning and standards
- Community basic services
- AI R&D and reliability testing
- Jing-Zhang culture and open archive

PROVISIONAL SITE
11.41 km²

DESIGN GREEN
21.8%

CONCEPT PUBLIC SPACE
0.60%

Dashed lines: provisional site and key areas. Regenerate all outputs when official polygons arrive.

JINGZHANG BASICS

One Continuous Line, Twelve Maintainable Points

01—05

Walking, shade, rest, directions, help, and repair reporting form one civic baseline; the AI layer never controls basic access.

12 SCENARIO CARDS

- | | |
|-------------------------------|------------------------------|
| 01 Arrival and wayfinding | 07 Facility repair |
| 02 Toilets and drinking water | 08 Multilingual human bridge |
| 03 Shade and rest | 09 Low-speed supply test |
| 04 Night-time help | 10 Urban systems check |
| 05 Accessibility co-audit | 11 Traceable heritage guide |
| 06 No-account services | 12 Annual basics review |

EVERY CARD: HUMAN REVIEW + NON-AI EQUIVALENT + STOP RULE

JINGZHANG BASICS

Known, Recalculable, Unknown

01—05

Replace false precision with an evidence chain: separate announcement facts from design values, and keep missing statutory controls unknown.

OFFICIAL OVERALL AREA

11.4 km²

Announcement fact

PROVISIONAL GEOMETRY

11.41 km²

Geometry calculation

SCENARIO CARDS

12

Including 3 industry tests

PERSONAS

7

Exclusion-effect checks

HUMAN REVIEW RULE

100%

Proposal-rule coverage

NON-AI FALLBACK RULE

100%

Proposal-rule coverage

KEEP UNKNOWN

- Floor area ratio
- Gross floor area
- Building height
- Statutory density
- Road-area ratio
- Setbacks and capacity

Unknown is not an omission. It is the professional state until authoritative inputs arrive.

SAME-SOURCE EVIDENCE CHAIN

OFFICIAL POLYGON REPLACEMENT → REGENERATE ALL DERIVED LAYERS, METRICS, FIGURES, HTML, AND PDFS
