

Innovation Stroke (AI industry innovation)

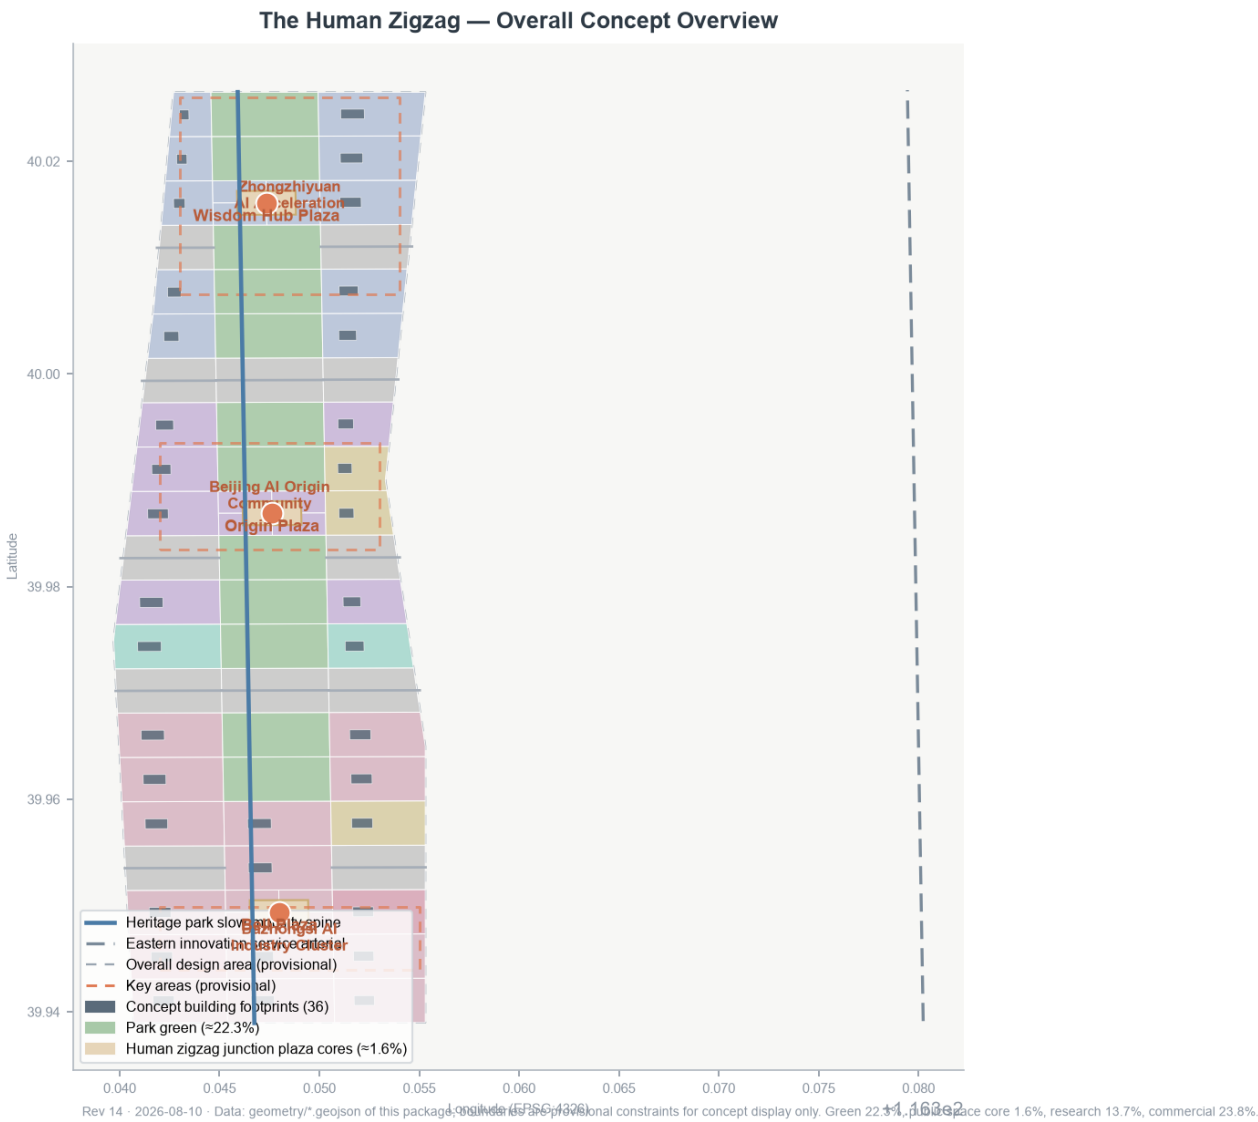

Life Stroke (urban everyday services)

Meeting point = Human Node

Overall concept: the 1909 Zhan Tianyou Qinglongqiao switchback as the spatial motif organizing a one-spine, three-zigzag, two-wing city.

Submitted boundary: provisional ≈11.4 km2; key areas ≈368.4 ha (three).

This package is conceptual; all spatial proposals are reference schemes pending official boundaries and regulatory conditions.

01 Overall Concept and Spatial Structure

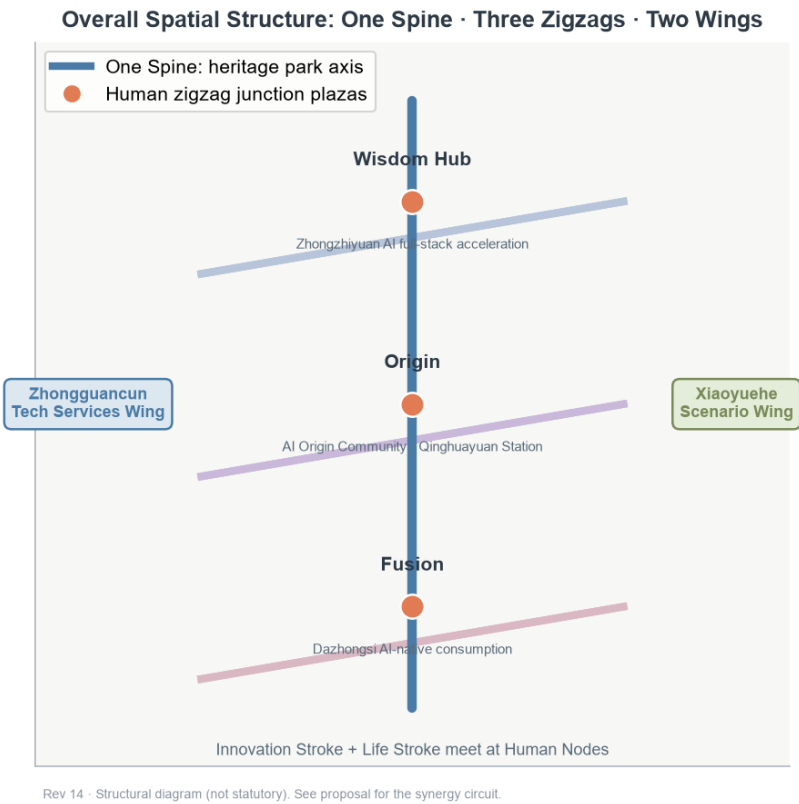

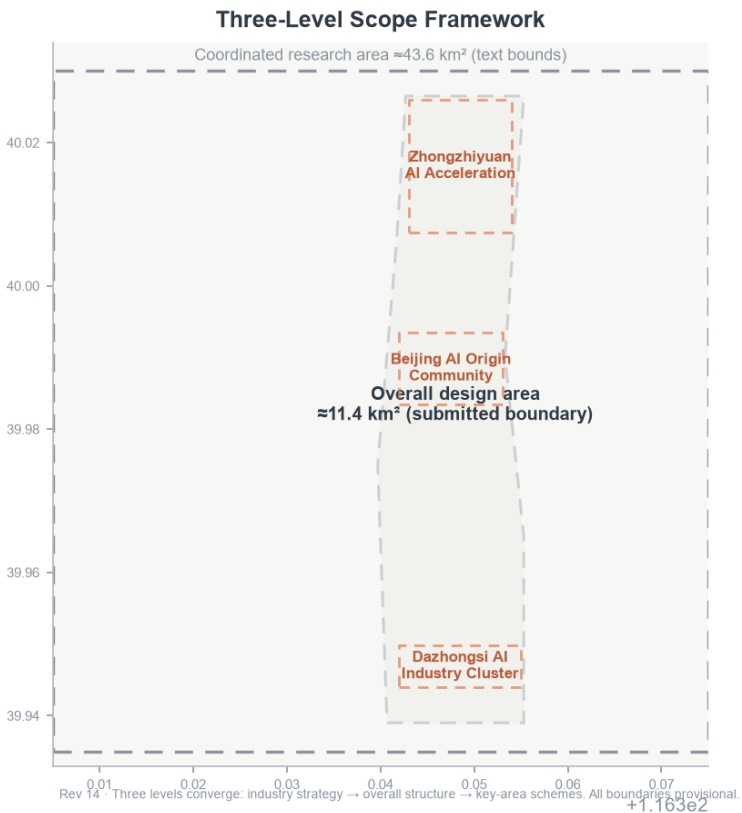

Overview and Spatial Structure

One Spine · Three Zigzags · Two Wings

- One Spine: Jing-Zhang Heritage Park axis (green belt + slow-mobility spine) linking the three junction plazas.
- Wisdom Hub (N): Zhongzhiyuan AI Acceleration Area — full-stack R&D engine.
- Origin (C): Beijing AI Origin Community — Qinghuayuan Station cultural anchor.
- Fusion (S): Dazhongsi AI Industry Cluster — AI-native consumption conversion.
- Zhongguancun Technology Services Wing (W): capital, IP and global factor supply.
- Xiaoyuehe Scenario Empowerment Wing (E): scenario testing and urban experiments.
- Synergy circuit: supply → R&D → interaction → conversion → validation → feedback.

Naming System and Logo Direction (agent.1)

Primary name: The Human Zigzag. Logo direction: two equal-width strokes meeting in a 'ren' (person) shape, one steel-rail blue-grey, one city green, with a warm origin point at the junction, extending into the Renzi Festival identity.

02 Three Key Areas — Detailed Design

Key Area Detailed Design

Wisdom Hub · Zhongzhiyuan AI Acceleration Area (≈192.1 ha announced)

- Position: full-stack innovation acceleration; research clusters (≈246 ha concept) around Wisdom Hub Plaza
- Renewal: retrofit existing buildings + pilot facilities (concept)
- Scenarios: embodied lab (S02), Compute Lighthouse, hardware prototype nodes
- Risk: complex ownership, parcel-level confirmation; regulatory data pending

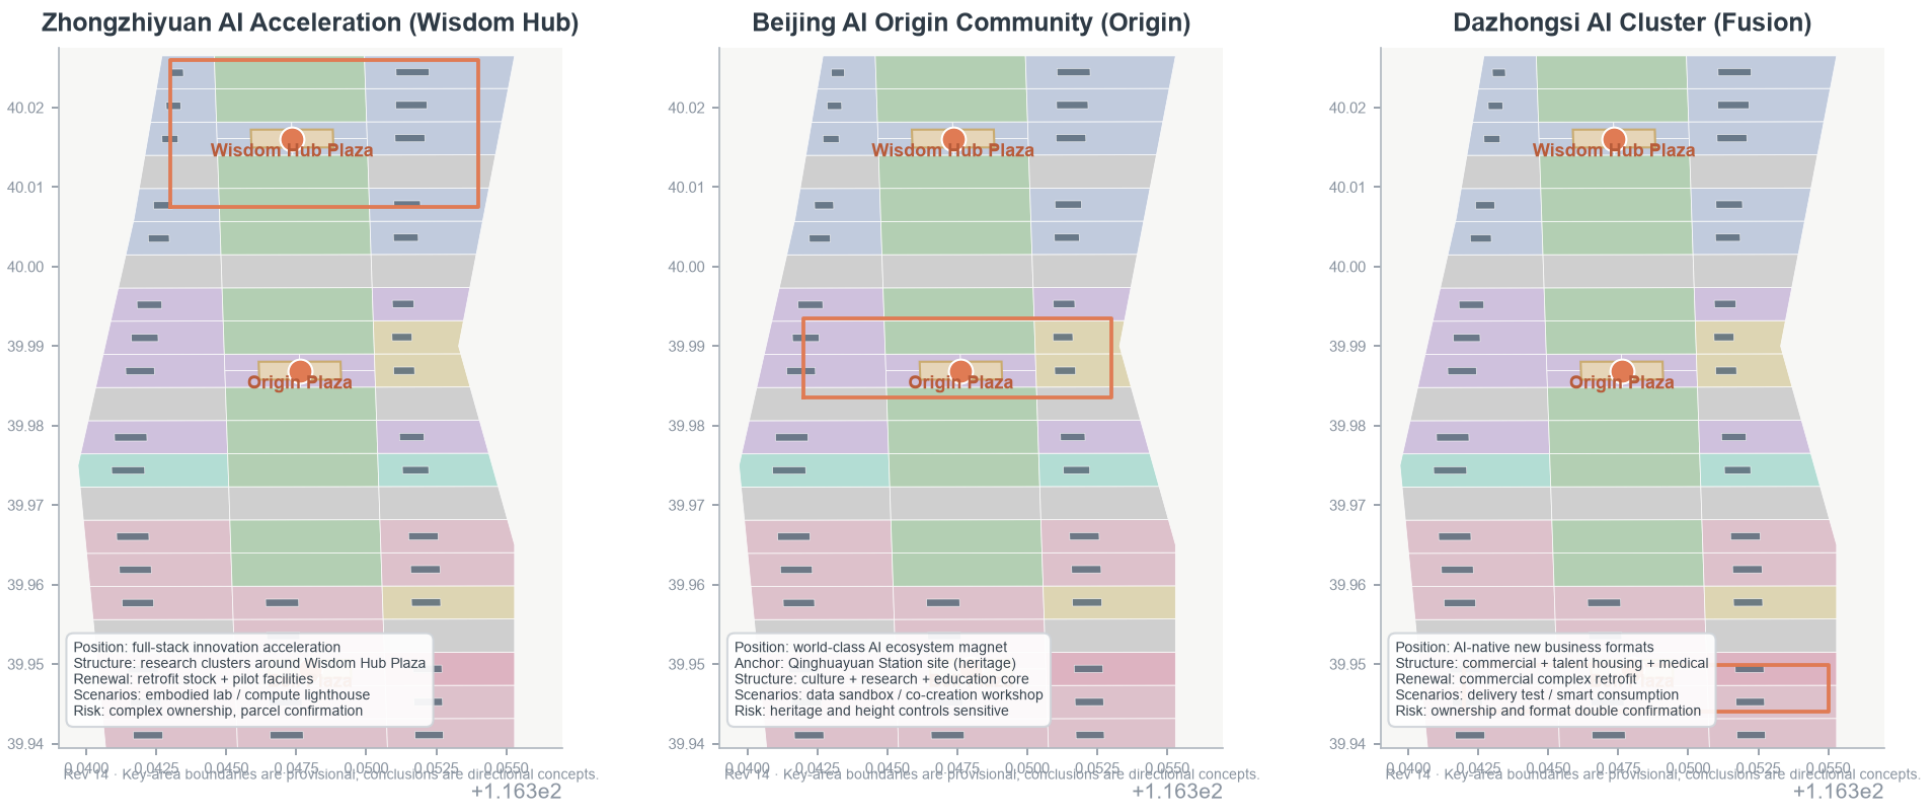

Origin · Beijing AI Origin Community (≈104.3 ha announced)

- Position: world-class AI ecosystem magnet; Qinghuayuan Station site is the cultural anchor (per heritage authorities)
- Structure: culture (≈74 ha concept) + research + education around Origin Plaza
- Scenarios: AI data sandbox (S03), developer workshop (S10), multilingual guide
- Risk: heritage and university ownership highly sensitive

Fusion · Dazhongsi AI Industry Cluster (≈72.0 ha announced)

- Position: AI-native business formats; commercial (≈173 ha concept) around Bell Plaza
- Renewal: AI-native commercial retrofit (concept, no demolition assumptions)
- Scenarios: delivery test (S01), smart consumption (S11), health navigation (S08)
- Risk: ownership and business-format double confirmation

Three Key Areas · Human Zigzag Units

03 AI Ecosystem, Personas and Scenarios

AI Ecosystem, Personas and Scenarios

Six personas: Startups P1 / Researchers P2 / Developers P3 / Residents P4 / Seniors & accessibility P5 / International visitors P6

12 AI scenario cards (incl. 3 industry test/validation scenarios)

S01 Low-speed delivery test (test/validation) | S02 Embodied-intelligence lab (test/validation) | S03 AI urban data sandbox (test/validation)
S04 Renzi info stops | S05 Wisdom Hub AI market | S06 Jing-Zhang AR narrative | S07 Xiaoyuehe corridor
S08 AI health navigation | S09 Elder companionship | S10 Developer workshop | S11 AI-native bookshop | S12 Renzi public guide agent
All scenarios are conceptual — not deployed, not authorized, not operational; each has a manual equivalent path and human shut-down condition.

Four AI pilgrimage landmarks (agent.4, conceptual)

- 1 Origin Spark Terrace (Qinghuayuan Station site) · centennial honor wall and developer star registry
- 2 Human Zigzag Monument (Wisdom Hub Plaza) · echoes the Qinglongqiao switchback; Renzi Festival stage
- 3 Compute Lighthouse (Zhongzhiyuan) · public compute/energy interface (aggregate metrics only)
- 4 Echo Bell Tower (Dazhongsi) · the echo between technology and life

Core Metrics Recalculation and Evidence Chain		
Green ratio	22.3%	park green area + submitted boundary area / metrics.json
Public space ratio core	1.6%	plaza land + submitted boundary area / metrics.json
Research land	13.7%	0802 land + submitted boundary area / metrics.json
Commercial land	23.8%	05 land + submitted boundary area / metrics.json
Road land ratio	18.3%	1207 land + submitted boundary area / metrics.json
Building footprint	2.7%	33 conceptual footprints + site area / metrics.json
Spine length	≈9.7 km	projected length (EPSG:4548) / metrics.json
Key-area areas	192.9/104.3/72.0 ha	provisional recomputation (matches announcement)

Rev 14 - Working values under provisional boundaries, not official scoring areas; recompute all when official polygons arrive.

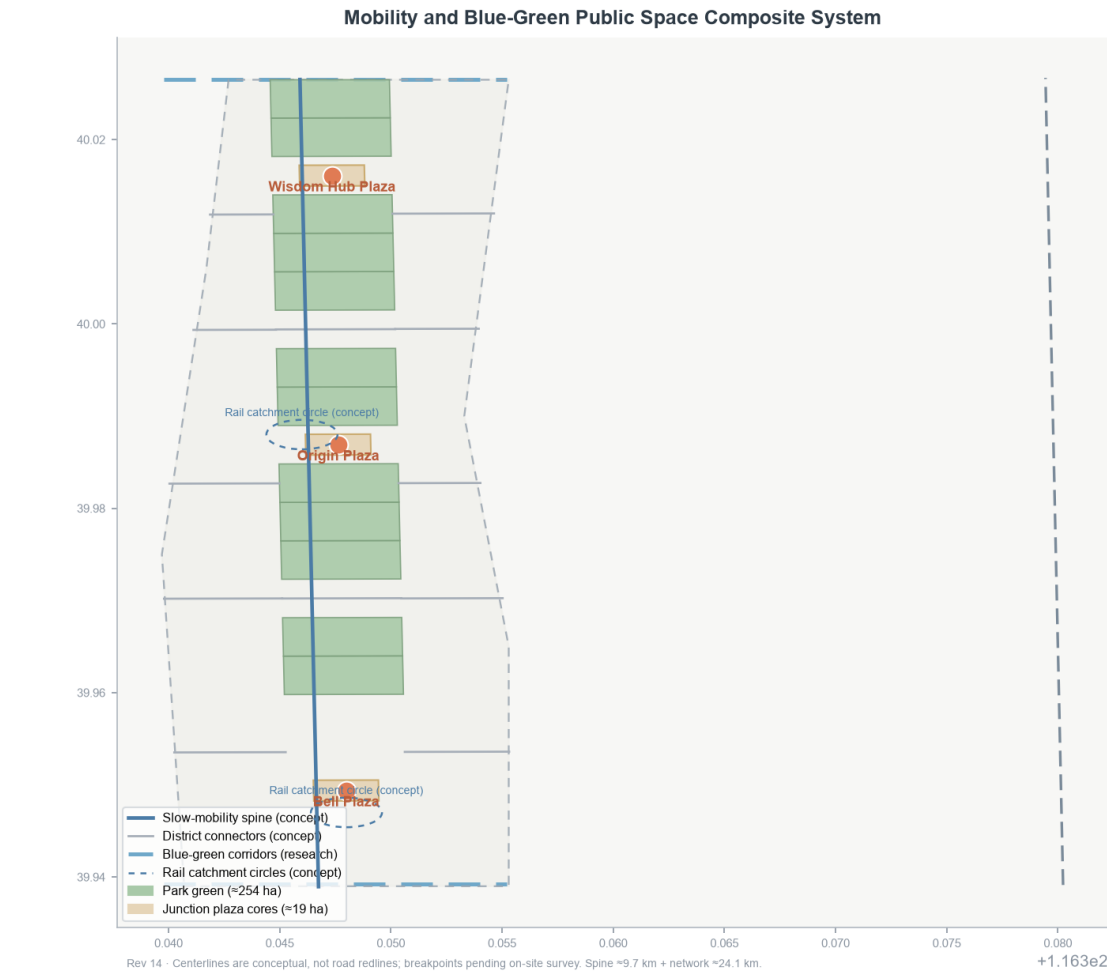

Unknown metrics: FAR / building height / density / green-ratio control / setbacks / regulatory conditions missing, registered as unknown; 3648 computed when official data arrives (metrics.json)

04 Core Metrics Recalculation

Core Metrics Recalculation

Metric	Value	Formula
site_area_sqm	1.14128e+07 sqm	polygon_area(submitted_site_boundary)
green_ratio	0.223 ratio	green_area / site_area
public_space_ratio	0.016 ratio	plaza_area / site_area
road_ratio	0.183 ratio	road_area / site_area
building_footprint_ratio	0.027 ratio	building_footprint_area / site_area
spine_length_m	9723.47 m	projected_length(design_role=north_south_spine, EPSG:4548)
key_area_count	3 count	count(key_area_features)
zhongzhiyuan_area_sqm	1.9292e+06 sqm	polygon_area(zhongzhiyuan_ai_acceleration_area)
beijing_ai_origin_area_sqm	1.04324e+06 sqm	polygon_area(beijing_ai_origin_community)
dazhongsi_area_sqm	720454 sqm	polygon_area(dazhongsi_ai_industry_cluster)

Unknown metrics (pending official data): floor_area_ratio / building_height_control_m / green_ratio_official_control

05 Renewal Projects, Phasing and Compliance

Renewal Projects, Phasing and Compliance

Three phases with evaluation gates

- P1 near-term: Origin Cultural Core (cultural repair and public space near Qinghuayuan Station), spine mid-section slow-mobility connection.
- P2 mid-term: Zhongzhiyuan R&D Core (retrofit stock buildings into full-stack acceleration), Wisdom Hub Plaza and Compute Lighthouse.
- P3 long-term: Dazhongsi Consumption Core (AI-native commercial renewal), southern slow mobility and delivery demo.

Long-term operations (agent.6, conceptual)

- Annual Renzi Festival (Sep–Oct): open-source carnival, scenario open week, developer marathon, pilgrimage trail check-in
- Developer community: open data interfaces and open-source map, contributor registry and honor displays (participate–credit–re-participate)
- Scenario five-step mechanism: propose–review–pilot–evaluate–expand or withdraw; any scenario can be shut down as a whole

Compliance notes

- Only official public announcements, the cleared taskbook, public policies and provisional geometry are used; no internal data.
- COMMUNITY-DISPLAY-ONLY; the logo is a textual direction, not a trademark registration.
- All spatial proposals are conceptual and subject to final human and professional judgment.
