

JING-ZHANG INTELLIGENCE SPINE · Evidence chain and spatial proposition

Concept package · provisional geometry · reviewable proposal, not an official redline

Evidence note

The map, metrics and review chain are derived from the same package. Raw values remain in metrics.json; displayed provisional values are rounded.

JING-ZHANG INTELLIGENCE SPINE · Three key areas and public-space system

Concept package · provisional geometry · reviewable proposal, not an official redline

CENTENNIAL JING-ZHANG AI INNOVATION BELT

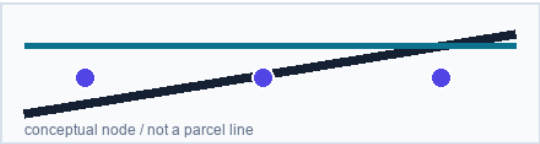

FIGURE 03 · THREE KEY AREAS AND VALIDATION NODES

Each area now has a spatial action, scenario, landmark and implementation dependency

Zhongzhiyuan AI Accelerator

research → safety → green exchange

Dependency: official polygon, road/rail, ownership, utilities and fire/flood conditions remain pending.

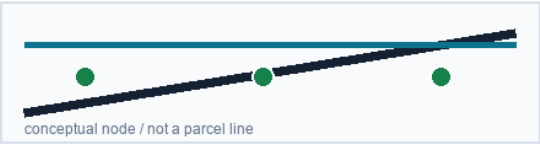

EVIDENCE

- Open-source release
- Safety-governance sandbox
- Open test field

Beijing AI Origin Community

campus → transfer → daily life

Dependency: official polygon, road/rail, ownership, utilities and fire/flood conditions remain pending.

EVIDENCE

- Transformation lounge
- Accessible service desk
- Open Source Canopy

Dazhongsi AI Industry Cluster

station → enterprise → public realm

Dependency: official polygon, road/rail, ownership, utilities and fire/flood conditions remain pending.

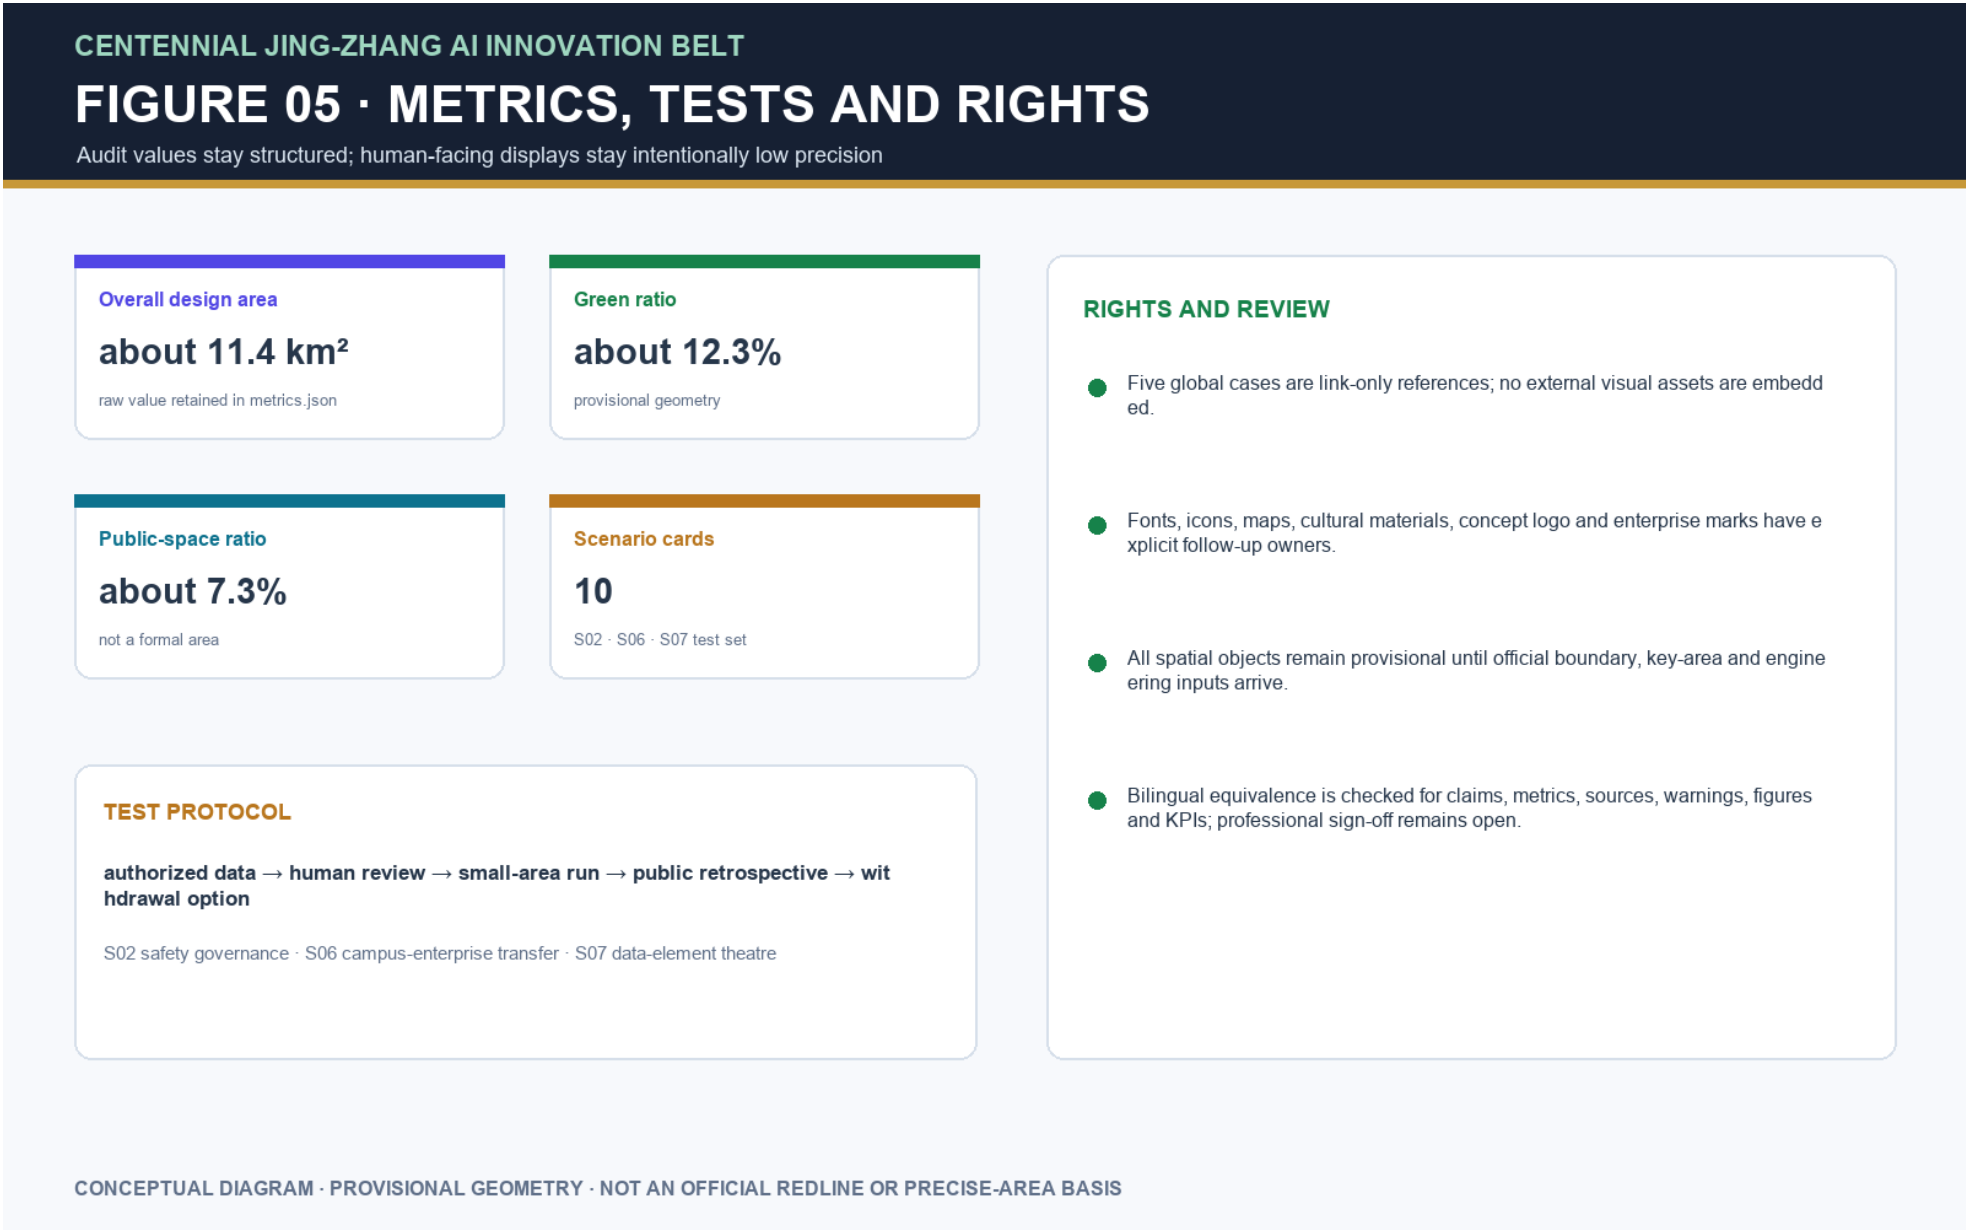

EVIDENCE

- Data-element theatre
- Compute Commons
- Four-quadrant walking

CONCEPTUAL DIAGRAM · PROVISIONAL GEOMETRY · NOT AN OFFICIAL REDLINE OR PRECISE-AREA BASIS

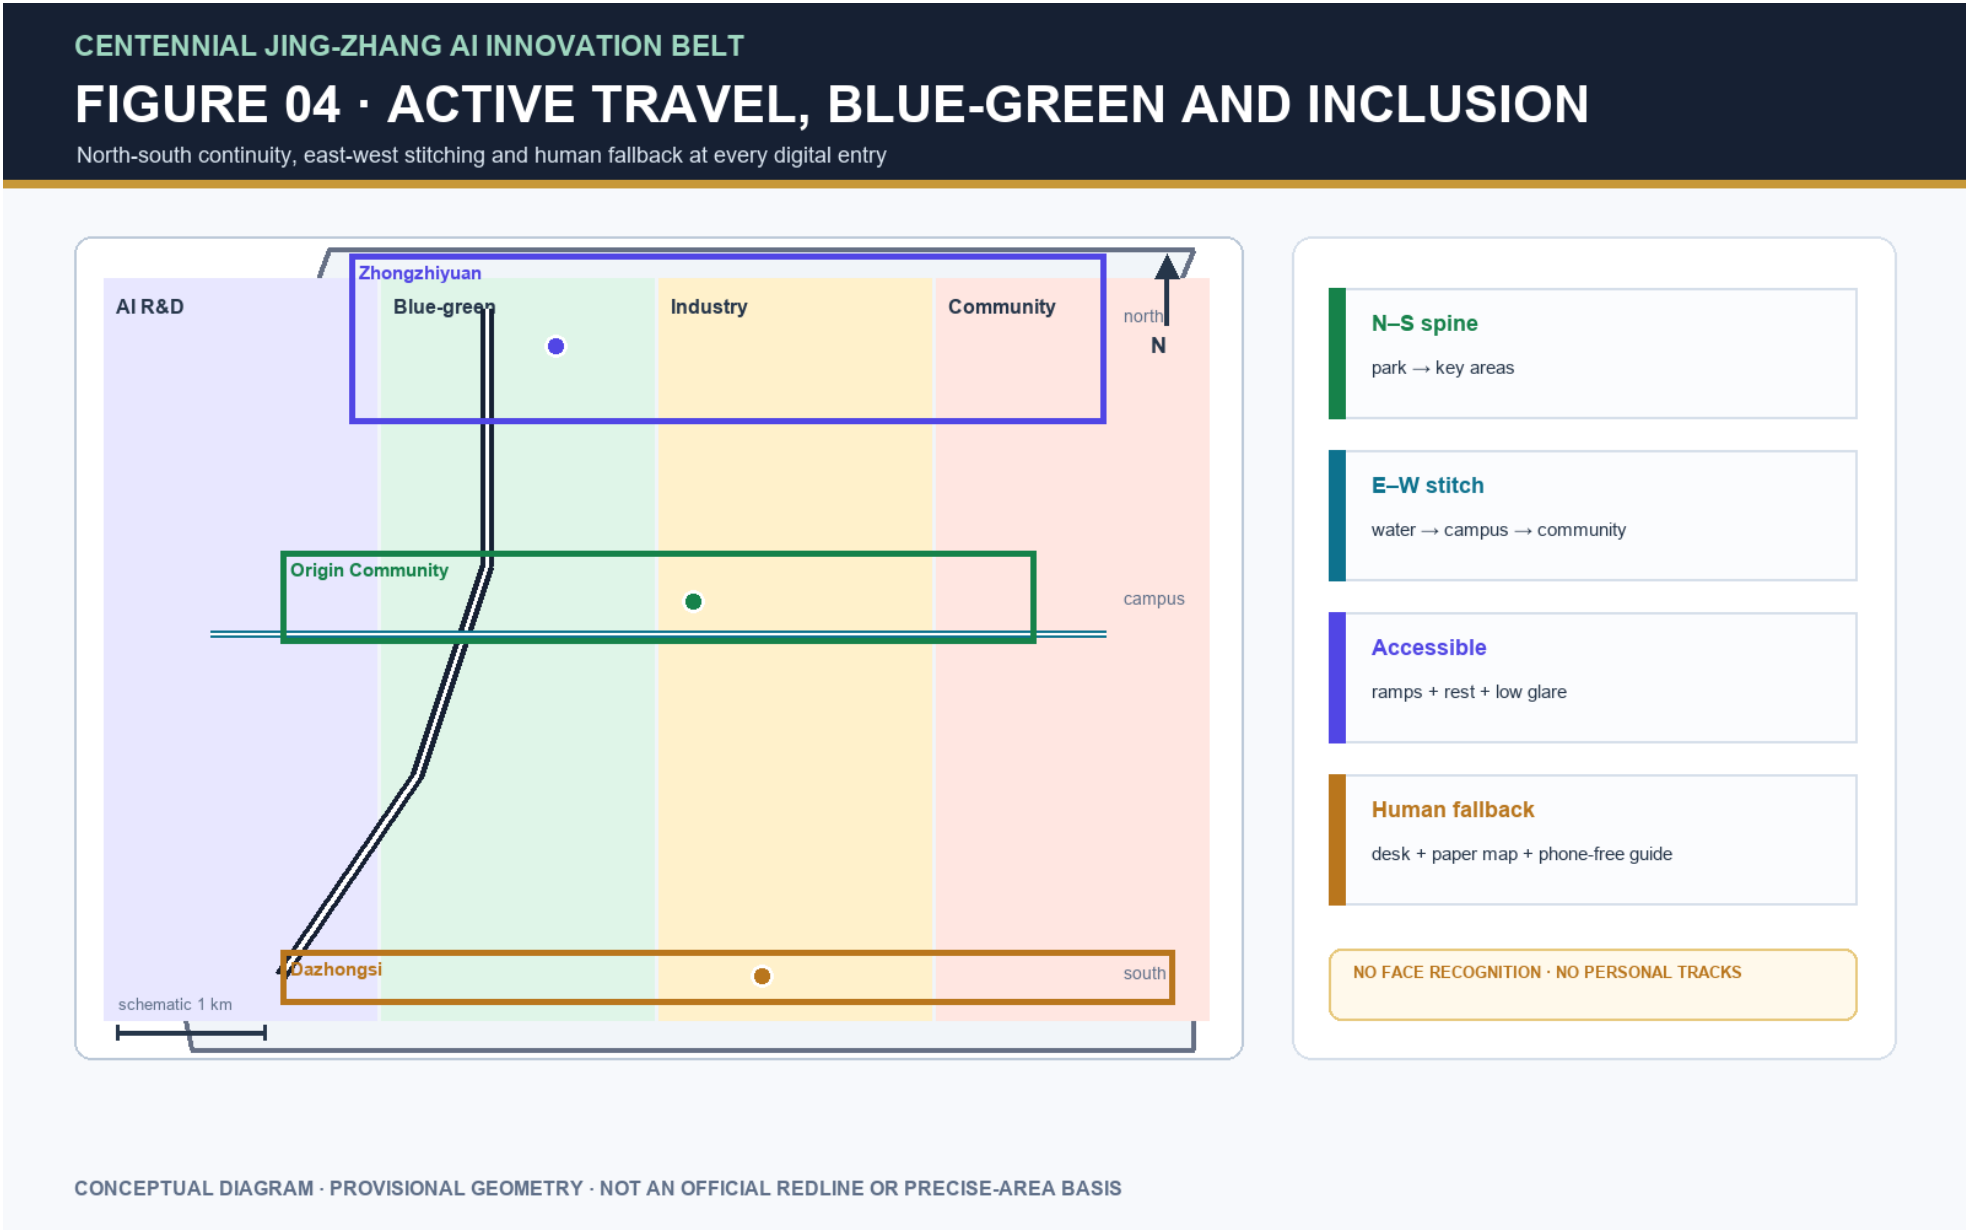

Evidence note

Three key areas are represented as conceptual interfaces with public-space, scenario and implementation dependencies.

JING-ZHANG INTELLIGENCE SPINE · Rights, inclusion and open conditions

Concept package · provisional geometry · reviewable proposal, not an official redline

Evidence note

Official boundary, ownership, engineering, accessibility, partner and rights inputs remain open conditions for professional refinement.
