

JING-ZHANG WORKING TIMETABLE

CONCEPT + COUNTEREVIDENCE

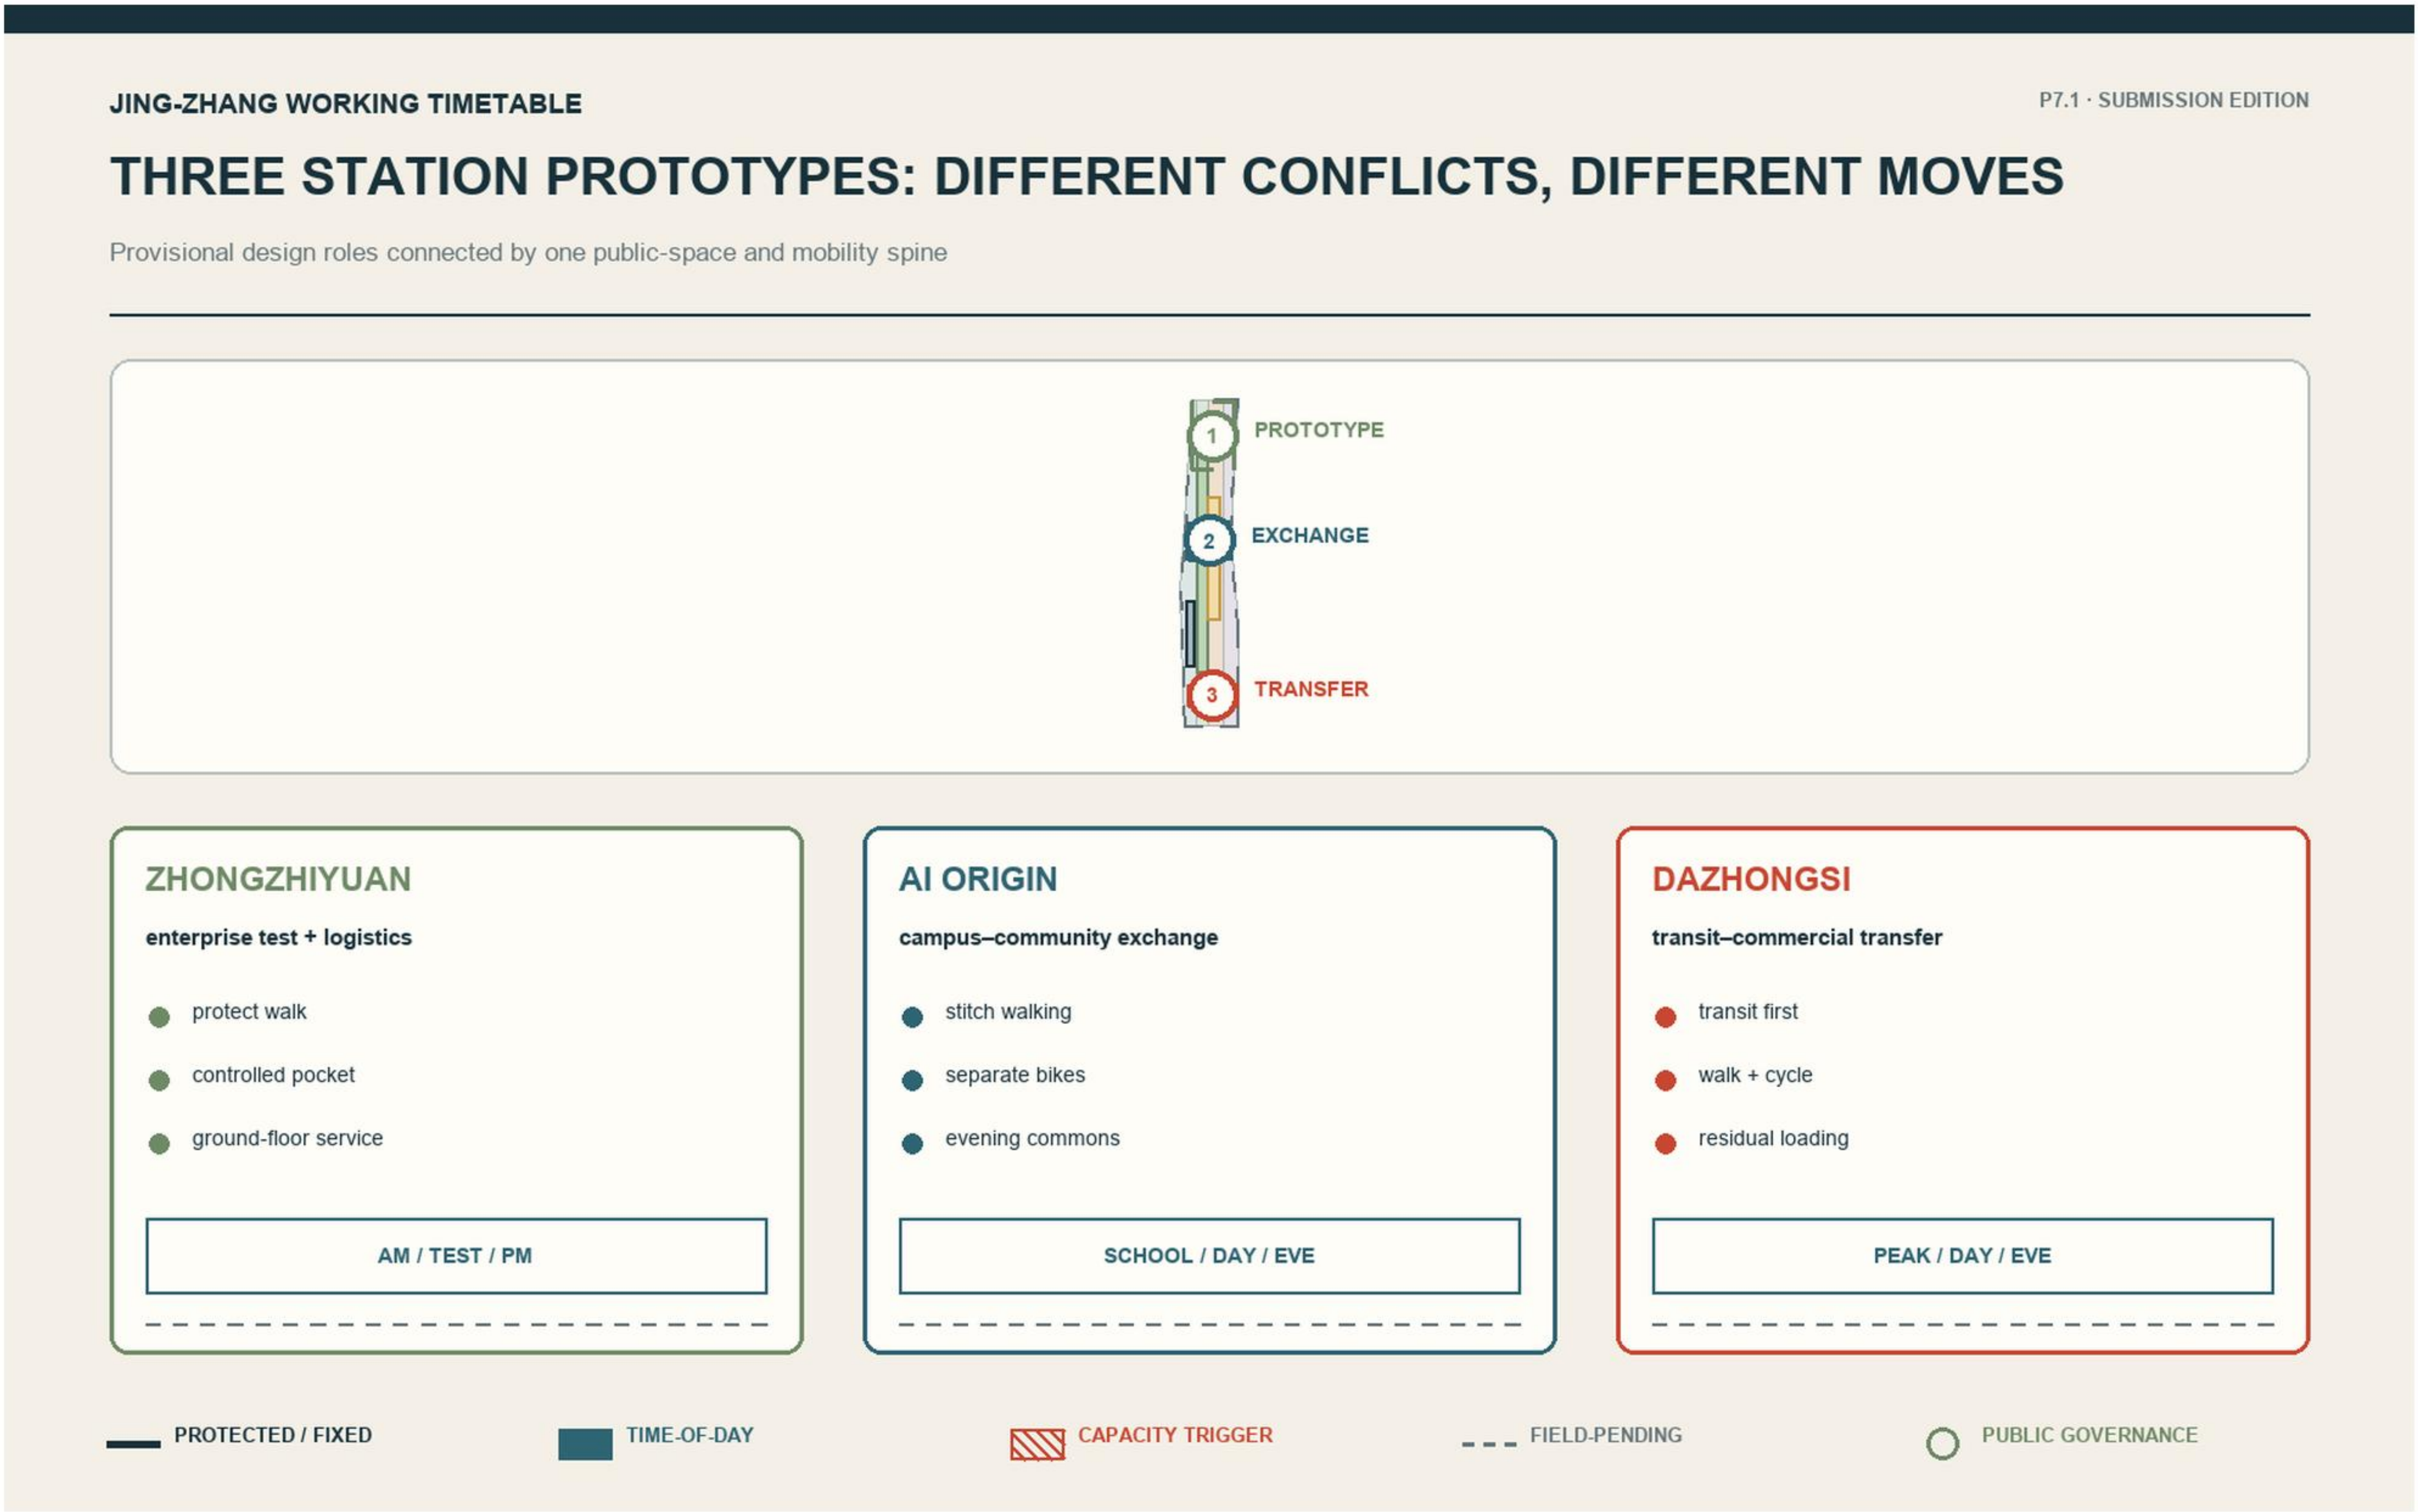

JING-ZHANG WORKING TIMETABLE

SPATIAL FRAMEWORK

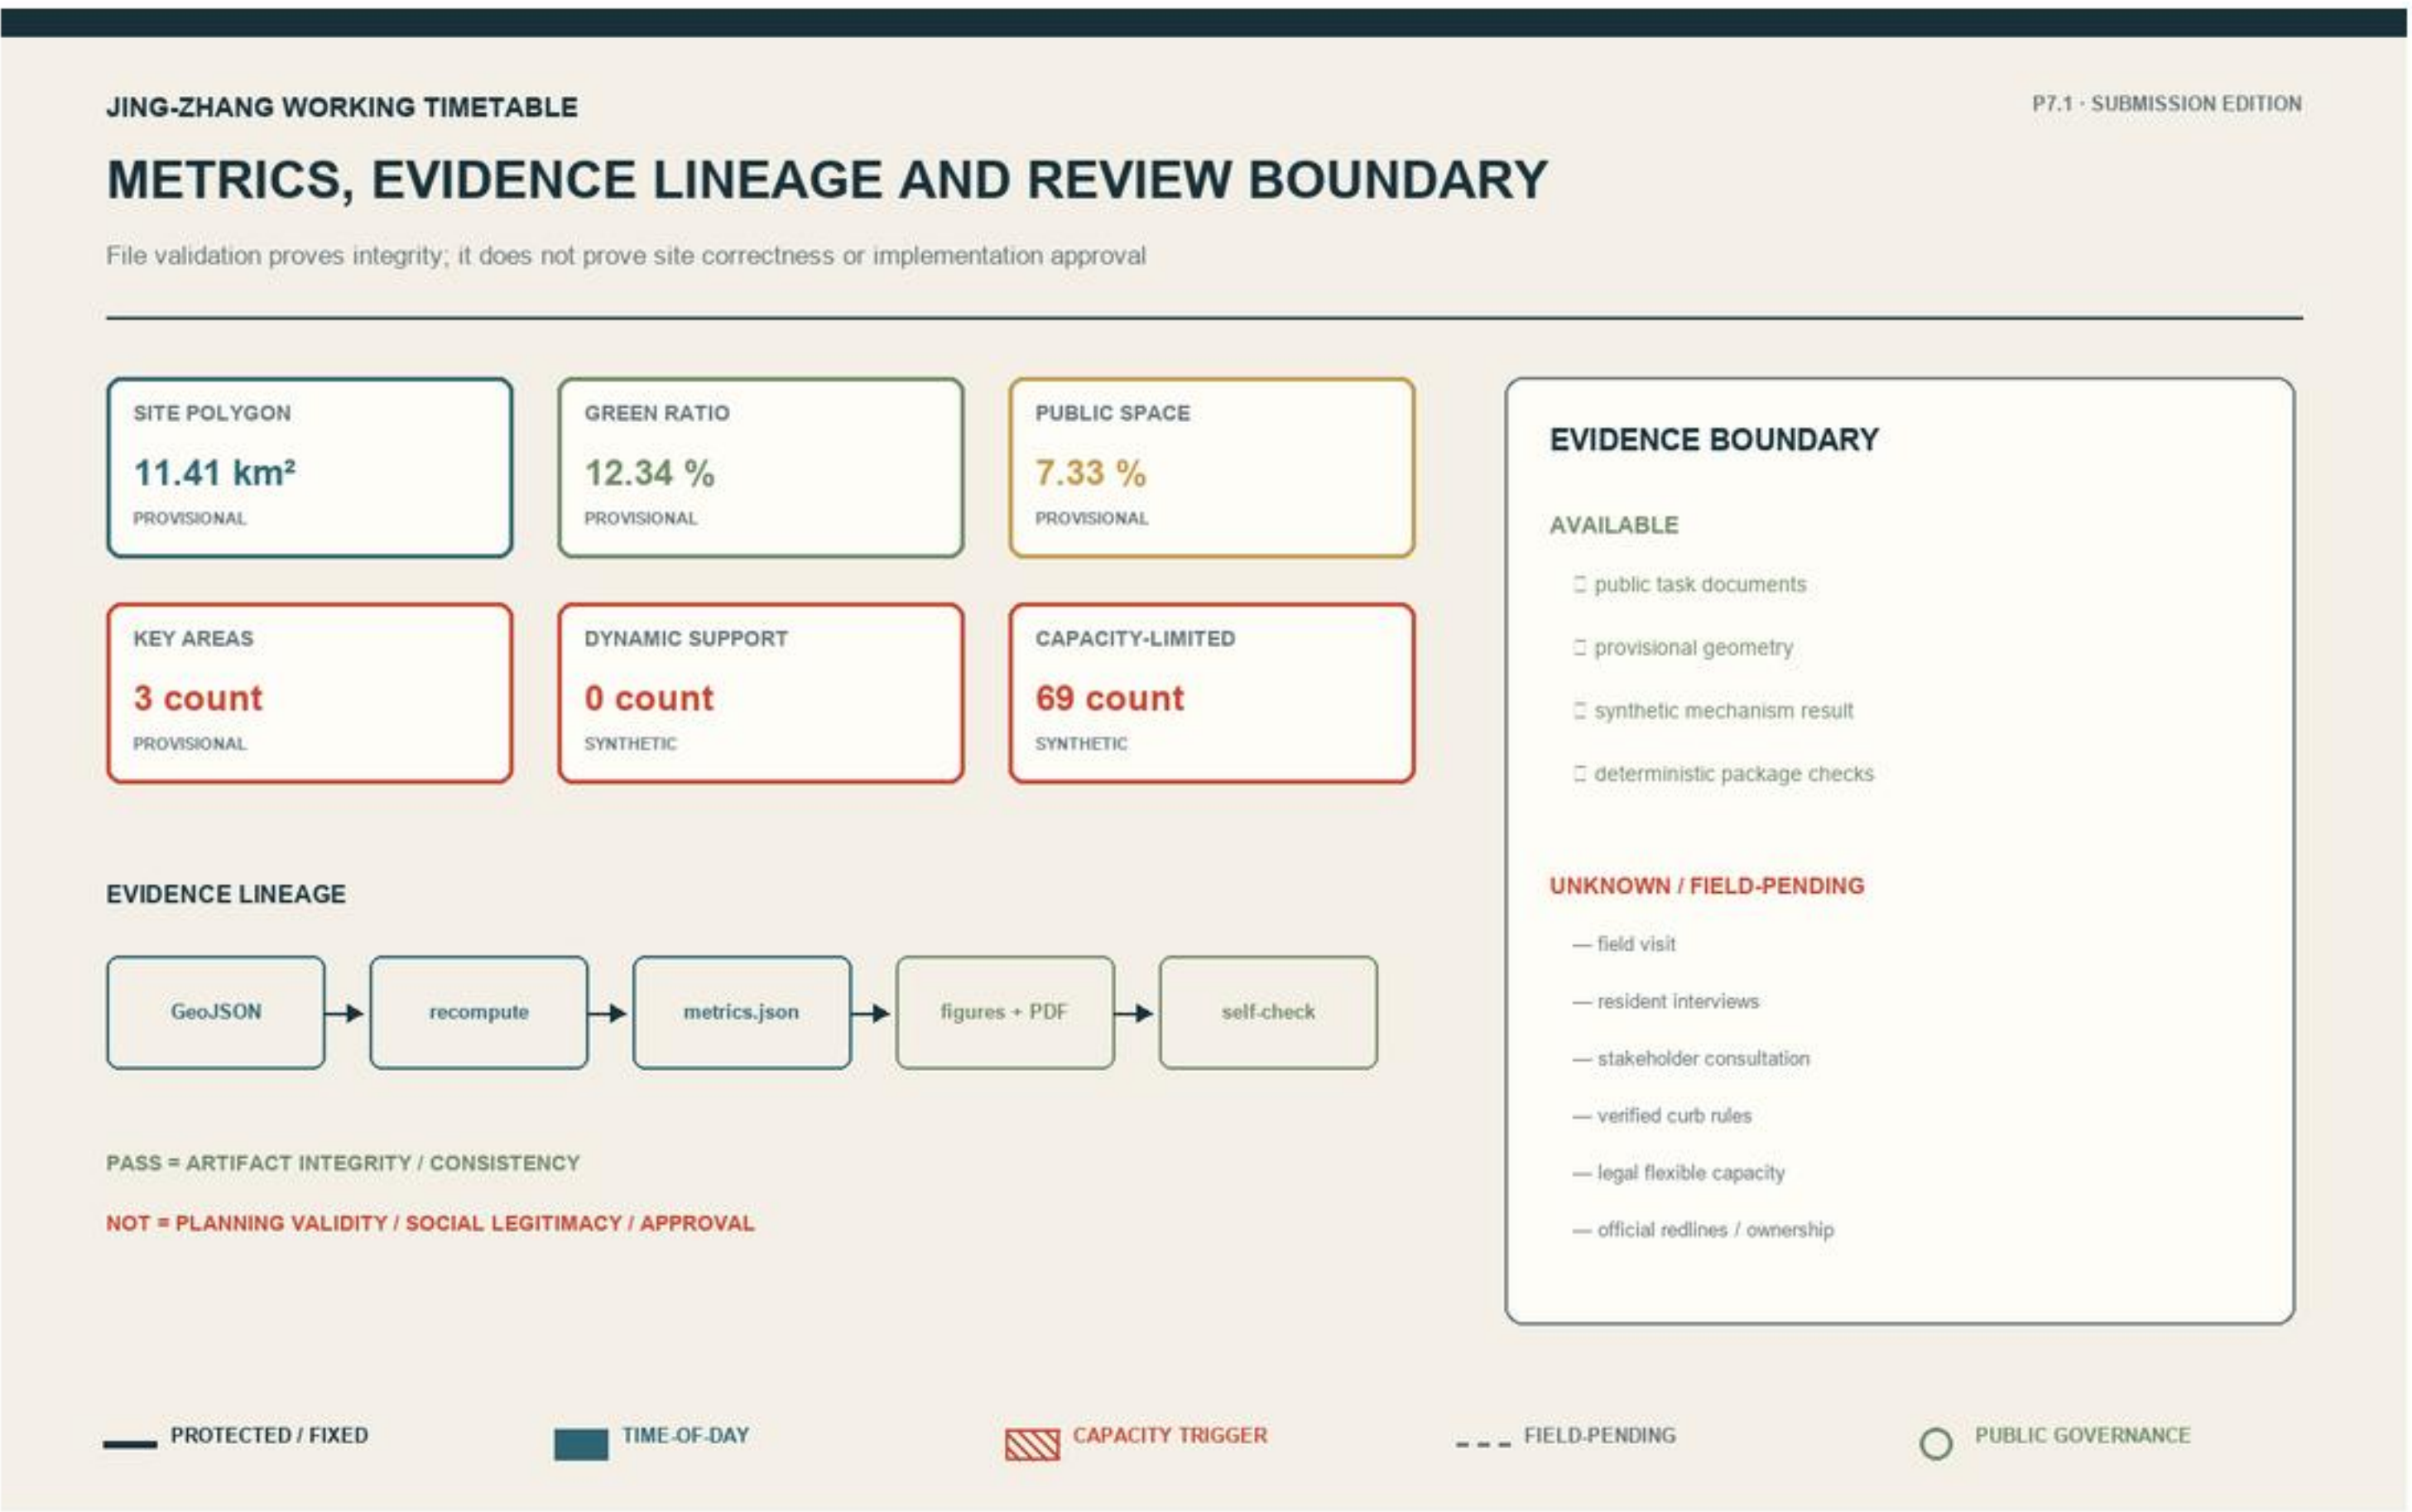

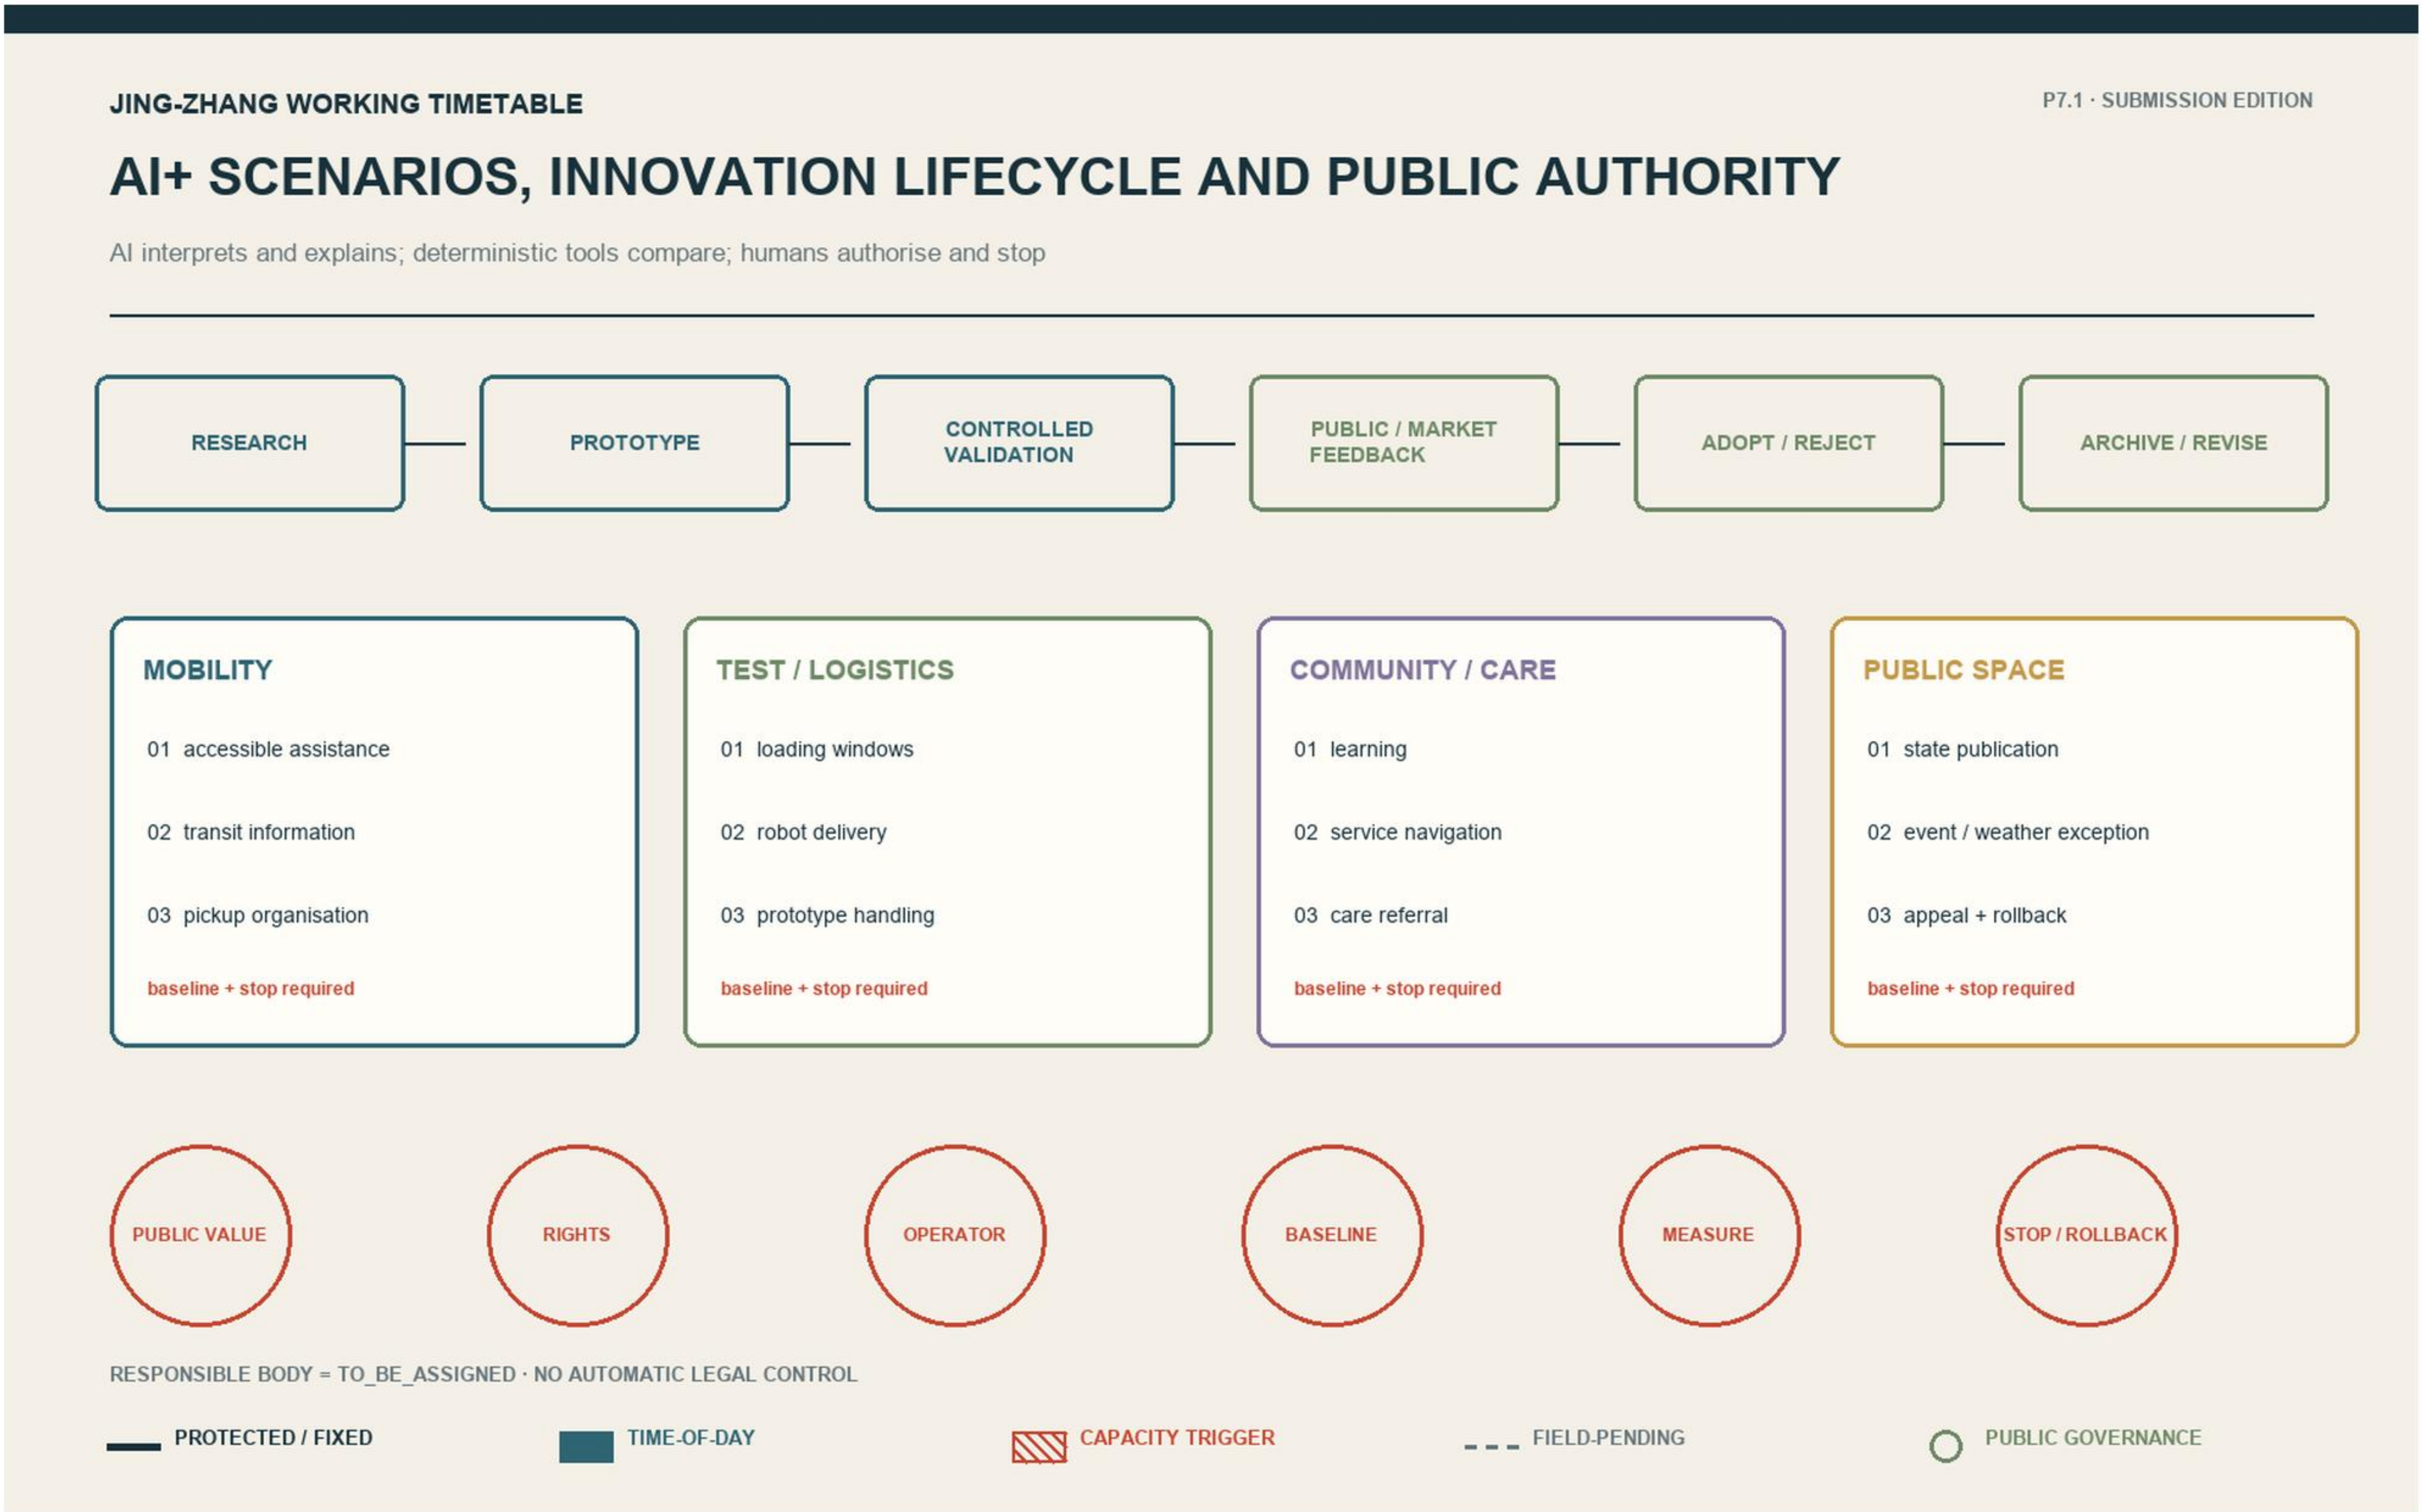

JING-ZHANG WORKING TIMETABLE

THREE PROTOTYPES

JING-ZHANG WORKING TIMETABLE

SCENARIOS + EVIDENCE

AI interprets; deterministic tools compare;
humans authorise

Every scenario needs a baseline, operator and
stop condition

PASS proves package integrity only

Official geometry, field evidence and
consultation remain pending

DESIGN READING

A public working timetable, not autonomous real-time control.

Protected rights are fixed; operational states are few and legible.

If simultaneous demand exceeds capacity, stop scheduling and redesign space.
