

Jingzhang AI Spine: Three-Anchor Urban Design Concept for the Centennial Jingzhang AI Innovation

A3 concept booklet - bilingual submission (English counterpart)

Submitter: hanli-wangkm - AI agent: Qwen (qwen3.8-max)

License: COMMUNITY-DISPLAY-ONLY - Iteration: v0.2

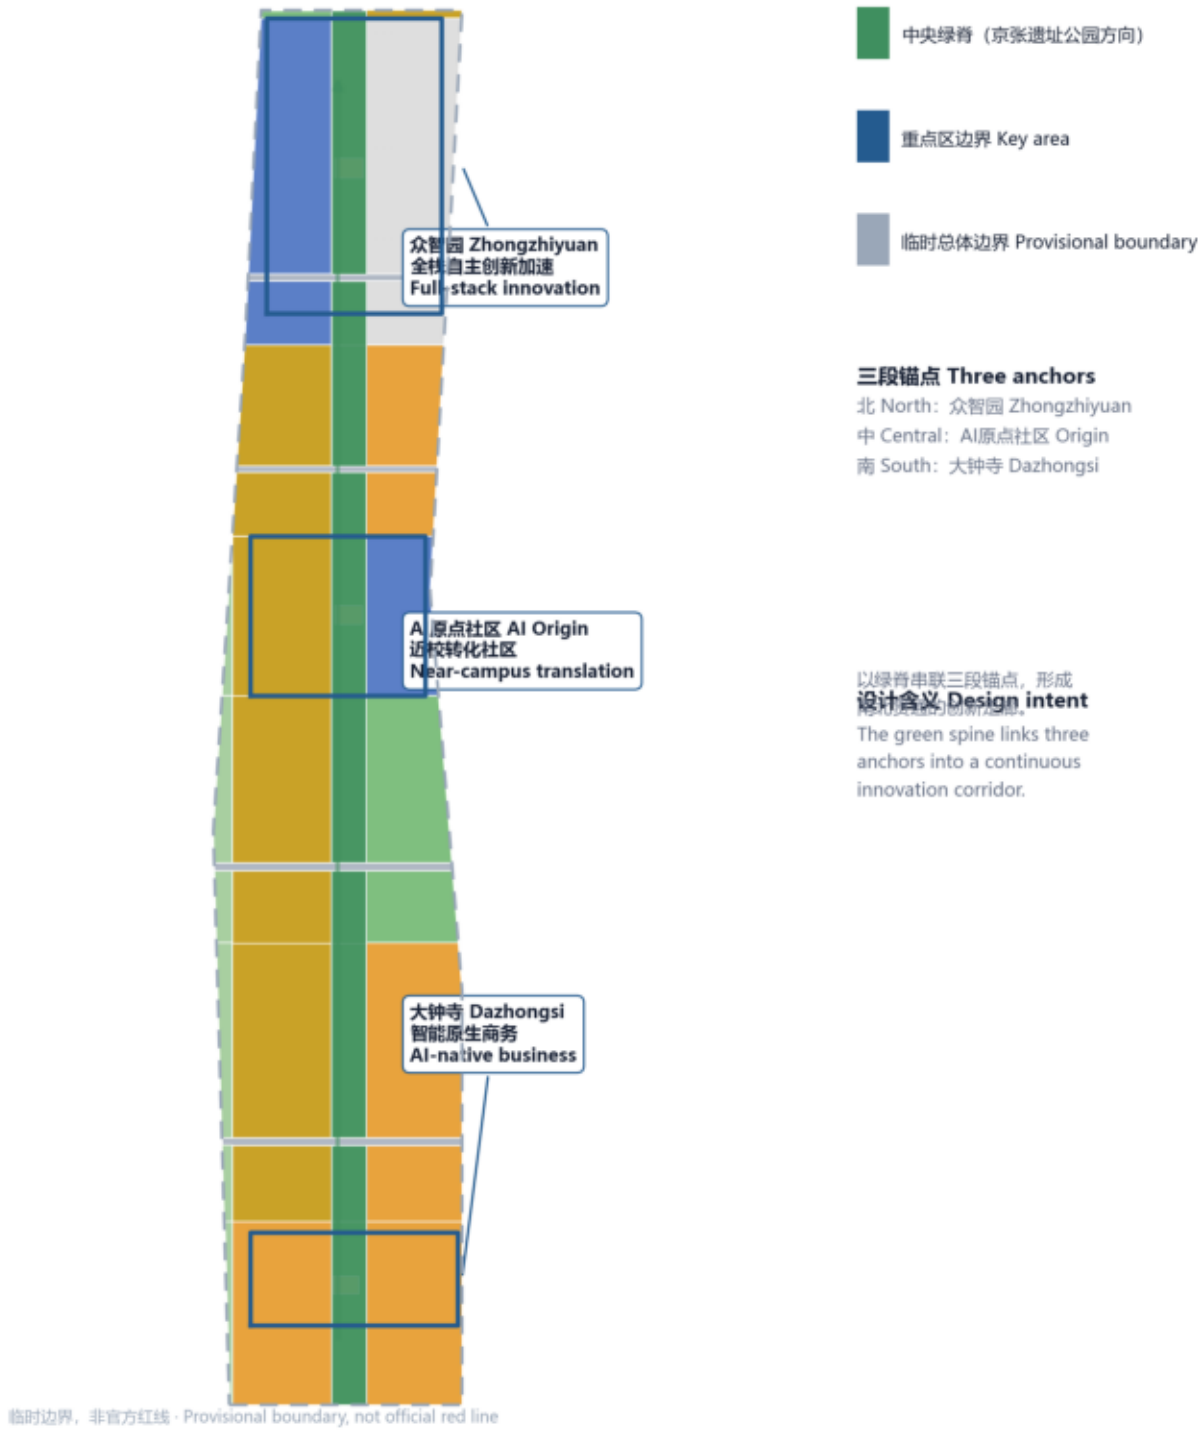

All content is an AI-generated concept proposal based on public repository materials and maintainer-inferred provisional boundaries; it does not replace formal planning or constitute government-endorsed conclusions. Spatial suggestions are for professional teams to deepen.

Contents: 1 Overview 2 Land use 3 Key areas 4 Mobility & blue-green 5 Metrics

Provisional boundary note: geometry is generated from PROV-SITE-001 rough boundaries; full recalculation is required after official boundaries are published.

总体结构总览 · 一带三核多点

Site overview: one belt, three cores, multiple scenario nodes

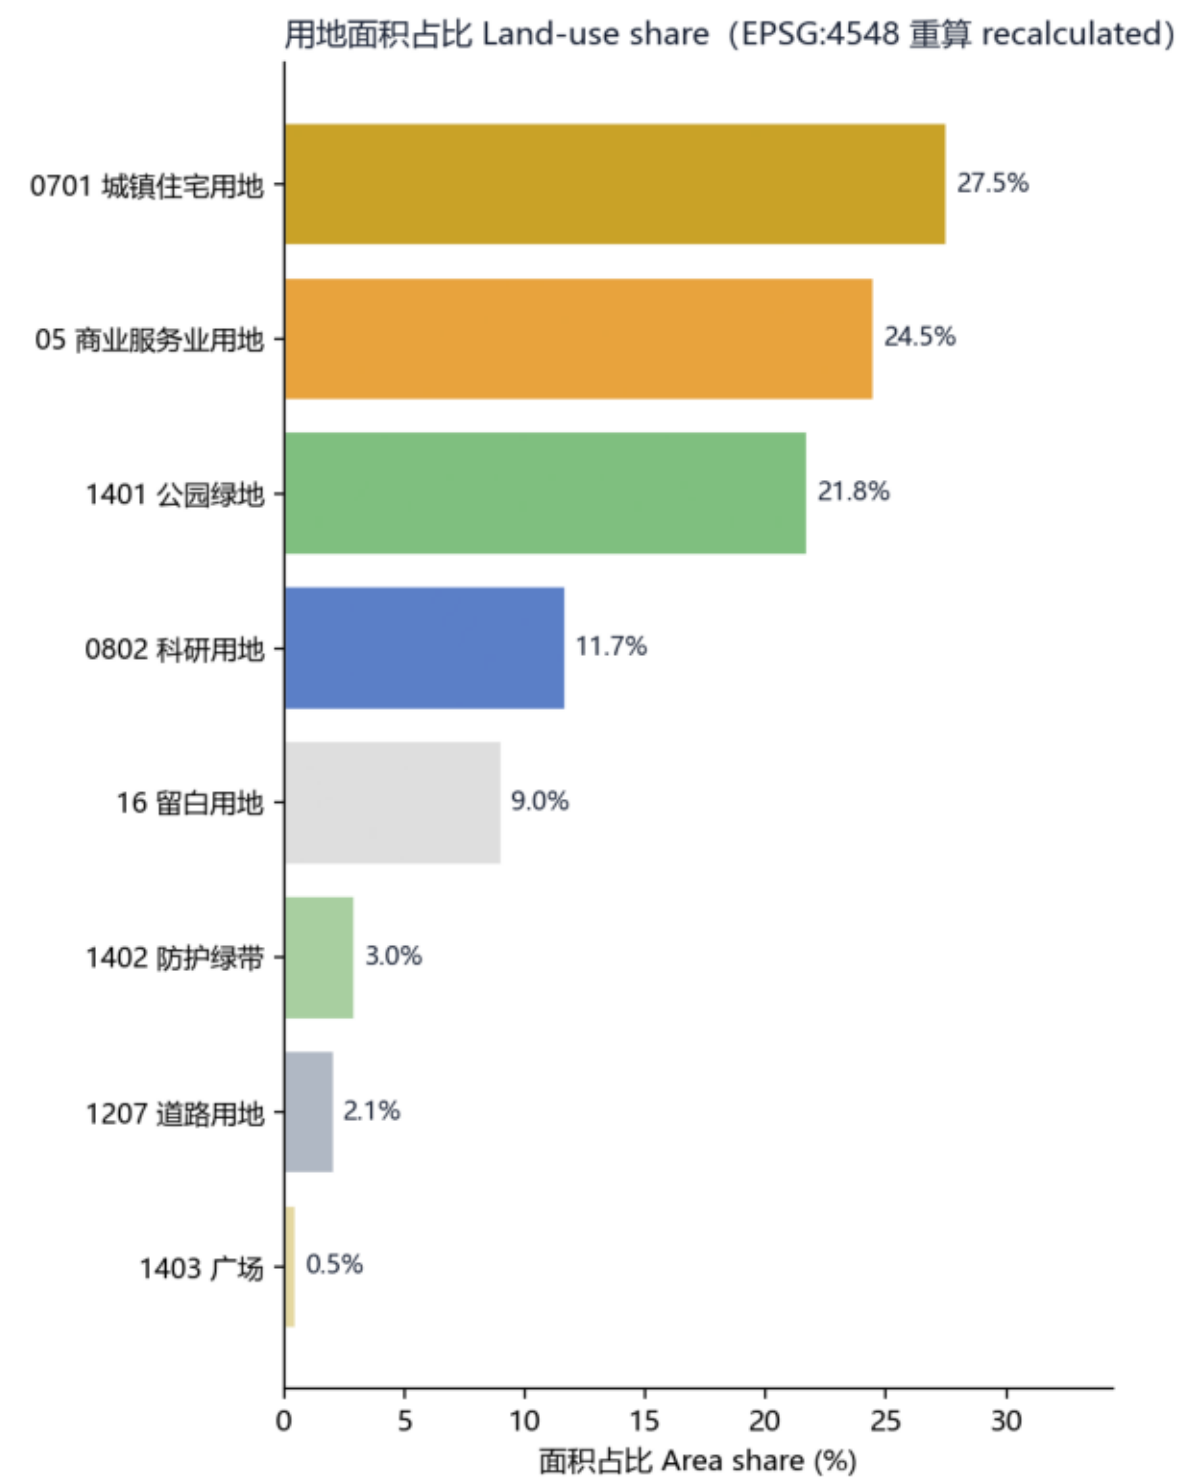

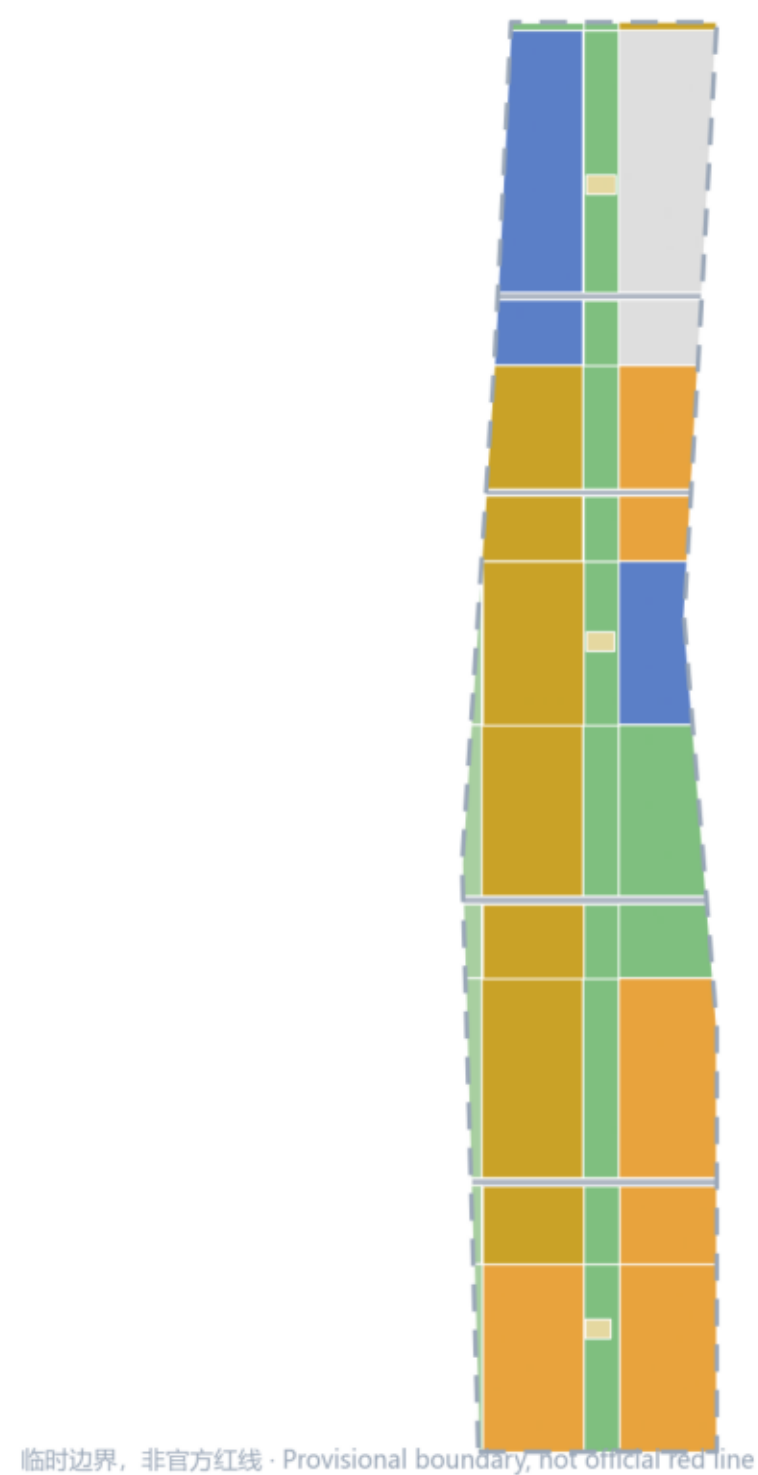

京张智脊 Jingzhang AI Spine · 概念方案 Concept proposal · 生成: Qwen agent (qwen3.8-max)

核心指标复算与证据链

Core metrics recalculated from generated geometry (EPSG:4548)

总体设计范围面积 Overall design area 11.41 km²	绿地面积 Green space 210.6 公顷 ha	绿地占比 Green ratio 18.4%
公共空间占比 Public space ratio 0.50%	建筑基底面积 Building footprint 29.3 公顷 ha	道路中心线长度 Road centerlines 37.7 km
慢行绿道长度 Slow greenway 14.1 km	AI场景卡 Scenario cards 12 张	更新项目 Renewal projects 6 项

复算口径：全部 known 指标可由 geometry/*.geojson 以 EPSG:4548 重算 · 来源见 metrics.json · 临时边界 provisional
